REVENUE AND AGRICULTURAL DEPARTMENT

# Weather Review of India for the week ending at 8 a m on Monday, February 17th, 1890

During the past week pressure has been disturbed by the passage from north west to south east across Northern India of a somewhat important de pression During the opening days of the week the distribution was such as has characterised the greater part of the present cold season, but on the 14th signs of a depression were observable on the north west frontier On the following day a well marked storm lay over the Indus Valley whence it travelled on a curved course across North Western India and down the Gangetic plain Subsequently there occurred a rapid barometric recovery in the north west and the normal distribution was re established

The chart of the 11th showed a large high pressure area over the north western and central parts of India, and relatively low pressures over the Bay and off the Malabar Coast The winds had the directions which usually accompany this distribution, blowing from north west and west down the Gangetic plain, from north over Bengal, from north west on the Madras side of the Peninsula, and from north east on the Bombay side There was some cloud over North Western India but elsewhere the weather was fine On the 12th and 13th there was no change of importance, but on the 14th the report showed a rapid barometric fall in Baluchistan and Upper Sind and south easterly winds over a large part of North Western India On the following morning, the 15th, a large well marked depression lay over the Indus Valley, the centre being not far from Jacobabad where the abnormal depression of the barometer amounted to 0 30" Strong and squally cyclonic winds prevailed throughout North Western India By the morning of the 16th the storm had reached the east of the Punjab and the west of the North Western Provinces It was less distinctly marked than on the 15th, owing probably to its neighbourhood to the hills, but the ano malous depression of the barometer was as great at the centre as on the previous day By the morning of the 17th the storm lay over Bengal, where it was occa sioning a depression of the barometer almost as large as that registered in North Western India In the Punjab, North Western Provinces and Rajputana pressure had increased rapidly and the distribution had to a large extent re assum ed the conditions it exhibited at the commencement of the week During the passage of the disturbance across Northern India, the weather was squally and gales of wind were experienced at several stations with showers in many places

*Temperature* —At the commencement of the week there was a slight defi ciency of temperature in Bengal and an excess elsewhere In North Western India, and more particularly on the hills the weather was most exceptionally warm This warm weather in North Western India continued during the greater part of the week, but the amount of the excess gradually decreased till, on the 17th, the mean temperature in the Punjab was below the normal average

The following table shows the variations of the mean temperature of the present and of the past weeks from the normal average —

| Provinces | Difference of mean temperature of last week from normal | Difference of mean temperature of present week from normal |
|---|---|---|
| | ° | ° |
| Burma | +0 8 | +1 3 |
| Bengal | —0 9 | +2 2 |
| North Western Provinces | +0 7 | +4 4 |
| Punjab | +2 2 | +5 9 |
| Bombay | +1 6 | +2 7 |
| Central Provinces | +2 2 | +2 8 |
| Guzerat and Central India | +0 8 | +5 0 |
| Sind and Rajputana | +1 9 | +6 4 |
| Madras | +0 2 | —0 6 |

This table shows that, with the exception of Madras, the mean temperature of every Province in India was above the normal average, the mean excess exceeding 5° in the Punjab, Guzerat, Central India, Sind and Rajputana In this comparison the readings at the hill stations are omitted, or the excess in the North West would have been still larger The following figures give the difference of the mean temperature at the following stations from the normal average for the week under review —

| Date | 11 | | 12 | | 13 | | 14 | |
|---|---|---|---|---|---|---|---|---|
| Station | Maximum | Minimum | Maximum | Minimum | Maximum | Minimum | Maximum | Minimum |
| Quetta | + 3 8 | + 3 [illegible] | + 5 9 | + 6 7 | +17 1 | +10 0 | +17 7 | +15 4 |
| Murree | +17 6 | +11 8 | +17 3 | +12 2 | +14 9 | +10 1 | +14 3 | +11 9 |
| Simla | +11 2 | +15 5 | +14 0 | +13 0 | + 7 4 | + 8 2 | + 9 2 | +10 4 |
| Ranikhet | + 7 2 | +12 | +11 7 | +10 5 | — 2 8 | + 4 3 | + 5 8 | + 6 7 |
| Mean | +10 0 | +10 8 | +12 2 | + 0 [illegible] | + 9 2 | + 8 2 | +11 8 | +11 1 |
| | +1 4 | | + 1 4 | | + 8 7 | | + 1 5 | |

| Date | 15 | | 16 | | 17 | |
|---|---|---|---|---|---|---|
| Station | Maximum | Minimum | Maximum | Minimum | Maximum | Minimum |
| Quetta | +18 3 | + 5 1 | — 2 7 | + 6 9 | + 1 4 | — [illegible] 2 |
| Murree | + 7 6 | + 0 3 | — 4 8 | — 5 4 | + 2 4 | — 3 4 |
| Simla | + 1 9 | + 2 0 | — 3 8 | + 3 3 | + 0 3 | + 2 5 |
| Ranikhet | + 8 6 | + 0 4 | + 0 5 | + 4 2 | + 6 4 | + 3 5 |
| Mean | + 9 1 | + 2·0 | — 2 7 | + 2 3 | + 2·6 | + 0 1 |
| | + 5 6 | | — 0 2 | | + 1 4 | |

In most parts of India the weather was warmer than usual throughout the entire week but Bengal experienced one day, Burma two days, and Madras five days cooler than usual

*Rainfall* —The rainfall of the week has been entirely confined to two regions in India, *viz*, the Punjab and Assam In the latter region the falls were very slight, the mean rainfall of the week in the Southern Valley being only 0 02" and in the Northern Valley 0 21" Sibsagar and Dibrugarh both received ½ inch of rain, while Cherrapunji received only 0 05 inch, so that the amount of rain apparently decreased from the hills southward In the Punjab the districts which received the largest average rainfall were the hills, the submontane and the north western parts of the Province In the west, south, and centre the rainfall was very light, the mean fall not exceeding one twentieth of an inch, and over the whole Province the average fall was less than that normally expected at this season The heaviest fall throughout the Province was 1½ inch at Pathankot this was followed by 1 inch at Attock and ½ inch at Dasuya (Hoshiarpar) and Sialkot

The week's fall having been everywhere below the normal average, it has had but little effect on the state of the seasonal rainfall From Behar north westward and westward across Northern India as far as the Indus, the rainfall of the season is deficient, the amount varying from 41 per cent in the east of the North-Western Provinces to 100 per cent in Rajputana and Kattiawar

| Province | Division | Rainfall data for week ending 17th February 1890: Average actual rainfall of Division | Average normal rainfall of Division | Excess or defect in inches | Rainfall data from October 15th to 17th February 1890: Average actual rainfall of season to date | Average normal rainfall October 15th to 17th February | Excess or defect of (seasonal) rainfall expressed as a percentage |

*Secretary to the Government of India*

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

# Weekly Report on the State of the Season and Prospects of the Crops

**Madras**—*For week ending 22nd February*—Rainfall very slight in Madura and none elsewhere Crops generally good, but withered in parts of Nellore, Chingleput, South Arcot Tanjore, Madura, Tinnevelly Coimbatore, and Salem Paddy blighted in one taluk in North Arcot cotton affected by northerly winds in parts of Tinnevelly Prices rising in ten districts, falling in seven, stationary in others Prospects generally fair

**Bombay**—*For week ending 26th February*—Slight rain in Shikarpur and Hyderabad more wanted for late crops in Karachi and Upper Sind Frontier Crops blighted or damaged by frost or locusts in two districts of Sind indifferent or middling in Poona, Ahmednagar and Satara, cotton in Dharwar blighted, crops otherwise satisfactory Opium in Baroda fair

**Bengal**—*For week ending 25th February*—Weather becoming gradually warmer No rain during the week *Rabi* crops ripening, and harvest prospects generally hopeful Mustard and other early *rabi* crops being gathered Tobacco generally and *ganja* in Rajshahye good Sugar manufacture proceeding with fair outturn in many districts Collection of opium in progress the weather being very favourable Spring rice doing well, and ploughing for early rice and jute going on in some districts Common rice still generally dear, and no marked fluctuation in price reported from any of the districts during the past week No change to report as to condition of people in the area of Balasore where apprehensions of distress have been entertained

**North Western Provinces and Oudh**—*For [illegible] ending 26th February*—Weather generally cloudy and [illegible], but rain holds off *Rabi* harvest has begun in the easter[illegible] The poppy is in flower and is doing well but the [illegible] high winds are unfavourable to the later sowings Supplies are sufficient and fluctuations in prices unimportant

**Punjab**—*For week ending 26th February*—Slight rain has fallen in Ferozepur Rawalpindi and Peshawar Prices are stationary in Hissar Ferozepur and Dera Ismail Khan and rising elsewhere Sowings of extra *rabi* in progress, ploughings for *kharif* have commenced in Lahore Crops are suffering for want of rain in most districts Prospects of wheat doubtful in Amballa Locusts appeared in Rawalpindi and Shahpur, but damaged the crops in only two villages of the latter district Fodder sufficient except in Hissar, Sialkot, Lahore, Dera Ismail Khan, and in parts of Multan

**Central Provinces**—*For week ending 26th February*—Weather warm and rather cloudy towards close of week *Rabi* harvest in progress Estimated outturn of wheat and linseed is up to the average in most districts Prices remain steady

**Burma**—*For week ending 22nd February*—The only district in which rain fell [illegible] Upper Burma in the Bhamo district the crop prospect is not [illegible] elsewhere the prospect is satisfactory In Lower Burma [illegible] Mergui [illegible] paddy is noticeable in four and a fall in two districts In [illegible] the price [illegible] fall in the price in Mandalay and a rise in Yamethin, In Upper Burma fluctuations are shown The food supply is sufficient throughout the Province

**Assam**—*For week ending 26th February*—Weather getting warm Slight rain in Cachar, Sibsagar and Lakhimpur Gathering of mustard, pressing of sugarcane and ploughing for summer rice still continue Tea doing well

**Mysore and Coorg**.—*For week ending 26th February*.—In Mysore the standing crops are in good condition. Paddy and sugarcane harvested in parts. Outturn and prospects generally favourable.

No standing crops in Coorg.

**Berar and Hyderabad**.—*For week ending 26th February*.—In Berar the weather is somewhat warm. Threshing of *jowari* and other *kharif* crops almost finished. *Rabi* in good condition, harvesting commenced. Land being prepared for next season. Fodder sufficient except in Ellichpur and Danapur taluks. Prices unchanged.

No rain at Hyderabad. Weeding of *tabi* crops commenced, *rabi* crops thriving. Prices stationary.

**Central India**.—*For week ending 25th February*.—Opium crop slightly injured by frost in Bhopal. Wheat harvesting commenced in the Nimar district of the Bhopawar Agency, yield below average. Wheat ripening in other parts. Prices of food slightly risen in Jhalna, but falling somewhat in Bhopal. Cultivation restricted in Nimar owing to want of water. Partial rain in Baghelkhand. No other material changes since last report.

**Rajputana**.—*For week ending 26th February*.—Agricultural operations satisfactory except in Kerowli. Standing crops good except in Harowtee and Kerowli. Agricultural stock good. Pasturage or fodder sufficient except in Marwar and Dholpur. Prices rising in Marwar, Kerowli and Harowtee, steady elsewhere.

**Nepal**.—*For week ending 20th February*.—No rain; weather clear, but cloudy at times. Prospect of wheat crop fair. Potatoes are being sown.

## HOME DEPARTMENT.

### NOTIFICATIONS —PUBLIC

*Calcutta, the 6th March, 1890*

**No. 490**—In accordance with the provisions of section 18 sub section (1) of the Indian Explosives Act, IV of 1884, and with the directions contained in Home Department Notification No 1964, dated the 2nd September, 1887, the Governor General in Council is pleased to publish, for general information, the following draft rule to be substituted for Rule 6 (vi) of the rules to regulate the transport and importation of explosives (published in Home Department Notification No 1417, dated the 24th June 1887) which he proposes to make under the Act.

The draft will be taken into consideration on the expiry of two months from the date of this Notification

*DRAFT RULE 6 (vi)*

Subject to the exception provided for in clause (e), no explosive shall be conveyed by passenger train except of the kinds and in the manner hereinafter specified in this rule

(a) Safety cartridges and percussion-caps and safety-fuse (for blasting), also fog signals for railway use, which may be conveyed in ordinary wagons or carriages.

**(b) Dynamite which may be carried in the form of cartridges up to the limit of 5lbs, provided that no detonators are carried in the same compartment.**

**(c) Detonators which may be carried to the number of 200, provided that in no case the amount of fulminate of mercury in the package or packages containing the detonators exceeds in the aggregate 3oz (a certificate to this effect being given by the Company, firm or person tendering the detonators for transport or by its or his Agent), provided also that no dynamite is carried in the same compartment**

**(d) Sporting gunpowder or non-safety cartridges packed in double cases as before provided, so long as the gunpowder is contained in one pound tin canisters packed in a stout wooden case with an outer covering of tin or zinc completely spark proof, or in metal lined cases of a pattern approved by the Railway Administration But no outer case shall contain more than 25lbs. of gunpowder and the total consignment of gunpowder or non-safety cartridges by one train shall not exceed 80lbs**

**(e) Explosives may be carried by mixed trains on any line on which goods trains are not running subject to the conditions that not more than one vehicle containing explosives is forwarded at any one time by a mixed train, that the precautions prescribed for conveyance by goods trains are observed, and that directly a wagon containing explosives arrives at a section on which goods trains are running, it is detached from the mixed train**

POLICE

*The 6th March, 1890*

**No 204—In supersession of Home Department Notification No 65, dated the 22nd January, 1890, and under section 8 of Act VIII of 1879 (an Act for the**

prevention of the murder of female infants), the Governor General in Council is pleased to confirm the following rules drawn up by the Government of Bombay under the provisions of section 2 of that Act for regulating the marriage expenses of the Kadva Kunbi caste in the Districts of Ahmedabad and Kaira

These rules shall come into force from date of their publication, and shall apply to the Kadva Kunbis in all villages of the Ahmedabad and Kaira Districts

*Rules under Act VIII of 1870 for regulating the marriage expenses of the Kadva Kunbis in the Ahmedabad and Kaira Districts*

1 The chánllo to be given at betrothal by the father or guardian of the bride to the father or guardian of the bridegroom shall not exceed Re 1 and seven soparis or betel nuts

2 The marriage chánllo to be paid by the father or guardian of the bride to the father or guardian of the bridegroom may be Re 1 and shall not exceed Rs 101, and one rupee on account of the fee to the Unja Máta shall be deducted from the amount so paid

3 The value of the cocoanuts to be distributed among the marriage procession or at other places on the occasion may be Re 1 and shall not exceed Rs 10

4 The expenses of the "Mosalu" may be Re 1 and shall not exceed Rs 10 on all accounts

Mosálu is a marriage present by the bride's maternal relations

5 The payment on account of "Chhedo Jhalá man may be Re 1 and shall not exceed Rs 2

Chhedo Jhalâman means the ceremony when the bridegroom touches the fringe of his mother in law's dress

6 The payment on account of "Mahi Matlu may be Re 1 and shall not exceed Rs 5

Mahi Mátlu is the gift of an earthen pot with eatables at the time of the departure of the bride groom's party after the marriage is over

7 The payment on account of Purat may be Re 1 and shall not exceed Rs 5

Purat means the gift of metal vessels at the departure of the bridegroom after the marriage is over

8 The amount to be paid to the bride's mother in law on account of 'Page Payanu may be Re 1 and shall not exceed Rs 7

Page Payanu means a gift to be paid at the time of prostration of the bride before her mother in law

9 Not more than 5 Dasaiyan or dinner parties shall be given by the bride's family to the bridegroom's and the number of guests at each shall not exceed 25

10 The expenses of the Ján or marriage party going to the bride's village and defrayed by the bride's family may be Re 1 but shall not exceed Rs 30, besides not more than five dinner parties as mentioned in Rule 9 provided that if the party stays longer more dinner parties may be given on condition that the total number of meals given does not exceed 125

11 The amount to be paid on all accounts to the bridegroom's friends on the occasion of the bride's going to her husband's house with her first child may be Re 1 and shall not exceed Rs 11 Besides this the bride's father may give a present of clothes and ornaments

12 The 'Natra' Chanllo to be given by the father or guardian of the bride to the father or guardian of the bridegroom or to the bridegroom himself may be Re 1 and shall not exceed Rs 100 Ornaments should be bought with this money which will be the wife's property during her life and after her death will belong to her husband

13 The father or guardian of the bride shall not take any money from the bridegroom or from the parents or guardian of the bridegroom or guardian of the bridegroom on account of giving his daughter

14 On any occasion when the bridegroom is invited to his father in law's house the amount to be paid to him as 'Pagdi * shall not exceed Rs 2 He shall not take with him more than five men

* Lit Turban

15 Nothing in the above rules shall prevent the acceptance of customary presents of sweetmeats &c, on the usual occasions or of such assistance or allowance as the bride's father may wish to give or make when his daughter and her husband set up house for themselves provided that such gifts shall not be claimable under any pretext and that they shall not be used by or applied for the use or benefit of the bridegroom's father

16 (a) When a person marries a second wife, the amount of chánllo shall not exceed Rs 100

(b) When a person marries a second wife *during the life time of the first*, the chánllo paid by the relations of the second wife may be Re 1, but shall not exceed Rs 5, and no other payment on any account whatever shall be made or received by either party

## REVENUE DEPARTMENT

### A Dictionary of the Economic Products of India

BY DR GEO. WATT C I E

*Reporter on Economic Products*

**Published under the authority of the Government of India in the Revenue and Agricultural Department**

The first two volumes of this work are now ready for issue and intending subscribers are invited to register their names with the Superintendent of Government Printing Calcutta

The Dictionary is intended to deal with the products of India—animal vegetable and mineral each product being treated after a uniform plan the paragraphs of which give the scientific vernacular and European names; habitat or source history; properties and uses both chemical and industrial trade statistics, markets &c The work is arranged alphabetically according to scientific nomenclature but commercial and important vernacular names are also given as cross references so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks and with a reference to the original publication Numerous contributions have however furnished the results of new discoveries and confirmed the vernacular names so that the Dictionary is not only a complete compilation of published information but has been brought abreast of the most recent inventions and discoveries

Volume I contains the letters A and B and consists of 559 royal pages, Volume II embraces the letter C in 689 pages, Volume III is in course of preparation and will contain the letters D E F and G The whole work will it is expected be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary; and this as a work of reference it is hoped may prove of considerable value

The price to subscribers will be in India R30 and in England 6 guineas, *payable in advance* for the complete set An extra charge for packing and postage will be made for the set—in India at 8 annas per volume and for England at 2 rupees a annas per volume

For copies bound in half calf or half morocco R6 and 8 shillings respectively will be charged extra for the whole set

****No copies will be issued to non subscribers till the work is complete and no single volume will be sold separately The price to non subscribers will be R45 in India, and 3 guineas in England exclusive of packing and postage*

## PART IV

### Acts of the Governor General's Council assented to by the Governor General

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 7th March 1890 and is hereby promulgated for general information —

### ACT No VI OF 1890

*An Act to provide for the Vesting and Administration of Property held in trust for charitable purposes*

WHEREAS it is expedient to provide for the vesting and administration of property held in trust for charitable purposes It is hereby enacted as follows —

Title extent and commencement

1. (1) This Act may be called the Charitable Endowments Act 1890

(2) It extends to the whole of British India inclusive of Upper Burma and British Baluchistan and

(3) It shall come into force on the first day of October, 1890

Definition

2 In this Act ' charitable purpose includes relief of the poor education medical relief and the advancement of any other object of general public utility, but does not include a purpose which relates exclusively to religious teaching or worship

Appointment and incorporation of Treasurer of Charitable Endowments.

3 (1) The Governor General in Council may appoint an officer of the Government by the name of his office to be Treasurer of Charitable Endowments for the territories subject to any Local Government

(2) Such Treasurer shall, for the purposes of taking, holding and transferring moveable or immoveable property under the authority of this Act, be a corporation sole by the name of the Treasurer of Charitable Endowments for the territories subject to the Local Government and as such Treasurer shall have perpetual succession and a corporate seal, and may sue and be sued in his corporate name

Orders vesting property in Treasurer

4 (1) Where any property is held or is to be applied in trust for a charitable purpose, the Local Government if it thinks fit may on application made as hereinafter mentioned and subject to the other provisions of this section order by notification in the official Gazette, that the property be vested in the Treasurer of Charitable Endowments on such terms as to the application of the property or the income thereof as may be agreed on between the Local Government and the person or persons making the application and the property shall thereupon so vest accordingly

(2) When any property has vested under this section in a Treasurer of Charitable Endowments he is entitled to all documents of title relating thereto

(3) A Local Government shall not make an order under sub section (1) for the vesting in a Treasurer of Charitable Endowments of any securities for money, except the following namely —

(a) promissory notes, debentures, stock and other securities of the Government of India, or of the United Kingdom of Great Britain and Ireland,

(b) bonds debentures and annuities charged by the Imperial Parliament on the revenues of India,

(c) stock or debentures of, or shares in, Railway or other Companies, the interest whereon has been guaranteed by the Secretary of State for India in Council

(*d*) debentures or other securities for money issued by or on behalf of any local authority in exercise of powers conferred by an Act of a legislature established in British India

(*e*) a security expressly authorised by any order which the Governor General in Council may make in this behalf

(*4*) An order under this section vesting property in a Treasurer of Charitable Endowments shall not require or be deemed to require him to administer the property or impose or be deemed to impose upon him the duty of a trustee with respect to the administration thereof

Schemes for administration of property vested in the Treasurer

5 (*1*) On application made as hereinafter mentioned and with the concurrence of the person or persons making the application the Local Government if it thinks fit may settle a scheme for the administration of any property which has been or is to be vested in the Treasurer of Charitable Endowments, and may in such scheme appoint by name or office a person or persons not being or including such Treasurer to administer the property

(*2*) On application made as hereinafter mentioned, and with the concurrence of the person or persons making the application, the Local Government may if it thinks fit, modify any scheme settled under this section or substitute another scheme in its stead

(*3*) A scheme settled, modified or substituted under this section shall, subject to the other provisions of this section come into operation on a day to be appointed by the Local Government in this behalf and shall remain in force so long as the property to which it relates continues to be vested in the Treasurer of Charitable Endowments or until it has been modified or another such scheme has been substituted in its stead

(*4*) Such a scheme when it comes into operation, shall supersede any decree or direction relating to the subject matter thereof in so far as such decree or direction is in any way repugnant thereto and its validity shall not be questioned in any Court nor shall any Court give, in contravention of the provisions of the scheme or in any way contrary or in addition thereto, a decree or direction regarding the administration of the property to which the scheme relates

(*5*) In the settlement of such a scheme effect shall be given to the wishes of the author of the trust so far as they can be ascertained and, in the opinion of the Local Government effect can reasonably be given to them

(*6*) Where a scheme has been settled under this section for the administration of property not already vested in the Treasurer of Charitable Endowments it shall not come into operation until the property has become so vested

Mode of applying for vesting orders and schemes

6 (*1*) The application referred to in the two last foregoing sections must be made —

(*a*) if the property is already held in trust for a charitable purpose, then by the person acting in the administration of the trust or, where there are more persons than one so acting, then by those persons or a majority of them, and

(*b*) if the property is to be applied in trust for such a purpose, then by the person or persons proposing so to apply it

(*2*) For the purposes of this section the executor or administrator of a deceased trustee of property held in trust for a charitable purpose shall be deemed to be a person acting in the administration of the trust

Exercise by Governor General in Council of powers of Local Government

7 (*1*) The Governor General in Council may exercise all or any of the powers conferred on the Local Government by sections 4 and 5

(*2*) When the Governor General in Council has signified to the Local Government his intention of exercising any of those powers with respect to any property that Government shall not without his previous sanction, exercise them with respect thereto

Bare trusteeship of Treasurer

8 (*1*) Subject to the provisions of this Act, a Treasurer of Charitable Endowments shall not as such Treasurer act in the administration of any trust whereof any of the property is for the time being vested in him under this Act

(*2*) Such Treasurer shall keep a separate account of each property for the time being so vested in so far as the property consists of securities for money and shall apply the property or the income thereof in accordance with the provision made in that behalf in the vesting order under section 4 or in the scheme if any, under section 5 or in both those documents

(*3*) In the case of any property so vested other than securities for money, such Treasurer shall subject to any special order which he may receive from the authority by whose order the property became vested in him permit the persons acting in the administration of the trust to have the possession management and control of the property, and the application of the income thereof, as if the property had been vested in them

Annual publication of list of properties vested in Treasurer

9 A Treasurer of Charitable Endowments shall cause to be published annually in the local official Gazette, at such time as the Local Government may direct, a list of all properties for the time being vested in him under this Act and an abstract of all accounts kept by him under sub-section (*2*) of the last foregoing section

Limitation of functions and powers of Treasurer

10 (*1*) A Treasurer of Charitable Endowments shall always be a sole trustee and shall not, as such Treasurer, take or hold any property otherwise than under the provisions of this Act or, subject to those provisions, transfer any property vested in him except in obedience to a decree divesting him of the property, or in compliance with a direction in that behalf issuing from the authority by whose order the property became vested in him

(*2*) Such a direction may require the Treasurer to sell or otherwise dispose of any property vested in him and, with the sanction of the authority issuing the direction, to invest the proceeds of the sale or other disposal of the property in any such security for money as is mentioned in section 4, sub section (*3*), clause

) (b), (c) (d) or (e), or in the purchase of immoveable property

(3) When a Treasurer of Charitable Endowments is divested, by a direction of the Local Government or the Governor General in Council under this section, of any property, it shall vest in the person or persons acting in the administration thereof and be held by him or them on the same trusts as those on which it was held by such Treasurer

11 If the office held by an officer of the Government who has been appointed to be a Treasurer of Charitable Endowments is abolished or its name is changed, the Governor General in Council may appoint the same or another officer of the Government by the name of his office to be such Treasurer and thereupon the holder of the latter office shall be deemed for the purposes of this Act to be the successor in office of the holder of the former office

Provision for continuance of office of Treasurer in certain contingencies

12 If by reason of an alteration of the limits of the territories subject to a Local Government, or for any other reason, it appears to the Governor General in Council that any property vested in a Treasurer of Charitable Endowments should be vested in another such Treasurer he may direct that the property shall be so vested and thereupon it shall vest in that other Treasurer and his successors as fully and effectually for the purposes of this Act as if it had been originally vested in him under this Act

Transfer of property from one Treasurer to another

13 The Governor General in Council may frame forms for any proceedings under this Act for which he considers that forms should be provided, and may make such rules consistent with this Act as he may deem expedient for—

Power to frame forms and make rules

(a) prescribing the Local Government which is to exercise the powers conferred by this Act in the case of property which is, or is situated in territories subject to two or more Local Governments,

(b) prescribing the fees to be paid to the Government in respect of any property vested under this Act in a Treasurer of Charitable Endowments,

(c) regulating the cases and mode in which schemes or any modifications thereof are to be published before they are settled or made under section 5

(d) prescribing the forms in which account are to be kept by Treasurers of Charitable Endowments and the mode in which such accounts are to be audited, and

(e) generally carrying into effect the purposes of this Act

14 No suit shall be instituted against the Government in respect of anything done or purporting to be done under this Act, or in respect of any alleged neglect or omission to perform any duty devolving on the Government under this Act or in respect of the exercise of or the failure to exercise any power conferred by this Act on the Government, nor shall any suit be instituted against a Treasurer of Charitable Endowments except for divesting him of property on the ground of its not being subject to a trust for a charitable purpose, or for making him chargeable with or accountable for the loss or misapplication of any property vested in him or the income thereof where the loss or misapplication has been occasioned by or through his wilful neglect or default

Indemnity to Government and Treasurer

15 Nothing in this Act shall be construed to impair the operation of section 111 of the Statute 53 George III Chapter 155 or of any other enactment for the time being in force respecting the authority of an Advocate General at a presidency to act with respect to any charity or of sections 8 9 10 and 11 of Act No XVII of 1864 (*an Act to constitute an Office of Official Trustee*) respecting the vesting of property in trust for a charitable purpose in an Official Trustee

Saving with respect to Advocate General and Official Trustee

16 A Local Government shall, in the exercise of its powers under this Act, be subject to the control of the Governor General in Council

General controlling authority of Governor General in Council

### Bills introduced into the Council of the Governor General of India for making Laws and Regulations or published under Rule 22

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 7th March 1890 —

NO 6 OF 1890

*A Bill to enable the Comptoir National D Escompte de Paris to sue and be sued in the name of the Chief Manager for the time being of the Indian Agencies of the said Comptoir*

WHEREAS certain persons have formed themselves into a Company at Paris for the transaction of banking business under the name of the Comptoir National D Escompte de Paris

And whereas the said Company was constituted and established under and by virtue of certain resolutions passed on the 3rd and 11th June, 1889, by General Meetings of Shareholders,

And whereas by the Articles of Association of the said Company it is provided (among other things) that the said Company may continue to exist and carry on business for a term of fifty years from the first day of May 1889 that the shareholders of the Company shall be responsible only to the amount of their shares respectively, that the rights and liabilities attached to each share shall follow its transmission into whatever hands it may pass, and that the Company may establish Agencies or Branches as well in France as in the French Colonies and abroad, such Agencies to be organized and conducted in the same manner as the Comptoir National D'Escompte itself,

And whereas Agencies of the said Company have been recently established in Calcutta and in Bombay,

And whereas on the thirtieth day of April 1862 a Convention was concluded and signed at Paris between Her Majesty the Queen of Great Britain and Ireland and His Majesty the Emperor of the French comprising the following Articles that is to say *First*—The High Contracting Parties declare that they mutually grant to all Companies and other Associations, commercial industrial or financial constituted and authorized in conformity with the laws in force in either of the two countries, the power of exercising all their rights, and of appearing before the tribunals whether for the purpose of bringing an action or for defending the same, throughout the dominions and possessions of the other Power subject to the sole condition of conforming to the laws of such dominions and possessions *Second*—It is agreed that the stipulations of the preceding article shall apply as well to Companies and Associations constituted and authorized previously to the signature of the present Convention as to those which may subsequently be so constituted and authorized *Third*—The present Convention is concluded without limit as to duration Either of the High Powers shall however, be at liberty to terminate it by giving to the other a year s previous notice The two High Powers moreover reserve to themselves the power to introduce into the Convention by common consent any modifications which experience may show to be desirable

And whereas it is desirable that effect should be given to the said Convention so far as the Comptoir National D Escompte de Paris and its Agencies now or hereafter established in British India are concerned

It is hereby enacted as follows —

Title extent and commencement

1 (*1*) This Act may be called the Comptoir National D Escompte de Paris Act 1890

(*2*) It extends to the whole of British India and

(*3*) It shall come into force at once

2 In this Act, unless there is something repugnant in the subject or context, the expressions "Chief Manager of the Agencies in British India of the said Comptoir" and "Chief Manager" include any person for the time being acting as Chief Manager of the said Agencies in British India of the Comptoir National D Es compte de Paris or being or acting as Manager of such one of the same Agencies as may be situate within the jurisdiction of the Court in which the suit or proceeding mentioned in any of the sections of this Act may be instituted or carried on

Definition

3 On and from the commencement of this Act all suits and other proceedings whatever, for any injury or wrong done to any moveable or immoveable property of the said Comptoir, in whomsoever the same may for the time being be vested, whether in the said Comptoir or in some person or persons in trust for the said Comptoir or upon or in respect of any present liability to the said Comptoir, or upon any bonds, covenants contracts or agreements which already have been or hereafter shall be given to or entered into with the said Comptoir, or to or with any person whomsoever in trust for the said Comptoir, or wherein the said Comptoir is or shall be interested, and also all instruments and petitions to found any adjudication of insolvency in any Court against any person indebted to the said Comptoir, and liable to have been made insolvent by the laws now or at any time hereafter in force relating to insolvents in British India and generally all other proceedings whatsoever to be commenced or carried on by or on behalf of the said Comptoir, or wherein the said Comptoir is or shall be interested against any person whether such person is or shall then be a shareholder or partner of or in the said Comptoir or not, shall and lawfully may be commenced and prosecuted in the name of the person who shall be the Chief Manager of the Agencies in British India of the said Comptoir at the time such suit or proceeding shall be commenced as the nominal plaintiff or petitioner for or on behalf of the said Comptoir, and all suits and proceedings as well for subsisting as future accruing claims debts or demands to be commenced against the said Comptoir by any person whether such person is or shall then be a shareholder or partner of or in the said Comptoir or not shall be commenced and prosecuted against the Chief Manager as the nominal defendant or respondent for and on behalf of the said Comptoir, and the death removal, resignation or any other act of such Chief Manager, or his bankruptcy or insolvency shall not abate or prejudice any suit or other proceeding commenced under this Act, but the same may be continued, prosecuted and carried on or defended in the name of any other the Chief Manager

Suits by or against Comptoir to be instituted in name of Chief Manager and not to abate on his death or removal

4 On and from the commencement of this Act, in all criminal proceedings instituted or carried on by or on behalf of the said Comptoir for fraud or injury upon or against the said Comptoir, or for any offence whatever relating to any money, notes, bills, effects, securities or any moveable or immoveable property of the said Comptoir, or for any other offence against the said Comptoir, it shall be lawful to state such money notes, bills effects and securities, and other moveable and immoveable property in whomsoever the same may be vested, whether in the said Comptoir or in some person or persons in trust for the said Comptoir, to be the money notes bills effects and securities or property of the said Comptoir, or of the Chief Manager of the Agencies in British India of the said Comptoir, and any offence committed with intent to injure or defraud the said Comptoir shall and lawfully may in such proceedings be said to have been committed with intent to injure or defraud the said Comptoir or such Chief Manager and any offender may thereupon be lawfully convicted of any such offence, and in all other proceedings, in which before the commencement of this Act, it would have been necessary to state the names of the persons composing the said Comptoir it shall be lawful and sufficient to state the name of such Chief Manager, and the death, resignation or removal of such Chief Manager shall not abate or render defective, or in anywise affect or prejudice, such criminal proceedings

In criminal proceedings property of Comptoir to be describable as property of Comptoir or Chief Manager

5. No suit which may be commenced in any Court in British India against the said Comptoir or the Chief Manager of the Agencies in British India of the said Comptoir upon or arising out of any contract entered into by or on behalf of the said Comptoir shall be in any wise affected or defeated by reason of the plaintiff therein, or of any other person who may be in any wise interested in such suit being a shareholder or partner of or in the said Comptoir but any shareholder or partner of or in the said Comptoir shall have the same right of suit and remedy to be proceeded in and enforced in the same manner against the said Comptoir or such Chief Manager upon any contract, and upon and for any debt damage or demand whatsoever, which he might have had if he had been a stranger, and not a shareholder or partner of or in the said Comptoir

Suit against the Comptoir on contract not to be defeated because plaintiff is a partner

6 No suit commenced by virtue of this Act by or on behalf of the said Comptoir in the name of the Chief Manager upon or arising out of any contract whatsoever entered into by or on behalf of the said Comptoir, or for the recovery of any debt, damage or demand whatsoever due or owing to the said Comptoir, or for any other cause or any other account shall be in any wise affected or defeated by or by reason of the defendant therein, or any person or persons who may be in anywise interested in such suit, being a shareholder or partner of or in the said Comptoir, but the said Comptoir shall and may have the same right of suit and remedy to be proceeded in and enforced in the same manner against any shareholder or partner of or in the said Comptoir either alone or jointly with any other person upon any contract, and upon and for any debt damage or demand whatsoever, which the said Comptoir might have had if such cause of suit had arisen with a stranger and not with a shareholder or partner of or in the said Comptoir

Suit by Comptoir on contract not to be defeated because defendant is a partner

7 The Chief Manager of the Agencies in British India of the said Comptoir shall have an office for the transaction of the business of the Comptoir He shall cause a memorial, in the form and to the effect set forth in Schedule A, or as near thereto as the circumstances of the case will admit of, verified by a declaration in writing made by him before a Judge of the High Court of Judicature within the jurisdiction of which his office is situated to be enrolled amongst the records of the said High Court Such memorial shall prior to being enrolled, be signed by the Chief Manager, and shall be accompanied by or have annexed thereto or endorsed thereon, copies of the resolutions notarial acts, articles and other instruments under which the said Comptoir is established, and copies of the various rules under which the business of the said Comptoir is conducted The memorial shall set forth the situation of the office of the Chief Manager and of every other office and place in British India in or at which the business of the said Comptoir is carried on and it shall contain a statement of the amount both of the nominal and of the paid up capital, the number of shares into which the capital is divided the amount of each share and the amount of capital (if any) which the said Comptoir shall have set aside for its working capital in British India and if the last mentioned capital is other than money then a statement of how it stands invested, and in whose name

Chief Manager to cause a memorial to be enrolled containing certain particulars

8 No memorial shall be enrolled unless the authority of the Chief Manager by whom it is signed, and the copies of the resolutions, notarial acts, articles and other instruments accompanying the memorial, shall be authenticated by the signature and seal of a notary public in France, and countersigned by Her Britannic Majesty's Consul General in Paris for the time being.

Authority of Chief Manager to be authenticated

9 Whenever any new Chief Manager of the Agencies in British India of the said Comptoir shall be appointed, or any change in, or addition to, any of the facts stated in any memorial which may have been enrolled shall take place, a like memorial in the form and to the effect set forth in Schedule B, verified as aforesaid shall, within twelve months after such appointment, change or addition shall have been made, be enrolled as aforesaid, specifying the name and description of such new Chief Manager, and containing a statement of the change or addition which may have taken place in the facts aforesaid

Memorial of change in Chief Manager or in facts set forth in former memorial to be enrolled

10 If any declaration made for the purpose of verifying a memorial under this Act shall be false or untrue in any material particular the person wilfully making such declaration shall be guilty of an offence within the meaning of section 199 of the Indian Penal Code

False declaration an offence under the Penal Code

11 Until such memorial as first hereinbefore mentioned shall have been duly verified and enrolled, no suit shall be brought by the said Comptoir under the authority of this Act, and, until the memorial by this Act required to be verified and enrolled in the event of the appointment of a new Chief Manager of the Agencies in British India of the said Comptoir shall have been duly verified and enrolled, the person whose name shall appear in the last memorial which shall have been duly verified and enrolled shall be liable to all such suits and executions upon judgment or decree and other proceedings under this Act and in the same manner, as if he had not ceased to be such Chief Manager, and as if no new Chief Manager had been appointed

Comptoir not to sue till enrolment of memorial and person named in last memorial to remain liable till enrolment of fresh memorial.

12 An examined copy of every memorial enrolled pursuant to this Act, certified to be a true copy by and under the hand and signature of a Registrar for the time being of the High Court of Judicature in which the same shall have been enrolled, shall be received in evidence as proof of the contents of such memorial and proof shall not be required that the person by whom the memorial purports to be verified was the Chief Manager at the time of such verification

Examined copy to be a proof of contents of memorial

13 Execution on every judgment, decree and order made or pronounced in any suit or proceeding in any Court in British India against the Chief Manager shall and may be issued and enforced against any property in British India belonging to the said Comptoir All the provisions of the Code of Civil Procedure as to the attachment of property before judgment and after judgment shall in all suits against the Chief Manager have full force and effect as regards property in British India belonging to the said Comptoir So long as the full amount recoverable by any person under any judgment, decree or order shall not have been recovered, no execution issued from any Court in British India, nor anything in this Act shall in any way prejudice or injure the right of such person to proceed in France under the privileges and powers reserved to British subjects by and under the said Convention of the thirtieth day of April, 1862, for the recovery of the amount unrecovered

Judgment or order against Chief Manager how to be executed

XIV

14 No person having or claiming to have any demand upon or against the said Comptoir shall, when the same has been so determined as to have been pleadable in bar against such person, bring more than one suit in respect of such demand and the proceedings in any suit which may have been brought against the Chief Manager under the authority of this Act, if so determined may be pleaded in bar of any suit in any Court in British India for the same cause against the same or any other Chief Manager and in case of any demand which the said Comptoir now has or hereafter may have upon or against any person, whether a shareholder of the said Comptoir or not and which shall have been determined in any suit commenced or prosecuted by the Chief Manager the proceedings in such suit may be pleaded in bar of any other suit, in any such Court as aforesaid for the same demand which may be commenced or prosecuted by the same or any other Chief Manager

No person to bring more than one suit for the same demand against any Chief Manager nor the Comptoir against any other person

SCHEDULE A

(*See section 7*)

Memorial made the day of by the Chief Manager of the Agencies in British India of the Comptoir National D Escompte de Paris, pursuant to the Comptoir National D Escompte de Paris Act, 1890 setting forth the particulars prescribed by section 7 of the said Act

(Sd ) *C D*

Declared before me, a Judge of the High Court of Judicature at

---

## STATEMENT OF OBJECTS AND REASONS

THE object of this Bill is, on the advice of the Hon ble the Advocate General in Bengal to re enact in the interests of the Comptoir National D Escompte de Paris Acts VIII of 1864 and IX of 1867 which were enacted in the interests of the late Comptoir D Escompte de Paris

The Acts of 1864 and 1867 are left unrepealed because the late Comptoir D Escompte de Paris is not identical with the Comptoir National D Escompte de Paris, and the Acts may possibly still be useful in the course of the liquidation of the affairs of the former Comptoir

From Secretary to Government Punjab No 21 dated 10th January 1887 and enclosures [Papers No 20]
From Registrar High Court Calcutta No 141 dated 18th January 1887 and enclosure [Papers No 21]
Note by the Hon ble Rao Saheb Vishvanath Narayan Mandlik C S I dated 7th May 1887 [Paper No 22]
Office Memorandum from Government of India Revenue and Agricultural Department No 704—24, dated 23rd December 1887 and enclosures [Papers No 23]
Circular to Local Governments and Administrations Nos. 1531—41 dated 17th August 1889, and replies thereto

2 The Bill was introduced in 1886 and was considered by a Select Committee in 1887 That Committee made many amendments in the Bill but decided not to submit a report partly because the Bill contained a clause respecting the appointment of guardians for minor members of undivided Hindu families about which there was much difference of opinion, and partly because the Calcutta High Court considered that the Bill did not hold out sufficient inducement to *de facto* guardians to subject themselves to the provisions of the proposed Act

On these two matters Local Governments have since been specially consulted and in undertaking the re consideration of the Bill as amended in 1887 we have had the benefit of their advice

The weight of authority is distinctly adverse to the retention of the clause respecting the appointment of guardians for minor members of undivided Hindu families and we have removed that clause from the Bill

The inducements to *de facto* guardians to subject themselves to the proposed Act are several No fees will be payable in respect of the appointment of guardians (section 2) a *de facto* guardian acting without appointment by the Court will incur the risk of

being superseded on an application by the Collector (section 8) appointed guardians may be properly remunerated for their care and pains in the execution of their duties (section 22) testamentary and appointed guardians will have the powers possessed by executors and administrators respectively under the Probate and Administration Act, 1881 and will be in a position to pass secure titles (sections 28 and 29) appointed guardians may protect themselves by applying for, and acting upon, the direction of the Court (section 33) and the submission of accounts by them is no longer to be obligatory, but to be left to the discretion of the Courts under the rules of the High Court (sections 34 and 50 (*1*) (*d*) ) joint guardians may come to the Court for the settlement of their differences (section 43) and certain privileges are conferred on appointed guardians by clauses B, C and D of the section (section 53) amending Chapter XXXI of the Code of Civil Procedure In the opinion of most of the authorities consulted these inducements were sufficient but we have now added to them the provision in clause A of section 53 that, where a guardian has been appointed for a minor by the Court, a suit is not to be instituted in the name of the minor by any other person as next friend without the leave of the Court to be granted after hearing any objection which the guardian may have to make with respect to the institution of the suit This provision will, we believe be very valuable in practice, and it will further tend to remove the objection which was taken to the Bill by the Calcutta High Court

3 *Section 4*—We have amended the definition of "minor extended that of "European British subject , and made it clear that District Court ' includes a High Court in the exercise of its ordinary original civil jurisdiction

4 *Sections 5 and 15*—Here as regards European British subjects we have followed as closely as possible the provisions of the Guardianship of Infants Act, 1886 (49 & 50 Vict, c 27)

5 *Section 17*—Sub-section (*5*) of this section makes it sufficiently clear that neither a Collector nor any other person can be appointed a guardian against his will

6 *Section 22*—Where a Collector is appointed guardian fees will be chargeable for the maintenance of his special establishment as they are chargeable in the case of estates under the superintendence of the Court of Wards

7 *Section 23*—This section will, of course, be read under section 3 as subject to such enactments as section 193 of the North Western Provinces Land revenue Act 1873

8 *Section 39*—We have followed the Guardianship of Infants Act 1886 in making a testamentary guardian removable on the same grounds as a guardian appointed by the Court

9 *Section 43*—Following section 3 of the same Act we have provided here for the settlement of differences of opinion between joint guardians

10 The other amendments made in the Bill since its introduction are numerous, but do not appear to us to call for remark

11 The publication ordered by the Council has been made as follows —

THE SCHEDULE — ENACTMENTS REPEALED

*The Guardians and Wards Bill.*

*(Chapter I —Preliminary.—Sections 1-4. Chapter II.—Appointment and Declar of Guardians —Sections 5-6.)*

## No. II.

*A Bill to consolidate and amend the law relating to Guardian and Ward*

WHEREAS it is expedient to consolidate and amend the law relating to guardian and ward, It is hereby enacted as follows —

### CHAPTER I

### PRELIMINARY

Title extent and commencement

1 (1) This Act may be called the Guardians and Wards Act, 1890

(2) It extends to the whole of British India *inclusive of Upper Burma and British Baluchistan* and

(3) It shall come into force on the first day of July, 1890

Repeal

2 (1) On and from that day the enactments mentioned in the schedule shall be repealed to the extent specified in the third column thereof

(2) But all proceedings had certificates granted, allowances assigned obligations imposed, and applications appointments orders and rules made under any of those enactments shall, so far as may be be deemed to have been respectively had granted ass gned, imposed and made under this Act and

(3) Any enactment or document referring to any of those enactments shall so far as may be be construed to refer to this Act or to the corresponding portion thereof

Saving of jurisdiction of Courts of Wards and Chartered High Courts

3 This Act shall be read subject to every enactment heretofore or hereafter passed relating to any Court of Wards by the Governor General in Council or by a Governor or Lieutenant Governor in Council and nothing in this Act shall be construed to affect or in any way derogate from the jurisdiction or authority of any Court of Wards or to take away any power possessed by any High Court established under the Statute 24 and 25 Victoria Chapter 104 (*an Act for establishing High Courts of Judicature in India*)

Definitions

4. In this Act unless there is something repugnant in the subject or context —

(1) minor' means *a person who, under the provisions of the Indian Majority Act 1875 is to be deemed not to have attained his majority* [margin: of 1875]

(3) "ward" means a minor for whose pe or property, or both, there is a guardian ;

(4) "District Court" has the meaning signed to that expression in the Code of Procedure, *and includes a High Court in exercise of its ordinary original civil jurisdiction*

(5) "the Court" means the District C having jurisdiction to entertain an applica under this Act for *an order appointing or claring a person to be a guardian* and, whe guardian has been appointed or declared in suance of any such application, it means Court which appointed or declared the guard or in any matter relating to the person of ward, the District Court having jurisdictior the place where the ward for the time be ordinarily resides

(6) 'Collector means the chief officer charge of the revenue administration of a c trict and includes any officer whom the Lo Government by notification in the offic Gazette may by name or in virtue of his offic appoint to be a Collector in any local area, with respect to any class of persons, for all any of the purposes of this Act

(7) "European British subject" *means European British subject as defined* in the Coc of Criminal Procedure 1882 and *includes a Christian of European descent* and

(8) prescribed ' means prescribed by rul made by the High Court under this Act

---

### CHAPTER II

### APPOINTMENT AND DECLARATION OF GUARDIANS

Power of parents to appoint in case of European British subjects

5 (1) Where a minor is an European Britis subject, a guardian *or gua dians* of his person or prc perty or both, may be ap pointed by will or *other instrument* to tak effect on the death of the person appointing,—

(a) by the father *of the minor, or,*

(b) *if the father* is dead or incapable c acting, by the *mother*

(2) *Where guardians have been appointe under sub section (1) by both parents they shal act jointly*

Saving of power to appoint in other cases

6 In the case of a minor who is not an Eurc pean British subject, nc thing in this Act shall b construed to take away o derogate from any power to appoint a guardia of his person or property or both, which i valid by the law to which the minor is subject

*The Guardians and Wards Bill.*

*(Chapter II.—Appointment and Declaration of Guardians.—Sections 7-10.)*

**Power of the Court to make order as to guardianship.**

7. (1) Where the Court is satisfied that it is for the welfare of a minor that *an order should* be made—

(a) appointing a guardian of his person or property, or both, or

(b) declaring a person to be such a guardian,

the Court may make an order accordingly.

(2) An order under this section shall imply the removal of any guardian who has not been appointed by will or other instrument or appointed or declared by the Court.

(3) Where a guardian has been appointed by will or other instrument or appointed or declared by the Court, an order under this section appointing or declaring another person to be guardian in his stead shall not be made until the powers of the guardian appointed or declared as aforesaid have ceased under the provisions of this Act.

**Persons entitled to apply for order.**

8. An order *shall not* be made under the last foregoing section *except* on the application of—

(a) the person desirous of being or claiming to be the guardian of the minor, or

(b) any relative or friend of the minor, or

(c) the Collector of the district or other local area within which the minor ordinarily resides or in which he has property, or

(d) the Collector having authority with respect to the class to which the minor belongs.

**Court having jurisdiction to entertain application.**

9. (1) If the application is with respect to the guardianship of the person of the minor, it shall be made to the District Court having jurisdiction in the place where the minor ordinarily resides.

(2) If the application is with respect to the guardianship of the property of the minor, it may be made either to the District Court having jurisdiction in the place where the minor ordinarily resides or to a District Court having jurisdiction in a place where he has property.

(3) If an application with respect to the guardianship of the property of a minor is made to a District Court other than that having jurisdiction in the place where the minor ordinarily resides, the Court may return the application if in its opinion the application would be disposed of more justly or conveniently by any other District Court having jurisdiction.

**Form of application.**

10. (1) If the application is not made by the Collector, it shall be by petition signed and verified in manner prescribed by the Code of Civil Procedure for the signing and verification of a plaint, and stating, so far as can be ascertained,—

(a) the name, sex, religion, date of birth and ordinary residence of the minor;

(b) where the minor is a female, whether she is married and, if so, the name and age of her husband;

(c) the nature, situation and approximate value of the property, if any, of the minor;

(d) the name and residence of the person having the custody or possession of the person or property of the minor;

(e) what near relations the minor has, and where they reside;

(f) whether a guardian of the person or property, or both, of the minor has been appointed by any person entitled or claiming to be entitled by the law to which the minor is subject to make such an appointment;

(g) whether an application has at any time been made to the Court or to any other Court with respect to the guardianship of the person or property or both of the minor and, if so, when, to what Court and with what result;

(h) whether the application is for the appointment or declaration of a guardian of the person of the minor or of his property, or of both;

(i) where the application is to appoint a guardian, the qualifications of the proposed guardian;

(j) where the application is to declare *a person to be* a guardian, the grounds on which that *person claims*;

(k) the causes which have led to the making of the application; and

(l) such other particulars, if any, as may be prescribed or as the nature of the application renders it necessary to state.

(2) If the application is made by the Collector, it shall be by letter addressed to the Court and forwarded by post or in such other manner as may be found convenient and shall state as far as possible the particulars mentioned in sub-section (1).

(3) The application must be accompanied by a declaration of the willingness of the proposed guardian to act, and the declaration must be signed by him and attested by at least two witnesses.

**Procedure on admission of application.**

11. (1) If the Court is satisfied that there is ground for proceeding on the application, it shall fix

*The Guardians and Wards Bill*

*(Chapter II—Appointment and Declaration of Guardians—Sections 12—15)*

a day for the hearing thereof and cause notice of the application and of the date fixed for the hearing—

of 1882

(*a*) to be served in the manner directed in the Code of Civil Procedure on—

(i) the parents of the minor if they are residing in British India,

(ii) the person, if any named in the petition or letter as having the custody or possession of the person or property of the minor,

(iii) the person proposed in the application or letter to be appointed or declared guardian unless that person is himself the applicant, and

(iv) any other person to whom, in the opinion of the Court, special notice of the application should be given and

(*b*) to be posted on some conspicuous part of the court house, and of the residence of the minor and otherwise published in such manner as the Court subject to any rules made by the High Court under this Act thinks fit

(*2*) The Local Government may, by general or special order, require that when any part of the property described in a petition under section 10 sub section (*1*) is land of which a Court of Wards could assume the superintendence the Court shall also cause a notice as aforesaid to be served on the Collector in whose district the minor ordinarily resides and on every Collector in whose district any portion of the land is situate and the Collector may cause the notice to be published in any manner he deems fit

(*3*) No charge shall be made by the Court or the Collector for the service or publication of any notice served or published under sub section (*2*)

Power to make interlocutory order for production of minor and interim protection of person and property

12. (*1*) The Court may direct that the person if any, having the custody of the minor shall produce him or cause him to be produced at such place and time and before such person as it appoints and may make such order for the temporary custody and protection of the person or property of the minor as it thinks proper

(*2*) If the minor is a female who ought not to be compelled to appear in public, the direction under sub section (*1*) for her production shall require her to be produced in accordance with the customs and manners of the country

(*3*) Nothing in this section shall authorise—

(*a*) *the Court to place* a female minor in the temporary custody of a person claiming to be her guardian on the ground of his being her husband, unless she is *already in his custody with the consent of her parents if any*, or

(*b*) any person to whom the temporary custody and protection of the property of a minor is entrusted to dispossess otherwise than by due course of law any person in possession of any of the property

Hearing of evidence before making of order

13 On the day fixed for the hearing of the application, or as soon afterwards as may be the Court shall hear such evidence as may be adduced in support of or in opposition to the application.

Simultaneous proceedings in different Courts

14 (*1*) If proceedings for the appointment or declaration of a guardian of a minor are taken in more Courts than one, each of those Courts shall on being apprised of the proceedings in the other Court or Courts, stay the proceedings before itself

(*2*) If the Courts are both or all subordinate to the same High Court, they shall report the case to the High Court, and the High Court shall determine in which of the Courts the proceedings with respect to the appointment or declaration of a guardian of the minor shall be had

(*3*) In any other case in which proceedings are stayed under sub-section (*1*), the Courts shall report the case through the Local Government to the Governor General in Council and the Governor General in Council shall determine in which of the Courts the proceedings with respect to the appointment or declaration of a guardian of the minor shall be had

Appointment or declaration of several guardians

15 (*1*) If the law to which the minor is subject admits of his having two or more joint guardians of his person or property or both, the Court may, if it thinks fit, appoint or declare them

(*2*) On the death of a father, being an European British subject who has, by will or *other* instrument to take effect on his death, appointed a guardian of *his minor child* the Court may appoint the mother to be guardian of the *child* jointly with the guardian appointed by the father

(*3*) On the death of a mother, being an European British subject who *during the incapacity of the father of her minor child* has by will or *other* instrument to take effect on her death appointed a guardian of *the child*, the Court *may, if the father becomes capable of acting appoint him to be sole guardian of the child or guardian of the child jointly with the guardian appointed by the mother, as it thinks fit*

*The Guardians and Wards Bill*

*(Chapter II—Appointment and Declaration of Guardians—Sections 16-19)*
*Chapter III—Duties, Rights and Liabilities of Guardians—Sections 20-22)*

(4) Separate guardians may be appointed or declared of the person and of the property of a minor

(5) If a minor has several properties the Court may, if it thinks fit, appoint or declare a separate guardian for any one or more of the properties

16 If the Court appoints or declares a guardian for any property situate beyond the local limits of its jurisdiction the Court having jurisdiction in the place where the property is situate shall, on production of a certified copy of the order appointing or declaring the guardian, accept him as duly appointed or declared and give effect to the order

Appointment or declaration of guardian for property beyond jurisdiction of the Court.

17 (1) In appointing or declaring the guardian of a minor the Court shall subject to the provisions of this section be guided by what consistently with the law to which the minor is subject appears in the circumstances to be for the welfare of the minor

Matters to be considered by the Court in appointing guardian

(2) In considering what will be for the welfare of the minor, the Court shall have regard to the age sex and religion of the minor the character and capacity of the proposed guardian and his *nearness of kin* to the minor, the wishes, if any of a deceased parent, and any existing or previous relations of the proposed guardian with the minor or his property

(3) If the minor is old enough to form an intelligent preference, the Court may consider that preference

(4) As between parents who are European British subjects adversely claiming the guardianship of the person, neither parent is entitled to it as of right, but, other things being equal if the minor is a male of tender years or a female, the minor should be given to the mother, and if the minor is a male of an age to require education and preparation for labour and business, then to the father

(5) The Court shall not appoint or declare *any* person to be *a* guardian against his will

18. Where *a* Collector is appointed *or declared* by the Court in virtue of his office to be guardian of the person or property, or both, of a minor, the order appointing *or declaring* him shall be deemed to authorise and require the person for the time being holding the office to act as guardian of the minor with respect to his person or property or both, as the case may be

Appointment *or declaration* of Collector in virtue of office

19 Nothing in this Chapter shall authorise the Court to appoint or declare a guardian *of the property of a minor whose property is under the superintendence of a Court of Wards or to appoint or declare a guardian* of the person—

Guardian not to be appointed by the Court in certain cases

(*a*) of a minor who is a married female and whose husband is not in the opinion of the Court, unfit to be guardian of her person, or,

(*b*) subject to the provisions of this Act with respect to European British subjects of a minor whose father is living and is not, in the opinion of the Court unfit to be guardian of the person of the minor or

(*c*) of a minor whose property is under the superintendence of a Court of Wards competent to appoint a guardian of the person of the minor

---

## CHAPTER III

### DUTIES RIGHTS AND LIABILITIES OF GUARDIANS

*General*

20 (1) A guardian stands in a fiduciary relation to his ward, and, save as provided by the will or other instrument, if any, by which he was appointed, or by *this Act* he must not make any profit out of his office

Fiduciary relation of guardian to ward

(2) The fiduciary relation of a guardian to his ward extends to and affects purchases by the guardian of the property of the ward, and by the ward of the property of the guardian immediately or soon after the ward has ceased to be a minor, and generally all transactions between them while the influence of the guardian still lasts or is recent

21 A minor is incompetent to act as guardian of any minor except his own wife or child or, where he is the managing member of an undivided Hindu family the wife or child of another minor member of that family

Capacity of minors to act as guardians

22 (1) A guardian appointed or declared by the Court shall be entitled to such allowance if any, as the Court thinks fit for his care and pains in the execution of his duties

Remuneration of guardian

(2) *When an officer of the Government as such officer, is so appointed or declared to be guardian, such fees shall be paid to the Government out of the property of the ward as the Local Government by general or special order directs*

*The Guardians and Wards Bill*

*(Chapter III—Duties, Rights and Liabilities of Guardians—Sections 23 31)*

Control of Collector as guardian.

*23 A Collector appointed or declared by the Court to be guardian of the person or property or both of a minor shall, in all matters connected with the guardianship of his ward, be subject to the control of the Local Government or of such authority as that Government by notification in the official Gazette, appoints in this behalf*

*Guardian of the Person*

Duties of guardian of the person

24. A guardian of the person of a ward is charged with the custody of the ward, and must look to his support, health and education, and such other matters as the law to which the ward is subject requires

Title of guardian to custody of ward

25 (1) If a ward leaves *or is removed from* the custody of a guardian of his person the Court *if it is of opinion that it will be for the welfare of the ward to return to the custody of his guardian* may make an order for his return and for the purpose of enforcing the order may cause the ward to be arrested and to be delivered into the custody of the guardian

(2) *For the purpose of arresting the ward, the Court may exercise the power conferred on a Magistrate of the first class by section 100 of the Code of Criminal Procedure, 1882*

1882

(3) The residence of a ward against the will of his guardian with a person who is not his guardian does not of itself terminate the guardianship

Removal of ward from jurisdiction

26 (1) A guardian of the person appointed or declared by the Court unless he is *the Collector or is* a guardian appointed by will or other instrument, shall not without the leave of the Court by which he was appointed or declared remove the ward from the limits of its jurisdiction except for such purposes as may be prescribed

(2) The leave granted by the Court under sub section (1) may be special or general, and may be defined by the order granting it

*Guardian of Property*

Duties of guardian of property

27 A guardian of the property of a ward is bound to deal therewith as carefully as a man of ordinary prudence would deal with it if it were his own and subject to the provisions of this Chapter he may do all acts which are reasonable and proper for the realisation, protection or benefit of the property

Powers of testamentary guardian

28 Where a guardian has been appointed by will or other instrument, his power to mortgage or charge or transfer by sale gift exchange or otherwise immoveable property belonging to his ward is subject to any restriction which may be imposed by the instrument unless *he has under this Act been declared guardian and* the Court which made the declaration permits him by an order in writing notwithstanding the restriction, to dispose of any immoveable property specified in the order in a manner permitted by the order

Limitation of powers of guardian of property appointed or declared by the Court.

29 Where a person other than a Collector, or than a guardian appointed by will or other instrument has been appointed or declared by the Court to be guardian of the property of a ward, he shall not without the previous permission of the Court,—

(a) mortgage or charge or transfer by sale, gift exchange or otherwise any part of the immoveable property of his ward, or

(b) lease any part of that property for a term exceeding five years or for any term extending more than one year beyond the date on which the ward will cease to be a minor

Voidability of transfers made in contravention of section 28 or section 29

30 A disposal of immoveable property by a guardian in contravention of either of the two last foregoing sections is voidable at the instance of any other person affected thereby

Practice with respect to permitting transfers under section 29

31 (1) Permission to the guardian to do any of the acts mentioned in section 29 shall not be granted by the Court except in case of necessity or for an evident advantage to the ward

(2) The order granting the permission shall recite the necessity or advantage, as the case may be describe the property with respect to which the act permitted is to be done, and specify such conditions if any as the Court may see fit to attach to the permission and it shall be recorded dated and signed by the Judge of the Court with his own hand, or, when from any cause he is prevented from recording the order with his own hand shall be taken down in writing from his dictation and be dated and signed by him

(3) The Court may in its discretion attach to the permission the following among other conditions, namely —

(a) that a sale shall not be completed without the sanction of the Court

## *The Guardians and Wards Bill*

## *(Chapter III—Duties, Rights and Liabilities of Guardians—Sections 32 35)*

(*b*) that a sale shall be made to the highest bidder by public auction before the Court or some person specially appointed by the Court for that purpose, at a time and place to be specified by th Court after such proclamation of the intended sale as the Court, subject to any rules made under this Act by the High Court, directs

(*c*) that a lease shall not be made in consideration of a premium or shall be made for such term of years and subject to such rents and covenants as the Court directs

(*d*) that the whole or any part of the proceeds of the act permitted shall be paid into the Court by the guardian, to be disbursed therefrom or to be invested by the Court on prescribed securities or to be otherwise disposed of as the Court directs

(*4*) Before granting permission to a guardian to do an act mentioned in section 29 the Court may cause notice of the application for the permission to be given to any relative or friend of the ward who should in its opinion receive notice thereof and shall hear and record the statement of any person who appears in opposition to the application

Variation of powers of guardian of property appointed or declared by the Court

32 Where a guardian of the property of a ward has been appointed or declared by the Court *and such guardian is not the Collector* the Court may, from time to time by order define restrict or extend his powers with respect to the property of the ward in such manner and to such extent as it may consider to be for the advantage of the ward and consistent with the law to which the ward is subject

Right of guardian so appointed or declared to apply to the Court for opinion in management of property of ward.

33 (*1*) A guardian appointed or declared by the Court may apply by petition to the Court which appointed or declared him for its opinion advice or direction on any present question respecting the management or administration of the property of his ward

(*2*) If the Court considers the question to be proper for summary disposal it shall cause a copy of the petition to be served on and the hearing thereof may be attended by such of the persons interested in the application as the Court thinks fit

(*3*) The guardian stating in good faith the facts in the petition and acting upon the opinion, advice or direction given by the Court shall be deemed, so far as regards his own responsibility, to have performed his duty as guardian in the subject matter of the application

Obligations on guardian of property appointed or declared by the Court

34 Where a guardian of the property of a ward has been appointed or declared by the Court *and such guardian is not the Collector*, he shall,—

(*a*) if so required by the Court give a bond as nearly as may be in the prescribed form to the Judge of the Court to enure for the benefit of the Judge for the time being, with or without sureties as may be prescribed engaging duly to account for what he may receive in respect of the property of the ward

(*b*) if so required by the Court, deliver to the Court within six months from the date of his appointment or declaration by the Court or within such other time as the Court directs, a statement of the immoveable property belonging to the ward of the money and other moveable property which he has received on behalf of the ward up to the date of delivering the statement and of the debts due on that date to or from the ward

(*c*) if so required by the Court exhibit his accounts in the Court at such times and in such form as the Court *from time to time* directs

(*d*) if so required by the Court pay into the Court at such time as the Court directs the balance due from him on those accounts or so much thereof as the Court directs and

(*e*) apply for the maintenance, education and advancement of the ward and of such persons as are dependent on him and for the celebration of ceremonies to which the ward or any of those persons may be a party, such portion of the income of the property of the ward as the Court *from time to time* directs, and if the Court so directs, the whole or any part of that property

Suit against guardian where administration bond was taken

35 Where a guardian appointed or declared by the Court has given a bond duly to account for what he may receive in respect of the property of his ward the Court may, on application made by petition and on being satisfied that the engagement of the bond has not been kept, and upon such terms as to security, or providing that any money received be paid into the Court or otherwise as the Court thinks fit assign the bond to some proper person who shall thereupon be entitled to sue on the bond in his own name as if the bond had been originally given to him instead of to the Judge of the Court, and shall be entitled to recover thereon, as trustee for the ward, in respect of any breach thereof

## *The Guardians and Wards Bill*

### (*Chapter III —Duties, Rights and Liabilities of Guardians —Sections 36-41*)

Suit against guardian where administration-bond was not taken

36 (1) Where a guardian appointed or declared by the Court has not given a bond as aforesaid, any person with the leave of the Court, may, as next friend, at any time during the continuance of the minority of the ward and upon such terms as aforesaid institute a suit against the guardian or in case of his death, against his representative, for an account of what the guardian has received in respect of the property of the ward, and may recover in the suit, as trustee for the ward, such amount as may be found to be *payable by the* guardian or his representative, as the case may be

(2) *The provisions of sub section (1) shall so far as they relate to a suit against a guardian be subject to the provisions of section 440 of the Code of Civil Procedure as amended by this Act* (of 1882)

General liability of guardian as trustee

37 Nothing in either of the two last foregoing sections shall be construed to deprive a ward or his representative of any remedy against his guardian or the representative of the guardian which not being expressly provided in either of those sections, any other beneficiary or his representative would have against his trustee or the representative of the trustee

#### *Termination of Guardianship*

Right of survivorship among joint guardians

38 On the death of one of two or more joint guardians, the guardianship continues to the survivor or survivors until a further appointment is made by the Court

Removal of guardian

39 The Court may, on the application of any person interested, or of its own motion remove a guardian appointed or declared by the Court, *or a guardian appointed by will or other instrument*, for any of the following causes, namely —

(*a*) for abuse of his trust

(*b*) for continued failure to perform *the* duties *of his trust*

(*c*) for incapacity to perform *the* duties *of his trust*,

(*d*) *for ill treatment or neglect to take proper care, of his ward*

(*e*) for contumacious disregard of any provision of this Act or of any order of the Court,

(*f*) for conviction of an offence implying, in the opinion of the Court a defect of character which unfits him to be *the guardian of his ward*,

(*g*) for having an interest adverse to the faithful performance of his duties,

(*h*) for ceasing to reside within the local limits of the jurisdiction of the Court,

(*i*) in the case of a guardian of the property for bankruptcy or insolvency,

(*j*) by reason of the guardianship of the guardian ceasing, or being liable to cease under the law to which the minor is subject

Provided that a guardian appointed by will or other instrument, *whether he* has been declared under this Act *or not*, shall not be removed—

(*a*) *for* the cause mentioned in clause (*g*) unless the adverse interest accrued after the death of the person who appointed him *or it is shown that that person made and maintained the appointment in ignorance of the existence of the adverse interest, or*

(*b*) *for* the cause mentioned in clause (*h*) unless such guardian has taken up such a residence as, in the opinion of the Court renders it impracticable for him to discharge the functions of guardian

Discharge of guardian

40 (1) If a guardian appointed or declared by the Court desires to resign his office, he may apply to the Court to be discharged

(2) If the Court finds that there is sufficient reason for the application it shall discharge him *and if the guardian making the application is the Collector and the Local Government approves of his applying to be discharged, the Court shall in any case discharge him*

Cessation of authority of guardian

41 (1) The powers of a guardian of the person cease—

(*a*) by his death, removal or discharge,

(*b*) by the Court of Wards assuming superintendence of the person of the ward,

(*c*) by the ward ceasing to be a minor,

(*d*) in the case of a female ward by her marriage to a husband who is not unfit to be guardian of her person or, if the guardian was appointed or declared by the Court by her marriage to a husband who is not in the opinion of the Court, so unfit, or

(*e*) in the case of a ward whose father was unfit to be guardian of the person of the ward by the father ceasing to be so or, if the father was deemed by the Court to be so unfit, by his ceasing to be so in the opinion of the Court

(2) The powers of a guardian of the property cease—

(*a*) by his death, removal or discharge,

(*b*) by the Court of Wards assuming superintendence of the property of the ward, or

(*c*) by the ward ceasing to be a minor

*The Guardians and Wards Bill*

*(Chapter III —Duties, Rights and Liabilities of Guardians —Section 42 Chapter IV —Supplemental Provisions —Sections 43 45.)*

(3) When for any cause the powers of a guardian cease the Court may require him *or, if he is dead, his representative* to deliver as it directs any property in his possession or control belonging to the ward or any accounts in his possession or control relating to any past or present property of the ward

(4) When he has delivered the property or accounts as required by the Court the Court may declare him to be discharged from his liabilities save as regards any fraud which may subsequently be discovered

Appointment of successor to guardian dead discharged or removed

42 When a guardian appointed or declared by the Court is discharged or under the law to which the ward is subject, ceases to be entitled to act or when any such guardian or a guardian appointed by will or other instrument is removed *or dies* the Court, of its own motion or on application under Chapter II, may if the ward is still a minor appoint or declare another guardian of his person or property, or both, as the case may be

## CHAPTER IV

### SUPPLEMENTAL PROVISIONS.

Orders for regulating conduct or proceedings of guardians and enforcement of those orders

43 (1) The Court may on the application of any person interested or of its own motion, make an order regulating the conduct or proceedings of any guardian appointed or declared by the Court

(2) *Where there are more guardians than one of a ward and they are unable to agree upon a question affecting his welfare, any of them may apply to the Court for its direction and the Court may make such order respecting the matter in difference as it thinks fit*

(3) Except where it appears that the object of making an order under sub section (1) *or sub section* (2) would be defeated by the delay, the Court shall, before making the order direct notice of the application therefor or of the intention of the Court to make it, as the case may be, to be given *in a case under sub section* (1) to the guardian *or in a case under sub section* (2), *to the guardian who has not made the application*

(4) In case of disobedience to an order made under sub-section (1) *or sub section* (2) *the order may be enforced in the same manner as an injunction granted under section 492 or section 493 of the Code of Civil Procedure, in a case under sub-section* (1) *as if the ward were the plaintiff and the guardian were the defendant or in a case under sub-section* (2), *as if the guardian who made the application were the plaintiff and the other guardian were the defendant*

(5) *Except in a case under sub section* (2), *nothing in this section shall apply to a Collector who is, as such, a guardian*

Penalty for removal of ward from jurisdiction

44 If, for the purpose or with the effect of preventing the Court from exercising its authority with respect to a ward a guardian appointed or declared by the Court removes the ward from the limits of the jurisdiction of the Court in contravention of the provisions of section 26 he shall be liable, by order of the Court, to fine not exceeding one thousand rupees or to imprisonment *in the civil jail* for a term which may extend to six months

Penalty for contumacy

45 (1) In the following cases namely —

(a) if a person having the custody of a minor fails to produce him or cause him to be produced in compliance with a direction under section 12 sub section (1) or to do his utmost to compel the minor to return to the custody of his guardian in obedience to an order under section 25 sub section (1) or

(b) if a guardian appointed or declared by the Court fails to deliver to the Court within the time allowed by or under clause (b) of section 34 a statement required under that clause or to exhibit accounts in compliance with a requisition under clause (c) of that section or to pay into the Court the balance due from him on those accounts in compliance with a requisition under clause (d) of that section or

(c) *if a person who has ceased to be a guardian or the representative of such a person* fails to deliver any property or accounts in compliance with a requisition under section 41 sub section (3),

the person guardian *or representative* as the case may be shall be liable by order of the Court, to fine not exceeding one hundred rupees and in case of recusancy to further fine not exceeding ten rupees for each day after the first during which the default continues, and not exceeding five hundred rupees in the aggregate and to detention in the civil jail until he undertakes to produce the minor or cause him to be produced, or to compel his return or to deliver the statement, or to exhibit the accounts or to pay the balance or to deliver the property or accounts, as the case may be

(2) If a person who has been released from detention on giving an undertaking under sub section (1) fails to carry out the undertaking

*The Guardians and Wards Bill.*

*(Chapter IV.—Supplemental Provisions —Sections 46-51.)*

within the time allowed by the Court, the Court may cause him to be arrested and re-committed to the civil jail

Reports by Collectors and Subordinate Courts

46 (1) The Court may call upon the Collector or upon any Court subordinate to the Court, for a report on any matter arising in any proceeding under this Act and treat the report as evidence

(2) For the purpose of preparing the report the Collector or the Judge of the subordinate Court as the case may be shall make such inquiry as he deems necessary and may for the purposes of the inquiry exercise any power of compelling the attendance of a witness to give evidence or produce a document which is conferred on a Court by the Code of Civil Procedure

1882.

Orders appealable

47 An appeal shall lie to the High Court from an order made by a District Court —

(a) under section 7, appointing or declaring or refusing to appoint or declare a guardian or

(b) under section 9, sub section (3), returning an application or

(c) under section 25, making or refusing to make an order for the return of a ward to the custody of his guardian , or

(d) under section 26, refusing leave for the removal of a ward from the limits of the jurisdiction of the Court or imposing conditions with respect thereto or

(e) under section 28 or section 29 refusing permission to a guardian to do an act referred to in the section or

(f) under section 32 defining, restricting or extending the powers of a guardian or

(g) under section 39 removing a guardian or

(h) under section 40, refusing to discharge a guardian or

(i) under section 43, regulating the conduct or proceedings of a guardian or settling a matter in difference between joint guardians, or enforcing the order or

(j) under section 44 or section 45 imposing a penalty

Finality of other orders

1882

48 Save as provided by the last foregoing section and by section 622 of the Code of Civil Procedure, an order made under this Act shall be final and shall not be liable to be contested by suit or otherwise

Costs

49 The costs of any proceeding under this Act including the costs of maintaining a guardian or other person in the civil jail, shall, subject to any rules made by the High Court under this Act, be in the discretion of the Court in which the proceeding is had

Power of High Court to make rules

50 (1) In addition to any other power to make rules conferred expressly or impliedly by this Act, the High Court may from time to time make rules consistent with this Act—

(a) as to the matters respecting which, and the time at which reports should be called for from Collectors and subordinate Courts

(b) as to the allowances to be granted to, and the security to be required from, guardians, and the cases in which such allowances should be granted

(c) as to the procedure to be followed with respect to applications of guardians for permission to do acts referred to in sections 28 and 29

(d) as to the circumstances in which such requisitions as are mentioned in clauses (a) (b), (c) and (d) of section 34 should be made

(e) as to the preservation of statements and accounts delivered and exhibited by guardians

(f) as to the inspection of those statements and accounts by persons interested ,

(g) as to the custody of money and securities for money belonging to wards

(h) as to the securities on which money belonging to wards may be invested ,

(i) as to the education of wards for whom guardians *not being Collectors* have been appointed or declared by the Court and

(j) generally, for the guidance of the Courts in carrying out the purposes of this Act

(2) Rules under clauses (a) and (i) of sub section (1) shall not have effect until they have been approved by the Local Government, *nor shall any rule under this section have effect until it has been published in the official Gazette*

Applicability of Act to guardians already appointed by Court

51 A guardian appointed by or holding a certificate of administration from a Civil Court under any enactment repealed by this Act shall, save as may be prescribed, be subject to the provisions of this Act and of the rules made under it, as if he had been appointed or declared by the Court under Chapter II

*The Guardians and Wards Bill.*

*(Chapter IV.—Supplemental Provisions—Sections 52 53.)*

52. In section 3 of the Indian Majority Act, 1875, for the words 'every minor of whose person or property a guardian has been or shall be appointed by any Court of justice, and every minor under the jurisdiction of any Court of Wards,' the following shall be substituted, namely,—

Amendment of Indian Majority Act.

"every minor of whose person or property, or both, a guardian, other than a guardian for a suit within the meaning of Chapter XXXI of the Code of Civil Procedure has been or shall be appointed or declared by any Court of Justice before the minor has attained the age of eighteen years and every minor of whose property the superintendence has been or shall be assumed by any Court of Wards before the minor has attained that age

53. Chapter XXXI of the Code of Civil Procedure shall be amended as follows, namely —

Amendment of Chapter XXXI of the Code of Civil Procedure

*A —To section 440 of the said Code the following shall be added, namely —*

*"If a minor has a guardian appointed or declared by an authority competent in this behalf a suit shall not be instituted on behalf of the minor by any person other than such guardian except with the leave of the Court granted after notice to such guardian and after hearing any objections which he may desire to make with respect to the institution of the suit and the Court shall not grant such leave unless it is of opinion that it is for the welfare of the minor that the person proposing to institute the suit in the name of the minor should be permitted to do so*

*B*—To section 443 of the said Code the following shall be added, namely —

'Where an authority competent in this behalf has appointed or declared a guardian or guardians of the person or property or both, of the minor, the Court shall appoint him or one of them as the case may be, to be the guardian for the suit under this section unless it considers, for reasons to be recorded by it, that some other person ought to be so appointed '

*C*—After section 446 of the said Code the following shall be added, namely —

"If the next friend is not a guardian appointed or declared by an authority competent in this behalf and *an* application is made by a guardian so appointed or declared who desires to be himself appointed in the place of the next friend the Court shall remove the next friend unless it considers, for reasons to be recorded by it that the guardian ought not to be appointed the next friend of the minor '

*D*—For section 461 of the said Code the following shall be substituted, namely —

' 461 (*1*) A next friend or guardian for the suit shall not, *without the leave of the Court* receive any money or other moveable property *on behalf of a minor*, either—

Receipt by next friend or guardian *ad litem* of property under decree for minor

(*a*) *by way of compromise before decree or order or*

(*b*) under a decree or order in favour of *the* minor

"(*2*) Where the next friend or guardian for the suit has not been appointed or declared by competent authority to be guardian of the property of the minor or having been so appointed or declared is under any disability known to the Court to receive the money or other moveable property, the Court shall if it grants him leave to receive the property require such security and give such directions as will in its opinion sufficiently protect the property from waste and ensure its proper application

*E*—For section 464 of the said Code as amended by the Civil Procedure Code Amendment Act, 1888, the following shall be substituted namely —

VII

"464 Nothing in this Chapter applies to a Sovereign Prince or ruling Chief suing or being sued in the name of his State or being sued by direction of the Governor General in Council or a Local Government, in the name of an agent or in any other name, or shall be construed to affect, or in any way derogate from the provisions of any local law for the time being in force relating to suits by or against minors or by or against lunatics or other persons of unsound mind

Princes and Chiefs and wards of Court

*The Guardians and Wards Bill*
*(The Schedule.—Enactments repealed)*

## THE SCHEDULE

### ENACTMENTS REPEALED

*(See section 2)*

| Number and year | Title or subject | Extent of repeal. |
|---|---|---|
| *Acts of the Governor General in Council* | | |
| XIV of 1858 | Minors (Madras) | The whole |
| XL of 1858 | Minors (Bengal) | So much as has not been repealed |
| IX of 1861 | Minors | The whole |
| XX of 1864 | Minors (Bombay) | The whole |
| XIV of 1869 | Bombay Civil Courts Act, 1869. | So much of the last paragraph of section 16 as has not been repealed. |
| VII of 1870 | Court fees Act 1870 | Section 19H and Article 10 of Schedule I |
| IV of 1872 | Punjab Laws Act 1872 | So far as it relates to Act XL of 1858. |
| XIX of 1873 | North Western Provinces Land revenue Act 1873 | Section 258. |
| XIII of 1874 | European British Minors Act, 1874. | The whole |
| XV of 1874 | Laws Local Extent Act 1874 | So far as it relates to any enactment repealed by this Act |
| XX of 1875 | Central Provinces Laws Act 1875 | So far as it relates to Act XL of 1858 |
| XVIII of 1876 | Oudh Laws Act, 1876 | So far as it relates to Act XL of 1858 |
| XIII of 1879 | Oudh Civil Courts Act 1869. | Clause (*1*) of section 25 relating to proceedings under Acts XL of 1858 and IX of 1861 |
| *Acts of the Governor General in Council – contd* | | |
| XIV of 1882 | Code of Civil Procedure | The second paragraph of section 443 |
| XVIII of 1884 | Punjab Courts Act 1884 | So much of section 29 as has not been repealed |
| XVII of 1885 | Central Provinces Government Wards Act 1885 | Section 5. |
| XII of 1887 | Bengal North Western Provinces and Assam Civil Courts Act 1887 | Clause (*b*) of section 23 sub section (*2*) |
| XI of 1889 | Lower Burma Courts Act, 1889 | The words to be and in section 99, sub-section (*1*) *and section 102 so far as it relates to Act XIII of 1874.* |
| *Mad as Regulations* | | |
| V of 1804 | Court of Wards | Section 20 and so much of sections 2 and 22 as relates to persons and property of minors not subject to the superintendence of the Court of Wards |
| X of 1831 | Minors Estates | Section 3. |
| *Regulations under the Statute 33 Victoria Chapter 3* | | |
| *IX of 1874* | *Arakan Hill District Laws* | *So far as it relates to Acts XL of 1858 and IX of 1861* |

Debates of the Legislative Council of His Excellency the Governor General

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VICT CAP 67

The Council met at Government House on Friday, the 28th February, 1890

PRESENT

His Excellency the Viceroy and Governor General of India, G C M G, G M S I, G M I E, *presiding*
His Honour the Lieutenant Governor of Bengal, K C S I, C I E
His Excellency the Commander in Chief, Bart, V C, G C B, G C I E, R A
The Hon ble Lieutenant General Sir G T Chesney, K C B, C S I, C I E, R E
The Hon'ble A R Scoble, Q C C S I
The Hon'ble Sir C A Elliott, K C S I
The Hon'ble P P Hutchins, C S I
The Hon ble Sir D M Barbour, K C S I
The Hon'ble Syud Ameer Hossein, C I E
The Hon'ble Rájá Durga Charn Laha, C I E
The Hon ble Maung Ôn, C I E A T M
The Hon'ble Muhammad Ali Khan
The Hon'ble R J Crosthwaite
The Hon'ble Sir A Wilson, Kt
The Hon'ble F M Halliday
The Hon ble Rao Bahádur Krishnaji Lakshman Nulkar, C I E

### FOREST BILL

The Hon'ble MR HUTCHINS moved that the Report of the Select Committee on the Bill to amend the Indian Forest Act, 1878, the Burma Forest Act, 1881, and the Upper Burma Forest Regulation, 1887, be taken into consideration He said —

"When I introduced this Bill last September I explained at considerable length the nature of the amendments which I proposed to make in the

Indian Forest Act and the reasons which rendered them necessary I am glad to say that no important objections have been made to my proposals, and, that being so, I think I need not trouble the Council with any further general observations, but may proceed at once to explain the several amendments seriatim

"The definition of 'tree' has been expanded so as to make it clear that it includes palms as well as canes To the lay and untrained intelligence the possibility that a palm tree should not be a tree at all would not readily occur, but, some exceptionally subtle authority having suggested the doubt, the Committee thought it better to remove it once for all

"It was originally proposed to amplify the definition of 'timber' so as to include charcoal, but this will now be separately provided for The amended definition corresponds word for word with that which this Council adopted in the Burma Forest Act of 1881 The only difference between it and the existing definition is that we have struck out the words 'for cart wheels, mortars, canoes' as savouring of needless particularity all are included in the general term 'for any purpose'

"The most important amendment occurs in the definition of 'forest-produce' A difficulty has arisen from timber having been classed as a species of forest produce only when it is found in or can be shown to have been brought from a forest As defined by itself timber includes all wood, but when it is coupled with other forest produce a doubt arises whether it is not to be restricted to wood which can be proved to have been brought from a forest it is generally impossible to prove this regarding wood which is being conveyed in a place outside a forest And the word 'forest' is itself indefinite and I fear incapable of definition Some very eminent authorities consider that nothing should be deemed to be a forest which has not been so constituted under the Act This, however, would exclude all private forests and many other very extensive tracts which no one seeing them would hesitate to describe as forests—to which, in fact, no other description would be applicable But, if we cannot define forests and must therefore be content to leave this point in some uncertainty, we can get over the practical difficulty in a very simple way, and that is by classifying as forest-produce all timber and certain other specific articles which are very rarely gathered elsewhere than in a forest, and over which it is essential in the interests of forest administration and of the public to exercise control As I explained when I introduced the Bill, this will in no way enlarge the class of offences committed in respect of forests constituted under the Act Chapters II to VI will be absolutely unaffected by the proposed alteration Its only effect will be to enable Government under Chapter VII to levy a duty on these special products, and under Chapter VIII to control their transport, without being under the necessity of showing in every instance that the particular log or consignment was produced in the indefinite something known as a forest

"So far as Chapter VII is concerned this is the law already as regards timber, which is there used by itself and in its wider sense, and when I introduced this Bill I advanced what seemed to me rather strong reasons for holding that the Legislature had never intended to use the term in a different sense in Chapter VIII If this was the intention there was no occasion to specify timber at all in its narrower sense it would be included in the general term 'forest produce', but not only is timber specially mentioned but the word 'all' is prefixed to it—'all timber and other forest produce' Again, timber being clearly used in the wide sense in Chapters VII and IX, it is *primâ facie* improbable that it would be employed in a different sense in the intermediate Chapter I also referred to the debates in this Council and to the manner in which the Chapter had been understood and practically worked without any objection in most of the Provinces It is only in Bombay that the Government has found itself constrained to adopt the narrower interpretation of the term, and there it was speedily discovered that such a construction rendered all attempt to control the transit of timber futile and ineffectual In the Select Committee we have had the advantage of the assistance of the Hon'ble Mr Nulkar who was a member of the Bombay Forest Commission and he entirely confirms the view that the prevention of smuggling is impossible, and that this most important Chapter must remain a dead letter in Bombay, unless the meaning of the Legislature is made

clear by some such amendment as that which I propose I therefore maintain, as I maintained when I introduced the Bill, that the inclusion of all timber in the definition of forest produce will merely carry out what has all along been the intention, while it will place beyond controversy the practice which exists in every Province but Bombay, and without which effectual control is impracticable

"The original draft Bill put all trees and other produce of trees on the same footing as timber, but I do not now ask the Council to go so far as that The first clause of the definition has now been cut down so as to include only a few important products, the transport of which requires to be regulated for the same reasons as timber in the absence of such control they can be passed off as the produce of a private holding with hardly any risk of detection I need hardly say that the Government does not wish to lay hands on any private produce Under Chapter VII it can only levy a duty on produce to which it *has a right* or which has been imported from foreign territory, while by Chapter VIII it is merely empowered to regulate transport The only way in which private produce will be affected will be that, in localities where the transport of particular kinds of produce needs to be regulated in order to prevent smuggling, private owners will be required to take out passes showing that the produce mentioned in the pass comes from a private holding or has been purchased from a proper Forest officer Without some such simple procedure private owners will be constantly harassed on the mere supposition that the produce has been smuggled from a Government forest, and I therefore repeat, what I stated at the introduction of the Bill that the amendment will be as much for their advantage as for that of forest administration

"Sections 3 and 5 of the Bill require no explanation Sections 4 and 6 relate to what is called *shifting* cultivation by which we mean the practice of making a clearing generally by fire, in forest land, cultivating it for a year or two, and then shifting to another spot and repeating the same process It is obvious that such a practice unless very strictly confined must be absolutely incompatible with forest conservation Those who practise it are mere squatters and their cultivation of one clearing cannot confer a right to make another at will Local Governments, however, deal very liberally with the tribes which have been accustomed to the practice, and all that is necessary is that it shall not be recognized as a right, but simply as a privilege to be exercised within such limits and under such regulations as may be prescribed According to section 6, which has been very carefully considered by the Select Committee, when any claim of this nature is made before a Forest settlement officer he is to report it, as well as any local order affecting it, to the Local Government with his opinion whether it may be permitted or should be prohibited If it is found that it can be permitted to any extent, he is to arrange for its exercise either by excluding a sufficient area from the proposed forest-reserve, or by setting apart a portion thereof in which it may be exercised subject to suitable conditions In all cases it will be deemed not a right but a privilege, liable to restriction, and even to abolition on proper terms, at the pleasure of Government

"Section 7 is new but the alteration is not of a substantial nature Under section 25 (*b*) of the Act as it now stands, 'whoever sets fire to a reserved forest or kindles any fire in such manner as to endanger the same' is liable to punishment. It is proposed to amplify this provision by substituting 'whoever sets fire to a reserved forest, or, in contravention of any rules made by the Local Government, kindles any fire, or leaves any fire burning, in such manner as to endanger such a forest" These are almost the exact words of the corresponding section passed by this Council for Burma It is desirable on the one hand, to allow fires not inconsistent with local rules, and on the other it is essential that no fire should be left burning and unguarded

"Section 8 merely carries out what I have before explained in connection with the defintion of 'forest produce' By sub section (*4*) we make it clear that the rules regarding transport need not be general, but should only be applied to such classes of timber or produce and in such limited areas as may be really essential The enforcement of rules causes considerable trouble and expense, and that in itself is an additional security that their application will be restricted as much as possible

"Sections 9, 10, 11 and 12 need no explanation beyond what is contained in the Committee's report

"Section 13 relates to the compounding of forest offences and has been entirely re cast by the Select Committee The Legislature has repeatedly recognized the principle that petty offenders against forest laws and rules should be allowed the option of making reasonable amends in money, and so escaping the very serious trouble and annoyance of a formal prosecution It is not, therefore, necessary for me now to defend the principle of the section but I have merely to show that we have provided sufficient safeguards against its abuse One of these is the provision that the amends or compensation shall in no case exceed fifty rupees, the other is that the power to accept a composition shall only be exercised by officers specially authorized in that behalf and that no officer shall be so authorized who is not at least a Ranger on one hundred rupees a month Only a few of the senior Rangers draw so high pay, and if the power is given to them at all it must be conferred on them by name and therefore after consideration of their individual fitness It is only to Subdivisional Officers or officers of control that it can be given as a class Moreover, the Act will in no way interfere with any executive orders which Local Governments may see fit to make in further limitation of the sum which may be demanded or accepted Thus for example, the original Bill provided that such sum should not exceed ten times the damage done or the duc sought to be evaded This, as I stated, was founded on an order of my hon ble friend the Lieutenant Governor of the North Western Provinces and it may still be preserved by him, or varied as he thinks fit, subject to the statutory maximum of fifty rupees If a larger sum than fifty rupees is fairly recoverable, it is right that the case should go before a Magistrate, for the procedure is only intended to apply to very petty offences

"Section 14 is founded on section 25 of the Opium Act, I of 1878, and its object is to maintain a control over the operations of contractors and others who may be permitted to extract forest produce Such a man is always bound by certain express conditions, as that he will not cut trees which have not attained a certain girth but his men often do this for his advantage and probably with his connivance while, if the breach of the conditions is detected he pleads ignorance The servants get access to the forest under cover of his license and it seems reasonable that the employer, who benefits by an act which he has covenanted not to permit should be made responsible The simplest way to effect this is to bind him down by a penalty and the section provides that in the event of a breach, the amount of the penalty may be levied as an arrear of land revenue

The remaining sections of the Bill merely provide for identical amendments in the Burma Forest Act, 881 It is unnecessary that I should go through them in detail as they are founded on precisely the same considerations which I have already submitted to Your Excellency and Hon'ble Members'

The Hon'ble RAO BAHADUR KRISHNAJI LAKSHMAN NULKAR said —

"I wish to speak with reference to two provisions of this Bill, as regards their general as well as special applicability to certain localities

"The provision to give power to Local Governments to extend their control over the transit of private forest produce is of some importance While such power is necessary for the effective protection against smuggling of Government forest-produce it has to be remembered that it is a power which is peculiarly liable to be abused by departmental subordinates, and Local Governments will have to take special care, in framing their subsidiary rules under section 41 of the Act as now amended by section 8 of the Bill, to strictly confine their operation to forest produce in which there is a considerable trade and with which private produce is likely to come into real competition and facilitate smuggling in the absence of the control

'One of the applicants for this amendment of the Forest Act was the Government of Bombay, where, in addition to the general control over the transport, it will have a peculiar application In Tanna and Kolaba, and perhaps in other parts the Local Government will have, by the free and willing consent of the people, to prohibit with certain exceptions the export of private timber, as a means of helping the re clothing of private lands with

forest growths, to enable the cultivators to obtain supplies of timber, branches, foliage, &c, such as are annually required for agricultural purposes, and thereby diminish to a minimum the drain on public forests for local supplies Perhaps it may not be out of place if I allude briefly to the history of this point The energetic and comprehensive character of the introduction into Bombay of the provisions of Chapters II and IV of the Forest Act of 1878 deprived the villagers, with one stroke of the pen of the use of all lands just outside the limits of their fields the notification issued under those Chapters having in numerous instances, claimed as Government forests, without inquiry, even such lands as village commons, grazing grounds, and sometimes portions of village sites This was perhaps partly due to oversight, a result of the precipitate nature of the action taken It produced widespread distress and discontent which might have led to serious results, had not District officers partly delayed action on the notification The next five years were occupied in a process of formal disforestation, by counter notifications, of tracts erroneously claimed as Government forests, but the resultant irritation could not be allayed, and vested rights and privileges at least partly restored, until, in 1885 a Commission was appointed to make inquiries and report on some of the specific grievances in certain parts of the Presidency These had reference chiefly to local supplies and village privileges in adjacent forests which had been recognised from time immemorial, and which were more or less expressly or tacitly acknowledged at previous revenue survey settlements, but which, in the forest settlements ordered under the Act suddenly ceased to be a factor to be counted with and recognised The Forest Commission found that, while the villagers had these legitimate grievances to be redressed, the people in certain parts exposed to the temptation of large markets close by were by no means free from blame for having denuded their own extra assignments of land of all forest growth for present profit and for having got into the objectionable habit of falling back almost entirely upon the public forests for supplies necessary for their own agricultural and domestic wants The Commission came to the conclusion that the only practical solution of the difficulty was to enforce the legitimate use by the villagers of their extra lands for the growth of their own private supplies and to confine the allowance from neighbouring forests to actual deficit, which was expected to become a minimum diminishing from time to time as the scheme recommended had time to work out the solution The recommendation added, as an absolutely necessary condition, that Government should begin by completely severing its forest connection with private lands by either selling out to the occupants all teak and other royalty trees standing thereon and now claimed by Government or by acquiring the land itself as Government forest under the Land Acquisition Law, thereby removing all cause of the constant friction between the Forest Department and the people, and enabling the latter to grow and supply themselves ultimately with nearly all the forest produce they require for their agricultural operations from their own lands The villagers examined before the Commission were unanimous in their admission of the justice of such a prohibition against export of their private forest produce, so long as they continued to require help from Government forests

"To judge from the orders passed by the Government of Bombay on the report of the Forest Commission that Government awaits the passing of this Bill to be able to give complete effect to the scheme of a fair and final adjustment of the conflicting claims and interests I have just explained, and we may trust that now no further delay may occur in carrying out that intention and the risk of an interruption of the present forest policy with respect to local supplies may be avoided I may be allowed to assure the Council that I do not unnecessarily allude so prominently to this precaution to place beyond the possibility of interruption the policy of sympathy and consideration in respect to agricultural needs of the people Five years ago the fact of the appointment of the Forest Commission led to a tacit cessation of some of the most harassing and irritating forms of departmental interference with the people's forest rights and privileges, and the apparent peace so restored is due to the hopefulness of the people that the fuller and more effective measure of justice recommended by the Commission is only delayed till the passing of the Bill before us If after this a further delay occurs, the impending change in the Local Government may result in a

further inheritance by its successors of difficulties harassing to all parties concerned, just as they were left to be inherited by it five years ago, and by its own predecessors five years before that time, through the now admitted errors committed at the first introduction of the Forest Act of 1878

"The other point to which I wish to allude is section 13, sub section (3), of the Bill, where Local Governments are permitted to invest Forest officers down to Rangers drawing a salary of not less than one hundred rupees per month with power to compound certain forest offences by accepting up to fifty rupees as compensation In the Select Committee I expressed my doubts as to the propriety of permitting to Rangers the exercise of this power which presented peculiar facilities for abuse, but, from what I learned from Hon ble Members there, it appeared that in certain localities, owing to the paucity of higher officers at hand, it was sometimes necessary for administrative convenience, and even in the interests of the accused, to invest selected officers of the lower grade with the power Speaking for Bombay, from some experience in certain districts I may say that, though there such power has been exercised by officers of higher grades, it was not always used in a manner to command popular confidence We may, however, hope that, under the discretion allowed to Local Governments sufficient care will be taken in selecting Forest officers for the exercise of the power in question so as to secure the confidence of the public"

The Hon'ble MUHAMMAD ALI KHAN said —

"Being a member of the Select Committee to whom the Bill was referred I would like to make some observations As already explained by the Hon'ble Member in charge of the Bill, this Bill has passed through very few alterations in the Select Committee Besides some verbal alteration, the Bill has been revised in two important matters

"First, the Bill as drafted proposed to give the Forest settlement officer the power of settling the claims relating to the practice of shifting cultivation but the revised Bill places the matter under the control of the Local Government

"Secondly, the draft Bill provided that any Forest officer may be authorised by the Local Government to compound certain forest offences and limited the maximum sum to be accepted by way of compensation to ten times the value of the forest produce which has been damaged or ten times the amount of money of which the payment is evaded But the revised Bill limits the class of Forest-officers who may be thus authorised, and provides that the compensation in no case shall exceed the sum of fifty rupees

"I think the Bill as amended is unobjectionable, and will be very useful if passed into law"

The Hon'ble MR HUTCHINS said —

"There is just one remark which I should like to make with reference to what has fallen from the Hon'ble Member opposite I quite agree that the Local Governments should take special care not to interfere even with the transport of any produce unless in the particular locality there is a considerable trade in the article and a real danger of smuggling But I do not contemplate anything like an absolute prohibition of the export of private timber What section 41 says is that Government 'may prohibit the import, export or moving of such timber or other produce *without a pass*' I understand, however, that the people of Tanna and Kolaba acquiesce in the necessity for such prohibition, and no doubt an arrangement of that nature may be made with their consent Government could not refuse to issue passes on reasonable terms, but of course private owners can abstain from asking for passes I think it right to mention this, although the amendments made by the Bill on the table will not touch the law in this respect Whatever the law was, just so it will remain

"As to the other point to which the Hon ble Member referred, I may mention that Local Governments may by executive order place different limits on the powers of Rangers and of Subdivisional Officers to accept composition My reasons for not wishing to exclude Rangers altogether were just those which the Hon ble Mr Nulkar has described"

The Motion was put and agreed to

The Hon'ble MR HUTCHINS also moved that the following amendments be made in section 2, sub section (3), and in section 15, sub section (2), of the Bill as amended, namely —

(i) in clause (a) of both sections, omit the words "trees and , and after the word "catechu ' insert the words "wood oil, resin natural varnish

(ii) in clause (b), sub clause (i) of both sections for the words "wood oil, gum, resin, varnish ', substitute the words "trees and

He said —

"I think I have made it clear to the Council that there are some specific kinds of forest produce which require to be controlled in transit by a system of passes All these should be included in clause (a) of the definition for other wise it will be incumbent on the Government to show that the particular consignment comes from a forest in order to make it subject to regulation Accord ingly, as revised by the Select Committee, clause (a) enumerates timber, charcoal, caoutchouc, catechu, bark, lac, mahua flowers and myrabolams I had not then any professional adviser with me, and I thought this catalogue would be sufficient But I now learn that in some parts of the country, and particularly in Burma, Oudh, Assam and Orissa, the transport of wood oil, resin or natural varnish requires to be similarly controlled These are all collected in large quantities from the Government forests, but outside those forests there are scattered trees which yield the same products, and smuggling will be an easy matter if the necessary provision is not made to enable Government to make rules to prevent it There is in all these cases both a considerable trade and a real danger of smuggling

"On the other hand, trees may be relegated to the other class of produce which we do not require to deal with unless they are found in a forest, and gum need not be specially mentioned at all"

The Motion was put and agreed to

The Hon'ble MR HUTCHINS also moved that the Bill, as amended, be passed

The Motion was put and agreed to

## ACT XXV OF 1867, AMENDMENT BILL

The Hon'ble MR HUTCHINS also moved that the presentation of the Report of the Select Committee on the Bill to amend Act XXV of 1867 (*Print ing presses and Books*) be postponed for a fortnight

The Motion was put and agreed to

## EXCISE (MALT LIQUORS) BILL

The Hon'ble SIR DAVID BARBOUR moved for leave to introduce a Bill to amend the Excise Act, 1881, and the Bengal Excise Act, 1878 He said —

"There are certain portions of India in which the law, as it at present exists, does not authorise the levy of a duty per gallon on beer and other fer mented liquor The object of the present Bill is to make it possible to levy such a duty In former years the defect in the law to which I have referred did not give rise to any inconvenience, because in those portions of the country where the defect existed either beer was not made at all, or beer was made of such a kind and in such manner that it was not desirable or even practicable to impose a duty per gallon on it

"In recent years, however, a considerable industry has come into exist ence having for its primary object the supply of beer to Government for sale to the British soldier

"So long as the industry was confined to the manufacture of beer for sale to Government the want of legal authority for the levy of duty was not felt, Indian brewed beer sold to Government was exactly on the same footing in respect to non payment of duty as beer imported from England by Government

"The industry has in the course of time, increased in importance, and a considerable quantity of Indian brewed beer is now sold to the general public There are three reasons why Indian beer sold to the public should now be

taxed firstly because it is the general policy of Government to tax all spiritu ous and fermented liquors, secondly, because it is unfair that Indian brewed beer should escape a tax which imported beer pays, and thirdly, because the tax will bring in a certain amount of revenue

"The amount of revenue to be obtained is not great, it will probably amount at the present time to some Rs 50 000 or Rs 60,000 yearly, and from this sum must be deducted the cost of collection It would have been considerably less some years ago before the industry had attained its present propor tions

"The question whether legislation should be undertaken for the purpose of taxing Indian beer has been more than once under the consideration of the Government of India, but action was deferred in consideration of the small amount of revenue which the measure would produce I have thought it necessary to explain the reasons for the inaction of Government, because theories of a some what malicious nature and really not requiring very serious notice have been invented to account for the non levy of duty in the past

"At any rate, I think there need be no hesitation in now undertaking legislation which will at one and the same time, add to the public revenue satisfy the requirements of a rigorous political economy, gratify the advocates of temperance and which, strange to say appears to meet with the approbation of the brewers—the producers of the article on which the taxation will fall

'It is provided in the Bill that the rate of duty on Indian brewed beer shall not exceed that levied on imported beer, which is practically of the same class and quality"

The Motion was put and agreed to

The Hon ble SIR DAVID BARBOUR also introduced the Bill

The Hon ble SIR DAVID BARBOUR then moved that the Bill be taken into consideration on the 21st proximo

The Motion was put and agreed to

The Council adjourned to Friday the 7th March, 1890

# APPROPRIATION REPORT ON THE ACCOUNTS OF 1888 89

## GENERAL REVIEW

was explained in the last report that the financial position of the Government of India de it necessary, towards the close of 1887 88 to increase the rate of Salt duty and impose a y on the import of petroleum Full allowance was made for these measures in the Budget 1888 89, which shewed a surplus of Rx 423,500, excluding the charges for Special Defence ɔrks In the course of the year, the rate of exchange suffered a fall of over a half penny rupee, and Rx 374,300 was spent on the Sikkim, Hazara, and Lushai Expeditions The venue from salt was also Rx 446 900 less than anticipated owing to persistent rumours about intended reduction in the duty, and the collections of Land Revenue in March 1889 were all partly on account of unfavourable season and poor crops and partly from a change in date of payment These adverse circumstances were, however, more than counterbalanced improvements in various heads of Revenue, principally Forest and Exchange on Railway ısactions, and by reductions in expenditure especially under Land Revenue and Civil Works e actual result produced in the accounts is a surplus of Rx 826,600 without the expenditure Special Defence Works, or Rx 37,000 including it Particulars of the various changes com sed in this result are given in the following paragraphs in which the accounts of 1888 89 are t contrasted with those of the preceding year, and then with the Budget Estimate

2 No important changes of classification of Revenue and Expenditure were made during year, but the minor heads under the section " Interest " were revised with reference to the scheme of Provincial Loans explained in page 120 of this report

3 The following summary gives the Budget and Account figures of 1888 89 to be reviewed his report, and the details will be found in the statements on pages 126 to 138 Throughout report the figures are tens of rupees (Rx 1 = R10) with the last two figures cut off for the e of shortness, thus, 149,7 reads one hundred and forty nine thousand seven hundred s of rupees —

| Receipts | | Revenue and Expenditure | | Outgoings | |

## Comparison with the year 1887-88

4 The comparison in respect of revenues is as follows —

| Revenues | 1887-88 | 1888-89 | Difference, 1888-89 greater (+) or less (—) |
|---|---|---|---|
| Principal Heads of Revenue | 54 781,0 | 56,220,8 | + 1,439,8 |
| Interest | 746,6 | 841,8 | +95,2 |
| Post Office, Telegraph, and Mint | 2,229,5 | 2,244,8 | +15,3 |
| Civil Departments | 1,495 7 | 1,508,0 | +12,3 |
| Miscellaneous | 1,606,1 | 1,792,8 | + 186,7 |
| Railways | 14,533,4 | 15,520,7 | +987,3 |
| Irrigation | 1,714,3 | 1,900,7 | +186,4 |
| Buildings and Roads | 592,3 | 604,7 | +12,4 |
| Army Services | 1,060,8 | 1,062,4 | +1,6 |
| | 78,759,7 | 81,696,7 | +2,937,0 |

5 Of the large increase under *Principal Heads of Revenue* 1,004,9 is due to S owing to the enhanced rate of duty, and 225,0 to Forest from the restoration of order Burma and the extension of the area under the Forest administration The advance *Interest* results from the investment of large balances in England at favourable rates as plained in paragraph 46, and in *Miscellaneous* from unusually large gain by exchange on tr sactions with the Railway Companies The *Railway Revenue* has been enlarged by the open of new lines and extension of old ones, but it is counterbalanced to some extent by a rise railway expenditure The *Irrigation* Revenue was improved by opening additional leng of canals chiefly in Upper India The differences under the other heads are not import and do not call for special notice here

6 The comparison of the expenditure side is as follows —

| | 1887-88 | 1888-89 | Difference 1888-89 greater (+) or less (—) |
|---|---|---|---|
| Direct Demands on the Revenue | 9,438,2 | 9,737,9 | + 299,7 |
| Interest | 5,441,8 | 4,712,3 | — 729,5 |
| Post Office, Telegraph, and Mint | 2,255,8 | 2,146,5 | — 109,3 |
| Civil Departments | 12,906,4 | 13,013,6 | + 107,2 |
| Miscellaneous | 4,761,1 | 4,884,4 | + 123,3 |
| Famine | 91 4 | 78 3 | — 13,1 |
| Construction of Railways | 80 9 | 22,4 | — 58 5 |
| Railways | 16,655,7 | 17,754,1 | + 1,098,4 |
| Irrigation | 2 461,0 | 2,623,0 | + 161,4 |
| Buildings and Roads | 5,451,1 | 5,310 7 | — 140,4 |
| Army Services | 20 417,9 | 20,301 8 | — 116,1 |
| Special Defence Works | 456,0 | 789,6 | + 333 6 |
| | 80 417,9 | 81,374,6 | + 956,7 |

7 The excess in 1888 89 under *Direct Demands on the Revenue* occurs principally in ım charges (173 3), owing to the large crops in Bengal, and in Forests (72,2) mainly n a special payment in Upper Burma As explained in last year's report, the interest ments in 1887 88 included a large sum connected with the conversion in England of the r cent stock into 3½ per cents The abatement under *Post Office, Telegraph and Mint* roduced mainly by savings in the Telegraph Department caused by contracted operations Jpper Burma On the other hand, the greater part of the increase under *Civil Depart its* was paid for that country as shewn in paragraph 81 The excess under *Miscellaneous* esents a progressive increase in pension charges The *Famine* expenditure and *Con ction of Railways* were small owing to completion of works in progress in 1887 88 Of rise in *Railway* charges, 465,1 relates to working expenses for State lines and 623,4 to rest and annuities The enlarged working expenses were partly the result of additional ic on the railways as well as of additions to the open mileage from both of which the ings have increased in a greater ratio than the charges The accounts also shew that vy renewals of permanent way and rolling stock became necessary for some of the under ngs The enhanced payments for interest and annuities are due respectively to the pro ss of construction, the fall in exchange, and the large amount of capital deposited with Secretary of State The advance in *Irrigation* charges is exceeded by the improvement rrigation Revenue both proceeding from extended operations of the department The ng under *Buildings and Roads* accrues from the completion of Frontier Roads in chistan and the Punjab, and from reduced charges in Upper Burma The most noticeable ure in the *Army Expenditure* of the year is a reduction of 843,7 in the Upper Burma rges which was counterbalanced by additional payments for the Sikkim, Hazara and hai Expeditions, and the increased loss by exchange on sterling payments The *Special ence Works* cost more in 1888 89 owing to the rapid progress of the constructions to h they appertain

## Comparison of Accounts with Budget Estimates, 1888 89

8 The following figures exhibit the differences in the net accounts —

| | Better | Worse |
|---|---|---|
| Principal heads of Revenue | 133,5 | |
| Interest | | 18,4 |
| Post Office, Telegraph and Mint | 140,2 | |
| Civil Administration | 168,7 | |
| Miscellaneous | 600,1 | |
| Famine | | 5,1 |
| Construction of Railways | 21,4 | |
| Railways | | 118,5 |
| Irrigation | 101,3 | |
| Buildings and Roads | 331,8 | |
| Army Services | | 192,2 |
| Special Defence Works | 331 9 | |
| | 1 8 7 0 | 334 2 |

9 The difference of 133,5 in *Principal heads of Revenue* includes a saving of 125, the expenditure side, brought about by reduced charges on account of District Administr and Survey and Settlement, counterbalanced to some extent, by increased payments Opium and Forest On the Revenue side, the Land Revenue collections were short by and the Salt receipts by 446 9 as explained in paragraph 17, but these deficien were covered by improvements under the other heads—notably Opium (108,4), Fc (177,5), Excise (95,9) and Stamps (72,7) The head *Interest* compares well with Budget so far as the net result is concerned, but there are considerable difference the details, as no provision was made for the additional charge caused by the new raised in England for the purchase of the Oudh and Rohilkhund Railway, nor for the inte received by investing the surplus cash balance of the Secretary of State The *Post C* shows a better revenue of 39,4 and a smaller expenditure of 17 8 and the result in the *graph* Department is equally satisfactory, giving a net improvement of 74,7 The impr ment of 168,7 in *Civil Administration* is almost equally distributed between receipts anc penditure, and is the balance of a number of minor variations *Miscellaneous* comprises a creased gain of 545,1 derived from exchange on transactions with Railway Companies, greater part of which was not treated as revenue in the Budget, and the remainder accrues several unexpected fluctuations on both the receipt and charge side Under *Railways* revenue was better by 336 0 owing to favourable traffic on some of the lines, but the expe ture was 454 5 more than anticipated in working expenses consequent on extra traffic increased charges for interest, and in increased loss by exchange The *Irrigation* rev was benefited by 142,0 from extensions in Upper India, but this was partly counterbala by greater working expenses The saving in *Buildings and Roads* is ascribed in l measure to an overestimate of the actual requirements The most prominent fact conne with the *Army Services* of the year is a saving of 188 4 in the Upper Burma charges against this must be placed additional payments aggregating 374,3 on account of the Sik Hazara, and Lushai Expeditions The Army receipts show an increase of 140 6 under C missariat and other heads, but this was more than counteracted by a greater loss by exch (163 8) on the English payments The lapse under *Special Defence Works* was ca chiefly by delay in making certain payments in England

10 The Budget estimated for an excess expenditure of 1,181 6 on the whole accoun which 483 6 was payable from the past accumulations of Provincial and Local Balar leaving a net deficit in the Imperial account of 698 0 The accounts clos with a su of 37 0 in the Imperial account, and an increase in the Provincial and Local Balances of instead of the estimated decrease of 483 6 The net Imperial Revenue has, therefore, better than the Budget by 698 0+37 0 or 735,0 and the Provincial and Local Balance 483,6+285 1 or 768 7 The details of these fluctuations are given below the sign + mea better and — worse than estimate —

| | Revenue Side | | | Expenditure Side | | |
|---|---|---|---|---|---|---|
| | Imperial | Provincial | Total | Imperial | Provincial | Tot |
| Principal heads of Revenue | —236 9 | +245 3 | +8 4 | +6 | +124 5 | +1 |
| Interest | +129 3 | +56 2 | +185 5 | —156 6 | —47 3 | —2 |
| Post Office Telegraph, and Mint | +111 7 | +1 8 | +113 5 | +35 8 | —1 | + |
| Civil Departments | +36 9 | +47 1 | +84 0 | +2, 9 | +61 8 | + |
| Miscellaneous | +573,1 | +53 5 | +626,6 | +12 4 | —38,9 | — |
| Famine | | | | +3 2 | —7 3 | – |
| Construction of Railways | | | | | +21 4 | + |
| Railways | +333 2 | +2 8 | +336 0 | —439 0 | —15 5 | —4 |
| Irrigation | +107 1 | +34 9 | +142 0 | —55 1 | +14,4 | — |
| Buildings and Roads | +11 0 | +38 6 | +49 6 | +106 7 | +175,5 | +2 |
| Army | +140 6 | | +140,6 | —332 8 | | —3 |
| Special Defence Works | | | | +331 9 | | +2 |
| Total | +1,206 0 | +480,2 | +1,686 2 | —471 0 | +288,5 | —1 |
| Total Net | +735 0 | +768,7 | +1 503 7 | | | |

11 The improvement in the Provincial Section occurs chiefly in the Principal heads o Revenue and in the expenditure of the Civil Departments and under Buildings and Roads The notable items making up the difference in the Imperial Section are as follows —

| IMPERIAL | Better | Worse |
|---|---|---|
| Land Revenue | | 59,4 |
| Salt | | 411,7 |
| Opium & Forest | 160,5 | |
| Interest | 63,1 | |
| Post Office, Telegraph, Marine | 175,2 | |
| Gain by Exchange | 536,5 | |
| Railway | 165 5 | |
| Civil and Military Works | 124 4 | |
| Special Defence Works | 256 6 | |
| Upper Burma Police | | 40,2 |
| " " " Army | 188,4 | |
| Other Army Charges | | 221,2 |
| Exchange on English Expenditure | | 505 5 |
| Minor Improvements under other heads | 302,8 | |
| | 1,9/3,0 | 1 238 0 |
| Net better | 735 0 | |

## Section A—PRINCIPAL HEADS OF REVENUE

| 1887 88 Accounts | | 1888 89 Budget | 1888 89 Revised | 1888 89 Accounts |
|---|---|---|---|---|
| 54,781,0 | RECEIPTS | 56,212,4 | 56 397,5 | 56,220,8 |

12 The principal fe iture of this group is the adv nce in Salt as compared with 1887-88 wing to the enh inced duty Opium also has improved from a rise in the price of the Bengal ug, and Forest from returns in Upper Burma The land revenue was short in Bengal partly om suspensions in districts which were suffering from scanty harvests and in Madras from ie scarcity in Ganjam, and from postponement of the dates fixed for some of the instal ents

### I —Land Revenue

13 The difference in India under *Ordinary Revenue* consists of the sale proceeds of waste lands in oorg which were wrongly classified hitherto under this head but have now been entered correctly as *Sale Proprietary right &c*, where a corresponding increase will be found The improvement in the Central rovinces occurs chiefly in the Chhattisgarh Division, and is the result of the revised settlements now in ogress The Burma collections during 1887 88 included arrears and the budget accordingly allowed for reduction in 1888 89 but the date of collection having been postponed in the Akyab and Kyookphyoo stricts a sum of 67 0 was not realised until 1889 90 In Assam the revenue came in promptly, especially Sylhet and Cachar The Bengal collections were short by about 80 0, of which 37 0 is attributable to spensions in districts which were suffering from scanty harvests The deficiency in the North Western ovinces proceeds from unfavourable weather which damaged the crops in both seasons of the year The injab budget was framed high with reference to the improvement expected from increased assessments, t it was not reached owing to certain suspensions and remissions which became necessary The Madras n unu ually large in 1887 88 and included some advance n yments as st ted in l st

## Section A.—PRINCIPAL HEADS OF REVENUE—*continued*

## I —Land Revenue—*continued*

eport The budget was framed with these facts in view, but the season was again favourable, except in Ganjam, where there was fear of a famine and the collections exceeded all expectation In addition to he scarcity in Ganjam, the collections were retarded by postponement of the dates fixed for payment of ome of the instalments In Vizagapatam also certain sums due in 1888 89 were not realised till the ollowing year Of the increase in Bombay 25 7 was derived from the use of canal water for cultivation ver an extended area in Sind, and 43,1 from exceptionally large sales of lands in four districts The evised was not reached owing to postponements, chiefly in the Ahmednagar district

14 As regards the other headings the improvement in the Punjab under *Rent of Resumed Police Service Lands*, is due to re assessment operations and in Bombay to enhanced Survey rates The head *Sale of Proprietary Right, &c*, in India includes a transfer from ordinary revenue as explained above In Assam in 1887 88 it was enhanced by special credits on account of Redemption of Waste Land grants, nd in Bengal by some special items also These receipts in the last named province follow the ordinary ollections and were consequently rather low in 1888 89 In this year the North Western Provinces and Oudh receipts were enhanced by unexpected sales of waste lands, and the Bombay receipts by the value of the land taken up for the new municipal offices in Bombay The head *Fisheries and other Receipts* in ndia includes for the first time the khetran revenue (4 4) as well as the balance of the Pachotra Fund 1 4) transferred to Government and these two items constitute the main difference between the two years 887 88 and 1888 89 The transfer of the Pachotra Fund was not settled when the Budget was framed nd consequently was not estimated The Quetta assigned revenue and the Bori Valley revenue were etter than the estimate by 1 2 and 9 respectively The improvement in Burma is the result of larger nes levied on villagers under Act II of 1880 and Regulation XIV of 1887 and in the Punjab of increased eceipts under the new mutation rules and the re assessment operations There is also a large increase the local section of the account provision for which was erroneously made by District Boards in the stimates under XXV—Miscellaneous The Revised in Bombay was too high The growing receipts rom Upper Burma are due to the gradual establishment of order in that country

15 The following statements, A and B, give the usual particulars regarding the distribution of Land Revenue between the Imperial and Provincial Governments As stated in the last report a change has een made in the method of distribution by the present contracts and the several Provincial shares as ow fixed are given in Column 4 and the special adjustments in Column 5 f Statement B

| 8 515 5 | TOTAL | 8 453 9 | 8 560 9 | 8 562 3 |

16 The large sum realised in 1888 89 from the *Bengal sale of opium* as compared with the accounts of he previous year and the budget is due to the higher prices obtained in the Opium Sales, the average price 1 1888 89 being R1,120 per chest against R1 059 in 1887 88 and R1 042 adopted for the budget As ated in paragraph 21 of the last Financial Statement, this rise in prices is believed to be due to short rops in China and Malwa The *Bombay Opium Pass Fees* were small in consequence of poor crops in Malwa which resulted in an export of 30 222½ chests only against 35 338 chests estimated in the budget s regards the *excise opium* the improvement in the Central Provinces is caused by recovery of the revenue after the bad harvests of 1887 88 in Burma, by a stricter application of the law against smuggling and in the North Western Provinces and Oudh by larger sales of the drug There is nothing pecial to report with respect to the other provinces The following table shows the produce and sales n Bengal and the export from Bombay —

| Year | | Bengal: Balance in stock on 1st April Chests | Bengal: Produce of season Chests | Bengal: Chests sold | Bengal: Average price per chest R | Bengal: Total price | Bombay: Chests | Bombay: Rate | Bombay: Amount |

17 The difference between the actuals of the two years is mainly due to the enhanced duty on Salt ııch was imposed throughout 1888 89 whereas in 1887 88 it was levied during the last three months ly The budget was framed high in consequence of the duty having been raised but the revenue was tarded towards the end of the year by unfounded rumours of abatement of duty which had the effect checking issues and causing traders to keep their stock at a minimum The receipts were also affected special circumstances in some provinces In *India* the sale of Government Salt has been checked ›m the opening of the Jodhpore line to Pachbadra whereby the Pachbadra Salt is able to compete th Baragora Salt in Rajputana Central India and the North Western Provinces and Oudh The excise local manufacture was improved by greater activity in the Saltpetre trade There was no revenue the *Central Provinces* owing to abolition in 1887 88 of the Government agencies which had been tablished for the sale of Baragora Salt The small amount realised in *Burma* is attributed to dimi- ıshed importations consequent upon the large stocks held in the country as well as to fish salted in the raits having to some extent taken the place of the local article The fluctuations in *Madras* under e heads Sale of Government Salt and Excise on Local Manufacture are caused by the extended substi tion of the excise system in place of the Government monopoly The duty on imported Salt was ȝh in 1887 88, as it included the differential duty collected on duty paid imports which were landed er the rate had been increased The decline in sale of Government Salt in *Bombay* is attributed the displacement of Baragora Salt by the Pachbadra commodity beyond the frontiers of that Presidency d would have been larger had it not been counterbalanced under Portuguese India by the opening additional salt works

18 As regards *Court fee Stamps*, the large receipts in India and Assam in 1887 88 accrued re ively from exceptionally heavy suits filed in Coorg, and from special measures which became necessa recovery of the land revenue in Sylhet as noticed in last year s report The improvement in 1888 the Central Provinces the North Western Provinces and Oudh, the Punjab and Madras was c increased litigation which in the Punjab was especially noticeable in those districts where settle operations were in progress The improvement in the Central Provinces was also due in part to incr facilities granted for the purchase of stamps There was a falling off in the number of suits institut Burma, Assam and Bengal As regards *Commercial and other Stamps*, the improvement in Burma i partly to a stricter enforcement of the Stamp Act and partly to documents being registered local larger numbers instead of being sent to Calcutta for this purpose The other provinces also shew imp receipts under this head the increase being ascribed generally to the normal development of the rev from this source The head *Fines and Penalties and Miscellaneous* is always an uncertain quantit the Bengal Budget was too high while in Bombay a large number of documents were impressed u ' Duty on Forms of Insurance Policies ' During the year the Stamp Act was fully introduced into *L Burma* and the enlarged actuals of 1888 89 are due to this cause as well as to the settling down c country

19 The *India* revenue was unusually high in 1887 88 owing to exceptional causes as shown in year's report The Budget for 1888 89 was framed accordingly for a lower amount but the compl of the Railway works at Sibi and the gradual dispersion of the large bodies of men who were massed t before 1888 89, diminished the receipts In Bangalore and Ajmere also some portion of the collec due in 1888 89 were not realised till after the year had closed The Revised Estimate was too Owing to bad harvests the *Central Provinces* revenue was depressed in 1887 88, but it has recov in the present year though not to the extent anticipated in the budget The large amount of license distillery fees in *Burma* is due to the growing taste for exciseable liquors chiefly by the Upper mans who come to work or to settle in Lower Burma as well as to increase of the population and tc liquors having been brought more under control and illicit distillation checked The improveme Opium receipts arises from the introduction of the Opium Act into Upper Burma, whereby the p of the dru has been increased and smuggling made d ffic lt The large amount realised n U

## Section A.—PRINCIPAL HEADS OF REVENUE—*continued*

## V —Excise—*continued*

1888 89 The budget was not reached, but when it was framed there was not sufficient data for an curate estimate In *Assam* the competition for liquor licenses was greater than in 1887 88, but the mand for opium was smaller In *Bengal* the Excise revenue had been steadily growing for some years d the budget was framed accordingly but in 1888 89 the high price of food grains in some parts of the ovince checked the advance The *North Western Provinces and Oudh* had a oad year in 1887 88 owing the high price of food grains There was a recovery from this depression in 1888 89 but not to the tent expected in the budget The improvement under Opium is due to increased sales of Excise Opium he *Punjab* revenue has been increased by improved Excise Administration leading to the substitution licit for illicit consumption and by the permission to import Malwa Opium at one fourth duty into rtain districts of the Province The rise in *Madras* as regards liquors and drugs is attributed to greater ompetition among bidders owing to the sub division of farms and the separate sale of shops as well as the extension of the tree tax system The Opium Pass duty yielded more than in 1887 88 but not to e extent provided for in the estimates The expansion of the revenue in *Bombay* was due particularly a good season and general prosperity, and to the substitution in Dharwar during the year, of the ee foot booth and licenses in place of the monopoly and farming systems The Opium receipts were nlarged by raising the price of the drug

21 The large amount of *import duties* realised in 1888 89 as compared with the previous year is due ainly to the tax on petroleum which was levied with effect from 19th January 1888 The Budget was amed with a view to this increase which however was counterbalanced in Burma by a falling off in the ty on liquors and on arms and accoutrements while in Bengal Madras and Bombay the increase was eater than anticipated In Bengal and Madras, the duty on liquors was also larger than was expected the Budget The diminished receipts from *export duties* in Burma, Bengal and Bombay were caused smaller exports of rice from those ports, while the reverse occurred in Madras whence large shipments re made to London and Ceylon

24 The *India* budget was too low, specially for Coorg and the Andamans In the *Central Provinces* gher prices were obtained for timber in 1888 89 than in 1887 88 and greater precautions were taken ainst pilfering on the part of subordinates The budget anticipated the rise in prices but was ittle too sanguine The excellent results in *Burma* are due principally to the restoration of order that country In the Pegu Circle the sale of timber was satisfactory both as regards quantity d prices, while in the Tenasserim Circle, the floating season was exceptionally favourable twice much timber having reached Khado as was anticipated in the budget At Khado large quantities teak were cleared in order to avoid the enhanced duty of seven per cent *ad valorem* which has en levied from 1st April 1889 There was also an active local trade in kanyin timber and a large nount of drift timber lapsed to Government in the absence of claimants In Upper Burma the Yaw forest ne into the possession of Government after the budget had been framed and negotiations were still pro ding with the lessees of other forests as to the terms on which their tracts should be worked It was possible in the circumstances to frame an accurate forecast of the accruing revenue The increase in *sam* was obtained chiefly in the Garo Hills, from which large quantities of forest produce were held ck in 1887 88, owing to difficulties of transit as stated in the report of that year *Bengal* presents a ficiency of 5,3 as compared with the budget The year was bad for drift generally, and the receipts om Gunduck drift were short by 2 2 The remainder of the deficiency was largely caused by opening the est tracts in Orissa and in the sub division of Buxa to the famine stricken population Various reasons assigned for the increase in the *North Western Provinces and Oudh* where the demand for indi nous timber was stimulated by the closing of the forests in Nepal, owing to the discovery of extensive uds in connection with them The demands on the Forest Department were also increased by depletion merchants stocks in large selling centres, and by the requirements of the Irrigation Department and the troops at Chakrata There were large sales of standing trees in Dehra Dun, and the arrears of azing dues in Saharunpore were recovered The *Punjab* was visited with favourable floods by mean which more timber reached the depôts than was expected There were also good sales of stock carried r from the preceding year, and of fuel, and considerable arrears were collected on account of grazing

## Section A.—PRINCIPAL HEADS OF REVENUE—*continued.*

## IX —Forest Revenue—*continued*

dues The *Madras* accounts shew large receipts on account of firewood, the long pending claim on t Bellary Kistna State Railway having been settled during the year The yield from timber and oth forest produce was good and the grazing dues were fully collected On the other hand, a diminished d mand is reported for redwood in Cuddapah and for sal sleepers in Ganjam, and hence the actuals are bel the budget The following are the principal facts in Bombay The Railway authorities cancelled the indent for firewood and charcoal after the budget was framed, and the Southern Mahratta Railway took smaller number of sleepers than was expected On the other hand, a brisk demand sprung up for timb and other minor produce and a large contract was received for babool bark Large numbers of cattle al resorted to the Government forests for pasture owing to scanty rainfalls in some parts of the presiden and to inundations in others

26 The deficiency in the Oodeypur tribute under *Tributes and Contributions of R5 000 and over* is nominal and arises from the peculiar method in which the account is made up This tribute has hitherto been adjusted in connection with the expenses of the Meywar Bhil Corps but in future the two will be kept distinct each being brought to account in full The differences standing against Kathiawar and Baroda are due to short recoveries As regards *Contributions for special Military Forces,* Bhopal made advance payments in 1887 88 and so paid less in 1888 89 The short contribution on account of the Southern Mahratta Horse is ascribed to the date of payment having been transferred from March to April in the case of one of the minor States The India receipts on account of *Tributes and Contributions under R5 000* fell below the estimate, as the sums due from Dungerpur and Sillana were realised after the close of the year The Central Provinces budget was raised consequent on a revision of the tributes of the Chattisgarh Feudatory Chiefs but the full amount was not realised during the year In Burma the amounts expected especially from the Shan States were not recovered The short recovery in India under *Fees on Succession to Native States* is caused by the postponement of the amount due from the Gourihur State

## Section A —DIRECT DEMANDS ON THE REVENUE

| 1887 88 Accounts. | | 1888-89 Budget. | 1888-89 Revised. | 1888-89 Accounts. |
|---|---|---|---|---|
| 9,438,2 | | 9,863,0 | 9,837,8 | 9,737,9 |

27 The principal features of this group may be summarised as follows The most prominent difference between the two years embraced in this review is in the opium charges, which were 173,3 more in 1888 89 than in 1887 88 This is due to the produce received by the Opium Department in 1888 89 having been largely in excess of the corresponding deliveries in the previous year The next difference is in *Forest* charges, which are higher in 1888-89 by 72,2 of which 66,4 occurred in Upper Burma, 53 4 having been paid in satisfaction of claims upon the former Government of the country Similar increases occur under *Assignments* (17,2, owing to the introduction of new survey rates for alienated revenue especially in the Sind districts, and under *Land Revenue* (27,3) owing chiefly to various increases in the Punjab As compared with the Budget, savings aggregating 170,1 have accrued under *Land Revenue* in charges of District Administration and of Survey and Settlement, under *Salt* owing to the Bombay Budget being too high, and under *Stamps* owing to smaller indents having been sent for them to England than was anticipated On the other hand some special payments caused the Grant for *Refunds* to be exceeded by 33,5, and the *Opium* charges were greater than expected by 43,2 from the causes mentioned above There is also an excess of 21,4 in *Forest* expenditure comprising fluctuations on both sides of the account, the principal difference being in Upper Burma

28 These refunds are not amenable to very accurate forecast In *India* under Salt, large refunds became necessary owing to the tax having been levied at R2 8 a maund in cases where the old rate of R2 per maund should have been imposed A refund was also granted to the Bikaneer State in respect of sums due to it In *Burma* a number of unexpected claims had to be paid *The Bengal* excess under Other Revenue Refunds is caused by a readjustment of Ferry Tolls and Road cess Collections, which were wrongly treated as Provincial Revenue in 1887 88 The other fluctuations in this province do not call for special remark. The *Madras* budget was too low and the *Bombay* budget too high

29 As regards the *India* compensations, the payment to Dholepur includes arrears on account o 1887 88, while the amount drawn by Meywar is the net sum after deducting the advance payment made last year The royalty payable to Joudhpur and Jeypur is variable being regulated by the quantity of salt taken In *Bengal* the amount of other compensations was high in 1887 88, as it embraced large arrears on account of former years In 1888-89 the actuals were less than the Budget as some sayer compensations were not drawn in that year The saving in the *Punjab* has accrued from lapsed pensions The *Madras* actuals of 1888 89 under compensation in lieu of resumed lands and other compensations include arrears on account of the preceding year, when the pensions were not fully drawn as explained in the last report As regards *Bombay*, it is necessary to examine together the two heads, Pensions in lieu of resumed lands and Inamdars and other grantees, owing to the classification of alienated revenue having been revised The totals of the two heads are 859,7 for actuals of 1887 88 and 860,5, 862,0 and 869 9 for Budget, revised and actuals of

## Section A—DIRECT DEMANDS ON THE REVENUE—*continued.*

### 2—Assignments and Compensations—*continued*

1888 89 These totals are made up partly of cash allowances and partly of transfer adjustments or account of alienated revenue The details shew that the cash allowances in 1887 88 amounted to 117,8 against 111 3 in 1888 89 The excess was due largely to arrears as these allowances are never drawn regularly On the other hand, the alienated revenue in 1887 88 amounted to 741,9 and in 1888 89 to 758 6, the difference in this case being attributable to the introduction of new survey rates especiall n the Sind districts The Budget for cash allowances was accurate, the discrepancy between it and the ctuals being traceable to a saving of 2 4 in connection with District and Village Officers, but it failed with respect to alienated revenue, a sufficient margin not having been left for increases arising out o he new rates mentioned above The Goa Salt compensations aggregated 5,9 more in 1887 88 than n 1888 89 The Budget provided 17 0 on account of them, and 177 on account of the customs tarif ompensations, but the latter remained wholly undrawn and of the former only 10,4 was claimed The ead " Excise and other compensations includes in 1888 89 8 6 on account of new excise compensations and 3 3 on account of arrears due to Nawab Bhismilla Khanji of Radhanpur, only a part of which was provided in the estimates

30 The *Charges for District Administration* were small in the Central Provinces owing mainly to a portion of the Patwari expenditure remaining undrawn at the close of the year, and in a minor degree to absences on leave The Burma budget provided for the revised cost of the Commission, with effect from

## Section A.—DIRECT DEMANDS ON THE REVENUE—*continued*

## 3.—Land Revenue—*continued*

the beginning of the official year, but the scheme was not introduced till December 1888 The Benga budget was too high In the North Western Provinces and Oudh this head now includes the charges o village accountants (putwaris) attached to the Tarai and Bhabar Government estates, formerly enterer under *Management of Government estates* The savings occur chiefly in ' Subdivisional offices anc ' Kanungo establishments In the Punjab the Kanungo establishment since 1887 88 is being graduall brought up to the sanctioned scale and a general increase has arisen in other items In the Madra budget a sum of 34 2 was entered for revision of Revenue establi hments and re grading of tehsildars but these changes were not carried out Of the difference between budget and actuals in Bombay about 2,2 comprises charges connected with the Khoti Settlement officer which, though estimated under this head have been taken in the actuals under Survey and Settlement Of the balance about 3 3 is due to the suspension of the Commissioner Central Division and various leave vacancies, and the remainder tc savings in travelling allowances and in petty construction and repair

31 The expenses of *Survey and Settlement* are composed partly of professional survey charges and partly of district settlement charges as noted below The professional survey charges represent the amount payable by the Provincial Governments on account of work done for them by the Survey Depart ment In the present instance the work performed was less than had been contemplated in the budget the principal differences being in the Central Provinces, Burma, and in the North Western Prov inces and Oudh In Madras various reductions have been effected since last year The excess ove 1887 88 in Bombay occurs almost entirely in laying out boundary marks in Sind As compared with th budget the actuals of 1888 89 shew a large saving in salaries and smaller savings in supplies and contin gencies As regards district settlement charges the saving in the Central Provinces accrued from the permanent establishment not being fully entertained and from economies in field establishments an contingencies in the North Western Provinces and Oudh from the closing of settlement operations ı some districts, and in the Punjab from certain settlements having been commenced later than originall arranged The Bengal budget was too high The Bombay payments were small in 188, 88 owing to th absence on furlough of the Survey and Settlement Commissioner The excess over budget in 1888 89 ı caused mainly by the transfer to this head of the Khoti Settlement Officer as noted above

32 The increased charge in Burma for *Land Records and Agriculture* is due to payments havin been made in 1888 89 for the whole year whereas in 1887 88 they were for a few months only On th other hand, the large expenditure in Bengal during 1887 88 included special items as noticed in last year report The head *Management of Government Estates* has diminished in the North Western Province and Oudh in consequence of the transfer to charges of district administration mentioned above Apar from this transfer, the accounts shew general savings under contingencies The 6 shewn under Indi as *Commission on collections* represents payments connected with the Pachotra Fund in Ajmer now treated as a Service charge The saving in Burma arose out of the postponement of revenu mentioned in para 13 and in Assam the budget was too high The Punjab budget for *Allowances District and Village Officers* was insufficient, and during the year additional Patwari schools were create in consequence of new settlements having been commenced In Bombay the excess is caused by tl transfer to this head of charges of the village cess fund from 20—Police As regards *Upper Burm charges* the excess over 1887 88 is due to extension of the regular administration as the country become more settled, to larger commission on revenue collections which have increased and to the continued ope ations of the Settlement Survey at Mandalay The budget was not reached as the scheme for regular ac ministration of the country was not introduced till late in the year and various savings were effected connection with the Mandalay survey and other expenditure The head *Other Charges* in India ir cludes the cost of revenue collections in stations on the North West Frontier, and the rise in 1888 8 as compared with the previous year is almost wholly in collecting the Quetta Assigned Revenue Th charge in the North Western Provinces and Oudh includes the purchase of estates under the Jhansi Er cumbered Estates Act These payments were 1 8 less than the estimate and there was a further avin of 6 from stoppage of compensation to junior civilians in those Provinces The Madras payments refe to the Inam Commission

33 The charges on account of establishment and contingencies of the Behar and Benares Agencies ggregate 126 1 for the accounts of 1887 88 and 139 5, 127 7 and 126,7 for the budget, revised and ac- ounts of 1888 89 respectively The budget was rather high, but otherwise the fluctuations do not call for pecial notice

34 The *Cultivation and Manufacturing charges* in the Behar and Benares Agencies may be divided nder four heads namely, (1) Advances to cultivators (2) Final payments to cultivators on delivery of the ude drug (3) Manufacturing charges, and (4) Miscellaneous The amount under each head is given in the llowing statement The advances in 1888 89 were less by 114,2 than those of the previous year the ea under cultivation having been reduced On the other hand the payments in 1888 89 on settlement accounts with cultivators in respect of the previous year s crop amounted to 284 7 more than the corres onding sums in the accounts of 1887 88 The payments on this account in 1887 88 referred to the produce 1886 87 which was comparatively poor The manufacturing charges in 1888 89 exceeded those of the evious year by 5 9, which is doubtless due to the larger quantity of the drug to be dealt with The iscellaneous charges comprise payments for leaves trash and timber transit and weighment charges and eight and the difference in the expenditure of the two years is spread over numerous items The tuals fell short of the Behar Budget owing to unseasonable weather while in Benares, the estimate was o low

35 As stated in last year s report, reductions have been carried out in India under *Establishment and ntingencies*, which explains the savings apparent in the above figures Of the increase in Madras, as com ed with 1887 88 about 1,7 is due to additions to the number of Assistant Inspectors 3,5 to the enter nment of preventive establishment in Orissa the establishment of new factories in Madras and the ension of the tree tapping system 2 0 to temporary establishments and 6,0 to construction of new tories The remainder of the increase is in contingencies The Bombay Budget was too high in addi n to which various economies were effected during the year As regards *Manufacture and Excavation* season was unfavourable for operations at the Sambhur Lake and at Pachbadra while stocks being ge at the Mayo mines the manufacture there was kept down The Madras estimate for *Purchase and eight* was rather high and the Bombay budget was very much so in consideration of the fact that the ck was fully replenished by the exceptional purchases in 1886 87 and 1887 88

## Section A—DIRECT DEMANDS ON THE REVENUE—*continued*

### 6—Stamps—*continued*

36 The actuals have followed the Budget closely except in *Bengal* and *Madras*, where the charges c account of Court fee and other stamps have fluctuated with the sale proceeds of stamps The charge i *Bengal* for stamps supplied from central stores was larger than anticipated in the Budget, partly in cor sequence of larger indents, but partly also because the price has been raised in order to cover loss b exchange This excess in Bengal explains the corresponding difference between the budget and actua in *India* against the same head

37 In *England* the estimate was prepared in the absence of sufficient information from India ar proved too high

### 7—Excise

| 1887-88 Accounts | CHARGES OF COLLECTION— | 1888-89 Budget | 1888-89 Revised | 1888-89 Accounts |
|---|---|---|---|---|
| 1 1 | India | 1 4 | 1 9 | 1 8 |
| 7 1 | Central Provinces | 7 2 | 7 8 | 7 2 |
| 2 1 | Burma | 3 2 | 2 2 | 2 2 |
| 5 | Assam | 5 | 5 | 5 |
| 42 7 | Bengal | 44 5 | 44 8 | 43 4 |
| 11 3 | N W Provinces and Oudh | 11 9 | 11 4 | 11 5 |
| 5 6 | Punjab | 5 7 | 5 8 | 5 5 |
| 26 9 | Madras | 23 5 | 30 0 | 32 9 |
| 29 8 | Bombay | 29 7 | 33 2 | 32 8 |
| 127 1 | TOTAL | 127 6 | 137 6 | 137 8 |
| | England | 1 | 2 | 1 |
| | Exchange | | 1 | |
| 127 1 | TOTAL | 127 7 | 137 9 | 137 9 |

38 The first prominent difference is in *Burma* where the Budget for Upper Burma proved too hig The saving in *Bengal* was in travelling allowances and supplies and services The *Madras* budget w too low the combined charges on account of salt and excise having been inaccurately divided between the two heads Apart from this mistake there was an actual increase of expenditure as no offer could l obtained for the Mangalore Taluk farm owing to the belief that the increase in the tapping fees wou lead to a strike among the toddy drawers and the Government was therefore obliged to arrange for t purchase of unexcised liquor The *Bombay* excess is attributed to the entertainment of additional distille establishments at Kaira, Panch Mahals Kolaba and Khandesh, and to the charges for supplies and se vices having been greater than was anticipated

### 8—Provincial Rates

| 1887 88 Accounts | ESTABLISHMENT AND OTHER CHARGES— | 1888 89 Budget | 1888 89 Revised | 1888 89 Accounts |
|---|---|---|---|---|
| 4 2 | Burma | 4 6 | 4 3 | 3 3 |
| 4 | Assam | 4 | 4 | 3 |
| 35 2 | Bengal | 29 6 | 33 5 | 32 3 |
| 7 | N W Provinces and Oudh | 7 | 7 | 7 |
| 16 8 | Punjab | 17 0 | 18 1 | 18 1 |
| 4 8 | Bombay | 5 3 | 5 0 | 4 7 |
| 62 1 | TOTAL | 57 6 | 62 0 | 59 4 |

39 The apparent saving in *Burma* in 1888 89 is mainly due to postponement of the revenue colle tions in the Akyab District, whereby the commission payable thereon was not drawn during the year T *Bengal* budget was framed before the additional establishments required in that Province were sanctione and although provision for the extra charge was made in the revised estimate, it was not fully spent

### 9—Customs

42 The *India* charges for conservancy and works exceeded the budget in Coorg and the Andama where the operations had to be expanded This increase of expenditure was counterbalanced by increas revenue as noted in paragraph 24 In the *Central Provinces* expenditure amounting to 6,2 now treat as establishment, was in 1887 88 regarded as appertaining to timber removed by purchasers Ap from this change of classification the accounts of 1888 89 disclose a large addition to the permanent est lishment, together with new charges aggregating 4,0 on account of Forest surveys The cost of the surveys was not entered in the budget but on the other hand savings were effected in the estima of the head 'Timber removed by Government agency The grant for establishments also was r fully expended, as qualified persons could not be found for the better paid appointments As stat in paragraph 24 forest operations in *Burma* were carried out on a larger scale than was possible 1887 88 or contemplated in the budget, the enhanced expenditure being covered by improved reven The excess expenditure in Lower Burma occurred in commission to contractors in forming and cleari plantations, in forest surveys and drift collections The *Upper Burma* figures include 53 4 paid to t Bombay Burma Trading Corporation, Limited in respect of their claims upon the former Government a of expenses incurred since the annexation About 2 8 was paid for elephants and other live stock a buildings but 2,4 was saved under Demarcation improvements and extensions In *Assam* the actuals fe below the budget, as much of the demarcation work was paid for in kind by free grants of forest produc The working plans were also curtailed in consequence of difficulty in obtaining local labour In *Beng* savings were effected under the head ' Other charges by diminishing road work in Singbhoom when it w found that timber would not be required to the extent anticipated, and by giving up the project leasing forests in Chota Nagpur The charge for establishment was small chiefly on account of absenc on leave The *North Western Provinces and Oudh* budget for ' Timber removed by Government agenc was insufficient Under " Other charges, various economies were carried out in the matter of road makin erection of rest houses, surveys, demarcation, plantations and fire protection The grant for establishmen was exceeded mainly by the appointment of an additional Assistant Conservator The *Punjab* saving und Timber removed by Government agency is connected with the cessation of boxwood operations and t curtailment of work in timber and fuel The difference under "Other charges is due to the irrigatic channels at Changa Manga not having been constructed, and under " Establishment " to absences on lea and deputation The *Madras* budget was too high, and was accordingly reduced in the revised T large expenditure in 1888 89, as compared with 1887 88, is caused (1) by extensions in South Canara, fr which additional revenue is expected, (2) by the purchase of tramway plant for North Arcot, Nellore ar South Coimbatore and (3) by the new charge for forest surveys Nearly all the saving in *Bombay* in conservancy and works and arose out of the Railway authorities having cancelled their indent for fu as stated in paragraph 24 The budget apparently did not make sufficient allowance for deductions c account of clothing

43 As regards the expenditure in *England*, the cost of the continental tour of the Forest studen was larger than the estimate

46 The interest on *Loans to Native States* obtained in 1888 89 by Madras was low owing to repayme of amounts due by the Mysore Government and the Ramnad Zemindary The recoveries in 1887 .

Section B—INTEREST—continued.

nd the loan to the Calcutta Municipality The increased receipts in 1888-89 in the other two Presiden ies arose out of the additional loans taken by the Madras Harbour Trust and the Bombay Port Trust espectively, but the Bombay Revised was too high As regards *Municipalities and other Corporations* he amounts due on account of the Mhow Waterworks were omitted from the India Budget, and in the Punjab the actuals include a portion of the interest relating to the Simla Town Hall which should have been paid in 1887 88 The Bombay Estimates under this and the next head included amounts for which the orresponding actuals have been entered under *Interest on advances to Cultivators* The large sum redited in India under *Interest on Loans to Landholders, &c*, represents arrears recovered in Ajmere, and he small sum credited in respect of the *Currency Investment* is owing partly to a change in the investment, by which interest which otherwise would have been received in 1888-89 was not realised till the ollowing year, and partly to the security reserve having been reduced by 50 0 for about nine months of the ear The *interest on securities of Provincial Funds* in the North Western Provinces and Oudh was reduced by cancelling the securities belonging to the Benares College and the actuals in 1888 89 under *Other tems* in India were enlarged by a special recovery connected with certain temporary loans Owing to he favorable state of the money market, the loan required in *England* for the purchase of the property of he Oudh and Rohilkhand Railway Company was issued in anticipation in May, and a large proportion was aid in full Owing to this and other causes the Cash balance was abnormally large during the last eight nonths of 1888, and the surplus became available for investment The rate of interest obtainable during hat period was also unusually high, and these two circumstances combined to produce the large credit in 888 89

47 The balances under Loans to Municipalities &c have in the last six years stood as follows he column headed 31st March 1889 includes 1 182 9 advanced under the new Provincial Loan Scheme s explained on page 120 The amount of interest paid in 1888 89 by the Local Governments to the Government of India on account of these advances aggregated 47,4, while the actual sum realized by them nd credited to Provincial Revenues amounted to 54 7

|---|---|---|---|---|
| 5,441,8 | EXPENDITURE | 4,508,4 | 4,701,2 | 4,712,2 |

48 It is necessary in the first instance to ascertain the amount of Loans raised or discharged during the year, and the following figures supply these particulars for 1887 88 and 1888 89 —

| 1887 88 Accounts. | | 1888 89 Budget | Revised | Accounts |
|---|---|---|---|---|
| | INDIA— | | | |
| 5,505,3 | Debt incurred | 3,001,5 | 4,632,6 | 4,637,5 |
| 69,5 | Debt discharged | 3 0 | 1,855,1 | 1,848,7 |
| +5,435,8 | NET IN INDIA | +2,998,5 | +2,777,5 | +2 788,8 |
| | ENGLAND— | | | |
| | Debt incurred— | | | |
| | at 3½ per cent | | 4 030,7 | 4,030,7 |
| | at 3 per cent | | 7,206,5 | 7,206,5 |
| | Debenture and Debenture stock | | 3,415 0 | 3,415,0 |
| | TOTAL INCURRED | | 14,652 2 | 14,652,2 |
| | Debt discharged— | | | |
| | at 5 per cent | | | |
| | at 4 per cent | | 3,730 7 | 3,667,6 |
| | TOTAL DISCHARGED | | 3,730 7 | 3 667,6 |
| | NET IN ENGLAND | | +10 921,5 | +10 984,6 |
| +5,435,8 | NET IN INDIA AND ENGLAND | +2,998,5 | +13 699,0 | +13,773,4* |

* The above amounts are exclusive of 91 1 comprising 82 1 charged to Railways on account of Sinking Funds of East Indian Eastern Bengal and Sind Punjab and Delhi Railways and 9 0 to Discount Sinking Fund

49 As regards the *India* account the loan raised during the year was 3,000 0 as proposed in the budget, but in addition to it operations were undertaken for discharging the 4½ per cent loan of 1870 and the stock notes in circulation The greater portion of this discharge was effected by transfer into the 4 per cent loans of 1865 and 1842 43 the amounts actually paid in cash during the year being 210,0 and 1,7 respectively The difference between the budget and actuals under debt incurred is due to these two operations the increase of the 4 per cent debt caused thereby being 1,635 4 As regards the debt discharged, the budget provided 3 0 for the payment of Government promissory notes on which the interest had ceased, and of debentures of the Nagpur-Raipur Railway The actual payments on these accounts amounted to 1,6, or 1,4 less than the estimate The amount discharged on account of the 4½ per cent loan of 1870 and stock notes was 1,847,1, of which 1 635,4 was effected by conversion into 4 per cent debt as stated above, 211,7 being actually paid off

50 In *England* the amount (4,030,7) entered as debt incurred represents the 3½ per cent stock which was issued for discharge of a like amount of 4 per cent India stock The sum of 7,206 5 is 3 per cent stock raised for the purchase of the property of the Oudh and Rohilkhund Railway Company, and for the discharge of such of the debentures of that Company as fell due in the year 1888 before the date of the purchase The amount actually received on account of this stock was 6,921,0 the balance being discount The third sum of 3,415 0 includes the debentures and debenture stock of the Oudh and Rohilkhund Railway for which the Secretary of State incurred liability on the purchase of the property of that Company The debt discharged (3,667 6) is the amount paid on account of the India 4 per cent stock mentioned above as having been discharged during the year These transactions were not provided for in the budget Those connected with the purchase of the Oudh and Rohilkhund Railway could not be so entered, as the nature of the offer to be made to the Company had not been settled at the time

| 9 414 2 | GRAND TOTAL | | | 8 608 4 | 8 919 8 | 8 933 8 |
| | Divided into— | | | | | |
| 5 054 8 | Interest on ordinary Debt | | | 4 075 4 | 4 264 5 | 4 274 8 |
| 4 359 4 | Interest on debt for Railways and Irrigation Works | | | 4 533 0 | 4 655 3 | 4 659 0 |

52 As explained in the last report the interest on both the 4½ and 4 per cent loans had not been fully claimed in 1887 88 The arrears thus left amounted to about 54,9 on account of the 4½ per cent debt and were paid in 1888 89 Deducting this sum from the total payments of 1,080,3 entered above, the ordinary payments of 1888 89 come to 1 025 4 against a budget provision of 1 042 7 This saving of 17 3 is connected chiefly with the discharge of the 4½ per cent loan of 1870 which reduced the interest payable at that rate Due allowance was made for this change in the Revised, but the actual proved slightly higher chiefly in the interest on the 4½ per cent Loan of 1879 The additions which are made almost every year to the 4 per cent debt have naturally increased the interest payments on account of it There was moreover at the close of 1887 88 a certain amount of interest remaining unclaimed as noticed in the report of that year This unclaimed amount appears to have been drawn in 1888 89 but its effect is not apparent in the figures given above as the Gwalior Durbar drew 47 0 less than was due The Revised has turned out well considering the uncertain character of these payments The 9,8 entered against the head *Interest on Loans in course of discharge* includes payments after October 1888 on the 4½ per cent Loan of 1870 mentioned above The small sum, as compared with the budget debited to *Discount on new Loans and Miscellaneous* is owing to the Loan of 3 000 0 having been raised on more favourable terms than was anticipated

53 Particulars are given below of the interest paid in *England* As regards the *Interest not charged to Railways* the payments in 1887 88 were exceptionally high owing to special charges connected with the conversion of 4 per cent Stock into 3½ per cent Stock as explained in last year s report The difference between the budget and actuals of 1888 89 is in the interest paid and not in the discount on new debt or in the commission allowed on further conversion of India 4 per cents into 3½ per cent Stock The excess over budget is due entirely to the interest on the new debt which became necessary when it was determined to purcha e the property of the Oudh and Rohilkund Railway company and on account of which no provision was made in the budget for the reasons explained in paragraph 50 As already explained this loan was raised in anticipation of the purchase being completed and the interest to date of purchase has been charged to this head, the later interest being debited to interest charged to Railways This additional interest amounted to 120 7 but against it must be set two short payments aggregating 52 6 making a net difference of 68 1 as disclosed in the following figures The first reduction is a sum of 42 4 which was included in the interest charged to Railways as it relates to the substitution of India Stock for a portion of the East Indian Railway Annuity The second reduction is a sum of 10 2 entered in the budget as interest on temporary loans but such loans were not needed during the year Of the increase in *Interest charged to Railways* 42 4 is due to the change of classification just mentioned, and the remainder to interest on the new debt raised for purchase of the Oudh and Rohilkund Railway The difference in *Exchange* occurs partly from additional interest paid during the year as noticed above and partly from the rate having been lower than was anticipated in the budget

54 The interest on *Special Loans* in India exceeded the budget as it includes 5 5 on account of arrears n one of the Oudh Loans payment of which was expected in the previous year The usual details of he interest *on Treasury Notes and Service Funds* are given below The estimates of this head and of *avings Bank Deposits* appear to have been closely followed by the actuals The head *Miscellaneous* is omposed of interest on Railway Funds, and other sums of the same kind The excess in India is due hiefly to increased payments on Railway Funds, and to 8 connected with the Madras Railway, provision or which was made in the Madras Estimates The Bombay charges in 1887 88 included the interest paid o the Local Fund Pension Fund which is now treated as a Savings Bank Deposit Apart from this change f classification the interest on local loans and on compensation for land taken up for public purposes was less in 1888 89 than in 1887 88 The budget provided 3 as interest on private contributions for public vorks but this is no longer paid

55 The Post Office continues to show good progress, the excess of expenditure over re nue being 60,9 in 1888 89 against 161,0, 196,0 and 189 5 in the three preceeding years his improvement is in the revenue which has advanced by 168 4 since 1885 86 while the ex nditure has increased by 39 8 only The Telegraph Revenue has received a great addition ice the conquest of Upper Burma in 1886 87 It reached its highest point in 1887 88 owing the Military operations in Burma In 1888 89 it amounted to 113,6 more than the receipts 1885 86 The expenditure in 1888 89 is lower than it has ever been since 1883 84, and for e first time since 1880 81 there is an excess of revenue over charges As regards the mint venue the actuals of 1888 89 are better than the budget, but lower than the revenue of 387 88 owing partly to small importations and smaller coinage of silver, but mainly to dimi-shed gains from copper owing to the high price of the metal The charges were high owing the recoinage of shroff marked and Burmese rupees

## Section C.—POST OFFICE, TELEGRAPH, AND MINT—continued.

### Indian Telegraph.

57. Compared with the actuals of 1887 88 the revenue in 1888-89 shows a falling off of 30,0. This is chiefly to the receipts in the former year having been abnormally large from State messages owing e Military operations in Upper Burma, and from the interest on Railway lines and from rent of uments and appliances

58. The actuals of 1888 89 exceed the Budget Estimate of the year by 33 8 and the Revised Estimate 2,1 At the time the Budget Estimate was prepared, a great falling off in the revenue from the Traffic with, and in, Burma was anticipated As the year progressed, however, it became evident a general improvement of revenue had set in, and the Revised was accepted for an increase of 21,7 the Budget, but the Revised also has proved too low The improvement is caused by extending the ber of combined Post and Telegraph Offices, and by the Military expeditions undertaken during the There happened also to be an increase in the amount in balance belonging to other administrations

### Indo-European Telegraph

59 The receipts in 1888 89 show an increase of 5,2 over those of 1887 88, when the revenue was ptionally low on account of the interruption in the line between Emden and Lowestoft

60 The increase over the Budget is attributed to an expansion of traffic in India and to a larger loyment of the Indo European route, mainly owing to interruption of communication by the Eastern pany s cables between Bombay and Aden in August and September 1888

61 The decrease in the actuals as compared with the Revised Estimate, is due to the revenue being newhat over estimated and to fluctuation of traffic

### Exchange

62 The increase in Gain by Exchange is produced chiefly by increased receipts in England on ount of the Indo European Telegraph, and partly to the fall in the rate of Exchange

63 The amount of *Seignorage on Silver* depends upon the quantity of the metal tendered for coinage as ed below, and considering the uncertain character of the circumstances which influence the importation silver the estimates appear to have been fairly followed by the actuals The *Gain on Copper Coinage* rues on the amount of the coin passed into circulation during the year In 1888 89 the price of pper was very high owing to the action of a French Syndicate, and the coinage was therefore restricted immediate requirements This led to smaller issues from the Depots and consequently to lower gain an in 1887 88 The excess over budget under *Other receipts* in Calcutta, is ascribed to enhanced demands coin from Ceylon and the Straits Settlements, and in Bombay chiefly to a change of system by which reco ries from dross and gain on coinage operations are now adjusted monthly instead of at irregular intervals his increase however, is to a considerable extent counterbalanced by a corresponding excess on the arge side as noticed under the head ' 17 Mint The importation of silver in recent years has been follows —

| | Net Importation. | Silver Coinage | Seignorage |
|---|---|---|---|
| 1881 82 | 5 379 0 | 2 186 3 | 43 4 |

64 The increased cost of the *Chief Office Calcutta* is due mainly to privilege leave arrangements ar to the employment of an additional Superintendent in the Director General s Office The excess cause by these two items amounts to 8 and 5 respectively, and a further sum of 3 was spent on account additional establishment in the Comptroller s department The budget for ***Presidency and Distri offices*** provided for a large revision of establishment and for alteration of the system of railway sortin but both these measures were carried out at a smaller cost than was expected the saving in each ca being 7 6 and 8 1 Some savings also accrued from alterations in the rules for travelling allowanc which are granted at a lower rate As regards the ***Conveyance of Mails*** the budget for ***Road establis ment*** included 2 0 and 1,3 which in the actuals have been properly classified under mail cart establishme and charges and other charges Besides these nominal abatements, a real saving of 2,1 was obtained b abolishing some lines and introducing economies in others The excess in ***payments to State Railwa*** is about equally divided between the North Western State Railway for haulage, and the Burma Sta Railway for three additional vans The head ***mail cart establishment and charges*** includes the mentioned above as having been estimated under the head Road establishment, but the effect of th addition is neutralised by a corresponding saving in other items Of the increase under ***Railway charg*** about 2,3 is due to the experiment which was tried for accelerating the mails to England, and about t

**Section C.—POST OFFICE, TELEGRAPH, AND MINT—*continued*.**

ne sum was paid on account of haulage, rent and interest in excess of the budget provision About 1 5 as paid on account of arrears of 1887 88 not drawn in that year The exce ss in *subsidies* is caused by ms due to the Tigris and Euphrates Company in 1887 88 but not drawn in that year The head *other arges* includes the sum of 1,3 mentioned above as having been entered in the budget under Road tablishment. Besides this sum the bills of the British India Steam Navigation Company for conveying ails to Burma and the Coast amounted to 2,4 more than was contemplated in the budget, and there was o an excess of 3 in rainy season charges

65 As regards the *District Post*, the India charges are gradually diminished as railway communication extended in Biluchistan The rise in Bengal is covered by an increase in the District Post cess as oticed under the head VI Provincial Rates In the North Western Provinces and Oudh some of the tablishments were revised during the year In the Punjab the increase is due to the changes noted der the head XIII—Post Office

66 In *England* the reduced payments to English Post Offices are connected with a re arrangement of e transit rates in France and Italy, owing to which the credit to India for sea-postage was increased and e net charge reduced

## Indian Telegraph

IMPERIAL.

67 The actual expenditure in 1888 89 is 76 0, less than that of 1887 88, the reduction being the re of contracted operations in Upper Burma

68 The decrease, as compared with the Budget Estimate, in the English expenditure is due t smaller purchase of stores in England than was anticipated The India Budget was too low and the Ir revised too high.

### Indo European Telegraph

69 The expenditure in 1888 89 followed closely the actuals of 1887 88 and the Budget The Rev Estimate was too high

EXCHANGE

70 The diminished charges on account of Exchange as compared with those in the previous year the Budget and Revised Estimates, are due chiefly to a smaller outlay in England partly counterbalan by the fall in the value of silver

71 The *establishments* in Calcutta were not maintained at their full strength as the coinage v restricted The *loss of weight in coinage* was high in Calcutta owing to the recoinage of Burmese ε shroff marked rupees and in Bombay a change was introduced in the method of adjusting loss coinage, whereby charges were brought into the accounts of 1888 89 which, otherwise, would not h been settled till the following year *Other Charges* were small in Calcutta as the demand for sto was reduced consequent upon the restricted coinage The charge in Bombay includes arrear payme on account of 1887 88 as noted in last year s report

72 In *England* the stores supplied to Bombay involved heavier expenditure than was indicated in Estimates sent from India

## Section D —RECEIPTS BY CIVIL DEPARTMENTS

74 The excess in India under *Sale-proceeds of unclaimed and escheated property* consists of lapsed estates received from the Administrator General Bengal The rise in *General Fees Fines and Forfeitures* is ascribed in Bengal to the large commission realised by the Receiver of the High Court Calcutta and in the other Provinces except Punjab to larger Magisterial fines, but in Madras part of the increase was derived from the translation fees realised in the High Court As regards Burma the increase indicates that the country is gradually settling down and the ordinary action of the Courts coming more into play In the Punjab the increase consists mainly of Jirga fines, Political fines of the Black Mountain expedition, and fines realised under the Frontier Crimes Regulation Act of 1887 Assam exhibits a decline under this head, owing it is alleged, to a decrease in crime and to better behaviour on the part of the Nagas

75 The *India* budget for other receipts was exceeded owing to the number of prisoners received from ative States which paid for their expenses The budget for Port Blair and Nicobars was too low, and d not provide sufficiently for the sale proceeds of stores The *Central Provinces* budget was too high, addition to which the business done in tents in the Jubbulpore School of Industry fell off during year and the transfer credit formerly taken for the value of printing executed by Jail Presses other departments has now been discontinued In *Burma* the prisoners were employed more extramural labour than on manufactures but the latter were being introduced into the prisons Upper Burma The *Assam* budget was framed low owing to the cessation of work on the Cherra-ompanyganj State Railway but a demand for convict labour and products sprang up during the ar In *Bengal* the Commissariat and Opium Departments took larger supplies from the Jails than was ticipated In the *North Western Provinces and Oudh* the decline under Sale proceeds of Jail manu tures is due partly to diminished sales and partly to the budget having taken credit for the raw mate l required for prisoners clothing and bedding, which is not allowed in the Actuals The increase in other eipts is connected with the employment of convicts on the new Central Jail at Bareilly The *Madras* venue has drooped during the last few years, but it seems now to be recovering and in *Bombay* the eipts were checked by the appearance of cholera in some district jails which interfered with the employ-nt of the prisoners

(a) Included under the head Police supplied to Public Departments

## Section D—RECEIPTS BY CIVIL DEPARTMENTS—*continued*

### XVII—Police—*continued*

76 The India estimates under *Police supplied to Railways* represent the amount payable to Govern ent on account of Railway Police but in the actuals this recovery has been deducted from expenditure, cording to the new classification The head *Police supplied to Municipal Funds* includes in the North West n Provinces and Oudh arrears on account of 1887 88, and in Madras certain Mopilla fines not anticipated the Budget. The receipts under *Police supplied to Public Departments &c* were high in the Central rovinces and Bengal, owing to recoveries in connection with the unopened portion of the Bengal Nagpur ailway The Burma Budget was too low, and in the Punjab the full amount due from the Jhelum Muni pality was not received during the year In Madras the estimates for the head *Presidency Police* were stributed under the other heads, and the Bombay actuals include special sums realised from the Port Trust account of repairs to the *Csarewitch* and the increased contribution on a revision of establishment on the pening of the new Victoria Dock As explained in the last report the large Bengal credit in 1887 88 nder *Fees and Fines, &c* was due to high rents obtained for pounds and though these rents declined 1888 89 the result was much better than expected In Bombay additional cattle pounds were formed ring the year as explained in para 91, and enhanced rates levied for inspecting steam boilers he increase under *Other receipts* is ascribed in Burma to unforeseen recoveries and in Bengal to sessments made under Bengal Act V of 1887 for regulating the rural police in Chota Nagpore In pper Burma large sums were received in connection with the Punitive Police and as contributions om Municipal and Cantonment Funds

77 The *Pilotage receipts* fluctuate with the tonnage of the ships visiting the Port and in Bengal this onnage was less in 1888 89 than in 1887 88 In Madras these receipts are now credited to the Port und The increase in *Dockyard Services* arises from larger supplies than was expected having been ade to vessels of the Royal Navy and other Departments, and in *Sale proceeds of Vessels and Stores* artly from the vessels and stores fetching higher prices than was contemplated at the time of framing e Budget, and partly also from two additional vessels having been sold during the year which it was not tended to sell when the Budget was prepared The *Registration Fees* were unusually large in Burma 1888 89, while the *Coast Light Dues* declined owing to the smaller arrival of ships

78 The important differences here are in Bengal the North Western Provinces and Oudh, the Punjab Madras and Bombay As regards *Bengal* the increase in fees and fines is real, but under "Other Receipts it consists of adjustments made with District Boards on account of charges paid in previous years In the *North Western Provinces and Oudh* an enhanced scale of fees was introduced in 1888 89 The small amount realised in the *Punjab* is ascribed to the agent not having paid within the year the amount due from him on account of sales of books belonging to the late Book Depôt The *Madras* budget was too low a larger abatement having been made on account of schools transferred to local agencies than justified by the result *Bombay* erred in the opposite direction, sufficient allowance not having been made for such transfers

79 Considering the uncertain character of these receipts, the foregoing figures present no more than the ordinary fluctuations, except in the *Punjab* where a considerable discrepancy is apparent between budget and actuals under the head Lunatic Asylum Receipts This comes from a change of classification, whereby the recoveries from District Boards for the maintenance of lunatics are no longer credited to this head, but are set off against the expenditure in a debt account See corresponding reduction under the charge head 24—Medical

80 The Bengal *receipts on account of experimental cultivation* represent the sale proceeds of larr produce not anticipated in the Budget As regards *Cinchona plantations* the Bengal recoveries wer especially large in 1887 88 as noted in the report of that year The Madras Budget was framed high as r sales were effected in 1887 88 and it was expected that large quantities would be placed in the mark during 1888 89 It was decided however, not to tender any of the crude bark, and as the machinery ar chemicals required for the prepared febrifuge did not arrive from England there were practically r sales in this year The Punjab Budget for *receipts on account of public Exhibitions and Fairs* was t low The small sum entered in India on account of the *Mathematical Instrument Factory* is due tc change in the accounts since these receipts are now deducted from the expenditure and not credited grc as was formerly done The increase in Madras under *Other Miscellaneous Receipts* is derived from exam ations for the public service

82 The excess in Bengal in 1887 88 on account of *salaries of Governor General &c* is due portion of the salary of the Chief Commissioner of Burma having been paid in that Province The redu charge in India for *Staff and Household* consists of savings in telegrams and hill journey charges payment under this head in Assam represents the salary of the Personal Assistant to the Chief C missioner and was entered in the budget under 3—Land Revenue and 19 A—Law and Justice as t was the classification at the time In the India Budget for *Legislative Council* provision was made the full number of members but no member was appointed for Madras while the member for the Nc Western Provinces was on special duty in Bombay for a part of the time and the Punjab member arri late The excess under *Military Secretary to the Viceroy* is in hill journey charges and telegrams

83 As regards the *Secretariats* the charges relating to the Government of India are particularised in following figures from which it will be seen that the Financial Department spent about 1 5 more than budget grant owing to the appointment of a Deputy Secretary and the employment of a junior off on special duty The Revenue Department presents an excess of 1,1 on account of acting arrangeme and the employment of a special officer on deputation in Burma and Assam The saving of 1 4 in Public Works Department occurs almost entirely under Salaries, owing to the absence of some of higher officers on leave The charge in Burma now represents the amalgamated Secretariat for the wh Province, the budget having been exceeded chiefly in the cost of telegrams The expenditure in Ben includes the salaries of the officers employed on the "Statistical account of Bengal and on enqui into the excise systems of Madras and Bombay

84 The *Tour charges* in India fell short of the budget owing apparently to the Viceroy s tours hav been curtailed while in the North Western Provinces and Oudh the tours were more extended than contemplated in the budget

## Section D -SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued.*

85 The new charge in Burma on account of *Board of Revenue and Financial Commissioner* is occ sioned by the appointment of a Financial Commissioner for that Province with effect from 1st June 188 The fluctuations under *Commissioners* in the Central Provinces Bengal, and the North Western Province and Oudh arise from absences on leave or deputation In Bengal the difference is also due in part the temporary appointment of an Additional Commissioner in Patna

86 The saving in the India *Account Officers* accrued in the Comptroller and Auditor General s Depar ment from which one officer was deputed to officiate in a leave vacancy at Madras another at Bombay ar a third in the Paper Currency Office He also employed temporary establishments to a smaller extent th was anticipated The increase in Burma was caused by the appointment of an additional officer ai clerks to the Comptroller s Office consequent on the annexation of Upper Burma The Accounts Offic at Lahore had not its full complement of officers throughout the year The fluctuations in Bombay a attributable to changes in the Gazetted staff The decrease in the *allowance to Presidency Banks* is di to the new contracts having come fully into operation during 1888 89

87 The great increase in Bengal on account of *General Establishment of Local Fund Offices* arise out of a change in the accounts, whereby the establishments entertained by District Boards are no included in this head instead of being distributed under Education Pounds, Ferries &c In Madr the number of Punchayats and Unions was increased during the year The *Upper Burma charges* ha diminished as compared with 1887 88 owing chiefly to the amalgamation of the Secretariats as note above, but there have also been savings in the Grant for Commissioners The Budget made no provisic for the audit of District Fund accounts in addition to which the actuals shew excess expenditure c account of acting arrangements resulting from privilege leave vacancies, and for postage and telegram The reduction in *Other charges* India as compared with 1887 88 ensues from the present practice charging rents rates and taxes against the several departments for which they are paid

88 In *England* there were decreases of 1 5 in salaries, 1 9 in charges of the store department, 4 law charges 2,0 in telegrams and 1 6 in office contingencies while 1 5 more than the budget w spent on the management of Debt, and 1 6 on account of the administration in India owing to t Member of the Royal Commission on gold and silver deputed from this country being detained in Engla longer than had been anticipated The estimate for Currency Notes, which was framed on the avera of previous years, proved too high

89 The fluctuation under *High Courts* is largely due to the absence of officers on leave but in Bu the new appointment of Registrar was not filled up and in the Punjab and Madras the Additional Ju was engaged for a longer period than was contemplated in the budget The new charge in the Cer Provinces under *Law Officers* refers to the recently created office of Government Pleader The A budget was too high, while in Bengal the actuals are high owing to additional allowances draw privilege leave vacancies and to larger fees than were expected having been granted to Counse criminal cases. The high charge in Madras is caused by the transfer to this head of Pleaders which were formerly treated as district contingencies, and partly to some important cases which a during the year and which necessitated the payment of special fees The large payment in Bombay is to the prosecution of Jághírdár Hanmantrao and the refund to Mr Wilson of his expenses in connec with the charges brought against him by the Dewan of Cambay The rise in Bengal on account of *and Sessions Courts* is due to the appointment of additional Subordinate Judges and Munsiffs s 1887 88 to increased outlay on establishments for serving processes, and on supplies and ser and contingencies The North Western Provinces budget was too low and an extra Judge was appo at Ghazipur The saving in the Punjab is composed of numerous items, and in Bombay it is effecte contingencies and process serving As regards *Criminal Courts* the small amount charged in the tral Provinces is ascribed to the reduced scale of diet money now granted to witnesses in criminal c In Burma the establishments have been revised and the budget was raised to provide for the addit cost but the new scheme was introduced later than was expected The fluctuations in the other Prov are due to absences on leave but in Bengal additional expenditure was incurred for Deputy Magist establishments and in Madras the budget allowed for a revision of establishments but it was not c out The *Upper Burma charges* fell short of the budget owing to delay in giving effect to the ganisation mentioned above In *England* the budget provided for the outfit allowance of three Ju whereas no Judge came to India in the year

**Section D —SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued.***

90 The saving under *Jail Manufactures* in the Central Provinces, as compared with the Budget, is to curtailed expenditure on raw materials in the Jubbulpore School of Industry consequent on a falling n the demand for tents The increased expenditure in Bengal is counterbalanced by increased receipts ioted in para 75 The Madras budget was too high The saving in *other Jail charges*, India, is le up of numerous small items The large expenditure in the Central Provinces is ascribed (1) to ease in the number of prisoners, (2) to improved dietary of short term men, and (3) to high prices grain The excess in Burma is largely due to transport charges, the District Jails not affording suffi t accommodation, as well as to large demands for rations, hospital expenses and petty construc- and repairs The expenditure was over estimated in Assam The increase in Bengal was in rations clothing and in the North Western Provinces and Oudh in rations In the Punjab the budget was eded in consequence (1) of an increase in the Jail population (2) of the high prices of food grains h prevailed in the Province and (3) of the erection of a new Central Jail at Mooltan The Madras ng occurred in the cost of rations, owing it is reported to more careful supervision over the expendi , but this saving was partly counterbalanced by increased expenditure for clothing and bedding Bombay increase is spread over many items, supplies and services being the chief The India get for *Convict charges at Port Blair and Nicobars* was too low and did not provide sufficiently stores A part of this increase is met by improved receipts as noted in para. 75 The head *Other ges* in India includes the cost of Indian convicts in the Straits The rise in *Upper Burma charges* sists of rations and other charges, a larger number of convicts having been admitted into jail than provided for in the Budget

**Section D—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued***

91 The charge for *superintendence* was raised during the year in the Central Provinces and in North-Western Provinces and Oudh owing to the formation of a special branch in the office of Inspector General There was also an increase in Burma where one Inspector General was appoint for the whole country, the officer holding that appointment in Upper Burma together with his Depu having been transferred to Rangoon The head *District Executive Force* shews savings on the Budget all Provinces except Bengal where extra expenditure was incurred on account of privilege leave vacanc and for additional police entertained in Darjeeling and Julpaiguri The saving in India has accrued fr reductions in the strength of the Quetta Police and smaller payments as compensation for dearness provisions In the Central Provinces the full complement of Chief and Head Constables and Mount Police was not maintained and economies were effected in the cost of clothing and other fluctuati items The Burma saving is spread over all the classes of charges comprised in this head and result no doubt from the quieter condition of the country The North Western Provinces savin is in the gra for clothing The Punjab and Madras budgets were too high while in Bombay the decline is almost whc due to stoppage of recruiting As regards the *Government Railway Police* the India charge is a sum, a recovery of 6 5 having been deducted from it, instead of being credited to XVII—Police as was former practice The excess in India has occurred on the Sindh Pishin line and in the Central Provinc on the Bengal Nagpur Railway The provision in the Burma budget was not required The increas expenditure for *Village Police* in Burma is due to larger payments on account of Headmen in 1888 while in Bombay there has been a change of classification by which local charges connected with villa accountants are now placed under 3—Land Revenue Allowances to District and Village Officers T small charge for *Special Police* in Burma is ascribed to the abolition of the Burma levy in Tharawady a to transfer of the grant for Police Barracks to the Public Works Department The excess in Assam w spent mainly on arms and accoutrements, petty construction and repair and miscellaneous contingenci The reduction in Bombay has occurred in Mahikantha Palanpur and Rewakantha The Madras a Bombay accounts shew that additional *Cattle Pounds* were established during the year for which t Bombay budget did not provide The large sum paid in 1887 88 as *other charges* in Bengal compri refund of Pound receipts which had been wrongly treated as Provincial revenue in the preceding ye The budget for *Upper Burma Charges* proved inadequate as regards the cost of punitive and Vill Police, and travelling and escort charges and rewards

92 The decrease in *General Supervision and Accounts* is chiefly due to the absence on furlough of he Director of the Indian Marine and to economies in the office of the Examiner of Marine Accounts he *Marine Survey* Department was revised after the budget was framed with the result that the number f officers was reduced The large saving in India on account of *Salaries and allowances* is attributed ɔ the employment of a smaller number of officers afloat, and to the late arrival of the new torpedo boats hereby the grants sanctioned for them were only partially used The saving in Bengal is due to the ale of the ' Undaunted The details of the head *Marine Stores and Coal* shew an actual extra xpenditure of 7 2 owing to increased indents received from other Departments involving a large xpenditure for stores, and to unexpected purchases of stores for vessels in Burma On the other hand ,0 was provided for coal and stores for the new torpedo boats but it was eventually not required for the asons stated above The large expenditure in 1887 88 was caused by the operations in Burma as xplained in the report of that year The Burma expenditure was high in 1887 88 owing to the state of ıe country In 1888 89 one of the Arrakan steamers was sold and the other discontinued working n Bengal the demand for coal and stores diminished after the sale of the Undaunted The Budget ı this Province for *Pilotage* was insufficient The head *Other Charges* in India comprises (1) Miscel aneous shore establishments (2) Purchase and hire of ships and (3) Miscellaneous As regards miscel aneous shore establishments the expenditure in 1888 89 exceeds that of 1887 88 by 2, and exceeds ıe budget by 6 chiefly on account of work done by the Agent for Government Consignments for other epartments The savings in purchase and hire of ships and in miscellaneous, amount to 29,3 and 5 5 as ompared with 1887 88 and to 15 4 and 4 3 as compared with the budget, the reduction being due in both ases to the more settled state of the country in Burma In Burma itself the charges for light houses and ght ships exceeded by 1 4 and 2 8 the actuals of the preceding year and the budget owing to repairs one to the light vessel Colombo and to large supplies of stores and provisions The main difference, owever is in a sum of 4 4 paid for steamer service on the Sittang River The large outlay in Ben al comprises payments on account of a new pilot brig under construction in England The Madras udget made provision for a new steam launch which eventually was not required

93 The excess in *England* arose from indents for the Eastern Division of the Indian Marine having e n greater than the estimated requirements

94 The *Bengal* figures are again incapable of analysis in the usual d t il as the District Boards h not followed the authorized classification This is unsatisfactory as the neces ity for carrying out the p scribed procedure was noticed in the report of last year and the expectation wa entertained that irregularity would not be repeated As it is the Bengal figures must be divided into Provincial and Lc Fxpenditure and this is done in the following statement No satisfactory explanation is received reg ing the discrepancies in the Local Accounts but the Provincial Account has been affected by following circumstances The excess over Budget under *Inspection* is due to the appointment of assistant Mahomedan Inspectors with establishment after the Budget was framed and under *Scholars* to unexpected arrear payments

## Section D—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued*

95 As regards the other Provinces the charge in Assam for *Direction* is new and appears for the first time this year It is due to the designation of Inspector of Schools in that Province having been changed to Director of Public Instruction from 1st January 1889 and the charge is counterbalanced by an abatement under *Inspection* The saving under *Inspection* in the North Western Provinces and Oudh has accrued from the retirement of an officer whose place was not filled up The Madras budget provided for the revised scale of Inspectors, but effect was not given to it till late in the year The *University* in the North Western Provinces and Oudh is now treated in the accounts as a Local Fund and hence there is no expenditure under this head The Madras expenditure on *Government Colleges* now embraces the charges of the Teachers College and the College of Agriculture formerly taken under Government Schools The Madura College has been abolished with effect from 1st January 1889 As regards *Government Schools* the short charge in the Central Provinces is due to general savings and in Burma to the abolition of the Normal School at Rangoon and other economies The fluctuations in Bombay occur mainly under the heads Head Masters and Teachers, Grants to Municipal and Cantonment Schools and in the Local Expenditure As regards *Grants in aid and Payments by results* the expenditure in Burma is more uncertain than in other Provinces owing to the state of the country In the Punjab the building and miscellaneous grants were not fully drawn and in Madras the schools were unable to take full advantage of the rules for result payments, as owing to a reorganisation of the Inspecting Agency the necessary examinations could not be held The Bombay expenditure was particularly small in 1887 88 Of the saving in 1888 89 about 3,9 occurs in the local grants and the rest is largely nominal as it represents building grants provided for here but charged in the Public Works Department Under *Scholarships* the excess in Bengal comprises arrear payments The Punjab and Bombay estimates were too high The saving in *Other charges* in the Punjab is attributed mainly to the estimate for Technical Education not having been fully utilised This head 'Other charges" includes grants for the encouragement of Literature and to Book Societies, and charges of Book Depôts and Registration of Books &c

97 The expenditure on *Medical Establishments* is necessarily fluctuating as it depend largely or number of absentees and the standing of the officers actually on duty In Burma this head is now det with a portion of the allowances sanctioned for the Inspector General of Prisons and for the Secre to that officer as they are also in charge of the Civil Medical Administration of the Province The N Western Provinces budget was too high and the Bombay budget too low The saving in Bor under *Vaccine Establishments and Sanitary Commissioner* resulted from the retirement of the San Commissioner in the beginning of the year, and from his successor commencing on the minimum s of the office The Bengal Budget for *Medical Colleges and Schools* omitted to provide for the s of the Ophthalmic Surgeon The excess in this Province as compared with 1887 88 is due partl the payment of arrear charges and partly to larger outlay on Supplies and Services and Contingen The Bengal Budget for *Government Hospitals and Dispensaries* was inadequate The excess ir North Western Provinces and Oudh is caused by the opening of new dispensaries The Madras Bu was insufficient, especially in the Local Section The Bombay saving is chiefly in grants to Hospitals Dispensaries The small expenditure in the Punjab on *Lunatic Asylums* arises out of a change in accounts, whereby charges payable by District Boards are carried to a Debt head This is expla under the head XX—Medical, where there is a corresponding reduction in the receipts The savin *Other Charges* in Madras accrues from the abolition of the Lock Hospital The reduction in *Up*

**Section D —S ALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued***

*urma Charges* has been effected by transferring the control of Medical Establishments in Upper ırma to the Inspector General at Rangoon Towards the end of 1888 89 the Medical Establishments Upper Burma were reorganised and this will involve some additional expenditure

98 Of the saving in India under *Political Agents* 2 4 is derived from abolition of the Office of Superin ıdent of Political Pensions in Calcutta and 3 0 from acting arrangements The balance is made up ıefly of short payments to news writers and for secret service The excess in *Charges on the North est Frontier* in the Punjab consists of increased outlay for Jezailchi corps and for great coats supplied to Khyber Rifles The payments in 1888 89 on account of *Political Subsidies* include the amounts short

## Section D —SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued*

drawn by the Amir of Afghanistan in the preceding year as noticed in the last report There nothing special to record in connection with the heads *Entertainment of Envoys and Chiefs* ar *Durbar Presents and Allowances to Vakeels,* which are of a fluctuating character the expenditure beir regulated according to circumstances The India estimates for *Refugees and State prisoners* were tc high The excess in *Upper Burma charges* as compared with the Budget is due to charges connect with the Shan, Mogong and Chin expeditions The pay of the Superintendent Southern Shan States h been increased, and a Superintendent with establishment appointed for the Northern Shan States Additional Assistant Commissioner and Myooks have also been appointed The expenditure groupe under the head *Other Charges* relates to the various Political Missions on the Frontier the charges f the Merwara Battalion in Ajmere the Toll Establishment at the Khyber Pass and rewards for politic services It also includes charges against the Revenues of Berbera and Zaila on the Somali Coast, ar the cost of special political arrangements These latter are always variable and difficult to estimate rr in 1888 89 the excess in India is made up chiefly of two items namely, 4 1 relating to the expenses of t Kabul Mission and 13 1 paid in the Military Department in connection with political arrangements

99 The head *Other Charges* in England records the payment for English stores and variou oth items connected with the Indian political ervice In 1888 89 the account includes a contribution of made towards the cost of a steamer for purposes of commercial navigation on the Upper Karun

100 The amount entered against the *Survey of India* is a net charge after deducting the share of the gross expenditure payable by Provincial Governments This share was greater than was anticipated in the budget and hence the apparent saving The saving in *Geological Survey and Museum* is due largely to leave arrangements in the higher grades and to the appointment of Artist not having been filled The abolition of a fixed travelling allowance to the Director and of conveyance allowance to Assistant Superintendents appointed after June 1887 has also contributed to this result The actuals under *Meteorological Department* are low mainly in consequence of smaller payments to observers The head *Other Scientific Departments* represents donations to Scientific Societies, &c and the Madras Expenditure embraces a grant of 4 6 for the Victoria Technical Institute In Bengal the head *Experimental Cultivation* includes the cost of experiments in silk and of establishing an experimental farm in Burdwan for agricultural purposes The head *Other Agricultural Charges* shews the cost of Veterinary Colleges and Schools and of the Establishments for prevention of cattle disease The Assam Budget for *Emigration* was high *Other Statistical Charges* comprise expenditure for registration of Railway, River and Road borne Traffic and similar items As regards the head *Miscellaneous* it shews the charges for the Board of Examiners at Calcutta and the payments for various Civil Service Examinations The Punjab account includes the expenses of the Jhajjar Fuel and Fodder Reserves an incorporated Local Fund, for which no provision existed in the Budget The increase in Madras is almost entirely in the remuneration granted to Examiners of the Minor Civil Service Examinations, and is counterbalanced by additional receipts as credited under the head XXI—Scientific and Other Minor Departments The Bombay charge is composed almost entirely of payments for the Reporter on the Native Press

## Section E —MISCELLANEOUS

102 *Subscriptions to the Military Military Orphan and Medical Retiring Funds* are declining the retirement of old subscribers since their places are not filled with new admissions The India estir for *Appropriation from the Capital account of the Military Orphan Fund* was a mistake, as the am

## Section E —MISCELLANEOUS —*continued*

lable was exhausted in 1887 88 except the small sum now credited The next head requiring atten is *Contributions for Pensions and Gratuities* which shews a large excess This excess represents the tribution now levied for the first time in respect of the British Officers employed in the Hyderabad igned Districts In the Central Provinces recoveries were made on account of officers lent to the gal Nagpur and Indian Midland Railways and in Madras on account of officers transferred from the ary Kistna State Railway to the Southern Mahratta Railway Company These recoveries were not cipated when the Budget was framed

103 In *England* there were exceptional receipts this year in consequence of the investment of ain Trust funds There were also small increases in the subscriptions realised on account of the ous Service Funds in India

105 In paragraph 103 of the report for 1885 86, it was explained in detail how the gains and loss arise on the various transactions included in the foregoing statement, and the information was repeated a condensed form in paragraph 122 of the report for 1886 87 All that need be stated here is that th results produced in this account depend first upon the sterling amount of the transactions with whic the exchange is connected and second upon the average rate at which Her Majesty s Secretary of Sta in Council is able to sell his bills on India

106 The actual gain in 1888 89 exceeds the Budget by 536,5 which comprises 31 0 realized on tran actions with Guaranteed Railways and 527 3 with Subsidized Railways, counterbalanced by a loss of 21 on other accounts The improvement under Guaranteed Railways is due to increased credits f Revenue Stores as stated in paragraph 255 Of the improvement connected with Subsidized Railwa 240,5 is derived from capital issues to the Companies in England, for which no provision was mac

## Section E —MISCELLANEOUS—*continued*

## XXIV —Exchange—*concluded*

in the Budget, as the question whether this gain should be treated as current Revenue was the under the consideration of the Secretary of State A further gain of 61 2 arising out of transactions c the Mysore Railway was also omitted from the Budget pending orders of the Secretary of State Th balance (225 6) of the gain relating to Subsidized Railways arose partly from the net withdrawal by the Companies having exceeded the limits assumed in the Budget, and partly from the rate of exchang having been over half a penny lower than was estimated The loss of 21,8 is made up of 10,6 o advances to the East India Railway Company 2 6 on advances for the Rajputana Malwa Railway an 8 6 on Miscellaneous Accounts These Railway losses are attributable to the decline in exchange, en hanced in the case of the East India Railway by the increased amount of advances The loss of 8 6 o Miscellaneous Accounts is due chiefly to large purchases of stores in England for the Patiala Bhatind and Kathiawar Railways

## Section E —MISCELLANEOUS—*continued*

## XXV —Miscellaneous—*continued*

107 All the items in this group are more or less of a fluctuating character and hence it is necessar to notice the most striking differences In connection with the head *Gain by exchange on transactic* India, it is reported that towards the end of the year the rate for Hali Sicca rupees in Hyderabad, De fell from 120 4, and 119 12, to 114 12, per 100 Government rupees In Bengal and the North-Western vinces and Oudh the amount of *Unclaimed deposits* lapsing to Government was unusually great, and i former province a larger sum than expected was realised on account of survey of tea and arable lands partition fees, and credited under *Miscellaneous fees, fines and forfeitures* The head of *Contribu* represents sums received on various accounts from Municipalities and Excluded Local Funds The am in 1888 89 was low in the North Western Provinces and Oudh as the Lucknow Municipality released from payment till March 1891 and the sum due from Meerut was reduced The increase u *Rents* consists in Burma of bazaar rents, and in Madras of adjustments on account of certain endowm in the Tanjore district. The *Extraordinary items* in the North Western Provinces and Oudh were proceeds of gold mohurs presented by the Nawab of Rampur In Bombay, about half the am represents the value of Government buildings transferred to the Bombay Baroda and Central India way Company, the balance being the sale proceeds of Government Promissory Notes belonging to Boards and similar authorities In Bengal the head *Other items* includes large recoveries on accou insurance on State Railway Stores and the local revenue was larger than anticipated The Punjab bu was too high The increase in Madras is partly in the receipts relating to the Village Service Fund, partly in recoveries connected with service inams in the Kurnool district The budget for *Upper Bu receipts* was quite insufficient, but when it was framed little reliable information was available

108 The account in *England* includes 7 in respect of damage to stores during shipment and in tr to India and the receipts under several other heads exceeded the budget

109 In this section there is a large increase in Superannuation and Retired Allowance which continue to grow rapidly The Territorial and Political Pensions have diminished sinc the death of the ex King of Oudh, and the charges for stationery are small this year owin to the reduced indents sent from this country to the Secretary of State

| | Accounts | 1888 89 | 18 3 | 8 5 | 26 8 | | | | | Accounts 1888-89 | | 543 |

110 The decline in India under *Territorial and Political Pensions* is due to the death of the late E King of Oudh Allowances have been granted to various members of his family but many of them are draw in other Provinces and especially in Bengal where the payments have consequently increased Fro Bengal, on the other hand some Nizamut pensions have been transferred to Bombay which explains tl increase in that Presidency The reduction in Madras is ascribed to commutations granted chiefly connection with the Carnatic and Mysore stipends

111 The excess in *England* is owing to advances made for the benefit of the eldest son of the Mah rajah Dhulip Singh, as well as to an addition to a Nizamut pension with payment of arrears

### 28 —Civil Furlough and Absentee Allowances

| 1887 88 Accounts | | 1888-89 Budget | 1888-89 Revised | 1888-89 Accounts. |
|---|---|---|---|---|
| 1 3 | India | 5 | 7 7 | 2 |
| 1 | Burma | | | |
| 6 | Bengal | 1 5 | 7 | 7 |
| 3 | North Western Provinces and Oudh | | | |
| | Madras | 1 | 1 | 2 |
| 3 | Bombay | 1 0 | 2 | 1 |
| 2 6 | TOTAL | 3 1 | 8 7 | 1 2 |
| 215 5 | England | 217,0 | 214 0 | 216 5 |
| 90 6 | Exchange | 91 1 | 99 5 | 100 7 |
| 308 7 | TOTAL INCLUDING ENGLAND | 311 2 | 322 2 | 318 4 |

112 The fluctuations in these figures are inseparable from the uncertain nature of the charges The is nothing special to record except that the India Revised was raised to 7,7 to provide for payments certain British Officers serving in Berar but it was subsequently decided to charge such payments final in the accounts of the Secretary of State

113 The charges under this head need to be examined in totals for the whole of India as the pr vincial distribution is liable to disturbance by change of residence among the pensioners The payme on account of *Superannuation and retired allowances* have exceeded the expenditure in 1886 87 and still growing rapidly The decline in *gratuities* flows out of the new pension rules, under which the ma mum gratuity s limited to a sum equal to nine months emoluments, instead of twelve, as formerly, pensions instead of gratuities are admissible for service extending from ten to fifteen years As rega the other heads, the budget has been fairly well sustained, considering the uncertain character of t charges

114. The saving in *England* is due to a decrease in several descriptions of pensions

115 The actuals this year in Bengal have closely followed the Budget in the matter of *Purchase of Stationery* The expenditure in 1887 88 was specially high as explained in the report of that year The Punjab expenditure was high in 1888 89 owing to a larger number of settlements being in progress In Madras a large stock was brought over from 1887 88 which diminished the quantity needed in 1888 89 The excess over Budget in Bombay is due to the increasing substitution of articles of local manufacture for European Stores The India Budget for *Government presses* proved too low, chiefly because the cost of Type Foundries was greater than expected owing to development of this work to meet demands from other provinces The Government presses in Burma were reorganised during the year with a view to meet the additional demands made upon them The saving in the Punjab is in the grant for materials and stock and in the miscellaneous expenses of the Secretariat press In Bombay the Superintendent of the Government Central Press was on leave for seven months of the year and the allotments for establishment contingencies and supplies and services were not fully needed The cost of *Stationery supplied from Central Stores* fluctuates according to the necessities of the various departments, and the only points to be noticed in connection with it are, that some of the Punjab indents were not supplied within the year, and that the price of water marked paper was lower than was contemplated in the Budget The head *Other Charges* includes printing at private presses, lithography and refunds The rise in Bengal is due to increased expenditure by District Boards The Punjab Budget was too high as regards the grant for lithography

116 The reduced expenditure in *England* is ascribed to smaller demands from India than were indicated in the estimates, owing partly to the stores having been obtained locally

117 There is nothing special to note in connection with the first two heads, which are necessarily fluctuating character The head *Charitable Donations* in Bengal includes a grant for the construc of a Zenana Hospital in Calcutta The Madras Budget for *Rewards for the Destruction of Animals* was again too high The excess over Budget in the same Presidency on account of *P Provincial and Local Establishments* is in the local expenditure for sanitation and cleaning wells and tanks The actuals for *Special Commissions of Enquiry* comprise in India charges rela to the Jail and Public Service Commissions and in Bombay the expenses of the Crawford Commis

Section E—MISCELLANEOUS—*continued.*

and the Commission appointed to enquire into the working of the Dekkhan Agriculturists Relie Act In 1887 88 the head *Rent, Rates and Taxes* in Bengal included all the payments made on this ac count, but in 1888 89 these charges have been debited to the various departments to which they severall relate The India Budget was incomplete The *Extraordinary Items* in Bombay represent sums drawn by Messrs Thomas Cook & Sons in connection with the guarantee for the conveyance of pilgrims from India to Jedda The excess in *Upper Burma Charges* is in rewards for proficiency in Oriental languages in Upper Burma claims, in donations for charitable purposes, and in unforeseen expenditure *Other Item* comprise refunds of lapsed deposits in excess of the credits of the year, and miscellaneous unforeseer charges which are not provided for within the regular classification This head also includes the cost of books and publications of general utility not required by any particular department, and also ordinary charges of a charitable nature for food supply and shelter not forming part of organized measures for the relief o famine The Bengal charge in 1887 88 included the write off relating to the frauds in the late Distric Savings Bank in Chittagong The Punjab and Madras Budgets provided a reserve of 10,0 and 15,c respectively, which was not utilised

118 In *England* additional expenditure was incurred as compared with the Budget for Insignia o the Order of the " Indian Empire, and for stores lost in transit to India

## Section F—FAMINE RELIEF AND INSURANCE.

| 1887 88 Accounts | | 1888-89. Budget | Revised | Accounts |
|---|---|---|---|---|
| 91,4 | EXPENDITURE | 73,2 | 82,9 | 78,3 |

119 Considerable changes have been introduced into this section of the account as explai in paragraph 124 of the report of 1886 87 It now includes expenditure under the heads 33—Famine Relief and 35—Construction of Protective Irrigation Works, of which charges were as follows —

| 1887-88. Accounts | | 1888 89 Budget | Revised | Accounts |
|---|---|---|---|---|
| 4 | Famine Relief | 5 | 10 2 | 7 8 |
| 91 0 | Construction of Protective Irrigation Works | 72 7 | 72 7 | 70 5 |
| 91 4 | TOTAL | 73 2 | 82 9 | 78 3 |

### 33—Famine Relief

| 2 2 | Mhasvad Tank | 196 0 | 2 9 | 4 | 3 |
| 2 | Gokak Canal | 40 1 | 1 | | |
| 91 0 | TOTAL | (a) 1 606 4 | 72 7 | 72 7 | 70 5 |

RESULTS

| | ACTUALS More | Less |
|---|---|---|
| Actuals with actuals of previous year | .. | 20 5 |
| Budget Estimate | | 2 2 |
| Revised Estimate | | 2 2 |

(a) Includes £285,400 outlay from funds not classed under this special head.

122 The decrease in 1888 89, as compared with the previous year, is due to the near complet the Betwa and Swat river canals, which thereby needed less expenditure and to the Buckingham receiving no grant in aid The estimates have been closely followed by the actuals

### 36—Reduction of Debt.

| 1887-88. Accounts | 1888 89 Budget | Revised | Accounts. |
|---|---|---|---|
| *Nil* | *Nil* | *Nil* | *Nil* |

123 See paragraph 119

## Section G—CONSTRUCTION OF RAILWAYS (charged against Revenu addition to that under Famine Insurance)

| 1887-88. Accounts | | 1888-89. Budget | Revised | Accounts. |
|---|---|---|---|---|
| 80,9 | EXPENDITURE | 43,8 | 18,0 | 22,4 |

124 The following figures give details of the amount spent, and explain the differ between the Actuals of 1887-88 and 1888 89, as well as the Budget of the last-named year

| 1887-88. Accounts | | 1888-89 Budget | Revised | Accounts |
|---|---|---|---|---|
| | PROVINCIAL | | | |
| | ASSAM— | | | |
| 5 4 | Jorhat Railway | 2 5 | 3 5 | 3,5 |
| 10 3 | Cherra Companygunj Railway | 3 6 | 1 5 | 1 6 |
| | BENGAL— | | | |
| —2 | Kaunia Dhurla Railway | 5 | —1 0 | —1 1 |
| | N W PROVINCES AND OUDH— | | | |
| 65 4 | Lucknow-Sitapur Seramau Railway | 37 2 | 14 0 | 18,4 |
| 80 9 | TOTAL | 43 8 | 18,0 | 22,4 |

| RESULTS | Accounts More | Less |
|---|---|---|
| Actuals with Actuals of previous year | | 58,5 |
| , Budget Estimate | | 21 4 |
| Revised Estimate | 4 4 | |

125 The decrease in the outlay of 1888 89, as compared with the previous year, is due to the prac completion of the Cherra Companygunj and Lucknow Sitapur Seramau Railways in 1887 88, resu in reduced expenditure during 1888-89 The decrease as compared with the Budget Fstimate is to the abolition of the ferry service on the Cherra Companygunj Railway for which provision was m in the latter, to the construction of certain bridges provided for in the Budget of the Kaunia Dh Railway having been deferred, and to a steamer having been sold and the proceeds deducted from char The extension of the Lucknow Sitapur Seramau Railway to Mailani was also not undertaken as was templated when the Budget Estimate was under consideration The increase over the Revised Estir ensued from the rates entered in the estimate for indents for English stores for the Lucknow Sita Seramau having been too low

## Section H.—RAILWAY.

126 The following is a general statement of the Revenue Accounts —

| 1888-89. | State Railways | Guaranteed Railways | Subsidised Companies. | Miscellaneous. | Tota |
|---|---|---|---|---|---|
| GROSS RECEIPTS | 11,827,1 | 7,403,4 | 42,8 | | 19,27 |
| WORKING EXPENSES | 5,822,6 | 3,752,6 | | | 9,57 |
| Surplus Profits | 236,7 | 570,2 | | | 8c |
| Interest | 4,548,3 | 3,959,1 | | | 8,50 |
| Annuities | 2,474,2 | | | | 2,47 |
| Land and Supervision | | 44,3 | 28,1 | | 7 |
| Miscellaneous Railway Expenditure | | | | 70,6 | 7 |
| TOTAL EXPENDITURE | 13,081,8 | 8,326,2 | 28,1 | 70,6 | 21,50 |
| NET GAIN OR LOSS TO THE GOVERNMENT— | | | | | |
| 1888 89 | *—1,254,7* | *—922,8* | *+ 14,7* | *—70,6* | *—2,23* |
| 1887 88 | *—1,121,4* | *—930,4* | *—18,8* | *—51,8* | *—2,12* |
| 1886 87 | *— 375,1* | *—675,6* | *—43,6* | *—94,4* | *—1,18* |
| 1885 86 | + 394,9 | *—983,3* | *—44,0* | *—99,3* | *— 73* |
| 1884-85 | + 173,9 | *—1,043,3* | *—84,2* | *—97,6* | *—1,05* |

127 These figures show that the *State Railways* did worse than last year by 133,3 and *Guaranteed Railways* better by 7,6 The deficiency in the former is caused to a great exte by increased charges on account of interest, and additional annurties connected with purchase of Guaranteed lines, amounting to 379,9 and 5,1 respectively *plus* exchange 23ξ together with an advance of 465,1 in working expenses including surplus profits Th figures give a total of 1,088,5 but the receipts have improved to the extent of 955,2 wh leaves the net deficiency noted above The other items do not call for special remark here

## Section H —RAILWAYS—RECEIPTS

| 1887-88 Accounts. | | 1888-89. Budget | Revised | Accounts. |
|---|---|---|---|---|
| 14,533,3 | RECEIPTS | 15,184,7 | 15,428,0 | 15,520,7 |

128 The following sums are comprised in these receipts, particulars of them being give the succeeding statements As regards *State Railways* the Gross Earnings exceeded th of the previous year by 955,2 and the Budget and Revised Estimates by 86,2 and respectively The large increase over the actuals of 1887 88 is chiefly due to transaction the Oudh and Rohilkhand Railway for the last three months of 1888 89 being included ur this head, the line having been purchased by Government on 31st December 1888 T was also a large influx of traffic on the Rajputana Malwa line in Cotton, Gram and S on the North Western Railway in Gram and material for Railway Construction, and on Eastern Bengal Railway in Jute and passengers drawn to Fairs The Revenue was enlarged by the opening of the Tounghoo Mandalay Extension, and by additions to the m age of the Indian Midland, Bengal Nagpur and Southern Mahratta Railways The *Guaran* lines are 14,2 better than last year and have worked up to the Revised Estimate very clos but have considerably exceeded the Budget The large increase over the latter app chiefly on the Great Indian Peninsula Railway, and is caused by large receipts from carr of Cotton and Wheat and of Railway Material for the Bengal Nagpur and Indian Midl Railways The differences under *Subsidised* Companies are due to fluctuations in inte charges produced by a varying capital and an alteration in the method of calculation —

| 1887-88 Accounts | | 1888-89 Budget. | Revised | Accounts |
|---|---|---|---|---|
| 10,871,9 | State Railways (gross) | 11,740,9 | 11,740,4 | 11,827,1 |
| 3,636,6 | Guaranteed Railways (net) | 3,405 0 | 3,652,5 | 3,650,8 |
| 24,8 | Subsidised Companies | 38,8 | 35,1 | 42,8 |
| 14,533,3 | | 15,184,7 | 15,428 0 | 15,520,7 |

## Section H —RAILWAYS—RECEIPTS—continued

129 In comparison with the actuals of 1887 88, the earnings during 1888-89 exhibit a falling off which s due to a variety of causes, amongst which may be enumerated the cessation of an abnormally heavy raffic in the previous year caused by scarcity in the North Western Provinces, a decline in a long lead raffic of wheat and grains from Upper India, certain writes back due to overcharges, and possibly a diver ion of traffic consequent on the opening of the Indian Midland Railway Contrasted with the Budget Estimate the earnings are short owing to the development of traffic anticipated when the Budget Estimate was framed not having been realised from causes mentioned above The actual earnings approximate closely with the Revised Estimate, but chiefly in consequence of a decrease in outstanding earnings of 9 against an anticipated increase of 7,5, the actuals are better by 20,8

| Revised Estimate | 20 6 | .. |

130 The increase in the earnings compared with the previous year is due to the opening of the Dinagepore Raigunj Section of the Assam Behar Railway, to improvement in 3rd class passenger traffic and to a favourable jute season The increase over the Budget Estimate is due to a larger jute traffic than was originally anticipated and to greater receipts from Fairs on the Eastern Section developed by the passenger traffic on the Dinagepore Raigunj and Dacca Sections The actual earnings exceed the Revised Estimate by 13,8, and owing to a decrease of 6 8 in outstanding earnings which was not anticipated, the actuals are better by 20,6 The increase is due to the passenger and jute traffic having been more favourable towards the close of the year than was anticipated

| Budget Estimate | 123 8 | |
| Revised Estimate | 28 8 | .. |

131 The earnings during 1888 89 have considerably exceeded the actuals of 1887 88, owing to large quantities of cotton grain and seeds carried over the line During 1887 88 the transport of wheat and seeds for export fell off seriously in consequence of a deficient harvest in the Punjab, combined with partial scarcity in districts traversed by the Railway whereas during 1888 89 this traffic revived and proved to be unusually favourable When the Budget Estimate was under consideration, there was nothing to indicate such an improved export traffic and considering the comparatively low returns of the previous year, a moderate estimate was considered advisable The improvement was not very marked when the Revised Estimate was under consideration, the traffic during the closing weeks of the year having become unusually high

| Actuals with actuals of previous year | 385 0 | |
| „ Budget Estimate | 173 2 | |
| Revised Estimate | 23 2 | |

132 The large earnings, compared with the previous year, occur in both coaching and goods dep ments and are attributable to additions to the open mileage as well as to improvement in wheat traffic to increased conveyance of Railway materials The real improvement from these causes is 356,5, but ow to the recovery of some outstanding arrears, the excess is shewn by the above figures to be 385,0 The co ing traffic fell short of budget expectations, but this was more than counterbalanced by the revenue f goods principally in the items of wheat and Railway material The increase over the Revised Estir is due to the traffic towards the close of the year having been better than was expected when that estir was framed

### Oudh and Rohilkhand Railway

133 In 1887-88 the Oudh and Rohilkhand Railway was a guaranteed line, and the transactions for year were recorded under the head XXVII—*Guaranteed Railways* The line was taken over by Gov ment from the Company on the 31st December 1888 and has been worked as a State line from 1st Janı 1889 The transactions recorded above therefore relate to the closing three months of the year 1888 The decrease in earnings as compared with the Budget Estimate, is due to an over estimate which rectified when the Revised Estimate came under consideration

### Other State Railways—Imperial

RESULTS

| | Accounts More | Accounts Less |
|---|---|---|
| Actuals with actuals of previous year | 226 6 | |
| „ Budget Estimate | .. | 12 7 |
| Revised Estimate | | 3 7 |

134 The increase in the earnings over 1887 88 is principally due to the opening of additional lengt the Indian Midland, Bengal Nagpur and Southern Mahratta Railways and to the opening of Tounghoo Mandalay Railway In the case of the Indian Midland, the mean mileage open rose fror miles in 1887 88 to 157 miles in 1888 89 the Bengal Nagpur (including Katni Umaria) from 186 mile 213 miles, the Southern Mahratta (including Bellary-Kistna) from 792 miles to 855 miles Apart from increased open mileage, the traffic was better on the Wardha Coal, Nellore Branch of the Villupu Guntakal, and Mysore State Railways and Umaria Colliery The improvement on the Wardha C

## Section H —RAILWAYS—RECEIPTS—*continued*

Railway arose from enhanced sales of coal leading to increased receipts for freight, and for mileag demurrage of stock running over foreign lines The increase on the Nellore Branch is due to only and a half months transactions having appeared in the accounts for 1887 88 and on the Mysore Ra to the additional mileage opened on the 21st February 1888, and to an improvement in coaching following a reduction in the rate for 3rd class passenger fares The excess on the Umaria Colli due to larger output and larger sales of coal

135 As compared with he Budget, the receipts of the Bengal Nagpur and Southern Mahratta were short by 22,5 and 10 2, owing to the traffic having been smaller than was anticipated, but there w improvement of 8,5 on the Wardha Coal Railway caused by larger sales of coal and of 8,2 on the I Midland Railway by the entire main line, from Bhopal to Cawnpore, having been open from 1st January which was not expected when the Budget Estimate was framed A decrease of 8,4 appears i accounts of the Sindia Railway, but the traffic during 1887 was exceptionally good, whereas during it receded to its normal level

136 Although the total difference between the actuals and revised is only 3 7, the separate differ comprised in it are even wider than those between the actuals and budget The Bengal Nagpor Indian Midland were short by 25,0 and 4 3 respectively in consequence, it is said of outstanding having been fully realised The Wardha Coal was better by 3 0, owing to larger indents than wer pected at the close of the year, from the Bengal Nagpur and Great Indian Railways The Southern ratta is better by 7,3, owing to prompt recovery of dues and the Tounghoo Mandalay, owing to w sufficient data at the time to make a satisfactory forecast

### Other State Railways—Provincial, excluding Eastern Bengal Railway System.

| RESULTS | Accounts More | Accounts Less. |
|---|---|---|
| Actuals with actuals of previous year | | 16 8 |
| Budget Estimate | | 44 3 |
| Revised Estimate | | 7 8 |

137 The earnings realised during 1888 89 fall short of those of 1887 88 by 16,8, the principal c ences being decreases of 16,8 on the Burma and of 9 6 on the Tirhoot Railway, and an increase c on the Lucknow Sitapur Seramau Railway The decline on the Burma Railway is due to a fallir in both coaching and goods traffic, and on the Tirhoot Railway to the scarcity which prevailed i northern grain producing districts of Behar The improvement on the Lucknow Sitapur Seramau Ra is due to the increased open mileage

138 Compared with the Budget Estimate the actuals show a decrease of 44 3, of which 25,7 was o Burma Railway, and 19,1 on the Tirhoot Railway As regards the Burma Railway the conveyanc paddy fell short of expectations and the estimate of additional traffic on the Tounghoo-Mandalay e sion was not fully realised, as the extension was not opened as early as was anticipated when the Bu Estimate was framed The decrease on the Tirhoot Railway is due to scarcity in the northern g producing districts of Behar

139 The principal difference between the revised and the actuals is a decrease of 13 2 in Burma o to the official year having closed on a Sunday whereby the station remittances received that day an the evening of the previous day could not be taken to account until 1st April 1889

| Working Expenses— | | |
| Actuals with Actuals of previous year | 147 8 | |
| Budget Estimate | 172 6 | |
| Revised Estimate | 61 1 | |

### Gross Receipts

140 The excess in 1888 89 of 162 0 appears chiefly on the Great Indian Peninsula and on the Bomb Baroda and Central India Railways, but the Madras and South Indian lines also shew a satisfactory res The increase on the Great Indian Peninsula Railway was derived principally from the carriage of cot and wheat, and on the Bombay Baroda and Central India Railway from the revival of through tr between the Rajputana Malwa Railway and Bombay in grain seeds and wheat The Madras and So Indian lines shew a general development of traffic The Oudh and Rohilkhand Railway having b worked by the State from the 1st January 1889, the actuals against this line represent transactions 9 months only of 1888 89 against 12 months of 1887 88

141 The increase of 418,4 over the Budget Estimate occurred chiefly on the Great Indian Penins Madras and South Indian Railways The large increase on the Great Indian Peninsula Railway spread over all the heads of traffic but especially in the carriage of cotton wheat and Railway mater The increase on the last two lines is the result of a steady general development of traffic decrease on the Oudh and Rohilkhand Railway must be attributed to an excessive estimate

142 The comparison with the Revised Estimate is made below, and is satisfactory The increase the Bombay, Baroda and Central India Railway is due to very favourable passenger traffic which unexpectedly high towards the close of the year on the Great Indian Peninsula Railway to the impro ment in traffic noticed during the earlier months having been maintained to the close of the year, and increased receipts from tolls on the Carnac Bandar and from sales of unclaimed and damaged goo The Madras Railway exhibited an unexpected development of traffic under coaching and sundries small differences on the Oudh and Rohilkhand and South Indian Railways need no remark —

| | |
|---|---|
| Bombay Baroda and Central India | + 10 6 |
| Great Indian Peninsula | + 28 1 |
| Madras | + 16 7 |
| Oudh and Rohilkhand | — 2 3 |
| South Indian | + 6 3 |
| Net Increase | 59 4 |

### Working Expenses

143 The increase on the actuals of the preceding year is made up as under—

| | |
|---|---|
| Bombay Baroda and Central India | + 39 4 |
| Great Indian Peninsula | + 156 8 |
| Madras | — 15,2 |
| Oudh and Rohilkhand | — 42 8 |
| South Indian | + 9 6 |
| Net Increase | 147 8 |

144 The enhanced charges on the Bombay, Baroda and Central India Railway are due to larger tr worked as well as to the fall in the rate of exchange The increase on the Great Indian Penin Railway is partly attributable to the same causes, but heavy outlay was also incurred in connection the maintenance of the line and with repairs and renewals of vehicles The enhanced price of added to the expenditure, and large payments were made to other lines for mileage and demurrag foreign stock The decrease on the Madras Railway is due principally to large credits to revenue for w done on the Chittravati and Penner bridges, and on the Oudh and Rohilkhand Railway to the line hav been worked by the Company for 9 months only in 1888 89 The increase on the South Indian R way is due chiefly to increased charges under exchange

### Section H —RAILWAYS—RECEIPTS—*continued*

145 Compared with the Budget Estimate of 1888 89 the actuals show an increase of 172,6 as unc

| | |
|---|---|
| Bombay Baroda and Central India | + 9,6 |
| Great Indian Peninsula | + 159 0 |
| Madras | — 11,3 |
| Oudh and Rohilkhand | + 3 3 |
| South Indian | + 12 0 |
| Net Increase | 172 6 |

146 The Bombay, Baroda and Central India Railway had to undertake more extensive renew permanent way, than was anticipated while the price of English coal was higher and the qu consumed greater and the rate of exchange less favourable The increased charges due to these c were counterbalanced to a large extent by savings under other heads The increase on the Great I Peninsula Railway is due to the causes noticed in the preceding paragraph The accounts of the M Railway shew diminished outlay on the re construction of the Penner and Chittravati bridges, and Bey Calicut Extension, &c The increase on the Oudh and Rohilkhand Railway is small and does no for any remark, and that on the South Indian Railway arises from insufficient provision having been for the maintenance and locomotive expenses

147 The Revised Estimate was exceeded chiefly on the Great Indian Peninsula Railway, owing tc prices paid for coal, and heavy outlay in connection with repairs and renewals of vehicles an demurrage and some other charges The other differences are comparatively small and need no rem

148 The Gross Receipts, Expenses and Net Receipts of these lines for the past six years are in the following Statement —

| Guaranteed R wa Com an es | Gross Receipts | | | | | | Worki E se | | | | | | Net Receipts | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | 1883-84 | 884 85 | 1885 86 | 886-87 | 887 88 | 1888 89 | 1883-84 | 1884 85 | 1885 86 | 1886 87 | 1887 88 | 888-89 | 1883 84 | 1884 85 | 1885-86 | 1886-87 |

## XXVIII —Subsidised Companies (Repayment of Advances of Interest)

| 1887 88 Accounts | 1888-89 Budget | Revised | Accounts |
|---|---|---|---|
| 24 8 | 38 8 | 35 1 | 42 8 |

149 The credits under this head represent the amounts to be recovered from the Mysore Durb settlement of the net charge for interest paid to the Southern Mahratta Railway Company in conne with the Mysore Railway The receipts and working expenses and interest charges of the Mysore Ra are recorded in the accounts under their respective Railway heads and only the net charge for in (*i e*, interest on capital expended *minus* net receipts) which is recoverable from the Mysore Durb credited to this head The settlement with the Mysore Durbar is effected through the Civil Depart The following shows in detail the results recorded above —

| Accounts 1887 88 | | 1888-89 Budget Estimate | Revised Estimate | Accounts |
|---|---|---|---|---|
| 33 9 | Interest on Capital outlay | 50 3 | 46 6 | 54,1 |
| 9 1 | Net Receipts | 11 5 | 11 5 | 11,3 |
| 24 8 | Net charge for interest recoverable from Mysore Durbar | 38 8 | 35 1 | 42 8 |

150 The differences in *net receipts* are comparatively small, and call for no remark The fluctu under *Interest* are caused by the varying capital, and also to a change in the method of comp the interest

## Section H —RAILWAYS—EXPENSES

| 1887 88. Accounts | | 1888 89. Budget | Revised | Accounts |
|---|---|---|---|---|
| 16,655,7 | EXPENDITURE | 17,299 6 | 17,692,9 | 17,754,1 |

151 These figures comprise the expenditure under the following heads —

| 1887 88 Accounts | | 1888-89. Budget | Revised | Accounts |
|---|---|---|---|---|
| | STATE RAILWAYS— | | | |
| 5,594,2 | Working Expenses | 5,982,2 | 6,043,4 | 6,059,3 |
| 3,341,9 | Interest on debt | 3,486,3 | 3,594,5 | 3,598,9 |
| 2,390 8 | Annuities | 2,398,0 | 2,473,8 | 2,474,2 |
| 666,4 | Interest on Capital Deposits | 931,4 | 948,6 | 949,4 |
| | GUARANTEED COMPANIES— | | | |
| 714,0 | Surplus Profits, &c | 527,5 | 569,1 | 614,5 |
| 3,853,0 | Interest | 3,873,7 | 3,959,5 | 3 959,1 |
| | SUBSIDISED COMPANIES— | | | |
| 43,6 | Land, &c | 32,2 | 29,0 | 28,1 |
| | Advances of Interest | | | |
| 51,8 | MISCELLANEOUS RAILWAY EXPENDITURE— | 68,3 | 75 0 | 70,6 |
| 16,655,7 | | 17,299,6 | 17 692,9 | 17,754,1 |

152 In reviewing these figures it must be borne in mind that the transactions of the O and Rohilkund Railway from January to March 1889, have been entered under the head *S Railways*, the line having been purchased by Government from the Guaranteed Company 31st December 1888 The excess over the actuals of 1887 88 is 1,098 4, and is spread c nearly all the heads It occurs more particularly in the *State Railways* owing chiefly to hea working expenses caused by increased mileage and greater traffic, together with enhan charges for Interest and Annuity caused in a great measure by the continued fall in exchar The large increase over the Budget Estimate is due principally to Exchange The actu are in fair accord with the Revised Estimate

## 38 —State Railways—Working Expenses

| 1887 88 Accounts | | 1888-89. Budget | Revised | Accou |
|---|---|---|---|---|
| 5,594,2 | EXPENDITURE | 5 982,2 | 6,043,4 | 6,05 |

153 The particulars of these charges according to Railways are given in page 69 and exceed th of 1887 88 by 465,1 and the Budget and Revised by 77,1 and 15 9 respectively

154. The excess over the actuals of 1887 88 is due to the growth of traffic to increased o mileage, and to the working expenses of the Oudh and Rohilkhand Railway for the last quarter of 188 being recorded under *State Railways*, whereas they were included under *Guaranteed Railways* 1887 88 It is also caused in part by heavier renewals of Permanent Way and Rolling Stock on the F Indian and North Western Railways

155 The excess of 77,1 over Budget is caused largely by the increased traffic worked on several li as well as by more extensive renewals than were provided for on the North Western Railway The Estim for the newly opened sections of the Bengal Nagpur and Southern Mahratta Railways proved inadequ and the payments of surplus profits on the Rajputana Railway resulting from the increase in earni were unexpectedly large

156 The actuals have closely followed the Revised considering the magnitude of the transactions excess is due chiefly to the payment in March instead of April of the surplus profits of the Rajputa Malwa Railway for the second half of 1888 owing to a change of system The expenditure on fuel a repairs of Rolling Stock was heavier than expected, and this was also the case with the establishm charges on the Bengal Nagpur Railway while on the Southern Mahratta Railway liabilities w discharged earlier than was anticipated

## Section H —RAILWAYS—EXPENSES—*continued*

157 The following remarks explain the individual differences between Actuals and Estimates

### East Indian Railway

| 1887 88 Accounts | | 1888-89 Budget | 1888-89 Revised | 1888-89 Accounts |
|---|---|---|---|---|
| | WORKING EXPENSES— | | | |
| 464 0 | Maintenance | 553 5 | 490 0 | 529 8 |
| 358 0 | Locomotive | 354 6 | 374 3 | 373 7 |
| 120,7 | Carriage and Wagon | 129 9 | 126 7 | 112 8 |
| 296 6 | Traffic | 307 3 | 306 9 | 292 9 |
| 218 2 | General Miscellaneous and Suspense | 216 7 | 225 9 | 214 6 |
| 1 457 5 | TOTAL WORKING EXPENSES | 1 562 0 | 1 523 8 | 1 523 8 |
| 205 1 | ½ Surplus profits paid to the Company and Contribution to Provident Fund of one per cent on Net Earnings | 198 0 | 166 2 | 166 2 |
| 1 662 6 | TOTAL EAST INDIAN RAILWAY | 1 760 0 | 1 690 0 | 1 690 0 |

RESULTS

| | Accounts More | Accounts Less |
|---|---|---|
| Actuals with Actuals of previous year | 27 4 | |
| Budget Estimate | | 70 0 |
| Revised Estimate | | *Nil* |

158 The excess over 1887 88 is ascribed chiefly to heavier renewals of permanent way and of er and tenders The saving on the Budget Estimate is due chiefly to renewals of permanent way not h been carried out to the extent anticipated in consequence of delay in the supply of materials England and partly to reductions effected in consequence of a falling off in the traffic The actua Revised Estimate are practically the same

### Eastern Bengal Railway

| 1887 88 Accounts | | 1888 89 Budget | 1888 89 Revised | 1888 89 Accounts |
|---|---|---|---|---|
| | WORKING EXPENSES— | | | |
| 144 5 | Maintenance | 145 0 | 111 6 | 112 2 |
| 111 6 | Locomotive | 103 0 | 106 4 | 109 1 |

## Section H —RAILWAYS—EXPENSES—*continued*

| RESULTS | Accounts More | Accounts Less |
|---|---|---|
| Actuals with Actuals of previous year | 63 2 | |
| „ Budget Estimate | 60 4 | |
| Revised Estimate | 10 4 | |

160 The excess here is also attributable to growth of traffic to which may be added the paymer 90 per cent of the Bombay, Baroda and Central India Railway Company s share of surplus profits fo half year ended 31st December 1888 under a rule recently framed, as such profits previously would have been drawn till the ensuing official year

### North Western Railway

| 1887 88 Accounts | | 1888 89 Budget | 1888 89 Revised | 1888 89 Accounts |
|---|---|---|---|---|
| | WORKING EXPENSES— | | | |
| 514 C | Maintenance | 461 4 | 519 5 | 503 8 |
| 584 4 | Locomotive | 570 0 | 632 0 | 632 4 |
| 138 6 | Carriage and Wagon | 200 0 | 187 5 | 180 2 |
| 228 3 | Traffic | 240 0 | 233 5 | 231 4 |
| 168 2 | General Miscellaneous and Suspense | 198 6 | 182 5 | 194 7 |
| 1 633 5 | TOTAL NORTH WESTERN RAILWAY | 1 670 0 | 1 755 0 | 1 742 5 |

| RESULTS | Accounts More | Accounts Less |
|---|---|---|
| Actuals with Actuals of previous year | 109 0 | |
| Budget Estimate | 72 5 | |
| Revised Estimate | | 12 5 |

161 The large increase in expenditure during 1888 89 compared with the previous year is chie the heads *Locomotive* and *Carriage and Wagon* Departments which required renewals of stock excess over the Budget Estimate is attributed to repairs of stations and permanent way, and t growth of traffic having called for a higher scale of expenditure generally as well as to repairs of additions to Locomotives and Machinery The decrease on the Revised Estimate is ascribed t expenditure for the above purposes not having been carried out to the extent contemplated

### Oudh and Rohilkhand Railway

| 1887 88 Accounts | | 1888 89 Budget | 1888 89 Revised | 1888 89 Accounts |
|---|---|---|---|---|
| | WORKING EXPENSES— | | | |
| | Maintenance | 21 0 | 19 0 | 17 9 |
| | Locomotive | 31 0 | 28 0 | 29 0 |
| | Carriage and Wagon | 7 5 | 7 5 | 6 7 |
| | Traffic | 17 5 | 16 5 | 15 5 |
| | General Miscellaneous and Suspense | 3 0 | —13 5 | —14 5 |
| | TOTAL OUDH AND ROHILKHAND RAILWAY | 80 0 | 57 5 | 54 6 |

| RESULTS | Accounts More | Accounts Less |
|---|---|---|
| Actuals with Actuals of previous year | 54 6 | |
| Budget Estimate | | 25 4 |
| Revised Estimate | | 2 9 |

162 In 1887 88, the Oudh and Rohilkhand Railway was a guaranteed undertaking, but having taken over by Government from the Company has from the 1st January, 1889 been worked as a line The transactions recorded above therefore, relate to the three closing months of the officia 1888 89 The working expenses are below the Budget Estimate, having been reduced when the ear declined The expenses are in fair accord with the Revised Estimate, but owing to an under estim outstandings, the expenditure is below the Revised Estimate by 2,9

## Section H —RAILWAYS—EXPENSES—*continued*

### Other State Railways—Imperial

### RESULTS

163 The actual expenditure during 1888-89 exceeds that of the previous year by 199,1, the princ variations being as follows —

| | |
|---|---|
| Bengal Nagpur | + 30,7 |
| Wardha Coal | — 6,7 |
| Umaria Colliery | + 17 8 |
| Bengal Central | — 16 5 |
| Indian Midland | + 49 4 |
| Southern Mahratta | + 70 9 |
| Nellore Branch | + 17 9 |
| Mysore | + 6 9 |
| Tounghoo Mandalay | + 32,5 |

164 The increase on the Bengal Nagpur, Indian Midland and Southern Mahratta Railways is du additional lengths of line having been opened for traffic as explained under Receipts On the Wa Coal Railway in 1887 88, heavy and substantial repairs and renewals were executed, which rendered less penditure necessary during 1888 89 On the Umaria Colliery the expenditure includes special adjustm on account of depreciation and losses arising in previous years from working the colliery The net re of the account is that the out put of coal in 1888 89 was 4,5 more than in 1887 88 The decrease on Bengal Central Railway is mainly due to the amount payable to the Eastern Bengal State Railwa working the line being calculated at the rate of 40 per cent on gross earnings from 1st July 1888, in of 60 per cent as heretofore, in terms of the new working agreement The increase on the Nellore Br arises from the line being open for only a part of the year 1887 88, and on the Mysore Railway from reconstruction of four bridges damaged by floods The Tounghoo Mandalay Railway was opened du 1888 89

165 The actual expenditure during 1888 89 exceeded the Budget Estimate by 30,0, the principal ation being as follows —

| | |
|---|---|
| Bengal Nagpur | + 21 6 |
| Umaria Colliery | + 7 4 |
| Bengal Central | — 11 4 |
| Indian Midland | — 8 0 |
| Southern Mahratta | + 12 3 |
| Mysore | + 5,3 |

166 In the case of the Bengal Nagpur Railway, it was difficult to frame an estimate of he cost of ing the line on the altered gauge and in circumstances different to the conditions previously obtain and the expenses of the Umaria Colliery were enlarged partly by the special items referred to in the ceding paragraph and partly by more extensive operations involving larger payments for Royalty than v contemplated when the Budget Estimate was framed The decrease on the Bengal Central Railwa partly due to the favourable terms of the new agreement with the Eastern Bengal State Railway for wor' the line, and partly to a credit afforded on account of materials returned to 'Stores' during the year f the old alignment which was destroyed by floods On the Indian Midland Railway, the provision made maintenance proved much greater than was subsequently found to be necessary The increase on Southern Mahratta Railway is due to insufficient provision in Budget for working the additional sect of line opened during the year, and on the Mysore Railway to unexpected expenditure in repai damages caused by floods

167 The actuals have exceeded the Revised Estimate by 31,6 chiefly in the following lines —

| | |
|---|---|
| Bengal Nagpur | + 16 6 |
| Indian Midland | — 5 5 |
| Southern Mahratta | + 5 9 |
| Tounghoo-Mandalay | + 12 5 |

168 In the Bengal Nagpur Railway the Home expenditure has been transferred from Capital to Re nue, together with the cost of repairs to metre gauge goods stock and establishment charges of the Ra and Sheonath districts, from the dates these sections were opened for traffic In addition to which, expenditure on fuel and on repairs to Locomotives was heavier than anticipated The saving on Indian Midland Railway is mainly due to the provision made under *Locomotive* and *Traffic Expe* having been based on a higher ratio of expenditure than now appears was necessary The estimat the Southern Mahratta Railway was too low, and also that of the Tounghoo Mandalay Railway, from th not being sufficient data to apportion, with any approach to accuracy, the estimated expenditure betw this section and the Prome Rangoon Tounghoo section of the Burma Railway

## Section H – RAILWAYS—EXPENSES—*continued*

### Other State Railways—Provincial, excluding Eastern Bengal State Railway

| RESULTS | Accounts More | Accounts Less |
|---|---|---|
| Actuals with Actuals of previous year | 7 0 | |
| „ Budget Estimate | | 2 0 |
| „ Revised Estimate | | 11 4 |

169 As regards the excess over the previous year, the Burma and Lucknow Sitapur Seramau Rail show an increase of 14 0 and 3 1, and the Tirhoot Railway a decrease of 9 9 The increase on the Bu Railway is due to the running of additional train mileage in consequence of a large increase in the mileage of construction stores, as well as in the running of empty vehicles Moreover, the paddy se which usually lasts from January to the end of March was late in 1888 89 owing to a firm stand mad the mill owners against high prices The busy season staff had been engaged as usual and was partially reduced as the trade might have sprung up any day and hence whilst the receipts from p traffic fell, the expenses could not be correspondingly reduced The increas on the Lucknow Sit Seramau Railway became necessary by the requirements of increased traffic while on the Tirhoot Rai the opportunity offered for economical working, reduction of establishment, and retrenchment in penditure generally

170 As compared with the Budget Estimate the actuals show on the Burma Railway an increase o on account of heavy repair of stations and buildings and additional cost of station and train staff On Tirhoot Railway there is a saving of 11,2 due to economical working

171 The actuals are less than the Revised Estimate by 11,4, of this 10,1 relates to the Bu Railway and is due to a considerable increase at the close of the year in the balance of the acc Demands Payable' whereas a decrease was provided for in the Revised Estimate

### Interest on Capital

172 As explained in former reports, the interest charge for State Railways depends upor progres of construction during the year, and hence the payments in 1888 89 were greater than i previous year, owing to the larger expenditure on this account The following statement shows in form how the interest charged in the accounts of 1888 89 has been computed

| Capital Expenditure on which Interest is chargeable | E I Ry | E B Ry System | Other State Railways | T |
|---|---|---|---|---|
| Capital Expenditure at end of 1887 88 | 2 153 3 | 5 738 9 | 53 583 0 | 61 |
| Capital Expenditure during 1888 89 | —3 6 | 346 5 | 857,6 | 1 |
| Capital Account at end of 1888 89 | 2 149 7 | 6 085 4 | 54 440 6 | 62 |
| Debenture and Debenture Stocks discharged | 2 950 0 | 612 4 | | 3 |
| **Interest** | | | | |
| Interest on Capital Account at beginning of the year | 96 9 | 229 6 | 2 143 3 | 2 |
| Interest on Debentures &c discharged | 132 8 | 32 6 | | |
| Half interest on Capital spent during the year | —1 | 6 9 | 25 9 | |
| Total | 229 6 | 269 1 | 2 169 2 | 2 |
| *Add*—½ per cent on the Holkar Loan of a crore which bears 4½ per cent interest | | | 5 0 | |
| Total Interest charged | 229 6 | 269 1 | 2 174 2 | 2 |

173 The foregoing figures contain no interest on account of the Katni Umaria line which was t ferred to the Bengal Nagpur Railway Company on the 1st April 1888 and the amount according charged under the head, ' Interest on Capital deposited by Companies noticed in paragraph 177 the other hand, the Sindia line having been transferred to the Indian Midland Railway during March the interest for the whole year is included in this portion of the account The differences bet Budget and Actuals in the English account are explained in paragraph 53

### Exchange

174 The increase, compared with the Actuals of the previous year and the Budget Estima due to the fall in exchange

### Annuities in Purchase of Guaranteed Railways (including Sinking Funds)

| Revised Estimate | 3 | |

### Interest

177 The increase over the Actuals of the previous year is due to larger deposits of Capital w the Secretary of State by the Companies and to interest to the 31st March 1888 on account of the Ka Umaria Railway as stated in paragraph 173, it having been decided to treat the expenditure on that line an advance towards the completion of the Bengal Nagpur Railway and to charge interest at 4 per ce thereon, instead of calling on the Company to refund the amount

178 The decrease of 1 8 over the Budget represents an increase of 19 3 in India, owing to the cha for the Katni Umaria Railway just explained, and a decrease of 21,1 in England from capital not hav been paid up as early as was expected

### Exchange

179. The increased charges for Exchange compared with the Actuals of the previous year and w the Budget Estimate are due to larger payments of interest on increased deposits of Capital, as well to a fall in the rate of Exchange

| 51 4 | TOTAL LAND AND SUPERVISION | 57 5 | 44 8 | 44 3 |
| 714 0 | GRAND TOTAL | 527 5 | 569 1 | 614 5 |

RESULTS

| | Actuals More | Actuals Less |
|---|---|---|
| SURPLUS PROFITS— | | |
| Actuals with Actuals of previous year | | 92 4 |
| Budget Estimate | 100 2 | .. |
| Revised Estimate | 45 9 | |
| LAND AND SUPERVISION— | | |
| Actuals with Actuals of previous year | | 7 1 |
| Budget Estimate | .. | 13,2 |
| Revised Estimate | | 5 |

### Surplus Profits

180 The decline compared with the preceding year, occurred both on the Bombay, Baroda Central India and Great Indian Peninsula Railways from diminished traffic The increase over the Bu Estimate was produced chiefly on the Great Indian Peninsula Railway where the earnings were larger anticipaed from causes noted in paragraph 140 The revised was exceeded by 45,9, in consequen a change of system by which certain payments were made in March 1889, which otherwise would not become due till the following month

### Land and Supervision

181 The main difference between the two years under review is in the recoveries from Comp which were larger in 1888 89 from the increased mileage of Companies lines under construction saving on the Budget provision is due chiefly to delay in settling claims for compensation for lar Madras and Oudh, and to the amalgamation of the office of the Director General of Railways with Public Works Department Secretariat The difference between the Actuals and the Revised Estima small and needs no explanation

## 39.—Guaranteed Companies—Interest.

| 1887 88 Accounts | | 1888-89. Budget. | Revised | Accounts |
|---|---|---|---|---|
| | INTEREST— | | | |
| 25,6 | India | 8 5 | 7 2 | 6 7 |
| 2 694 9 | England | 2 722 0 | 2 697 8 | 2 697,4 |

| 1,132 4 | EXCHANGE | 1 143 2 | 1 254 5 | 1 255,0 |
| 3,852,9 | TOTAL | 3,873 7 | 3,959,5 | 3,959,1 |

## Section H —RAILWAYS—EXPENSES—*continued*

| RESULTS | Actuals More. | Actuals Less |
|---|---|---|
| INTEREST— | | |
| Actuals with Actuals of previous year | | 16 4 |
| Budget Estimate | | 26 4 |
| „ Revised Estimate | | 9 |
| EXCHANGE— | | |
| Actuals with Actuals of previous year | 122 6 | |
| Budget Estimate | 111 8 | |
| Revised Estimate | 5 | |

### Interest

182 The decrease, as compared with the preceding year, is due principally to smaller charges account of interest on overdrawn Capital of the Great Indian Peninsula Railway The Budget made provision for the renewal of the Oudh and Rohilkhand Railway Company s debentures falling due in year but they were paid off at maturity in anticipation of the purchase The debentures of the Great Inc Peninsula Railway Company moreover were renewed at a lower rate of interest The difference betw the actuals and Revised estimate is small and needs no remark

### Exchange

183 The excess in all cases is the result of a fall in the rate of Exchange

## 40 —Subsidised Companies—Land and Subsidy

| Revised Estimate | | 2 8 |

186 The details in the preceding table show the variations leading up to the results under *Impe* and *Provincial* The increase over the actuals of 1887 88 is mainly due to such new projects ha been put in hand during 1888 89 as the Great Western of India, Mu Valley and Western Bengal Surv The *Imperial* Budget provided a reserve of 15 8 to meet unforeseen requirements but it proved to b excess of the demands arising during the year The *Provincial* Budget made no provision for Western Bengal or Tirhoot Surveys which were ordered after it had been dealt with nor for the ex sion surveys sanctioned in connection with the Bhatinda Bhawalpur project As regards the Rev Estimate under *Imperial* the full complement of officers was not posted to the Mu Valley Survey, the staff employed was retained for a shorter period than was anticipated Under *Provincial* the lap. due to the late commencement of the survey operations on the Minchinabad Bhawalpur Section of Bhatinda Bhawalpur Railway and to the grant for land in British territory required for the Rajp Patiala Railway not having been utilised

## Section J —IRRIGATION.

## Imperial Works

188 The *Gross Revenue* in 1888 89 exceeds that of the previous year by 49 6, the larger part which occurs in the Punjab and is due to development of irrigation on all the canals in that Provir excepting the Western Jumna, where a falling off of 45 2 was registered owing to seasonable rain having reduced the demand for canal water In the North Western Provinces and Oudh the imprc ment is slight and is derived from the expansion of irrigation on the Betwa canal In Bombay there also an increase in consequence of larger recoveries of previous outstandings from lands in the Khe territory watered by the Desert and Begari canals The excess over the Budget is attributed to rapid growth of irrigation under the Bari Doab and Sirhind canals in the Punjab, and over the Revi to recovery of arrears in Sind, as noticed above

189. The increase in *Working Expenses* over the Actuals of 1887 88 is due to the maintenance a repairs of greater lengths of some canals in the Punjab, and to charges for their distributaries wh

### Section J —IRRIGATION—RECEIPTS—*continued*

have been lately brought into operation The greater portion of the increase over the Budget Estim occurs in the North Western Provinces and Oudh and in the Punjab, the increase in the former be caused by the writeback to this head of the old outlay on the Nadrai aqueduct of the Lower Gan canal shown in the Budget Estimate as a Provincial charge In the Punjab the heavy floods of 1 rendered very extensive repairs to works necessary

## Provincial Works

190 The *Gross Revenue* collected in 1888 89 shows an improvement of 61,2 over that of the previ year Of this improvement 29 1 has been contributed by Bengal and 32,1 by the North Western Pr inces and Oudh The improvement in Bengal is due partly to the subsidence of the agitation agai the irrigation system of the Sone canal mentioned in paragraph 183 of the previous year s report, p to the increase of the irrigated area and partly to a larger collection of navigation receipts owing increased traffic The increase in the North Western Provinces and Oudh is attributed to the r season of 1887 88 and the *kharif* of 1888 having been exceptionally favourable to irrigation on Ganges and Lower Ganges canals The Budget of the North Western Provinces and Oudh was fram for an abnormally small revenue on the supposition that the abundant rainfall in January 1888 wo have reduced the demand for canal water but the seasons proved very favourable to irrigation

191 Compared with 1887 88 the rise in *Working Expenses* during 1888 89 is mainly due to la extensions and improvements, which were found necessary on all major irrigation works in the Nor Western Provinces and Oudh, especially the Lower Ganges canal

## XXIX —Major Works—Indirect Receipts.

### Portion of Land Revenue due to Irrigation

| 1887 88 Accounts | | 1888 89 Budget | 1888 89 Revised | 1888 89 Accounts |
|---|---|---|---|---|
| 87 2 | N W Provinces and Oudh | 87 2 | 87 4 | 87 4 |
| 45 7 | Punjab | 42 5 | 44 5 | 45 8 |
| 409 6 | Madras | 389 4 | 410 5 | 460 5 |
| 60 1 | Bombay | 71 2 | 69 7 | 77 3 |
| 602 6 | TOTAL | 590 3 | 612 1 | 671 0 |

| RESULTS | Actuals More | Actuals Less |
|---|---|---|
| Actuals with Actuals of previous year | 68 4 | |
| Budget Estimate | 80 7 | |
| Revised Estimate | 58 9 | |

192 The rise of 68 4 occurs chiefly in Madras, and is connected partly with water rates on la served by the Godavari and Kistna delta systems, and partly with a credit afforded to this head on re justment of the Revenue accounts of the Cauvery delta system for 1884 85 There was also an incre of 17 2 in Bombay arising out of several cau es of which the principal are the improved working of Eastern Nara Works and the Begari canal and the favourable inundation of 1888 89 The Budget Estim of 1888 89 was framed on the basis of the past year s figures, but owing to a favourable irrigat season in Madras and to an anticipated growth of irrigation under the Godavari, Kistna and Sangam s tems the Revised Estimate was prepared for an increase of 21 8 The Actuals however, exceeded Revised Estimate by 58,9, owing to the causes stated above

### Imperial Works

197 The expenditure in 1888 89 is in excess of that of 1887 88 by 15 1 The increase is chiefl construction in Upper Burma The excess of 10 7 over the Budget Estimate is mainly caused the outlay on the Khushdil Khan reservoir having been debited to this head whereas provision was n for it in the Budget Estimate under *49—Irrigation Capital Expenditure not charged against Reven*

### Provincial and Local Works.

198 The excess over 1887 88 by 79 0 has arisen principally in Madras where a large outlay is ceeding on Tank Restoration Works against assignments from the Provincial resources of that Gov ment There is a also an increase in Lower Burma where extensive repairs to embankments been rendered necessary by heavy floods and a large outlay was undertaken on the construction o Abya flood escape of the Pegu and Sitang canal

## Section K—BUILDINGS AND ROADS—RECEIPTS

| 1887 88 Accounts | | 1888 89. Budget | Revised | Accounts |
|---|---|---|---|---|
| 592,3 | RECEIPTS | 555,1 | 588,7 | 604,7 |

199 The revenue credited under this head consists, to a great extent, of uncertain items since there are few regular sources of income In 1888 89 more buildings were sold and the ferry tolls were more productive than in 1887-88, or was anticipated in the budget The Revised Estimate provided for an increase of 33,6 over the Budget Estimate, but, owing to some unexpected receipts, the Actuals turned out better by 16,0

200 The differences between the Accounts and Estimates of the various provinces are explained in the following paragraphs —

### XXXI —Military Works

| 1887-88. Accounts | | 1888 89. Budget | Revised | Accounts |

| 40 4 | TOTAL | 36 0 | 39 7 | 42 5 |

RESULTS

| | Actuals More | Less |
|---|---|---|
| Actuals with Actuals of previous year | 2 1 | .. |
| " Budget Estimate | 6 5 | |
| " Revised Estimate | 2 8 | |

201 The improvement of 2,1 in the total revenue compared with that of the previous year is almost entirely due to the sale by the Inspector General of Military Works of certain bungalows near the site of No 1 redoubt at Lucknow and to the operation of the rule requiring recoveries on account of advances made in England in previous years to be credited to Revenue instead of being deducted from expenditure as was previously done To these causes and to increased realisations in Bombay on account of rents of buildings and sales of old materials is mainly attributable the difference of 6 5 between the Actuals and the Budget Estimate The improvement of 2,8 in comparison with the Revised Estimate, is due to the sale of the bungalows at Lucknow already referred to not having been anticipated and to a steady increase in the rents recoverable from Military Officers in Upper Burma

| Actuals with Actuals of previous year | 1 6 | |
| Budget Estimate | 8 | |
| Revised Estimate | 2 | |

**Imperial**

202 The total revenue credited to Imperial Funds agrees closely with that of the previ There has been an increase of 3 8 in the Departmental receipts, which is principally attributable of a house at Simla and another at Sirdarpur Upper Burma has also contributed to it and the mills which were lately the property of King Theebaw The falling off of 3 7 in the realisatior Officers is due to the transfer to Incorporated Local Funds of the control and realisation of fe This explanation also applies to the difference between the Actuals Budget and Revised but ir there were also larger sales of tools and plant, and of old materials and buildings in Upper Bu were anticipated, and the rent of the saw mills at Pegu from February to July 1889, was r advance

**Provincial**

203 There is but a small difference of 6 between the total Departmental Actuals of the Under provinces the only important difference is that of 5 9 in the North Western Provinces where a falling off appears during 1888 89 in the receipts from the Roorkee workshops and th press and book depôt of the Thomason Civil Engineering College, as well as in the revenu from sales of buildings Increases of 1 5 and 1,2 occur in Lower Burma and the Central Provir the rent charged to the Irrawaddy Flotilla Co for the use of the Dala Dockyard having been raisec enhanced receipts on account of ferries rents of buildings and sales of buildings and old In Bengal large sums were realised by sale of buildings and materials received from old building

204 As regards the revenue collected by Civil Officers the principal differences between th of the two years occur under Bengal and the North Western Provinces and Oudh the increase o the former being attributed to higher amounts having been obtained by the lease of ferries and t sation of arrears of ferry tolls The North Western Provinces and Oudh exhibit a decrease of by a decline in the toll collections of the Kalpi ferry consequent on the opening of the India Railway In the Central Provinces certain toll bars were abolished during 1888 89 whi Punjab an improvement occurred in the revenue derived from tolls on roads, and sales of land a

205 The difference between Estimates and Actuals is made up of numerous small fluct general character of which is explained in the preceding paragraph

**Local**

206 Of the total increase of 6 7 over the revenue of the previous year 4,8 represents rea Upper Burma on account of ferry tolls which have hitherto been credited to Imperial Fu remainder of the difference is also connected with tolls which have increased in some pro declined in others

## Section K—BUILDINGS AND ROADS—EXPENDITURE

| 1887-88 Accounts | | 1888-89 Budget | Revised | Accounts |
|---|---|---|---|---|
| 5,451,1 | EXPENDITURE | 5,592,9 | 5,329,2 | 5,310 7 |

207 The expenditure is less than that of the previous year by 140,4, and this result is (1) to the gradual completion of Frontier roads in Baluchistan and the Punjab, (2) to a decr in the expenditure on Military and Civil Works in Upper Burma which was exceptionally h in 1887 88, owing to the then very recent occupation of the country, (3) to the transfe Native States in Central India and Rajputana of the responsibility for the construction of r within their territories, and (4) to the savings effected by the amalgamation of Public W establishments in Central India and Rajputana The Provincial and Local expenditure increased by 82,2 and 36 2 respectively, which is chiefly due to larger grants having made available for expenditure on roads and buildings in Bengal, the Punjab and Madra

208 The outlay has fallen short of the Budget Estimate by 282,2, of which 106,7 per to Imperial, and the balance to Provincial and Local The differences under Imperial are m due to an over estimate of the establishment charges of the Inspector General Mil Works, to the grant for Military and Civil Works in Upper Burma not having been utilized owing to various unforeseen causes, and to the reduction of outlay in Central I and Rajputana, in consequence of the transfer of roads to Native States and the amalg tion of the Public Works establishments in those Provinces Under Provincial and Local difference is principally due to an over estimate of the outlay on buildings and roac Bombay and Bengal, and to the postponement of a number of works in the Central P inces and Madras

209 The Actuals on the whole agree closely with the Revised Estimate, the short o being 18,5 only

Section K—BUILDINGS AND ROADS—EXPENDITURE—*continued*

210 The difference of 129,8 between the two years under review, is the balance of various provinci fluctuations The figures entered above, give a saving of 64 9 in *India* (*General and Polit cal*), but 30,0 this sum represents a special charge in 1887 88 on account of a grant in aid for the Mhow water wor The remainder of the saving has occurred from diminished expenditure on barracks for troops at Peshaw and Quetta and on the defensive post at Loralai The saving in *Upper Burma* is due to the exceptior expenditure which was necessary there in 1887 88 consequent upon the recent occupation of the countr In the *North Western Provinces and Oudh* the works connected with the defences of Jhansi were finis ed in 1887 88 and in 1888 89 less was required to be done on the Ranibagh and Ranikhet cart ro than in the preceding year On the other hand some provinces shew a larger expenditure in 1888 89 th in 1887 88 This is the case in the *Central Provinces* where additional accommodation was provide for troops and the Commissariat Department and some old suspense balances were charged off *Lower Burma* three important buildings were commenced at Rangoon and Thayetmyo for milita prisoners medical stores and the Commissariat department In *Assam* good progress was made on th Golaghat Nichuguard road, and work was commenced on the fair weather cart road f om the last name place to Kohima, and on buildings for native troops at Shillong Silchar and Manipur The excess in th *Punjab* is connected with the construction of buildings for native Infantry at Abbottabad and Dehr Ismail Khan The increase in *Madras* is due to works undertaken for the Ordnance Department I *Bombay* the expenditure during 1887 88 was limited owing to the urgent need of funds in Uppe Burma and other parts of the country In 1887 88 moreover the Bombay expenditure was still furthe reduced by deducting from it the sum of 25 8 received from Her Majesty's Government in England c account of the defence works at Aden It is on these accounts that the difference between the two year in Bombay is so great

211 Of the saving of 62,3 compared with the Budget 35,5 appears under *India* (*General and Political* owing mainly to (1) the establishment charges of the Inspector General, Military Works having falle considerably below the estimated amount by reason of a larger proportion being debitable to Specia Defence Works and other funds (2) to a sum of 10,0 having been held in reserve at the commencemer of the year which was subsequently allotted to works in other Provinces, and (3) to transfers from tl Indian to the English Account to meet payments on supplementary indents sent forward for store during the course of the year This was not foreseen when the Estimate for English stores was framec The Budget Estimate of *Upper Burma* owing to various causes could not be fully utilised In *Assa* slower progress was made on the Golaghat Nichuguard road than was originally contemplated, saving accrued on certain completed wo ks, and others could not be carried out to the extent contemplate owing to delay in the receipt of stores from England The excess expenditure of 1 9 and 1,2 unde Bombay and the Punjab, respectively is the result of additional allotments having been sanctioned fror the reserve of 10 0 already referred to, for several works undertaken during the course of the year

212 Of the difference of 7 5 between revised and actuals, 5 4 occurs in Bombay where two work were postponed and the barracks for European Infantry and Artillery at Colaba could not be finishe within the year as was expected The estimate for repairs to Military buildings was also fixed too high

### Imperial

213 A comparison of the Actuals of the two years shows a decrease of 147 9 during 1888-89 whic is principally attributable to less expenditure on the construction of Frontier roads in Biluchistan and th Punjab, the new Viceregal residence at Simla, and the new Telegraph Office at Bombay A considerab portion of the reduction is also accounted for by the completion during 1887 88 of important works Upper Burma, particularly in the new town embankments at Mandalay and the bund and sluices at Amar pura, as well as by the transfer to Native States in Central India of the responsibility for the constructic and maintenance of roads within their territories In 1888-89, moreover, the Gwalior Division w abolished, and the establishments in Rajputana and Central India amalgamated On the other hand, the is an increase of 26,0 in the expenditure of the Punjab mainly due to the transfer to the control of th Provincial Government of the Imperial buildings at Simla, which have hitherto been dealt wit separately, and also to charges having for the first time been incurred in connection with the maintenan of the completed portions of the Frontier roads

214 Compared with the Budget Estimate the total Imperial outlay shows a lapse of 57,9, of which 48 occurs under *India (General and Political)* due to the stoppage of work on the new church Quetta owing to a re consideration of the project, and also, as stated above, to the reductions carrie out in Rajputana Central India and Gwalior, and the transfer of the Imperial buildings at Simla to th control of the Punjab Government In *Upper Burma* a part of the Budget was used to provide func for the Irrigation Branch and for the maintenance by the Provincial Public Works Establishment frontier roads Various economies were effected in some parts of the budget and the budget itself w too high as regards certain items The charge of 3,0 against Civil Officers represents a grant to th Bhamo Municipality In *Lower Burma* no expenditure was incurred either in India or in Englan on account of the Oyster Rock Light house and in Bengal the saving is attributed to non commenc ment of the new opium building at Hajipore, and to inability to utilise fully the grant 32,9 provide for the Surveyor General's Office at Calcutta These remarks are generally applicable to the Revise Estimate

## Section K.—BUILDINGS AND ROADS—EXPENDITURE—*concluded*

### Provincial.

215 The Actuals of 1888 89 are below those of the previous year in the *Central Provinces*, in *the North Western Provinces and Oudh*, and in *Bombay* from a general reduction of expenditure In Bombay it is also partly due to the approach towards completion of the new Elphinstone College The large increase in *Bengal* includes expenditure on several new buildings for the Judicial, Jail, Police and other departments, and for the improvement of communications in various parts of the Province In *Madras* also the new law Courts and other buildings were commenced in 1888 89, and some large grants were made to Municipalities for water works and other improvements

216 As regards the Budget, the estimate of the *Central Provinces* provided for a new residence for the Chief Commissioner which was, however postponed It also provided 15 0 as a grant in aid to District Funds for the construction of District roads, but the arrangements connected with it were not completed during the year In addition to these two items the repairs to roads and buildings were not carried out to the extent contemplated The *Punjab* estimate was too high and this was also the case with the *Madras* Budget as regards repairs to Civil buildings, but part of the departmental saving is also due to the new law Courts not having progressed as rapidly as was expected The excess in the Madras expenditure by Civil Officers is caused by unexpected grants to Municipalities as mentioned in the preceding paragraph and for the Vizagapatam and Ganjam Agency Works The Bombay estimate was too high

217 The Revised has been closely followed by the Actuals In *Lower Burma* greater progress was made with a bridge over the Pegu river than was expected and this also occurred with certain works in the North-Western Provinces and Oudh The savings arise generally from contractors not having fulfilled their engagements, or from amounts due not having been drawn within the year

### Local

218 The following are the chief differences in this section of the account between the Actuals of the two years In *Lower Burma* a good deal of expenditure was incurred for the extension and improvement of communications, principally in the Henzada district In *Assam* certain works were removed from the Local to the Provincial division, and some that were in progress during 1887 88 were completed in 1888 89. The excess in *Bengal* and the *Punjab* is almost entirely on roads and bridges In the *North-Western Provinces and Oudh* the saving is composed of many small items The increase in *Madras* is largely due to a change of procedure in the Trichinopoly district where certain charges which were formerly deducted from revenue, now appear on the expenditure side of the account

219 As regards the Budget and Revised Estimates, those of the *Central Provinces* were generally high, and especially the Mandla and Dindori road did not make the progress anticipated The *Assam* Budget Estimates were too low In the *Punjab* certain works were postponed and some establishments reduced The other estimates were too high, but in the *North Western Provinces and Oudh* and in *Bombay*, expenditure on certain works was retarded in consequence of scarcity of labour, and difficulty in acquiring land and procuring materials

221 The Army receipts for 1888 89, both in India and England, compare well with those f the previous year In India the Budget and Revised were made comparatively low, as the ear 1887 88 was exceptional, on account of the prolonged operations in Upper Burma In 888 89 however, the Commissariat receipts were much higher than expected owing to large ales of stores, elephants cattle and unserviceable gear The issues of clothing and soldiers' ecessaries on payment were also greater than was anticipated, and large sums were realized n connection with the Sikkim, Hazara, and Lushai Expeditions which were organised after the Budget was framed, together with 13,1 from Berar on account of charges incurred by the British Government for the Hyderabad Contingent while on field service in Burma In England, the variations occur mainly under the head of Indian Troop Service

222 As regards Army Expenditure in India, the actuals of 1888 89 were lower than the revious year by 292,3 which is made up of a reduction of 469 4 in special charges and an ncrease of 177,1 in the ordinary expenditure, the net difference being 292,3 The reduction in pecial charges occurred in connection with operations in Burma (843,7) counterbalanced by he cost (374,3) of the Sikkim, Hazara and Lushai expeditions, particulars of which are given elow in paragraph 236 The ordinary expenditure was increased chiefly by the rupee payments o European troops consequent on a fall in exchange (80,1), by less of the charge for ordnance tores being debited to other departments (84,2) and by charges of the Mobilisation Committee 74,2) counterbalanced by a decline of 126 8 in Commissariat supplies and services The com arison with the budget shews that the latter provided 820,0 for operations in Upper Burma but the actuals aggregated 631,6 only Against this saving of 188,4 may be set the additional payments of 374,3 on account of the three expeditions mentioned above for which no allowance as made in the Budget These figures give an excess of 185,9 over the Budget as the esult of special charges In what may be called the ordinary expenditure of the army, the actuals amount to 3 3 less than the Budget This reduction is the balance of numerous fluc tuations, the chief increases being connected with the purchase of additional remounts in Bengal and with certain Barrack supplies which were formerly provided by the Public Works Department The savings accrued mainly from the reorganisation of the military commands and staff in India and from the diminished strength of the Native army The payments of he year also include 48,0 on account of unadjusted expenditure as explained in paragraph 233

223 The principal differences in *England* are an excess of 30,0 in stores owing to larger ndents from this country, and of 13,6 in furlough allowances which is always an uncertain uantity *Per contra* there was a saving of 18,3 in Home charges of British Forces serving in ndia and 15,2 in the Indian Troop Service

224 The following paragraphs supply the particulars usually given with respect to Army ervices —

225 As explained in former reports the Military receipts are more or less of a fluctuating characte and are not susceptible of an accurate forecast The increase under *Regimental Pay &c* which was partl anticipated in the Revised has occurred chiefly in Bengal where large retrenchments were made from pay ments in the previous year, and where the number of soldiers taking discharge was greater than expectec Against these excesses may be set smaller refunds than anticipated of hutting money advances and shor receipts on other Miscellaneous Accounts in Madras The improvement in *Commissariat Establishment &c* is due to increased consumption of Malt liquor to large sales of cattle, including condemnations i Burma, to recoveries of disallowances of the previous year to improved Khedda receipts and to hire o transport cattle and sale of unserviceable equipment &c These excesses were counterbalanced by dimi nished receipts for rum and malt liquor in Madras and Bombay The details of the head *Clothing Establish ments* shew that in Bengal there was a large demand of clothing and necessaries and that in Madras the value of clothing supplied to troops of the Hyderabad contingent in 1887 88 was adjusted in 1888 89 The 4,6 shewn in 1887 88 under 'Administration of Martial Law represented forfeited pay of militar prisoners transferred to credit of prison funds by debit to *Regimental Pay &c* This procedure has beer changed, and such sums are now deducted from the charge under the last named grant Hence no credi is afforded in 1888 89 under Administration of Martial Law The *Medical Receipts* were low as Madra issued no stores to other departments though the Budget anticipated 5 0 and in Bengal also such supplie are no longer made to Civil Medical Institutions independent of State aid As stated in the last report, th *Ordnance Receipts* in 1887 88 were enlarged by the adjustment in respect of Naval Stores taken ove by Her Majesty's Imperial Government In 1888 89 the Bengal Budget was exceeded by 14,0 in conse quence partly of certain political arrangements and partly by the value of a ms taken by the Gwalic State On the other hand the Madras revenue was short by 4 1 owing to sales not having been carrie out to the extent estimated, and to smaller indents from the Hyderabad Contingent and other depart ments The Budget for *Sea Transport Charges* was too low while that for *Miscellaneous Services* cor tained no provision in connection with the Sikkim Hazara, and Lushai Expeditions, which were subse quently organised, nor for various recoveries in Madras including a special item of 13 1 due from Berr in connection with the Hyderabad Contingent The estimates for the group '*Non-effective Services*" wer low, but it is difficult to estimate accurately for items of such an uncertain character

226 The principal difference in England occurred under the head of Indian Troop Service Ther was also a small increase in subscriptions towards Indian Military Service Pensions and in the value o stores in possession of Regiments on their transfer from the Indian to the British Establishment.

227 Of the saving under *Army and Garrison Staff* as compared with 1887 88 9 5 is nominal, being the cost of garrison instruction now classified under the head Education The real savings are 24,1 as compared with 1887-88, and 16,6 as compared with the budget, in the Quarter Master General's Department, and in District Commands and Staff resulting from certain reorganisations carried out during 1888 89. There have also been some minor economies, such as the abolition of the Inspector of Army

Section L.—ARMY SERVICES—EXPENDITURE—continued

ignalling, Madras On the other hand there are excesses of 4 0 and 2,3 over 1887-88 and budget, res pectively in the charges for Commander in Chief owing, in the former instance to the absence on special leave of the Commander in Chief Bombay and in the latter to the extended tours of the Commander in Chief, India The principal difference in the head *Administrative Staff* is under Commissariat and Remount Account, the charge for which is 3 9 more than in 1887 88 and 2,5 more than the budget This excess is due to the higher rank of the officer holding the appointment of Examiner, and an additional audit office established in Rangoon The other fluctuations are spread over many items the most important being the saving caused by abolishing the appointment of Examiner of Medical Accounts, Madras and the discontinuance of the staff allowances for the Fund Accounts, Madras and Bombay the work having been transferred to the Pay Examiners

228 The head *Regimental Pay Allowances and Charges* represents 52 per cent of the effective military expenditure and may be divided into two parts relating respectively to the expenses of the European and Native army of which the amounts are given below As regards the European army the accounts shew that the expenditure in 1888 89 was 50 1 more than the corresponding figure in 1887 88 [illegible] 8,8 more than the budget This increase is entirely in the rupee payment to British Troops which were augmented by the diminished rate of exchange and also by the present practice of fixing the rate of exchange for these payments half yearly instead of for the whole official year With respect to the Native army the expenditure in 1888 89 was below that of 1887 88 and the budget by 6,6 and 140,9 respectively The decline of 6 is almost entirely in kit money to recruits casualties among the sepoys not having been fully replaced The saving of 140 9 on the budget consists of three principal items namely 20 7 in native cavalry 102,2 native infantry, and 17 6 in reserve forces all being attributable to the actual strength falling below the estimated complement There are other fluctuations such as savings of 4 6 and 4 9 respectively hutting money and marching batta, and an excess of 7 7 in the annual grant in aid of half mounting The savings are due partly to erroneous estimate and partly to claims not having been preferred within the year The excess in the grant in aid arose from a larger number of men than usual becoming entitled thereto on completion of the required eighteen months service

| | Actuals 1887-88. | Budget 1888-89 | Revised 1888 89 | Actuals 1888 89 |
|---|---|---|---|---|
| European Army | 3 475 3 | 3 516 6 | 3 528 4 | 3 525,4 |
| Native Army | 3 708 9 | 3 843 2 | 3 731 8 | 3 702 3 |
| TOTAL | 7,184 2 | 7 359 8 | 7 260 2 | 7 227 7 |

229 The head *Commissariat* represents 23 61 per cent of the effective military expenditure and consists of four divisions namely, (1) establishments (2) supplies, (3) services, and (4) the Transport Branch The charges on each account are given below As regards establishments the expenditure in 1888 89 was 78,6 below that of 1887 88 and 50 4 below the budget The former saving is almost entirely in the transport establishments, and the latter is in executive and khedda establishments The actuals under supplies in 1888 89 shew a saving of 182,0 as compared with the previous year and an increase of 54 8 as compared with the budget The saving is in provisions for Europeans (56 3) and Natives (135,9), in reserve stock (9 3) and in malt liquor purchased locally (14 7) counterbalanced by an increase in the compensation paid to natives for dearness of provisions and forage (52,1) The excess over budget is in compensation to natives for provisions (72,6) and forage (49 6), counterbalanced by a saving of 18,0 in provisions for natives, 14,3 in purchase of special forage for field service and of 32 6 in malt liquor and rum The division services includes hire of transport sea and inland water charges railway charges, feed of army cattle, charges for cattle farms and depôts, implements furniture and freight As compared with 1887 88, there was a saving of 48 5 in hire of transport of 107,6 in sea and inland water charges and of 12,4 in implements godown furniture and contingencies As compared with the budget there were savings aggregating 77 9 in the first two heads just mentioned, but increases of 19 5 and 25,7 under railway charges and feed of army cattle In the fourth division, Transport Branch the depôt and regimental charges amounted in 1888 89 to 332,3 against 460,2 in 1887 88 and 341 8 in the budget

| | Actuals 1887-88. | Budget 1888-89 | Revised 1888-89 | Actuals 1888 89 |
|---|---|---|---|---|
| Establishments | 567 0 | 538 8 | 509 2 | 488 4 |
| Supplies | 1 846 3 | 1 609 5 | 1 656 8 | 1 664,3 |
| Services | 968 2 | 834,8 | 805,3 | 800 9 |

| | 3 847 0 | 3,331,7 | 3,302,6 | 3,289 7 |

230 The excess under *Remounts and Cattle* resulted from purchase of additional remounts and country bred stock, and from miscellaneous expenditure for road and other expenses connected with them Certain compensations were also paid to shippers of Australian horses as the price fixed for the horses by Government was low This head was also affected by a number of small savings consequent on vacan

## Section I.—ARMY SERVICES—EXPENDITURE—*continued*

cies in establishments and absence of officers on leave The Budget grant for *Clothing* compares w with the actuals, the principal difference being an excess of 10,0 in compensation in lieu of clothi caused partly by special grants and partly by a fall in the rate of exchange which enhanced the cha for compensation to British Troops The excess over the actuals of the previous year is chiefly in same head and is due to the lower exchange just mentioned The Revised was framed too high. Char for the *Barrack Department* in 1888 89 were less than the previous year's by 2,5 and 5 6, in respect subordinate establishments and barrack furniture The comparison with budget shews that the charges Barrack Bedding and Lighting were under estimated, while the Military Department had to pay for cert supplies which were formerly obtained from the Public Works Department It will be seen from the figu given in page 102 that the expenses attending the *Administration of Martial Law* have largely increa since 1887 88 This is due to a change in the manner of bringing to account the cost of maintaining garri prisons The cost was formerly carried to a debt account which was credited with deductions made fr the pay of the prisoners This system is changed the expenses of the prisons being now charged to t head and the pay remaining undrawn thus causing a reduction in the grant for Regimental Pay, But for this change the account would have presented a saving in 1888 89, since the number of officer be maintained in the Department has been reduced from 1st April 1888 The *Medical* charges considerably below the Budget and the Actuals of 1887 88 the decline being in district establishme where both officers and subordinates were under the established strength Many officers also were leave and their places filled with junior officers Medical supplies though costing 8,S less than in 1887 exceeded the budget by 20 3 owing to the prevalence of cholera and other ailments in some districts, a to larger purchases of hospital equipment and stores than was anticipated The value of stores supplie other departments was 12,0 less than in 1887 88 but 8,1 more than the Budget

231 The large expenditure in the *Ordnance* department may be divided into three principal porti as is done in the statement at foot of this paragraph The charges for establishments are nea the same in the two years 1887 88 and 1888 89 and 13,9 less than the budget of 1888 89 This sav occurred chiefly under 'Arsenals and depôts and manufacturing establishments, owing to establishme having been maintained on a reduced scale to the absence of officers on leave and to the restric entertainment of extra artificers and labourers consequent on reduced demands for supplies from factories in Bengal and Bombay As regards stores, the expenditure in 1888 89 was greater than tha the preceding year by 24 0 in local supplies to manufacturing establishments, by 7 1 in stores for anr practice, field train, and field telegraph and in equipment of the Corps of Sappers and Miners and 19 9 in purchase and repair of Camp equipage On the other hand, there was a reduction of 22,1 in cost of miscellaneous stores As compared with the budget, savings of 15,1 and 34,7 were effected in stores and timber for arsenals and factories, the result of restricted purchases and more favorable contr rates for certain articles The charges for freight of stores from port to port were less by 2,1 than e mated specially in connection with Burma As a set off against these savings the account shews increase of 5 8 under 'Stores—Miscellaneous' consequent on the return of a large quantity of stc by other departments including the Burma police Further increased expenditure (28 4) took pl on account of the purchase and repairs of camp equipage owing to arrear payments in Bengal appert ing to the previous year and to larger purchases and repairs in Bengal and Bombay than was expec when the budget was framed The provision for the purchase of line gear was under estimated regards the value of stores supplied to other departments in 1888 89 the credit given below shew t these supplies were 57 8 less than in 1887 88, and 14,3 more than the budget These transactions necessarily of a very fluctuating character—

| | Actuals, 1887 88 | Budget 1888-89 | Actuals 1888-89 |
|---|---|---|---|
| Establishments | 334 0 | 349 6 | 335,7 |
| Stores | 300 8 | 338 6 | 324 7 |
| TOTAL | 634 8 | 688 2 | 660 4 |
| Deduct supplies to other departments | 141 8 | 69 7 | 84 0 |
| Net charge as above | 493 0 | 618 5 | 576,4 |

232. The *Education* charges for 1888 89 include the salary of the Director of Military Educat and payments connected with Garrison Instruction, hitherto entered under *Army and Garrison St* Against this increase some savings accrued from the reduction of two Sub Inspectors and one Assist Superintendent of Army Schools, and the abolition of the Normal Schools, Bangalore and Poona Th were also smaller purchases of books, school materials, &c, in Bengal *Sea Transport Charges* w enhanced by larger payments to private vessels for conveyance of Bengal and Madras troops to from Burma The actuals for *Miscellaneous Services* include 374,3 spent for the Sikkim, Hazara Lushai Expeditions for which no provision was made in the Budget, but 387,5 was entered in the Revis Apart from this special item, there was a saving of 24,6 on the Budget, while the Revised was exce

## Section I.—ARMY SERVICES—EXPENDITURE—*continued*

by 64,7 The excess occurred in compensation and extra allowances to troops in Burma, in charge for the Mobilisation Committee, purchase of land printing charges in Madras and extra frontier tele graph lines On the other hand, rewards for proficiency in native languages purchases of Native Cavalr remounts, personal allowances to Military officers employed in the Police and other miscellaneou payments, were smaller than expected *Volunteer Corps* cost more during the year owing to capitatio grants to a larger number of Volunteers qualified as efficients

233 The charge for unadjusted expenditure 48,0, is shewn under the rule that when the issues fror Civil Treasuries for Military Services exceed the amount brought to account in the Military Books, th difference shall be so shewn in other words, that no delay in account processes shall hinder the complet exhibition of money outlay

234. The several heads under the group *Non-effective Charges* in India require no notice except tha the *Rewards for Military Services* were over estimated, and the Budget for *Widows' pensions* was to low

235 In *England* the savings are in Home charges in Indian Troop service and in Non effectiv charges The first saving is due to the award by Lord Northbrook s Committee having been 13,2 less tha was expected and to decrease in the furlough pay of officers of British regiments and in the pay of troop during voyage to and from India In the second case the payments for repairs of troopships were les than anticipated There is nothing special to record regarding the non effective charges except that th pay and pensions of non effective and retired officers did not increase in the same proportion as in recen years The increase in furlough allowances of officers of the Indian service arose from a larger numbe of officers being at home during the year than had been estimated and in passage of officers and troop otherwise than in Troopships from a larger number of officers requiring such passages The rise i miscellaneous charges is attributable to the number of officers studying the Russian language, and in store to increased payments on account of Ordnance stores

236 The following statement supplies details of the additional expenditure, aggregating 801 9, o account of Upper Burma and the Hazara and Lushai Expeditions A sum of 204,0, was also spent on th Sikkim Expedition during the year but separate accounts were not kept for these charges —

| GRANTS | Upper Burma | Hazara Expedition | Lushai Expedition | TOTAL |
|---|---|---|---|---|
| Army and Garrison Staff | 24 7 | 2 4 | 2 | 27 |

|---|---|---|---|---|
| 456,0 | EXPENDITURE . | 1,121,5 | 818,3 | 789,6 |

237 The increase of 333 6 over the expenditure of the previous year is principally due to Coast Defences at Rangoon, Karachi and Bombay having been pushed on more rapidly, and to larger payments having been made by the Secretary of State on account of armaments The saving of 331,9 on the Budget Estimate is due to the payments in England on account of heavy guns having been unavoidably retarded, and to the requirements for the fortification at Aden and for establishment having been over-estimated The saving of 28,7 on the Revised Estimate is due to the Secretary of State's payments having fallen short of expectation

| Revised Estimate | | 8 4 |

238 The Indian expenditure shows an increase of 76 7 over that of the previous year owing to greater activity during 1888 89 on coast defences at Bombay and Karachi, and to the progress of the following important works in Lower Burma (i) battery at Syriam Point (ii) re modelling and completing the battery at Choki Point, and (iii) raising and improving the ground behind the battery at Monkey Point

239 The Actuals are less than the Budget Estimate by 52 2 owing mainly to the requirements of the year for the Defence Works at Aden and the establishment charges in Bombay having been considerably over estimated and to no provision having been made in the estimate for a sum of 16 2 recovered from the Home Government on account of the Aden Defence Works this recovery was treated as reduction of Indian outlay during 1888 89 Under India (General and Political) the lapse of 13 4 on the Budget Estimate is caused principally by the fact, that provision was made for a much larger staff in the Pishin Division than it was found necessary to employ and to the proposal to charge a portion of the pay of the Inspector General, Military Works, to the head Special Defences, not having been sanctioned In Lower Burma, the Budget Estimate was exceeded, as sanction was subsequently given for improving the ground behind the Monkey Point battery and constructing Syriam Point battery—works which were commenced during the course of the year The total expenditure in India compares very favourably with the Revised Estimate, there being a difference of but 2,2 on a grant of 450,0

## Section N.—EXPENDITURE NOT CHARGED TO REVENUE.

| 1887 88 Accounts | | 1888-89. Budget | Revised | Accounts |
|---|---|---|---|---|
| 2,784,8 | EXPENDITURE | 4,044,5 | 12,193,8 | 11,974,0 |

241 The expenditure is more than in the previous year by 9,189,2 and the Budge 7,929,5 and particulars of these deviations are given at foot of this paragraph, + meaning and — more In the case of capital outlay on railways the differences are due to two r causes the practical completion in 1887 88 of certain lines and the transfer of other companies The capital outlay on irrigation works was in some instances over estima but otherwise there is nothing special to record

242 During 1887 88 no capital charges were incurred in the redemption of liabilities, during 1888 89 a sum of 10,336,0 was paid in connection with the purchase of the Oudh Rohilkhand Railway

243 It will be convenient to arrange the following explanatory remarks separately for each province, and in the order in which the lines have been placed in the foregoing statement

*India, General and Political* —The decrease on the East Indian Railway, as compared with 1887 88 is due to transfer during the year of the Benares Branch to the Oudh and Rohilkhand Railway A credit of 61 4 was realized on this account This transfer also explains the difference between Actuals and Budget The decrease as compared with Revised Estimate is due to larger issues of stores to Revenue towards the close of the year than was anticipated The expenditure on the Rajputana Malwa Railway appears

**Section N —EXPENDITURE NOT CHARGED TO REVENUE—*continued***

small compared with 1887 88 but in that year there were special charges for stores from England and fc land required to improve the accommodation for landing stores at the gun carriage basin at Colaba Th Budget for 1888 89 was exceeded in the item of stores, a quantity of which was unexpectedly transferre to this line from the Cawnpore Achneyra Railway and so disturbed the calculations of the Revised Est mate The credit under the Sindia State Railway represents the cost of construction transferred to th capital account of the Indian Midland Railway Company which took it over on 1st March 1889 Th head Stores represents a net result, being the difference between the purchases of the year *plus* th balance of the previous year and the issues in 1888 89 The figures shew that there was a large depletion of store balances in 1887 88 than in 1888 89 the issues being less than the purchases by 18,7 1 the Indian account and 33,6 in the English account or 52 3 in all as entered above The Budget was nc reached chiefly in England the indents having been less than was estimated, especially in connection wit the North Western Railway The difference as compared with the Revised is chiefly in the matter c exchange

*Central Provinces*—The large difference in the expenditure of the Wardha Coal State Railway a compared with 1887 88 is due principally to credit taken in that year for one hundred 10 ton coal wagon transferred to the Katni Umaria line As compared with the Estimates, the accounts show larger issues c stores to Revenue than was anticipated The credit on the Katni Umaria line has been caused by the transfe of the whole of the expenditure incurred on it to the Bengal Nagpur Railway Company The Actuals of th Umaria Colliery for 1887 88 included 8,3 on account of loss incurred in working the Colliery to the 31st Marc 1887, which it was decided to treat finally as a Capital charge Excluding this special item the real diffe ence between the two years is only a small excess of 1 6 in 1888 89 which needs no special remark Th Budget and Revised Estimates were excessive in addition to which the Actuals include certain writes bac which were not known at the time The credit on the Nagpur Bengal Railway in 1887 88 was caused b the transfer of the expenditure incurred by the State on this line to the Bengal Nagpur Railway Con pany The provision of 200 0 in the Budget Estimate for the re purchase by the State from the Benga Nagpur Railway Company of the old metre gauge material of the Nagpur Chattisghur line, that becam useless on change of gauge, was found to be unnecessary Rolling stock only was taken over from th Company and for it a ready purchaser was found in the Southern Mahratta Railway Company The pe manent way and other metre gauge materials have not been valued yet

*Burma*—The outlay on the Burma line has followed the Revised Estimate closely, but has exceedc the Budget and Actuals of 1887 88 by 47 1 and 61 9 respectively The difference in both cases is due t additional works such as doubling the line between Rangoon and Insein and extending the Rangoo suburban lines As regards the Toungoo Mandalay extension the comparatively small expenditure i 1888 89 is attributable mostly to the works having been well advanced at the close of the previous year The line was completed and opened for traffic during 1888 89 The excess over the Budget Estimate caused by larger supplies of stores from England than anticipated, and over Revised by insufficient provisio for exchange and Secretary of State s general charges

*Bengal*—The Actuals of 1887 88 on the Eastern Bengal Railway contained considerable outlay o land and works required at Chitpur, and for doubling the line to that terminus and since the Budget w passed some new works not contemplated at the time were undertaken The lapse on the Revised Est mate is due to short outlay on the Budge Budge extension Bugoola Flood openings, Workshops an staff quarters and sundry other works The accounts for 1887 88 of the Tirhoot State Railway include heavy expenditure on fencing on the new temporary Mothurapur Ghat line and on staff quarters Somastipur and Mozufferpur and as regards the Budget additional staff quarters were built at Mozuffe pur and Somastipur, and permanent way gangmen s quarters along the line and additions made t the rolling stock which were not anticipated when that Estimate was framed The expenditure in 1887 8 on the Tirhoot Section of the Assam Behar Railway was diminished by large credits for issues of perm nent way material for Revenue purposes, and for sales of material and plant on the completion of th Gunduck Bridge In 1888 89 after the Budget was passed, additional expenditure became necessar for rolling stock and for ballast and permanent way As regards the Assam Behar Section the increas over the Actuals of the previous year is due to works having been pushed on vigorously on the Ko Extension and also to larger expenditure on rolling tock owing to vehicles received in transfer from th Eastern Bengal Railway The lapse on the Budget Estimate is due to the failure of some contractor who undertook to supply ballast, sleepers, and fencing posts for the Kosi Extension

*North Western Provinces and Oudh*—The expenditure on the Dildarnagar Ghazipur Railway re presents as in the Patna and Gya Railway, a transfer from the East Indian Railway of the amour expended by the Company on this line to the end of December 1888 and previously charged again the Capital Account of the East Indian Railway This refund was not foreseen when the Budge Estimate was prepared As regards the Cawnpur Achneyra Railway the variation in the actuals as com pared with the Estimates is due to the transfer of stores mentioned above The Oudh and Rohilkhar Railway was a guaranteed line in 1887 88 having been purchased by the State on the 31st Decembe 1888 When the Budget Estimate for 1888 89 was prepared, it was thought that any expenditure foun necessary during the last quarter of that year could be met by a reduction in Suspense balances, an

## Section N —EXPENDITURE NOT CHARGED TO REVENUE—*continued*

hence no grant was provided It became necessary, however, to allot 59,4 in the Revised Estimate chiefly to cover the cost of the Benares Branch which it was decided to take over from the East Indian Railway The Actuals show a *net credit* of 36 1 due chiefly to a credit of 84,1 not provided for in the Revised Estimate representing the undrawn balance of the Company s capital on 31st December 1888 in addition to which the expenditure generally was less than expected

*Punjab*—The large expenditure in 1887 88 on the North Western Railway included heavy outlay on gradient improvements on the Ferozepore and Sukkur Bridges, on rolling stock and on permanent way material for renewals of the line, but which was not so used till the following year It also included the value of the reserve stores at Karachi and of certain other stores which were imported for the Sind Pishin Railway The lapse on the Budget is due to the stoppage of the gradient improvements and to the transfer of certain works at Quetta to the Sind Pishin Railway and on the Revised to short supplies of stores from England and to larger issues of stores to works and sales than expected The Actuals in 1887 88 of the Amritsar Pathankot Railway consisted chiefly of credits taken for stores supplied to the North Western Railway, whereas during the year under review some capital outlay was incurred The transactions of the Rewari Ferozepore Railway for 1887 88 included various writes back on account of dismantling of sidings and diversions, &c The Estimates were not reached as delay occurred in carrying out certain works, and an unexpected credit was received for fencing material transferred to the Rajputana Malwa Railway The excess over 1887 88 on the Sind Pishin State Railway represents a large quantity of work done in 1888 89 The Budget was too high and the Revised too low Work on the Chaman Extension was only begun in November 1887, and was vigorously carried on throughout 1888 89 The provision in both the Budget and Revised Estimates proved too sanguine as work could not be carried on to the full extent expected The expenditure on petroleum operations in Biluchistan in 1887 88 was recorded in the accounts of the Buildings and Roads Branch It was only in October 1888 that the question of utilising the petroleum oil from the wells at Khattan on the Chaman Extension was taken up, and it was decided to debit all expenditure incurred on pumping, loading and storing oil at Khattan to ' 48—*State Railways—Construction* The excess on the Revised Estimate is due to the adjustment of the Kowraduff oil pipe line got out from England the first intimation of which was only received on the 18th March 1889 The small expenditure on the Sind Sagar State Railway Western Section, during 1888 89 is owing to construction work on this line having been practically completed in 1887 88 The Budget for rolling stock was too high, and unexpected credits were obtained at the close of the year from the sale and transfer of stores and land surrendered Construction work on the Bolan Railway high level line was commenced late in 1887 88 and the outlay in that year included the cost of Abt materials and locomotives In 1888 89 the outlay represented the actual execution of work which was practically completed before the close of the year The Budget provided for a credit on account of the value of permanent way material taken out of the metre gauge line, but it was disallowed The credits under Kandahar Reserve represent value of material drawn by the Chaman Extension the Sind Pishin and North Western Railways and were less than the Revised Estimate as the issue fell short of anticipations No comparison can be made between the Actuals of 1888 89 on the Chenab Bridge and those of the previous year as operations did not commence till November 1887 and were then confined chiefly to collection of material The excess on the Budget Estimate is due to progress of work being greater than anticipated The lapse on the Revised Estimate is principally in supplies of English stores and Exchange The construction of the Jummu Kashmir State Railway was only sanctioned in February 1888 The lapse on the Budget Estimate is due to work not having progressed as anticipated

*Madras*—The Nellore Branch of the Villupuram Guntakal Railway was practically completed at the close of 1887 88, which accounts for the small expenditure in 1888 89 The excess on the Budget Estimate is due to additional outlay subsequently sanctioned and to the Suspense balances not having been reduced to the extent anticipated The lapse on the Revised Estimate is due to credits anticipated under Ballast and Permanent way, not having been realized and to less expenditure on rolling stock owing to a dispute between the Contractor and Railway authorities which prevented the final settlement of bills for work done before the close of the year The Bellary Kistna Railway now forms an integral portion of the Southern Mahratta Railway which took it over from the 1st January 1888 In accordance however, with the terms of transfer concluded with the Company certain items of expenditure have to be finally adjusted by the State, and these constitute the payments of 1888 89 as entered above The construction of the Villupuram Guntakal Railway was sanctioned during the year 1888 89, and the Budget was for survey expenditure only Contrasted with the Revised Estimate the Actuals were short owing to difficulty in procuring skilled labour to delay on the part of contractors, and to land being acquired more cheaply than was anticipated The Bezvada Extension was well advanced in 1887 88 and the expenditure in 1888 89 was therefore on a reduced scale The saving compared with the Budget was in the stores received from England The Revised Estimate was too high, but there are also some claims for land which could not be adjusted within the year

*Bombay*—The large outlay during 1888-89 on the Dhond and Manmad Railway as compared with 1887 88, is for waterways and diversions and for fencing. The Budget Estimate was too high

## Section P —UNFUNDED DEBT

| | Budget | 1888 89 Revised | Accounts |
|---|---|---|---|
| Special Loans | — 2 | + 17 3 | — 2 |
| Treasury Notes and Service Funds India | + 52 5 | + 45 1 | + 48 0 |
| Savings Bank Deposits | +793 0 | + 981 3 | +942 6 |
| TOTAL | +845 3 | +1 043 7 | +990 4 |

248 The —2 under *Special Loans* represents payment of capitalized values of small pensions under some of the King of Oudh s Loans The revised included +17,5 as an expected advance from the Kashmir Durbar for expenditure on the British Section of the Sialkot Jummoo Railway but the arrangement under which it was to be received was subsequently cancelled As regards *Service Funds* the Budget for the Bengal Uncovenanted Service Family Pension Fund was too high and the Revised too low

249 Details of *Savings Bank Deposits* are given below The *Presidency and Post Office Savings Banks* showed considerable increase in the first nine months of 1888 89, and the Revised was based chiefly on this experience, but the withdrawals in the last three months were unusually great The deposits of *State Railway Provident Institutions* were considerably enlarged by the transfer to this head of 40,7 being the balances of the Oudh and Rohilkhund Railway Guaranteed and Fine Funds on the purchase of the line by Government The *minus* figure against *Regimental Savings Banks* is caused by Regiments returning to England and requiring their balances to be transferred to the War Office The head *Special Accounts* includes the Bengal Christian and Hindu Family Annuity Funds and other deposits of a similar nature The large fluctuations between actuals revised, and budget are due mainly to the unexpected investment of 8,8 on account of certain Local Pension Funds in Bombay

250 In the foregoing statement the third column of figures under each of the headings Budget, vised and Accounts shows net transactions The gross receipts and payments are entered in the first d second columns, except for the head *Provincial Balances* as they are already given in Section M of s report The gross receipts and payments relating to Exchange on Remittance Accounts are entered foot of this paragraph The first head *Provincial Balances* has already been explained in para 240 e difference in the net result under *Excluded Local Funds* is mainly in the transactions of Canton nt Funds the receipts of which were larger in the North Western Provinces than expected, while the Punjab, the Expenditure Budget was too high In Madras, provision was made for certain pay nts which were not required The head *Political and Railway Funds* includes the Bahu Begum's pend Fund and the various funds belonging to the Guaranteed Railway Companies The large net ılt as compared with the Budget is due partly to the removal from this head of the amounts belonging the Oudh and Rohilkhund Railway when the line was purchased by Government and partly to a cial payment of 37,3 on account of the Fire Insurance Fund of the Bombay, Baroda and Central India ilway As regards *Departmental and Judicial Deposits* it has been explained before that the character d magnitude of the transactions do not admit of an accurate forecast and this year they were enlarged 172 4 received from the Patiala and Kashmir States for the construction of the Patiala Bhatinda and mmoo Kashmir Railways These sums are held as deposits and are paid away as required The com rison with budget is also affected by an error in the India Budget which provided for an appropriation of 6 from the unexpended balance of the late Military Orphan Fund but the amount remaining was 2 3 ly and this sum has been charged in the accounts The head *Advances* shews a larger net credit than as expected owing principally to prompt coinage of silver in Bombay thereby reducing the balance of Bullion Account as compared with the outstanding balance of Mint certificates and to the removal of ad nces to cultivators and other similar items to a separate head under the Provincial Loan Scheme as ex ained in para 252 The head *Suspense* embraces preaudit and other cheques and bills of the Civil epartments as well the cash balance held by Departmental officers and other items of a similar character e difference between budget and actuals is distributed over several departments Details are given below the head *Exchange on Remittance Account* and they shew that the Subsidized Railway Companies ew more heavily than was anticipated and that the exchange connected with the Mysore Railway as entered under this head in the estimate, but in the actuals it has been taken to revenue as explained para 106

251 The large payments under *Miscellaneous* include sums which were credited to this head in the evious year, together with a special loan of 150,0 which was recovered in the year 1889 90

## ections R and RR —LOANS TO MUNICIPALITIES, NATIVE STATES, &c

| | | Budget | Accounts |
|---|---|---|---|
| INDIA | Loans to Native States &c (Imperial) | 91 1—630 0 | 93,0—665 4 |
| | Loans and Advances (Provincial) | 92 1 — 40,0 | 203,4 —198,0 |

252 During the year 1888 89 the Government of India introduced a scheme under which al loans may be made under certain conditions from resources at the disposal of Provincial overnments Particulars of this scheme are given in the orders of the Government of dia in the Financial Department No 13 dated 1st January 1889 in accordance with ich, a separate account has been opened with each Government commencing with the tual outstanding balance of advances and loans in each province on 31st March 1888 Such ther sums are placed at the disposal of the Provincial Governments as have been sanc ned by the Government of India after a consideration of its available resources during the ar and of the demands presented For the sums so assigned by the Government of India, Provincial Governments pay interest at 4 per cent on the mean between the outstanding lance at the commencement and the outstanding balance at the close of the year On other hand the Provincial Governments receive credit for the full amount of interest re sed on these loans and advances and are debited with any sums which it may be necessary write off as irrecoverable In consequence of these arrangements this section of the count is now divided into two parts, relating respectively to the Imperial and Provincial overnments is entered above and in the Provincial portion are entered advances to culti ors and advances under Special Laws hitherto classified in Section Q—Deposits and vances '

253 Particular are given below of the *Loans to Native States &c* (*Imperial*) The 27 8 apper ing to Native States comprises 19 2 received from the Mysore Durbar 7 4 from the Jaora State and from Pansw ra and I rom these were not expected to pay up so largely As regards the Presidency rporations and Port Trusts the Calcutta and Bombay Port Trusts took 67 6 and 5 2 more and the adras Harbour works 35 6 less than was anticipated The entries shewn against the head *District and er Local Committees* represent advances and repayments connected with the Mhow Water works for ich no provision was made in the Budget The difference between Budget and actuals under the head *ndholders a d other Notabilities* is due to various minor transactions not fully anticipated

| 1888 89 Budget Amount advanced | Amount repaid | | 1888 89 Accounts Amount advanced | Amount repaid |
|---|---|---|---|---|
| | 1 9 | Loans to Native States | | 27 8 |
| | 1 8 | Advances for Ceylon Cable | | 1 8 |

| B Central | —10 0 | —11 4 | —10 7 | —2 0 | —1 4 | —1 3 | —12 0 | —12 8 | —12 [illegible] |
| B Nagpur | —1 234 4 | —1 585 9 | —1 533 1 | +161 7 | —377 7 | —329 1 | —1 072 7 | —1 963 6 | —1 862 2 |
| | —3 289 4 | —3 747 3 | —3 658 [illegible] | +904 8 | +1 008 9 | +245 6 | —2 384 6 | —2 738 4 | —3 412 4 |
| Total | —2 895 9 | —3 345 8 | —3 307 1 | —247 5 | —4 9 | —7 4 4 | —3 143 4 | —3 350 7 | —4,03 5 |

255 As explained in former reports these are all net sum The Indian figures represent the difference between the advances taken by the Railway Companies and the credits given to them chiefly on account of stores used The English figures represent the capital deposited by the Companies with the Secretary of State less payments made therefrom for stores establishment charges &c These figures are necessarily exposed to great fluctuations The advances to the Guaranteed Companies in India during 1888 89 include a sum of 84 1 standing at credit of the Oude and Rohilkund Railway when the line was purchased by Government This amount was transferred to credit of the head 48 — State Railways under Section N by debit to Capital Advance Account Excluding this item, the payment closely agree with the Budget the actual difference being 12 0 only The receipts from these Companies exceeded the Budget by 29 5 which represents an excess of 69 4 in respect of three Companies, counter balanced by short credits aggregating 39 9 on account of the other two As regards withdrawals by Subsidized Companies, the total increase as compared with the Budget amounted to 368 6 being the result of increased drawings amounting to 298,7, 218 9 and 7 respectively by the Bengal Nagpur Indian Mid land and Bengal Central Companies and reduced drawings of 149 7 by the Southern Mahratta Company

256 In England the Bengal Nagpur and Southern Mahratta Companies deposited respectively 521 0 and 500 0 less, and the Indian Midland Railway Company 72 9 more than was estimated, while no pro vision was made in the Budget for transfer fees and miscellaneous refunds amounting to 13,9 The payments to the Companies on account of stores, establishment charges &c were also below the Budget by 457 4 the Indian Midland, Great Indian Peninsula and the Madras Railway Companies respectively having drawn 223,4 136 0 and 60 6 less than was provided for them

R

## Section T—REMITTANCES.

| | 1888-89 | | |
|---|---|---|---|
| | Budget | Revised | Accounts |
| Money order (net) | | | +23 2 |
| Other Local Remittances (net) | | | −40 8 |
| Other Departmental Accounts (net) | +1 2 | −3 | −4 2 |
| Accounts between Civil and other Departments (net)— | | | |
| Post Office | | | +7 3 |
| Telegraph | | | −4 |
| Marine | | | +5 1 |
| Military | | | +5 3 |
| Public Works | | +323 0 | −11 3 |
| Remittance Account between England and India (net) | −70 5 | −8 2 | −23 7 |
| TOTAL | −69 3 | +314 5 | −39 5 |

257 The 23,2 against the first item represents money orders issued but not paid on 31st March 1889 The following figures shew that there is a progressive increase in the demands for this method of remittance The other figures entered in this group are the net result of very large transactions, and there is nothing special to record in respect of them

| | | Issued | Paid |
|---|---|---|---|
| 1885 86 | Money order transactions | 9 312 4 | 9 298 4 |
| 1886 87 | | 10 538 9 | 10 519,1 |
| 1887 88 | | 11 665 7 | 11 660 7 |
| 1888 89 | | 12 781 4 | 12 758,2 |

## Section U—SECRETARY OF STATE'S BILLS

| | Budget | 1888 89. Revised | Accounts |
|---|---|---|---|
| Drawings | 14 000 0 | 14 310 1 | 14 262 9 |
| Payments | 14 548 5 | 15 119 9 | 15 031,0 |

258 The following are the amounts of bills and transfers drawn during the year by the Secretary State —

| | | £ | Rx | Rate in Pence |
|---|---|---|---|---|
| On account of allotments in April | 1888 | 1 471 6 | 2 157 6 | 16 36 |
| May | , | 1 092 2 | 1 621 9 | 16 16 |
| , June | | 989 5 | 1 476 3 | 16 08 |
| July | | 1 050 3 | 1 564 0 | 16 11 |
| August | | 799 9 | 1 193 1 | 16 09 |
| September | | 921 2 | 1 347 9 | 16 40 |
| October | | 930 8 | 1 354 6 | 16 49 |
| November | | 1 171 8 | 1 703 3 | 16 51 |
| December | | 980 6 | 1 439 7 | 16 34 |
| January | 1889 | 1 954 0 | 2 835 9 | 16 53 |
| February | | 1 557 6 | 2 249 5 | 16 61 |
| March | | 1 343 4 | 1 955 3 | 16 48 |
| | | 14 262 9 | 20 899 1 | 16 38 |

259 The sales in 1888 89 were in excess of the Budget Estimate owing to a large demand for te graphic transfers in March 1889, and produced a corresponding reduction in the requirements of t following year The payment account of the year may be stated as follows —

| | £ | Rx |
|---|---|---|
| Bills of 1887 88 outstanding on 1st April 1888 | 947 3 | 1 374 7 |
| Bills drawn in 1888 89 as entered above | 14 262 9 | 20 899 1 |
| Total bills for payment | 15 210 2 | 22 273 8 |
| Bills paid in 1888 89 | 15 031 0 | 22 011 4 |
| Bills outstanding on 1st April 1889 | 179 2 | 262 4 |

## Section V —CASH BALANCE

| | 1888-89. | | |
|---|---|---|---|
| | Budget | Revised | Accounts. |
| Balance on 1st April 1888 | 19 347 4 | 19 784 4 | 19,784 4 |
| Balance on 31st March 1889 | 13 859 8 | 16 749 8 | 16 565,1 |
| Increase (+) or decrease (—) of Balance on 31st March 1889 | —5 487 6 | —3 034 6 | —3 219 3 |

260 The above difference is distributed between India and England in the following proportions —

| | 1888-89 | | |
|---|---|---|---|
| | Budget | Revised | Accounts |
| India | —2 151 7 | —983 7 | —578 5 |
| England | —3 335 9 | —2 050 9 | —2 640 8 |
| TOTAL | —5 487 6 | —3 034 6 | —3 219 3 |

Docket from the Director General of Railways No 10 (Statistical), dated the 25th January 1890 forwarding the Abstract Returns of Accidents to Trains, &c, on the open lines of Railway in India for the quarter ended 30th June 1889

OBSERVATIONS —As compared with the average of the five* corresponding previous quarters, the number of accidents to trains, rolling stock, permanent way &c, shows an increase of 99, or 9 84 per cent, with an increase of 2 384 75 miles, or 18 68 per cent in the mean mileage open and of 1,105 661 miles, or 8 50 per cent in the train mileage The following are the Railways on which the more important fluctuations occurred —

| Railway | Number of accidents | Accidents: Increase | Accidents: Decrease | Accidents: Percentage of increase | Accidents: Percentage of decrease | Train mileage: Percentage of increase | Train mileage: Percentage of decrease |
|---|---|---|---|---|---|---|---|
| Rajputana Malwa | 185 | 32 | | 20 92 | | 24 96 | |
| Bengal Nágpur | 39 | 16 | | 69 57 | | | 10 22 |
| Southern Mahratta | 112 | 63 | | 128 57 | | 53 48 | |
| Indian Midland | 55 | (a)49 | | 816 67 | | 462 60 | |
| North Western | 107 | | 59 | | 35 54 | 19 84 | |
| Oudh and Rohilkhand | 37 | | 11 | | 22 92 | 13 8[illegible] | |
| Eastern Bengal | 118 | 11 | | 10·28 | | 23 26 | |
| Jorhát | 6 | | (b)19 | | 76 00 | 12 96 | |
| Great Indian Peninsula | 63 | | 15 | | 19 23 | | 14 08 |
| Dibru Sadiya | 33 | (c)14 | | 73 68 | | 22 53 | |
| His Highness the Nizam s | 34 | 22 | | 183 33 | | 56 18 | |

2 The increase in the number of accidents on the Rajputana Malwa Railway is chiefly due to the number of "Failures of axles," having been 34 against 6

3 The increases on the Bengal Nágpur Railway and His Highness the Nizam's Railway, and the decrease on the Oudh and Rohilkhand Railway, have mainly occurred under "Trains running over cattle on the line," the number returned being on the first mentioned line 24 against 9, on the second 24 against 5, and on the third 28 against 37

4 On the Southern Mahratta Railway the number of accidents has increased by 128 57 per cent, with an increase of 108 84 per cent in the mean mileage worked, and 53 48 per cent in the train mileage Of the increase of 63 accidents, 49 are under "Trains running over cattle on the line"

* Except where statistics for five quarters are not available for any line
(a) As compared with the corresponding quarter of the previous year
(b) As compared with the average of 4 corresponding previous periods
(c) As compared with the average of 3 corresponding previous periods

5 With an increase from 136 25 to 611 miles, or 348 44 per cent in the mean length worked, and from 52,213 to 293 748 miles, or 462 60 per cent in the train-mileage the number of accidents on the Indian Midland Railway has risen from 6 to 55, or 816 67 per cent The principal increases are 6 under "Goods trains, or parts of goods trains, engines, &c, leaving the rails," 26 under "Trains running over cattle on the line" and 8 under "Other accidents"

6 Of the decrease of 59 accidents on the North Western Railway, 22 appear under "Trains running over cattle on the line," 8 under "Failure of couplings,' 1 under "Fire in trains' and 6 under "Other accidents" The number of cases of floodin of portions of permanent way has increased from 1 to 8

7 The principal variations on the Eastern Bengal Railway are increases of 6 accidents under "Goods trains, or parts of goods trains engines, &c, leaving the rails,' and 5 under "Broken rails," and a decrease of 5 under "Failure of machinery, springs &c, of engines"

8 The decrease on the Jorhát Railway is principally due to the absence of any accident from "Failure of machinery, springs, &c, of engines" and "Failure of wheels," whereas the average of the four corresponding previous quarters was 7 under the former and 9 under the latter head

9 On the Great Indian Peninsula Railway there is a decrease of 9 accidents under "Trains running over cattle on the line' and 14 under "Fire in trains"

10 With the exception of an increase of 7 accidents under "Failure of couplings" on the Dibru Sadiya Railway, no other heads show any noticeable fluctuation

11 The casualties resulting from accidents to trains &c, were, among passengers and others 11 killed and 89 injured against 1 killed and 11 injured, and among servants, 2 killed and 9 injured against 3 killed and 13 injured

12 Of the casualties to passengers, 7 were killed and 80 injured by an accident to an Up mixed train on the Northern Section of the Eastern Bengal State Railway on the 15th April 1889 This train while crossing a bridge at mile 33 telegraph post 22, just after leaving Madhnagar Station, was blown over by a tornado, 10 passenger vehicles and 19 goods vehicles being thrown down into the bed of the river, or down the abutment A detailed report of this accident is appended

13 On the Great Indian Peninsula Railway a serious collision took place between an Up goods train and an engine which was shunting at Lonávla A man who was travelling in a covered goods wagon in charge of sheep was killed, three other men, who were also in charge of the sheep, were more or less injured An extract from the report on this accident is also appended

14 The following table exhibits the number of accidents under the different classes due to accidents to trains rolling stock, permanent way &c, and the number of persons killed and injured thereby *vide* Tables Nos 3 and 4 —

| Serial No | Causes of Accidents | Average of corresponding quarters of five previous years* | Second Quarter 1889 | | | | | TOTAL ALL CLASSES | |
|---|---|---|---|---|---|---|---|---|---|
| | | | Number | Number of passengers and others | | Number of servants | | | |
| | | | | Killed | Injured | Killed | Injured | Killed | Injured |
| 1 | Collisions between passenger trains or parts of passenger trains | 1 | 1 | | | | | | |
| 2 | Collisions between passenger trains and goods, or mineral trains engines and vehicles standing foul of the line | 14 | 13 | | 2 | | 3 | | 5 |
| 3 | Collisions between goods trains or parts of goods trains | 22 | 23 | 2 | 4 | | 1 | 2 | 5 |
| | Carried over | 37 | 37 | 2 | 6 | | 4 | 2 | 10 |

* Except where statistics for five quarters are not available for any line

| Serial No | Causes of Accidents | Average of corresponding quarters of five previous years* | Second Quarter 1889 | | | | | Total all classes | |
|---|---|---|---|---|---|---|---|---|---|
| | | | Number | Number of passengers and others | | Number of servants | | | |
| | | | | Killed | Injured | Killed | Injured | Killed | Injured |
| | Brought forward | 37 | 37 | 2 | 6 | | 4 | 2 | 10 |

| 16 | " axles | 12 | 39 | | | | 1 | | 1 |
| 17 | " brake apparatus | | | | | | | | |
| 18 | couplings | 35 | 35 | | | | | | |
| 19 | tunnels bridges, viaducts culverts &c | | 1 | | | | | | |
| 20 | Broken rails | 4 | 11 | | | | | | |
| 21 | The flooding of portions of permanent way | 9 | 18 | | | | | | |
| 22 | Slips in cuttings or embankments | 6 | 1 | | | | | | |
| 23 | Fire in trains | 90 | 46 | | | | | | |
| 24 | Fire at stations, or involving injury to bridges or viaducts | 14 | 15 | | | 1 | | 1 | |
| 25 | Other accidents | 70 | 78 | 1 | 1 | | 2 | 1 | 3 |
| | Total—1889 | | 1 105 | 11 | 89 | 2 | 9 | 13 | 98 |
| | Total—Average of corresponding quarters of five previous years* | | 1 006 | 1 | 11 | 3 | 13 | 4 | 24 |

15 The principal variations occurred under 'Goods trains, or parts of goods trains, engines, &c, leaving the rails," 96 against 80, "Trains running over cattle on the line," 561 against 484, 'Failure of axles," 39 against 12, Flooding of portions of permanent way" 18 against 9, and "Fire in trains," 46 against 90

16 The largest increase under "Goods trains, or parts of goods trains, engines, &c, leaving the rails," appears on the Indian Midland and Eastern Bengal Railways, *viz*, 6 on each

17 The cattle accidents were very numerous on the Rajputana Malwa, Southern Mahratta, and Eastern Bengal Railways, being 94 83 and 70, respectively Next to these stand the East Indian and South Indian Railways, which have returned 32 accidents each On the Rajputana Malwa and Southern Mahratta Railways most of the accidents are reported to have occurred on the unfenced portions of the line

18 Of the 39 cases of "Failure of axles," 34 are recorded on the Rajputana-Malwa Railway alone

19 Of the 18 cases of flooding of portions of permanent way, 8 were on the North Western Railway and 4 on the Great Indian Peninsula Railway

20 The decrease of 44 accidents under 'Fire in trains" is mainly due to the number of cases having fallen from 33 to 18 on the North Western Railway from 15 to 6 on the Madras Railway, and from 20 to 6 on the Great Indian Peninsula Railway

* Except where statistics for five quarters are not available for any line

21 On the North Western Railway, there were 10 cases of "The bursting of tubes, &c, of engines" out of a total of 24, and 17 cases of "Failure of machinery, springs, &c, of engines" out of a total of 60, and on the Dibru Sadiya Railway, 13 cases of "Failure of couplings" out of a total of 35

22 The casualties to passengers from causes other than accidents to trains, &c, *vide* Table No 2, were—

| Causes of accidents. | Second quarter 1889 | | Average of corresponding quarters of five previous years * | |
|---|---|---|---|---|
| | Killed | Injured | Killed | Injured |
| 1 From falling between carriages and platforms | | 3 | 2 | 1 |
| 2 Falling on to the platform, ballast, &c, when getting into or out of trains | 1 | 5 | 1 | 2 |
| 3 Whilst crossing the line at stations | 2 | | | |
| 4 By closing of carriage doors | | 1 | | 1 |
| 5 Falling out of carriages during the travelling of trains | 5 | 30 | 3 | 18 |
| 6 Other accidents | 1 | 7 | 1 | 6 |
| TOTAL | 9 | 46 | 7 | 28 |

23 The accidents to servants in the employ of Railways, or of contractors, whilst performing duties connected directly with the transit of passengers and goods, from causes other than accidents to trains, &c, were as follows *vide* Table No 2 —

| Causes of accidents | Second quarter 1889 | | Average of corresponding quarters of five previous years * | |
|---|---|---|---|---|
| | Killed | Injured | Killed | Injured |
| 1 During shunting operations | 4 | 14 | 5 | 12 |
| 2 Falling off engines vans wagons &c | 3 | 13 | 3 | 14 |
| 3 Coming in contact with over bridges, &c, during the travelling of trains | 1 | | | 1 |
| 4 Coming in contact, while shunting, with vehicles &c, standing in adjoining lines | | | | |
| 5 Getting on or off trains, engines, &c | 5 | 14 | 3 | 13 |
| 6 Whilst loading unloading or sheeting | | 15 | 3 | 16 |
| 7 Whilst breaking spragging or choking wheels | | 1 | | 2 |
| 8 Whilst working at cranes or capstans | | 3 | | 2 |
| 9 Whilst working on the permanent way or in sidings | 2 | 11 | 1 | 5 |
| 10 Whilst walking along the line on the way home, or to work | 4 | 6 | 1 | 1 |
| 11 Whilst walking, crossing or standing on the line | 9 | 5 | 10 | 7 |
| 12 Whilst passing between vehicles | 1 | 4 | 1 | 2 |
| 13 Whilst attending to the machinery of engines, cleaning them &c | 1 | 2 | | 4 |
| 14 Whilst attending to gates at level crossings | 2 | 1 | 2 | 1 |
| 15 Falling or being caught between vehicles and platforms | 2 | 2 | 1 | 2 |
| 16 Falling off ladders scaffolds platforms &c | | 5 | | 4 |
| 17 By falling of lamps, wagon doors timber weights, &c | | 6 | | 5 |
| 18 Whilst coupling or uncoupling wagons | 2 | 8 | 2 | 8 |
| 19 Miscellaneous | 6 | 53 | 5 | 33 |
| TOTAL | 42 | 163 | 37 | 132 |

24 Of other persons killed and injured by running trains, &c, 5 were killed and 2 injured whilst passing over the line at level-crossings, 50 were killed and 19 injured whilst trespassing on the line, 27 committed suicide, and 3 were injured in attempting to commit suicide, and 6 were killed and 5 injured from miscellaneous causes

* Except where statistics for five quarters are not available for any line.

25 The following table exhibits the total number of persons killed and injur from all causes over the whole Indian Railway system as compared with the avera of the corresponding quarters of five previous years, *vide* Table No 1 —

| Causes of accidents | Second quarter 1889 | | Average of corresponding quarters of five previous years * | |
|---|---|---|---|---|
| | Killed | Injured | Killed | Injured |
| *Passengers* | | | | |
| From causes beyond their own control | 9 | 90 | 1 | 10 |
| From misconduct or want of caution | 9 | 44 | 7 | 26 |
| *Servants* | | | | |
| From causes beyond their own control | 6 | 22 | 5 | 22 |
| From misconduct or want of caution | 38 | 150 | 36 | 124 |
| *Others* | | | | |
| Whilst passing at level crossings | 5 | 2 | 1 | 2 |
| Trespassers including suicides | 77 | 22 | 53 | 12 |
| Other persons | 6 | 5 | 3 | 5 |
| TOTAL | 150 | 335 | 106 | 201 |
| Total open mileage | 15 151¼ | | 12 766½ | |
| Total train mileage | 14 115,595 | | 13 009 934 | |

* Except where statistics for five quarters are not available for any line

26 In addition to the above, 16 persons are reported to have been killed and 4 injured in yards, workshops, &c, and 184 persons to have died in carriages and stations from causes unconnected with the working of trains

27 A tabulated statement has been added to the returns, comparing the acciden on Indian Railways with those on English Railways for the year 1888 The number accidents per 1 000 000 train miles on the Indian Railways was 64 90 against 5 64 c the English Railways, and the number of passengers killed and injured per million passengers 0 03 and 0 27 against 0 01 and 0 80, respectively

RESOLUTION —The decrease in the number of "Fires in Trains" is satisfactor the number having fallen from a quarterly average of 90 to 46 during the quarter unde review This was chiefly due to decreases in this class of accident on the Nort Western Railway, the Madras Railway, and the Great Indian Peninsula Railway

2 On the Rajputana Malwa Railway the large number of "Failures of Axles is again noticed, being 34 out of a total, on all Indian Railways, of 39 "Failures c Axles" during the quarter

The Governments of Madras Bombay Bengal the North Western Provinces and Oudh and the Punjab
The Chief Commissioners of the Central Provinces Burma and Assam
The Resident at Hyderabad
The Agents to the Governor General for Central India Rajputana and Baluchistan
The Director General of Railways.
The Consulting Engineers to the Government of India for Railways Calcutta Lucknow and Central Division

ORDER —Ordered, that this Resolution b communicated, for information to the Loc Governments, Administrations, and Officer noted in the margin

Ordered also, that copies be forwarded fc the information of Her Majesty s Goverr ment

Ordered further, that this Resolution, with the Abstract Returns, be published in th Supplement to the *Gazette of India*

M C BRACKENBURY, *Major*, *R E*
*Under Secretary*

Document accompanying
Abstract Returns of Accidents
for the second quarter of 1889

# TABLE No 1

## GENERAL TOTAL

...ber of Persons reported during the Second Quarter of 1889 as Killed or Injured on the several Railways open for Traffic in India distinguishing between Passengers Railway Servants, and Other Persons; and distinguishing also in the case of the two former classes between Accidents happening from Causes beyond their own Control and Accidents happening otherwise

| Mean mileage open | Railways | | Passengers | | | | | | Railway Servants or Servants of Contractors | | | | | | Other Persons | | | | | | | | Total of all Classes | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | From causes beyond their own control | | From their own misconduct or want of caution | | Total | | From causes beyond their own control | | From their own misconduct or want of caution | | Total | | Whilst passing over Railway at Level-Crossings | | Trespassers and Suicides | | Miscellaneous (not included in preceding columns) | | Total | | | |
| | | | Killed | Injured | Killed | Injured | Killed | Injured | Killed | Injured | Killed | Injured | Killed | Injured | Killed | Injured | Killed | Injured | Killed | Injured | Killed | Injured | Killed | Injured |
| | **STATE IMPERIAL** | | | | | | | | | | | | | | | | | | | | | | | |
| (a)1,691¼ | East Indian | Average for 5 corresponding previous quarter | | 3 | 3 | 7 | 3 | 10 | 2 | 7 | 7 | 26 | 9 | 3 | 1 | 1 | 17 | | 1 | | 19 | 3 | 3 | 46 |

**Report on the accident, which occurred on the 15th April 1889, to No. Up mixed train on the Northern Section of the Eastern Bengal Sta Railway, near Madhnagar Station, by Mr G E Moore, Deputy Cc sulting Engineer to the Government of India for Railways, Calcutta.**

*Description*

1 In this case the train, consisting of an engine and tender, 1 low sided wagc 18 covered goods wagons, 11 coaching vehicles, and a brake van, 31 vehicles in left Madhnagar (mile 32) at 16 49, right time While passing over a bridge at mile telegraph post 22, consisting of 9 spans of 6 metre girders of standard type, it v blown off the line, with the exception of the engine and tender, which were abou wagons' length clear of the north end of the bridge, and the brake and one third-cl carriage just clear of the south end of the bridge The front wheels of this carria were derailed

2 Out of 140 passengers, 89 were emigration coolies, and the rest third class pa sengers There were no first or second class passengers Seven were killed or d from injuries received, and 80 were more or less hurt, 15 of them seriously

The damage to rolling-stock is estimated at R20,000

Neither the permanent way nor bridge structure were damaged

3 The accident occurred just one mile north of Madhnagar Station, where the l crosses, nearly at right angles, a long, low rice growing jheel, bordered on either s by thick bamboo jungle The line crosses the jheel on a bank 15 feet high, with bridge 9 spans of 6 metres near the north end The height of the bridge from rail le to ground is 20 feet, including about 3 feet of mud and water

The jheel is now quite dry with the exception of a pool under the bridge, but the rains the water stands over it from 5 to 10 feet deep

The line here runs almost due north, and is both straight and level

The road way across the bridge consists of sawn teak sleepers, 6 ×9"×6", spac 1'6" centre to centre, each sleeper being fixed to the girders by 4 hook bolts T rails were new, 50lb steel rails, only 6 months in the road, joined by clip pattern fi plates, with 4 bolts to each joint, spiked down with 4 spikes in each sleeper

When I examined the road it was in good order, and the gauge, though sligh tight, was very even throughout I was informed that the only work done to the p manent way on the bridge since the accident, was to straighten three or four sleep which had been displaced

The masonry of the bridge, with the exception of the ends of the cut waters the east side, and the coping of the east wings, where a few bricks had been displace was undisturbed

I also examined the permanent way for some distance on either side of the brid without finding any defect

The girders were undamaged and had not moved on their bed plates

Wheel marks were found on the sleepers between the rails and outside the ra on east side only, on the first two spans from the south end, and last span on the no end

The middle of the bridge was devoid of wheel marks, except on the extreme ea end of the sleepers Most of the east ends of the bridge sleepers were crushed a struck by the carriages in their descent

*Evidence*

*P P Rogers, Executive Engineer*—After receiving telegram about the accident, I left Sára on the special relief train starting from Sára at 19-55 The train arrived at Madhnagar at 22 o'clock, and left for scene of accident at 22 10 On arrival at scene of accident mile 33 telegraph mile 22, after putting 3rd class carriage No 73 on the road, and hand shunting it, and the rear brake van of the train a short distance from t bridge I examined the permanent way south the bridge, on the bridge and north of the brid up to where engine was standing, south of t bridge the sleepers were practically undisturb only the two front wheels of 3rd class carria No 73 being derailed A few sleepers on t bridge had been displaced by the wheels of t

vehicles having struck them, and some hook bolts had been broken. There were no marks on the sleepers to show that both wheels had been on the sleepers except in one place be tween the 7th and 8th piers In most cases the sleepers had been hit in the outside of east rail, showing clearly that the vehicles were lifted up and blown clear off the rails, in a few instances hitting the sleepers outside the rail on their way down to the bed of the river The noses of the brick piers on the east side were also cut away for a short distance No damage was done to the girders, which were carefully examined nor had any shifted on their bed plates Altogether about one dozen sleepers required to be straight ened on the bridge after the accident The road over the bridge was gauged and found to be tight to gauge in places to the extent of from $\frac{1}{16}$ to $\frac{1}{8}$ of an inch North of the bridge there were four wagons derailed within a distance of 50 feet of the bridge two of them lying right across the road from a point 50 feet from the face of north abutment up to where the engine was standing, *i e*, for a distance of 150 feet, the wagons had been thrown down the bank but the road was untouched and except on two or three sleepers close to engine where the first wagon was derailed, there were no marks of the wheels having been on the road at all In no place, either on the bridge or in the road each side of t, were any marks found in the rails Under the wagons derailed north of the bridge the sleepers had been disturbed by reason of the derailment There can be no doubt that the train was lifted off the road by the wind be cause of the absence of any mark in the bridge sleepers showing that any one pair of wheels had been on them, which would have been the case had any wagon been derailed On only a few sleepers between 7th and 8th piers were there any marks of a wheel on the west side of the bridge and generally from the ab sence of marks of wheels on sleepers and on road north of the bridge, it may fairly be infer red that the vehicles and wagons were lifted off the line bodily and thrown down

*S W Bowen, Permanent way Inspector*—I have been a Permanent way Inspector about 13 years, but have only been on this line about a week Inspected the bridge, measured the girders on Friday 12th and it was then in good order On the night of the accident I saw the ends in the east side of about 30 sleepers damaged by the vehicles falling over, and some of them knocked out of position slightly and all the cut walls on the east side and wing walls of north abutment damaged the road to the north of the abutment was slightly knocked out of place, and a few spikes bent

When I arrived, the rear brake van and a 3rd class carriage were on the south end five feet from the abutment, the leading wheels of the carriage were derailed On the north end two wagons were standing across the rails, and two close to the bridge, derailed, the remainder were down the bank or in the river, beyond the wagon across the road up to the engine the road was undisturbed and never touched by my men There were no marks on the road to shew any derailment from defect in the road In my opinion the train was overturned by a cyclone wind

*Joy Joyram*—I was Brakesman of 45 Up on the 15th April 1889 Have been 14 months on the Railway as signalman gunner, and 4 months as brakesman there were 11 vehicles behind the vehicle I was in which was a third class carriage fitted with a brake No 43 next to my carriage was an 18 feet empty wagon fitted for coolies and run in case of any being taken ill on the road When I left Madhnagar a few drops of rain were falling and it was stormy, just before coming to the bridge the wind was blowing harder, and as soon as we got on to the bridge my carriage was blown off The carriage appeared to jump up and down by the force of the wind I opened the brake shutter to apply my brake heard a noise looked out, saw the three vehicles behind me fall My vehicle, No 43, fell clear of the bridge into the water standing on its wheels there were 12 passengers and myself in the carriage No one in the carriage was hurt We were only shaken The water in the carriage was just over the seats I should say it fell 30 feet

*H S Hutton*—I was Fireman of the engine of 45 Up of 15th have been a fireman 16 months After leaving Madhnagar there was a slight breeze and light rain when I arrived at the bridge there was a stronger breeze—a re gular cyclone we went out slowly, starting from Madhnagar about 7 to 10 miles an hour When we got to the bridge the breeze all but stopped, in going over the bridge I felt nothing wrong in the road, but after getting over it felt a sudden jerk the engine stopped I looked back on the west side I saw the bridge clear and all the vehicles off, heard no crash but a howling of the wind I first went with the driver to attend to the passengers, and then the driver sent me and the guard back to protect train and fetch assistance I think the accident was caused by the train being blown and lifted off the bridge There was one strong gust just as the engine stopped which lasted about 5 seconds

*Jean Louis Carreau*—I was Guard of 45 Up mixed on the 15th I have had 3 years 9 months' Railway experience, 3 years Fireman and Driver, 9 months as Guard, left Madhnagar right time It was then raining, cloudy and stormy about $\frac{3}{4}$ mile out of Madhnagar close to the bridge I felt a jerk which threw me down, jumped up, looked out and saw the coaching vehicles falling over the bridge on east side, and the breeze was blowing from west to east I had my window up on the next side as it was rain ing and blowing When I looked out on the west side the breeze was so strong it nearly choked me I applied my brake and stopped

almost instantly while putting on the brake the brake van rocked went down to assist passengers I helped a few out of the carriages and by that time Driver Read went across I left him and Ticket Collector McDonald to help the passengers and went back to protect train and send for assistance I did not see the fireman, as he went to the north side to protect his train I believe as the carriages fell they were upright and seemed as if they had been lifted bodily off the line I could only see the passenger vehicles I could hear nothing but the howling of the wind

The formation of my train was as follows —

*Engine No 52*

*A K Sen Assistant Surgeon, Sara* —On arrival at the scene of accident at about 22 hours I found one woman injured in a carriage with a few bruises only, no external injury, and a man laying on the bank with his head cut and a few bruises I sent them to the hospital carriage brought by the Special to be treated Hearing there were more in the village I found a dead child on the west side with its parents who had brought it there and they were asleep I saw about 10 others with bruises and a woman complaining she had lost a child 12 months old I made a search with the Sára Station master and found eight passengers about a mile off, five injured the others only now in hospital I went to the village on the east side and found coolies injured lying two or three together in different houses I met two village chowkidars, who said there were 60 or 70 lying about in the different houses and requested them to come for treatment, but they mostly refused to go then By that time the Saidpur Special had arrived and asked the Railway Police Magistrate and others to assist in getting the Those who came first were sent off by Sp to hospital Those found after were ser later after being attended to, were sent o another Special, and four afterwards cam who were sent on to Sára by a return Spec

Altogether there were about 70 injured first woman I saw died about 5 A M — Madhnagar A man by name Koomee A Company s coolie died at 15 hours on 17th internal injuries received Only four were serious, and two more now have be serious on account of fever having set in

Most of the injured people say there heavy gust of wind like a whirlwind lifte carriages up and blew them over

*C Stephen* —I was Driver of 34 Down r of the 15th, and crossed 45 Up at Madhn 45 Up left as soon as I arrived at Madhr There was a breeze blowing when I left and a heavy storm came on at mileage 3 miles from Madhnagar to the north of the b The storm slowed the train down to four miles an hour There was nothing wrong the bridge or permanent way when I came it

*Edward Read* —I was Driver of 45 Up r of 15th have been a Driver on this s about four years I arrived at and left M nagar, right time, 16-49 On approachin bridge, 9 spans of 20 feet at mileage 33 felt some heavy gusts of wind which slightly affected the speed of the train I going about 12 miles an hour before and c bridge it was reduced to about 10 miles ar by the wind I had 31 vehicles in all c train, 9 coaching, 1 loaded wagon 21 em my engine being F class 52 and its load mixed train 35 After my engine had p over the bridge a few wagons length I jerk looked back and saw some wagon the engine falling over on to the east side line my engine was brought to a stand at before I had time to apply my brakes not know at first what had caused the acc but when I got off the engine I at once th the vehicles must have been blown over several gusts and could not say which cular gust did it I first went and gave a ance to the passengers whose vehicle fallen into the river, and then went and exa the road I did not cross the bridge w went back to the Guard as it was wet and sl and windy, and an open bridge withou protection and waded through the water was up to my middle 3½ feet deep I menced assisting the passengers and se Guard back about half an hour after to giv necessary notice and send for assistanc was dusk before I examined the roac bridge, about 18 hours I saw a few sleep each end of the bridge with wheel mar but nothing in the middle of the bridge nothing wrong with the bridge I did n against or over anything to cause an acc It was 16 55 when my engine stopped

nothing wrong with the road while I was running till the time of the accident I shut off steam and my fireman applied the tender brake after we had stopped There were 5 wagons attached to my engine by couplings 4 cove wagons on their sides down the bank, and low sided next to the engine canted over to east

*Conclusion*

The accident must be attributed to a violent gust of wind, amounting to a torna which unfortunately caught the train passing over an open bridge

The wheel and other marks on the bridge are inconsistent with a derailment cau by any obstacle on the line or defect in the rolling stock or way and works The posit of the vehicles after the accident is shown in the accompanying sketch

No 43, a third class carriage, with a brake compartment contained a brakesm and 12 passengers No 362, an empty covered goods, attached for use as a hospi in case of cholera These two vehicles appear to have been lifted up clear of t bridge structure and dropped down on their wheels into about 3 feet of water wh broke the shock, causing the passengers and brakesman to escape uninjured

The other vehicles seem to have caught the ends of the sleepers or cut-wate in their descent causing them to fall either on their sides or on their roofs Two class carriages falling on their roofs were completely crushed by the heavy weight their frame and wheels These carriages must have been nearly empty, or the loss life would have been much greater, as it would seem impossible that any one ins them could have escaped

The witnesses all agree in the opinion that the train was blown off the bridge b very slightly in their description of the force and duration of the storm Firem Hutton gives 5 seconds as the duration of the gust which caused the accident

Lieutenant Colonel Clarke in his note shows that to overturn an empty cover wagon, metre gauge, would require a pressure of 49 4lb

To lift bodily, as in the case of covered wagon, No 362, weighing 3 4 tons, a pr sure of 83lb per square foot must have been exerted—

| | | |
|---|---|---|
| Wagon weight | 3 4 tons = | 7 616lb |
| , frame | 14 × 6 7" = | 92 sq ft |
| , | $\overline{92}$ | = 82 78 lb per sq ft |

The tremendous pressure in this case may perhaps be accounted for by torna sweeping up an open space being sudddenly deflected and obstructed by the hi bank and bridge structure

The narrow track of the storm may be demonstrated by taking the centre as he ing struck the train at carriage No 43 the nineteenth vehicle, exerting a force of ov 82 78lb, which at the 30th vehicle had decreased below 49 4lb, the amount calculat to overturn a 3rd class carriage

The enormous force developed, and the suddenness and uncertain track of the tornados seem to preclude any reasonable precautions being taken to prevent futu accidents from this cause

---

## APPENDIX

*Statement of the damages to the stock in the accident at Madhnagar on 15th April 1889*

No 1435 18' Iron covered wagon —Both buffers bent right side under frame angle ir bent

" 1381 " " Buffer bent axle guard bent, axle boxes broken do flashings broken

" 134 " " Coupling pin, four axle boxes brake thrust rod ar one door frame broken, buffers and axle guar bent

| " 31 24 Iron jute wagon — | One axle box broken two buffers bent slightly |

The bodies of 3rd class carriages Nos 83 317, 53 68 297 and 81 are damaged beyond repair and will have to be rebuilt The under frames of these carriages are practically uninjured the buffers are all either broken or bent

| | |
|---|---|
| No 284 Intermediate — | One end and side pillars broken, panel plates bent sunshades broken |
| 31 Composite — | End panels and pillars broken sunshades broken cushions damaged axle boxes broken and buffer bent axle guards bent |

## Extract from a Report on the Accident which occurred at Lonâvla Station Great Indian Peninsula Railway, at 12-40 A M on the 5th May 1889

A shunting engine was working in the Lonávla Station yard, having 15 wagons attached and was well within the protection of the down station signal, which was set to danger The shunting train was moving slowly towards the station signal when the driver saw the lights of an advancing train On this train not coming to a stand outside the station signal, he reversed his engine, but too late, and the trains collided at a point 166 feet inside the signal This signal, it was stated in the evidence, could be worked at night to show an imperfect or "magpie" light

The damage done to the shunting engine and attached vehicles was trifling, none of them left the road The driver and firemen remained on the shunting engine, and none of them were injured The approaching train, an up goods, had four of the wagons derailed, two of them overturned, and four men travelling in these (in charge of sheep) were injured, one fatally None of the train staff were injured.

## REVENUE REPORT OF IRRIGATION WORKS IN THE PUNJAB FOR 1888 89

No 40 I Dated Calcutta, the 1st March 1890

RESOLUTION—By the Government of India Public Works Department

**Read—**

Letter No 6578 I dated 28th December 1889, from the Government of the Punjab, forwarding the Revenue Report of Irrigation Works in the Punjab for 1888 89, and Resolution by that Government reviewing the Report

OBSERVATIONS —The canals in the Punjab are twelve in number one of them, the Swat canal, is classed as a protective work , six, the Western Jumna, the Bari Doab, the Sirhind, the Lower Sohag and Para, the Sidhnai, and the Chenab canals are classed as productive , while the remaining five, the Upper Sutlej, the Lower Sutlej, the Indus, the Shahpur and the Muzaffargarh are classed as minor works for the last mentioned canal only Revenue Accounts are kept Of the twelve canals the first four have a perennial flow, the remaining eight are only inundation canals

2 The following statement shows the capital expenditure during and up to the end of the year —

| | Number of works | During the year 1888-89 | | | | | | | Total direct and indirect to end of 1888-89 |
|---|---|---|---|---|---|---|---|---|---|
| | | Works | Establishment | Tools and Plant | Suspense Account | Total direct charges | Indirect charges | Total direct and indirect charges | |
| | | Rs | Rs | Rs. | Rs | Rs | Rs | Rs | Rs |
| *Major Works* | | | | | | | | | |
| Protective Works (Account head 35) | 1 | 39 248 | 8,810 | 799 | —2 083 | 46 774 | 2 [illegible] | 49 [illegible] | 35 04 [illegible] |
| Productive Works (Account head 49) | 6 | 10 47 609 | 2 20 567 | —12 [illegible] | 34 116 | 12 21 609 | 51 95[illegible] | 12 [illegible] | 5 64 44 186 |
| Minor Works of which Capital and Revenue Accounts are kept (Account head 43) | 4 | | | | —177 | —17[illegible] | | —177 | 18,[illegible] |
| TOTAL | 11 | 10 86 9[illegible] | [illegible] | —11 742 | —[illegible] | 12 68 206 | 54 203 | [illegible] 409 | 6 08 0[illegible] |

The principal outlay was incurred on the Chenab canal, on which it amounted to Rs 4,49,977 for works Three syphons a fall eight bridges and two bungalows were completed , a large amount of earthwork was done , a considerable sum paid as land compensation , and good progress made with the distributaries

On the Sirhind canal the expenditure on works was Rs 2,92 966 from Imperial funds and Rs 59 901 from contributions, but the information given in the Report as to what works were in progress during the year is insufficient

On the Western Jumna canal the completion of the new distributaries was in hand, and progress was made in fixing permanent outlets on all the new rajbahas

3 The following statement shows the progress that has been made in extending the main canals and their distributaries —

| | Sanctioned | | Completed | |
|---|---|---|---|---|
| | Miles of Canals | Miles of Distributaries. | Miles of Canals. | Miles of Distributaries. |
| *Major Works* | | | | |
| Protective Works | 22 | 121 | 22 | 116 |
| Productive Works | 1,209 | 4,825 | 1,154 | 4,631 |
| *Minor Works* | | | | |
| Of which Capital and Revenue Accounts are kept | 1,792 | 155 | 1,790 | 155 |

Of the total length of main canal 481 miles are available for navigation

4 The actual financial results of the year for the twelve canals, excluding the Native State portion of the Sirhind canal, were as follows —

| Canal | Capital outlay | Gross Revenue Collected | | | Working Expenses | | | Net Revenue | Percentage of net Revenue on Capital outlay |
|---|---|---|---|---|---|---|---|---|---|
| | | Irrigation Revenue | Miscellaneous Receipts | Total | Direct | Indirect | Total | | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| *Major Works* | Rs | Rs. | Rs | Rs | Rs | Rs | Rs | Rs. | Rs. |
| Protective Works { Swat River Canal | 35 04 223 | 2 22 943 | 4 558 | 2 27 496 | 87 425 | 7 232 | 94 657 | 1 32 839 | 3 79 |

* These percentages of net Revenue on Capital outlay do not include Muzaffargarh canals.

5 A remarkable feature in this table is the great advance made by the Swat river and Sidhnai canals The Swat river canal has made a return, excluding interest charges, of 3 79 per cent on the capital outlay against a return of

0 88 in 1887 88 and that after being only four years in operation The increase is partly due to the full rate of Rs 2 8 per acre having been charged for the irrigation of the kharif crop against the interim rate of Re 1 per acre which was previously levied, but there was also a substantial addition to the area irrigated, which for the two crops was 11 224 acres more than the area for 1887 88 The gross area irrigated amounted to 107 910 acres, which is 17 910 acres more than the ultimate area assumed when the project estimates were prepared A further increase in area may be looked for, as at no time during the year was the full supply of 700 cubic feet per second for which the canal was designed, required to be sent down, though sufficient water was always available in the river The success of the Sidhnai Canal is also very noticeable The area irrigated during the year was 50 per cent in excess of that contemplated when the original project was drawn up although the canal has been only three years in operation, and it already more than covers its interest charges

On the Western Jumna canal there was a decrease in net revenue from Rs 8,18 323 for 1887 88 to Rs 4,45 799 which reduced the percentage of return from 7 47 to 4 C3 per cent This decrease is attributed to the abundant rainfall which rendered canal irrigation less necessary during the rabi season of 1887 88, the revenue of which is collected in the following financial year

Among the minor works the Upper Sutlej improved its net return from Rs 2,152 for 1887 88 to Rs 62,822 the improvement being due to less expenditure and to the large area of the rabi crop of 1887 88 The Lower Sutlej and Chenab canals also show an increase, which is attributed to the carrying out of various works of improvement which have enabled a larger area to be irrigated

The Bari Doab Canal was closed for 41 days from February 1st 1889, against 17 days in February 1888 and 68 days in 1887 Such a closure during the irrigation season is much to be deprecated, every effort should be made to shorten the period during which this canal is annually closed, and, if possible, to postpone the closure to a time when water is less urgently required by the crops

6 The interest account to the end of the year shows a balance in favour of the canals of Rs 1 92 53 180 which is chiefly due to the small capital outlay and large returns on the West Jumna Canal It was estimated in para 4 of last year s review, that the Bari Doab Canal would have repaid all arrears of interest charges in two or three years, but it has done so in one year and is now on the right side The Swat river canal will also be able to meet its interest charges in full at no very distant date

7 The following statement shows the revenue assessed for the year under the different heads in which is included the rabi assessment for 1888 89, which is not collected till 1889 90 The manner in which the assessments are fixed for the different canals was described in para 6 of last year s review

| | Area irrigated | | Assessment 1888-89 | | | | | | | Incidence per acre irrigated | |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | 1888-89 | 1887-88 | Water rate | Occupiers rates | Owners rates | Share of land revenue | Water advantage rates | Assessed during 1888-89 | Assessed 1887-88 | 1888-89 | 1887 88 |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| | Acres | Acres | Rs | Rs | Rs | Rs | Rs | Rs | Rs | R | Rs |
| Swat River | 107 910 | 96 686 | 2 0 2 2 | | | | | 2 70 2 | 1,84 8 9 | 2 50 | 1 91 |

Y

8 The gross area irrigated is again the largest on record, and shows an increase of 364 049 acres over the figures for the previous year The increase is common to all the canals, but is most marked on the Sirhind canal, in which it amounts to 86,000 acres This increase has an effect not only on the quantity of crops produced but also on the distribution of population In the case of the Swat river irrigation the opening of the canal has resulted in a multiplication of the number of villages in the tract commanded Of the 160 villages now irrigated, only 41 are old villages, the remainder having sprung up since irrigation was started Under the Bari Doab Canal, irrigation has been extended during the last four years to 173 new villages, and the total number irrigated from this canal is now 1 362 The gross increase in the irrigated area in the five years from 1884 85 is one million acres, of which 700,000 acres belong to the perennial canals

The areas of kharif and rabi crop for the year under review were as follows —

| | Kharif Acres | Rabi Acres |
|---|---|---|
| Perennial canals | 554,466 | 840,122 |
| Inundation canals | 683 481 | 536,061 |
| TOTAL | 1 237,947 | 1,376,183 |

9 In the following table the areas under the principal crops are compared with the figures for the previous year —

| | 1888 89 Acres | 1887-88 Acres |
|---|---|---|
| Sugar cane | 71 561 | 83 691 |
| Rice | 165,837 | 158 847 |
| Jowar | 171 939 | 169,839 |
| Maize | 122 392 | 80,876 |
| Wheat | 935 510 | 783,189 |
| Cotton | 215,638 | 223 470 |

The increase in wheat and maize cultivation during the five year period from 1884 85 has been most marked, having amounted to 75 and 550 per cent respectively

The gross value of the crops irrigated during 1888 89 is estimated at 752 lakhs

10 Under the Swat river canal 18 28 per cent and under Bari Doab canal 14 12 per cent of the total area irrigated were double cropped The remark is made in para 77 of the Report that the increase in the area of double crop is not satisfactory, "as the practice is generally held to be detrimental and exhausting to the soil" This of course, is not the case when the land is sufficiently well manured, and the efforts of the canal officers should tend rather to facilitate the ample distribution of water to lands which are highly cultivated, and to discourage it where the agricultural system is such that the soil is likely to become deteriorated

11 Some details are given in Statement No I E of the irrigating duty of each cubic foot of water per second entering the canals, but nothing is said as to the irrigating duty of the standard unit for different descriptions of crops, and without this the information given is not of much value What is wanted, in order to institute a comparison that may prove both interesting and valuable, is the irrigating duty of each cubic foot per second for wheat, maize, rice,

and the other principal crops cultivated, then taking the average period required to bring each crop to maturity, the total amount of water required for each acre of the different sorts of cultivation can be obtained, and the results compared with similar figures from other parts of India

12 The working of the Native States branches of the Sirhind canal is described in interesting detail and for the first time in paras 127 to 133 of the Report The total available supply of the canal is divided between the Imperial and Native States branches in the proportion of 64 to 36, and this for the year under review gave 2 265 and 1 274 cubic feet per second respectively for the kharif crop and 2 817 and 1,602 cubic feet per second respectively for the rabi crop As a matter of fact the Native States branches received 152 cubic feet per second more than their share for the former crop and 40[illegible] cubic feet per second less for the latter In return for their share of water the Native States pay 36 per cent of the charges and receive 36 per cent of the miscellaneous receipts on the main canal They also pay all expenditure on the feeders, the three branch canals and the Patiala navigable canal the establishment on all of which is a provincial charge The cost of the maintenance of rajbahas and of their own revenue establishment is paid directly by them The three States that share the supply are Patiala, Nabha, and Jhind and they do so in the proportion of 83 6, 8 8, and 7 6 The duty of water obtained in the Native States irrigation is in the aggregate but little more than half that obtained by the Imperial share of the supply Only 140 234 acres were irrigated in the Native States under the two crops, whereas if the British standard had been reached 268 114 acres might have been supplied The proportion is only 52 per cent, and the three States compare as follows —

| State | Area actually irrigated | Area irrigable according to British standard | Percentage |
|---|---|---|---|
| | Acres | Acres | |
| Patiala | 121,901 | 2[illegible]4 143 | 54 |
| Nabha | 7,987 | 23 594 | 34 |
| Jhind | 10 346 | 20 3[illegible]7 | 51 |

13 The following statement shows the particulars of the working of the Native States branches —

| State | Capital outlay | Gross Revenue collected | Working expenses | Water rates assessed | Area irrigated | Water rate per acre | Working expenses per acre |
|---|---|---|---|---|---|---|---|
| | Rs | Rs | Rs | Rs | Acres | Rs | Rs. |
| Patiala | 1,11,18 [illegible]05 | 1 89 933 | 3 97 03[illegible] | 3 07 378 | 121,901 | 2 52 | 3 26 |
| Nabha | 11,70,369 | 35,519 | 45,252 | 30,499 | 7 987 | 3 82 | 5 66 |
| Jhind | 10 10 778 | 39 572 | 32 23[illegible] | 36 372 | 10 346 | 3 51 | 3 11 |
| TOTAL | 1,32,9[illegible],647 | 2,6[illegible],024 | 4,74,525 | 3 74 249 | 140 234 | 2 67 | 3 38 |

The average water rate per acre is slightly lower than that on the British branches of the same canal, chiefly because full water rates are not yet levied in several villages, the schedule of rates is apparently the same The working expenses are extraordinarily high The financial position of these branches will no doubt improve, especially in Patiala, where the services of officers of the Public Works Department have been lent to direct irrigation operations, but it will take time to train the native subordinates

14 In the following statement the working expenses on the different canals are compared with the figures for the previous year —

| | | 1888-89 | | | | | 1887-88. |
|---|---|---|---|---|---|---|---|
| | | Works | Establishment | Tools and Plant | Indirect charges | Total. | TOTAL |
| | MAJOR WORKS | Rs. | Rs | Rs. | Rs | Rs | Rs |
| PERENNIAL | *Protective Works—* | | | | | | |
| | Swat River Canal | 35 714 | 51 658 | 53 | 7,232 | 94 657 | 90 123 |
| | *Productive Works—* | | | | | | |
| | Western Jumna Canal | 2 16 080 | 2 36 987 | 12 178 | 33 [illegible]78 | 4 [illegible]8 529 | 5 83,309 |
| | Bari Doab Canal | 3 00 947 | 2 59 [illegible]38 | 3 707 | 3[illegible] 415 | 6 01 007 | 5,28 999 |
| | Sirhind Canal (British portion) | 3 13 682 | 2 19 088 | 3 162 | 30 672 | 5 66 604 | 3 61 838 |
| INUNDATION | Lower Sohag and Para Canal | 21 960 | 28 318 | 11 | 3 965 | 54 254 | 37 084 |
| | Sidhnai Canal | 44 0[illegible]7 | 27 44[illegible] | 845 | 3 8[illegible] | 76 095 | 41 009 |
| | Chenab Canal | 53 263 | 24,947 | 138 | 3 493 | 81 841 | 59 941 |
| | MINOR WORKS | | | | | | |
| | Works for which Capital and Revenue Accounts are kept— | | | | | | |
| | Upper Sutlej Canals | 57 276 | 53 357 | 1 445 | 7 666 | 1 19 774 | 1,59,642 |
| | Lower Sutlej and Chenab Canals | 2 68 290 | 90 406 | 344 | 14,[illegible]05 | 3 8[illegible] 185 | 4 00 860 |
| | Indus Canals | 1 57 815 | 86 235 | 1 71 | 12 145 | 57 907 | 3 12 188 |
| | Shahpur Canals | 28 35[illegible] | 3 478 | 13 | 487 | 32 333 | 16 673 |
| | Works for which only Revenue Accounts are kept | | | | | | |
| | Muzaffargarh Canals | 1 56 [illegible]71 | 43 192 | 143 | 6 047 | 2 05 9[illegible]3 | 1 72 320 |
| | TOTAL | 16 53 9[illegible]6 | 11 33 940 | 23 751 | 1 59 431 | 29 71 109 | 27 62 931 |
| | Per acre irrigated | | | | | 1 13 | 1 22 |

The working expenses for 1888 89 show an increase over those for 1887 88 of only a little over two lakhs, while the assessed revenue has increased by about seven and a quarter lakhs, and the gross revenue collected by about three lakhs and three quarters

15 On the Western Jumna canal the new Gagsina bridge was completed On the Bari Doab canal repairs to the training works in the Chakki torrent and to the rapids in the main canal were carried out On the Sirhind canal the height of the shutters on the Rupar weir were raised, the retaining weir across the Siswan torrent was in progress, flour mills were constructed at Jaghera and Bhatinda, and a number of rajbahas were provided with regulating gates The large revenue expenditure on the Lower Sutlej and Muzaffargarh canals is due to the inclusion of Rs 2 14 480 and Rs 1,19,204 respectively on account of statute labour, which is included also in the receipt side of the account

16 The charge for establishment in the last statement is made up of the following items —

| | 1888 89 | 1887 88 |
|---|---|---|
| | Rs | Rs |
| Direction | 1 88 453 | 1,50 704 |
| Executive | 6,07 841 | 5,31,046 |
| Medical | 8,098 | 7,557 |
| Revenue, including collection fees | 3,29,208 | 3,15 695 (Revenue and Navigation) |
| Navigation | 349 | |
| TOTAL | 11,33,949 | 10,05,002 |

It is noticed that the figures for Establishment under Executive and Revenue given in the individual canal reports only agree in the aggregate, and not separately, with the corresponding figures in columns 14, 16, and 19 of State-

ment I C It is suggested that the distribution might be made on the same principles in the Reports and in the Statement

17 The only canals that are available for navigation are the Western Jumna and Sirhind, the length of navigable channel on which is respectively 243 and 188 miles

The navigation receipts and expenditure on each are compared in the margin with the figures for the previous year The principal receipts on the Western Jumna canal, Rs 41 686 are derived from rafts but it is explained that this traffic is not so productive as it might be, owing to the rates for the broad gauge railway sleepers being prohibitive Some modification of these has been proposed which it is expected will lead to a great expansion of the traffic The total quantity of goods carried was 73,381 tons valued at Rs 23 38 020

| | Western Jumna | | Sirhind | |
|---|---|---|---|---|
| | 1888-89 | 1887 88 | 1888 89 | 1887-88 |
| | Rs | Rs | Rs | Rs |
| Receipts | 44 6 8 | 47 497 | 11 288 | 12 104 |
| Expenditure | 7 405 | 9 101 | 13 834 | 18 803 |

18 The miscellaneous receipts for the year amounted to Rs 3,47,921 compared with Rs 3 13,700 for the previous year The increase is mainly due to improved receipts under the head of ' Water power "

19 The Report was received by the Government of India on December 31st, which is a month later than that for the previous year It is hoped that the report for the current year will not be so delayed The Report continues to be admirably prepared but there is a growing tendency to diffuseness in the individual canal reports and the length of the whole Report has grown from 106 pages in that for 1886 87 and 120 pages in that for 1887 88 to 136 pages in that for the year under notice The statement of irrigated area and value of crops given in the individual canal reports is given also in the appendices in statement III B and its insertion in the former place may be discontinued The return of rainfall may also be relegated to the appendices Other means of curtailing the Report without sacrifice of its clearness and interest may perhaps suggest themselves In future reports each work should be given a distinguishing number The points at which the gauges on the Sutlej and Chenab rivers are read should also be stated

20 In the Resolution of the Punjab Government prefacing the Report His Honour the Lieutenant Governor congratulates Colonel Home and the officers of the Irrigation Department on the results achieved The Government of India cordially agrees in these remarks The progress of irrigation in the Punjab generally, and the special degree of success achieved on the Swat River, Bari Doab, Sirhind and Sidhnai canals are due to their efforts and have been noticed with high satisfaction by the Government of India

ORDER—Ordered that copies of this Resolution and of the Report, and of the Resolution by the Punjab Government, be forwarded to the Finance and Commerce and the Revenue and Agricultural Departments for information

---

Ordered, also, that copies of the Resolution be forwarded to the Government of the Punjab for information and guidance and that copies of this Resolution and of the Report and Resolution by the Punjab Government be forwarded to the Local Governments and Administrations in the Public Works Department noted in the margin for information

The Governments of Madras, Bombay Bengal and the North Western Provinces and Oudh in the Public Works Department
The Chief Commissioners of the Central Provinces Burma and Coorg
The Residents at Hyderabad and Mysore
The Agents to the Governor General in Central India and Rajputana

Ordered, further, that this Resolution and the Resolution by the Local Government be published in the Supplement to the *Gazette of India*, and that copies of this Resolution and of the Report be forwarded to Her Majesty's Secretary of State for India

J G FORBES, *Colonel, R E*,
*Deputy Secy to the Government of India*

## IRRIGATION BRANCH

No 6514 I dated Lahore the 21st December 1889

RESOLUTION—By the Hon ble the Lieutenant Governor of the Punjab and its Dependencies.

READ—

Revenue Report of the Officiating Chief Engineer Irrigation Works Punjab for the year ending 31st March 1889

RESOLUTION — The following table shows the outlay under Capital during and to the end of the year 1888 89 —

| Budget Head | Canal | Capital Outlay — During 1888-89 | Capital Outlay — To the end of 1888-89 |
|---|---|---|---|
| | | R | R |
| 35 -Protective Irrigation Works | Swát River | 49 020 | 35 04,223 |
| 49—Irrigation Works not charged against Revenue | Western Jumna | 1,75,247 | 1 10 57,903 |
| | Bári Doáb | 1 45 337 | 1 62 99 349 |
| | Sirhind | 3 06 639 | 2 34 92,823 |
| | Lower Sohág and Para | 34 563 | 6 63 530 |
| | Sidhnai | 20 344 | 7 55 341 |
| | Chenab | 5 91 436 | 31 75 240 |
| | TOTAL | 12,73 566 | 5 54 44,186 |
| 43—Minor Works and Navigation not classed a Productive | Upper Sutlej | | 5 77,251 |
| | Lower Sutlej and Chenáb | | 1 10 102 |
| | Indus | —177 | 7 08 734 |
| | Shahpur | | 40 739 |
| | Madhopur Workshops | | 4 24,148 |
| | TOTAL | —177 | 18 60 974 |
| | TOTAL IMPERIAL | 13 22,409 | 6,08 09 383 |
| Contributions | Sirhind Canal | 60 150 | 1 32,99 647 |

Only revenue accounts are maintained for the Muzaffargarh Inundation Canals

2 The following statement shows for each canal the revenue assessed during the past five years The profits based on the assessments are shown as usual in the Chief Engineer s Report but as the figures necessarily do not agree with those of the Administrative Accounts which are based on actual collections only there appears to be no object in bringing them prominently to notice The figures of assessments are however interesting, as they indicate the work done by the canals during the year under review

| Budget Item | Canal | Revenue assessed — 1888 89 | 1887 88 | 1886-87 | 1885-86 | 1884-85 |
|---|---|---|---|---|---|---|
| | | R | R | R | R | R |
| 35 | Swát River | 2,74 775 | 1,87 020 | 68 342 | 19 102 | |
| 49 | Western Jumna | 11 44 888 | 11 02 415 | 11 91 931 | 9 6 787 | 11 40 788 |
| | Bári Doáb | 18 99 663 | 17 12 122 | 14,68 350 | 17 96 938 | 13 77 388 |
| | Sirhind | 13 77,243 | 10 41,209 | 5,29 340 | 3 30,374 | 75,240 |
| | Lower Sohág and Pára | 66 070 | 42,190 | 18 760 | 17 755 | 307 |
| | Sidhnai | 2,14 606 | 1 64,120 | 57 262 | | |
| | Chenáb | 75 921 | 6 232 | | | |
| | TOTAL 49 | 47 78 391 | 40 68 288 | 32 65 743 | 30 61,854 | 25 93,673 |
| | TOTAL, 35 AND 49 | 50,53 166 | 42 55 308 | 33 33 985 | 30 80 956 | 25 93,673 |

| Budget Item | Canal | Revenue assessed | | | | |
|---|---|---|---|---|---|---|
| | | 1888-89 | 1887-88 | 1886-87 | 1885-86 | 1884-85 |
| | | R | R | R | R | R |
| 43 | Upper Sutlej | 1,77 907 | 1,82,220 | 1 37,219 | 97,911 | 1 09,537 |
| | Lower Sutlej and Chenáb | 5,82 176 | 6 08 828 | 6 08 388 | 5 57 039 | 6 02 481 |
| | Indus | 2,50 649 | 2,87,680 | 2 39 097 | 2 39 625 | 2 2[illegible] 681 |
| | Shahpur | 42 559 | 34 994 | 27 917 | 3[illegible] 306 | 29 521 |
| | Muzaffargarh | 3 94 922 | 3 74 755 | 3 51 765 | 3 38 918 | [illegible],69 496 |
| | TOTAL, 43 | 14 4[illegible] 213 | 14 88 477 | 13 64 386 | 12 65 79[illegible] | 13 40 716 |
| | GRAND TOTAL | 65,01,379 | 57 43 785 | 46 98,3 [illegible]1 | 43 46 755 | 39 34 389 |

The Major Works (items 35 and 49) show very satisfactory progress, the assessments having nearly doubled themselves since 1884 85 The Minor Works (item 43) naturally do not show such good progress, as they have not been extended like the Major Works

3 The working of the canals for which interest accounts are kept up is shown for the year 1888 89 in the following statement together with the returns on Capital outlay for three years —

| Budget Item | Canal | Capital Outlay to end of year | Collections less Refunds | Working Expenses | Net Revenue | Interest Charges | Percentage of Net Revenue on Capital Outlay | | |
|---|---|---|---|---|---|---|---|---|---|
| | | | | | | | 1888 89 | 1887-88 | 1886-87 |
| | | R | R | R | R | R | | | |
| 3 | Swát River | 35 04 223 | 2 27,496 | 94 657 | 1 32 839 | 1 34 2[illegible]6 | 3 79 | 0 [illegible]8 | —0 84 |
| 49 | Western Jumna | 1 10 57 90[illegible] | 9,44 328 | 4 98 529 | 4 45 799 | 4 16 036 | 4 03 | 7 47 | 3 52 |
| | Bári Doab | 1 [illegible]2 09 [illegible]49 | 17 [illegible]5 996 | 6 01 007 | 11 94 989 | 6 23 849 | 7 33 | 6 84 | 8 09 |
| | Sirhind | 2 34 92 823 | 11 31 798 | 5 66 604 | 5 65 191 | 8 87 508 | 2 40 | 1 45 | 0 51 |
| | Lower Sohag and Pára | 6 63 530 | 56 324 | 54 254 | 2 070 | 24 947 | 0 [illegible]1 | —1 04 | 1 05 |
| | Sidhnai | 7 55 341 | 1 71 368 | 76 095 | 95 273 | 28 8[illegible]9 | 12 61 | 13 54 | —0 17 |
| | Chenab | 31 75 240 | 37 684 | 81 841 | —44 157 | 1 11 340 | —1 39 | —2 31 | |
| | TOTAL | 5 54 44 186 | 41 37 498 | 18 78 330 | 22 59 168 | 20 93 458 | 4 07 | 4 23 | 3 57 |
| | TOTAL 35 AND 49 | 5,89,48 409 | 43 64 994 | 19 72 987 | 23 92 007 | 22 27 694 | 4 [illegible]5 | 4 00 | 3 29 |
| | TOTAL 1887 88 | 5 76 25 823 | 40 05 923 | 17 01 248 | 23 04 675 | 21 6[illegible] 741 | | | |

The falling off in the returns from the Western Jumna Canal is due to the demand for water during the Rabi season of 1887 88 having been unprecedentedly small owing to very favourable conditions of rainfall The slight falling off in the case of the Sidhnai Canal is partly due to protective works at the tail of the needle weir across the Rávi at the head of the canal, on the safety of which the welfare of the canal depends, and partly to a larger share of the establishment charges being debitable to revenue, but the returns from this canal are still very good

With the above exceptions, all the canals show an improvement on last year, and there is, on the whole, a clear surplus of R1,64,3[illegible]3 after meeting all charges for interest in 1887 88 the surplus was R1,41,934

The Swát River Canal which is classed as a Protective work has yielded a percentage of 3 79 on the Capital outlay after having been only four years in operation, and as there is every hope of its yielding still better returns in the future, it might well be classed as a Productive work

4 The following table shows the financial results of the canals for which interest accounts are kept up to the end of 1888 89 —

| Budget Item | Canals | Total of | | Balance of | |
|---|---|---|---|---|---|
| | | Net Revenue | Interest Charges | Net Revenue | Interest Charges |
| | | R | R | R | R |
| 35 | Swát River | 92 893 | 9 97 761 | | 9 04 868 |
| 49 | Western Jumna | 3 64 62 145 | 73,57 741 | 2 91 04 404 | |
| | Bári Doáb | 1,58 75 719 | 1,58 68 167 | 7 552 | |
| | Sirhind | 8 01 702 | 93 22,701 | | 85 20 999 |
| | Lower Sohág and Pára | 3 167 | 89 478 | | 86,311 |
| | Sidhnai | 1 95 854 | 1,10 456 | 85 398 | |
| | Chenáb | —1 03 842 | 3 28 154 | | 4 31 996 |
| | TOTAL 49 | 5 32 34,745 | 3 30 76 697 | 2,01 58,048 | |
| | TOTAL 1888 89 | 5 33 27 638 | 3 40 74 458 | 1,92 53 180 | |
| | TOTAL 1887 88 | | | 1 90 80,867 | |
| | TOTAL 1886 87 | | | 1 89 46 933 | |

The Bári Doáb Canal has now cleared off its balance of interest charges, and there is every prospect of the Swát River Canal commencing to meet its interest charges at an early date

5 The Working Expenses of the abovementioned canals amounted to R 19,72 987 against R 17,01,248 in 1887 88, refunds of revenue being excluded in each case

The outlay on each canal for the last five years will be seen from the following statement —

| Canals | Working Expenses | | | | |
|---|---|---|---|---|---|
| | 1888 89 | 1887-88 | 1886-87 | 1885-86 | 1884-85 |
| | R | R | R | R | R |
| Swát River | 94 657 | 90 123 | 55 035 | 24 994 | |
| Western Jumna | 4 98 529 | 5 82 309 | 5 13 537 | 5,13,117 | 4,71,265 |
| Bári Doáb | 6 01 007 | 5 28 999 | 5 87 976 | 5 47,783 | 4,97 521 |
| Sirhind | 5,66,604 | 3 61,833 | 2,39 398 | 2 20 224 | 1,45,206 |
| Lower Sohág and Pára | 54 254 | 37,034 | 13 008 | 8 139 | |
| Sidhnai | 76,095 | 41 009 | 14 364 | | |
| Chenáb | 81 841 | 59,941 | | | |
| TOTAL | 19 72 987 | 17 01,248 | 14 23 318 | 13,14,257 | 11,13 992 |

The increase in cost, as compared with that of 1887 88, is mainly due to the last four canals on the list having to bear their full share of maintenance charges These are all new canals, and so long as considerable sums were being spent on works of construction, the revenue account was relieved of a large share of the cost of establishment under the heads of Direction and Executive, the mileage of distributaries that has to be maintained has also increased, especially on the Sirhind Canal, and the strain on them due to larger supplies being passed down them has also necessitated heavier expenditure in order to keep them efficient The head works of the Sirhind and Sidhnai Canals also required considerable repairs, while the clearance of silt from the head channel of the Chenáb Canal proved heavy and expensive There is a satisfactory decrease on the Western Jumna Canal but on the Bári Doáb Canal extensive repairs to head works, torrent works and rapids, caused an increase

6 The cost of Working Expenses and Establishment per acre irrigated is exhibited in the following table for the past five years —

| Canal | Cost per acre irrigated | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | Working Expenses | | | | | Establishment | | | | |
| | 1888-89 | 1887-88 | 1886-87 | 1885-86 | 1884-85 | 1888-89 | 1887-88 | 1886-87 | 1885-86 | 1884-85 |
| | R | R | R | R | R | R | R | R | R | R |
| Swát River | 0 89 | 0 93 | 0 74 | 0 56 | | 0 48 | 0 47 | 0 25 | 0 21 | |
| Western Jumna | 1 71 | 2 45 | 1 62 | 2 29 | 1 69 | 0 81 | 1 09 | 0 81 | 1 22 | 0·91 |
| Bári Doáb | 1 16 | 1 12 | 1 45 | 1 08 | 1 32 | 0 50 | 0 51 | 0 59 | 0 45 | 0 51 |
| Sirhind | 1 19 | 0 92 | 1 11 | 1 44 | 4 02 | 0 46 | 0 30 | 0 29 | 0 35 | 0 99 |
| Lower Sohág and Pára | 0 88 | 0 90 | 0 75 | 0 47 | | 0 46 | 0 39 | 0 14 | 0 09 | |
| Sidhnai | 0 70 | 0 54 | 0 52 | | | 0 25 | 0 17 | 0 15 | | |
| Chenáb | 1 72 | 5 52 | | | | 0 52 | 1 72 | | | |

The percentages for the Western Jumna Canal have already been reduced, and a still further reduction may be looked for next year

7 The working of the remaining canals, which are all Inundation Canals, classed under Minor Works (item 43), will be seen from the following table —

| Budget Item | Canal | Capital Outlay to end of year | Collections less Refunds | Working Expenses | Net Revenue | Percentage of Net Revenue on Capital Outlay | | |
|---|---|---|---|---|---|---|---|---|
| | | | | | | 1888-89 | 1887-88 | 1886-87 |
| | | R | R | R | R | | | |
| 43 | Upper Sutlej | 5 77 251 | 1 82 566 | 1 19 744 | 62 822 | 10 88 | 0 37 | —3 35 |
| | Lower Sutlej and Chenáb | 1 10 102 | 5 82 019 | 3 82 185 | 1 99 834 | 181 49 | 171 43 | 195 74 |
| | Indus | 7 08 734 | 2 50 979 | 2 57 907 | —6 928 | —0 98 | —3 74 | —0 85 |
| | Shahpur | 40 739 | 38 300 | 32 333 | 5 973 | 14 66 | 60 34 | 37 24 |
| | Total | 14 36 826 | 10 53 870 | 7 92 169 | 2,61 701 | | | |
| | Muzaffargarh | | 3 94 794 | 2 05 953 | 1 88 841 | | | |
| | Total 1888 89 | 14 36 826 | 14,48 664 | 9,98 122 | 4 50 542 | | | |
| | Total 1887 88 | 14 37 003 | 14 71 999 | 11 01 092 | 3,70 907 | | | |

The net revenue has increased by R80 000, although the collections were less by R23,000 this result was due to the working expenses on the Upper Sutlej and Indus Canals having decreased The percentages of return for the Lower Sutlej and Chenáb Canals is fictitious, as the Capital outlay does not represent the first cost of the canals, most of which were in existence at the time of the annexation The Indus Canals are still worked at a loss, owing to the heavy cost of the new heads and embankments which the westward encroachments of the Indus necessitates

The return from the Shahpur Canals is lower than usual this year owing to outlay having been incurred on a feeder to the new Sahiwál Canal

The Muzaffargarh Canals are making steady progress

8 The cost of Working Expenses and Establishment per acre irrigated by these canals is as follows —

| Canals | Cost per acre irrigated | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | Working Expenses | | | | | Establishment | | | | |
| | 1888-89 | 1887-88 | 1886-87 | 1885-86 | 1884-85 | 1888-89 | 1887-88 | 1886-87 | 1885-86 | 1884-85 |
| | R | R | R | R | R | R | R | R | R | R |
| Upper Sutlej | 0 86 | 1 15 | 1 46 | 1 49 | 1 30 | 0 38 | 0 41 | 0 54 | 0 76 | 0 40 |
| Lower Sutlej and Chenab | 1 09 | 1 41 | 1 20 | 0 99 | 0 92 | 0 29 | 0 34 | 0 27 | 0 21 | 0 20 |
| Indus | 1 27 | 1 64 | 1 39 | 1 37 | 1 36 | 0 42 | 0 44 | 0 44 | 0 47 | 0 41 |
| Shahpur | 1 60 | 0 99 | 0 83 | 0 70 | 0 72 | | | | | |
| Muzaffargarh | 0 71 | 0 69 | 0 55 | 0 63 | 0·73 | 0 15 | 0 16 | 0 13 | 0·15 | 0 18 |

On the Shahpur Canals there is no regular establishment kept up, and the only charges made under this head are for Direction and Accounts

With the exception of the Shahpur Canals the rates for working expenses are generally lower than last year, as are also the rates for establishment.

The cost of working of the Muzaffargarh Canals compares favourably with that of the other canals

9 The mileage of channels sanctioned and completed at the end of 1888-89 is given in the following table —

| | Canals | Mileage of Canals | | Mileage of Distributaries | | Mileage available for Navigation |
|---|---|---|---|---|---|---|
| | | Sanctioned | Completed | Sanctioned | Completed | |
| | | Miles | Miles | Miles | Miles | Miles |
| Perennial | Swat River | 22 | 22 | 121 | 116 | |
| | Western Jumna | 279 | 279 | 906 | 897 | 243 |
| | Bári Doáb | 362 | 362 | 1 058 | 1 045 | |
| | Sirhind — British | 319 | 319 | 2 468 | 2 373 | 142 |
| | Sirhind — Native States | 223 | 223 | 1 939 | 1,939 | 46 |
| Inundation | Lower Sohág and Pára | 95 | 95 | 41 | 41 | |
| | Sidhnai | 37 | 37 | 112 | 112 | |
| | Chenáb | 117 | 62 | 240 | 163 | |
| | Upper Sutlej | 221 | 219 | 109 | 109 | |
| | Lower Sutlej and Chenáb | 749 | 749 | 19 | 19 | |
| | Indus | 718 | 718 | | | |
| | Shahpur | 104 | 104 | 27 | 27 | |
| | Muzaffargarh | 779 | 779 | 401 | 401 | |
| Total | British | 3 802 | 3 715 | 5 502 | 5 303 | 385 |
| | Native States | 223 | 223 | 1,939 | 1 939 | 46 |

The mileage of the Western Jumna Canal has been reduced from 366 to 279 miles by the transfer of the Butana, Bahadra, and Darba Branches of the Hánsi Branch to their proper head of Distributaries, and by the addition of a mile at the tail of the Delhi Branch which had originally been omitted

The mileage of the Bári Doáb Canal has been increased from 354 to 362 miles by including the Dinanagar Navigation Channel

The Sirsa Branch of the Western Jumna Canal, and the Koranga Canal of the Sidhnai system, which were sanctioned during the year, will appear in next year s return

10 The areas irrigated by canals during the past five years are shown in the following statement —

| Year | Perennial Canals | | | Inundation Canals | | | Total | | |
|---|---|---|---|---|---|---|---|---|---|
| | Kharif | Rabi | Total | Kharif | Rabi | Total | Kharif | Rabi | Total |
| | Acres | Acres | Acres | Acres | Acres | Acres | Acres | Acres | Acres |
| 1884 85 | 345 869 | 346 203 | 692 072 | 522,474 | 399 742 | 922 216 | 868 343 | 745 945 | 1 614 288 |
| 1885-86 | 368 574 | 557 034 | 925 608 | 501 939 | 360 020 | 861 959 | 870 513 | 917 054 | 1 787 567 |
| 1886-87 | 351 472 | 659 589 | 1 011 061 | 536,301 | 403 278 | 939 579 | 887 773 | 1 062 867 | 1 950 640 |
| 1887 88 | 543 030 | 655,907 | 1 198 937 | 578,216 | 472 928 | 1 051 144 | 1 121 246 | 1 128 835 | 2 250,081 |
| 1888 89 | 554,466 | 840 122 | 1,394 588 | 683,481 | 536 061 | 1 219 542 | 1 237 947 | 1 376 183 | 2,614,130 |

The figures for 1888 89 are very satisfactory the increase in the irrigated area during the five-year period is one million of acres, of which seven hundred thousand acres belong to the perennial canals the area on the perennial canals has rather more than doubled itself during the same period

11 The areas of the principal crops irrigated during the last five years is as follows —

| Crops | 1888-89 | 1887-88 | 1886-87 | 1885-86 | 1884-85 |
|---|---|---|---|---|---|
| | Acres | Acres | Acres | Acres | Acres |
| Sugarcane | 71,561 | 83,691 | 59,104 | 58,398 | 69,610 |
| Rice | 165,837 | 158,837 | 146,777 | 147,529 | 147,401 |
| Jowár | 171,939 | 189,839 | 151 525 | 152,756 | 159,041 |
| Maize | 122,392 | 80,876 | 36,961 | 39,994 | 18,606 |
| Wheat | 935 510 | 783,189 | 747,514 | 649,442 | 533,838 |
| Cotton | 215,688 | 223,470 | 212,779 | 196,852 | 186,549 |

The decrease in the area under sugar cane occurs on the Western Jumna Canal, where the area for 1887 88 was unusually high

There is also a slight falling off in the areas under jowár and cotton

The rice area has risen slightly, and there are large increases under maize and wheat The area under maize on the Sirhind Canal continues to increase steadily notwithstanding the comparatively high water rate levied on it, and it appears likely to become a staple crop on the Chenáb Canal also the only other canals in which considerable areas of maize are irrigated are the Bári Doáb and the Swát River

12 The value of crops irrigated by canals during the year under review is estimated at R7,51,97 720 against R6 84,66,306 in 1887 88

The value of crops irrigated by the perennial canals averages R31 5 per acre, while the average water rate assessed, including owner's and water advan tage rates, was only R3 1 per acre, or one tenth of the value of the crop raised

13 The Rávi and Sutlej Rivers afforded better supplies during the Rábi season than they did in 1887 88, but the supply of the Rábi was still very far below the requirements of the Bári Doáb Canal for Rabi crops

The flood which occurred in the Jumna on the 20th September 1888 was the highest which has yet passed over the Tajawála Weir, but it did not cause any serious damage to the works

On the same date a somewhat heavy flood passed down to Sutlej, and caused considerable damage to the Rupar Weir owing to the weir shutters not having heen dropped in time

The torrents crossing the main line of the Sirhind Canal were in unusually heavy flood at the same time, especially the Siswan, where the water nearly topped the side walls of the superpassage

On the Bári Doáb Canal the training works on the Chakki torrent at Dhangu sustained considerable damage

14 In the Kharif season the rainfall to the east of the Sutlej was about normal and, with the exception of the storm which passed up from Delhi to the Himalayas in the third week of September, fairly well distributed To the west of the Sutlej the rains ceased at the end of August

In the Rabi season there was no rain of any consequence till quite the end of January, but the rainfall at that time and during February was both general and heavy

15 The duty, or area irrigated per cubic foot of water entering the canal, on the perennial canals is shown in the following table for the last five years —

| Canal | Area irrigated per cubic foot | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 1884 85 | | 885-86 | | 1886 87 | | 1887-88. | | 1888 89 | |
| | Kharif | Rabi | Kharif | Rabi | Kharif | Rabi | Kharif | Rabi | Kharif | Rabi |
| Swat River | | | | 152 | 62 | 188 | 84 | 145 | 61 | 158 |
| Western Jumna | 94 | 81 | 86 | 70 | 66 | 110 | 90 | 32 | 69 | 72 |
| Bári Doáb | 48 | 115 | 59 | 140 | 69 | 123 | 61 | 123 | 62 | 139 |
| Sirhind | | | 57 | 126 | 46 | 88 | 57 | 107 | 61 | 119 |

The duty on the Western Jumna Canal is lower than it should be in both seasons owing to the supply being in excess of requirements, but an improve ment in the duty of this canal may be confidently looked for when the Sirsa Branch is opened for irrigation

The Bári Doáb and the Sirhind Canals show an improvement in both sea sons, and the Swát River Canal an improvement in the Rabi the falling off in the duty on the last named canal in the Kharif may be ascribed to the larger area of rice irrigated

16 The Miscellaneous Receipts for the last five years are as follows —

| Year | Miscellaneous Receipts |
|---|---|
| | R |
| 1884 85 | 2,08 141 |
| 1885 86 | 2,73 568 |
| 1886 87 | 2 28 470 |
| 1887 88 | 3 13 700 |
| 1888 89 | 3,47,921 |

The increase over 1887 88 is mainly due to larger receipts under water power

17 The Western Jumna and Sirhind Canals are the only ones which are navigable, and the receipts and charges connected with navigation on them during the last three years are shown in the following table —

| Year | Western Jumna | | | Sirhind | | | Total | | |
|---|---|---|---|---|---|---|---|---|---|
| | Receipts | Charges | Profit or Loss | Receipts | Charges | Profit or Loss | Receipts | Charges | Profit or Loss |
| | R | R | R | R | R | R | R | R | R |
| 1886-87 | 19,473 | 5 216 | +14 257 | 8 789 | 21 803 | —13 014 | 28 262 | 27 019 | + 1 243 |
| 1887 88 | 39 474 | 9,101 | +30 373 | 12 105 | 18 803 | — 6 698 | 51 579 | 27 904 | +23 675 |
| 1888-89 | 44 658 | 7,405 | +37 253 | 11 288 | 13 894 | — 2 606 | 55,946 | 21 299 | +31,647 |

The figures for the Sirhind Canal include both "Imperial" and "Contributions" The bulk of the receipts belongs to the raft traffic, the tolls from boats only amounting to about R5,000 per annum the raft traffic is being carefully watched, and steps are being taken to encourage it as far as possible by judicious alterations in the rates

18 The working of the Native States Branches of the Sirhind Canal has been reviewed in paras 127 to 133 of the Chief Engineer's Report As might be expected, the progress has not been nearly so rapid as on the British Branches, nor has the same duty been got out of the water, but the following table shows that the irrigated area is steadily rising and there is every reason to hope that, with the aid of the Engineer Officers who have been lent to the Patiála State, still better results will be shown in the future —

| Year | Areas irrigated from the Native States Branches | | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | Patiala | | | Nabia | | | Jhind | | | Total | | |
| | Kharif | Rabi | Total | Kharif | Rabi | Total | Kharif | Rabi | Total | Kharif | Rabi | Total |
| | Acres | Acres | Acres | Acres | Acres | Acres | Acres | Acres | Acres | Acres | Acres | Acres |
| 1886-87 | 5 651 | 42 26 | 47 920 | 704 | 5 895 | 6 599 | 1 892 | 7 396 | 9 288 | 8 247 | 55 560 | 63 807 |
| 1887 88 | 27 032 | 50 94 | 77 931 | 3 828 | 5 105 | 8 933 | 3 756 | 5 871 | 9 62 | 34 616 | 61 92 | 95 541 |
| 1888-89 | 39 440 | 82,46 | 121 901 | 2 880 | 5 107 | 7 987 | 5.447 | 4 899 | 10 34[illegible] | 47 767 | 92 467 | 140,234 |

The value of crops irrigated by the Native States Branches is estimated at R37,71,433

19 The project for the Sirsa Branch of the Western Jumna was sanctioned during the year, but work was not actually started as the alignment had to be laid down The project for the Jhelum Canal was also sanctioned, and the first forty miles of the main line were marked out on the ground but it was subsequently agreed that preference should be given to the completion of the Chenáb Canal with permanent head works, the estimates for this latter work were in a forward state by the end of the year

Estimates were submitted during the year for three small canals from the Rávi River in connection with the weir at the head of the Sidhnai Canal, and towards the close of the year permission was accorded by the Government of India to proceed with one of them, the Koranga Canal

Surveys for inundation canals from both banks of the Chenáb River in the Shahpur and Jhang Districts were practically completed during the year, also surveys for the extension of the Swát River Canal across the Kalpani Nadi into the Utman Bulak country and for the extension of District Canals near Peshawar

20 The Lieutenant Governor is glad to be again able to heartily congratulate Colonel Home and the Officers of the Irrigation Department on the results achieved

The revenue depending on the canals classed as Minor Works, which are all Inundation Canals, is almost all fixed revenue, so that there is no room for great variations in collections, but with the exception of the Indus Canals, which are difficult to maintain, these canals are working well, and the increase of net revenue due to decrease of working expenses is satisfactory

In respect to the canals shown as Major Works, which class includes all the Perennial Canals, the returns show an increase of eight lakhs in revenue assessed and of more than three and a half lakhs in collections Almost all these canals again show an improvement this year, and in the case of the two which do not, the causes were of a temporary and unavoidable nature The growth of irrigation by the canals of all kinds is indicated in a marked way by the further great rise of 67 lakhs in the year's estimates of value of canal irrigated crops, and the increase of produce which this implies in a country like the Punjab will be recognised when it is remembered that with our rainfalls in some districts no cultivation, and in many others nothing but a precarious growth of the poorer crops are possible without irrigation

The complete final success of the Bári Doáb Canal, the very promising start made by the Sirhind Canal, and the immediate full development of the Swát and Sidhnai Canals, are, in such a country, with its large rivers commanding huge areas of arid waste, facts of the highest importance they show that we can find room for the growth of the population and can improve the country immensely with benefit alike to the people and to the revenues of the State

By order of the Hon'ble the Lieutenant Governor,

F J HOME, *Lieut Colonel, R E*,
*Offg Joint Secretary to Government, Punjab*
*P W Dept Irrigation Branch*

**ADMINISTRATION REPORT OF IRRIGATION WORKS IN THE MADRAS PRESIDENCY FOR 1888 89**

No. 41 I Dated Calcutta the 1st March 1890

RESOLUTION—By the Government of India, Public Works Department

**Read—**

Administration Report of Irrigation Works in the Madras Presidency for 1888 89

OBSERVATIONS —The number of works in each class for which Capital and Revenue Accounts are kept, excluding those under investigation only, remains the same as for the previous year The Capital expenditure on the three classes, during and up to the end of the year, is shown in the following statement —

| | Number of Works | During the year 1888-89 | | | | | | | Total direct and indirect to end of 1888-89 |
|---|---|---|---|---|---|---|---|---|---|
| | | Work | Establishment | Tools and Plant | Suspense account | Total direct charges | Indirect charges | Total direct and indirect charges | |
| | | Rs | Rs | Rs | Rs | Rs | Rs | Rs | Rs |
| *Major Works* | | | | | | | | | |
| Protective Works | 1 | 2,12,822 | 40 351 | 7 551 | | 2 60 724 | 38,608 | 2,99 332 | 12 79 122 |
| Productive Works | 9 | 9 45 630 | 2,09 496 | 2 23 758 | —983 | 13 77 901 | 64,979 | 14 42 880 | 5 31 54,878 |
| *Minor Works and Navigation* | | | | | | | | | |
| Works for which complete Capital and Revenue Accounts are made up | 5 | 2 45 814 | 52 588 | —3 751 | | 2 94 651 | 15,271 | 3 09 922 | 1,20 55 131 |
| Total | 15 | 14 04 266 | 3 02 435 | 2,27,558 | —983 | 19 33 276 | 1 18,858 | 2 52 134 | 6,64,89 131 |

2 The expenditure on Major Works was principally confined to the Rushikulya project, the Kistna Delta System and the Períyar project In the first of these, progress was made with the dam for the Russellkonda Reservoir In the Kistna Delta the widening of the Masulipatam and Bank Canal was proceeded with In the Períyar project the expenditure was considerably less than the grant, work being delayed by repeated accidents to the ring bunds and to a portion of the temporary dam being washed away The principal outlay was incurred on preliminary operations In the case of the minor works for which Capital Accounts are kept the principal outlay was on the Buckingham Canal, for which no grant from Protective Works was available

8 The following table shows the revenue and working expenses, ex cluding the interest charges, of the 13 Major and Minor Works in operation, as recorded in Statement II of the report —

| | Capital outlay | Gross Revenue received in 1888-89 | | | Working Expenses | | | Net actual Revenue | Deduct—Receipts and charges on account of old irrigation | Net Revenue attributable to outlay of Government Capital | Percent of return |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | Irrigation Revenue. | Miscellaneous Receipts | Total | Direct. | Indirect | Total | | | | |
| *Major Works* | Rs. | Rs | Rs | Rs | Rs | Rs | Rs. | Rs | Rs | Rs. | Rs |
| Godávarí | 1 26,40 748 | 21 68 816 | 1 06 645 | 22 75 461 | 6,32 721 | 35,292 | 6 68 013 | 16 07 448 | 99 210 | 15 08 238 | 11·9 |
| Kistna | 89 71 944 | 15 70 020 | 46 637 | 16 16 657 | 4 02 574 | 19 1,8 | 4 21 752 | 11 94 905 | 66 757 | 11 28 148 | 12 5 |
| Pennér | 18 53 713 | 2 29 387 | 372 | 2 29 759 | 47 636 | 976 | 48,612 | 1 81 147 | 86 411 | 94,736 | 5 1 |
| Sangam | 35 71 886 | 2 20 011 | 1 417 | 2 21 428 | 70 715 | 1 695 | 72 410 | 1 49 018 | 1 05 590 | 43 428 | 1 2 |
| Karnúl | 2,16,42 645 | 76,377 | 5 169 | 81 546 | 1 46 8[illegible]5 | 4,23[illegible] | 1 51 097 | —69 551 | | —69 551 | |

Of these the Kistna system is still incomplete, and the Sangam system is not yet in full working order The poor returns on account of the Madras water-supply project are partly due to only Rs 11,655 having been received by Govern ment on account of the water supplied to the Municipality of Madras Nothing is said in the report as to the quantity of water supplied, or the rate paid for it, and information on this point is requested The working of the Karnul Canal resulted in a deficit of Rs 69 551 , the area irrigated shows an increase of 20,566 acres over the previous year This was partly due to scanty rainfall, which also led to a reduction of half the water rate on dry crops Moreover, liberal concessions were made to cultivators willing to take up blocks of waste land under this canal, water being given free of charge for 5 years and at half rates for 5 years, and 4,459 acres have been so occupied The result was that the average rate per acre paid on the whole irrigated area fell from Rs 3 19 to Rs 2 59 The Buckingham Canal is responsible for more than half the outlay on minor works, and its revenue does not meet its working expenses

4 In the statements attached to the report (I C to IV C) on the revenue side of the account the share of the receipts due to the old irrigation, and on the expenditure side the old maintenance charges have been excluded These have again been calculated in the complicated manner which was commented upon in the review of the previous year's report In letter No 184 I of 14th September 1889, the Government of India invited the attention of the Government of Madras to the expediency of crys tallizing these old receipts and charges, and suggested figures based on a five years average at which they might be finally fixed In reply to this request the Government of Madras has intimated (letter No 495 I of 12th Octo ber 1889) that the question is now under consideration, but that the proposals made cannot be finally adopted until the accounts for the current official year are dealt with The system of calculating the revenue due to irrigation in the Madras Presidency is exceedingly complicated, and is unlike that which obtains in any other part of India, and it is therefore eminently desirable that

any measure tending to simplify the system and to shew correctly the great service rendered by the irrigation works to the country, should be introduced without delay The figures in para 3 are worked out on this simplified system The share of receipts due to the old irrigation in the year under review was Rs 30,26,526, and the old maintenance charges were Rs 3,91,911

5 In the statement in para 3 the Miscellaneous receipts are those realised in the Public Works Department, principally on account of navigation The irrigation receipts are those realised in the Revenue Department, the details of which are as follows for the 13 Major and Minor Works in operation –

| | Rs |
|---|---|
| Share of Land Revenue due to Irrigation | 74,18 623 |
| Share of enhanced Land Revenue | 4 83 131 |
| Outstandings paid during year | 2,48 590 |
| Grand Total | 81,50,344 |

The manner in which the irrigation revenue is calculated was explained in para 6 of last year s review The above figures do not include the deduction of 5 per cent on the revenue on account of collection charges in the Civil Department, which amounted to Rs 2 46,196

6 In the following statement the true irrigation receipts are compared with the area effectively irrigated for first and second crop as shown in the detailed canal reports The corresponding figures for the previous year are also given for purposes of comparison —

| | Revenue derived from irrigated lands | | Area irrigated | | Rate per acre | |
|---|---|---|---|---|---|---|
| | 1888-89 | 1887 88 | 1888-89 | 1887-88 | 1888-89 | 1887-88. |
| | Rs | Rs | Acres | Acres | Rs | Rs |
| Godávarí | 21 65,816 | 20,59 625 | 651,619 | 608 696 | 3 3 | 3 3 |
| Kistna | 15 70 020 | 14 67 333 | 416 205 | 387 505 | 3 7 | 3 8 |
| Pennér | 2 29 387 | 2 55,951 | 59 658 | 64 987 | 3 8 | 3 9 |
| Sangam | 2,20 011 | 2,06 786 | 55 938 | 51 593 | 3 9 | 3 9 |
| Karnul | 76 377 | 56 284 | 34 999 | 21 927 | 2 2 | 2 5 |
| Barur | 3 565 | 2,105 | 1 344 | 492 | 2 6 | 4 2 |
| Cauvery | 33 42 120 | 29,06 773 | 1,007,136 | 937,634 | 3 3 | 3 1 |
| Srivaikuntham | 1,84,491 | 1,86,791 | 40,420 | 40 632 | 4 5 | 4 5 |
| Total Productive Works | 77 94,787 | 71,41,648 | 2,267,314 | 2,113,766 | 3 4 | 3 3 |
| Chembrambákam | 57,398 | 48,868 | 19 416 | 16 186 | 2 9 | 3 0 |
| Palar | 2,63 778 | 2 47,673 | 97 023 | 91 479 | 2 7 | 2 7 |
| Pelandorai | 12 186 | 9,741 | 4 529 | 3,765 | 2 6 | 2 5 |
| Madras | 22,195 | 20,265 | 10,251 | 9 235 | 2 1 | 2 1 |
| Total Minor | 3,55,557 | 3,26,547 | 131 219 | 120 663 | 2 7 | 2 7 |
| Grand Total | 81 50,344 | 74 68 195 | 2 398,533 | 2,234 429 | 3 4 | 3 3 |

7 A large amount of concealed cultivation was brought to light in the Kistna Delta, and the Madras Government is requested to state whether any measures have been adopted to ensure the detection of similar frauds in other districts and to prevent their repetition It should also be stated when the new figures of the revenue survey of the Cauvery Delta are likely to be available for the purpose of checking the irrigated area.

8 A noticeable feature in the report is the prevalence of much higher rates on the Srivaikuntham irrigation than anywhere else The figures are as follows —

| | Srivaikuntham | Cauvery | Barur | Sangam | Pennér | Kistna. | Godávari |
|---|---|---|---|---|---|---|---|
| | Rs | Rs | Rs | Rs | Rs | Rs | Rs. |
| 1st crop | 5 79 | 3 00 | 3 43 | 3 93 | 3 56 | 3 39 | 3 13 |
| 2nd " | 3 06 | 2 29 | 0 96 | 2 58 | 2 66 | 2 08 | 2 57 |

Under the Srivaikuntham also the area of second-crop irrigation bears a much higher proportion to first crop irrigation than elsewhere, the figures being of first crop 21,506 acres, and of second crop 18,914 acres It is understood that in the Southern Districts of Madras the first crop or Kar is a short one, lasting from May or June to August, while the second crop (Peshanum or Shambu) lasts from August to December, and is the more valuable of the two In the northern districts, on the other hand, the first crop is a long crop, remaining five or six months in the ground and much the more valuable of the two Under these circumstances the question suggests itself whether the irrigation rates quoted above bear the relation they should bear to the value of the crop raised, and whether the first crop rates in the northern districts could not bear enhancement The Governor General in Council will be glad to learn the views of the Government of Madras on this suggestion

9 The Miscellaneous receipts comprise the following items —

| | 1888 89 | 1887 88. |
|---|---|---|
| | R | Rs |
| Navigation | 1,96 977 | 2 01 546 |
| Plantation | 13 634 | 7 589 |
| Miscellaneous | 45,277 | 53 958 |
| Less refunds | —1 875 | —1 624 |
| | 2 51 013 | 2 64 499 |

The navigation receipts were divided as follows among the different canals —

| | Length of navigable channel | Receipts | Expenditure | Value of goods | Ton mileage |
|---|---|---|---|---|---|
| | Miles | Rs | Rs | Rs | |
| Godavari | 481 | 93 271 | 74 788 | 1 80 82 324 | 102 45 080 |
| Kistna | 281 | 31 691 | 52,820 | 1 42 55 018 | 113 86 909 |
| Karnul | 190 | 1 067 | 36 661 | 3 33 325 | 135 86 333 |
| Buckingham | 262 | 70 948 | 92 431 | 1 60 17 344 | |
| Total | 1,214 | 1,96,977 | 2,56,709 | 4 86 88,041 | 352 18 322 |
| Corresponding figures of previous year | 1 189 | 2 04 546 | 2,54 614 | 5 22,57 200 | 409,64,410 |

Navigation was carried on at a loss on all canals except the Godavari The Godávari, Kistna and Buckingham Canals are worked as one system for navigation purposes one license giving the right to navigate on all three

The Madras Government is invited to consider whether in view of the annually recurring loss on navigation, the license fees might not with propriety be raised

10 The following statement shows the details of the true working expenses of the major works and of the minor works for which Capital and Revenue Accounts are kept without deducting "old maintenance charges" The figures are taken from columns 12 to 27 of Statement I C added to those in the table on pages 66 67

| | Productive Work | Minor Works | Total. |
|---|---|---|---|
| | Rs | Rs | Rs |
| Establishment, Public Works Department | 4 60 736 | 48 292 | 5 09,028 |
| Establishment, collection charges by Civil Officers | 4 42 839 | 9,996 | 4,52 835 |
| Works and Repairs | 7 32,744 | 1,71 617 | 9,04 361 |
| Tools and Plant, and Miscellaneous | 86 883 | 3 140 | 90 023 |
| Indirect | 74,021 | 6,761 | 80 782 |
| Total | 17,96,773 | 2,39 806 | 20 36 579 |

11 The working expenses per acre irrigated, calculated in the same way as in last year's review, are shown for each of the irrigation systems in the following table —

| | Total Working Expenses | Irrigated area | Rate per acre |
|---|---|---|---|
| | Rs | Acres | Rs |
| Godávarí | 6,68 018 | 651 619 | 1 02 |
| Kistna | 4 21 752 | 416 205 | 1 01 |
| Pennér | 48,612 | 59 658 | 0·81 |
| Sangam | 72,410 | 55 938 | 1 29 |
| Karnúl | 1,51 097 | 34,909 | 4 31 |
| Barur | 1 456 | 1 344 | 1 08 |
| Cauvery | 3 96 461 | 1,007 136 | 0 39 |
| Srivaikuntham | 36,972 | 40,420 | 0 91 |
| Total Productive Works | 17,96,773 | 2 267 314 | 0 79 |
| Chembrambakam | 6 528 | 19 416 | 0 33 |
| Palar | 74 387 | 97,023 | 0 76 |
| Pelandorai | 16 856 | 4 529 | 3 72 |
| Madras | 14,376 | 10 251 | 1 40 |
| Total Minor | 1,12,147 | 131 219 | 0 85 |
| GRAND TOTAL | 19 08 920 | 2 398 533 | 0 79* |
| * Total for 1887 88 | 18,07,517 | 2 234 429 | 0 80 |

12 The unrealised demands at the beginning of the year consisted of one item of Rs 32,700 on account of the Karnúl Canal At the close of the year Rs 31,576 remained unrealised on the same canal All other demands were realised The irrigation receipts are all for the Fasli year, which ends on June 30th

13 The third class of works dealt with in the report are Irrigation and Navigation Works, for which neither Capital nor Revenue Accounts are kept The irrigated area, revenue, and working expenses of this class of works are shown in the following statement —

| | Area 1st and 2nd crop | Irrigation Revenue | Rate per acre. | Working Expenses | Rate per acre |
|---|---|---|---|---|---|
| | Acres. | Rs | Rs | Rs | Rs |
| 1888 89 | 3,511,830 | 91,68,325 | 2 61 | 19,06,882 | 54 |
| 1887 88 | 3,607,321 | 94,74,377 | 2 62 | 17,19 698 | 47 |

The area irrigated was made up of 2,699,538 acres of first and 812,292 acres of second crop

14 The works for which neither Capital nor Revenue Accounts are kept, irrigate, in the aggregate, a larger area and bring in a larger revenue than the important irrigation systems The works are principally tanks, irrigating areas of from 2 or 3 to 2,000 or 3,000 acres, and the total number of them in the Madras Presidency is probably not less than 50,000 Their proper maintenance is therefore a matter of the utmost importance, and this is a measure to which much attention has been devoted during recent years

It had long been realised that the Public Works Department was not equal to the task, either as regards the staff or the funds available, of undertaking the maintenance of this enormous number of works, the large majority of which are quite insignificant individually, though collectively they are of great importance The old system had been to keep the tanks in repair by means of customary village labour, but with the advent of the Public Works Department this custom fell into desuetude One of the recommendations of the Irrigation Committee of the Famine Commission of 1877 78 was (Chapter IV of Report) that the tanks in Madras should be separated into Imperial and Minor, the former being defined as including all those irrigating more than 200 acres The Imperial tanks, it was proposed to place under the charge of the Public Works Department, and the Minor tanks under that of the villagers on the old system, the obligation to keep them in repair being rendered compulsory by legislative enactment These recommendations were accepted, but pending their final adoption the Minor tanks were placed under the charge of the Revenue officers, funds for their repair being provided in the Provincial Public Works Department Budget Subsequent consideration however, rendered it inadvisable to frame a law making village labour compulsory, and the ultimate proposal was to hand the Minor works over to the villagers to maintain, a payment up to a limit of 4 annas per acre of the area irrigable being made to them to cover the cost of maintenance On the other hand, no remission was to be granted them on account of failure of supply resulting from neglect to keep the works in repair

15 A preliminary to the adoption of this proposal was the systematic repair of the tanks, and to effect this a Tank Restoration Scheme was started in 1882 Tanks dependent on each other are placed in groups, and the requirements of each group are investigated and estimated for collectively Executive parties follow the investigating parties and carry out the works estimated for As the work is completed it was the intention to hand over all Minor tanks as above defined which do not require professional supervision, to the care of the villagers There are six investigating parties, exclusive of the central office, and the same number of executive parties The following statement shows the expenditure incurred on each —

| | Expenditure during 1888 89 | | | | | Expenditure to end of 1888 89 |
|---|---|---|---|---|---|---|
| | Works | Repairs | Establishment | Tools and Plant | Total | |
| | Rs | Rs | Rs | Rs | Rs | Rs |
| Execution | 1 41 680 | 2 09 411 | 80 750 | 5 266 | 4 37 107 | 11 85 606 |
| Investigation | 34,246 | | 96 590 | 984 | 1 31 820 | 7 86 404 |
| Total | 1 75,926 | 2 09 411 | 1 77,340 | 6 250 | 5 68,927 | 19,72 010 |

The catchment area of the basins entered upon by the investigating parties at the beginning of the year was 8,684 square miles, of which 7 233 had been completely investigated These totals were increased by the end of the year to 15 516 and 12,226 square miles respectively

16 The cost of the investigation is however, high From the figures given on page 68 of the report for the different investigating parties, it appears that estimates to the amount of Rs. 16,36,847 had been sanctioned up to the end of the year, while estimates to the amount of Rs 3 85,998 had been prepared and were under disposal It has therefore cost Rs 7,86,404 to prepare estimates to the aggregate amount of Rs 20 22 845 The cost of preparation amounts to 39 per cent, and the Government of Madras is invited to consider whether this percentage cannot be sensibly reduced

17 It is also a question for serious and immediate consideration whether the whole system on which the Tank Restoration Scheme is based will not have

to be modified No mention is made of the fact in the report, but it is observed from Proceedings No 859 I of 2nd August 1889, that in the case of the Periya-kulam Minor basin, which was handed over to the care of the villagers in 1868, they have refused to undertake the maintenance of the tanks on the terms offered, and the opinion of the Government of Madras is that the experiment must be abandoned In lieu it is proposed to entrust the maintenance of Minor tanks to the Revenue Officers, the cost being met from the grant for Minor Irrigation Works, while tanks irrigating less than 15 acres are to be made over to the villagers on some special terms, which it is believed means a fixed dry assessment A full and early report on this subject should be submitted, as it is useless to continue to spend large sums on investigating and estimating for the requirements of works which the villagers refuse to, and the Public Works Department cannot, maintain

18 The fourth class of works dealt with in the report are Agricultural Works, which mean river embankments and conservancy The outlay on these during the year was as follows —

| | Rs |
|---|---|
| River embankments | 2 61,414 |
| „ Conservancy | 1,05,280 |
| Miscellaneous | 2,030 |
| | 3,68 724 |
| Figures for 1887 88 | 3 28,991 |

This is exclusive of the charge for Establishment and Tools and Plant

19 Nothing is recorded in respect to the irrigating duty of water for different crops, the evaporation from tanks, or other matters of professional interest The large irrigation systems of Madras should afford opportunities for interesting and useful investigation on these and kindred points

20 The report was received by the Government of India on December 3rd, its general arrangement continues excellent but there are various small discrepancies in the figures relating to the year 1887 88, which do not agree in some cases with the figures entered in the report for that year As regards these and some other minor subjects, the Government of Madras will be separately addressed

---

ORDER —Ordered, that copies of this Resolution and of the Report be forwarded to the Finance and Commerce, and Revenue and Agricultural Departments for information

Ordered also, that copies of this Resolution be forwarded to the Government of Madras for information and guidance, and that copies of the Resolution be forwarded to the Local Governments and Administrations in the Public Works Department noted in the margin, for information

The Governments of Bombay Bengal the North Western Provinces and Oudh and the Punjab.
The Chief Commissioner of the Central Provinces
The Agent to the Governor General for Rajputana

Ordered further, that this Resolution be published in the Supplement to the *Gazette of India*, and that copies of this Resolution and of the report be forwarded to Her Majesty's Secretary of State for India

J G FORBES, *Colonel, R E*,
*Deputy Secy to the Govt of India*

GOVERNMENT OF INDIA

# REVENUE AND AGRICULTURAL DEPARTMENT

## INDUSTRIAL AND MANUFACTURING EXHIBITION TO BE OPENED IN JAMAICA, JANUARY 1891

***Extract from the Proceedings of the Government of India, Revenue and Agricultural Department (Museums and Exhibitions),—No 239, dated Calcutta, the 5th March 1890***

The following papers received from Her Majesty's Secretary of State for India relative to an Exhibition to be held in Jamaica in the year 1891 are published for general information —

*Industrial and Manufacturing Exhibition to be opened in Jamaica January 1891*

COMMITTEE IN UNITED KINGDOM

*Honorary President*

The Right Hon the LORD KNUTSFORD, G C M G, &c, &c

*Chairman*

C WASHINGTON EVES Esq, F R G S

*Committee*

His Grace The DUKE OF ST ALBANS

Sir FREDERIC YOUNG, K C M G
Sir EDWARD NEWTON K C M G
Sir J R SOMERS VINE, F S S
Major General J R MANN, C M G
Sir JOHN SIMON
NEVILE LUBBOCK Esq
ALEXANDER CRUM EWING Esq
RICHARD M HARVEY, Esq F R G S
D MORRIS, Esq, M A, F L S
MAXWELL HALL Esq M A, F R A S
Dr D PALMER ROSS F R C S E
J KENYON HAWTHORN, Esq
W C C PARK Esq
SAMUEL SHORTRIDGE Esq
WM FAWCETT Esq B Sc, F L S
E A DE PASS, Esq

The Exhibition to be opened in January 1891 will be managed by a Commission, His Excellency the Governor being at the head This Commission has already been constituted by a Colonial Law

A Committee has been formed in London representing Jamaica interests in the United Kingdom, to co operate with the organizing body in Jamaica The Committee, as at present constituted is given above the consent of Lord Knutsford to act as Honorary President being especially gratifying to all connected with the Colony That the scheme has taken practical shape is proved by the fact that in the Colony alone over £16 000 has already been guaranteed out of a total of £20,000 required

The Exhibition will comprise specimens of all Jamaica products Sugar of all qualities and its allied industry of Rum manufacture Liqueurs Cordials &c Coffee Oranges Pine Apples and Fruits of all kinds Pimento Cacao Annatto Woods in all degrees of preparation for use, Spices, Condiments &c Fibres and Fibrous Materials Cinchona Bark Oils Essential Oils, Perfumes, &c, Medicinal and Economic substances, Works of Art, Pictures, Fancy Articles and Ornamental Work, Horses Cattle and Live Stock of all kinds The Botany and Geology of the Island will also be fully illustrated

There will also be exhibited specimens of goods imported into Jamaica from all countries

It is hoped that all parts of the Empire will add to the interest and completeness of this exposition by sending specimens and ornamental trophies illustrative of their productions

The attention of Merchants and Manufacturers in the United Kindom is especially invited English goods find a ready market in a Colony of nearly 650 000 people It is also desired to show the advance of science in manufacturing tropical products The Engineering Firms and Manufacturers of Machinery are requested to give their aid by exhibiting plans, drawings models and specimens, so far as convenient, of actual machinery connected with such manufactures.

Shipowners are earnestly requested to co operate by offering to take out specimens free of freight, and all who are interested in the commerce and productive prosperity of Jamaica are desired to give their help to an undertaking which must be beneficial to the Colony and all concerned in its fortunes

As the Exhibition will be made as attractive as possible, the question of hotel accommodation for visitors from all parts of the British Empire from the Continent of Europe and the United States and South America will be considered, and details published in good time

Communications and applications for forms and regulations to be addressed as early as possible to the Chairman, 1, Fen Court, London, E C

*December 1889*

---

*Regulations for the Jamaica Exhibition, 1891*

1 The Exhibition shall be one of Island Products Manufactures and Works of Art together with Exhibits of Works of Art Machinery and Industrial and Agricultural Products from Great Britain and other countries and Colonies

2 The Exhibition shall be under the management and conduct of "The Jamaica Exhibition Commissioners" under Law 33 of 1889

3 The Exhibition will be held in buildings to be erected for the purposes of the Exhibition on the grounds of "Quebec Lodge," conveniently situated on the northern boundary of the City of Kingston

4 The Exhibition shall be opened on Tuesday the 27th January 1891, and shall remain open for a period of not less than three months

5 In order to secure uniformity of action there should be in each Country or Colony a Central Committee or a single Commissioner to act on behalf of the Exhibitors Such Committee or Commissioner should perform the following functions —

(a) Distribute the Rules and Regulations, Application Forms, &c, to those likely to become Exhibitors

(b) Receive the forms when filled up, the lists of articles for Exhibition, &c

(c) Communicate upon all matters directly with the Secretary of the Exhibition, and forward to him, from time to time, any applications for space

(d) When the Commissioners shall have decided how much space is available it will be the duty of the Committee or Commissioner to divide it amongst the Exhibitors of such Country or Colony

There should also be an Agent in Jamaica for each Country or Colony The same person can, of course, act for more than one Country or Colony

6 Any expenses of whatsoever nature connected with the representation of any Country or Colony, not borne by the authorities of such Country or Colony, must be defrayed by the Exhibitors themselves

7 Applications for space must be made in the printed forms prepared by the Commissioners These must be in the hands of the Secretary on or before the 1st May 1890

8, The Secretary shall before the 1st of July 1890 notify the decision of the Commissioners, and shall state what space if any has been allotted

9 The reception of articles in the Exhibition Buildings shall commence on the 1st September 1890, and no articles shall be admitted after the 1st December 1890 Space assigned and not occupied on the 1st December 1890 shall revert to the Commissioners and shall be subject to re assignment

10 All Exhibits shall be arranged under some one of the following groups —

Group I —Raw Materials
Group II —Implements for obtaining Raw Materials
Group III —Machines and Processes used in preparing and making up the Raw Materials into Finished Products
Group IV —Manufactured Goods
Group V —Education
Group VI — Fine Arts, Literature and Science

Each of these groups is divided into classes, according to the system of general classification annexed to these Regulations (Appendix) This Appendix includes for each class a summary enumeration of the objects which it will comprise.

11. All packages from places in Jamaica containing goods intended for Exhibition must have placed on them the distinctive mark *Jamaica Exhibition*, as well as the name of the Exhibitor, and must contain a detailed list of contents

12 Packages from Great Britain or other Countries or Colonies must likewise k painted on them the distinctive mark *Jamaica Exhibition* They must be addressed to Exhibitor himself or his private Agent, if any, or to the Agent, if any, of the Countr Colony from which they are sent They must all be marked in such a way as to s distinctly the name of the Country or Colony from whence they come, and they must con a detailed list of contents, a duplicate copy of which should be sent by post to the Consign

13 Every object sent for Exhibition should be accompanied by a label statin, the n and address of the Exhibitor and the number of the group to which it belongs

14 Exhibitors outside Jamaica must provide either personally or through Agents for despatch and transmission of their goods

15 The Agents in Jamaica of the Countries or Colonies from which the Exhibits are s are expected to provide for the reception, unpacking and, at the close of the Exhibition removal of the goods

16 The Exhibits in Jamaica except in the City of Kingston shall be received by Parochial Committees in the several parishes and shall be forwarded by them to the care of Commissioners in Kingston who shall arrange them in the Exhibition and return them to Parochial Committees at the close of the Exhibition, if not otherwise disposed of Exhil in Kingston should be forwarded direct to the care of the Commissioners Individual Ex bitors may, however, if they prefer that course, either personally or through their own Agen undertake the reception unpacking, arrangement, and final removal of their goods, subject the control of the Commissioners

17 Exhibitors shall not be required to pay rent for the space occupied by Exhibits r intended for sale during the Exhibition Information as to the renting of space for the s of goods may be obtained from the Secretary

18 EXHIBITION SPACES —The space granted to a Country or Colony within the Bui ing is available for floor space, exclusive of passages for the public

19 SHOW CASES —No particular form or design is prescribed for cases, counters pl forms, &c but they must not exceed the following heights without the special written p mission of the Commissioners —

| | |
|---|---|
| Show cases and partitions | 10 feet above floor |
| Counters | 3 do do |
| Platforms | 1 foot do |

Such structures are to be erected by Exhibitors at their own cost

20 Railings of a uniform height of 2 feet 6 inches above the floor level may be erect In every instance the railings must be within the area of the space allotted

21 The putting up of decorations and sign boards and the display of printed or writt bills shall be subject to any special arrangements made by the Commissioners

22 Cases must be unpacked as fast as received and the empty cases taken away by t Exhibitors or their Agents No space will be reserved for empty cases

23 No Exhibitor shall be allowed to transfer any allotment of space or to allow a other than his own duly admitted Exhibits to be placed thereon, except by special permissior

24 Exhibitors should mark the selling price of articles intended for sale for the inform tion of visitors

25 Objects sold cannot be taken away before the close of the Exhibition without speci permission Special arrangements will be made with regard to perishable Exhibits

26 Exhibitors of apparatus requiring the use of water, gas or steam must state on appl ing for admission the quantity considered necessary Those who wish to show machinery motion must state the rate of speed at which the machine is to be driven The furnishing all countershafting pulleys, gas, water, steam &c must be at the entire expense of the Ext bitor, but under the direct control of the Commissioners or their appointed Officer

27 Spirits or alcohol oil essences, corrosive substances, and generally all substanc which might spoil other articles and inconvenience the public can be received only in so and suitable vessels of small size

28 Percussion caps fireworks, chemical matches and other similar objects can be receiv only when made in imitation and deprived of inflammable ingredients

29 Articles that are in any way dangerous or offensive shall not be admitted into th Exhibition

30 No article exhibited may be photographed, drawn, copied, or reproduced, in any w whatsoever, without the special sanction of the Exhibitor

31 Awards will be made by Committees specially appointed

32 The Commissioners will not hold themselves responsible for any loss or damage occurring to any Exhibit from any cause whatsoever, but while declining any responsibility it is the intention of the Commissioners to take such precautions as they deem necessary

33 The Commissioners reserve the right to remove the objects belonging to any Exhibitor who shall not conform to the Regulations

34 Exhibits brought into Jamaica at any port of entry will be allowed to go forward to the Exhibition Buildings, under such arrangements for supervision by the Customs Officers as may be deemed proper without examination at the port of entry, and at the close of the Exhibition will be allowed to go forward to the port from which they are to be exported No duties will be levied upon such goods unless disposed of in Jamaica

35 Immediately after the close of the Exhibition, Exhibitors whose Exhibits are not under charge of the Commissioners shall remove their effects and complete such removal within one month Goods remaining after the expiry of the month will be removed by order of the Commissioners and sold for expenses, or otherwise disposed of under the direction of the Commissioners

36 Each person who becomes an Exhibitor thereby acknowledges, and undertakes to keep the Rules and Regulations established for the government of the Exhibition

37 The Commissioners reserve the right to add to, alter amend or expunge any of the foregoing Regulations

## APPENDIX

*System of General Classification of Exhibits*

### Group I

*Raw Materials*

Class 1 Raw Materials in the *Mineral* Kingdom —

a —Minerals
b —Ores
c —Phosphates and other Natural Manures
d —Rocks and their contained Fossils
e —Mineral Springs of Jamaica their analysis and value

Class 2 Raw Materials in the *Vegetable* Kingdom —

a —*Foods* —Sugar Canes, Cereals, Root, Cacao, Kola
b —*Fruits and Vegetables* —Bananas Oranges, &c
c —*Fibres* —Sisal Hemp, Manilla Hemp, Cocoanut, Cotton, Ramie
d —*Timbers*
e —*Drugs* —Tobaccos Coca Cinchona, &c
f —*Condiments and Stimulants* —Coffee Peppers Ginger, Pimento Rum
g —*Dyes* —Logwood, Fustic Annatto
h —*Oils* —Castor Oil Cocoanut Oil Essential Oils
i — *Ornamental Plants*

Class 3 Raw Materials in the *Animal* Kingdom —

a.—Cattle and Horses Sheep, Pigs, &c
b —Poultry, Birds, Fishes Turtle, &c
c —Bees and Silk Worms at work
d —Wool Horn, Turtle Shell Corals &c.

### Group II

*Implements for obtaining Raw Materials*

Class 4 Implements used in—

Mining
Geology
Extracting Ores

Class 5 Agricultural and Horticultural Implements

Class 6 Fishing Implements Guns and Hunting Equipments

### Group III

*Machines and Processes used in preparing and making up the Raw Materials into Finished Products*

Class 7 In the *Mineral* Kingdom —

a —Potter's Wheel, &c
b.—Glass blowing
c —Making China, Firing, &c
d —Cutting and mounting Precious Stones
e —Metal Work, Blacksmith's Work, &c

Class 8 In the *Vegetable* Kingdom —

a —Sugar-machinery, curing Cacao, making Arrowroot, Tapioca, Starch, Corn Shellers and Driers
b —Fruit Evaporators, packing Oranges, &c
c —Fibre extracting, Rope-making, Mat making, Hat and Basket-making, Weaving Cotton, Paper making
d —Carpentry, Cabinet-making
e —Making Cigars and Cigarettes
f —Coffee machinery, Rum distilling
h —Apparatus for expression and distillation of Oils

Class 9 In the *Animal* Kingdom —

a —Curing Meat and Fish
b —Model Dairy, making Butter
c —Preparing Silk and Wool, and Weaving them
d —Cutting and preparing Tortoise Shell and Bones

GROUP IV

*Manufactured Goods*

Class 10 In the *Mineral* Kingdom —

a —Pottery, Glass, China
b —Jewellery
c —Sewing Machines, Needles and other Apparatus for making up Clothing
d —Apparatus for Heating and Lighting, Metal House accessories
e —Steam engines, Prime Motors
f —Goldsmiths and Silversmiths work, Bronzes, Clocks and Watches

Class 11 In the *Vegetable* Kingdom —

a —Sugar, Chocolate, Starches, Bread and Pastry
b —Preserves, Dried and Crystallized Fruit
c —Thread, Cordage, Mats, Brushes, Paper, Textile Fabrics.
d —Furniture, Wood work, Farm Buildings, Model Dwellings
e —Drugs
f —Coffee, Rum, Pepper
g —Dye stuffs
h —Oils

# JAMAICA EXHIBITION, 1891

## APPLICATION FOR SPACE

Name in full or name of Firm

Business or Profession

Address in full

General nature of goods specifying Groups in which it is proposed to exhibit (For particulars see back)

No of Square Feet.

Space applied for subject to Rules and Regulations

Signature

Date

As the allotment of space must depend upon the number of individual applications it may be found necessary to give precedence to those made at an early date It is therefore requested that this form may be **forwarded before the 1st May 1890, to**

LAURENCE R FYFE Esq
Secretary Jamaica Exhibition
Kingston Jamaica

On the allotment of space being officially notified Exhibitors will be requested to furnish the necessary information for the Catalogue

Intending Exhibitors are requested to mark under the Heads set apart for the purpose the Group or Groups in which they propose to exhibit with such details as at the present date they are able to supply

Full particulars will be found under the Appendix to the GENERAL REGULATIONS SYSTEM OF GENERAL CLASSIFICATION OF EXHIBITS

REVENUE AND AGRICULTURAL DEPARTMENT

# Weather Summary for January 1890

The weather during the past month has maintained the reputation for dryness which the present cold weather season has acquired, owing to the exceptional fineness, over by far the greater part of the country of the months o October, November and December 1889 Ordinarily January is an unsettlec month over a large part of Northern India and to a certain extent in Centra India also Depressions either formed over India or advancing across our frontier from countries further to the westward are generally fairly frequent incidents in this month s weather, and as a rule they are accompanied by general rain or the plains and snow on the hills During the month under review not only has the record of storms been a singularly light one, but the storms themselves have been exceptionally feeble and the rain and snowfall resulting from them exceedingly light On the hills to the north of Simla the snowy range during the whole of the month under review was very lightly covered, and snowfall reports subsequently received show that this deficiency is not confined to the ranges adjacent to the plains in Northern India but prevails over a very large area The Assistant Commissioner, Kulu reported at the close of the month that the season so far had been the driest and mildest on record, and that foot passengers could still cross the passes of from 10,000 to 11,000 feet in height The Deputy Commissioner, Kohat, reports that there was a good fall of snow in Thal on the 17th of January, but that the fall was followed by rain, so that only the Sufed Koh and the highest ranges remained white

On the 1st of January a large high pressure area overlay North Western India, and extended southward over the west of the Central Provinces as far as the Deccan A second area of high pressure overlay the Upper Assam valley From these two high pressure areas readings decreased slowly in all directions and relatively low pressures were reported from Bengal and from both coasts of the Peninsula The winds blew out from these high pressure areas with the usual anticyclonic circulation of little force and the weather was fine generally These conditions lasted, with slight modifications, until the 20th when a fall of the barometer commenced in the north west and a depression began to appear over the Indus Valley This depression advanced slowly north-eastward

towards the Punjab and completely broke up the high pressure area which had previously obtained there The disturbance subsequently passed down the Gangetic plain and apparently collapsed over Bengal It was succeeded by a rapid barometric rise which re established the distribution formerly prevailing This distribution lasted until the close of the month

The only depression then of any importance during the month was that of January 20th to 25th Over Bengal, as noticed above, pressure was abnormally low throughout the month, and within this low pressure on one or two occasions small local depressions were developed Of these the least unimportant were those of the 6th, the 20th and the 27th, the first and second of which occasion ed somewhat unsettled weather

*Depression of January 20th to 26th*—On the 20th the barometer began to fall in the extreme north west, and south easterly winds appeared at one or two stations On the 21st the wind was south easterly at Karachi, easterly at Jacobabad and southerly at Quetta where the barometer had fallen Rain had occurred in the north west of the Punjab, but this was apparently connected with an independent disturbance occurring over the North West Himalaya On the 21st the chart showed that the depression from Sind had advanced north eastward to the south of the Punjab A fairly well marked cyclonic circulation of the winds prevailed around it and rain was falling on its northern side The storm apparently travelled along a curved trajectory the southern extremities of which were over Sind in the west and Bengal in the east, and of which the most northerly point was the south of the Punjab The abnormal depression of the barometer at its centre increased as the storm travelled eastward and rain fell on its northern side throughout The following table gives the amount of the barometric abnormals near the centre for each day —

| Date | Station | Amount of depression | Date | Station | Amount of depression |
|---|---|---|---|---|---|
| January 21st | Jacobabad | 0 112 | January 23rd | Agra | 0 199" |
| | Hyderabad | 0 078" | | Allahabad | 0 198" |
| | Mooltan | 0 107" | ,, 24th | Saugor Island | 0 199" |
| ,, 22nd | Jacobabad | 0 162" | | Calcutta | 0 210" |
| | Hyderabad | 0 108 | | Burdwan | 0 237" |
| | Kurrachee | 0 111" | | Berhampore | 0 23[illegible] |
| | Mooltan | 0 154 | | Purneah | 0 213" |
| | Ludhiana | 0 156" | | Gya | 0 230" |
| | Sirsa | 0 154" | 25th | Dacca | 0 188" |
| ,, 23rd | Meerut | 0 183 | | Jessore | 0 180" |
| | Bareilly | 0 189" | | | |

Strong squally winds accompanied the storm centre, and dust storms, light ning and unsettled weather were reported from most parts of Northern India during its existence

*Temperature*—The absence of rain on the plains and of snow on the hills has resulted in a generally high temperature throughout India—an excess which

was generally more marked at the hill stations than on the plains As has been frequently noticed, the temperature anomalies of Northern and Southern India were of opposite signs, thus from the 1st to the 23rd the whole of the northern and central parts of India were steadily the seat of excessive temperatures, while the Peninsula was equally steadily the seat of deficient tempera tures On the 24th a wave of relative cold commenced in the north west of India, and on the following day the mean temperature all over Madras exceeded the normal average, and throughout the whole period during which this wave of cold was crossing Northern India, the mean temperature of the south of the Peninsula was abnormally high This wave was much more severe and longer lived on the plains than on the hills, and hence during its continuance there occurred on reversal occasions that several of the ordinary relation between temperature and altitude which has so frequently been noticed, i e, the night temperatures at the level of the plains were frequently lower than those at an elevation of 7,000 feet The following table shows the progression of tempera ture week by week throughout the month for each Province —

| Province | Difference of mean temperature from normal for week ending January | | | | Difference of mean temperature from the normal for the month |
|---|---|---|---|---|---|
| | 6th | 13th | 20th | 27th | |
| Burma | +1 5 | +1 6 | +1 2 | +2 0 | +1 7 |
| Bengal | +1 3 | +2 3 | +2 4 | +1 7 | +1·3 |
| North Western Provinces | +3 0 | +3 1 | +3 7 | +1 8 | +2 1 |
| Punjab | +3 9 | +4 9 | +3 1 | +0 4 | +2 6 |
| Bombay | —0 1 | +0 2 | +0 6 | —1 1 | —0 3 |
| Central Provinces and Berar | —0 1 | +0 4 | +2 7 | —0 8 | —0 1 |
| Guzerat and Central India | +1 4 | +3 3 | +2 7 | 0 | +1 4 |
| Sind and Rajputana | +4 1 | +6 1 | +3 5 | +0 8 | +3 1 |
| Madras | —1 4 | —1 1 | —1 1 | +0 8 | —0 6 |

*Rain* —The table at the close of the Summary shows that in three Provinces in India (*viz*, North Bengal, Assam Cachar, and Lower Bengal) and in Lower Burma the rainfall of the month has been in excess and that in all other parts of the Indian region it has been in defect In Lower Burma and in Assam the excess has been considerable, but in the other two Provinces it has been slight and unimportant All over the central parts of the country, *i e*, from the Central Provinces westward across Rajputana to Sind and across Berar to the Konkan there has been no rain whatever throughout the month, while in Malabar, Behar and Orissa any rainfall has been insignificant In Upper India the average rainfall was about ¼ an inch which was about 1 inch below the normal The Carnatic received very nearly the average amount, but in Ceylon the rainfall was as deficient as in any part of India where any rain was received

The following table gives complete data and shows the actual average rain fall and the normal rainfall of the month of the twenty one districts into which

the country is divided so far as it is indicated by the telegraphic reports of a few stations in each district —

| DISTRICTS | Number of Stations | Normal average rainfall in January | Actual average rainfall in January 1890 | Difference from the average in January 1890 |

SIMLA,
*The 2nd March 1890*

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

# Weather Review of India for the week ending at 8 a m on Monday, February 24th, 1890

In the weather review of last week an account was given of the appearance of a depression on the north western frontier, which crossed North-Western India and passed down the Gangetic plain, after giving fairly general rain to the Punjab During the period covered by the present review a similar change has occurred, only on a much slighter scale The depression of the barometer was much smaller and the rainfall accompanying or following the depression was lighter and less general

The chart of the 18th exhibited the distribution of pressure which has pre vailed more or less throughout the whole of the present cold weather Readings were highest in the north west of India, low over the Bay and Bengal, and relatively low off the west coast The winds were north-westerly and westerly over North Western India and down the Gangetic plain, feebly cyclonic in Ben gal, northerly over the head of the Bay and rather variable over the Peninsula The weather was very fine, though with slight cloud in a few places On the 19th the feeble depression noticed above had appeared over Sind but in other respects the distribution of pressure and the circulation of the winds had hardly changed South easterly breezes had however, sprung up on the hills and the weather had become very cloudy over the Punjab The chart of the 20th showed that the Sind depression had advanced slightly north eastward towards the south of the Punjab Cyclonic winds prevailed over North Western India and rain had fallen at Peshawar, Murree and Quetta During the day (the 20th) further rain fell in the submontane districts of the Punjab and North Western Provinces and snow on the hills This apparently resulted in a general decrease of temperature in the north west and a strong outset of air from the hills This brought about a rapid rise of the barometer over the Punjab on the 21st and a fall of temperature over North Western India While this rise was in progress in the north west, a barometric fall occurred in the extreme south and the edge of a small local squall affected Ceylon and the extreme south of the Peninsula On the 22nd the distribution of pressure had resumed its normal cold weather condition again, and on the 23rd there was very little change of importance At Colombo a south easterly wind had sprung up and nearly one inch of rain had fallen there On the 24th the unsettled weather from Ceylon had extended over the south of the Peninsula where moderate or light rain had fallen

*Temperature*—There has been an excess of temperature in all provinces of India during the week The warmest day was the 20th when the mean temper ature was 3° or more above the normal average in Bengal the Punjab Guzerat or Central India, 4° above in the Central Provinces, and 7° above in Sind and Rajputana

The coolest day for the whole of India was the 23rd when the weather was affected by cold northerly breezes from the hills noticed above

In most provinces the weather was abnormally warm throughout the week, but in Burma one day and in the Punjab two days were cooler than usual

On the hills the excess of temperature has been small relatively to the excess which has occurred there during the past few weeks and on the 21st there was an actual deficiency

The following table shows the variations of the mean temperature of the present and of the past week from the normal average —

| PROVINCES | Difference of mean temperature of last week from normal | Difference of mean temperature of present week from normal |
|---|---|---|
| | ° | ° |
| Burma | +1 3 | +1 7 |
| Bengal | +2 2 | +3 3 |
| North Western Provinces | +4 4 | +2 9 |
| Punjab | +5 9 | +1 3 |
| Bombay | +2 7 | +2 1 |
| Central Provinces | +2 8 | +2 7 |
| Guzerat and Central India | +5 0 | +3 9 |
| Sind and Rajputana | +6 4 | +6 |
| Madras | —0 6 | +0 9 |

This table shows that except in Burma, Bengal and Madras the mean temperature relatively to the average has fallen, the change being greatest in North Western India

*Rain* —The table at the close of the summary shows that rain has fallen during the week in three regions, *viz*, the north west of India, Assam and the south of the Peninsula The fall within the first and last of these regions was due to the two disturbances noticed above, while the fall in Assam was owing to circumstances which apparently determine rain to the north east corner of India when the weather is unsettled in the north west corner The only districts in which the rainfall of the week exceeded the normal average of the period were Madras, South central and South In all the other districts where rain was recorded the amount rece ved was very light and in defect of the average In North Western India, with the exception of Sind, the districts where rain fell were either on or near the hills

The maximum falls exhibit little worthy of note In Assam, Cherrapunji and Sibsagar each received ½ inch during the week, in the submontane districts of the North Western Provinces Pithoragarh received the heaviest fall, *viz* ½ inch, in the hill districts of the Punjab Palampur received nearly ½ inch and in the north western districts of the same province Kallanga (Peshawar district) received 2½ inches This was by far the largest amount recorded in Northern India In Sind the slight rain which fell occurred in the Sukker district In the south of the Peninsula Ponani in the Calicut district of Malabar received 1½ inches and Ambasamudram in Tinnevelly received 3 05 inches This was the heaviest fall throughout India In addition to the above, Jubbulpore reports a slight local shower on the 24th The figures in the final column of the table have not been materially changed by the records of the past week

| Province | Division | Rainfall data for week ending 24th February 1890 | | | Rainfall data from October 15th to 24th February 1890 | | |
|---|---|---|---|---|---|---|---|
| | | Average actual rainfall of Division | Average normal rainfall of Division | Excess or defect in inches | Average actual rainfall of season to date | Average normal rainfall October 15th to February 24th | Excess or defect of (seasonal) rainfall expressed as a per centage |
| | | Inches | Inches | Inches | Inches | Inches | Per cent. |
| Burma | Tenasserim | 0 | 0 | 0 | 19 70 | 5 33 | +270 |

REVENUE AND AGRICULTURAL DEPARTMENT

# Weekly Report on the State of the Season and Prospects of the Crops

**Madras** —*For week ending 1st March* —Rainfall moderate in the Nilgiris and Tinnevelly, slight in Tanjore Madura, Trichinopoly, Coimbatore Malabar, none elsewhere Crops generally good but withered in parts of Nellore Chingleput, South Arcot, Tanjore, Tinnevelly, Coimbatore, and Salem Paddy blighted in parts of North Arcot Prices generally rising Prospects fair More rain has fallen since in Tinnevelly

**Bombay** —*For week ending 5th March* —Slight rain in parts of Karachi and Ahmedabad Cotton blighted in parts of Dharwar, and crops generally in some talukas of Sind damaged by blight, frost or locusts Wheat in Upper Sind Frontier and crops generally in Poona Satara and parts of Nasik below average Prospects otherwise good Probable outturn of opium in Baroda 12 annas

**Bengal** —*For week ending 4th March* —A few local showers of little importance reported in South Bengal, Orissa, and Behar Rain wanted in places in the Rajshahye and Chittagong divisions but general agricultural prospects on the whole continue satisfactory All cold weather crops, including poppy and tobacco, are generally in good condition, and harvesting in progress Sugar manufacture proceeding with good results in many districts Spring rice nearly transplanted and doing well Cultivation for early rice and jute going on in some districts and in Behar sowing of indigo begun Prices remain almost stationary, but at Balasore common rice has fallen from 19 to 21 seers per rupee In Balasore the two tracts, called Jalpada tract and Somnathpur tract comprising respectively the southern portion of Balasore thana with the north eastern corner of Soro thana and part of the western side of Balasore thana, are the worst in the area in which distress is apprehended In Jalpada tract test relief works on a small scale opened, and destitute persons being fed at Government expense In Somnathpur tract no necessity for affording immediate relief the employment obtainable during the shipping season being sufficient at present

**North-Western Provinces and Oudh** —*For week ending 5th March* — Weather generally cloudy with light rain here and there but more is wanted Slight hail fell in the Rae Bareilly district but did no injury Harvesting has begun in most of the eastern districts Unirrigated crops are suffering in Cawnpore, Sitapore, Agra, and Saharanpore Poppy is in good condition, but third sowings have partially failed in Ballia Markets are full, but prices show a tendency to rise

**Punjab** —*For week ending 5th March* —Rainfall slight in Lahore Rawal pindi, and Peshawar Prices stationary in Ferozepur and Dera Ismail Khan and rising elsewhere Sowings of extra *rabi* crops in progress Ploughings for *kharif* commenced in Jullundur and Lahore and sowings in Shahpur Crops are suffering for want of rain in most districts If the rain does not fall soon the wheat will be a total failure in Umballa Locusts visited Amritsar and Tank (Dera Ismail Khan) and caused slight harm to the crops in the latter place Fodder sufficient except in Hissar, Jullundur, Lahore, Mooltan Dera Ismail Khan and parts of Rawalpindi

**Central Provinces** —*For week ending 5th March* —Cloudy with light rain *Rabi* crops being harvested Slight damage by rain and hail in Jubbulpore, and general prospects continue fair Prices steady

**Burma** —*For week ending 1st March* —Slight rain fell in Moulmein and Amherst but nearly 2 inches in Mergui In Upper Burma no rain fell The

crop prospect remains good The price of paddy has fallen in Sandoway, Prome, Bassein, and Thongwa and risen slightly in Thayetmyo In Upper Burma prices show no fluctuations except in Pyinmana where the price has fallen

**Assam**—*For week ending 5th February*—Weather seasonable* Slight rain in some districts Crushing of sugarcane, gathering of mustard and ploughing for early rice still continue Tea doing well

## MILITARY DEPARTMENT

*Fort William, the 14th March 1890*

### ORGANIZATION

#### NATIVE ARMY

**No 231**—With the sanction of Her Majest Government, the Governor General in Coun is pleased to notify that it has been decided create a military force for service in Burma, a part of the Madras Army

2 This force will consist in the first instan of three battalions to be formed from the f lowing Burma Military Police corps —

The Kubo Valley Police Battalion
The Chin Levy
The Shan States Levy

3 These corps will be converted into lo (Burma) battalions of the Madras Army a will receive the numbers to be published he after, of three regiments of Madras Infan which they are to replace The Native office non commissioned officers and men now servi in the line regiments will be transferred to oth regiments, pensioned or discharged in the m ner hereinafter stated

4 These corps will ordinarily be stationed Burma but will be recruited for general serv

5 The strength of each of the three cor above mentioned will be as follows organized eight companies —

1 Commandant
2 Wing commanders the senior to be 2nd command)
5 Wing officers (of whom one will be adjutant a another quartermaster)
1 Medical officer
8 Subadars (one of whom will be subada major)
8 Jemadars (on of whom will be Native adjutar
41 Havildars (including one havildar major)
40 Naicks
16 Drummers or buglers
720 Sepoys

6 The British officers including commar ants will be selected (by the Commander Chief Madras) as far as possible from voluntee from the Madras Army and those British office now serving with the police battalions abc to be converted to whatever Presidency th may belong, will receive suitable appointmer in the new corps should they be willing to r main with them and if it be desired to ret their services with them

7 The rule (Article 266 Clause (*a*) Arr Regulations India Volume I Part I) requir commandants to vacate on completion of sev years tenure will not for the present be appli to the commandants of the corps now formed

8 The pay and allowances of the British o cers of these corps will be the same as the allowed for the Native Infantry of the Indi Army but in consideration of the circums anc of local service in Burma each British offic will receive in addition a local allowance R100 per mensem and will also be eligible the indulgence of three months privilege lea in each year

9 The British officers of these corps as b longing to the Madras Army will be eligil for general staff employment in the same w as all other officers of the Army Exchang will be permitted between the officers of t

Burma battalions and those of the ordinary line regiments of the Madras Army and transfers between these corps will be allowed to take place, at the discretion of the Commander in Chief

10 Probationers for the Madras Staff Corps may be appointed direct to these corps in succession to vacancies without first going through a course of duty with other regiments of the Madras Army

11 The native officers non commissioned officers and men now serving in the abovementioned levies will be eligible to continue therein on the terms now laid down

12 The following rates of pay are sanctioned for the Native ranks of these corps, *viz* —

Pay, including cantonment batta as laid down for Madras in Army Regulations India Volume , Part II Articles 45 C and 68 D *plus* the following monthly Burma allowance in lieu of extra batta allowed to Madras troops in Burma, —*vide* Article 110, Clause (*a*) of the same Regulations —

| | R |
|---|---|
| Subadar major | 50 |
| Subadar | 30 |
| Jemadar | 15 |
| Havildar | 7 8 |
| Naik | 6 |
| Drummer bugler and sepoy | 2 |

13 Good conduct pay will be given as laid down in Articles 85 and 86 of the regulations above quoted

14 The conditions of service as regards enlistment kit money clothing half mounting discharge pensions and free quarters will be the same as those now in force for regiments of the Madras Army in Burma

15 Former service in the police battalions and in the Army will count towards the period of service required for the grant of good conduct pay and pension

16 All ranks including Native officers will be granted free rations as in Army Regulations India Volume V paragraph 5-2

17 Furlough and leave will be granted under the regulations in force in the Bengal Army

18 The indulgences conceded to the military police in regard to families will be continued on the transfer of these corps to the Madras line *viz* —

(*a*) Native officers will be permitted to take their families to Burma on payment of half passage money

(*b*) Twenty per cent of havildars, 20 per cent of naiks and 5 per cent of drummers, buglers and sepoys will be allowed a similar indulgence free of cost

(*c*) Free accommodation will be provided for families to the above extent

The term ' families is held to apply to wives and children only

19 Soldiers serving in one battalion will be able to transfer to either of the other two cal battalions, as the exigencies of the service may require

20 These corps will be brought up to the strength shown in paragraph 5 as early as practicable by volunteers from other police battalions, and by the enlistment of recruits under the conditions herein laid down care being taken to bring into each corps only men of the classes of which the corps will be composed, as shown below

21 The composition of these battalions will be as under —

(*a*) The corps to be formed from the Kubo Valley Police Battalion,—Three companies of Gurkhas and five companies of Assamese hill men

(*b*) The corps to be formed from the Chin Levy —Four companies of Sikhs and four companies of Panjabis

(*c*) The corps to be formed from the Shan States Levy —Five companies of Sikhs and three companies of Panjabis

Hereafter Karens Shans and Kachins may be enlisted for these corps

22 Having in view the excess of senior officers at present in the Madras Army and the impossibility of finding employment for the commandants to be displaced three commandants of the Madras Army or officers of that standing to be selected by the Commander in Chief in that Presidency will be eligible to retire on a pension of £150 per annum in addition to the pension to which they are entitled under the regulations

23 The Native officers non commissioned officers and men now serving in the regiments of Madras Infantry which are to be thus localized will cease to be borne on the rolls thereof from the 15th April next and will be disposed of as follows —

(*a*) Native officers non commissioned officers and men who have served for pension for 25 years and upwards will be transferred to the pension establishment on the superior rate of pension of their rank (irrespective of the period they may have served therein) *plus* rice compensation

(*b*) Native officers non commissioned officers and men of 15 years service and upwards will be transferred to the pension establishment on the ordinary pension of their rank (irrespective of the period they may have served therein) *plus* rice compensation with the option, in the case of non commissioned officers and men, of joining the garrison reserve

(*c*) Native officers non commissioned officers and men of more than 10 and less than 15 years service to be transferred to the pension establishment on two thirds of the ordinary rate of pension of their rank (irrespective of the period they may have served therein) *plus* rice compensation with the option in the case of non commissioned officers and men of joining the garrison reserve

(*d*) Non commissioned officers and men of more than 5 years and less than 10 years service will receive a gratuity of one month s pay (including good conduct pay) for each year of service and join the active reserve or have the option of being transferred to other regiments

(*e*) Non commissioned officers and men of less than five years service will have the option of joining the active reserve or of being transferred to other regiments

24 The restriction as to the number of men (160) to be permitted to join the Active Reserve of any one battalion is temporarily suspended in regard to the battalions to be broken up and non commissioned officers may be accepted for both the Active and the Garrison Reserve of those battalions without regard to the number of privates therein

25 Reservists of the battalions to be broken up will be allowed the option of joining the Re

serves of the battalions linked to the one to which they belong or of taking their discharge

26 The British officers now serving with these regiments, unless previously transferred to the new local battalions or to other regiments will be eligible to draw their present allowances up to the 30th April next

### Acts of the Governor General's Council assented to by the Governor General

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 14th March 1890, and is hereby promulgated for general information —

### ACT NO VII OF 1890

*An Act to enable the Comptoir National D Escompte de Paris to sue and be sued in the name of the Chief Manager for the time being of the Indian Agencies of the said Comptoir*

WHEREAS certain persons have formed themselves into a Company at Paris for the transaction of banking business under the name of the Comptoir National D Escompte de Paris

And whereas the said Company was constituted and established under and by virtue of certain resolutions passed on the 3rd and 11th June 1889, by General Meetings of Shareholders

And whereas by the Articles of Association of the said Company it is provided (among other things) that the said Company may continue to exist and carry on business for a term of fifty years from the first day of May 1889 that the shareholders of the Company shall be responsible only to the amount of their shares respectively, that the rights and liabilities attached to each share shall follow its transmission into whatever hands it may pass and that the Company may establish Agencies or Branches as well in France as in the French Colonies and abroad, such Agencies to be organized and conducted in the same manner as the Comptoir National D Escompte itself,

And whereas Agencies of the said Company have been recently established in Calcutta and in Bombay,

And whereas on the thirtieth day of April, 1862, a Convention was concluded and signed at Paris between Her Majesty the Queen of Great Britain and Ireland and His Majesty the Emperor of the French, comprising the following Articles, that is to say *First*—The High Contracting Parties declare that they mutually grant to all Companies and other Associations commercial, industrial or financial constituted and authorized in conformity with the laws in force in either of the two countries, the power of exercising all their rights, and of appearing before the tribunals whether for the purpose of bringing an action or for defending the same, throughout the dominions and possessions of the other Power subject to the sole condition of conforming to the laws of such dominions and possessions *Second*—It is agreed that the stipulations of the preceding article shall apply as well to Companies and Associations constituted and authorized previously to the signature of the present Convention as to those which may subsequently be so constituted and authorized *Third*—The present Convention is concluded without limit as to duration Either of the High Powers shall, however be at liberty to terminate it by giving to the other a year s previous notice The two High Powers moreover, reserve to themselves the power to introduce into the Convention by common consent any modifications which experience may show to be desirable

And whereas it is desirable that effect should be given to the said Convention so far as the Comptoir National D Escompte de Paris and its Agencies now or hereafter established in British India are concerned

It is hereby enacted as follows —

Title extent and commencement

1 (1) This Act may be called the Comptoir National D Escompte de Paris Act 1890

(2) It extends to the whole of British India and

(3) It shall come into force at once

Definition

2 In this Act, unless there is something repugnant in the subject or context the expressions "Chief Manager of the Agencies in British India of the said Comptoir" and "Chief Manager include any person for the time being acting as Chief Manager of the said Agencies in British India of the Comptoir National D Es compte de Paris, or being or acting as Manager of such one of the same Agencies as may be situate within the jurisdiction of the Court in which the suit or proceeding mentioned in any of the sections of this Act may be instituted or carried on

Suits by or against Comptoir to be instituted in name of Chief Manager and not to abate on his death or removal

3 On and from the commencement of this Act all suits and other proceedings whatever, for any injury or wrong done to any moveable or immoveable property of the said Comptoir, in whomsoever the same may for the time being be vested, whether in the said Comptoir or in some person or persons in trust for the said Comptoir or upon or in respect of any present liability to the said Comptoir, or upon any bonds covenants, contracts or agreements which already have been or hereafter shall be given to or entered into with the said Comptoir, or to or with any person whomsoever in trust for the said Comptoir, or wherein the said Comptoir is or shall be interested, and also all instruments and petitions to found any adjudication of insolvency in any Court against any person indebted to the said Comptoir, and liable to have been made insolvent by the laws now or at any time hereafter in force relating to insolvents in British India and generally all other proceedings whatsoever to be commenced or carried on by or on behalf of the said Comptoir or wherein the said Comptoir is or shall be interested against any person whether such person is or shall then be a shareholder or partner of or in the said Comptoir or not shall and lawfully may be commenced and prosecuted in the name of the person who shall be the Chief Manager of the Agencies in British India of the said Comptoir at the time such suit or proceeding shall be commenced as the nominal plaintiff or petitioner for or on behalf of the said Comptoir and all suits and proceedings as well for subsisting as future accruing claims debts or demands to be commenced against the said Comptoir by any person, whether such person is or shall then be a shareholder or partner of or in the said Comptoir or not, shall be commenced and prosecuted against the Chief Manager as the nominal defendant or respondent for and on behalf of the said Comptoir, and the death, removal, resignation or any other act of such Chief Manager, or his bankruptcy or insolvency shall not abate or prejudice any suit or other proceeding commenced under this Act, but the same may be continued, prosecuted and carried on or defended in the name of any other the Chief Manager

In criminal proceedings property of Comptoir to be describable as property of Comptoir or Chief Manager

4 On and from the commencement of this Act, in all criminal proceedings instituted or carried on by or on behalf of the said Comptoir, for fraud or injury upon or against the said Comptoir, or for any offence whatever relating to any money, notes bills effects securities or any moveable or immoveable property of the said Comptoir, or for any other offence against the Comptoir, it shall be lawful to state such mc notes, bills, effects and securities, and c moveable and immoveable property, in wh soever the same may be vested, whether in said Comptoir, or in some person or persor trust for the said Comptoir, to be the mo notes bills effects and securities or prop of the said Comptoir, or of the Chief Man of the Agencies in British India of the Comptoir, and any offence committed intent to injure or defraud the said Com shall and lawfully may in such proceeding said to have been committed with intent to in or defraud the said Comptoir or such Chief M ager and any offender may thereupon be law convicted of any such offence and in all c proceedings, in which before the commencer of this Act, it would have been necessar state the names of the persons composing said Comptoir, it shall be lawful and sufficie state the name of such Chief Manager and death, resignation or removal of such C Manager shall not abate or render defectiv in anywise affect or prejudice such crim proceedings

Suit against the Comptoir on contract not to be defeated because plaintiff is a partner

5 No suit which may be commenced in Court in British I against the said Comp or the Chief Manage the Agencies in Br India of the said Comp upon or arising out of any contract ent into by or on behalf of the said Comptoir be in any wise affected or defeated by re of the plaintiff therein or of any other pe who may be in any wise interested in such being a shareholder or partner of or in said Comptoir but any shareholder or par of or in the said Comptoir shall have same right of suit and remedy to be ceeded in and enforced in the same mar against the said Comptoir or such Chief Man upon any contract, and upon and for any d damage or demand whatsoever which he m have had if he had been a stranger, and n shareholder or partner of or in the said Co toir

Suit by Comptoir on contract not to be defeated because defendant is a partner

6 No suit commenced by virtue of this by or on behalf of the Comptoir in the name the Chief Manager upo arising out of any cont whatsoever, entered int or on behalf of the said Comptoir or for recovery of any debt damage or demand w soever due or owing to the said Comptoir for any other cause or any other acco shall be in any wise affected or defeated b by reason of the defendant therein, or person or persons who may be in any interested in such suit being a shareho or partner of or in the said Comptoir, the said Comptoir shall and may have the s right of suit and remedy to be proceeded in enforced in the same manner against any sh holder or partner of or in the said Comp either alone or jointly with any other per upon any contract, and upon and for any c damage or demand whatsoever, which the Comptoir might have had if such cause suit had arisen with a stranger and not a shareholder or partner of or in the said Co toir

7 The Chief Manager of the Agencies in British India of the said Comptoir shall have an office for the transaction of the business of the Comptoir He shall cause a memorial, in the form and to the effect set forth in Schedule A, or as near thereto as the circumstances of the case will admit of, verified by a declaration in writing made by him before a Judge of the High Court of Judicature within the jurisdiction of which his office is situated, to be enrolled amongst the records of the said High Court Such memorial shall prior to being enrolled, be signed by the Chief Manager, and shall be accompanied by or have annexed thereto or endorsed thereon, copies of the resolutions, notarial acts, articles and other instruments under which the said Comptoir is established, and copies of the various rules under which the business of the said Comptoir is conducted The memorial shall set forth the situation of the office of the Chief Manager, and of every other office and place in British India in or at which the business of the said Comptoir is carried on and it shall contain a statement of the amount both of the nominal and of the paid up capital, the number of shares into which the capital is divided the amount of each share and the amount of capital (if any) which the said Comptoir shall have set aside for working capital in British India and if the last mentioned capital is other than money then a statement of how it stands invested, and in whose name

*Chief Manager to cause a memorial to be enrolled containing certain particulars*

8 No memorial shall be enrolled unless the authority of the Chief Manager by whom it is signed and the copies of the resolutions, notarial acts, articles and other instruments accompanying the memorial shall be authenticated by the signature and seal of a notary public in France, and countersigned by Her Britannic Majesty's Consul General in Paris for the time being

*Authority of Chief Manager to be authenticated*

9 Whenever any new Chief Manager of the Agencies in British India of the said Comptoir shall be appointed or any change in, or addition to any of the facts stated in any memorial which may have been enrolled shall take place, a like memorial in the form and to the effect set forth in Schedule B, verified as aforesaid shall, within twelve months after such appointment, change or addition shall have been made be enrolled as aforesaid, specifying the name and description of such new Chief Manager and containing a statement of the change or addition which may have taken place in the facts aforesaid

*Memorial of change of Chief Manager or in facts set forth in former memorial to be enrolled*

10 If any declaration made for the purpose of verifying a memorial under this Act shall be false or untrue in any material particular the person wilfully making such declaration shall be guilty of an offence within the meaning of section 199 of the Indian Penal Code

*False declaration an offence under the Penal Code*

11 Until such memorial as first hereinbefore mentioned shall have been duly verified and enrolled no suit shall be brought by the said Comptoir under the authority of this Act, and until the memorial by this Act required to be verified and enrolled in the event of the appointment of a new Chief Manager of the Agencies in British India of the said Comptoir shall have been duly verified and enrolled the person whose name shall appear in the last memorial which shall have been duly verified and enrolled shall be liable to all such suits and executions upon judgment or decree and other proceedings under this Act, and in the same manner, as if he had not ceased to be such Chief Manager and as if no new Chief Manager had been appointed

*Comptoir not to sue till enrolment of memorial and person named in last memorial to remain liable till enrolment of fresh memorial*

12 An examined copy of every memorial enrolled pursuant to this Act certified to be a true copy by and under the hand and signature of a Registrar for the time being of the High Court of Judicature in which the same shall have been enrolled, shall be received in evidence as proof of the contents of such memorial and proof shall not be required that the person by whom the memorial purports to be verified was the Chief Manager at the time of such verification

*Examined copy to be a proof of contents of memorial*

13 Execution on every judgment, decree and order made or pronounced in any suit or proceeding in any Court in British India against the Chief Manager shall and may be issued and enforced against any property in British India belonging to the said Comptoir All the provisions of the Code of Civil Procedure as to the attachment of property before judgment and after judgment shall in all suits against the Chief Manager have full force and effect as regards property in British India belonging to the said Comptoir So long as the full amount recoverable by any person under any judgment, decree or order shall not have been recovered no execution issued from any Court in British India nor anything in this Act shall in any way prejudice or injure the right of such person to proceed in France under the privileges and powers reserved to British subjects by and under the said Convention of the thirtieth day of April 1862, for the recovery of the amount unrecovered

*Judgment or order against Chief Manager how to be executed*

*XIV of 1882*

14 No person having or claiming to have any demand upon or against the said Comptoir shall when the same has been so determined as to have been pleadable in bar against such person, bring more than one suit in respect of such demand and the proceedings in any suit which may have been brought against the Chief Manager under the authority of this Act if so determined, may be pleaded in bar of any suit in any Court in British India for the same cause against the same or any other Chief Manager and in case of any demand which the said Comptoir now has or hereafter may have upon or against any person, whether a shareholder of the said Comptoir or not and which shall have been determined in any suit commenced or prosecuted by the Chief Manager, the proceedings in such suit may be pleaded in bar of any other suit, in any such Court as aforesaid for the same demand which may be commenced or prosecuted by the same or any other Chief Manager

*No person to bring more than one suit for the same demand against any Chief Manager nor the Comptoir against any other person*

"PART III

' DELIVERY OF BOOKS

"9 Printed or lithographed copies of the whole of every book which shall be printed or litho graphed in British India after this Act shall come ito force together with all maps prints or ther engravings belonging thereto finished and oloured in the same manner as the best copies f the same, shall notwithstanding any agree ient (if the book be published) between the printer and publisher thereof be delivered by the printer at such place and to such officer as the Local Government shall by notification in the fficial Gazette, from time to time direct and ree of expense to the Government, as follows, hat is to say —

Copies of books print d after commencement f Act to be delivered ratis to Government

(*a*) in any case within one calendar month after the day on which any such book shall first be delivered out of the press, *one* such *copy* and,

(*b*) if within one calendar year from such day the Local Government shall re quire *the printer to deliver other such copies not exceeding two in number* then within one calendar month after the day on which *any* such requisition shall be made *by the Local Govern ment* on the printer, another such copy, or *two* other such copies, as the Local Government may direct,

the copies so delivered being bound, sewed or stitched together and upon the best paper on which any copies of the book shall be printed or lithographed

"The publisher or other person employing the printer shall, at a reasonable time before the expiration of the said month supply him with all maps, prints and engravings finished and coloured as aforesaid which may be necessary to enable him to comply with the requirements aforesaid

" Nothing in the former part of this section shall apply to—

(*i*) *any second or subsequent edition of a book in which edition no additions or alter ations either in the letter press or in the maps prints or other engravings belonging to the book have been made and a copy of the first or some preceding edition of which book has been delivered under this Act or*

(*ii*) any periodical work published in con formity with the rules laid down in section 5 of this Act

" 10 The officer to whom a copy of a book is delivered under the last foregoing section shall give to the printer a re ceipt in writing therefor

Receipt for copies delivered under last foregoing section

11 *The copy* delivered pursuant to clause (*a*) of the first paragraph of section 9 of this Act shall be disposed of as the Local Government shall from time to time determine

Disposal of copies delivered under section 9

' Any copy or copies delivered pursuant to clause (*b*) of the said paragraph shall be trans mitted to the British Museum or the Secretary of State for India or to the British Museum and the said Secretary of State as the case may be

5 For sections 16 and 17 of the said Act the following shall be sub stituted, namely —

Substitution of new sections for sections 16 and 17 Act XXV 1867

"16 If any printer of any such book as is referred to in section 9 of this Act shall neglect to deliver copies of the same pursuant to that section, he shall for every such default forfeit to the Government such sum not exceeding fifty ru pees as a Magistrate having jurisdiction in the place where the book was printed may on the application of the officer to whom the copies should have been delivered or of any person authorised by that officer in this behalf, determine to be in the circumstances a reason able penalty for the default and in addition to such sum such further sum as the Magistrate

Penalty for not delivering books or not supplying printer with maps

may determine to be the value of the copies which the printer ought to have delivered

"If any publisher or other person employing any such printer shall neglect to supply him, in the manner prescribed in the second paragraph of section 9 of this Act, with the maps, prints or engravings which may be necessary to enable him to comply with the provisions of that section, such publisher or other person shall for every such default forfeit to the Government such sum not exceeding fifty rupees as such a Magistrate as aforesaid may, on such an application as aforesaid, determine to be in the circumstances a reasonable penalty for the default, and, in addition to such sum such further sum as the Magistrate may determine to be the value of the maps, prints or engravings which such publisher or other person ought to have supplied

Recovery of forfeitures and disposal thereof and of fines

"17 Any sum forfeited to the Government under the last foregoing section may be recovered under the warrant of the Magistrate determining the sum, or of his [suc]cessor in office, in the manner authorised by [the] Code of Criminal Procedure for the time be[ing] in force, and within the period prescribed by [the] Indian Penal Code, for the levy of a fine

"All fines or forfeitures under this Part [of] this Act shall, when recovered, be dispose[d of] as the Local Government shall from time to t[ime] direct"

Amendment of section 18 Act XXV 1867

6 In section 18 of the said Act, for the wo[rds] and figure "pursuant [to] section 9' the words, let[ters] and figure "pursuant [to] clause (a) of the first paragraph of section [9"] shall be substituted

Repeal of section 22 Act XXV 1867

7 Section 22 of the sa[id] Act is hereby repealed

GOVERNMENT OF INDIA

## LEGISLATIVE DEPARTMENT

he following Report of the Select Committee on the Bill for the Prevention of Cruelty to ls was presented to the Council of the Governor General of India for the purpose of making and Regulations on the 14th March, 1890 —

WE, the undersigned, Members of the Select Committee to which the Bill for the Prevention of Cruelty to Animals was referred have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report with the Bill as amended by us annexed thereto

From Captain R C Temple dated 14th February 1890 [Paper No 1]
From Chief Commissioner Ajmere Merwara No 229 C —690 III dated 11th February ˋo [Paper No 2]
From Chief Secretary to Government Bengal No J 5—A 2 24 dated 14th February ˋo, and enclosures [Papers No 3]
From Mr P R Desai Pleader District Court Ratnagiri dated 6th February 1890 per No 4]
From Secretary to Chief Commissioner Coorg No 191—890 dated 12th February ˋo [Paper No 5]
From Under Secretary to Chief Commissioner Central Provinces No 933—41 dated h February 1890 and enclosures [Papers No 6]
From Secretary for Berar to Resident Hyderabad No 56G dated 14th Februa y o and enclosures [Papers No 7]
From Chief Secretary to Government Bengal No J 5 A —2 25 dated 21st February o [Paper No 8]
From Under Secretary to Chief Commissioner Burma No 585—4L dated 21st Febru 1890 and enclosures [Papers No 9]
Memorandum by Nawab Meer Mahomed Ally dated 5th March 1890 [Paper No 10]
From Acting Chief Secretary to Government Madras No 408 dated 4th March o and enclosures [Papers No 11]
From Officiating Secretary to Chief Commissioner Assam No 788J dated 4th rch 1890 and enclosures [Papers No 12]

2 *Section 1* —We have proposed to enable cal Governments to extend any part of the Act to any local area and to withdraw m operation in any local area any part of the Act which has been so extended

3 *Section 2* —We have defined "animal to mean any domestic or captured ani l

4 *Section 4* —We have proposed to make the practice of "phuká an offence wher r the operation may be performed

5 *Section 6* —We have here followed the Madras City Police Act 1888 and pro ed for disabled animals being sent to an infirmary and being detained there for care and atment at the cost of their owners until they are again fit for the work or labour on ich they have been ordinarily employed

6 We have removed the section which authorised police officers to arrest without rrant persons offending against the Act

7 *Sections 8 and 10* —We have proposed to authorise Commissioners of Police and strict Superintendents of Police, as well as Magistrates, to issue search warrants on in mation in writing We have also proposed to authorise them to direct the immediate truction of an animal in cases in which they are satisfied that the sufferings of the mal are such as to render such a direction proper

8 *Section 11* —We have provided that nothing in the proposed Act shall render it offence to kill any animal in a manner required by the religion or religious rites and ges of any race, sect, tribe or class

9 The publication ordered by the Council has been made as follows —

### *A Bill for the Prevention of Cruelty to Animals*

WHEREAS it is expedient to make further ovision for the prevention of cruelty to animals It is hereby enacted as follows —

Title extent and commencement, and supersession of other enactments.

1 (*1*) This Act may be called the Prevention of Cruelty to Animals Act 1890

(*2*) This section extends to the whole of British India *and the Local Government may, by notification in the official Gazette, extend, on and from a date to be specified in the notification, the whole or any part of the rest of this Act to any such local area as it thinks fit*

(*3*) When *any part of* this Act has been extended under *sub section* (*2*) *to a local area,* the Local Government may *by notification in the official Gazette* direct that the whole or any part of any other enactment in force in the local area for the prevention of cruelty to animals shall, except as regards anything done or any offence committed or any fine or penalty incurred or any proceedings commenced, cease to have effect in *the local* area and such whole or part shall cease to have effect accordingly until the Local Government *by a like notification* otherwise directs

(*4*) *The Local Government may cancel or vary a notification under sub section* (*2*) *or sub-section* (*3*)

Definitions

2 In this Act, unless there is something repugnant in the subject or context —

(*1*) animal *means any domestic or captured animal* and

(*2*) street includes any way road lane, square court alley, passage or open space, whether a thoroughfare or not, to which the public have access

Penalty for cruelty to animals in public places or places for sale in such places of animals kill with unnecessary cruelty

3. If any person in any street or in any other place whether open or closed, to which the public have access or within sight of any person in any street or in any such other place,—

(*a*) cruelly and unnecessarily beats over drives overloads or otherwise ill treats any animal, or

(*b*) *binds or* carries any animal in such a manner or position as to subject the animal to unnecessary pain or suffering, or

(*c*) offers exposes or has in his possession for sale any live animal which is suffering pain *by reason* of mutilation, starvation or other ill-treatment, or any dead animal which *he has reason to believe to have* been killed in an unnecessarily cruel manner,

he shall be punished with fine which may extend to one hundred rupees or with imprisonment for a term which may extend to *three* months or with both [12 & 13 Vict c 92 s 18.]

Penalty for practising phúká.

*4 If any person performs upon any cow the operation called phúká, he shall be punished with fine which may extend to one hundred rupees or with imprisonment which may extend to three months or with both*

Penalty for killing animals with unnecessary cruelty anywhere

5 If any person kills any animal in an unnecessarily cruel manner, he shall be punished with fine which may extend to *two* hundred rupees or with imprisonment for a term which may extend to six months, or with both [Cf s. 3 (*1*) (*c*) ]

Penalty for employing anywhere animals unfit for labour

6 (*1*) If any person employs in any work or labour any animal which by reason of any disease infirmity, wound, sore *or other cause* is unfit to be so employed *or permits any such unfit animal in his possession or under his control to be so employed* he shall be punished with fine which may extend to one hundred rupees [Ben Act I 1869 s 5]

(*2*) *The Local Government may by general or special order appoint places to be infirmaries for the treatment and care of animals in respect of which offences against sub section* (*1*) *have been committed* [Mad Act III 1888 ss 54 et seqq ]

(*3*) *The Magistrate before whom a prosecution for such an offence has been instituted may direct that the animal in respect of which the offence is alleged or proved to have been committed shall be sent for treatment and care to an infirmary and be there detained until it is in his opinion or in the opinion of some other Magistrate again fit for the work or labour on which it has been ordinarily employed*

(*4*) *The cost of the treatment feeding and watering of the animal in the infirmary shall be payable by the owner of the animal according to such scale of rates as the District Magistrate or, in the case of an infirmary in a Presidency town the Commissioner of Police may from time to time prescribe*

(*5*) *If the owner refuses or neglects to pay such cost and to remove the animal within such time as a Magistrate may prescribe the Magistrate may direct that the animal be sold and that the proceeds of the sale be applied to the payment of such cost*

(6) *The surplus if any of the proceeds of the sale shall on application made by the owner within two months after the date of the sale be paid to him, but the owner shall not be liable to make any payment in excess of the proceeds of the sale*

en Act I 69 s 4]

Penalty for permitting diseased animals to go at large or to die in public places

7 If any person wilfully permits any animal of which he is the owner to go at large in any street while the animal is affected with contagious or infectious disease or without reasonable excuse permits any diseased or disabled animal of which he is the owner to die in any street, he shall be punished with fine which may extend to *one hundred* rupees

ct X 1882 38 39 & 40 t. c 77 3 *and* *t III 1867* ]

Search warrants

8 (1) If a Magistrate *of the first class* Sub-divisional Magistrate *Commissioner of Police or District Superintendent of Police* upon information *in writing* and after such inquiry as he thinks necessary has reason to believe that an offence against section 4 section 5 *or section 6* is being *or is about to be* or has been committed *in any place* he may *either himself enter and search or* by his warrant authorise any police officer above the rank of a constable to enter and search *the* place

of 1882

(2) The provisions of the Code of Criminal Procedure 1882 relating to searches under that Code shall, so far as those provisions can be made applicable, apply to a search under s[ub-]section (1)

Limitation for prosecutions

9 A prosecution for an offence against t[his] Act shall not be institut[ed] after the expiration of thr[ee] months from the date of the commission of t[he] offence

*Destruction of suffering animals*

*10 When any Magistrate Commissioner [of] Police or District Supe[r]intendent of Police h[as] reason to believe that [an] offence against this Act has been committed [in] respect of any animal, he may direct the i[m]mediate destruction of the animal if in [his] opinion its sufferings are such as to rend[er] such a direction proper*

*Saving with respect to religious rites and usages*

*11 Nothing in this Act shall render it [an] offence to kill any anim[al] in a manner required [by] the religion or religio[us] rites and usages of any race, sect tribe or cla[ss]*

*Provision supplementary to section 1 with respect to extent of Act*

*12 Notwithstanding anything in section [1] section 9 10 and 11 sha[ll] extend to every local ar[ea] in which any section [of] this Act constituting [an] offence is for the time being in force*

### GUARDIANS AND WARDS BILL

The Hon'ble MR SCOBLE presented the Report of the Select Committee on the Bill to consolidate and amend the law relating to Guardian and Ward He said —

"This Bill was introduced nearly four years ago by my hon'ble friend Mr Ilbert, and, as the constitution of the Council has changed considerably since its introduction, I think it desirable, in presenting the Report of the Select

Committee, to say a few words as to the objects of the measure and t general scope of its provisions.

"The Hindu and Muhammadan, as well as the English, law lays down cert general principles regarding the relationship of guardian and ward, and t application of these general principles has been regulated by several enactmer of the Indian legislature Besides the numerous local Regulations and Ac constituting Courts of Wards for the different Provinces, and defining th powers and duties, there are several Acts of this Council making provision f the care of the persons and property of Hindu and Muhammadan minors n brought under the superintendence of these Courts Act XL of 1858 w passed with this object for the Bengal Presidency, and its operation extent also to the North Western Provinces and Oudh, the Punjab, Lower Burm the Central Provinces and Ajmere Act XX of 1864 reproduces for t Bombay Presidency, with some variations, the Bengal Act of 1858 Act IX 1861 amends the law for hearing suits relative to the custody and guardiansh of minors in British India generally As regards minors who are Europea British subjects, the Supreme Courts, and afterwards the High Courts, ha jurisdiction under their Charters, and Act XIII of 1874 provided for minors c this class resident in those parts of the country to which the jurisdiction of th chartered High Courts does not extend

"In 1881 the Bombay Government drew attention to certain defects ir Act XX of 1864 and suggested an amendment of the Act in order to remove difficulties which had been experienced in the administration of minors' estate under its provisions Examination showed not only that the Bombay criticism were sound as regards the particular Act in force in that Presidency, but tha several of them were applicable to the Bengal Act also, and that there wa room for material improvement both in the form and in the substance of the Acts generally Before taking action, however, Local Governments and othe authorities were consulted, with the result that the Bill now before the Counci was introduced by Mr Ilbert on the 12th of March, 1886

"In his speech on that occasion my hon'ble friend indicated with grea clearness the lines on which the Bill had been framed

Nothing he said 'can be further from my intention than to interfere with Hindu family customs or usages, or to force Hindu or Muhammadan family law into unnatura conformity with English law But on looking into the European British Minors Act which was framed with special reference to the requirements of what may be callec English minors, it appeared to me that almost all its simple and general provisions were applicable or might with a little modification be made applicable, to Hindu anc Muhammadan as well as to English guardians Accordingly what I have done has been to take as my model the European British Minors Act which is the latest anc fullest of the Indian Acts relating to guardians and to frame on its lines an Act applicable as a whole to all classes of the community, but containing a few provisions limited in their application to particular classes It is not intended by this measure tc make any alteration in Hindu or Muhammadan family law'

"In the second place, my hon'ble friend stated—

''The Bill will not repeal or supersede the enactments relating to the different Court of Wards The provisions of those enactments,' he said 'are intimately connected witl the administrative machinery of the different Provinces and it would be either impossible or at least very difficult to supersede them by a general Act applying to the whole o India They will accordingly be left outstanding The Bill will relate only to suct guardians as are appointed or recognized by the ordinary Civil Courts and there will be an express saving for the jurisdiction and authority of the different Courts of Wards'

"Lastly, my hon'ble friend proposed,

'in deference to what appear to be the views of the High Courts on this point, that the jurisdiction of the High Courts under their Charters is to be maintainec alongside of their jurisdiction under the Act'

"Since the Bill came into my hands the principles thus laid down have beer carefully adhered to Its provisions have been most attentively considered by two Select Committees, and it has been twice referred for opinion to Local Governments If it now fails of completeness as a consolidation of the law on the subject to which it relates, it is not for want of consideration, but because con sideration has shown the difficulties which stand in the way of complete treat

ment of so complicated a subject. *Ad ea quæ frequentius accidunt jura adaptantur*: exceptional cases must be left to be dealt with by the Courts of Law, as they arise

"I do not propose to take up the time of the Council with a minute examination of the provisions of the Bill, but merely to call its attention to some of its principal enactments

"In the first Chapter a minor is defined to mean a person who, under the provisions of the Indian Majority Act, 1875, is to be deemed not to have attained his majority That Act fixes the age of eighteen as the age of majority generally for persons domiciled in British India, but it postpones it to twenty-one years in the case of minors of whose person or property a guardian has been appointed by a Court of Justice or who is under the jurisdiction of a Court of Wards In the opinion of the Select Committee it was considered desirable to adopt this definition, rather than leave the matter open to discussion Where there is a distinct provision of the law upon any particular subject, it should, I think, unless the law is shown to require amendment, be followed in subsequent legislation Acting on this principle, while adopting the definition of European British subject given in the Code of Criminal Procedure, the Select Committee has extended that definition so as to include any Christian of European descent

"In Chapter II, which relates to the appointment of guardians, we have provided (section 6) that in the case of a minor who is not a European British subject nothing in the Act shall be construed to take away or derogate from any power to appoint a guardian of his person or property, or both, which is valid by the law to which the minor is subject And we provide that the Court may, upon proper application either appoint or declare a person to be guardian, when it is satisfied that it is for the welfare of a minor that the care of his person or the management of his property should be entrusted to a guardian We thus recognize both species of guardianship—that which arises independently of, as well as that which is created by, the action of the Courts The High Court of Calcutta had expressed the opinion that, 'without compelling a *de facto* guardian in every case to come to the Court for a certificate, the Bill should be so framed as to make it necessary for guardians of large estates to place themselves under the control and supervision of the Court ' A special reference was made to ascertain the general opinion of the public on this point, with the result that the Select Committee have not adopted the suggestion of the High Court The opposite view is tersely expressed in a letter from the Government of the North Western Provinces and Oudh —

'After carefully considering the suggestion of the Hon'ble the Judges of the High Court at Calcutta, the Lieutenant Governor is decidedly of the opinion that it is undesirable to add to the Guardians and Wards Bill any provision which would have the effect of making it compulsory in these Provinces to the guardians, even of large estates, to place themselves under the control of the Civil Courts The facilities afforded by the present draft Bill for bringing estates, where that course is desired in the interests of the minor, under the charge of the Civil Courts are, he considers amply sufficient Any legislation which made it compulsory instead of optional might have the effect of deterring in many cases the fittest persons from accepting responsibility which is of an onerous nature even when exercised independently and would add largely to the work of the Civil Courts without, as far as His Honour can see securing any material compensating advantage to the estates.

"To the same effect is the opinion of the Bombay Government —

"'It appears to the Governor in Council on a consideration of the advantages and disadvantages of the proposal that every *de facto* guardian of a minor and his estate should place himself under the superintendence of the Civil Courts, to be both needless and undesirable that such an enactment should be embodied in the Bill In cases of large estates or of complicated transactions, the *de facto* guardian will almost necessarily come to the Court for his own security or will be brought into the Court by persons interested in the minor or his estate If litigation and official interference can be avoided —and in many cases they are clearly unnecessary,—it is distinctly beneficial that they should be avoided The superintendence of a Court over the minute and detailed management of a considerable property or business cannot in the opinion of the Governor in Council be exercised without a great deal of expense, and must lead to elaborate explanations and measures for putting every transaction into an indisputable shape, such as are a serious clog on the effectual administration of ordinary affairs'

"The Lieutenant Governor of the Punjab is equally adverse to the proposal The Secretary to the Government of the Punjab writes —

''As the Bill now stands, no guardian is compelled of his own motion to place himself under the control of the Court, but the Judge is empowered to apply the provisions of the law on the application of the Collector, the relative or friend of a minor, or a person desirous of being or claiming to be, the guardian of the minor It is because the Bill does not compel the Court to appoint or declare a guardian except upon good cause shown that in Sir James Lyall s opinion its provisions are not unsuitable to the present circumstances of the Punjab If, however, the suggestion made by the Judges of the Calcutta High Court is accepted rendering it necessary that in certain cases the law shall be applied, the Lieutenant Governor would prefer that the provisions of the Act should not be applied to this province until extended by a Notification issued by the Government of India on the recommendation of the Local Government It must be remembered that in the Punjab there are no large zamindari estates of the character of those existing in the North-Western Provinces and in Lower Bengal, and the Collector of a Punjab district has ample opportunities of knowing whether the interests of a minor who owns considerable property demand the assistance of the Court to secure him from loss in the management of that property Therefore to compel all guardians of large estates to place themselves under the control and supervision of the Court would be to legislate for a condition of things scarcely existent in this province, where more interference than is absolutely necessary is to be deprecated

"Raja Rajendralala Mitra in a letter of 25th October, 1889, speaking from an intimate knowledge of the feeling of Native society on the point, writes —

'It is well known that private guardians are more economical and useful than official guardians, but that such offices being entirely gratuitous there is no temptation to accept them and every attempt to make them irksome by unnecessary multiplication of duties and responsibilities by calls for periodical accounts, securities and bonds is to cause a strong revulsion of feeling which would greatly reduce the number of eligible candidates Nor is it at all required in the interests of wards and out of regard for the wills of the testators who provide for the custody of their minor sons and daughters and their property The strongest point urged refers to the submission of periodical accounts but I am disposed to think it will be of little practical utility—a vain formality at best I know of no Court which will have the patience and the leisure necessary to go through the domestic accounts of little boys and, if it did it will in the absence of a contending party do nothing to prevent waste or peculation

"It appeared to the Select Committee that there was much force in these objections, and, while giving guardians every opportunity and inducement to place themselves under the control of the Court, we have not thought it necessary or desirable to compel them to do so

"Another important question has arisen with regard to the appointment of guardians of minors who are members of undivided Hindu families My valued friend, our late colleague Rao Saheb Vishvanath Narayan Mandlik, whose assistance in the earlier labours of the Committee on the Bill I desire gratefully to acknowledge, called attention to this difficulty when the Bill was introduced, and framed a section which he considered would meet the case He proposed that, when the Court had reason to believe that the interests of such a minor were in peril, it might appoint or declare a guardian to protect those interests, under such restrictions as would prevent him from interfering unduly with the powers of the managing member of the family But upon mature consideration the Select Committee have not accepted this suggestion, which, so far as they can ascertain, is not approved by the Hindu community generally It is well pointed out by Mr Bipin Krishna Bose, Government Pleader in the Central Provinces —

"'Where the property of a minor exists in no other shape than that of an interest in undivided property of a joint family governed by the Mitakshara, it is difficult to understand how a stranger can be introduced into the family to protect the interests of the minor without interfering with the powers of the managing member and in a manner changing the constitution of the joint family

'In a joint family under the Mitakshara there is absolute unity of ownership and no member can claim to have any specific portion of the family income paid over to him as his share All he can ask for is that he may be allowed the use of the family property along with the other members For those who are interested in the welfare of a minor member, and who desire to secure to him the full fruition of his rights in the family estate the only proper remedy is to procure for him a specific share by means of partition To introduce a stranger in the joint family with powers of interference which must from the nature of the case be to a great extent vague and undefined would only lead to discord

**and disunion, and is very unlikely to bring about better management of the family estate Generally, the self interest of the managing member, and where there are other adult members, their supervision over his action, and in many cases ties of natural love and affection, would ensure proper management of the family property, in the benefit of which the minor would participate Cases are rare where a managing member, by himself or in collusion with the other members, sets about wasting the family estate with a view to sacrifice the rights of a minor member Under the Dayabhaga, however the shares of the members are numerally defined before partition, and although the particular portion which constitutes a member s share remains in an unidentifiable condition until partition he may demand and obtain of the managing member his share of the family income In such a case no disruption of the joint family would ensue if the Court were to make provision through a specially appointed manager for the disposal of a minor member s share of the profits for his sole and exclusive benefit'**

"No special provision has therefore been introduced into the Bill to meet these cases, as an adequate remedy appears to be available under the existing law

"I have now disposed of the two main points of controversy which have arisen upon this Bill Recognizing the right of the parent to appoint by will or other instrument a guardian for his infant children, the Bill also recognizes the duty of the Court to appoint a guardian where none has been appointed, and to decide between conflicting claims when several persons assert a title to the guardianship The Bill lays down certain general rules for the guidance of Courts with respect to the considerations to be observed in appointing a guardian and the most important of these will be found in sections 12, 15, 17 and 19

"The third Chapter, relating to the rights duties and liabilities of guardians, is taken principally from the European British Minors Act, and a guardian is placed in reference to his dealings with the property of his ward on very much the same footing as an executor or administrator with regard to the property of a deceased person Section 33 provides that a guardian appointed or declared by the Court may apply to the Court for advice in the execution of his duties, and will be protected if he acts in good faith on that advice This provision will, it is believed, have the effect of inducing guardians especially where large estates are entrusted to them, voluntarily to place themselves under the supervision of the Court Section 39 points out the circumstances under which the Court may interfere to remove any guardian, testamentary or otherwise, from his guardianship

'The fourth Chapter contains supplemental provisions the most important of which are those which relate to suits brought or defended on behalf of minors by next friends or guardians *ad litem* These suits are often merely vexatious but are sometimes brought *bonâ fide* for the benefit of a minor whose guardian is either careless or corrupt Section 53 endeavours to guard against abuse of the power of interference by providing that if a minor has a guardian appointed or declared by a competent authority, a next friend shall not be allowed to institute any suit on behalf of the minor except upon notice to the guardian and upon satisfying the Court that it is for the welfare of the minor that he should be permitted to do so This it is hoped, will have the effect of preventing much unnecessary litigation '

## CHARITABLE ENDOWMENTS BILL

The Hon'ble MR SCOBLE also moved that the Report of the Select Committee on the Bill to provide for the Vesting and Administration of Property held in trust for charitable purposes be taken into consideration He said —

' The object of this Bill is to provide in India an officer capable of discharging, in regard to certain classes of charities, the functions which are discharged in England by the Official Trustee of Charitable Lands and the Official Trustees of Charitable Funds, and thus to diminish the difficulty and expense which would otherwise attend the devolution of charitable property

"The scheme of the Bill has, I am glad to say met with very general approval It is admitted that the appointment of such an officer will be a convenience and advantage, as it will have the effect of securing the *corpus* of the trust property without any interference on the part of the Executive Government with the administration of the trusts themselves But doubts have been

expressed in some quarters whether the Bill does not go too far, while others entertain the opinion that it does not go far enough

"When I introduced the Bill in June last I stated that the charitable purposes to which it would apply were limited in accordance with the policy which dictated Act XX of 1863, by which the Government of India relieved its officers from all duties involving any connection with mosques, Hindu temples and other similar religious establishments In the Bill as approved by the Select Committee these purposes include relief of the poor, education, medical relief and the advancement of any other object of general public utility, but do not include purposes which relate exclusively to religious teaching or worship It follows that the provisions of the Bill may apply to trusts for purposes partly charitable and partly embracing religious teaching, but I see no objection to this so long as the Treasurer is a bare trustee or custodian of the trust property, and the application of the Bill to a charitable endowment is dependent on the consent not only of the parties interested in the trust but of the Local Government The necessity for this two fold consent provides, in my opinion, every necessary safeguard against an improper use of the Bill that the most orthodox Hindu or Muhammadan or (I may say) Christian could require, and the important principle of non interference by Government with the religious institutions of the country is thereby fully maintained

"It may be satisfactory that I should quote to the Council the opinions on this point of some of the most important representative bodies among the Native community which show how public opinion is divided on the subject, and how premature it would be to reverse the policy which a quarter of a century ago transferred the protection of religious endowments from the executive to the judicial power The Secretary of the British Indian Association writes—

"After having carefully considered the provisions of the Charitable Endowments Bill my Committee are of opinion that it will remove a defect in our administrative agency the prejudicial effects of which are widely felt An officer exercising the functions similar to those of the Official Trustee of Charitable Funds in the United Kingdom is required for this country The Committee think that the proposed appointment of a Treasurer of Charitable Endowments would supply the want The provision empowering Local Governments to invest public officers with the powers and functions of a corporate office will further remove the inconvenience and legal disqualifications which at present attend the practice of making charitable endowments in favour of District Collectors and other public officers The proposed measure therefore commends itself to the approval of the Committee

'The Committee beg to observe with satisfaction that the Bill is confined to charitable endowments only They think it would be a mistake to extend it to religious endowments or to take under its purview endowments partly religious and partly charitable They believe however that it is not the intention of Government to widen its sphere in such way'

"The two Muhammadan Associations of Calcutta, on the other hand, would have preferred a larger application of the measure The Secretary to the Central National Muhammadan Association is directed by his Committee to say that they—

consider the Bill might have been amplified in scope so as to cover such endowments as are quasi religious in character

and the Secretary to the Muhammadan Literary Society writes that—

inasmuch as the Bill does not contemplate to bring under its operation the religious endowments, the Committee has nothing to say regarding the provisions contained therein Most of the existing Muhammadan endowments,' he adds as it appeared from the enquiry made by the Muhammadan Educational Endowments Committee which recently sat in Calcutta, are religious or quasi religious in their character and therefore the Committee of the Muhammadan Literary Society begs to submit that the Bill in its present form does not provide against the malversation of such endowments Under the Muhammadan law it is one of the legitimate functions of the ruling Power to protect endowments from misappropriation and the Committee would respectfully, but earnestly, suggest that the Bill be so extended as to meet the want which has been felt by the Muhammadan community since the repeal of Regulation XIX of 1810

"It is clear from these communications that opinions are as divergent as ever But, while I sympathize with the desire of the Muhammadan community

in Bengal to secure better management for their charitable endowments, I must remind them that the prevention of malversation is not the object of this Bill

"The question of the management of such institutions was dealt with by Act XX of 1863, and it is not the fault of the Legislature if full advantage has not been taken of its provisions When the Regulation of 1810 was repealed, the control of local committees was substituted for that of Government officers, in the hope that mosques, temples and other religious establishments would be conducted thenceforward in accordance with the general wishes of those most closely interested in their maintenance If this result has not been attained, it is not the fault of the law but of a failure on the part of the communities themselves to avail themselves of it The present Bill advisedly abstains from restoring the responsibility of Government in these matters, and this is, I think, in accordance with public opinion generally The Collector of Surat took the opinions of the representatives of the three main religious bodies in that city—Parsis, Muhammadans and Hindus—on the Bill The Parsi was ready to give it a liberal interpretation, but 'both the Musalman and the Hindu gentlemen were much against any semblance of interference with religious endowments', and this, I am disposed to believe, fairly represents the state of feeling all over the country

'Coming now to the proposals of the present Bill section 3 provides that the Governor General in Council may appoint an officer of the Government by the name of his office to be Treasurer of Charitable Endowments for the territories subject to any Local Government It is intended that the Comptroller General shall fill this office in Bengal, and the Accountants General in Madras and Bombay For the purposes of the Bill each of these officers will be a corporation sole, having perpetual succession and a corporate seal, and his duty will simply be to hold any property vested in him as a bare trustee The high position of this officer will be a sufficient guarantee that the property will be safe in his hands, but provision is made in section 9 for the publication of his accounts, and in section 13 for the form in which they are to be kept and the mode in which they are to be audited As the keeping of these accounts, the charge of investments, the collection of income and the performance of other duties which will fall on the Treasurer will be a cause of expense which cannot rightly be charged against the public revenue, the Governor General in Council is empowered to prescribe the fees which shall be paid for these services

The manner in which charitable endowments falling within the scope of the Bill may be brought under its operation is described in sections 4, 5 and 6 of the Bill The services of the Treasurer may be made available both for existing, and for entirely new, trusts Where property is already held in trust the person or persons acting in the administration of the trust, or a majority of them, and where it is intended to devote property to a charitable purpose the person or persons proposing so to devote it, may apply to the Local Government that the property may in either case be vested in the Treasurer and a scheme settled for its administration The Local Government may thereupon, if it thinks fit, proceed to settle a scheme, giving effect to the wishes of the author of the trust so far as they can be ascertained and as is reasonable, and the scheme so settled will not be liable to be questioned in any Court To this proposal a good deal of objection has been taken, it is said that the Local Government has not the knowledge or experience necessary to deal with such matters, and that they ought to be left to be dealt with by the Courts of law But it must be borne in mind that no one need come to the Local Government unless he likes, and that those who do come will not be without good reasons for preferring the simple and inexpensive procedure provided by the Bill It is not contemplated or intended that a Local Government should interfere in any case of doubt or dispute, and I should imagine that it would always consult its Advocate General or other Law Officer before taking action upon any application The jurisdiction of the Courts in contentious cases will be left untouched, in cases where there is no contest, it is surely not necessary to compel a resort to the Courts

'Nor does it appear to be necessary that the Treasurer should be placed under the control of the Court rather than of the Government He will have

nothing to do with the administration of the charity funds, he will simply hand over the income to the persons who, under the scheme, are entrusted with its administration, but who, in their turn are left subject to the ordinary law in regard to the malversation or misappropriation of any funds that may come to their hands In order to avoid any doubt on this point the authority of the Advocate General at a Presidency to take action in regard to any charity is expressly reserved by section 15 of the Bill"

The Hon'ble MR HUTCHINS said —

"With Your Lordship's permission I wish to say a few words regarding the applicability of this Bill to religious endowments

"In 1863 the Executive Government divested itself and its officers of all powers and obligations connected with the administration of religious trusts and institutions The powers and duties which till then had devolved on the Board of Revenue and District officers were transferred to committees, and are, or ought to be, exercised by these committees subject only to the control of the District Courts We hear a good deal about the inefficiency of these committees but I am disposed to agree with my hon'ble friend that, if there has been a failure, it has not been the fault of the law but is principally, if not entirely, due to inertness and indifference on the part of those interested in the institution The law provides abundant means for enforcing through the Court the proper discharge of their duties both by the supervising committee and by the manager in direct charge I speak on this point from more than ten years' experience in the chief Court of a district containing two of the wealthiest and most venerated temples of the south—those of Madura and Rameswaram It happens that these are good examples of the two great classes into which religious establishments were divided by the Act of 1863, the pagoda of Madura falling under section 3 of that enactment, while that at Rameswaram comes under section 4 The latter class is far more difficult to deal with, but this was the case even before the legislation of 1863 Both these temples came before me judicially on more than one occasion, and I may say without any fear of contradiction that the result especially to that at Madura, was highly advantageous, that the orders issued effected a great improvement in the general management, and that in particular the funds were properly invested and the accounts reformed and periodically published in a manner which any one interested could understand

'There is certainly no chance whatever that the Government will consent to reverse or materially modify its policy of non interference, but it seems open to question whether there would be any serious objection to the corpus or principal fund even of a purely religious endowment being vested in some public officer as a bare trustee or custodian This could hardly be said to amount to interference with the trusts themselves and it seems to me—I am speaking for myself alone, and even for myself I do not express any decided opinion, but it seems to me—that any unanimous or very general wish on the part of any of the main sections of the community, that their religious endowments should be treated in this way, would be entitled to great consideration at the hands of the Legislature

"Meanwhile, however when this Bill becomes law, it will be applicable to trusts for charitable purposes, but not to trusts exclusively for the purpose of religious teaching or worship, and perhaps it is desirable that I should explain by means of an illustration what I understand to be the true import of this definition It implies that it will not be a fatal objection that one of the objects is to promote religious teaching or to provide for religious worship The best illustration which I can offer is the case of Diocesan schools which the Committee had in view when it framed the definition The purpose for which Diocesan schools have been established is not so much to give religious instruction as to prevent general education from being wholly secularized there is some direct religious teaching, and the work of each day is begun and ended with some act of Christian worship, but the main aim and object is to impart a sound general education, pervaded throughout with a moral and religious tone The funds of any trust founded on a mixed basis of this character may certainly be vested in the Treasurer, and the Local Government will be competent to sanction a scheme for its management

On the other hand, purposes exclusively religious are expressly excluded, and of course Local Governments will not permit any colourable evasion of the principle In other words, if it should appear that the trust has been constituted mainly for a religious purpose, but that in order to bring it within the Act some secular purpose has been superadded, the application to vest the property in the Treasurer will be rejected Doubtful cases must be expected to occur, but I am at present disposed to think that a safe rule to follow, while the law remains as enacted in this Bill will be to grant the application only in respect of the secular objects where these can be severed from the religious purpose with which they are combined, while where they are all so incorporated together as to be incapable of separation the application should generally be rejected if the greater, or even a large and substantial, part of the fund is to be expended on a direct religious purpose Certainly no trust should be accepted which involves the framing of a scheme regarding the detailed conduct of religious teaching or worship

"I have thought it desirable to make these few observations because the powers to be vested in Local Governments are to be subject to the control of the Governor General in Council, and such control will have to be exercised in the Home Department It will probably be desirable that the Government of India should be consulted before Local Governments undertake any trusts which are not clearly within the somewhat indefinite boundary line which has been enunciated "

The Motion was put and agreed to

The Hon'ble MR SCOBLE also moved that the Bill, as amended, be passed

The Motion was put and agreed to

## COMPTOIR NATIONAL D ESCOMPTE DE PARIS BILL

The Hon'ble MR SCOBLE also moved for leave to introduce a Bill to enable the Comptoir National D Escompte de Paris to sue and be sued in the name of the Chief Manager for the time being of the Indian Agencies of the said Comptoir He said —

"This is in the nature of a private Bill and is a reproduction, in favour of the Comptoir National D'Escompte de Paris of the legislation of 1864 and 1867 in favour of the Comptoir D Escompte de Paris which has gone into liquidation

"The Comptoir National D Escompte de Paris is a French Banking Company, having its seat in Paris and constituted under French law, which carries on business in British India The provisions of the Indian Companies Act are not applicable to such a Company, but under a treaty entered into, on the 30th April, 1862, between Her Majesty the Queen and the Emperor of the French it was among other things agreed that the High Contracting Parties should mutually 'grant to all Companies and other Associations, commercial industrial or financial, constituted and authorized in conformity with the laws in force in either of the two countries, the power of exercising all their rights, and of appearing before the tribunals, whether for the purpose of bringing an action or for defending the same, throughout the dominions and possessions of the other Power, subject to the sole condition of conforming to the laws of such dominions and possessions'

"The object of the Bill is to give the Comptoir National the benefit of this stipulation It is clearly necessary, for the protection of this Bank and of those who have dealings with it, that no technical difficulties should stand in the way of its suing or being sued The Bill accordingly provides that suits may be brought by or against the Comptoir National in the name of its Chief Manager, and under this designation is included an acting Chief Manager, and any person being or acting as Manager of the local Agency situated within the jurisdiction of the Court in which proceedings are taken Analogous provisions are introduced for the purpose of facilitating criminal prosecutions For the protection of persons dealing with the Comptoir National, the Chief Manager is required from time to time to file in the High Court memorials containing certain specified

particulars, from which the public may derive information as to its constitution and operations In all these respects the Bill follows the lines of Act VIII of 1864 and Act IX of 1867 under which the Comptoir d'Escompte worked satisfactorily for upwards of twenty years"

The Motion was put and agreed to

The Hon'ble MR SCOBLE also introduced the Bill

The Hon'ble MR SCOBLE then moved that the Bill be taken into consideration at the next meeting of the Council

The Motion was put and agreed to

The Council adjourned to Friday, the 14th March, 1890

REVENUE AND AGRICULTURAL DEPARTMENT

## Weekly Report on the State of the Season and Prospects of the Crops

**Madras** —No report received

**Bombay** —*For week ending 12th March* —Slight rain in Khandesh and Sholapur Crops damaged by blight, frost or locusts in a few talukas of Sind and below average in Poona and Satara Cotton in Dharwar blighted and *jowari* in Ahmednagar withering Crops otherwise satisfactory

**Bengal** —*For week ending 11th March* —Rain in almost every district but generally of not much importance, except in Behar and Chota Nagpore, where the falls were rather more general More rain wanted in the Rajshahye and Chittagong divisions for cultivation of autumn rice jute and other early crops *Rabi* crops being gathered, and generally reported on well Spring rice doing well Opium collection proceeding but has somewhat suffered from rain A good crop of tobacco being gathered, and sugar manufacture in many districts reported to be satisfactory In Behar indigo sowings in progress Prices of rice continue almost stationary According to latest account from Balasore Collector, 401 coolies employed on 2nd and 3rd miles of Bahimagar Talpada road, and 50 persons, chiefly widows, orphans, and lepers, receiving gratuitous relief from private funds

**North-Western Provinces and Oudh** —*For week ending 12th March* —Cloudy weather continues and slight showers have fallen in most districts Hail fell in the Banda and Jhansi districts but no injury from it is reported Irrigated crops generally promise well, but the outturn of dry crops will be light Poppy prospects are fair From Kumaon only is any scarcity of food stocks reported, but prices are unsteady and tend upwards

**Punjab**—*For week ending 12th March*—Rain has fallen in all districts except Multan and Dera Ismail Khan Prices rising in six districts and stationary in others Sowings of extra *rabi* and ploughing for *kharif* in progress in some districts Crops are suffering in most districts for want of rain The wheat crop will fail in Amballa if rain does not fall soon Fodder sufficient except in Hissar, Jullundur, Sialkot, Lahore, Shahpur and parts of Multan and Rawal pindi

**Central Provinces**—*For week ending 12th March*—Weather somewhat cloudy with slight showers of rain *Rabi* crops being harvested Prospects continue generally favourable Prices steady

**Burma.**—*For week ending 8th March*— A little rain fell in Rangoon and Tavoy districts The crop prospect is generally good The price of paddy has risen in Pegu, Tharrawaddy Prome and Henzada and has fallen in Thayetmyo, in the other districts there have been no fluctuations

**Assam**—*For week ending 12th March*—Weather windy Rainfall slight Ploughing for summer rice and crushing of sugarcane continue, gathering of mustard nearly over, pruning of tea nearly finished

**Mysore and Coorg**—*For week ending 12th March*—No report received for Mysore

Slight rain has fallen generally in South Coorg which is favourable for coffee blossom

**Berar and Hyderabad**—*For week ending 12th March*—Slight rain in Berar Weather warm and cloudy Harvesting of *rabi* continues Threshing commenced in some places Land being prepared for next season Fodder sufficient except in Ellichpur and Dariapur taluks Prices almost stationary

No report received for Hyderabad

**Central India**—*For week ending 12th March*—Rain fell in Bundelkhand Baghelkhand Western Malwa and Goona Crops and opium slightly damaged by rain and hail in Western Malwa, Goona and Baghelkhand Prices falling in Neemuch No other changes since last report

**Rajputana**—*For week ending 12th March*—Slight rain in Marwar, Jhallawar, Harowtee, Ajmere, Kerowli, Bhurtpore and Alwar, moderate in Jeypore Agricultural operations satisfactory except in Kerowli Standing crops good Slight damage done by hail in Jeypore Agricultural stock good Pasturage or fodder sufficient except in Marwar and Dholepore Prices steady generally

**Nepal**—*For week ending 6th March*— Slight showers fell during the week Weather cloudy Land is prepared for sowing rice and awaits an appreciable fall of rain

E C BUCK,

*Secretary to the Government of India*

# FINANCIAL STATEMENT for 1890-91

## PART I

## IMPERIAL REVENUE AND EXPENDITURE

### Preliminary

THE Financial Statement for the coming year has been divided into two Parts Part I deals with the financial position of the Government of India and takes into account only the Imperial Revenue and Expenditure as distinguished from that which is Provincial or Local, Part II contains an explanation of the Indian Budget as a whole This change has been made with the object of presenting an outline of the financial position which will be sufficient for the ordinary reader Such an outline will be found in Part I Those who desire fuller information will find it in the second Part of the Statement

### Section I —Accounts of 1888-89

2 Since the last Financial Statement was made the Accounts of the year 1888 89 have been finally closed They show a surplus of Rx 37,000

The Budget Estimate of that year, framed in March 1888, showed a deficit of Rx 698 000 The Revised Estimate of the year, framed in March 1889, showed a reduced deficit of Rx 201,700, the Accounts, as I have just said, show that the year has closed with a surplus of Rx 37 000

The improvement in the financial position during 1888 89 is satisfactory, but the important question of to day is the position of the finances during the current and the coming year

### Section II —Financial position of 1889-90 and 1890-91

3 The Estimate of the current year, as framed in March last, showed a surplus of Rx 106,300

The Revised Estimate if compiled in the same way as the Budget Estimate would now show a surplus of Rx 2,733 200, and the Estimate of the coming year would show a surplus of Rx 304 900 Certain special arrangements are proposed which will affect the surplus of 1889 90 and of 1890 91, but it will be convenient to keep these arrangements out of sight until it has been explained how it happens that the Budget surplus of the current year has grown into Rx 2 733 200, while the Estimate of the year 1890 91, if compiled on the same basis, would show a surplus of only Rx 304,900 Indian finance is subject from year to year to disturbing causes which have a serious temporary effect, and for this reason a surplus in any year can no more be said to prove that the finances are in a sound state than a deficit in a single year can be held to prove that their condition is unsound It is important that it should be clearly understood whether the high or low surplus, or, it may be, deficit, of any year is due to permanent or temporary causes and I shall endeavour to explain to what extent the improvement in the financial position is due to lasting influences and to what extent it is only temporary

4 In the first place I propose to offer a few remarks on the subject of Exchange, so as to clear that question out of the way at the beginning I have seen it stated that the improvement in the current year is largely or mainly due to the rise in the rate of Exchange This is not the case The rate of Exchange taken in the Budget Estimate was 1*s* 4 38*d* =one rupee Although

the rate of Exchange is now considerably higher than that rate, it was lower during a large portion of the year, and the average rate of Exchange for the whole year 1889 90 is now taken at only 1s 4 552d per rupee The rise is there fore only slightly greater than one sixth of a penny per rupee The rate of Exchange affects so many of our transactions that it would be a difficult and tedious task to calculate precisely the amount of improvement which a rise of one sixth of a penny per rupee has produced For present purposes it will be sufficient to put the improvement at Rx 200,000 in round numbers In the explanation I am about to give I shall distribute this improvement of Rx 200,000 among the several heads affected

5 Although the improvement in the position has not been mainly due to the rise in Exchange, the cessation of the long continued fall in the gold value of the rupee has been a most welcome relief to the finances From 1873 to 1890 there have only been two other years (1879-80 and 1883 84) in which the actual rate of Exchange exceeded or was equal to the rate taken in the Budget, and the average yearly fall from 1873 74 to 1889 90 has been 36 of a penny per rupee or more than twice the rise in the current year

Although the cessation of the hitherto continuous fall in the value of the rupee measured in gold has greatly improved the financial position for the time being, the uncertainty as to the future relations of the precious metals consti tutes a very serious danger, and one which it would be worth our while to make great sacrifices to escape The future of the Currency question appears to rest at the present time in the hands of the United States of America

6 The chief improvement in the current year appears under the head of Opium There is an increase of Rx 286 400 in Opium Revenue there is a de crease of Rx 708 800 in Opium Expenditure The total improvement under Opium is consequently Rx 995,200 In the Budget Estimate the price of Bengal Opium was taken at R1,070 a chest It has proved to be R1,136, this accounts for the improvement in Opium Revenue, an improvement which I regret to say is not likely to be maintained during the coming year, as the price of Bengal opium at this month s sale was only R1,040 a chest, though the market price has since risen

The decrease in Expenditure is due to a poor crop of Bengal opium The total crop of Bengal opium is purchased by Government at a fixed price per seer A good crop means heavy expenditure in the purchase of opium, a poor crop means a saving in expenditure The quantity of opium produced in any season does not immediately affect the quantity of opium which is sold, as some time elapses before the new crop comes into the market and Government main tains a reserve with the object of equalizing the quantity sold from year to year As it happens, the bad crop of the year has not done us material injury, because the reserve of opium was very high and is still sufficient The improvement under Opium in the current year must be considered as merely temporary In a series of years we shall no doubt get average crops, and the present selling price of opium is much below the average price of the year about to close

7 In addition to the improvement under Opium, there has been, during the current year, a very satisfactory increase of revenue under what is known as the other Principal Heads of Revenue which include Land Revenue, Salt, Excise Stamps, Provincial Rates, Customs Assessed Taxes, Forests, Registra tion, and Tributes from Native States This increase is partly Imperial, partly Provincial, partly Local

The large improvement in Revenue which is shown under the Principal Heads of Civil Revenue (excluding Opium) is of a permanent nature, or in other words we can safely reckon on obtaining the same increase in future years If there is any falling off under some heads it will be balanced by increase under other heads This improvement amounts to Rx 766,500 on Imperial account and

is mainly due to an increase of Rx 298,400 under Land Revenue, of Rx 149,600 under Salt, of Rx 79,100 under Excise, of Rx 31,500 under Stamps, of Rx 69,600 under Customs, and of Rx 112,700 under Forests

The improvement under Opium and the growth of Revenue under the other Principal Heads accounts in all for an improvement of Rx 1,761,700 in 1889 90, of which more than 40 per cent is a permanent increase of the public revenue, the rest being temporary

8 On Special Defences, there has been a reduction of expenditure amounting to Rx 344,500, which merely represents postponement of charges which will be incurred hereafter, and under Interest not charged against Railways and Canals there has been a net improvement of Rx 230,900 The improvement in the net Interest charge is due to the high rate of interest obtained by the Secretary of State on that portion of his cash balance which he was able to invest, to the saving from the issue of a loan of 2 crores very nearly at par last year as compared with the estimated charge for the issue of a loan of 2½ crores at a discount to the rise in Exchange, and to other causes

There has also been a net improvement of Rx 118 600 under Army, notwithstanding the expenditure on the Chin Lusha Expedition, and of Rx 73,900 in the Railway Account Under all other heads there is a net improvement of Rx 97,300 The total net improvement of the year is Rx 2,626 900

9 The explanation of the large surplus in 1889 90 may then be briefly stated as follows in the current year Opium has given a net improvement of Rx 995 200 other Principal Heads of Revenue have given an improvement of Rx 766 500, Special Defences show a reduction of expenditure amounting to Rx 344,500 Interest gives an improvement of Rx 230,900 All other heads give a further net improvement of Rx 289,800 The total net improvement of the year is Rx 2,626,900, and adding the Budget surplus of Rx 106,300, the surplus with which the year is expected to close is estimated at Rx 2,733,200 Of this net improvement of Rx 2 626,900, about Rx 200,000 has been caused by the rise in Exchange, which has favourably affected Revenue and Expenditure under various heads As the Accounts almost invariably show a better result than the Revised Estimate, I have little doubt that this surplus will be found to have been exceeded when the accounts of the year are finally closed

10 We are now in a position to explain in a few words why the surplus of 1890 91 is so small as compared with that of 1889 90 In the first place we lose the temporary increase from Opium to which I have just referred, the loss on this account is actually Rx 992,400, in the next place, we receive in 1889 90 a special contribution from Local Governments of Rx 490,000, there is no such contribution in 1890 91, in the third place the Budget Estimate of net Military Expenditure in 1890 91 shows an increase over the Revised Estimate of no less than Rx 611,000 On these three accounts—Opium, Contribution from Local Governments, and Military Expenditure—the financial position of 1890 91 is worse than that of 1889 90 by no less than Rx 2,093,400 Adding to this a net falling off under Interest of Rx 113,400 and an increase of expenditure amounting to Rx 133 900 under Special Defences, we get a falling off of Rx 2,340,700 The surplus of 1889-90 being Rx 2,733 200 this deterioration of Rx 2,340,700 would of itself be sufficient to cause the large surplus of 1889-90 to be replaced by a surplus of Rx 392,500 It so happens that under all other heads there is a net deterioration of Rx 87,600, which reduces the surplus to Rx 304,900

11 Although the net deterioration under the heads to which I have jus referred is only Rx 87,600, there are considerable fluctuations under particular heads Thus the increase of Revenue under Principal Heads, excluding Opium is no less than Rx 171,500, of which nearly Rx 100,000 is due to the raising of the duty on imported spirit and the imposition of a duty on beer brewed in India There is also a moderate increase of net revenue from Railways and Irrigation,

while there is an increase in expenditure of Rx 85,000 on account of the coming Census, and a reduction in Miscellaneous receipts of Rx 53,500

12 The increased expenditure on the Army in 1890 91 is due to the purchase of Magazine rifles and ammunition for them, to the cost of 21 more batteries of 12 pr breech loading guns, to the purchase of machinery for making ammunition for the guns in India, and to the provision of Rx 200,000 for the Chin Lushai expedition and of Rx 60,000 to complete the arrangements for prompt mobilisation of the 1st Army Corps The total cost on the accounts I have stated is no less than Rx. 1,361,300

13 Summing up the whole case and putting aside all matters of minor importance it may be said that in 1889 90 we have a large surplus owing to a temporary improvement under Opium, to a general growth of revenue which will be maintained and will affect future years, to short expenditure on Special Defences and in connection with the Army, to reduction in the Interest charge, to improvements in the Railway Revenue Account, and to a rise in the rate of Exchange In 1890 91 we have only a moderate surplus, because we lose the temporary improvement under Opium, because we no longer receive the special contribution of Rx 490 000 from Local Governments, because there are special demands in connection with the equipment of the Army, and because there is an increase in the net Interest charge, as well as an increase in the expenditure on Special Defences

## Section III —Proposals in connection with the Grant for Famine Relief and Insurance.

14 It will be seen from what I have just said that the estimates for next year would have shown a very considerable surplus but for the heavy and special demands that have fallen on them in connection with the Army These special demands come to no less than Rx 1,361,300, exclusive of a provision of Rx 892,300 on account of Special Defences It is reasonably certain that there will be special demands of a somewhat similar nature in 1891 92, but it is not probable that they will be so heavy as in the coming year Nor are the finances of 1891-92 exposed to any special dangers, so far as can now be seen, other than those vicissitudes which must always attend Indian finance On the other hand, we may look forward during 1890 91 to the normal growth of revenue There are, therefore, strong grounds for holding that in 1891 92 we shall at least find ourselves in a position of comparative ease, with a surplus in hand, moderate in amount, but sufficient to allow of some improvement in financial conditions

15 In view of this comparatively favourable prospect the Government of India has decided to anticipate the future to some extent and to take immediate steps for the partial restoration of the Famine Grant This can be done by measures which I shall now explain, but in the first place I propose to refer briefly to the nature of the Famine Grant and its history

The policy of strengthening the finances in connection with Famine was originally adopted in order to protect the country against the financial effects of Famine It was calculated that Famine would cost, either directly in expenditure intended to relieve distress, or indirectly through loss of revenue, no less than Rx 15 000,000 every ten years, and it was therefore decided that in ordinary years the Government should take measures for providing a surplus of Rx 1,500 000 This surplus would be used either to reduce debt directly by buying up and cancelling public obligations, or to indirectly reduce debt by diminishing borrowing

16 It has been sometimes assumed that the object of this policy was the provision of funds for the actual relief in time of famine of persons who were in distress, and it was argued that when the money so provided was no longer

available, the people could not be relieved in case of famine, and must perish This was not the case Whether a surplus exists or not the Government recognises its obligations in case of famine, and the actual amount of cash in the treasury is regulated from time to time by considerations which are quite independent of the absorption or maintenance of the Famine Grant The objects which the Famine Grant is intended to secure are purely financial So long as it is maintained we have in ordinary years a surplus of Rx 1,500,000, and this surplus of Rx 1,500 000 in ordinary years will, it may reasonably be hoped, balance the deficits which must occur from time to time in a country of which the financial conditions are so uncertain The policy of maintaining a surplus in ordinary years was devised with special reference to the injurious effect on the finances which is produced by famine, but in practice it is an insurance against temporary financial disaster of any kind because to strengthen the finances by creating a surplus has precisely the same effect whatever may be the object of those who take measures to strengthen them In any case the finances are strengthened and are able to better meet any special demands on them

17 The misapprehension as to the nature and effects of the Famine Grant seems to have arisen to some extent from the manner in which the policy was carried out in years subsequent to its first adoption The Famine surplus was intended, in the first instance, to operate in the direction of reducing debt At a subsequent period it was decided to use one half of it for the construction of Railways and Canals which would protect the country from famine I think this was, under the circumstances of the case, a wise and prudent measure, but it was a slight departure from the objects of the original policy These were, as I have said, purely financial In so far as the Protective Canals and Railways constructed from the Famine Grant returned a fair profit, or lessened the cost of relieving famine in so far the original purpose of strengthening the finances was maintained In so far as they failed to return this profit the original purpose was departed from On the other hand it was an important consideration that the construction of these Railways and Canals might have the effect of mitigating famine to the extent of preserving human life, which would otherwise have been lost

18 The Government of India was willing in past years to go further in the direction of using the Famine Grant for the construction of Protective Works, than was actually done, and would have appropriated it to meet any loss that might arise on Protective Railways constructed by means of borrowed money in 1886 the Secretary of State did actually agree that the interest charge on the Indian Midland and the Bengal Nagpur Railways should be a charge against the Famine Grant These Railways were held to be of importance for the protec tion of the country against famine, and it was only on the understanding I have stated that their construction was sanctioned The decision of the Secretary of State is contained in a Despatch which is published as an Appendix to this State ment This matter has somewhat fallen out of sight in recent years, because shortly after the decision of the Secretary of State was given the financial difficulties of the Government became so great that the Famine Grant was practically abolished for the time, and there was no special reason for calling attention to the fact that a portion of it went to meet the loss on the Indian Midland and Bengal Nagpur Railways

19 The Government of India and the Secretary of State have, however, always attached importance to the maintenance of the Grant for Famine Relief and Insurance If the Indian finances show bare equilibrium in normal years, the deficits of bad years can only be met by borrowing, such borrowing must in time lead to a large growth of debt incurred for non productive purposes

The provision of what is really a yearly surplus of Rx 1,500,000 is the most effective means of preventing the growth of debt of this character

20 The manner in which it is proposed to partially restore the Famine Grant at once will now be explained

We receive this year a special contribution of Rx 490,000 from Local Governments This transaction is carried out by debiting the amount to the balances of Local Governments and crediting it to the Government of India It is practically the same thing to all parties whether the transaction is carried out this month or next month The credit is therefore postponed till next month, and the effect on the finances is to diminish our surplus of this year by Rx 490,000 and to increase that of next year by an equal amount

After this change is made there will be a surplus of Rx 2 243,200 in 1889 90 and of Rx 794 900 in 1890 91 In both these years a certain amount of expenditure is already shown under the Grant for Famine Relief and Insurance, partly on account of the construction of Protective Canals and partly for relief of distress Of the surplus of 1889-90, a sum of Rx 433,500 will be utilised to raise the total Famine Grant to Rx 600,000, of the surplus of 1890 91, a sum of Rx 524,500 will be utilised to raise the Famine Grant of that year to a like amount The surplus of the Revised Estimate will then stand at Rx 1,809,700 and the surplus of the Budget Estimate of 1890 91 will be Rx 270,400

The amount provided to meet the net charge on account of the Indian Midland Railway and the Bengal Nagpur Railway is Rx 458,100 in 1889 90, and Rx 432,800 in 1890 91

The final result then of the policy which the Government of India has decided to adopt is that in the current year we have provided in all Rx 1 058,100 (Rx 600,000 *plus* Rx 458,100) on accoun of the Famine Grant, that in the coming year we have provided Rx 1,032,800 (Rx 600,000 *plus* Rx 432 800), on the same account, and that we have nevertheless a surplus of Rx 1 809 700 in 1889 90 and of Rx 270,400 in 1890 91, these surpluses are available for the reduction of borrowing and will in practice be used for that purpose

The sums provided under the Grant for Famine Relief and Insurance *plus* the sums that go to meet the net charge on the Indian Midland and Bengal Nagpur Railways, together with the surpluses of the current and coming years, amount to Rx 4,171,000 in the aggregate, so that, practically, the Famine Grant has been more than restored for the years 1889 90 and 1890 91, as we have in the two years a sum of Rx 4 171,0 00 available for the purposes for which the policy of the yearly grant of Rx 1,500,000 for Famine Relief and Insurance was adopted

## Section IV —Practical Results of the Policy now adopted

21 The general effect on our borrowing of the surpluses of 1889 90 and 1890 91, which amount to Rx 2,080,100, and of the sums now set aside for Reduction of Debt, amounting to Rx 958,000, making Rx 3,038,100 in all, is shown by the following facts

The Government of India has arranged to spend in 1890 91 the sum of Rx 3,750,000 on the construction of Railways and Canals, not chargeable against Revenue

Under ordinary circumstances we must have borrowed largely in the open market on this account As our balances now stand we expect to be able to find this sum of Rx 3,750,000 in addition to Rx 907,000, on account of loans to be made by Government for local purposes, without raising a loan this year This result is mainly due to the existence of the sum of Rx 3,038,100 to which I have just referred, which enables us to avoid borrowing a like amount and in this way effects a permanent saving of about Rx 120,000 yearly in interest To this extent the finances of the country have been strengthened

22 A further advantage of the improvement that has occurred in the financial position is that it is unnecessary at the present time to revise the financial relations between the Imperial Government and the Provincial Governments The present contracts can be left to run their course, and the relations between the Local and Imperial Governments can be settled in 1892 and included in the contracts that will then be made

## Section V —Financial Prospects in the Future

23 In the Statement of last year I made the following remarks on the financial position of the Government of India "My deliberate conclusion is, that while there is every need for economy and for husbanding our revenue there is no ground for despondent or pessimist views Unless some unforeseen disaster occurs, there is every reason to hope that the lapse of two or three years will show a decided improvement in the financial position of the Government of India It is true that the surplus which we have been able to show in the Estimates is only Rx 106 300, but the Estimates have been framed with great moderation and if the Indian revenues continue to exhibit their usual elasticity and no unforeseen disaster occurs, I anticipate that the Financial Statement of 1890 91 will show decided improvement ' These remarks were not universally accepted those who had previously taken a pessimist view of Indian finance were not prepared to admit that there were signs of improvement The progress made in the current year, however, confirms the soundness of the opinion I expressed in March last Only twelve months have elapsed since I ventured to make that prophecy, and the signs of improvement are unmistakable

In 1889-90 and 1890 91 we have partially restored the grant for Famine Relief and Insurance, we have a large surplus in 1889 90, and a moderate surplus in 1890 91 after making provision for altogether special demands for the equipment of the Army Although the coming year is unlikely to prove so prosperous from a financial point of view as 1889 90, I look forward, in the absence of unforeseen disaster, to still further improvement in 1891 92

24 But my remarks regarding the signs of improvement in the finances had another effect which I did not anticipate at the time It was assumed in some quarters that I was of opinion that the financial position was in all respects thoroughly satisfactory and that the Government of India might at once with safety enter upon schemes which their promoters held would have the best effects on the country, but which certainly involved very heavy expenditure at the outset Nothing was further from my intention than to convey any such impression or to give the slightest encouragement to those who wish to mortgage the future of our finances for the sake of entering upon hazardous speculations

I said last year that there were signs of improvement I say now that my forecast has been borne out by the facts of the year about to close, and that there are good grounds for expecting further improvement in the coming year, but I fully recognise that we have difficulties of no slight magnitude still to meet, thatt he finances are exposed to many dangers, and that unforeseen disaster might for a time upset our calculations There is every need for caution and for economy and I should greatly regret if anything I now say, or have said in the past conveyed the impression that the Government of India is in a posit on to embark on a policy of adventure of any description

# PART II

## IMPERIAL, PROVINCIAL, AND LOCAL FINANCE

### Section I —Accounts of 1888 89

In the Revised Estimates of 1888 89 prepared in March last the Revenue of that year was taken at Rx 81,585,500 and the Expenditure, including outlay on Special Defence Works, at Rx 81,787,200, the net result being an anticipated deficit of Rx 201,700

As the accounts were compiled, it was seen that the year would close with a small surplus, and this fact was brought to notice in the Financial Statement presented to Parliament by the Under Secretary of State for India

2 The actual figures of the accounts for 1888 89 as now finally closed, are—Revenue Rx 81,696,678 and Expenditure Rx 81,659,660, showing a surplus of Rx 37,018 The following statement compares the Actuals for 1888 89 with the Revised Estimate, and complete details will be found in the Appropriation Audit Report published in the *Gazette of India* of 8th March 1890

| | | 1888 89 | | | |
|---|---|---|---|---|---|
| | | Revised Estimate | Accounts | Accounts Better | Accounts Worse |
| **REVENUE** | | | | | |
| India (Imperial Provincial and Local) | Rx | 81 106 100 | 81 [illegible] 210 | 106 110 | |
| England | £ | [illegible] 7 0[illegible] | [illegible]3 631 | 5 431 | |
| Exchange | Rx | 1[illegible]2 200 | 153 837 | 1 637 | |
| TOTAL | Rx | 81 585 500 | 81 69[illegible] 6[illegible]8 | 111 1[illegible]8 | |
| **EXPENDITURE** | | | | | |
| India— | | | | | |
| Imperial | Rx | 3[illegible] [illegible]1 100 | 37 [illegible]6 716 | 94 384 | |
| Provincial and Local | Rx | [illegible] [illegible] 3[illegible]0 | 21 [illegible]6[illegible] 109 | 34 131 | |
| Adjustment of Provincial and Local Surplus | Rx | + 20 100 | + 8[illegible] 118 | | 8[illegible] 018 |
| England | £ | 1[illegible] [illegible] [illegible]0 | [illegible] | 58 79[illegible] | |
| Exchange | Rx | 6 [illegible]94 200 | 6 971 430 | 7[illegible]4 | |
| TOTAL | Rx | 81 78[illegible] 200 | 81 659 660 | 1[illegible]7 540 | |
| DEFICIT | Rx | 201 700 | | 238 718 | |
| SURPLUS | Rx | | 37 018 | | |

It will be seen from the figures in this statement that, compared with the estimate framed in March 1889, there was an improvement in the Total Revenue in India (Imperial Provincial and Local) of Rx 106,110 and a saving in the Total Expenditure in India of Rx 128,515 The sum of these two amounts, less the increase of Rx 82,018 in the Provincial adjustment, or Rx 152,607 represents the net Imperial improvement in the Indian portion of the accounts of 1888 89, excluding Exchange, adding to this figure the net improvement in England and also the improvement in Exchange, we get a total improvement of Rx 238,718, which accounts for the difference between the deficit of Rx 201,700 expected in the Revised Estimate and the surplus of Rx 37,018 with which the accounts of the year have closed It may be mentioned that the increase in the Provincial adjustment means that the surplus of Provincial and Local Revenue over Provincial and Local Expenditure was more by Rx 82,018 than was anticipated when the Revised Estimate was prepared

3 The increases of Revenue result chiefly from improved receipts aggregating Rx 234 700 under State Railways, Irrigation, and Army, counterbalanced by a falling off in Land Revenue of Rx 185,896 due to scanty harvests in some provinces and to suspensions Of the saving of Rx 94,384 in Imperial Expenditure, Rx 50 528 occurred under Opium and Rx 27 409 under Army There was an excess of Rx 45,440 under Guaranteed Railways, chiefly due to a change in the date of payment of surplus profits, which brought into the accounts of the year expenditure which, under the previous practice, would have fallen into the following year The reduction in Provincial and Local Expenditure occurred principally under Land Revenue, Police and Education and the gain in the English Account was chiefly due to reduced expenditure under Army and Special Defence Works

4 The difficulties which stand in the way of preparing in March an accurate Estimate of the Revenue and Expenditure of the year which is about to close have been explained more than once but I do not think that attention has been specially called to the remarkable fact that the Actuals almost invariably show better results than the Revised Estimate

In every year since, and including 1882 83 the Accounts have shown an improvement over the Revised Estimates For 1882 83 the improvement was Rx 646 800, for 1883 84 it was Rx 1,116 100, for 1884 85 it was Rx 566,500, for 1885 86 it was Rx 89,100, for 1886 87 it was Rx 177 900, for 1887 88 it was Rx 987 900, for 1888 89, as I have just explained, it was Rx 238 700

The explanation is simple The latest figures of receipts and disbursements under the different heads can always be obtained from the Treasuries Under certain heads the Treasury receipts and issues correspond closely with the Revenue and Expenditure and if we know the Receipts and Issues to the end of February, or even of January, and the head be one under which transactions occur with regularity throughout the year, we have no difficulty in calculating with great precision the probable Revenue and Expenditure of the remaining portion of the year

But in other cases transactions do not proceed with the same regularity throughout the year and the receipts and issues of the Treasuries afford a very imperfect guide Such heads are Land Revenue Public Works of all kinds and the expenditure under the head of Army For Public Works and Army the receipts and issues at the Treasuries are only an imperfect guide to the Revenue and Expenditure

In the case of the important heads I have just mentioned as well as of others, we have to depend on the judgment of local officers, and, on the whole, the forecasts of these officers are marked by caution No officer, apparently will estimate for more revenue than he feels sure he will obtain and every officer puts down the very maximum of expenditure which he may possibly incur The inevitable result is that in nine cases out of ten the total Revenue of the year exceeds, and the total Expenditure of the year falls short of the amounts that have been entered in the Revised Estimate

5 There was also a saving in expenditure not charged against Revenue The Capital Expenditure on Railways was Rx 1,178 111 and on Productive Irrigation Works Rx 459,890 against Rx 1,364 800 and Rx 493 000 provided in the Revised Estimate, the saving being Rx 186 689 and Rx 33,110 respectively The former was chiefly due to reduced expenditure in England on stores for Railways These reductions do not, of course, affect the surplus of the year 1888 89, which, as stated before, was Rx 37 018, after including in the expenditure the sum of Rx 789,595, spent on Special Defence Works

## Section II —Revised Estimates of 1889 90 and Budget Estimates of 1890-91

6 The Budget Estimate of Revenue for the current year was Rx 82,935,300, and of Expenditure Rx 83 469,800 Of the latter, Rx 640,800 was chargeable to accumulated Provincial and Local balances, and not against the revenue of the year The expenditure chargeable against revenue was therefore Rx 82,829,000, and the resulting surplus was estimated at Rx 106,300

The surplus is now expected to be Rx 1,809,700 and the following table shows how much of it is due to increase of Revenue and how much to decrease of Expenditure —

| | Budget Estimate | Revised Estimate | Revised Estimate + Better —Worse than Budget |
|---|---|---|---|
| | Rx | Rx | Rx |
| Revenue | 82 935 300 | 84 636 300 | + 1 701 000 |
| Expenditure | 83 469 800 | 82,474 100 | + 995 700 |
| Provincial deficit | —640 800 | + 352 500 | —993 300 |

7 The improvement of Rx 1,701,000 in Revenue occurs mainly under *Land Revenue Opium Salt*, *Stamps*, *Excise*, *Provincial Rates*, *Customs*, *Assessed Taxes*, *Forest Interest Miscellaneous*, *State Railways*, and *Irrigation*, while there is a considerable falling off in receipts from *Exchange* and a heavy one under *Guaranteed Railways*, owing to the great and sudden diminution of traffic on the Great Indian Peninsula Line The contribution of Rx 490,000 from Provincial to Imperial revenues, for which credit was taken in the Budget Estimate of 1889 90 has also been transferred for reasons explained in Part I to the Estimates of 1890 91 It will be understood that this transaction has no effect on the total revenue of the year, what is lost by the Imperial Government being gained by the Local Governments The main increases and decreases in Revenue are as follows —

| Better than Estimate | Rx | Worse than Estimate | Rx |
|---|---|---|---|
| Land Revenue | 425 600 | Exchange | 73 900 |
| Opium | 286 400 | Guaranteed Railways | 460 000 |
| Salt | 162,600 | | |
| Stamps | 101 000 | | |
| Excise | 110,100 | | |
| Provincial Rates | 87 800 | | |
| Customs | 68 900 | | |
| Assessed Taxes | 51 800 | | |
| Forests | 176 800 | | |
| Interest | 133 500 | | |
| Miscellaneous | 98 400 | | |
| State Railways | 256,800 | | |
| Irrigation | 96,000 | | |

8 The decrease in expenditure is mainly due to the rise in the rate of *Exchange*, and to less expenditure under *Opium production and manufacture*, *Interest Police Education*, *Working Expenses of State Railways*, *Surplus profits of Guaranteed Railways*, and *Defence works* The chief increases of expenditure occur under *Marine*, *Famine Relief and Insurance*, *Miscellaneous*, *Railway Expenditure*, and *Irrigation* The meaning of the large excess under

*Famine Relief and Insurance* is that the improvement in the financial position has enabled the Government to take measures for gradually restoring the *Famine Insurance* Grant, which has been in abeyance since 1885 86

The Budget Estimate of net expenditure in England was £14 956,100, and the Exchange on it, Rx 6,954 500, the Revised Estimate of that expenditure is £14,751 200, and the Exchange on it, Rx 6 638 000 In the Budget the rate of Exchange was taken at 1*s* 4 38*d* = R1, in the Revised it is taken at 1*s* 4 552*d* = R1 (R145 = £10)

The following table shows the principal variations from the Estimate of Expenditure —

| Better than Estimate | Rx | Worse than Estimate | Rx |
|---|---|---|---|
| Opium | 708 800 | Marine | 92 600 |
| Interest | 96 300 | Famine Relief and Insurance | 507 000 |
| Police | 58,800 | Miscellaneous Railway Expenditure | 72 700 |
| Education | 51 000 | Irrigation | 94 600 |
| State Railways—Working Expenses | 78 400 | | |
| Surplus profits of Guaranteed Companies | 182 100 | | |
| Defence works | 344 500 | | |

| | Rx |
|---|---|
| Provincial deficit less (owing partly to postponement to 1890 91 of special contribution of Rx 490 000 made by Local Governments) | 993 300 |

9 The Budget Estimate of 1890 91 is framed for Revenue Rx 84,932,100 and Expenditure 85 419 400, of which Rx 757,700 is chargeable against Provincial and Local balances The expenditure chargeable to Revenue is therefore Rx 84,661 700 and the estimated surplus is Rx 270,400

The following table compares the Revenue and Expenditure as estimated at an interval of a year —

| | Budget Estimate 1889 90 | Budget Estimate 1890 91 | Budget 1890-91 + better —worse than Budget 1889 90 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Revenue | 82 935 300 | 84 932 100 | +1 996,800 |
| Expenditure | 83 469 800 | 85 419 400 | —1 949 600 |
| Provincial deficit | —640 800 | —757 700 | +116 900 |
| Surplus | +106 300 | + 270 400 | +164 100 |

10 As explained last year, the extension of railways and the changes in their status involve considerable additions annually to both Revenue and Expenditure In 1889 90 the gross transactions of the Oudh and Rohilkhand Railway came on both sides of the Estimates, whereas, while it was a Guaranteed line, only the net earnings were shown as Revenue and the interest charged is Expenditure In 1890 91 a re-arrangement of the same nature is necessary, as from the 31st December 1890 it is expected that the South Indian Railway will become a State line In 1890 91 Railway Revenue is estimated higher by Rx 464 900 than it was a year ago and Railway Expenditure Rx 304 800 higher The transfer of the Provincial contribution mentioned above adds Rx 490,000 to the Imperial Revenue of the year, though as explained above, it does not mean that the total revenues are increased by that amount The further improve

ment in Revenue occurs mainly under ***Land Revenue, Salt, Stamps Excise, Provincial Rates, Customs, Forests, Interest,*** and ***Irrigation,*** while lower receipts than those estimated a year ago are expected under ***Opium, Exchange,*** and ***Guaranteed Railways*** The following statement indicates generally in what respect the position has changed in the course of twelve months —

| Better than Budget Estimate of 1889 90 | Rx | Worse than Budget Estimate of 1889 90 | Rx |
|---|---|---|---|
| Land Revenue | 482 700 | Opium | 56 700 |
| Salt | 203 600 | Exchange | 83 800 |
| Stamps | 75 400 | Guaranteed Railways | 218,000 |
| Excise | 117 200 | | |
| Provincial Rates | 91 400 | | |
| Customs | 142 700 | | |
| Forest | 144 800 | | |
| Interest | 55 700 | | |
| State Railways | 673 800 | | |
| Irrigation | 145,700 | | |

11 The very large increase in the Estimates of Expenditure is mainly the result of the following variations —

| Less than Budget Estimate of 1889 90 | Rx | More than Budget Estimate of 1889 90 | Rx |
|---|---|---|---|
| Opium | 59 500 | Land Revenue collection | 84 300 |
| Interest | 62 300 | Minor Departments (chiefly Census) | 79 400 |
| Guaranteed Railways surplus profits | 81 000 | Salaries and Expenses of Civil Departments other than Minor Departments | 226 200 |
| Defence works | 210 600 | Stationery and Printing | 82 100 |
| | | Famine Relief and Insurance | 499 500 |
| | | Railways (excluding surplus profits) | 385 800 |
| | | Irrigation | 124 700 |
| | | Civil Works | 234 900 |
| | | Army | 530,400 |

The rate of Exchange has been taken at 1*s* 4 552*d*, as in the Revised Estimate

The Estimates of both years are examined in detail in the remaining paragraphs of this section

## LAND REVENUE

12 The Estimates are—

| | Budget Estimate 1889-90. | Revised Estimate 1889-90 | Budget Estimate 1890-91 | Increase of Revised Estimate over Budget Estimate of 1889-90 | Increase of Budget Estimate 1890-91 over Revised Estimate 1889-90 |
|---|---|---|---|---|---|
| | Rx | Rx | Rx | Rx | Rx |
| Revenue (including Land Revenue due to Irrigation) | 24 021 100 | 24 486 700 | 24 562 500 | 465 600 | 75 800 |
| Expenditure | 3 629 100 | 3 632 900 | 3 713 400 | 3,800 | 80,500 |
| NET | 20 392 000 | 20 853 800 | 20 849 100 | 461 800 | —4,700 |

With the exception of the districts directly administered by the Government of India, in which a small decrease is anticipated, and Assam, where the original Estimate has undergone no alteration, all Provinces participate in the

improvement of Rx 465,600 in Revenue expected in the Revised Estimate of 1889 90 Of this improvement, Rx 142,600, or nearly 31 per cent, has been contributed by Burma, in the proportion of Rx 70,900 by Lower and Rx 71,700 by Upper Burma With the restoration of order, cultivation has greatly extended, and assessments and collections are being made with more regularity It may also be mentioned that Rx 20,000 of the increase in Upper Burma represents the first instalment of rent paid by the Ruby Mines Company for its lease After Burma, the greatest increase is expected from the temporarily settled zemindari provinces, namely, the Central Provinces, the North Western Provinces and Oudh, and the Punjab, which, between them, account for an improvement of Rx 125,900, or 27 per cent of the whole In these Provinces the settlements are falling in, and fresh settlement operations, the effect of which is reflected in the gradual increase in the revenue demand, are in active progress Of the remaining increases, Bombay furnishes Rx 76,100, due to large sales of waste lands, the introduction of revised settlements, and a favourable season Madras finds Rx 69 500, and Bengal Rx 55,000, most of which represents the recovery of arrears

13 The Estimate of Revenue for next year provides for a further increase of Rx 75,800, towards which Upper Burma contributes Rx 54 000 and Lower Burma Rx 50,000 In Bengal there is a decrease of Rx 37,100 and in Bombay of Rx 37,200, the explanation of which is that there have been special and non recurring receipts in the current year, as explained above

It should be mentioned that it is possible that the failure of the winter rains in Upper India and the scanty north east monsoon in Madras may to some extent interfere with the realisation of these estimates

• 14 The increase of the Revenue demand in one year from Rx 24 021,100 to Rx 24 562,500 or by Rx 541,400 is remarkable, as hitherto the growth of this branch of revenue has been slow and has scarcely responded to the large outlay incurred by Government on canals and railways The relation of the settlements now in progress in the three temporarily settled Provinces of Northern India to the improvement in the revenue will be seen from the following statement, which contrasts the revenue demand of 1890 91 as measured by the Budget Estimate of that year, with the revenue demand of four years ago ascertained from the average receipts of the three years 1884 85 to 1886 87 —

| | Demand of 1886 | Demand of 1890 91 | Increase in 1890-91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Central Provinces | 612 700 | 665 300 | + 52 600 |
| Punjab | 2 148 500 | 2 286 900 | +138 400 |
| North Western Provinces and Oudh | 5 812 200 | 5 935 000 | +122 800 |

The figure Rx 122,800 does not represent the full measure of increase in the North Western Provinces and Oudh, for in two of the years (1884 85 and 1886 87) from which the demand of 1886 is calculated, the receipts were unusually high The figures, however, sufficiently illustrate the effect, now beginning to be felt, of the revision of the settlements

15 The total of the Revised Estimate of Expenditure agrees very closely with that of the original Estimate, the difference between them being only Rx 3,800, but the following important variations are noticeable in the detail An increase of Rx 12 900 is provided for in Upper Burma to meet additional expenditure on surveys of (what used to be) Royal lands, and of Rx 36 300 in Madras owing to the introduction of a revised scale of allowances to

Subordinate Revenue Officers, while a decrease of Rx 17,800 is expected in Bombay For 1890 91 the estimate is framed for an increase of Rx 80,500, which is distributed among all Provinces except the North Western Provinces and Oudh, where the expenditure is expected to be less by Rx 6,300 The principal increases occur in the Central Provinces, Upper and Lower Burma, Bengal, and Punjab, and, except in Bengal where the excess arises from revision of establishments, are due generally to the extension of survey and settlement operations

## OPIUM

16 The following are the figures —

| | Budget Estimate 1889-90 | Revised Estimate 1889 90 | Budget Estimate 1890-91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Revenue | 8 260 000 | 8 546 400 | 8 203 300 |
| Expenditure | 2 364 300 | 1 655 500 | 2 304,800 |
| Net | 5 895 700 | 6 890 900 | 5,898 500 |

The net receipt in the current year is expected to exceed the Estimate made a year ago by no less than Rx 995,200 Of this sum, Rx 286,400 represents improvement in Revenue, and Rx 708 800 saving in Expenditure The increase in Revenue is entirely due to the high average price obtained at the Calcutta sales The estimated average was R1,070 a chest, whereas till the sale held in February, the price was always much higher The highest figure was reached in September when the price realised was R1 215 a chest and the lowest in the present month when it was R1,040 The average price of the year was R1,136

These violent fluctuations indicate how difficult it is to make any satisfactory estimate, and it may be noted that, so long as the number of chests sold is maintained at the present figure, a difference of R100 a chest in the price of Bengal opium represents a difference of Rx 570,000 in revenue

The revenue from the pass duty on Malwa opium was estimated at Rx 1,953,000 on 30,000 chests The general course of the weighments has coincided with our expectations, but owing to a slackness recently observed the estimate of revenue has been reduced to Rx 1,850 000

The expenditure charged under *Opium* is—except to a very inconsiderable extent—incurred in Bengal The estimate is based on the forecasts of produce of the standing crop rendered by the Opium Agents in January and February, and it amounted to Rx 2,358 800 for an expected production of 58,800 chests Almost immediately after the publication of the Financial Statement, it was reported that, in consequence of unfavourable weather, the produce would be far short of the Estimate The actual production has been 38 305 chests, and the saving in expenditure will be Rx 708,800

In view of the low prices that prevail at present and the prospect of better crops in Malwa and China, it has been decided to adopt the R1,060 as the estimate of the average price for Bengal opium next year

Owing to the favourable crop expected in the current season in Central India, the estimate for receipts from pass duty on Malwa Opium has been placed higher than the sum taken for the Revised Estimate, namely, at Rx 1,950,000 as against Rx 1,850,000

Turning to the Expenditure, the Opium Agents give, as their latest estimate of production, opium sufficient to make about 55 000 chests The estimated expenditure has been taken at Rx 2,300,000

Before last year's manufacture the reserve on 31st December 1890 was estimated at the inconveniently large figure of 51,505 chests The short crop of last year has largely reduced the reserve Assuming the forecast of the current year's crop to be fulfilled, the reserve will stand as follows —

| | Chests |
|---|---|
| On 31st December 1890 | 31 010 |

## SALT

17 The Estimates are—

| | Budget 1889 90 | Revised | Budget 1890 91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Revenue | 8,029,900 | 8 192 500 | 8,233,500 |
| Expenditure | 462 000 | 420,900 | 453 000 |

The consumption of salt up to the latest date (28th February), for which returns have been received, is compared below (in thousands of maunds) with the consumption in the same period of the previous three years —

| | 1886-87 | 1887 88 | 888 89 | 1889-90 |
|---|---|---|---|---|
| Bengal and Orissa | 8,963 | 8,824 | 8,596 | 8 241 |
| Madras | 6 073 | 6 051 | 6,074 | 6,217 |
| Bombay | 6,635 | 6 789 | 6 124 | 6,800 |
| Sind | 205 | 211 | 211 | 221 |
| Northern India | 6 227 | 6,204 | 6 117 | 6 631 |
| Total | 28 103 | 28 079 | 27 122 | 28 110 |
| Burma | 1,249 | 1 841 | 253 | 1,060 |

18 The figures in the following statement give the consumption (in thousands of maunds) (excluding Burma), for the four years previous to the present one, for the periods 1st April to 28th February, and 1st to 31st March and also for the whole year, of salt on which duty at the full rate, R2 8 a maund, was paid

INDIA (BURMA EXCLUDED)

| | From 1st April to 28th February | From 1st to 31st March | Whole year |
|---|---|---|---|
| 1885 86 | 27 100 | 2 689 | 29 789 |
| 1886 87 | 28,103 | 2 973 | 31 076 |
| 1887 88 | 28,079 | 2,360 | 30,439 |
| 1888 89 | 27 122 | 2,703 | 29 825 |
| 1889 90 | 28,110 | 2,900 Estimate | 31,010 |

The yearly totals differ materially from those shown in paragraph 78 of the Financial Statement of 1889 90, which dealt with consumption only and did not therefore distinguish between salt paying varying rates of duty The salt produced at the Kohat mines across the Indus is taxed at 8 annas only on each 102 lbs, which is equal to 6 4 annas a maund of 82⁶⁄₇ lbs, and the incidence of the British share of the duty on the salt produced in the Mandi State and imported

under treaty into British Territory, is 5 annas a maund The aggregate consumption of both these descriptions was about 775,000 maunds in 1888-89 Clearly, for the purpose of testing the estimate of revenue by the progress of consumption, this lightly taxed salt must be separated from the salt which bears the full duty The estimate for 1889 90 as shown above should be increased by 800,000 maunds, as representing the consumption of the Kohat and Mandi salt, for the purpose of ascertaining the consumption of the whole of India

In Burma an import of about 1,150,000 maunds is indicated by the latest figures The estimate of consumption in Burma of locally produced salt is placed, by the most competent authorities, at about 560,000 maunds

19 It was explained in the Financial Statements for 1888 89 and 1889 90 that the increase in the duty in January 1888 was followed by a general falling off in the revenue But it is not clear that there was a decrease in salt actually consumed proportional to the reduction in the quantity of salt cleared for consumption It is certain that to some extent the dealers in salt deferred making new purchases, on which the higher rate of duty had to be paid, until they had exhausted the stocks on which the lower duty had been paid, and had secured the profit to be obtained by selling them at a price which was increased in full proportion to the increase in the duty

20 The following figures for Burma, where the duty was raised from 3 annas to R1 a maund from the 19th January 1888, are, for imported salt only —

| | To 28th February | From 1st to 31st March | Total |
|---|---|---|---|
| 1884 85 | 1,594 | 93 | 1,687 |
| 1885 86 | 954 | 169 | 1 123 |
| 1886 87 | 1 249 | 325 | 1 574 |
| 1887 88 | 1 841 | 90 | 1 931 |
| 1888 89 | 253 | 61 | 314 |
| 1889 90 | 1,060 | 90 Estimate | 1,150 |

The decline following on the rise in the duty is remarkable, but the explanation is simple

Very large importations had been made towards the end of the previous year, some knowledge or suspicion of the intention of Government to raise the duty having probably been circulated, and the stocks were therefore abnormally large Local manufacture also received a stimulus from the increase of the import duty, for the duty on locally manufactured salt is light and is levied by means of a half yearly fee, and until July last year, when this fee was doubled, the local manufacturer had a substantial advantage over the importer of salt These two circumstances combined to reduce the apparent consumption of imported salt in Burma to a very low level A revival in the demand for imported salt, which was doubtless due to the approaching exhaustion of the imported stocks, set in about the commencement of the current financial year The competition of locally produced salt was also regulated by the doubling of the fee The question of the measures to be taken for equalising the incidence of the duty on locally made and imported salt is one of importance The question is surrounded by difficulties, as the manufacture of salt in Burma is carried on at places and under conditions which practically render any effective check on production impossible A specially qualified officer of the Northern India Salt Depatrment was deputed last year to investigate the matter on the spot, and his report is now under consideration

21 In Northern India also there was a pause in consumption in the year following the increase of duty, but the reduction was so slight that it was pro-

bably caused by the action of holders of stocks In the present year there has been a substantial increase, the consumption of both Sambhar salt and the rock salt of the Punjab Mines having been large

In Madras in 1888 89 prices rose to a high level, the rise being ascribed, at least in part, to a combination of manufacturers Partial resumption of manufacture by the State was begun and prices have since fallen, while consumption shows a satisfactory increase

22 The only province in which consumption has not fully recovered is Bengal, and there the imposition of the increased duty has not been the only cause of the falling off, which is largely attributable to the increase in price resulting from the action of the English Salt Syndicate and the higher level of freights The average maximum prices in Calcutta of Liverpool salt (exclusive of duty) have been as follows per 100 maunds since January 1888 —

| | 1888 | 1889 | 1890 |
|---|---|---|---|
| January | 88 2 | 97 8 | 102 |
| February | 149 | 96 25 | 97 |
| March | 154 25 | 94 25 | |
| April | 138 75 | 94 | |
| May | 137 4 | 90 | |
| June | 133 5 | 92 2 | |
| July | 94 63 | 94 25 | |
| August | 94 | 94 4 | |
| September | 74 25 | 99 75 | |
| October | 83 | 111 83 | |
| November | 91 25 | 105 75 | |
| December | 96 75 | 105 6 | |

Before January 1888 the average highest price varied between 61 and 72 rupees, prices rose after the increase of the duty to a high point, falling again to almost their normal level, but the formation of the Salt Syndicate raised them towards the end of the year, and they have remained high ever since The increase in price (exclusive of duty) may be taken to be from four to five annas a maund

The falling off in the imports into Bengal does not, however, imply an equivalent falling off in consumption Both Sambhar salt and rock salt from the Punjab Mines have found a market in a wider zone in Bengal, since the increased price of Liverpool salt has enabled them to compete with it lower down the rail way line The competition would have been more active and effective but for the action of the East Indian and Oudh and Rohilkhand Railway lines in raising the rate of freight The question of these higher rates of freight is under consideration

23 The Revised Estimate provides for a consumption in India (excluding Burma) of—

| | Maunds |
|---|---|
| Fully taxed salt | 31 010,000 |
| Lightly taxed salt (about) | 800,000 |
| TOTAL | 31,810,000 |

This is the figure with which those of paragraph 78 of last year's Financial Statement are comparable The figures are continued up to 1890-91 below—

| | Consumption of Salt in Maunds |
|---|---|
| 1882 83 | 28,720,000 |
| 1883 84 | 29,338 000 |
| 1884 85 | 31 348 000 |
| 1885 86 | 30,606,000 |
| 1886 87 | 32,200,000 |
| 1887 88 | 31 186,000 |
| 1888 89 | 30,600,000 |
| 1889 90 Estimate | 31 810,000 |
| 1890 91 | 31 930,000 |

The Revised Estimate also takes into account a consumption in Burma of—

| | Maunds |
|---|---|
| Imported Salt | 1,150 000 |
| Locally made Salt | 560 000 |
| TOTAL | 1,710 000 |

The Budget Estimate of Revenue is Rx 8,233,500 or Rx 41,000 in excess of the Revised, and provides for an increased consumption of about 200,000 maunds in India and Burma

The estimates of expenditure for both years are on a higher scale than previously, principally in Burma, Bengal and Madras In Burma the imposition of fees at higher rates on locally-made salt involves a proportionate increase in the commission payable on collections In Bengal, provision has been made for payments on account of new scales of an improved type In Madras, the opening of new salt works on account of Government will involve increased expenditure

## STAMPS

24 The Estimates are—

| | Budget Estimate 1889 90 | Revised Estimate 1889 90 | Budget Estimate 1890 91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Revenue | 3 959,500 | 4 060 500 | 4,034 900 |
| Expenditure | 134,300 | 134 700 | 143,100 |
| Net | 3 825,200 | 3,925 800 | 3,891,800 |

The Revenue promises to be better than the Estimate by Rx 101,000, the improvement being contributed by Burma (Upper and Lower), Assam, the North Western Provinces and Oudh Madras, and Bombay The increases in the North Western Provinces and Oudh and Madras are considerable, namely, Rx 25,000 and Rx 35,000, and the slight falling away in the estimated revenue of 1890 91 is due to the fact that it is not thought desirable to reckon on these increases being maintained

The variations in the Expenditure are unimportant and are mainly due to the charges in England A larger quantity of Stamps is to be supplied in 1890 91, and this accounts for the increased charge

The question has been a good deal discussed in recent years whether the revenue derived from the sale of Court fee Stamps did or did not greatly exceed the cost of the Administration of Civil Justice An enquiry was undertaken in 1886 with the view of ascertaining and putting beyond question what the true facts are The result of this enquiry was published in a Resolution in the *Gazette of India* of the 11th January last, in which it was shown that including all India there was a yearly loss of Rx 125,100, and that instead of surpluses there were deficits in every Province except (1) Bengal, and (2) Madras, where the receipts and charges were practically equal

## EXCISE

25 The Estimates are—

| | Budget Estimate 1889 90 | Revised Estimate 1889 90 | Budget Estimate 1890 91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Revenue | 4 727 300 | 4 837 400 | 4 844 500 |
| Expenditure | 154 200 | 154,200 | 172 600 |
| NET | 4 573 100 | 4 683,200 | 4,671,900 |

In the current year the improvement in Revenue is Rx 110,100, and the Revenue is better than the Estimate in all Provinces except Bengal, where the decrease is Rx 30 000 and in Upper Burma where it is Rx 13 400 The large increases occur in Madras, Rx 60,000 and Lower Burma, Rx 31,400

The Excise question has been discussed at great length in the collection of papers published in the *Gazette of India* of 1st March, and nothing more need be said on the subject in this place It was to be expected that the changes in system which are being made in Bengal would be attended at first with some loss of revenue, though the falling off is also largely due to bad seasons The falling off in Upper Burma is due to the fact that the estimate first made was a mere conjecture The Revenue Officers had no facts to guide them and they framed their estimates too high

The rapid advance in the Madras Revenue is worthy of notice It is due to better management, to an efficient preventive service, to the gradual and systematic enhancement of the rate of taxation which has now in some districts reached the tariff rate, and to the extension of the Bombay system of taxing the trees from which toddy for consumption or manufacture into spirit is drawn In Lower Burma the increase is due to raising the duty on spirits locally manufactured

The estimate of Revenue for 1890 91 varies only slightly from the Revised Estimate A decrease is expected in Bombay owing to a partial modification of the method hitherto followed in fixing the 'minimum guarantee," and further increase is expected in Madras and Lower Burma

The Expenditure is increasing mainly in Bengal and Madras In Bengal the establishment of Central Distilleries under proper supervision, with a considerable strengthening of the Excise establishments, accounts for the growth of expenditure In Madras, as the tree tax system extends, the preventive establishment necessarily expands also

## PROVINCIAL RATES

26 The Estimates are—

| | Budget Estimate 1889 90 | Revised Estimate 1889-90 | Budget Estimate, 1890 91 | Revised Estimate Better + than Budget Estimate of 1889-90 | Budget Estimate 1890-91, Better + than Revised Estimate of 1889 90 |
|---|---|---|---|---|---|
| | Rx | Rx | Rx | Rx | Rx |
| Revenue | 3,258 000 | 3,345 800 | 3,349,400 | +87 800 | +3,600 |
| Expenditure | 60,500 | 54 900 | 43,500 | +5,600 | +11,400 |
| NET | 3 197 500 | 3,290,900 | 3,305 900 | +93,400 | +15,000 |

The rates and cesses credited under this head are assessed at varying percentages on Land Revenue, and as a large increase in Land Revenue is estimated for in both years, the Estimates of the rates necessarily respond This is the general explanation of the increase, but the following special items deserve notice In Madras an increase of Rx 52,400 is expected, the bulk of which is due to the fact that the original Estimate, which was prepared on a consideration of the actual receipts of past years, was too low In the North-Western Provinces and Oudh, the Patwari cess promises to produce Rx 6,300 more than the Estimate

The variations in the Estimates of Expenditure are comparatively trifling, and the only point which requires notice is that in the Punjab the discontinuance, with effect from 1st October 1889, of the payment of fees to Patwaris for the collection of the rates and cesses causes a reduction of Rx 7,500 in the Revised Estimate, and of a further sum of Rx 9,300 in the Budget Estimate for 1890 91 It must also be borne in mind that the Expenditure recorded under this head represents only the cost of collection of the cesses

## CUSTOMS

27 The Estimates are—

| | Budget 1889-90 | Revised | Budget 1890 91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Revenue | 1,418,400 | 1,487 300 | 1,561 100 |
| Expenditure | 138 300 | 134 500 | 138,600 |
| Refunds | 49,400 | 48,700 | 44 000 |

The Revised Estimate provides for an improvement of Rx 68,900 over the Budget, most of which is contributed by Burma In Bengal the estimate will not be realised

28 For the ten months ending 31st January the receipts from import duty and their distribution among the dutiable articles have been —

| | 1886 87 | 1887 88. | 1888-89 | 1889-90 |
|---|---|---|---|---|
| | Rx | Rx | Rx | Rx |
| Arms, &c | 18,500 | 18 200 | 20,200 | 19,500 |
| Malt Liquor | 8,600 | 10,400 | 12,700 | 13 900 |
| Spirit | 350,900 | 375,800 | 405,500 | 403,100 |
| Wines, &c | 38,500 | 42,503 | 41,100 | 40,200 |
| Petroleum | | | 97,100 | 131,200 |
| | 416 500 | 446,900 | 576 600 | 607,900 |

In the export revenue there has been a considerable increase in the ten months of the present year The figures are —

| | Rx |
|---|---|
| 1886 87 | 411 000 |
| 1887 88 | 453,000 |
| 1888 89 | 363,000 |
| 1889-90 | 458,000 |

This increase is due to the unusually large export of rice from Burma, the export of rice from Bengal having declined materially in consequence of high prices following on unsatisfactory crops

29 In the estimate for 1890 91 the continuance of the favourable conditions of the current year is not fully reckoned on, though a recovery is looked for in Bengal The increase estimated for is wholly due to the additional revenue which will be yielded by the enhanced tax on imported spirits At R5 agallon the average net receipts from the duty on spirits are about Rx 480 000 We therefore estimate the additional revenue, due to the increase of the duty by R1, at about Rx 92,500 The reasons which have influenced the Government in deciding to raise the duty have been explained in introducing the Bill to amend the Tariff Act, and in this place it will suffice to give a very brief recapitulation of them

The reasons are —

(1) On general grounds, it is desirable to increase, within reasonable limits, the cost to the consumer of intoxicating liquors, by increasing the duty on them

(2) It is an accepted principle of Excise administration in India to endeavour to gradually raise the duty on spirits made in India to the tariff rate, which practically sets a limit to the increase It has been found possible in some places to increase the duty to the tariff rate, so that the occasion for a further increase of that rate has arrived

(3) It is hoped that the increase may check the increasing import of cheap deleterious foreign spirit

(4) The increased duty will make a substantial addition to the public revenue

The estimates of expenditure and refunds are fairly constant and call for no remarks

## ASSESSED TAXES

30 The Estimates are—

| | Budget 1889 90 | Revised 1889-90 | Budget 1890-91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Revenue | 1,515 300 | 1,567,100 | 1,558 700 |
| Expenditure | 28,800 | 28,000 | 31,200 |

The Revised Estimate provides for an increase in Revenue of Rx 51,800, to which all Provinces contribute except the districts directly administered by the Government of India The chief increases are, Rx 11,300 in the Punjab due to revision of assessments, and Rx 10,000 in Madras, to realisation of arrears

The variations of the receipts from year to year are necessarily small, and the Budget for 1890-91 virtually repeats the Revised Estimate for 1889 90

The variations in the estimate of expenditure are trifling, the increase occurring in Bengal and representing provision for a separate assessing establishment

The net collections amounted to Rx 1,477,514 in 1888 89, or more by Rx 94,706 than the collections of the previous year The following table shows how this increase is distributed —

| | Income tax collections 1886-87 | Income-tax collections 1887 88 | Income-tax collections 1888-89 | Percentage of total collections 1888 89 | Increase (+) or Decrease (—) in 1888 89 compared with 1887 88 |
|---|---|---|---|---|---|
| | Rx | Rx | Rx | | Rx |
| India | 122 406 | 133 874 | 139,787 | 9 4 | +5,913 |
| Central Provinces | 39 836 | 40 348 | 42,464 | 2 9 | +2,116 |
| Burma | 16 | 29 | 50,036 | 3 4 | +50 007 |
| Assam | 19 905 | 22 661 | 22 232 | 1 5 | —429 |
| Bengal | 333 626 | 364 122 | 381,648 | 25 8 | +17 526 |
| North Western Provinces and Oudh | 213 639 | 213 963 | 218 150 | 14 8 | +4,187 |
| Punjab | 105 652 | 106,639 | 113 271 | 7 7 | +6,632 |
| Madras | 136 674 | 162 658 | 164 877 | 11 1 | +2 219 |
| Bombay | 303 756 | 330 514 | 345,049 | 23 4 | +6,535 |
| TOTAL | 1 277,510 | 1 382 808 | 1 477,514 | 100 | +94 706 |

More than half of the total increase occurred in Burma, to portions of which the tax was extended from 1st April 1888 Leaving that Province out of account the collections in India shew an increase of Rx 44,699, or 3 23 per cent, of which rather more than a third occurred in Calcutta

## FORESTS

31 The following statement shows the present state of the Forest Revenue —

| | Budget 1889-90 | Revised 1889 90 | Budget 1890-91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Revenue | 1 269 600 | 1 446,400 | 1,414,400 |
| Expenditure | 801 300 | 815 700 | 847 900 |
| Surplus | +468 300 | +630 700 | +566 500 |

The increase of gross revenue indicated in the Revised Estimate is Rx 176,800, of which the greater part is due to an exceptionally favourable season for floating down timber and to rising prices in Upper and Lower Burma, the improvement having produced Rx 45,100 in Upper and Rx 91,500 in Lower Burma Bombay shows an advance of Rx 17,100, due to increased operations, and the North Western Provinces, the Punjab, and Bengal between them contribute an additional revenue of about Rx 19,300, due to sale of railway sleepers in the first Province, supply of fuel for railways in the second, and improved sales of timber in the third

The increased expenditure involved by these more active operations is expected to be only Rx 14,400 The surplus for the current year is expected

o be Rx 73,700 better than that of 1888-89, which was about Rx 157,000 higher than that of any previous year

The Budget Estimate of Revenue is Rx 32,000 less than the sum expected in the current year There is a general increase in all Provinces except Burma, where the falling off means that the continuance of the exceptionally favourable conditions of the current year cannot be reckoned on The proportion of expenditure to income has fallen from 59 per cent in 1888-89 to 56 per cent in the current year

## INTEREST ON DEBT

32 The Estimates are—

| | Budget Estimate 1889 90 | Revised Estimate 1889 90 | Budget Estimate 1890-91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Receipts | 734 200 | 867,700 | 789 900 |
| Expenditure | 4,358,600 | 4,262,300 | 4 296 300 |
| Net | 3 624,400 | 3,394 600 | 3 506 400 |

The explanation of the expected increase in the receipts in the current year is that the Secretary of State has had control of a high cash balance and has been able to invest a large portion of it temporarily at a high rate of interest The explanation of the reduction in the expenditure is (1) that the Budget provided for a loan in India of 2½ crores at a discount, whereas a loan of only 2 crores was raised at about par, (2) that no temporary loans were required in England, (3) that a loan of only £3,500,000 was raised in sterling in place of one of £3,750,000 anticipated at the time the Budget was framed, (4) because the charges transferred from this head to the Railway Revenue Account for interest on advances to Companies were larger than anticipated, on account of advances being made at earlier dates, and (5) because the rate of Exchange on the sterling payments is better than the Estimate

33 The following figures show in thousands of £ the amount of the sterling debt of the Government of India at the end of each year from 1881 82, the amount of interest paid during the year, and the distribution of the total amounts between ordinary debt and that held on account of Railways —

| | 1881 82 | 1882-83 | 1883 84 | 1884-85 | 1885-86 | 1886-8 | 1887-88 | 1888-89 | 1889-90 Revised | 890 9 Budget |
|---|---|---|---|---|---|---|---|---|---|---|
| Sterling Debt— | | | | | | | | | | |
| Ordinary Account | 58,620 | 59 094 | 56 910 | 56 758 | 60 207 | 65 714 | 65 626 | 66 184 | 65 881 | 65 881 |
| Railway Account | 9 522 | 9 492 | 11 199 | 12 513 | 13 600 | 18 514 | 18 514 | 28 850 | 32 350 | 38 745 |
| TOTAL | 68 142 | 68 586 | 68 109 | 69 271 | 73 807 | 84 228 | 84 140 | 95 034 | 98 231 | 104 626 |
| Interest— | | | | | | | | | | |
| Ordinary Account | 2 512 | 2 481 | 2 442 | 2 610 | 2 429 | 2 597 | 3 365 | 2 662 | 2 402 | 2,482 |
| Railway Account | 353 | 348 | 312 | 353 | 366 | 566 | 552 | 632 | 914 | 988 |
| TOTAL | 2 865 | 2 829 | 2 754 | 2 963 | 2 795 | 3 163 | 917 | 3 294 | 3 316 | 3 470 |
| Interest Receipts— | | | | | | | | | | |
| Ordinary Account | 56 | 24 | 30 | 35 | 9 | 41 | 66 | 135 | 134 | 62 |

It will be seen from these figures that in nine years the debt on ordinary account has increased by £7,261,000, while the Railway debt has increased by £29,223,000 The addition to the ordinary debt really represents the cost of Railway Construction, the Public Works loans in 1885 86 and 1886 87 having been raised in England, but as the transfer from ordinary to Railway account is always

made in the Indian portion (that is, the rupee portion) of the Accounts whether the debt is created in England or India, the amounts raised in England have been added to the ordinary sterling debt, while a corresponding reduction has been made in the ordinary rupee debt The conversion of £53,261,820 four per cent. into three and a half per cent stock resulted in a net saving of £266,310 a year

Of the total increase in the Railway portion of the sterling debt a sum of £3,500,000 has been raised in the current year under the Oudh and Rohilkhand Railway Purchase Act for making advances to Railway Companies, and it is proposed to raise a similar loan of £1,700,000 next year The practice is obviously economical, as the Secretary of State can borrow at less than 3 per cent while the Companies have to pay higher rates for their debentures The rest of the increase in the nine years represents the purchase money paid for the Oudh and Rohilkhand and South Indian Railways and the redemption of liabilities incurred by the acquisition of the Sind, Punjab and Delhi, the Eastern Bengal, and the East Indian Railways It will thus be seen that the greater portion of the increase to the debt is only nominal, having been incurred to extinguish existing liabilities which were shown in the Railway Revenue Account under other heads than Interest on Debt The charges on account of interest have correspondingly increased, but there has been a much larger reduction under other heads, notably under Interest payable to Guaranteed Companies

34 The following are the details of the debt in India —

Thousands of Rx.

| | 1882-83 | 1883 84 | 1884 85 | 1885-86 | 1886-87 | 1887-88 | 1888 89 | 1889 90, Revised | 1890-91 Budget |
|---|---|---|---|---|---|---|---|---|---|
| Permanent Debt— | | | | | | | | | |
| Ordinary Account | 35 770 | 35 993 | 21 633 | 14,459 | 8 234 | 10 693 | 11,457 | 9 869 | 6 083 |
| Railway Account | 54 919 | 57 198 | 71 551 | 78 245 | 84 420 | 87 397 | 89,422 | 92 890 | 96 640 |
| Special Loans | 1,953 | 1 809 | 1 799 | 1 782 | 1 782 | 1 781 | 1 781 | 1 780 | 1 780 |
| Service Funds &c | 951 | 1 000 | 1 056 | 1,082 | 1 137 | 1 179 | 1 227 | 1 275 | 1 326 |
| Savings Banks | 3 744 | 4 017 | 4 722 | 5 116 | 5 836 | 6 721 | 7 664 | 7 631 | 7 890 |
| TOTAL | 97 337 | 100 017 | 100 761 | 100 684 | 101 409 | 107 771 | 111,551 | 113,445 | 113 719 |

A large portion of the public debt has been incurred for the purpose of advancing funds on easy terms to Municipalities and other Public Bodies, and to Native States Rx 6,250,000 of it also represents the investment of the currency reserve The following figures show the net charge in India on account of interest on ordinary account, as well as the interest on the Capital expenditure on Railways and Irrigation Works —

Thousands of Rx

| | 1882 83 | 1883 84 | 1884 85 | 1885-86 | 1886 87 | 1887-88 | 1888 89 | 1889-90 Budget | 1889-90 Revised. | 1890-91 |
|---|---|---|---|---|---|---|---|---|---|---|
| Charged to Interest on Debt | 1,719 | 1 517 | 1 371 | 1 137 | 737 | 662 | 811 | 803 | 779 | 697 |
| Recovered | 670 | 820 | 668 | 687 | 614 | 653 | 643 | 690 | 673 | 700 |
| Net Charge | 1,049 | 697 | 703 | 450 | 123 | 9 | 168 | 113 | 106 | —3 |
| Interest on Railways | 1 621 | 1 785 | 1 959 | 2 182 | 2,423 | 2 558 | 2,692 | 2 779 | 2,770 | 2,891 |
| " Irrigation Works | 816 | 895 | 932 | 965 | 993 | 1,018 | 1,041 | 1,065 | 1,061 | 1,083 |
| Total | 2 437 | 2 680 | 2 891 | 3,147 | 3 416 | 3 576 | 3,733 | 3,844 | 3,831 | 3,974 |

The net charge on ordinary account in 1887-88 was unusually low, partly ecause about Rx 90,000 of the charges remained unpaid at the end of the ear and were paid in the following years, and partly because about Rx. 40,000 ere received during the year on account of arrears of interest on the Kidder-ore Dock loan The singular and interesting fact which this statement reveals, s that there is now an actual net receipt on account of the ordinary rupee debt n other words the interest on the investments held on account of Government, nd on the advances made to Public Bodies and others by Government, exceeds he interest payable on that portion of the rupee debt which is not actually epresented by Railways and Irrigation Works

## POST OFFICE, TELEGRAPH, AND MINT

35 The net result of the working of these three *quasi*-Commercial Depart ients will be apparent from the following figures —

| | 1888-89 | 1889 90 | | 1890 91 Budget |
|---|---|---|---|---|
| | | Budget. | Revised. | |
| | Rx | Rx | Rx | Rx |
| ost Office— | | | | |
| Revenue | 1,281,540 | 1,348 000 | 1,304,300 | 1,386,200 |
| Expenditure | 1,342,452 | 1,402,800 | 1,366,100 | 1,419,900 |
| NET | —60,912 | —54,800 | —61,800 | —33,700 |
| elegraph Capital Account— | | | | |
| Receipts | 1 191 | | | |
| Expenditure | 158,858 | 180 100 | 157,000 | 222,300 |
| NET | —157 667 | —180,100 | —157,000 | —222,300 |
| elegraph Revenue Account— | | | | |
| Revenue | 740 957 | 752,100 | 768 300 | 793 200 |
| Expenditure | 545,234 | 582 300 | 562 900 | 578 200 |
| NET | 195 723 | 169 800 | 205,400 | 215 000 |
| Iint— | | | | |
| Revenue | 221,138 | 228 600 | 267 100 | 244,000 |
| Expenditure | 99,967 | 103 100 | 119 100 | 108,200 |
| NET | 121,171 | 125 500 | 148,000 | 135,800 |

These figures do not profess to give a complete account of the profit and oss of the Departments, but merely show the difference between the revenue nd expenditure as recorded in the accounts and estimates As regards the Post Office, the somewhat unfavourable result of the curren year is mainly due to change in the system of accounting Hitherto it has been the practice to redit as revenue, (1) the cost of Postage Stamps sold by Treasuries to Post iasters, whether disposed of to the public within the year or not, and (2) all ostage due on articles remaining undelivered at the end of the year, by debit o advances In future only the sum received for stamps actually sold to the ublic and postage actually realized will be credited as revenue of the year The effect of this change has been to reduce the revenue of the current year y about Rx 41,000

The Revenue Account of the Telegraph Department indicates a gradual xpansion of traffic and a slowly increasing surplus The increase in the capital xpenditure is due to the contemplated construction of new lines, most of hich are necessitated by the extension of Railway communications

The imports and coinage of silver during the three closing months of the current year will be very heavy This large coinage, and the higher gain on the copper coinage resulting from the reduced price of copper, account for the improvement shown under Mint

## CIVIL DEPARTMENTS

36 The Estimates of the several heads which fall into this group are compared below —

| | Budget Estimate 1889-90 | Revised Estimate 1889-90 | Budget Estimate 1890-91 | Revised Estimate 1889-90 Better + Worse — than Budget Estimate of 1889-90 | Budget Estimate 1890-91 Better + Worse — than Revised Estimate of 1889-90 |
|---|---|---|---|---|---|
| | Rx | Rx | Rx | Rx | Rx |
| Receipts | 1 464 200 | 1 518 700 | 1 521 500 | +54 500 | +2,800 |
| Salaries and expenses | 13 291 200 | 13 282 500 | 13 596 800 | +8 700 | —314,300 |
| Net Expenditure | 11 827 000 | 11 763 800 | 12 075,300 | +63,200 | —311,500 |

The improvement in Revenue does not call for special notice, as, with few exceptions, it results from a number of minor variations

The Revised Estimate of Expenditure approximates closely in the aggregate to the original Estimate for 1889 90, but the following variations call for a few words of explanation —

| | Expenditure less | Expenditure more |
|---|---|---|
| | Rx | Rx |
| 18 General Administration | 25 800 | |
| 20 Police | 58,800 | |
| 21 Marine | | 92 600 |
| 22 Education | 51,000 | |
| 25 Political | | 37 000 |
| TOTAL | +135,600 | —129 600 |

Of the improvement under *Administration*, Rx 16,600 is the result chiefly of economies effected in the offices of the Government of India, and Rx 13,400 occurs in England and Exchange The smaller expenditure under *Police* is almost entirely due to savings in the District Executive Force and Special Police charges in Burma, rendered possible by the restoration of order and decrease of crime in that Province The considerable increase in *Marine* Expenditure is due to provision having been made for the purchase of a steamer for the Andamans and a steam launch for the Port Officer, Calcutta, to the payment of the balance of the purchase money of a steamer to replace the *Undaunted*, and to a large supply of Stores from England The improvement under *Education* is distributed in small amounts over all Provinces, and the increase under *Political* is chiefly due to the payment of arrears of subsidy to the Amir of Afghanistan

37 The increase of expenditure provided for in the Budget Estimate for 1890 91 is expected under all heads except *Marine*, where the absence of provision for the special items of expenditure referred to above results in a reduction of Rx 55,400 from the amount provided in the Revised Estimate The following are the principal items of increase *Courts of Law*, Rx 51,300, owing chiefly to provision having been made for additional Judicial Establishments in Burma and in Bengal, *Jails* Rx 35,300, *Police*, Rx 63,000, of which 29,300 is provided in Lower Burma principally on account of additional Police to be entertained in place of men under training, and the balance in the Punjab, Madras, and Bombay as the result of revision of establishments, contemplated or in pro

gress, *Education*, Rx 92,400, in consequence generally of an increase in the number of Government Schools and in the grants in aid to private Educational Institutions in all Provinces, and *Scientific and Other Minor Departments*, Rx 64,100, resulting almost entirely from the provision for the forthcoming Census

## MISCELLANEOUS

38 The Estimates are as follows —

| | 1888-89 Accounts | Budget | 1889-90 Revised | 1890-91 Budget | Increase (+) or Decrease (—) of Revised as compared with Budget Estimates 1889-90 | Increase (+) or Decrease (—) of Budget 1890-91 as compared with Revised Estimates 1889-90 |
|---|---|---|---|---|---|---|
| | Rx | Rx | Rx | Rx | Rx | Rx |
| Revenue | 1 793 000 | 1 340 300 | 1 325 500 | 1 243,000 | —14 800 | —82 500 |
| Expenditure | 4 884 000 | 4 823 200 | 4 848 700 | 4 945,400 | +25 500 | +96 700 |

The variations in revenue occur mainly in the receipts under Exchange, which were Rx 951 500 in 1888 89, and are estimated at Rx 527,300 and Rx 453,400 in the Budget and Revised Estimates of 1889 90, and Rx 443,500 in the Budget Estimate of 1890-91 It has been explained in previous years that these receipts accrue almost entirely in connection with the capital transactions of the subsidised Railways, the most important of which are the Southern Mahratta, Indian Midland, and Bengal Nagpur Railways The gradual falling off in the receipts is due to the smaller capital expenditure on these Railways, some of which have already been completed and others are approaching completion Excluding *Exchange*, the revenue under this group amounted to Rx 841,300 in 1888 89, and is estimated at Rx 813,000 and Rx 872,100 in the Budget and Revised Estimates of 1889 90, and at Rx 799 500 in the Budget Estimate of 1890 91 The balance of the deposits of the Military Orphan Fund having been exhausted in 1888 89, the credit which used to be taken to revenue from this balance on account of the net payments made for the Fund, ceased in that year and accounts for a falling off of about Rx 35,000 In the current year, however, this falling off has been more than compensated by special receipts, of which the principal are, a fine of Rx 20,000 from a Karen Chief, and a recovery of Rx 21,900 from the Bombay Port Trust on account of their non interest bearing debt, which represents the value of land purchased, and buildings constructed, from revenue and taken over by the Trust

The increase in Expenditure is chiefly attributable to increasing superannuation allowances and to increased demands for Stationery and Printing, following on the growth of public business and the multiplication of public offices

## FAMINE RELIEF AND INSURANCE

39 The Estimates are —

| | Budget 1889 90 | Revised. | Budget 1890-91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Famine Relief | 20 500 | 100,000 | 10 500 |
| Construction of Protective Irrigation Works | 80,000 | 74 000 | 65 000 |
| Reduction of Debt | | 433,500 | 524,500 |
| TOTAL | 100,500 | 607,500 | 600 000 |

In the Budget Estimate for the current year Rx 20,000 were provided for the relief of the scarcity in Behar When the estimates were prepared it was not thought that the scarcity in Ganjam would be of a nature to require expenditure on direct relief It is well known that in both districts the scarcity turned out to be more serious than was at first anticipated Rx 50,000 were spent on direct relief operations in Behar and the same sum in Madras An outlay of Rx 32,500 was also incurred on the Rushikuliya Canal and helped to alleviate the distress in Ganjam Most of the rest of the outlay on the irrigation works charged to this head represents the cost of construction of the Nira Canal in Bombay Next year's grants provide for further progress on the two works mentioned above, and a precautionary provision of Rx 10,000 is made for direct relief in Bengal

It has been explained elsewhere that the great improvement in the financial outlook has enabled the Government to take steps for the gradual restoration of the Famine Insurance Grant, and no detailed explanation is therefore required of the entries against *Reduction of Debt*

## RAILWAY FINANCE

40 The extent to which the Indian Budget is influenced by the condition of Railway Traffic and Construction will be apparent from the following figures —

| | REVENUE | | | | EXPENDITURE | | |
|---|---|---|---|---|---|---|---|
| | Budget 1889-90 | Revised 1889-90 | Budget 1890-91 | | Budget 1889-90 | Revised, 1889-90 | Budget, 1890-91 |
| | Rx | Rx | Rx | | Rx | Rx | Rx |
| | 16 686 200 | 16 503 000 | 17 151 100 | India | 10 503,400 | 10 273 000 | 10 727 900 |
| | 200 | 200 | 200 | England | 5 603 900 | 5 609 600 | 5 717 200 |
| | 100 | 100 | 100 | Exchange | 2 605 800 | 2 524 300 | 2 572 800 |
| Loss on the Railway Account | 2 026 600 | 1 903,600 | 1 866 500 | TOTAL | 18 713,100 | 18 406 900 | 19 017 900 |
| TOTAL | 18 713 100 | 18,406 900 | 19 017 900 | | | | |

Of the various items of Revenue which enter into the Estimates, Land Revenue alone furnishes a larger contribution to the Treasury than the gross Railway Revenue, and the Expenditure on the working of Railways and in paying the interest on the money spent in constructing them, is second only to that incurred on the Army

41 For the current year, the Revised Estimate compares with the Budget as follows —

RECEIPTS

| | Budget | Revised | Better + Worse — |
|---|---|---|---|
| | Rx | Rx | Rx |
| State Railways (gross Traffic Receipts) | 13,103 500 | 13,360,300 | +256,800 |
| Guaranteed Railways (net Traffic Receipts) | 3,560 000 | 3,100 000 | —460,000 |
| Subsidized Companies (Repayment of advances of interest) | 23,000 | 43 000 | +20,000 |
| TOTAL | 16 686,500 | 16,503,300 | —183,200 |

EXPENDITURE

| | Budget. | Revised | Better + Worse — |
|---|---|---|---|
| | Rx | Rx | Rx |
| State Railways | 14,454,000 | 14,310 700 | + 143 300 |
| Guaranteed Railways (Surplus Profits, Land and Supervision and Interest) | 4,089,100 | 3,866 900 | + 222,200 |
| Subsidized Companies | 87 500 | 74 100 | + 13,400 |
| Miscellaneous Railway Expenditure | 82,500 | 155,200 | — 72,700 |
| | | NET | + 306,200 |

The receipts are therefore expected to be Rx 183,200 worse, and the expenditure Rx 306,200 better, than the estimate, the whole of the deterioration in Receipts and most of the improvement in Expenditure appearing against "Guaranteed Railways" Low earnings of course mean that low surplus profits have to be paid, in other words, that a part of the loss of Revenue comes back to us in the shape of reduction of Expenditure

42 *State Railways Traffic Receipts and Working Expenses*—The most marked variations from the receipts as originally estimated occur on the following lines —

| | Rx | |
|---|---|---|
| North Western Railway | 265 000 | better |
| Eastern Bengal | 75 000 | better |
| Rajputana Malwa | 60 000 | better |
| Oudh and Rohilkhand | 45 000 | better |
| Tounghoo Mandalay | 42,500 | better |
| Tirhoot | 40,000 | better |
| Indian Midland | 180 000 | worse |
| Bengal Nagpur | 52,500 | worse |
| Southern Mahratta | 25 000 | worse |

and the working expenses are heavier on the—

| | Rx |
|---|---|
| North Western Railway, by | 50,000 |
| Rajputana Malwa | 47 500 |
| Tounghoo Mandalay | 23 500 |
| Burma | 22,500 |
| Bengal Nagpur | 21 000 |

but fall short of the Estimate on the—

| | |
|---|---|
| Indian Midland, by | 132 500 |
| East Indian | 75 000 |
| Sindia | 14,600 |

The large increase in the receipts on the North Western Railway is due to a very favourable grain traffic The Rajputana-Malwa line has carried more grain and cotton, and the Eastern Bengal Railway an exceptional quantity of jute The failure to realise the estimates in the case of the three State lines leased to Companies is due partly to the conjectural nature of the estimates, as there were no data available for framing them, and partly to various sections of the lines not having been opened to traffic as early as anticipated

Heavy traffic leads to increased working expenses, and this is the explanation generally of the increased expenditure The original estimate for the East Indian Railway provided for a larger renewal of locomotives than was made, and the saving on the Sindhia line is due to the fact that the provision

made for the settlement of a long outstanding claim preferred by the Bombay, Baroda and Central India Railway was not utilised, as the claim is yet under consideration

43 *Guaranteed Railways* —As already explained, the failure of the estimate of receipts and also most of the saving in Expenditure have occurred in connection with the guaranteed lines The falling off occurs almost entirely on the Great Indian Peninsula Railway, the gross receipts being now estimated at Rx 510,000 below the Budget figure This is due mainly to a decrease in the wheat traffic, resulting from (1) poor crops in the localities served by the Railway, (2) a reduced demand for export owing to favourable crops in Europe and America, and (3) unusually large exports from the Punjab There was also a falling off in the linseed traffic, and in the carriage of materials for Railway construction owing to the completion of the Indian Midland line

The Madras Railway has, without any sensible increase in its expenditure, improved its receipts by Rx 70,000 over the Estimate

44 *Miscellaneous Railway Expenditure* —The increase from Rx 82,500 to Rx 155,200 is principally due to the cost of material for a few miles of an experimental railway (the Abt) with a rack rail, and also to a large outlay on surveys, among which may be mentioned the Bikanir Desert Survey, the East Coast Survey, the Hyderabad Umarkot Survey, Surveys in the Shan Hills, and on the Chindwin, and also on the North West Frontier

## CAPITAL EXPENDITURE

45 *Construction of State Railways (not charged against Revenue)* —The Budget Estimate provided for an outlay of Rx 3,562,000 The present estimate is for Rx 3,066,200, or a reduction of Rx 495,800 The greater portion of the reduction occurs in the sterling expenditure in England which is now expected to be less than the estimate by £236,500 No progress has been made on the Peshawar Jumrood or Burrakar lines or on the Kistna Bridge, for which Rx 200,000 were provided in the Estimates The year's record of construction is as follows —

The Assam Behar Railway, the Toungboo Mandalay Railway, the Sind-Sagar Railway, and the Chenab Bridge have been practically completed, considerable progress has been made with the Villapuram Dharmaveram line, and with the Chaman Tunnel and extension The Mu Valley line has been commenced, and the Jammu Kashmir line is in progress

## BUDGET ESTIMATE, 1890 91

46 The Budget Estimate for 1890 91 compares with the Revised Estimate of the current year as follows —

### RECEIPTS

| | Revised | Budget 1890 91 | Better + Worse — |
|---|---|---|---|
| | Rx | Rx | Rx |
| State Railways (gross Traffic Receipts) | 13 360,300 | 13,777 300 | +417 000 |
| Guaranteed Railways (net Traffic Receipts) | 3,100,000 | 3 342,000 | +242,000 |
| Subsidized Companies (Repayment of advances of interest) | 43,000 | 32,100 | —10 900 |
| TOTAL | 16,503,300 | 17,151,400 | + 648,100 |

EXPENDITURE

| | Revised | Budget 1890 91 | Better + Worse— |
|---|---|---|---|
| | Rx | Rx | Rx |
| State Railways | 14 310,700 | 14,841,900 | —531 200 |
| Guaranteed Railways (Surplus Profits, Land and Supervision and Interest) | 3 866 900 | 4 012,700 | — 145,800 |
| Subsidized Companies | 74,100 | 52,000 | +22 100 |
| Miscellaneous Railway Expenditure | 155,200 | 111,300 | +43 900 |
| TOTAL | 18,406 900 | 19 017,900 | —611 000 |

An increase of Rx 648,100 in receipts and of Rx 611,000 in expenditure is, therefore, estimated for, the net improvement being Rx 37,100

47 *State Railways, Traffic Receipts and Working Expenses*—The chief improvements in receipts are expected on the following lines —

| | Rx |
|---|---|
| South Indian (owing to change of status) | 132,500 |
| Midland | 130,000 |
| Bengal Nagpur | 102 500 |
| Southern Mahratta | 70 000 |
| Oudh and Rohilkhand | 35,000 |
| Burma | 30 000 |
| Tounghoo Mandalay | 22 500 |
| East Indian | 10,000 |
| Villapuram Guntakal (Nellore Branch) | 7 100 |

and the only material falling off on the

| | |
|---|---|
| North Western | 165,000 |

The improvement in the Midland and Bengal Nagpur lines is anticipated or the reason that the former will be completely open for traffic throughout the ear, and the latter for a portion of it The estimates are, however, to some xtent conjectural, and it is well to bear in mind that the results of the current year iave not accorded with the anticipations on which the estimates were framed a ear ago The completion of the Southern Mahratta system explains the xpected increase of Rx 70,000 on that line The traffic on the Oudh and Rohilkhand line is developing in a satisfactory manner, and both the Burma nes have done remarkably well and promise to continue to do so The following gures for the Upper Burma line have some interest —

| | Budget 1889 90 | Revised | Budget 1890-91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| eceipts | 115 000 | 157 500 | 180 000 |
| 'orking Expenses | 100 000 | 123,500 | 130,000 |
| Net | 15,000 | 34,000 | 50,000 |

The improvement on the Villapuram Guntakal (Nellore Branch) line is not altogether real, as owing to the change of status of the South Indian Railway, through which agency this line is at present worked, the receipts will be adjusted monthly instead of half yearly, thust hrowing the transactions of 15 months into the accounts of 1890 91 A falling off on the North Western line of Rx 165,00 is expected, in the current year the grain traffic has been unusually heavy, and with the failure of the winter rains in the Punjab its continuance on the same scale cannot be looked for

In *Working Expenses* the increase is estimated at Rx 300,300, and may be stated generally to be proportionate to the increased traffic expected

The addition to the *Interest* charge is Rx 230,900 This, of course, represents the interest on the additional outlay on construction and on the additional capital deposited by the Assisted Companies during the year

48 *Guaranteed Railways*—In consequence of its change of status on 31st December 1890, the net earnings of the South Indian line for nine months only come into the Estimates On the Madras and Bombay Baroda and Central India lines slight increases aggregating Rx 20,000 are expected The increase of Rx 242,000 is due to the more favourable view taken of the prospects of the Great Indian Peninsula line The partial collapse of the traffic, and the special reasons for it, have already been alluded to A recovery set in in November, and as it is understood that the wheat crop in the Central Provinces is a fair one, there is reason to hope that the improvement may be maintained The Estimate provides for Gross Earnings at Rx 4,000,000 and working expenses at Rx 1,960 000, giving net earnings of Rx 2,040,000 and a net increase of Rx 260,000 The following figures show that with ordinary conditions this is not a sanguine estimate —

Net earnings (actual)—

| | | Rx |
|---|---|---|
| | 1886 87 | 2,114 300 |
| | 1887-88 | 2 142 400 |
| | 1888 89 | 2 209,100 |
| Budget Estimate | 1889 90 | 2 270,000 |
| Revised Estimate | 1889 90 | 1 780 000 |
| Budget | 1890 91 | 2,040,000 |

The *Surplus profits* and *Interest* are more by Rx 145,800 than in the current year, the greater portion of which is the consequence of the higher estimate of earnings, and the rest of additional capital outlay on which interest has to be paid

49 Under *Miscellaneous Railway Expenditure* the improvement of Rx 43,900 is nominal, as the current year bears the exceptional charge for the Abt experimental material The provision of Rx 111,300 is for surveys

Before leaving the subject of Railway Revenue and Expenditure it is desirable to call attention to the magnitude of the transactions and to the impossibility of framing a close estimate of the probable traffic earnings The Budget Estimates for the current year promise to be fulfilled within an inconsiderable margin, but this is not because each estimate has proved a good one on the contrary, the variations from expectation, on the Great Indian Peninsula line in particular, and on the Midland and Bengal Nagpore in a less degree, indicate the perplexing nature of the task This liability to fluctuation in the net earnings of our great Railway system adds one more cause of uncertainty to those which already affect Indian finance

CAPITAL EXPENDITURE.

50 The provision in 1890 91 for construction of Railways not charged to evenue is Rx. 362,000 less than the original provision of the current year us —

| | India | England | Exchange | Total |
|---|---|---|---|---|
| | Rx | £ | Rx | Rx |
| 89 90 | 1,697 100 | 1,273,000 | 591 900 | 3 562 000 |
| 90 91 | 1 960 200 | 855,000 | 384 800 | 3,200,000 |

The works on the Chaman Extension, for which a heavy grant was made in 389 90, are now far advanced and require a very much smaller grant in 1890 91 provide for their completion The Chenab Bridge is practically completed he Sind Pishin, Sind Sagar, and Assam Behar Railways and the Mandalay xtension, on which considerable sums were expended during the past year, are ow finished, and the expenditure next year will be restricted to requirements nich the exigencies of traffic or safe working may prove to be necessary

The expenditure on the Villupuram Guntakul Railway, under construction n behalf of the State by the South Indian Railway, will still be high, and ovision to the extent of Rx 968,600 has been made in the estimates It is pected that 160 miles of this line will be sufficiently far advanced to be open r traffic about January next

During the current year, the Mu Valley Railway, the Durbhunga Bairagnia anch of the Tirhoot State Railway, and an extension of the Sind Sagar ailway from Mianwali to Mari were sanctioned, and work on them is now in ogress The grants allotted to these projects in 1890 91 are Rx 500,000, x 75,400, and Rx 195 000 respectively The allotments to the two last amed projects provide for their completion during the coming year

Provision to the extent of Rx 250,000 is made for either the Panchpara anjam or East Coast project now under investigation Other important grants e, Rx 63,600 for improving the gradients on the North Western Railway tween Jhelum and Rawalpindi and Rx 62,800 for completing the reserve of aterial which it has been decided to maintain for future possible extensions of e Frontier Railways

51 The following figures shew the rate at which Railways have been con ucted at the cost, or on the responsibility, of the Government since 1880 —

| Date | Number of miles open |
|---|---|
| 31st March 1880 | 8 382 |
| " 1881 | 9 134 |
| 1882 | 9 437 |
| " 1883 | 9 748 |
| " 1884 | 10 188 |
| " 1885 | 10,824 |
| " 1886 | 11,173 |
| " 1887 | 12,000 |
| " 1888 | 12 915 |
| " 1889 | 13,648 |
| " 1890 (Revised Estimate) | 14 437 |

Between March 1880 and March 1890 the number of miles open has in-eased from 8,382 to 14,437, or by more than 72 per cent

The following Table gives the Total Capital outlay on Railway Construction up to date —

| | State Railways | State Railways constructed through the Agency of Companies | Guaranteed lines | TOTAL | Annual progress. |
|---|---|---|---|---|---|
| | Rx | Rx. | Rx | Rx | Rx |
| To end of— | | | | | |
| 1879-80 | 28 007 395 | | 96 829,969 | 124 837 364 | |
| 1880 81 | 67 224 624 | | 66 348,478 | 133 573 102 | 8 735,738 |
| 1881 82 | 70 569 807 | | 67 021 756 | 137 591 623 | 4,018,521 |
| 1882 83 | 72 800 428 | 468 270 | 67,431,448 | 140 700 146 | 3 108 523 |
| 1883 84 | 76,653 281 | 704,155 | 68 769 369 | 146,126 805 | 5,426,659 |
| 1884 85 | 81 389 391 | 3 126,906 | 69 904,427 | 154,420 724 | 8 293,919 |
| 1885 86 | 9 863,111 | 4 775 059 | 67 883 682 | 163 521 852 | 9 101 128 |
| 1886 87 | 108 456 220 | 7 915 378 | 57 046 325 | 173,417 923 | 9,896 071 |
| 1887 88 | 110 788 941 | 12 979 680 | 57 694,898 | 181,463 519 | 8 045,596 |
| 1888-89 | 111 989 453 | 18 097 843 | 58 313,774 | 188 401 070 | 6 937 551 |
| 1889-90 Revised | 124 329 814 | 20 284 543 | 49 499 263 | 194,113 620 | 5 712,550 |
| 1890 91 Budget | 127 534 564 | 22 631,443 | 50 281 163 | 200,447 170 | 6 333,550 |

## IRRIGATION

52 The Irrigation revenue makes satisfactory progress The figures are—

| | Budget 1889-90 | Revised 1889-90 | Budget 1890-91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Revenue | 1 889 300 | 1 985 300 | 2 035 000 |
| Expenditure | 2 614 700 | 2 709 300 | 2 739,400 |
| Net | —725 400 | —724 000 | —704,400 |

It must be recollected that these figures include the transactions classed as "minor works" as well as the revenue transactions of the productive or major works ' The broad distinction between the two classes is that the *Capital* cost of minor works is charged against Revenue, while the cost of construction of major works is charged to Debt The distinction is not absolute for there are works classed as "Major Works" on which there has been large capital expenditure from Revenue, that is, charged against the grant for Famine Insurance In the current year most of the improvement in revenue arises through the extension of irrigation in the Punjab, and is mainly due to the approaching completion of the distributaries of the Sirhind Canal In 1890 91, the increase is shared between the Punjab and the North Western Provinces, the former contributing Rx 58,700 more than the estimate of a year ago, and the latter Rx 21,300 Extension of distributaries and an advance in popular favour are the general explanation of the increase in both cases There is, however, a special influence in the case of the North Western Provinces It may be recollected that in 1886, the irrigation from the Lower Ganges Canal system was stopped by the collapse of the Nadrai aqueduct The reconstruction of the aqueduct has now been completed and therewith a large area is again brought within reach of canal water

53. *Construction of Irrigation Works (not charged against Revenue)* —The Estimates are—

| | Budget 1889-90. | Revised, 1889 90 | Budget 1890 91 |
|---|---|---|---|
| | Rx. | Rx | Rx |
| | 527 500 | 401,900 | 550 000 |

The reduction of the Estimate from Rx 527,500 to Rx 401,900 in the current year is due to the postponement of the construction of the Jhelum Canal The conversion of the Chenab Inundation Canal into a perennial Canal has taken the place of the Jhelum project for the present

In 1890 91 the outlay will be almost entirely in the Punjab (Rx 191,200), Madras (Rx 130 000), and the North West Provinces and Oudh (Rx 105,000) In the Punjab, the Chenab and Sirsa Canals will be proceeded with, the outlay in Madras represents the progress on the Perriar project, and in the North Western Provinces it is distributed over the Ganges and Jumna Canals

It may be mentioned that it has been arranged to apply a fixed sum of Rx 550,000 from loan funds to construction for each of the next few years, in addition to construction charged under "minor works" and against the Famine Grant

## BUILDINGS AND ROADS

54 This head comprises both Military and Civil Works The Estimates are —

RECEIPTS

| | Budget 1889-90 | Revised 1889-90 | Budget 1890-91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Military and Civil Works | 603 700 | 649 200 | 589 400 |

EXPENDITURE

| | Budget 1889-90 | Revised 1889-90 | Budget 1890 91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Military Works | 1 157 400 | 1 158 000 | 1,160 700 |
| Civil Works | 4,325,000 | 4 281,400 | 4,556 600 |

In the Revised Estimate the expected improvement in revenue, Rx 45,500, is almost entirely due to the sale of the Burrakur iron works to a Company The price was Rx 45,000, which was received and credited in the current year

The Military Works expenditure is composed of a grant of Rx 1,000,000 which has been regularly made for several years, *plus* Rx 150,000 for Burma, with an addition for Exchange on the small English expenditure

55 By far the greatest portion of the Civil Works Expenditure is Provincial and Local The Imperial share is only Rx 822,500 in the Revised Estimate,

and a large part of this, namely, Rx. 304,000, represents the cost of the progress made during the year in equipping Upper Burma with Jails, Courthouses, and Roads The expenditure classified as Local, that is, incurred mainly through the agency of District and Local Boards, amounts to Rx. 1,493,300 and is not far short of the sum spent by Provincial Governments

The Provincial expenditure is largely determined by the state of the Provincial balances The increase in the total grant for Civil Works is considerable, but it only means that Local Governments have abundant balances, and having arranged their programmes for utilising their surplus funds, are now carrying them out Provincial expenditure on Civil Works was estimated at a high figure in the Budget of the current year, but a considerably higher provision is made for next year The figures are —

| | Budget 1889 90 | Budget 1890-91 | Increase |
|---|---|---|---|
| | Rx | Rx | Rx |
| Provincial Civil Works Outlay | 1 970,900 | 2 221,900 | + 251,000 |

## ARMY

56 The Estimates are —

### RECEIPTS

| | Budget 1889-90 | Revised 188 -90 | Budget 1890-91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| India and England | 944,600 | 1 022,100 | 982 600 |

### EXPENDITURE

| | Budget 1889 90 | Revised 1889 90 | Budget 1890-91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| India | 15,107 000 | 14 950,000 | 14 806,000 |
| England | 4 005 300 | 4 126 600 | 4 620 100 |
| Exchange | 1 862 400 | 1 857,000 | 2 079,000 |
| TOTAL | 20 974 700 | 20,933,600 | 21 505,100 |

The increase in the Revised Estimate of receipts represents increased sales of stores to Civil Hospitals and Dispensaries and to the forces engaged in the Sikkim and Chin Lushai Expeditions

Notwithstanding the heavy outlay on the Chin Lushai Expedition, the Revised Estimate of expenditure in India is expected to be appreciably less than the Budget grant for the year The main causes of this somewhat unexpected result are the following considerable economies have been effected in the Upper Burma charges, the rate of exchange for the conversion of the pay of British troops is ⅛*d* better than that provided in the Budget, and the actual strength of the Army was less than that provided for

In the English expenditure there is a considerable increase, but it is an increase which will give relief to the Estimates of future years. A special payment of £150,000 to the War Office has been provided for on

account of arrears of what are technically described as "Home Charges on account of British troops serving in India—effective," and a provision of £70,000 on the same account has been made in the Estimates of [illegible]. These charges represent the amount payable by India on account of the raising and equipment of the British Army in India, the method of assessing them has been under discussion for many years, and is at present being considered by a Committee over which Lord Northbrook presides It is understood that the payment of this £220,000 will extinguish, or almost extinguish, all liabilities on this account other than current ones

57 It will be noticed that in 1890-91 there is a decrease of expenditure in India, but a very large increase in the English expenditure The decrease in India, however, requires explanation The Estimates of both 1889 90 and of 1890 91 include provision for considerable expenditure of a special and temporary nature The decrease expected in 1890 91 is not a decrease in the ordinary charges for the Army, but merely means that the Estimates are burthened with a smaller sum for exceptional services Next year shows an improvement over the current one in the following respects—

(*a*) Better Exchange for payment of British troops, *i e*, 1*s* 5*d* in place of 1*s* 4*d*
(*b*) Less expenditure on Commissariat requirements
(*c*) Reduced provision on account of troops in Sikkim
(*d*) Reduced expenditure in Upper Burma
(*e*) Reduction in mobilisation charges

The aggregate improvement on these accounts is not far short of Rx 700,000, so that for purposes of comparison the ordinary charges included in the Budget Estimate of 1889 90 may be reckoned at about Rx 14 400 000 as compared with the actual Estimate of Rx 15 107 000 in all The Budget of 1890 91 provides for an expenditure of Rx 14,806,000, and the difference between that figure and Rx 14,400,000 or Rx 406,000 may be taken roughly as the measure of the special charges to be met in the coming year The greater portion of this is due to a provision of Rx 200 000 made for operations in the Chin Lushai country, Rx 60,000 for mobilization, and the rest to numerous causes, of which may be mentioned (1) extra grants for Volunteer Corps, and (2) the disbandment of certain Madras Regiments and the substitution for them of corps for local service in Burma

58 The increase in the English charges is very great namely, £614 800, and practically represents the cost of re arming the British troops throughout with the new rifle, and of supplying 21 more batteries of 12 pounder breech loading guns The increase in the estimated cost of Ordnance stores over the actual cost in 1888 89 is no less than £745,600 [945,800—200,200] The re arming of the Army is a reform that had to be undertaken sooner or later and which could not safely be postponed The increase in the Home charges is thus not permanent, but incidental and temporary, and we may hope for some reduction in liabilities in the Budget of 1891 92

SPECIAL DEFENCES

59 The Estimates are —

| | Budget 1889 90 | Revised | Budget 1890 91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| | 1,102,900 | 758,400 | 892 300 |

In the current year the expenditure is much below the grant in both India and England The grant for India was Rx 545,000 and the lapse is expected to be no less than Rx 139,000 The lapse on the English grant, due to the slower supply of heavy ordnance and stores than was reckoned on, is £137,800, and the resulting saving in Exchange Rx 67,700 The grant for next year is Rx 425,800 for India, the highest expenditure in India in one year hitherto having been Rx 447,800

## Section III—Progress in Upper Burma.

60 The recent financial progress of Upper Burma may appropriately be noticed

The following statement shows the Revenue and Expenditure as they were estimated in the Budget Statements of 1888-89 and 1889 90, and as they are estimated in 1890 91 —

REVENUES

| | 1888-89 | 1889-90 | 1890 91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Civil Revenue | 547 000 | 755,200 | 901 100 |
| State Railway Receipts | | 115 000 | 180,000 |
| TOTAL | 547 000 | 870 200 | 1,081 100 |

EXPENDITURE

| | 1888 89 | 1889-90 | 1890-91 |
|---|---|---|---|
| Civil Expenditure— | Rx | Rx | Rx |
| Police | 732,000 | 868,200 | 838 100 |
| Other Departments | 339,000 | 366,400 | 450,200 |
| Railways (including interest on Capital) | | 192,800 | 226,400 |
| Military Works | 190,000 | 150,000 | 150,000 |
| Civil Works | 314,000 | 298,100 | 290,000 |
| Irrigation | 23 000 | 20 000 | 30,000 |
| Army Special Expenditure | 824,000 | 600,000 | 450,000 |
| TOTAL | 2,422,000 | 2,495 500 | 2,434,700 |

Thus the deficit in 1888 89 was estimated at Rx 1,875,000, in 1889-90 at Rx 1,625,300, and in 1890 91 it is expected to be Rx 1,353,600 The actual results have recently turned out considerably better tha nthe anticipations of them, and we may hope for a considerable reduction in the expected deficit of Rx 1,353,600 by the end of the year The increase of revenue is remarkable, and has been referred to in the remarks on Land Revenue in paragraphs 12 and 13 and in those on Railways in paragraph 47

## Section IV—Ways and Means—Home Treasury

61 The Secretary of State's Revised and Budget Estimates of the transactions at the Home Treasury for 1889-90 compare as follows —

| | Budget | Revised |
|---|---|---|
| *Net Receipts* | £ | £ |
| Council Bills | 14 689 900 | 15 400,900 |
| Permanent Debt for Advances to Companies | 3,750,000 | 3 500 000 |
| Capital Receipts from Railway Companies | 515,000 | 1 540 900 |
| Deposits and Advances | | 1,800 |
| Add Opening Balance | 3 849,797 | 3,259,933 |
| TOTAL | 22,804,697 | 23,703,533 |
| *Net Outgoings* | | |
| Excess of expenditure over Revenue | 14 956 100 | 14 751,200 |
| Capital expenditure of Government in England | 1,273 000 | 1 038 800 |
| Permanent Debt—Discharge of 4 per cent stock | 300 000 | 300,000 |
| " " " 5 per cent stock | | 2,600 |
| Issues to Railway Companies on Capital Account | 3 056 700 | 2,258,200 |
| Deposits and Advances | 2 700 | |
| On account of Remittances from India | 1 069 500 | 848 900 |
| Add Closing Balance | 2,146 697 | 4 503,833 |
| TOTAL | 22,804,697 | 23,703 533 |

The most important variations from the Budget Estimate have occurred in Council Bills, in the amount of debt created for making advances to Railway Companies, and in the Capital Receipts from, and the net issues to, them for expenditure These variations are briefly explained below —

### COUNCIL BILLS

Throughout the current year the demand for remittances from England to India has been strong, and it is expected that the Secretary of State will sell bills for a considerably larger amount than that anticipated The excess drawing gives a corresponding relief to next year, in which the drawings would otherwise have been unusually high, in consequence of the large increase in the net expenditure in England

### DEBT INCURRED, AND CAPITAL RECEIPTS FROM, AND ADVANCES MADE TO, RAILWAY COMPANIES

It was explained in paragraph 95 of last year's Financial Statement that the Secretary of State proposed to borrow, under the powers conferred by the Oudh and Rohilkhand Railway Purchase Act, for the purpose of advancing funds to the "Aided" Railway Companies, and that provision had been made for a loan of £3,750,000 for this purpose Soon after the Financial Statement was issued, it was found that the requirements of the Railway Companies had been overestimated and that a loan of £3,500,000 would be sufficient It will be understood that this sum provides for Capital outlay by the Companies (Southern Mahratta, Indian Midland, Bengal Nagpur, and Bengal Central) receiving the advances, both in England and India Three per cent stock for

this amount was accordingly issued in May 1889 at a premium of £1—1s. 5d. per cent The large increase in the amount received from Companies is due chiefly to £600,300 raised by the Great Indian Peninsula Railway Company and £583,200 by the Indian Midland Railway Company which, it was expected, would be raised in 1888 89 The issues to Companies in England on Capital account were overestimated, the Revised Estimate of £2,258,200 on this account includes £600,000 for discharge of debentures, the balance representing purchase of Stores, &c

62 The following is the Secretary of State's Budget Estimate of Ways and Means for 1890 91 —

| *Net Receipts* | £ |
|---|---|
| Council Bills | 14,989,000 |
| Permanent Debt for Advances to Companies and discharge of Oudh and Rohilkhand Railway Debentures | 2,200 000 |
| Permanent Debt for Purchase of the South Indian Railway | 3 200,000 |
| Capital Receipts from Railway Companies | 2,732 300 |
| Deposits and Advances | 2 200 |
| Add Opening Balance | 4 503,833 |
| TOTAL | 27,627 333 |

| *Net Outgoings* | |
|---|---|
| Excess of expenditure over Revenue | 15 674 300 |
| Capital expenditure of Government in England | 857 800 |
| Permanent Debt—Discharge of the Oudh and Rohilkhand Railway Debentures | 500,000 |
| Issues to Railway Companies on Capital Account | 4,045,600 |
| Capital charge involved in redemption of liabilities | 3 200 000 |
| On account of Remittances from India | 1 197 200 |
| Add Closing Balance | 2 152 433 |
| TOTAL | 27 627 333 |

The most important feature of this Estimate is the provision for the pro posed purchase of the South Indian Railway The terms have not yet been finally settled, but it should be noted that in the case of this Company the pur chase can only be effected under the contract by actual payment and not by an annuity Under the contract, the Secretary of State has to pay the equivalent of the mean market value of the share capital of the Company during the three years ending on the 1st March 1890, and to accept the liability for the debentures and debenture stock issued by the Company which now amounts to £1,495,000 But as it is proposed that the management of the Railway, after its acquisition by the State, shall be entrusted to a Company which will provide a small portion of the capital, it will not be necessary to provide for the redemp tion of the whole existing share capital It is accordingly proposed to raise only £3,200,000 on account of the purchase, although the capital of the Company amounts to £3,208,952, the mean value of which, according to the terms of the contract, would be about £4,200,000 The entries on account of the transfer of liability of the debentures and debenture stock are omitted from both sides of the abstract account given above They appear on both sides of the account in Statement C of the Appendix The Secretary of State also proposes to raise a loan of £2,200,000 for advances to Railway Companies in India and England under the Oudh and Rohilkhand Railway Purchase Act and for the discharge of debentures for £500,000 of the Oudh and Rohilkhand Railway Of the payments to Companies on Capital Account £1,804,300 represent dis charge of debentures He also proposes to draw £14,989,000 by Council Bills

ring the year It should be understood that, in stating these as the present tentions of the Secretary of State, no sort of pledge is given that he will here to the programme thus explained, and that the amounts to be raised by lls or by loans may be varied from time to time as may seem expedient

## Ways and Means—India.

63 The Ways and Means Estimate of India is as follows —

| | 1889-90 Budget | 1889-90 Revised | 1890-91 Budget |
|---|---|---|---|
| NET RECEIPTS | Rx | Rx | Rx |
| Excess of Revenue in India over the Expenditure charged against it | 22 016 900 | 23 198 900 | 22,998 100 |
| Public Loan | 2,500,000 | 2 000,000 | |
| Increase of Unfunded Debt—mostly Savings Bank Deposits | 629,700 | 14,100 | 309 600 |

The headings in italics are connected with and explained by the corresponding figures of the Secretary State's account in England The others ref r to purely Indian transactions

64 In the Budget Estimate, provision was made for a loan of Rx 2,500,000 in dia By the 29th June on which date the Notification calling for tenders was ued, the partial failure of the opium crop was known and the consequent sav g in Expenditure was assured The Revenue receipts also indicated an im ovement over the Estimate Under these circumstances it was determined to duce the amount of the loan offered for subscription to Rx 2,000 000 This s taken up at an average rate of R99 14 11 5 per 100 rupees yielding 1 998,697

In 1890-91 it is not proposed to raise any loan in India, notwithstanding a ntemplated Capital Expenditure on Railways and Canals of Rx 3,750,000 e large surplus expected in the current year, both on Imperial and Provincial ount and the provision made under Famine Insurance for reduction of debt both years, and which appears against item No 4 in the statement above, l enable us, we hope, to avoid borrowing in 1890-91 This is the present ention of the Government, but full liberty is reserved to modify this intention any extent that circumstances may require

### SAVINGS BANKS

65 The influences which determined Government to reduce the limits of posits in Savings Banks were mentioned in paragraph 101 of last year's Finan l Statement It was to be expected that for the first year the effect of this

change would be marked, as deposits, which at the date of change were in exc of the new maximum (R2,000), had to be reduced below that sum before furt sums could be received to credit of the same account The effect of the char of rule will be evident from the following figures —

| Year | Net addition to deposits in the year (cash) | Interest | Total net addition |
|---|---|---|---|
| | Rx | Rx | Rx |
| 1887 88 | +656 300 | +224 000 | +880,30c |
| 1888 89 | 685,200 | +261,800 | +947,00c |
| 1889 90 } Estimates | —320 500 | +281,500 | —[illegible]9,00c |
| 1890 91 } Estimates | —34,400 | +288,800 | +254,40c |

The objections which might be taken to an alteration of rule which leads such results are obvious But it was impossible for the Government to contin a system under which the sum held at call had approached to an amount near equal to the minimum cash balance necessary for the discharge of public busine and which promised to further increase at the rate of nearly a crore a year

### Loans to Municipalities and Presidency Corporations

66 The net figures for Local loans in 1889-90 and 1890 91 are Rx 709,9c and Rx 907,000, of which Rx 300,000 and Rx 370,000 represent the balanc of the advances made by Local Governments under the system described paragraphs 114 to 118 of last year's Financial Statement Judged from th demands made by Local Governments, the system has proved very acceptab to them

In the current year a total sum of Rx 420,000 will be advanced to th Port Commissioners on account of the Kidderpore Docks, and in 1890-91 a su of Rx 553,200 The Bombay Port Trust only asks for Rx 20,000, and that the current year

The advances made to these two Corporations on account of the Docks w stand thus —

| | Calcutta | Bombay |
|---|---|---|
| | Rx | Rx |
| Up to 1888 89 | 1 377,600 | 848 600 |
| Advanced in 1889 90 } Estimates | 420 000 | 20 000 |
| " 1890 91 } Estimates | 553 200 | |
| Total | 2,350,800 | 868,600 |

67 Owing to the favourable nature of the year the closing balance on 31 March 1890, which was estimated at Rx 12,553,000 a year ago, is now expecte to be Rx 14,597,000, notwithstanding provision for an increase of Secretary State's drawings of £818,400 In 1890-91 provision is made for paymen of Secretary of State's Bills to the extent of £14,922,000, and the year expected to close with a balance of Rx 13,094,000

## Section V —Summary

68 The principal features in this Statement are :—

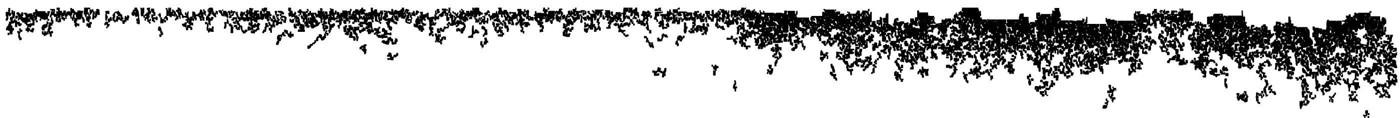
(a) The Accounts for 1888-89 have closed with a surplus of Rx 37,01 after including in the Expenditure Rx 789,595 spent on Defence Works

(b) The Revised Estimates of 1889-90 show a surplus of Rx 1,809,7c after restoring the Famine Grant to Rx 600,000 (or Rx 1,038,100 includir the net charge on the revenues on account of the Protective Railways cor

structed through the Agency of Companies), and postponing the contribution of Rx 490,000 from Provincial resources for which credit was taken in the Budget Estimate, to 1890-91 All the main Revenue heads have contributed to this improvement The saving in Opium expenditure, owing to a scanty crop, is Rx 708,800 The Estimate of Exchange, which was taken in the Budget at 1*s* 4 38*d* =R1, is placed at 1*s* 4 552*d* =R1, and yields a saving of about Rx 200,000 Rx 758,400 spent on Defence Works are included in the Expenditure

(*c*) The Budget Fstimates show a surplus of Rx 270,400 Exchange is taken at 1*s* 4 552*d* as in the Revised Estimate Extra taxation has been imposed on imported spirits and Indian brewed beer has been made subject to the same tax as is levied on imported beer, the expected addition to the re venues being estimated at about Rx 100,000 Credit has been taken for the contribution of Rx 490,000 from Provincial Revenues, originally estimated for as a receipt of 1889 90 The Famine Relief and Insurance Grant has been maintained at Rx 600,000 Including the net charge on the revenues on account of the Protective Railways the grant is Rx 1,032,800 Army Expenditure is unusually heavy being estimated at about Rx 1,203,300 more than the expenditure in 1888 89, chiefly owing to the contemplated re armament to be carried out next year The Estimate of Expenditure includes Rx 892,300 for Defence Works In view of the heavy charges that fall on the revenues of the year in connection with the re armament, the result is considered satisfactory

(*d*) The Capital outlay on Railways and Irrigation Works is estimated at Rx 3,468,100 in 1889 90 and at Rx 3,750,000 in 1890 91



(*e*) The Secretary of State proposes to sell £14,989,000 of Council Bills, also to borrow £5,400,000 for purchase of the South Indian Railway, for making advances to Companies engaged in constructing Railways for the State, and for paying off debentures This announcement is accompanied by the usual reserve that, though these are the present intentions of the Secretary of State, he will remain entirely at liberty to vary the amounts to be raised by bills or by loans as he may find occasion

(*f*) Although the estimates provide for a Capital outlay of Rx 3,750,000 on Railways and Canals and for Rx 907,000 to be advanced to Port Commis sioners and Local Governments for local purposes, it is not expected that a loan will be necessary in India in 1890 91 It is mainly owing to the partial re storation of the Famine Insurance Grant, and the high cash balances resulting from the surplus of 1889 90, and the estimated surplus of 1890-91, that the Government expects to be able to find funds for the Capital outlay on Public Works without having recourse to borrowing No pledge is, however, given that Government will not borrow in India during the year

(*g*) The warning against desponding and pessimist views in connection with Indian Finance given last year is justified by the course of events Further improvement in the financial position is anticipated, but prudence and economy are needed to meet the dangers and difficulties of the future

THE SCHEDULE —ENACTMENTS REPE

## *The Guardians and Wards Act, 1890*

### *(Chapter I —Preliminary —Sections 1 4 Chapter II —Appointment and Declaration of Guardians —Sections 5-6 )*

*An Act to consolidate and amend the law relating to Guardian and Ward*

WHEREAS it is expedient to consolidate and amend the law relating to guardian and ward It is hereby enacted as follows —

### CHAPTER I

### PRELIMINARY

Title extent and commencement

1 (*1*) This Act may be called the Guardians and Wards Act, 1890

(*2*) It extends to the whole of British India inclusive of Upper Burma and British Baluchistan and

(*3*) It shall come into force on the first day of July 1890

Repeal

2 (*1*) On and from that day the enactments mentioned in the schedule shall be repealed to the extent specified in the third column thereof

(*2*) But all proceedings had certificates granted, allowances assigned obligations imposed, and applications appointments orders and rules made under any of those enactments shall so far as may be be deemed to have been respectively had granted assigned, imposed and made under this Act and

(*3*) Any enactment or document referring to any of those enactments shall so far as may be be construed to refer to this Act or to the corresponding portion thereof

Saving of jurisdiction of Courts of Ward and Chartered High Courts

3 This Act shall be read subject to every enactment heretofore or hereafter passed relating to any Court of Wards by the Governor General in Council or by a Governor or Lieutenant Governor in Council and nothing in this Act shall be construed to affect or in any way derogate from the jurisdiction or authority of any Court of Wards or to take away any power possessed by any High Court established under the Statute 24 and 25 Victoria Chapter 104 (*an Act for establishing High Courts of Judicature in India*)

Definitions

4 In this Act unless there is something repugnant in the subject or context —

(*1*) minor means a person who under the provisions of the Indian Majority Act 1875, is to be deemed not to have attained his majority

(*2*) guardian means a person having the care of the person of a minor or of his property, or of both his person and property

(*3*) "ward means a minor for whose person or property, or both there is a guardian

(*4*) District Court has the meaning assigned to that expression in the Code of Civil Procedure and includes a High Court in the exercise of its ordinary original civil jurisdiction

XIV of

(*5*) 'the Court means the District Court having jurisdiction to entertain an application under this Act for an order appointing or declaring a person to be a guardian and, where a guardian has been appointed or declared in pursuance of any such application, it means the Court which appointed or declared the guardian, or in any matter relating to the person of the ward, the District Court having jurisdiction in the place where the ward for the time being ordinarily resides

(*6*) 'Collector means the chief officer in charge of the revenue administration of a district and includes any officer whom the Local Government, by notification in the official Gazette may by name or in virtue of his office appoint to be a Collector in any local area or with respect to any class of persons for all or any of the purposes of this Act

(*7*) 'European British subject means an European British subject as defined in the Code of Criminal Procedure 1882 and includes any Christian of European descent and

X of 1

(*8*) prescribed means prescribed by rules made by the High Court under this Act

### CHAPTER II

### APPOINTMENT AND DECLARATION OF GUARDIANS

Power of parents to appoint in case of European British subject

5 (*1*) Where a minor is an European British subject a guardian or guardians of his person or property or both may be appointed by will or other instrument to take effect on the death of the person appointing —

(*a*) by the father of the minor or

(*b*) if the father is dead or incapable of acting by the mother

(*2*) Where guardians have been appointed under sub section (*1*) by both parents they shall act jointly

Saving of power to appoint in other cases

6 In the case of a minor who is not an European British subject nothing in this Act shall be construed to take away or derogate from any power to appoint a guardian of his person or property or both which is valid by the law to which the minor is subject

*The Guardians and Wards Act, 1890*

*(Chapter II —Appointment and Declaration of Guardians —Sections 7-11 )*

**7** (*1*) Where the Court is satisfied that it is for the welfare of a minor that an order should be made—

Power of the Court to make order as to guardianship

(*a*) appointing a guardian of his person or property or both or

(*b*) declaring a person to be such a guardian,

the Court may make an order accordingly

(*2*) An order under this section shall imply the removal of any guardian who has not been appointed by will or other instrument or appointed or declared by the Court

(*3*) Where a guardian has been appointed by will or other instrument or appointed or declared by the Court an order under this section appointing or declaring another person to be guardian in his stead shall not be made until the powers of the guardian appointed or declared as aforesaid have ceased under the provisions of this Act

**8** An order shall not be made under the last foregoing section except on the application of—

Persons entitled to apply for order

(*a*) the person desirous of being or claiming to be the guardian of the minor or

(*b*) any relative or friend of the minor or

(*c*) the Collector of the district or other local area within which the minor ordinarily resides or in which he has property or

(*d*) the Collector having authority with respect to the class to which the minor belongs

**9** (*1*) If the application is with respect to the guardianship of the person of the minor it shall be made to the District Court having jurisdiction in the place where the minor ordinarily resides

Court having jurisdiction to entertain application

(*2*) If the application is with respect to the guardianship of the property of the minor it may be made either to the District Court having jurisdiction in the place where the minor ordinarily resides or to a District Court having jurisdiction in a place where he has property

(*3*) If an application with respect to the guardianship of the property of a minor is made to a District Court other than that having jurisdiction in the place where the minor ordinarily resides the Court may return the application if in its opinion the application would be disposed of more justly or conveniently by any other District Court having jurisdiction

**10** (*1*) If the application is not made by the Collector, it shall be by petition signed and verified in manner prescribed by the Code of Civil Procedure for the signing and verification of a plaint, and stating, so far as can be ascertained —

Form of application

of 1882

(*a*) the name, sex religion date of birth and ordinary residence of the minor,

(*b*) where the minor is a female whether she is married and if so, the name and age of her husband

(*c*) the nature situation and approximate value of the property, if any, of the minor

(*d*) the name and residence of the person having the custody or possession of the person or property of the minor

(*e*) what near relations the minor has and where they reside

(*f*) whether a guardian of the person or property, or both of the minor has been appointed by any person entitled or claiming to be entitled by the law to which the minor is subject to make such an appointment

(*g*) whether an application has at any time been made to the Court or to any other Court with respect to the guardianship of the person or property or both of the minor and, if so when, to what Court and with what result

(*h*) whether the application is for the appointment or declaration of a guardian of the person of the minor or of his property, or of both

(*i*) where the application is to appoint guardian the qualifications of the proposed guardian

(*j*) where the application is to declare a person to be a guardian the grounds on which that person claims

(*k*) the causes which have led to the making of the application and

(*l*) such other particulars, if any, as may be prescribed or as the nature of the application renders it necessary to state

(*2*) If the application is made by the Collector it shall be by letter addressed to the Court and forwarded by post or in such other manner as may be found convenient and shall state as far as possible the particulars mentioned in sub section (*1*)

(*3*) The application must be accompanied by a declaration of the willingness of the proposed guardian to act and the declaration must be signed by him and attested by at least two witnesses

**11** (*1*) If the Court is satisfied that there is ground for proceeding on the application it shall fix

Procedure on admission of application

*The Guardians and Wards Act, 1890*
*(Chapter II—Appointment and Declaration of Guardians—Sections 12 15)*

a day for the hearing thereof and cause notice of the application and of the date fixed for the hearing—

(*a*) to be served in the manner directed in the Code of Civil Procedure on—

(i) the parents of the minor if they are residing in British India,

(ii) the person, if any named in the petition or letter as having the custody or possession of the person or property of the minor

(iii) the person proposed in the application or letter to be appointed or declared guardian unless that person is himself the applicant, and

(iv) any other person to whom, in the opinion of the Court special notice of the application should be given and

(*b*) to be posted on some conspicuous part of the court house and of the residence of the minor and otherwise published in such manner as the Court subject to any rules made by the High Court under this Act thinks fit

(*2*) The Local Government may by general or special order require that when any part of the property described in a petition under section 10 sub section (*1*) is land of which a Court of Wards could assume the superintendence the Court shall also cause a notice as aforesaid to be served on the Collector in whose district the minor ordinarily resides and on every Collector in whose district any portion of the land is situate and the Collector may cause the notice to be published in any manner he deems fit

(*3*) No charge shall be made by the Court or the Collector for the service or publication of any notice served or published under sub section (*2*)

Power to make interlocutory order for production of minor and interim protection of person and property

**12** (*1*) The Court may direct that the person if any having the custody of the minor shall produce him or cause him to be produced at such place and time and before such person as it appoints and may make such order for the temporary custody and protection of the person or property of the minor as it thinks proper

(*2*) If the minor is a female who ought not to be compelled to appear in public the direction under sub section (*1*) for her production shall require her to be produced in accordance with the customs and manners of the country

(*3*) Nothing in this section shall authorise—

(*a*) the Court to place a female minor in the temporary custody of a person claiming to be her guardian on the ground of his being her husband unless she is already in his custody with the consent of her parents, if any or

(*b*) any person to whom the temporary custody and protection of the property of a minor is entrusted to dispossess otherwise than by due course of law any person in possession of any of the property

Hearing of evidence before making of order

**13** On the day fixed for the hearing of the application, or as soon after wards as may be the Court shall hear such evidence as may be adduced in support of or in opposition to the application

Simultaneous proceedings in different Courts

**14** (*1*) If proceedings for the appointment or declaration of a guardian of a minor are taken in more Courts than one, each of those Courts shall on being apprised of the proceedings in the other Court or Courts, stay the proceedings before itself

(*2*) If the Courts are both or all subordinate to the same High Court they shall report the case to the High Court and the High Court shall determine in which of the Courts the proceedings with respect to the appointment or declaration of a guardian of the minor shall be had

(*3*) In any other case in which proceedings are stayed under sub section (*1*) the Courts shall report the case through the Local Government to the Governor General in Council and the Governor General in Council shall determine in which of the Courts the proceedings with respect to the appointment or declaration of a guardian of the minor shall be had

Appointment or declaration of several guardians

**15.** (*1*) If the law to which the minor is subject admits of his having two or more joint guardians of his person or property or both the Court may if it thinks fit, appoint or declare them

(*2*) On the death of a father being an European British subject who has by will or other instrument to take effect on his death appointed a guardian of his minor child the Court may appoint the mother to be guardian of the child jointly with the guardian appointed by the father

(*3*) On the death of a mother being an European British subject who during the incapacity of the father of her minor child has by will or other instrument to take effect on her death appointed a guardian of the child the Court may if the father becomes capable of acting appoint him to be sole guardian of the child or guardian of the child jointly with the guardian appointed by the mother, as it thinks fit

## *The Guardians and Wards Act, 1890*

## *(Chapter II —Appointment and Declaration of Guardians —Sections 16 19)*
## *Chapter III —Duties, Rights and Liabilities of Guardians —Sections 20 22*

(4) Separate guardians may be appointed or declared of the person and of the property of a minor

(5) If a minor has several properties the Court may, if it thinks fit appoint or declare a separate guardian for any one or more of the properties

Appointment or declaration of guardian for property beyond jurisdiction of the Court

**16** If the Court appoints or declares a guardian for any property situate beyond the local limits of its jurisdiction the Court having jurisdiction in the place where the property is situate shall, on production of a certified copy of the order appointing or declaring the guardian accept him as duly appointed or declared and give effect to the order

Matters to be considered by the Court in appointing guardian

**17** (1) In appointing or declaring the guardian of a minor the Court shall subject to the provisions of this section be guided by what, consistently with the law to which the minor is subject appears in the circumstances to be for the welfare of the minor

(2) In considering what will be for the welfare of the minor the Court shall have regard to the age sex and religion of the minor the character and capacity of the proposed guardian and his nearness of kin to the minor the wishes if any of a deceased parent and any existing or previous relations of the proposed guardian with the minor or his property

(3) If the minor is old enough to form an intelligent preference the Court may consider that preference

(4) As between parents who are European British subjects adversely claiming the guardianship of the person neither parent is entitled to it as of right but, other things being equal if the minor is a male of tender years or a female the minor should be given to the mother and if the minor is a male of an age to require education and preparation for labour and business, then to the father

(5) The Court shall not appoint or declare any person to be a guardian against his will

Appointment or declaration of Collector in virtue of office

**18** Where a Collector is appointed or declared by the Court in virtue of his office to be guardian of the person or property or both of a minor, the order appointing or declaring him shall be deemed to authorise and require the person for the time being holding the office to act as guardian of the minor with respect to his person or property or both, as the case may be

Guardian not to be appointed by the Court in certain cases

**19** Nothing in this Chapter shall authorise the Court to appoint or declare a guardian of the property of a minor whose property is under the superintendence of a Court of Wards, or to appoint or declare a guardian of the person—

(a) of a minor who is a married female and whose husband is not in the opinion of the Court unfit to be guardian of her person or

(b) subject to the provisions of this Act with respect to European British subjects, of a minor whose father is living and is not, in the opinion of the Court unfit to be guardian of the person of the minor or

(c) of a minor whose property is under the superintendence of a Court of Wards competent to appoint a guardian of the person of the minor

---

### CHAPTER III
### DUTIES RIGHTS AND LIABILITIES OF GUARDIANS

*General*

Fiduciary relation of guardian to ward

**20** (1) A guardian stands in a fiduciary relation to his ward and save as provided by the will or other instrument, if any, by which he was appointed, or by this Act he must not make any profit out of his office

(2) The fiduciary relation of a guardian to his ward extends to and affects purchases by the guardian of the property of the ward and by the ward of the property of the guardian immediately or soon after the ward has ceased to be a minor, and generally all transactions between them while the influence of the guardian still lasts or is recent

Capacity of minors to act as guardians

**21** A minor is incompetent to act as guardian of any minor except his own wife or child or, where he is the managing member of an undivided Hindu family the wife or child of another minor member of that family

Remuneration of guardian

**22** (1) A guardian appointed or declared by the Court shall be entitled to such allowance if any as the Court thinks fit for his care and pains in the execution of his duties

(2) When an officer of the Government as such officer, is so appointed or declared to be guardian such fees shall be paid to the Government out of the property of the ward as the Local Government, by general or special order, directs

## *The Guardians and Wards Act, 1890*

## *(Chapter III —Duties, Rights and Liabilities of Guardians —Sections 23 31 )*

Control of Collector s guardian

**23** A Collector appointed or declared by the Court to be guard ian of the person or pro perty or both, of a minor hall in all matters connected with the guard anship of his ward, be subject to the control f the Local Government or of such authority s that Government by not fication in the fficial Gazette, appoints in this behalf

### *Guardian of the Person*

Duties of guardian of ie person

**24** A guardian of the person of a ward is charged with the custody of the ward and must look to his support health and ducation, and such other matters as the law to which the ward is subject requires

Title of guardian to custody of ward

**25** (*1*) If a ward leaves or is removed from the custody of a guardian of his person the Court if is of opinion that it will be for the welfare f the ward to return to the custody of his uardian may make an order for his return nd for the purpose of enforcing the order may ause the ward to be arrested and to be deliver d into the custody of the guardian

(*2*) For the purpose of arresting the ward ie Court may exercise the power conferred on Magistrate of the first class by section 100 f the Code of Criminal Procedure, 1882

(*3*) The residence of a ward against the will f his guardian with a person who is not his uardian does not of i self termin ite the guardian up

Removal of ward om jurisdiction

**26** (*1*) A guardian of the person appointed or declared by the Court unless he is the Collector r is a guardian appointed by will or other istrument shall not without the leave of the ourt by which he was appointed or declared emove the ward from the limits of its jurisdiction xcept for such purposes a may be prescribed

(*2*) The leave granted by the Court under sub tion (*1*) may be special or general, and may e defined by the order granting it

### *Guardian of Property*

Duties of guardian of property

**27** A guardian of the property of a ward is bound to deal there with as carefully as a man of ordi ary prudence would deal with it if it were his wn and, subject to the provisions of this hapter he ma do all acts which are reason able and proper for the realisation protection or benefit of the property

Powers of testamentary guardian

**28** Where a guardian has been appointed by will or other instrument, his power to mortgage or charge or transfer by sale gift exchange or otherwise immoveable property belonging to his ward is subject to any restriction which may be imposed by the instrument unless he has under this Act been declared guardian and the Court which made the declaration permits him by an order in writing notwithstanding the restriction to dispose of any immoveable pro perty specified in the order in a manner per mitted by the order

Limitation of powers of guardian of property appointed or declared by the Court.

**29** Where a person other than a Collector, or than a guardian appoint ed by will or other instru ment has been appointed or declared by the Court to be guardian of the property of a ward, he shall not without the previous permission of the Court,—

(*a*) mortgage or charge or transfer by sale, gift exchange or otherwise any part of the immoveable property of his ward, or

(*b*) lease any part of that property for a term exceeding five years or for any term extending more than one year beyond the date on which the ward will cease to be a minor

Voidability of transfers made in contravention of section 28 or section 29

**30** A disposal of immoveable property by a guardian in contravention of either of the two last foregoing sections is void able at the instance of any other person affected thereby

Practice with respect to permitting transfers under section 29

**31** (*1*) Permission to the guardian to do any of the acts mentioned in section 29 shall not be granted by the Court ex cept in case of necessity or for an evident advantage to the ward

(*2*) The order granting the permission shall recite the necessity or advantage as the case may be describe the property with respect to which the act permitted is to be done and specify such conditions if any as the Court may see fit to attach to the permission and it shall be recorded dated and signed by the Judge of the Court with his own hand or when from any cause he is prevented from recording the order with his own hand shall be taken down in writ ing from his dictation and be dated and signed by him

(*3*) The Court may in its discretion attach to the permission the following among other con ditions, namely —

(*i*) that a sale shall not be completed without the sanction of the Court

*The Guardians and Wards Act, 1890*

*(Chapter III—Duties, Rights and Liabilities of Guardians—Sections 32 35)*

(*b*) that a sale shall be made to the highest bidder by public auction before the Court or some person specially appointed by the Court for that purpose, at a time and place to be specified by the Court after such proclamation of the intended sale as the Court, subject to any rules made under this Act by the High Court, directs

(*c*) that a lease shall not be made in consideration of a premium or shall be made for such term of years and subject to such rents and covenants as the Court directs

(*d*) that the whole or any part of the proceeds of the act permitted shall be paid into the Court by the guardian to be disbursed therefrom or to be invested by the Court on prescribed securities or to be otherwise disposed of as the Court directs

(*4*) Before granting permission to a guardian to do an act mentioned in section 29 the Court may cause notice of the application for the permission to be given to any relative or friend of the ward who should in its opinion receive notice thereof and shall hear and record the statement of any person who appears in opposition to the application

32 Where a guardian of the property of a ward has been appointed or declared by the Court and such guardian is not the Collector the Court may, from time to time by order define restrict or extend his powers with respect to the property of the ward in such manner and to such extent as it may consider to be for the advantage of the ward and consistent with the law to which the ward is subject

Variation of powers of guardian of property appointed or declared by the Court

33 (*1*) A guardian appointed or declared by the Court may apply by petition to the Court which appointed or declared him for its opinion advice or direction on any present question respecting the management or administration of the property of his ward

Right of guardian so appointed or declared to apply to the Court for opinion in management of property of ward.

(*2*) If the Court considers the question to be proper for summary disposal it shall cause a copy of the petition to be served on and the hearing thereof may be attended by such of the persons interested in the application as the Court thinks fit

(*3*) The guardian stating in good faith the facts in the petition and acting upon the opinion, advice or direction given by the Court shall be deemed, so far as regards his own responsibility, to have performed his duty as guardian in the subject matter of the application

34 Where a guardian of the property of a ward has been appointed or declared by the Court and such guardian is not the Collector, he shall,—

Obligations on guardian of property appointed or declared by the Court

(*a*) if so required by the Court, give a bond as nearly as may be in the prescribed form to the Judge of the Court to enure for the benefit of the Judge for the time being with or without sureties as may be prescribed engaging duly to account for what he may receive in respect of the property of the ward

(*b*) if so required by the Court deliver to the Court within six months from the date of his appointment or declaration by the Court or within such other time as the Court directs, a statement of the immoveable property belonging to the ward of the money and other moveable property which he has received on behalf of the ward up to the date of delivering the statement and of the debts due on that date to or from the ward

(*c*) if so required by the Court exhibit his accounts in the Court at such times and in such form as the Court from time to time directs

(*d*) if so required by the Court pay into the Court at such time as the Court directs the balance due from him on those accounts or so much thereof as the Court directs and

(*e*) apply for the maintenance education and advancement of the ward and of such persons as are dependent on him and for the celebration of ceremonies to which the ward or any of those persons may be a party such portion of the income of the property of the ward as the Court from time to time directs and if the Court so directs the whole or any part of that property

35 Where a guardian appointed or declared by the Court has given bond duly to account for what he may receive in respect of the property of his ward the Court may on application made by petition and on being satisfied that the engagement of the bond has not been kept, and upon such terms as to security, or providing that any money received be paid into the Court or otherwise as the Court thinks fit assign the bond to some proper person who shall thereupon be entitled to sue on the bond in his own name as if the bond had been originally given to him instead of to the Judge of the Court, and shall be entitled to recover thereon, as trustee for the ward, in respect of any breach thereof

Suit against guardian where administration bond was taken

## The Guardians and Wards Act, 1890

### Chapter III.—Duties, Rights and Liabilities of Guardians.—Sections 36-41.)

Suit against guardian where administration-bond was not taken.

(1) Where a guardian appointed or declared by the Court has not given a bond as aforesaid, any person, with the leave of the Court, may, as next friend, at any time during the continuance of the minority of the ward, and upon such terms as aforesaid, institute a suit against the guardian, or, in case of his death, against his representative, for an account of what the guardian has received in respect of the property of the ward, and may recover in the suit, as trustee for the ward, such amount as may be found to be payable by the guardian or his representative, as the case may be.

(2) The provisions of sub-section (1) shall, so far as they relate to a suit against a guardian, be subject to the provisions of section 440 of the Code of Civil Procedure as amended by this Act.

General liability of guardian as trustee.

Nothing in either of the two last foregoing sections shall be construed to deprive a ward or his representative of any remedy against his guardian, or the representative of the guardian, which, not being expressly provided in either of those sections, any other beneficiary or his representative would have against his trustee or the representative of the trustee.

*Termination of Guardianship.*

Right of survivorship among joint guardians.

On the death of one of two or more joint guardians, the guardianship continues to the survivor or survivors until a further appointment is made by the Court.

Removal of guardian.

The Court may, on the application of any person interested, or of its own motion, remove a guardian appointed or declared by the Court, or a guardian appointed by will or other instrument, for any of the following causes, namely:—

for abuse of his trust;

for continued failure to perform the duties of his trust;

for incapacity to perform the duties of his trust;

for ill-treatment, or neglect to take proper care, of his ward;

for contumacious disregard of any provision of this Act or of any order of the Court;

for conviction of an offence implying, in the opinion of the Court, a defect of character which unfits him to be the guardian of his ward;

for having an interest adverse to the faithful performance of his duties;

for ceasing to reside within the local limits of the jurisdiction of the Court;

(i) in the case of a guardian of the property, for bankruptcy or insolvency;

(j) by reason of the guardianship of the guardian ceasing, or being liable to cease, under the law to which the minor is subject:

Provided that a guardian appointed by will or other instrument, whether he has been declared under this Act or not, shall not be removed—

(a) for the cause mentioned in clause (g) unless the adverse interest accrued after the death of the person who appointed him, or it is shown that that person made and maintained the appointment in ignorance of the existence of the adverse interest; or

(b) for the cause mentioned in clause (h) unless such guardian has taken up such a residence as, in the opinion of the Court, renders it impracticable for him to discharge the functions of guardian.

Discharge of guardian.

40. (1) If a guardian appointed or declared by the Court desires to resign his office, he may apply to the Court to be discharged.

(2) If the Court finds that there is sufficient reason for the application, it shall discharge him, and if the guardian making the application is the Collector and the Local Government approves of his applying to be discharged, the Court shall in any case discharge him.

Cessation of authority of guardian.

41. (1) The powers of a guardian of the person cease—

(a) by his death, removal or discharge;

(b) by the Court of Wards assuming superintendence of the person of the ward;

(c) by the ward ceasing to be a minor;

(d) in the case of a female ward, by her marriage to a husband who is not unfit to be guardian of her person, or, if the guardian was appointed or declared by the Court, by her marriage to a husband who is not, in the opinion of the Court, so unfit; or

(e) in the case of a ward whose father was unfit to be guardian of the person of the ward, by the father ceasing to be so, or, if the father was deemed by the Court to be so unfit, by his ceasing to be so in the opinion of the Court.

(2) The powers of a guardian of the property cease—

(a) by his death, removal or discharge;

(b) by the Court of Wards assuming superintendence of the property of the ward; or

(c) by the ward ceasing to be a minor.

## The Guardians and Wards Act, 1890

*(Chapter III—Duties, Rights and Liabilities of Guardians—Section 42 C ter IV—Supplemental Provisions—Sections 43 45)*

(3) When for any cause the powers of a guardian cease, the Court may require him or, if he is dead, his representative to deliver as it directs any property in his possession or control belonging to the ward or any accounts in his possession or control relating to any past or present property of the ward

(4) When he has delivered the property or accounts as required by the Court the Court may declare him to be discharged from his liabilities save as regards any fraud which may subsequently be discovered

Appointment of successor to guardian dead, discharged or removed

42 When a guardian appointed or declared by the Court is discharged or under the law to which the ward is subject, ceases to be entitled to act or when any such guardian or a guardian appointed by will or other instrument is removed or dies the Court, of its own motion or on application under Chapter II, may if the ward is still a minor appoint or declare another guardian of his person or property or both as the case may be

### CHAPTER IV

### SUPPLEMENTAL PROVISIONS

Order for regulating conduct or proceedings of guardians and enforcement of those orders

43 (1) The Court may on the application of any person interested or of its own motion make an order regulating the conduct or proceedings of any guardian appointed or declared by the Court

(2) Where there are more guardians than one of a ward and they are unable to agree upon a question affecting his welfare any of them may apply to the Court for its direction and the Court may make such order respecting the matter in difference as it thinks fit

(3) Except where it appears that the object of making an order under sub section (1) or sub section (2) would be defeated by the delay the Court shall before making the order direct notice of the application therefor or of the intention of the Court to make it to be given in a case under sub section (1) to the guardian or, in a case under sub section ( ), to the guardian who has not made the application

(4) In case of disobedience to an order made under sub section (1) or sub section (2) the order may be enforced in the same manner as an injunction granted under section 492 or

XIV of 1882

section 493 of the Code of Civil Procedure in a case under sub section (1) as if the ward were the plaintiff and the guardian were the defendant or in a case under sub section (2) if the guardian who made the application the plaintiff and the other guardian were defendant

(5) Except in a case under sub section nothing in this section shall apply to a lector who is, as such, a guardian

Penalty for removal of ward from jurisdiction

44 If, for the purpose or with the effec preventing the Court f exercising its authority respect to a ward guardian appointed or declared by the C removes the ward from the limits of the j diction of the Court in contravention of provisions of section 26 he shall be liable order of the Court to fine not exceeding thousand rupees or to imprisonment in the jail for a term which may extend to six mor

Penalty for contumacy

(a) if a person having the custody of a m fails to produce him or cause him t produced in compliance with a direc under section 12 sub section (1) or t his utmost to compel the minor to re to the custody of his guardian in ob ence to an order under section sub section (1) or

(b) if a guardian appointed or declared the Court fails to deliver to the Cc within the time allowed by or ur clause (a) of section 34 a t ten required under that clause or to exl accounts in compliance with a requi under clause (c) of that section or to into the Court the balance due from on those accounts in compliance wi requisition under clause (d) of section or

(c) if a person who has ceased to be a gu ian, or the representative of suc person fails to deliver any propert accounts in compliance with a requisi under section 41 sub section (3),

he person guardian or representative as ase may be shall be liable by order of the Cc to fine not exceeding one hundred rupees an case of recu ancy to further fin not excee ten rupees for each day after the first du which the default continues and not excee five hundred rupees in the aggregate anc detention in the civil jail until he undertake produce the minor or cause him to be produ or to compel his return or to deliver the st ment or to exhibit the accounts or to pay balance or to deliver the property or accou as the case may be

(2) If a person who has been released f detention on giving an undertaking under section (1) fails to carry out the undertal

*The Guardians and Wards Act, 1890*

*(Chapter IV—Supplemental Provisions—Sections 46 51)*

within the time allowed by the Court the Court may cause him to be arrested and re committed to the civil jail

46 (1) The Court may call upon the Collector or upon any Court subordinate to the Court for a report on any matter arising in any proceeding under this Act and treat the report as evidence

Reports by Collectors and Subordinate Courts

(2) For the purpose of preparing the report the Collector or the Judge of the subordinate Court as the case may be shall make such inquiry as he deems necessary and may for the purposes of the inquiry exercise any power of compelling the attendance of a witness to give evidence or produce a document which is conferred on a Court by the Code of Civil Procedure

47 An appeal shall lie to the High Court from an order made by a District Court—

Orders appealable

(a) under section 7, appointing or declaring or refusing to appoint or declare a guardian or

(b) under section 9 sub section (3) returning an application or

(c) under section 25 making or refusing to make an order for the return of a ward to the custody of his guardian or

(d) under section 26 refusing leave for the removal of a ward from the limits of the jurisdiction of the Court or imposing conditions with respect thereto or

(e) under section 28 or section 29 refusing permission to a guardian to do an act referred to in the section or

(f) under section 32 defining restricting or extending the powers of a guardian or

(g) under section 39 removing a guardian or

(h) under section 40 refusing to discharge a guardian or

(i) under section 43 regulating the conduct or proceedings of a guardian or settling a matter in difference between joint guardians, or enforcing the order or

(j) under section 44 or section 45 imposing a penalty

48 Save as provided by the last foregoing section and by section 622 of the Code of Civil Procedure, an order made under this Act shall be final and shall not be liable to be contested by suit or otherwise

Finality of other orders

49 The costs of any proceeding under this Act including the costs of maintaining a guardian or other person in the civil jail, shall subject to any rules made by the High Court under this Act be in the discretion of the Court in which the proceeding is had

Costs

50 (1) In addition to any other power to make rules conferred expressly or impliedly by this Act, the High Court may from time to time make rules consistent with this Act—

Power of High Court to make rules

(a) as to the matters respecting which and the time at which reports should be called for from Collectors and subordinate Courts

(b) as to the allowances to be granted to, and the security to be required from guardians and the cases in which such allowances should be granted

(c) as to the procedure to be followed with respect to applications of guardians for permission to do acts referred to in sections 28 and 29

(d) as to the circumstances in which such requisitions as are mentioned in clauses (a) (b) (c) and (d) of section 34 should be made

(e) as to the preservation of statements and accounts delivered and exhibited by guardians

(f) as to the inspection of those statements and accounts by persons interested

(g) as to the custody of money and securities for money belonging to wards

(h) as to the securities on which money belonging to wards may be invested

(i) as to the education of wards for whom guardians not being Collectors have been appointed or declared by the Court and,

(j) generally for the guidance of the Courts in carrying out the purposes of this Act

(2) Rules under clauses (c) and (i) of sub section (1) shall not have effect until they have been approved by the Local Government nor shall any rule under this section have effect until it has been published in the official Gazette

51 A guardian appointed by or holding a certificate of administration from a Civil Court under any enactment repealed by this Act shall save as may be prescribed be subject to the provisions of this Act and of the rules made under it as if he had been appointed or declared by the Court under Chapter II

Applicability of Act to guardians already appointed by Court

*The Guardians and Wards Act, 1890*

*(Chapter IV—Supplemental Provisions—Sections 52 53)*

1875

Amendment of Indian Majority Act

52 In section 3 of the Indian Majority Act 1875 for the words every minor of whose person or property a guardian has been or shall be appointed by any Court of Justice and every minor under the jurisdiction of any Court of Wards, the following shall be substituted namely —

"every minor of whose person or property, or both a guardian other than a guardian for a suit within the meaning of Chapter XXXI of the Code of Civil Procedure has been or shall be appointed or declared by any Court of Justice before the minor has attained the age of eighteen years and every minor of whose property the superintendence has been or shall be assumed by any Court of Wards before the minor has attained that age

of 1882

of 1882

Amendment of Chapter XXXI of the Code of Civil Procedure

53 Chapter XXXI of the Code of Civil Procedure shall be amended as follows, namely —

*A*—To section 440 of the said Code the following shall be added, namely —

" If a minor has a guardian appointed or declared by an authority competent in this behalf, a suit shall not be instituted on behalf of the minor by any person other than such guardian except with the leave of the Court granted after notice to such guardian and after hearing any objections which he may desire to make with respect to the institution of the suit and the Court shall not grant such leave unless it is of opinion that it is for the welfare of the minor that the person proposing to institute the suit in the name of the minor should be permitted to do so

*B*—To section 443 of the said Code the following shall be added namely —

"Where an authority competent in this behalf has appointed or declared a guardian or guardians of the person or property or both of the minor the Court shall appoint him or one of them as the case may be to be the guardian for the suit under this section unless it considers for reasons to be recorded by it that some other person ought to be so appointed

*C*—After section 446 of the said Code the following shall be added, namely —

"If the next friend is not a guardian appointed or declared by an authority competent in this behalf and an application is made by a guardian so appointed or declared who desires to be himself appointed in the place of the next friend the Court shall remove the next friend unless it considers for reason to be recorded by it, that the guardian ought not to be appointed the next friend of the minor

*D*—For section 461 of the said Code the following shall be substituted namely —

Receipt by next friend or guardian for the suit of property under decree for minor

461 (*1*) A next friend or guardian for the suit shall not without the leave of the Court receive any money or other moveable property on behalf of a minor, either—

(*a*) by way of compromise before decree or order or

(*b*) under a decree or order in favour of the minor

" (*2*) Where the next friend or guardian for the suit has not been appointed or declared by competent authority to be guardian of the property of the minor or having been so appointed or declared is under any disability known to the Court to receive the money or other moveable property, the Court shall if it grants him leave to receive the property require such security and give such directions as will in its opinion sufficiently protect the property from waste and ensure its proper application

*E*—For section 464 of the said Code as amended by the Civil Procedure Code Amendment Act 1888, the following shall be substituted, namely —

Princes and Chiefs and wards of Court

464 Nothing in this Chapter applies to a Sovereign Prince or ruling Chief suing or being sued in the name of his State or being sued by direction of the Governor General in Council or a Local Government in the name of an agent or in any other name, or shall be construed to affect, or in any way derogate from the provisions of any local law for the time being in force relating to suits by or against minors or by or against lunatics or other persons of unsound mind

*Secretary to the Government of India*

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 21st March 1890 and is hereby promulgated for general information —

ACT No IX OF 1890

THE INDIAN RAILWAYS ACT, 1890

CONTENTS

CHAPTER I

PRELIMINARY

SECTIONS
1 Title extent and commencement
2 Repeal
3 Definitions

CHAPTER II

INSPECTION OF RAILWAYS

4 Appointment and duties of Inspectors
5 Powers of Inspectors
6 Facilities to be afforded to Inspectors

CHAPTER III

CONSTRUCTION AND MAINTENANCE OF WORKS

7 Authority of railway administrations to execute all necessary works
8 Alteration of pipes wires and drains
9 Temporary entry upon land for repairing or preventing accident
10 Payment of compensation for damage caused by lawful exercise of power under section 7, 8 or 9
11 Accommodation works
12 Power for owner occupier or local authority to cause additional accommodation works to be made
13 Fences screens gates and bars
14 Over and under bridges
15 Removal of trees dangerous to or obstructing the working of a railway

CHAPTER IV

OPENING OF RAILWAYS

16 Right to use locomotives
17 Notice of intended opening of a railway
18 Sanction of the Government a condition precedent to the opening of a railway
19 Procedure in sanctioning the opening of a railway
20 Application of the provisions of the three

SECTIONS
22 Power to make rules with respect to the opening of railways
23 Power to close an opened railway
24 Re opening of a closed railway
25 Delegation of powers under this Chapter to Inspectors

CHAPTER V

RAILWAY COMMISSIONS AND TRAFFIC FACILITIES

*Railway Commissions*

26 Constitution of Railway Commission
27 Restriction of jurisdiction of Railway Commission to cases specially referred
28 Reference of cases to Railway Commission
29 Constitution of Railway Commission in session
30 Powers of Railway Commission
31 Appeals from orders of Railway Commission
32 Operation of order of Railway Commission
33 Assessors
34 Power of the Governor General in Council to make rules for the purposes of this Chapter
35 Cost of proceedings under this Chapter
36 Execution of order of Railway Commission and High Court
37 Evidence of document
38 Submission to the Governor General in Council of special reports by Railway Commission
39 Dissolution of Railway Commission
40 Finality of orders of Railway Commission subject to the foregoing provisions of this Chapter
41 Bar of jurisdiction of ordinary Court in certain matters cognizable by Railway Commission

*Traffic Facilities*

42 Duty of railway administrations to arrange for receiving and forwarding traffic without unreasonable delay and without partiality
43 Undue preference in case of unequal rates or other traffic or services
44 Provision for facilities and equal treatment when ships or boats are used which are not part of a railway
45 Terminals
46 Power of Railway Commission to fix terminals

CHAPTER VI

WORKING OF RAILWAYS

*General*

SECTIONS

49 Agreements with the Governor General in Council for construction or lease of rolling stock
50 Powers of railway companies to enter into working agreements
51 Establishment of ferries and roadways for accommodation of traffic
52 Returns

*Carriage of Property*

53 Maximum load for wagons
54 Power for railway administrations to impose conditions for working traffic
55 Lien for rates terminals and other charges
56 Disposal of unclaimed things on a railway
57 Power for railway administrations to require indemnity on delivery of goods in certain cases
58 Requisitions for written accounts of description of goods
59 Dangerous or offensive goods
60 Exhibition to the public of authority for quoted rates
61 Requisition on railway administrations for details of gross charges

*Carriage of Passengers*

62 Communication between passengers and railway servants in charge of trains
63 Maximum number of passengers for each compartment
64 Reservation of compartments for females
65 Exhibition of time tables and tables of fares at stations
66 Supply of tickets on payment of fares
67 Provision for cases in which tickets have been issued for train not having room available for additional passengers
68 Prohibition against travelling without pass or ticket
69 Exhibition and surrender of passes and tickets
70 Return and season tickets
71 Power to refuse to carry persons suffering from infectious or contagious disorder

CHAPTER VII

RESPONSIBILITY OF RAILWAY ADMINISTRATIONS AS CARRIERS

72 Measure of the general responsibility of a railway administration as a carrier of animals and goods
73 Further provision with respect to the liability of a railway administration as a carrier of animals
74 Further provision with respect to the liability of a railway administration as a carrier of luggage
75 Further provision with respect to the liability of a railway administration as a carrier of articles of special value
76 Burden of proof in suits in respect of loss of animals or goods
77 Notification of claims to refunds of overcharges and to compensation for losses
78 Exoneration from responsibility in case of goods falsely described
79 Settlement of compensation for injuries to officers, soldiers and followers on duty
80 Suit for compensation for injury to through booked traffic
81 Limitation of liability of railway administration in respect of traffic on inland waters by vessel not being part of railway
82 Limitation of liability of railway administration in respect of accidents at sea

CHAPTER VIII

ACCIDENTS

83 Report of railway accidents
84 Power to make rules regarding notices of and inquiries into accidents
85 Submission of return of accidents
86 Provision for compulsory medical examination of person injured in railway accident

CHAPTER IX

PENALTIES AND OFFENCES

*Forfeitures by Railway Companies*

87 Penalty for default in compliance with requisition under section 13
88 Penalty for contravention of section 16 18 19 20 21 or 24
89 Penalty for not having certain documents kept or exhibited at stations under section 47 54 or 65
90 Penalty for not making rules as required by section 47
91 Penalty for failure to comply with decision under section 48
92 Penalty for delay in submitting returns under section 52 or 85
93 Penalty for neglect of provisions of section 53 or 63 with respect to carrying capacity of rolling stock
94 Penalty for failure to comply with requisition under section 62 for maintenance of means of communication between passengers and railway servants
95 Penalty for failure to reserve compartments for females under section 64

SECTIONS

96. Penalty for omitting to give the notices of accidents required by section 83 and under section 84.
97 Recovery of penalties
98 Alternative or supplementary character of remedies afforded by the foregoing provisions of this Chapter

*Offences by Railway Servants*

99 Breach of duty imposed by section 60
100 Drunkenness
101 Endangering the safety of persons
102 Compelling passengers to enter carriages already full
103 Omission to give notice of accident
104 Obstructing level crossings
105 False returns

*Other Offences*

106 Giving false account of goods
107 Unlawfully bringing dangerous or offensive goods upon a railway
108 Needlessly interfering with means of communication in a train
109 Entering compartment reserved or already full or resisting entry into a compartment not full
110 Smoking
111 Defacing public notices
112 Fraudulently travelling or attempting to travel without proper pass or ticket
113 Travelling without pass or ticket or with insufficient pass or ticket or beyond authorised distance
114 Transferring return half of return ticket
115 Disposal of fines under the two last foregoing sections
116 Altering or defacing pass or ticket
117 Being or suffering person to travel on railway with infectious or contagious disorder
118 Entering carriage in motion or otherwise improperly travelling on a railway
119 Entering carriage or other place reserved for females
120 Drunkenness or nuisance on a railway
121 Obstructing railway servant in his duty
122 Trespass and refusal to desist from trespass
123 Disobedience of omnibus drivers to directions of railway servants
124 Opening or not properly shutting gates
125 Cattle trespass
126 Maliciously wrecking or attempting to wreck a train
127 Maliciously hurting or attempting to hurt persons travelling by railway
128 Endangering safety of persons travelling by railway by wilful act or omission

SECTIONS.

129 Endangering safety of persons travelling by railway by rash or negligent act or omission
130 Special provision with respect to the commission by children of acts endangering safety of persons travelling by railway

*Procedure*

131 Arrest for offences against certain sections
132 Arrest of persons likely to abscond or unknown
133 Magistrates having jurisdiction under Act
134 Place of trial

---

CHAPTER X

SUPPLEMENTAL PROVISIONS

135 Taxation of railways by local authorities
136 Restriction on execution against railway property
137 Railway servants to be public servants for the purposes of Chapter IX of the Indian Penal Code
138 Procedure for summary delivery to railway administration of property detained by a railway servant
139 Mode of signifying communications from the Governor General in Council
140 Service of notices on railway administrations
141 Service of notices by railway administrations
142 Presumption where notice is served by post
143 Provisions with respect to rules
144 Delegation of powers of Governor General in Council
145 Representation of Managers and Agents of Railways in Courts
146 Power to extend Act to steam tramways
147 Power to exempt railways from Act
148 Matters supplemental to the definitions of railway and railway servant
149 Amendment of the Indian Penal Code
150 Amendment of the Sindh [illegible] Railway Act 1887

---

THE FIRST SCHEDULE.—ENACTMENTS REPEALED

THE SECOND SCHEDULE.—ARTICLES TO BE DECLARED AND INSURED

IV C

*The Indian Railways Act, 1890*

*(Chapter I—Preliminary—Sections 1-3)*

*An Act to consolidate, amend and add to the law relating to Railways in India*

WHEREAS it is expedient to consolidate amend and add to the law relating to railways in India It is hereby enacted as follows —

## CHAPTER I

### PRELIMINARY

Title extent and commencement

1 (1) This Act may be called the Indian Railways Act, 1890

(2) It extends to the whole of British India inclusive of Upper Burma and (in so far as it has been or may be extended under the provisions of the Sindh Pishin Railway Act 1887) of British Baluchistan and applies also to all subjects of Her Majesty within the dominions of Princes and States in India in alliance with Her Majesty and to all Native subjects of Her Majesty without and beyond British India and those dominions and

1887

(3) It shall come into force on the first day of May 1890

Repeal

2 (1) On and from that day the enactments specified in the first schedule are repealed to the extent mentioned in the third column thereof

(2) But all rules, declarations and appointments made sanction and directions given, forms approved powers conferred and notifications published under any of those enactments or under any enactment repealed by any of them shall so far as they are consistent with this Act be deemed to have been respectively made, given, approved, conferred and published under this Act

(3) Any enactment or document referring to any of those enactments or to any enactment repealed by any of them, shall so far as may be be construed to refer to this Act or to the corresponding portion thereof

Definitions

3 In this Act unless there is something repugnant in the subject or context,—

(1) "tramway" means a tramway constructed under the Indian Tramways Act, 1886 or any special Act relating to tramways

I 1886

(2) "ferry" includes a bridge of boats, pontoons or rafts a swing bridge, a flying bridge and a temporary bridge, and the approaches to and landing places of a ferry

(3) "inland water" means any canal, river, lake or navigable water in British India

(4) "railway" means a railway, or any portion of a railway, for the public carriage of passengers, animals or goods, and includes—

(a) all land within the fences or other boundary marks indicating the limits of the land appurtenant to a railway,

(b) all lines of rails, sidings or branches worked over for the purposes of, or in connection with a railway,

(c) all stations offices warehouses wharves, workshops manufactories fixed plant and machinery and other works constructed for the purposes of or in connection with a railway and

(d) all ferries ships boats and rafts which are used on inland waters for the purposes of the traffic of a railway and belong to or are hired or worked by the authority administering the railway

(5) "railway company" includes any persons whether incorporated or not who are owners or lessees of a railway or parties to an agreement for working a railway

(6) "railway administration" or "administration", in the case of a railway administered by the Government or a Native State, means the Manager of the railway and includes the Government or the Native State, and, in the case of a railway administered by a railway company means the railway company

(7) "railway servant" means any person employed by a railway administration in connection with the service of a railway

(8) "Inspector" means an Inspector of Railways appointed under this Act

(9) "goods" includes inanimate things of every kind

(10) "rolling stock" includes locomotive engines tenders carriages wagons trucks and trollies of all kinds

(11) "traffic" includes rolling stock of every description as well as passengers, animals and goods

(12) "through traffic" means traffic which is carried over the railways of two or more railway administrations

(13) "rate" includes any fare charge or other payment for the carriage of any passenger animal or goods

(14) "terminals" includes charges in respect of stations sidings, wharves, depôts warehouses cranes and other similar matters and of any services rendered thereat

(15) "pass" means an authority given by a railway administration, or by an officer appointed by a railway administration in this behalf, and authorising the person to whom it is given to travel as a passenger on a railway gratuitously

## The Indian Railways Act, 1890

### (Chapter II —Inspection of Railways —Sections 4 6 ) (Chapter III —Construction and Maintenance of Works —Section 7 )

(16) "ticket" includes a single ticket, a return ticket and a season ticket

(17) 'maund means a weight of three thousand two hundred tolas, each tola being a weight of one hundred and eighty grains Troy and

(18) Collector means the chief officer in charge of the land revenue administration of a district and includes any officer specially appointed by the Local Government to discharge the functions of a Collector under this Act

## CHAPTER II

### INSPECTION OF RAILWAYS

Appointment and duties of Inspectors

4 (1) The Governor General in Council may appoint persons by name or by virtue of their office, to be Inspectors of Railways

(2) The duties of an Inspector of Railways shall be—

(a) to inspect railways with a view to determine whether they are fit to be opened for the public carriage of passengers and to report thereon to the Governor General in Council as required by this Act

(b) to make such periodical or other inspections of any railway or of any rolling stock used thereon as the Governor General in Council may direct,

(c) to make inquiry under this Act into the cause of any accident on a railway

(d) to perform such other duties as are imposed on him by this Act or any other enactment for the time being in force relating to railways

Powers of Inspectors

5 An Inspector shall for the purpose of any of the duties which he is required or authorised to perform under this Act be deemed to be a public servant within the meaning of the Indian Penal Code, and subject to the control of the Governor General in Council shall for that purpose have the following powers namely —

(a) to enter upon and inspect any railway or any rolling stock used thereon

(b) by an order in writing under his hand addressed to the railway administration to require the attendance before him of any railway servant, and to require answers or returns to such inquiries as he thinks fit to make from such railway servant or from the railway administration

(c) to require the production of any book or document belonging to or in the possession or control of any railway administration (except a communication between a railway company and its legal advisers) which it appears to him to be necessary to inspect

Facilities to be afforded to Inspectors

6 A railway administration shall afford to the Inspector all reasonable facilities for performing the duties and exercising the powers imposed and conferred upon him by this Act

---

## CHAPTER III

### CONSTRUCTION AND MAINTENANCE OF WORKS

Authority of railway administrations to execute all necessary works

7 (1) Subject to the provisions of this Act and in the case of immoveable property not belonging to the railway administration to the provisions of any enactment for the time being in force for the acquisition of land for public purposes and for companies, and subject also in the case of a railway company to the provisions of any contract between the company and the Government, a railway administration may for the purpose of constructing a railway or the accommodation or other works connected therewith and notwithstanding anything in any other enactment for the time being in force —

(a) make or construct in, upon across, under or over any lands or any streets hills, valleys roads railways or tramways or any rivers canals brooks streams or other waters or any drains water pipes gas pipes or telegraph lines, such temporary or permanent inclined planes arches tunnels culverts embankments aqueducts bridges roads ways passages conduits, drains piers cuttings and fences as the railway administration thinks proper

(b) alter the course of any rivers brooks streams or watercourses for the purpose of constructing and maintaining tunnels, bridges passages or other works over or under them and divert or alter, as well temporarily as permanently the course of any rivers brooks streams or watercourses or any roads streets or ways, or raise or sink the level thereof, in order the more conveniently to carry them over or under or by the side of the railway as the railway administration thinks proper

(c) make drains or conduits into, through or under any lands adjoining the railway for the purpose of conveying water from or to the railway

(d) erect and construct such houses, warehouses offices and other buildings and such yards stations wharves engines machinery, apparatus and other works and conveniences as the railway administration thinks proper,

*The Indian Railways Act, 1890*

*(Chapter III—Construction and Maintenance of Works—Sections 8-11)*

(*e*) alter repair or discontinue such buildings works and conveniences as aforesaid or any of them, and substitute others in their stead and

(*f*) do all other acts necessary for making maintaining altering or repairing and using the railway

(*2*) The exercise of the powers conferred on a railway administration by sub section (*1*) shall be subject to the control of the Governor General in Council

Alteration of pipes wires and drains

8 A railway administration may for the purpose of exercising the powers conferred upon it by this Act alter the position of any pipe for the supply of gas, water or compressed air or the position of any electric wire or of any drain not being a main drain

Provided that—

(*a*) when the railway administration desires to alter the position of any such pipe wire or drain it shall give reasonable notice of its intention to do so and of the time at which it will begin to do so to the local authority or company having control over the pipe, wire or drain or when the pipe wire or drain is not under the control of a local authority or company, to the person under whose control the pipe wire or drain is,

(*b*) a local authority company or person receiving notice under proviso (*a*) may send a person to superintend the work and the railway administration shall execute the work to the reasonable satisfaction of the person so sent and shall make arrangements for continuing during the execution of the work the supply of gas water compressed air or electricity or the maintenance of the drainage, as the case may be

Temporary entry upon land for repairing or preventing accident

9 (*1*) The Governor General in Council may authorise any railway administration in case of any slip or other accident happening or being apprehended to any cutting embankment or other work under the control of the railway administration to enter upon any lands adjoining its railway for the purpose of repairing or preventing the accident and to do all such works as may be necessary for the purpose

(*2*) In case of necessity the railway administration may enter upon the lands and do the works aforesaid without having obtained the previous sanction of the Governor General in Council but in such a case shall, within seventy two hours after such entry make a report to the Governor General in Council specifying the nature of the accident or apprehended accident and of the works necessary to be done, and the power conferred on the railway administration by this sub section shall cease and determine if the Governor General in Council after considering the report considers that the exercise of the power is not necessary for the public safety

Payment of compensation for damage caused by lawful exercise of powers under section 7 8 or 9

10 (*1*) A railway administration shall do as little damage as possible in the exercise of the powers conferred by any of the three last foregoing sections and compensation shall be paid for any damage caused by the exercise thereof

(*2*) A suit shall not lie to recover such compensation but in case of dispute the amount thereof shall, on application to the Collector be determined and paid in accordance, so far as may be with the provisions of sections 11 to 15 both inclusive and sections 18 to 42 both inclusive, of the Land acquisition Act 1870 and the provisions of sections 57 and 58 of that Act shall apply to the award of compensation

Accommodation works

11 (*1*) A railway administration shall make and maintain the following works for the accommodation of the owners and occupiers of lands adjoining the railway namely

(*a*) such and so many convenient crossings bridges arches culverts and passages over under or by the sides of or leading to or from the railway as may in the opinion of the Governor General in Council be necessary for the purpose of making good any interruptions caused by the railway to the use of the lands through which the railway is made, and

(*b*) all necessary arches tunnels culverts drains watercourses or other passages over or under or by the sides of the railway, of such dimensions as will in the opinion of the Governor General in Council be sufficient at all times to convey water as freely from or to the lands lying near or affected by the railway before the making of the railway, or nearly so as may be

(*2*) Subject to the other provisions of this Act, the works specified in clauses (*a*) and (*b*) of sub section (*1*) shall be made during or immediately after the laying out or formation of the railway over the lands traversed thereby and in such manner as to cause as little damage or inconvenience as possible to persons interested in the lands or affected by the works

(*3*) The foregoing provisions of this section are subject to the following provisos, namely —

(*a*) a railway administration shall not be required to make any accommodation works in such a manner as would prevent or obstruct the working or using of the

*The Indian Railways Act, 1890*

*(Chapter III —Construction and Maintenance of Works —Sections 12-15 )*

railway, or to make any accommodation works with respect to which the owners and occupiers of the lands have agreed to receive and have been paid compensation in consideration of their not requiring the works to be made

(*b*) save as hereinafter in this Chapter provided a railway administration shall not, except on the requisition of the Governor General in Council be compelled to defray the cost of executing any further or additional accommodation works for the use of the owners or occupiers of the lands after the expiration of ten years from the date on which the railway passing through the lands was first opened for public traffic

(*c*) where a railway administration has provided suitable accommodation for the crossing of a road or stream and the road or stream is afterwards diverted by the act or neglect of the person having the control thereof the administration shall not be compelled to provide other accommodation for the crossing of the road or stream

(*4*) The Governor General in Council may appoint a time for the commencement of any work to be executed under sub section (*1*), and if for fourteen days next after that time the railway administration fails to commence the work or, having commenced it fails to proceed diligently to execute it in a sufficient manner the Governor General in Council may execute it and recover from the railway administration the cost incurred by him in the execution thereof

Power for owner or occupier or local authority to cause additional accommodation works to be made

12 If an owner or occupier of any land affected by a railway considers the works made under the last foregoing section to be insufficient for the commodious use of the land or if the Local Government or a local authority desires to construct a public road or other work across, under or over a railway he or it as the case may be may at any time require the railway administration to make at his or its expense such further accommodation works as he or it thinks necessary and are agreed to by the railway administration or as in case of difference of opinion, may be authorised by the Governor General in Council

Fences screens gates and bars

13 The Governor General in Council may require that within a time to be specified in the requisition or within such further time as he may appoint in this behalf,—

(*a*) boundary marks or fences be provided or renewed by a railway administration for a railway or any part thereof and for roads constructed in connection therewith

(*b*) any works in the nature of a screen near to or adjoining the side of any public road constructed before the making of a railway be provided or renewed by a railway administration for the purpose of preventing danger to passengers on the road by reason of horses or other animals being frightened by the sight or noise of the rolling stock moving on the railway

(*c*) suitable gates chains, bars, stiles or hand rails be erected or renewed by a railway administration at places where a railway crosses a public road on the level

(*d*) persons be employed by a railway administration to open and shut such gates, chains or bars

Over and under bridges

14 (*1*) Where a railway administration has constructed a railway across a public road on the level the Governor General in Council may at any time if it appears to him necessary for the public safety require the railway administration within such time as he thinks fit to carry the road either under or over the railway by means of a bridge or arch with convenient ascents and descents and other convenient approaches instead of crossing the road on the level or to execute such other works as, in the circumstances of the case, may appear to the Governor General in Council to be best adapted for removing or diminishing the danger arising from the level crossing

(*2*) The Governor General in Council may require as a condition of making a requisition under sub section (*1*) that the local authority if any which maintains the road shall undertake to pay the whole of the cost to the railway administration of complying with the requisition or such portion of the cost as the Governor General in Council thinks just

Removal of trees dangerous to or obstructing the working of a railway

15 (*1*) In either of the following cases namely —

(*a*) where there is danger that a tree standing near a railway may fall on the railway so as to obstruct traffic

(*b*) when a tree obstructs the view of any fixed signal

the railway administration may with the permission of any Magistrate fell the tree or deal with it in such other manner as will in the opinion of the railway administration avert the danger or remove the obstruction, as the case may be

*The Indian Railways Act, 1890*

*(Chapter IV —Opening of Railways —Sections 16 19)*

(2) In case of emergency the power mentioned in sub section (1) may be exercised by a railway administration without the permission of a Magistrate

(3) Where a tree felled or otherwise dealt with under sub section (1) or sub section (2) was in existence before the railway was constructed or the signal was fixed any Magistrate may, upon the application of the persons interested in the tree award to those persons such compensation as he thinks reasonable

(4) Such an award, subject where made in a presidency town by any Magistrate other than the Chief Presidency Magistrate or where made elsewhere by any Magistrate other than the District Magistrate, to revision by the Chief Presidency Magistrate or the District Magistrate, as the case may be shall be final

(5) A Civil Court shall not entertain a suit to recover compensation for any tree felled or otherwise dealt with under this section

## CHAPTER IV

### OPENING OF RAILWAYS

Right to use locomotives

16 (1) A railway administration may, with the previous sanction of the Governor General in Council use upon a railway locomotive engines or other motive power and rolling stock to be drawn or propelled thereby

(2) But rolling stock shall not be moved upon a railway by steam or other motive power until such general rules for the railway as may be deemed to be necessary have been made, sanctioned and published under this Act

Notice of intended opening of a railway

17 (1) Subject to the provisions of sub section (2) a railway administration shall, one month at least before it intends to open any railway for the public carriage of passengers give to the Governor General in Council notice in writing of its intention

(2) The Governor General in Council may in any case, if he thinks fit reduce the period of or dispense with, the notice mentioned in sub section (1)

Sanction of the Government a condition precedent to the opening of a railway

18 A railway shall not be opened for the public carriage of passengers until the Governor General in Council or an Inspector empowered by the Governor General in Council in this behalf, has by order sanctioned the opening thereof for that purpose

Procedure in sanctioning the opening of a railway

19 (1) The sanction of the Governor General in Council under the last foregoing section shall not be given until an Inspector has after inspection of the railway reported in writing to the Governor General in Council—

(a) that he has made a careful inspection of the railway and rolling stock

(b) that the moving and fixed dimensions prescribed by the Governor General in Council have not been infringed,

(c) that the weight of rails, strength of bridges general structural character of the works and the size of and maximum gross load upon the axles of any rolling stock are such as have been prescribed by the Governor General in Council

(d) that the railway is sufficiently supplied with rolling stock

(e) that general rules for the working of the railway when opened for the public carriage of passengers have been made, sanctioned and published under this Act and

(f) that, in his opinion the railway can be opened for the public carriage of passengers without danger to the public using it

(2) If in the opinion of the Inspector the railway cannot be so opened without danger to the public using it he shall state that opinion together with the grounds therefor to the Governor General in Council and the Governor General in Council may thereupon order the railway administration to postpone the opening of the railway

(3) An order under the last foregoing sub section must set forth the requirements to be complied with as a condition precedent to the opening of the railway being sanctioned, and shall direct the postponement of the opening of the railway until those requirements have been complied with or the Governor General in Council is otherwise satisfied that the railway can be opened without danger to the public using it

(4) The sanction given under this section may be either absolute or subject to such conditions as the Governor General in Council thinks necessary for the safety of the public

(5) When sanction for the opening of a railway is given subject to conditions and the railway administration fails to fulfil those conditions, the sanction shall be deemed to be void and the railway shall not be worked or used until the conditions are fulfilled to the satisfaction of the Governor General in Council.

*The Indian Railways Act, 1890*

*(Chapter IV—Opening of Railways—Sections 20 26)*

20 (1) The provisions of sections 17, 18 and 19 with respect to the opening of a railway shall extend to the opening of the works mentioned in sub section (2) when those works form part of or are directly connected with, a railway used for the public carriage of passengers and have been constructed after the inspection which preceded the first opening of the railway

Application of the provisions of the three foregoing sections to material alterations in railway

(2) The works referred to in sub section (1) are additional lines of railway deviation lines stations junctions and crossings on the level, and any alteration or re construction materially affecting the structural character of any work to which the provisions of sections 17 18 and 19 apply or are extended by this section

21 When an accident has occurred resulting in a temporary suspension of traffic and either the original line and works have been rapidly restored to their original standard, or a temporary diversion has been laid for the purpose of restoring communication the original line and works so restored or the temporary diversion, as the case may be may, in the absence of the Inspector be opened for the public carriage of passengers subject to the following conditions namely —

Exceptional provision

(a) that the railway servant in charge of the works undertaken by reason of the accident has certified in writing that the opening of the restored line and works or of the temporary diversion will not in his opinion be attended with danger to the public using the line and works or the diversion and

(b) that notice by telegraph of the opening of the line and works or the diversion shall be sent as soon as may be to the Inspector appointed for the railway

22 The Governor General in Council may make rules defining the cases in which and in those cases the extent to which, the procedure prescribed in sections 17 to 20 (both inclusive) may be dispensed with

Power to make rules with respect to the opening of railways

23 (1) When after inspecting any open railway used for the public carriage of passengers, or any rolling stock used thereon an Inspector is of opinion that the use of the railway or of any specified rolling stock will be attended with danger to the public using it he shall state that opinion, together with the grounds therefor to the Governor General in Council and the Governor General in Council may thereupon order that the railway be closed for the public carriage of passengers, or that the use of the rolling stock so specified be discontinued, or that the railway or the rolling stock so specified be used for the public carriage of passengers on such conditions only as the Governor General in Council may consider necessary for the safety of the public

Power to close an opened railway

(2) An order under sub section (1) must set forth the grounds on which it is founded

24 (1) When a railway has been closed under the last foregoing section it shall not be re opened for the public carriage of passengers until it has been inspected and its re opening sanctioned, in accordance with the provisions of this Act

Re opening of a closed railway

(2) When the Governor General in Council has ordered under the last foregoing section that the use of any specified rolling stock be discontinued, that rolling stock shall not be used until an Inspector has reported that it is fit for use and the Governor General in Council has sanctioned its use

(3) When the Governor General in Council has imposed under the last foregoing section any conditions with respect to the use of any railway or rolling stock, those conditions shall be observed until they are withdrawn by the Governor General in Council

25 (1) The Governor General in Council may by general or special order authorise the discharge of any of his functions under this Chapter by an Inspector and may cancel any sanction or order given by an Inspector in discharging any such function or attach thereto any condition which the Governor General in Council might have imposed if the sanction or order had been given by himself

Delegation of powers under this Chapter to Inspector

(2) A condition imposed under sub section (1) shall for all the purposes of this Act have the same effect as if it were attached to a sanction or order given by the Governor General in Council

## CHAPTER V

### RAILWAY COMMISSIONS AND TRAFFIC FACILITIES

*Railway Commissions*

26 (1) For the purposes of this Chapter the Governor General in Council shall as occasion may in his opinion require appoint a commission, styled a Railway Commission (in this Act referred to as the Commissioners) and consisting of one Law Commissioner and two Lay Commissioners

Constitution of Railway Commission

(2) The Commissioners shall sit at such times and in such places as the Governor General in Council appoints

*The Indian Railways Act, 1890*

*(Chapter V—Railway Commissions and Traffic Facilities—Sections 27-34.)*

(3) The Law Commissioner shall be such Judge of the High Court having jurisdiction in reference to European British subjects under the Code of Criminal Procedure 1882, in the place where the Commissioners are to sit as in the case of a High Court established under the Statute 24 and 25 Victoria, chapter 104 the Chief Justice or in the case of the Chief Court of the Punjab, the Senior Judge or, in the case of the Court of the Recorder of Rangoon the Chief Commissioner of Burma may on the request of the Governor General in Council, assign by writing under his hand

X of 1882

(4) The Lay Commissioners shall be appointed by the Governor General in Council and one at least of them shall be of experience in railway business

Restriction of jurisdiction of Railway Commission to cases specially referred

27 The Commissioners shall take cognizance of such cases only as are referred to them by the Governor General in Council

Reference of cases to Railway Commission

28 In any of the following circumstances, namely —

(a) where complaint is made to the Governor General in Council of anything done or any omission made by a railway administration in violation or contravention of any provision of this Chapter

(b) where any difference which is under the provisions of any agreement required or authorised to be referred to arbitration arises between railway administrations and the railway administrations apply to the Governor General in Council to have it referred to the Commissioners

XIV of 1882

(c) where any other difference being a difference between railway administrations or one to which a railway administration is a party arises and the parties thereto apply to the Governor General in Council to have it referred to the Commissioners

the Governor General in Council may, if he thinks fit refer the case to the Commissioners for decision

Constitution of Railway Commission in session

29. The three Commissioners shall attend at the hearing of any case referred to them for decision under this Chapter, and the Law Commissioner shall preside at the hearing

Powers of Railway Commission

30 (1) In hearing any such case the Commissioners shall have all the powers which may be exercised in the hearing of an original civil suit by a High Court

(2) The decision shall if the Commission differ in opinion, be in accordance with opinion of the majority, and the final order the case shall be by way of injunction and otherwise

(3) At the hearing the Commissioners m[illegible] permit any party to appear before them eit[illegible] by himself or by any legal practitioner entit[illegible] to practise in any High Court

Appeals from orders of Railway Commission

31 (1) An appeal shall not lie from any or[illegible] of the Commissioners up[illegible] any question of fact which two of the Comm[illegible]sioners are agreed

(2) Subject to the provisions of sub-sect[illegible] (1) an appeal shall lie from an order of Commissioners—

(a) where the Law Commissioner was Recorder or Additional Recorder of R[illegible]goon, to the High Court of Judicat[illegible] at Fort William in Bengal and

(b) in any other case to the High Cour[illegible] which the Law Commissioner was member

(3) Such an appeal must be presented wit[illegible] six months from the date of the order appe[illegible] from and shall be heard by a bench of as m[illegible] Judges not being fewer than three, as the H[illegible] Court may by rule prescribe

(4) In the hearing of the appeal the H[illegible] Court shall subject to the other provisions this Chapter have all the powers which it as in Appellate Court under the Code of C[illegible] Procedure and may make any order which Commissioners could have made

Operation of orders of Railway Commission

32 Notwithstanding any appeal to the H[illegible] Court from an order of Commissioners the or[illegible] shall unless the Comm[illegible]sioners or the majority of them see fit to pend it continue in operation until it is reve[illegible]ed or varied by that Court

Assessor

33 (1) The Commissioners in the exercis[illegible] their jurisdiction under Chapter, may from time time with the general or special sanction of Governor General in Council call in one or m[illegible] persons of engineering or other technical kn[illegible]ledge to act as assessors

(2) There shall be paid to such persons s[illegible] remuneration as the Governor General in Co[illegible]cil upon the recommendation of the Comm[illegible]sioners may direct

Power of the Governor General in Council to make rules for the purposes of this Chapter

34 The Governor General in Council m[illegible] make rules regulating p[illegible]ceedings before the C[illegible]missioners and enabling Commissioners to carry effect the provisions of

## *The Indian Railways Act, 1890*

### (*Chapter V — Railway Commissions and Traffic Facilities — Sections 35 42*)

Chapter and prescribing fees to be taken in relation to proceedings before the Commissioners

Costs of proceedings under this Chapter

35 The costs of and incidental to any proceedings before the Commissioners or the High Court under this Chapter shall be in the discretion of the Commissioners or the High Court as the case may be and the payment of costs awarded by the Commissioners may be enforced by the Court of which the Law Commissioner was a Judge as if the payment had been ordered by a decree of a High Court

Execution of order of Railway Commission and High Court

36 (1) The Court of which the Law Commissioner was a Judge may if it appears on the application of any person who was a party to the proceedings before the Commissioners or on appeal before the High Court, or of the representative of any such person that an injunction made under this Chapter by the Commissioners or by a High Court has not been obeyed by the party enjoined order such party to pay a sum not exceeding one thousand rupees for every day during which the injunction is disobeyed after the date of the order directing such payment

(2) The payment of such sum may be enforced by the Court which made the order as if that Court had given a decree for the same and the Court may direct that the whole or any part of the sum shall be paid to the person making the application under sub section (1) or to the Government

Evidence of documents

37 A document purporting to be signed by the Commissioners or any of them, shall be received in evidence without proof of the signature and shall until the contrary is proved be deemed to have been so signed and to have been duly executed or issued by the Commissioners

Submission to the Governor General in Council of special reports by Railway Commission

38 The Commissioners shall as soon as may be after the disposal of each case referred to them submit to the Governor General in Council a special report on the case and the Governor General in Council shall cause the report to be published in such manner as he thinks fit for the information of persons interested in the subject matter thereof

Dissolution of Railway Commission

39 Except for the purpose of the last foregoing section, a Railway Commission shall be deemed to be dissolved at the close of the last of the sittings of the Commissioners for the decision of the cases referred to them

Provided that, on the application of any person who was a party to the proceedings before the Commissioners or of the representative of any such person, the Governor General in Council may, if he thinks fit, in any case in which the order passed by the Commissioners is not open to appeal re appoint the Commissioners for the purpose of hearing an application for a review of their decision and of granting the same and re hearing the case if they think that the case should be re heard

Finality of orders of Railway Commission subject to the foregoing provisions of this Chapter

40 Subject to the foregoing provisions of this Chapter and to any direction of Her Majesty in Council an order of the Commissioners shall be final and shall not be questioned in or restrained by any Court

Bar of jurisdiction of ordinary Courts in certain matters cognizable by Railway Commission

41 Except as provided in this Act, no suit shall be instituted or proceeding taken for anything done or any omission made by a railway administration in violation or contravention of any provision of this Chapter or of any order made thereunder by the Commissioners or by a High Court

*Traffic Facilities*

Duty of railway administrations to arrange for receiving and forwarding traffic without unreasonable delay and without partiality

42 (1) Every railway administration shall, according to its powers afford all reasonable facilities for the receiving and forwarding and delivering of traffic upon and from the several railways belonging to or worked by it and for the return of rolling stock

(2) A railway administration shall not make or give any undue or unreasonable preference or advantage to or in favour of any particular person or railway administration or any particular description of traffic in any respect whatsoever or subject any particular person or railway administration or any particular description of traffic to any undue or unreasonable prejudice or disadvantage in any respect whatsoever

(3) A railway administration having or working railways which form part of a continuous line of railway communication or having its terminus or station within one mile of the terminus or station of another railway administration shall afford all due and reasonable facilities for receiving and forwarding by one of such railways all the traffic arriving by the other at such terminus or station without any unreasonable delay and without any such preference or advantage or prejudice or disadvantage as aforesaid and so that no obstruction may be offered to the public desirous of using such railways as a continuous line of communication and so that all reasonable accommodation may by means of such railways be at all times afforded to the public in that behalf

## *The Indian Railways Act, 1890*

### *(Chapter V—Railway Commissions and Traffic Facilities—Sections 42-44)*

(4) The facilities to be afforded under this section shall include the due and reasonable receiving forwarding and delivering by every railway administration, at the request of any other railway administration of through traffic to and from the railway of any other railway administration at through rates

Provided as follows —

(*a*) the railway administration requiring the traffic to be forwarded shall give written notice of the proposed through rate to each forwarding railway administration stating both its amount and its apportionment and the route by which the traffic is proposed to be forwarded The proposed through rate for animals or goods may be per truck or per maund

(*b*) each forwarding railway administration shall, within the prescribed period after the receipt of such notice by written notice inform the railway administration requiring the traffic to be forwarded whether it agrees to the rate apportionment and route and if it has any objection, what the grounds of the objection are

(*c*) if at the expiration of the prescribed period no such objection has been sent by any forwarding railway administration the rate shall come into operation at the expiration of that period

(*d*) if an objection to the rate, apportionment or route has been sent within the prescribed period the Governor General in Council may, if he thinks fit on the request of any of the railway administrations refer the case to the Commissioners for their decision

(*e*) if the objection is to the granting of the rate or to the route the Commissioners shall consider whether the granting of the rate is a due and reasonable facility in the interests of the public, and whether regard being had to the circumstances the route proposed is a reasonable route and shall allow or refuse the rate accordingly or fix such other rate as may seem to the Commissioners to be just and reasonable

(*f*) if the objection is only to the apportionment of the rate and the case has been referred to the Commissioners, the rate shall come into operation at the expiration of the prescribed period but the decision of the Commissioners as to its apportionment shall be retrospective in the case of any other objection the operation of the rate shall be suspended until the Commissioners make their order in the case

(*g*) the Commissioners in apportioning the through rate shall take into consideration all the circumstances of the case including any special expense incurred in respect of the construction maintenance or working of the route or any part of the route as well as any special charges which any railway administration is entitled to make in respect thereof,

(*h*) the Commissioners shall not in any case compel any railway administration to accept lower mileage rates than the mileage rates which the administration may for the time being legally be charging for like traffic carried by a like mode of transit on any other line of communication between the same points being the points of departure and arrival of the through route

(*i*) subject to the foregoing provisions of this sub section the Commissioners shall have full power to decide that any proposed through rate is due and reasonable not withstanding that a less amount may be allotted to any forwarding railway administration out of the through rate than the maximum rate which the railway administration is entitled to charge and to allow and apportion the through rate accordingly

(*j*) the prescribed period mentioned in this sub section shall be one month or such longer period as the Governor General in Council may by general or special order prescribe

Undue preference in case of unequal rates for like traffic or services

43 (*1*) Whenever it is shown that a railway administration charges one trader or class of traders or the traders in any local area lower rates for the same or similar animals or goods or lower rates for the same or similar services than it charges to other traders or classes of traders or to the traders in another local area, the burden of proving that such lower charge does not amount to an undue preference shall lie on the railway administration

(*2*) In deciding whether a lower charge does or does not amount to an undue preference, the Commissioners may, so far as they think reasonable in addition to any other considerations affecting the case take into consideration whether such lower charge is necessary for the purpose of securing, in the interests of the public, the traffic in respect of which it is made

Provision for facilities and equal treatment where ships or boats are used which are not part of a railway

44 Where a railway administration is a party to an agreement for procuring the traffic of the railway to be carried on any inland water by any ferry, ship, boat or raft

*The Indian Railways Act, 1890*

*(Chapter V.—Railway Commissions and Traffic Facilities.—Sections 45-46. Chapter VI.—Working of Railways.—Sections 47-48.)*

which does not belong to or is not hired or worked by the railway administration the provisions of the two last foregoing sections applicable to a railway shall extend to the ferry, ship boat or raft in so far as it is used for the purposes of the traffic of the railway

45. A railway administration may charge reasonable terminals

Terminals

46. (1) The Governor General in Council may, if he thinks fit refer to the Commissioners for decision any question or dispute which may arise with respect to the terminals charged by a railway administration and the Commissioners may thereupon decide what is a reasonable sum to be paid to the railway administration in respect of terminals

Power of Railway Commission to fix terminals

(2) In deciding the question or dispute the Commissioners shall have regard only to the expenditure reasonably necessary to provide the accommodation in respect of which the terminals are charged irrespective of the outlay which may have been actually incurred by the railway administration in providing that accommodation

## CHAPTER VI

### WORKING OF RAILWAYS

*General*

47. (1) Every railway company and in the case of a railway administered by the Government an officer to be appointed by the Governor General in Council in this behalf shall make general rules consistent with this Act for the following purposes namely —

General rules

(a) for regulating the mode in which and the speed at which, rolling stock used on the railway is to be moved or propelled

(b) for providing for the accommodation and convenience of passengers and regulating the carriage of their luggage

(c) for declaring what shall be deemed to be for the purposes of this Act dangerous or offensive goods and for regulating the carriage of such goods

(d) for regulating the conditions on which the railway administration will carry passengers suffering from infectious or contagious disorders and providing for the disinfection of carriages which have been used by such passengers

(e) for regulating the conduct of the railway servants

(f) for regulating the terms and conditions on which the railway administration will warehouse or retain goods at any station on behalf of the consignee or owner, and

(g) generally for regulating the travelling upon and the use working and management of the railway

(2) The rules may provide that any person committing a breach of any of them shall be punished with fine which may extend to any sum not exceeding fifty rupees and that in the case of a rule made under clause (e) of sub section (1) the railway servant shall forfeit a sum not exceeding one month's pay which sum may be deducted by the railway administration from his pay

(3) A rule made under this section shall not take effect until it has received the sanction of the Governor General in Council and been published in the Gazette of India

Provided that where the rule is in the terms of a rule which has already been published at length in the Gazette of India a notification in that Gazette referring to the rule already published and announcing the adoption thereof shall be deemed a publication of a rule in the Gazette of India within the meaning of this sub section

(4) The Governor General in Council may cancel any rule made under this section and the authority required by sub-section (1) to make rules thereunder may at any time with the previous sanction of the Governor General in Council rescind or vary any such rule

(5) Every rule purporting to have been made for any railway under section 8 of the Indian Railway Act 1879 and appearing from the Gazette of India to be intended to apply to the railway at the commencement of this Act shall notwithstanding any irregularity in the making or publication of the rule be deemed to have been made and to have taken effect under this section

IV of 1879

(6) Every railway administration shall keep at each station on its railway a copy of the general rules for the time being in force under this section on the railway and shall allow any person to inspect it free of charge at all reasonable times

48. Where two or more railway administrations whose railways have a common terminus or a portion of the same line of rails in common or form separate portions of one continued line of railway communication are not able to agree upon arrangements for conducting at such common terminus or at the point of junction between them, their joint traffic with safety to the public the Governor General in Council upon the application of either or any of the administrations, may decide the matters in dispute between them, so far as those matters relate to the safety of the public and may determine whether the

Disposal of differences between railways regarding conduct of joint traffic

*The Indian Railways Act, 1890*

*(Chapter VI—Working of Railways—Sections 49 53)*

whole or what proportion of the expenses attending on such arrangements shall be borne by either or any of the administrations respectively

Agreements with the Governor General in Council for construction or lease of rolling stock

49 Any railway company, not being a company for which the Statute 42 and 43 Victoria, chapter 41 provides may from time to time make and carry into effect agreements with the Governor General in Council for the construction of rolling stock plant or machinery used on or in connection with railways or for leasing or taking on lease any rolling stock plant machinery or equipments required for use on a railway or for the maintenance of rolling stock

Powers of railway companies to enter into working agreements

50 Any railway company not being a company for which the Statute 42 and 43 Victoria chapter 41 provides may from time to time make with the Governor General in Council, and carry into effect or with the sanction of the Governor General in Council make with any other railway administration, and carry into effect any agreement with respect to any of the following purposes namely —

(*a*) the working use management and maintenance of any railway

(*b*) the supply of rolling stock and machinery necessary for any of the purposes mentioned in clause (*a*) and of officers and servants for the conduct of the traffic of the railway

(*c*) the payments to be made and the conditions to be performed with respect to such working use management and maintenance

(*d*) the interchange accommodation and conveyance of traffic being on coming from or intended for the respective railways of the contracting parties and the fixing, collecting, apportionment and appropriation of the revenues arising from that traffic

(*e*) generally the giving effect to any such provisions or stipulations with respect to any of the purposes hereinbefore in this section mentioned as the contracting parties may think fit and mutually agree on

Provided that the agreement shall not affect any of the rates which the railway administrations parties thereto are from time to time respectively authorised to demand and receive from any person and that every person shall, notwithstanding the agreement be entitled to the use and benefit of the railways of any railway administrations parties to the agreement on the same terms and conditions, and on payment of the same rates as he would be if the agreement had not been entered into

Establishment of ferries and roadways for accommodation of traffic

51 Any railway company, not being a company for which the Statute 42 and 43 Victoria chapter 41 provides, may from time to time exercise with the sanction of the Governor General in Council all or any of the following powers namely —

(*a*) it may establish for the accommodation of the traffic of its railway, any ferry equipped with machinery and plant of good quality and adequate in quantity to work the ferry

(*b*) it may work for purposes other than the accommodation of the traffic of the railway any ferry established by it under this section

(*c*) it may provide and maintain on any of its bridges roadways for foot passengers cattle carriages, carts or other traffic

(*d*) it may construct and maintain roads for the accommodation of traffic passing to or from its railway

(*e*) it may provide and maintain any means of transport which may be required for the reasonable convenience of passengers animals or goods carried or to be carried on its railway

(*f*) it may charge tolls on the traffic using such ferries roadways, roads or mean of transport as it may provide under thi section according to tariffs to be arrangec from time to time with the sanction o the Governor General in Council

Returns

52 Every railway administration shall, ir forms to be prescribed by the Governor General ir Council prepare half yearly or at such intervals as the Governor General in Council may prescribe such returns of its capital and revenue transactions and of its traffic as the Governo General in Council may require and shall forward a copy of such returns to the Governo General in Council at such times as he ma direct

*Carriage of Property*

Maximum load for wagons

53 (*1*) Every railway administration sha determine the maximur load for every wagon c truck in its possession, and shall exhibit th words or figures representing the load so dete mined in a conspicuous manner on the outsid of every such wagon or truck

(*2*) Every person owning a wagon or truc which passes over a railway shall similarly dete mine and exhibit the maximum load for th wagon or truck.

*The Indian Railways Act, 1890*
*(Chapter VI —Working of Railways —Sections 54 58)*

(3) The gross weight of any such wagon or truck bearing on the axles when the wagon or truck is loaded to such maximum load shall not exceed such limit as may be fixed by the Governor General in Council for the class of axle under the wagon or truck

Power for railway administrations to impose conditions for working traffic

54 (1) Subject to the control of the Governor General in Council, a railway administration may impose conditions not inconsistent with this Act or with any general rule thereunder with respect to the receiving forwarding or delivering of any animals or goods

(2) The railway administration shall keep at each station on its railway a copy of the conditions for the time being in force under sub section (1) at the station and shall allow any person to inspect it free of charge at all reasonable times

(3) A railway administration shall not be bound to carry any animal suffering from any infectious or contagious disorder

Lien for rates terminals and other charges

55 (1) If a person fails to pay on demand made by or on behalf of a railway administration any rate terminal or other charge due from him in respect of any animals or goods the railway administration may detain the whole or any of the animals or goods or if they have been removed from the railway any other animals or goods of such person then being in or thereafter coming into its possession

(2) When any animal or goods have been detained under sub section (1) the railway administration may sell by public auction in the case of perishable goods at once and in the case of other goods or of animals on the expiration of at least fifteen days notice of the intended auction published in one or more of the local newspapers or where there are no such newspapers in such manner as the Governor General in Council may prescribe sufficient of such animals or goods to produce a sum equal to the charge and all expenses of such detention notice and sale, including in the case of animals the expenses of the feeding watering and tending thereof

(3) Out of the proceeds of the sale the railway administration may retain a sum equal to the charge and the expenses aforesaid rendering the surplus if any of the proceeds and such of the animals or goods (if any) as remain unsold to the person entitled thereto

(4) If a person on whom a demand for any rate terminal or other charge due from him has been made fails to remove from the railway within a reasonable time any animals or goods which have been detained under sub section (1) or any animals or goods which have remained unsold after a sale under sub section (2) the railway administration may sell the whole of them and dispose of the proceeds of the sale as nearly as may be under the provisions of sub section (3)

(5) Notwithstanding anything in the fore going sub sections the railway administration may recover by suit any such rate terminal or other charge as aforesaid or balance thereof

Disposal of unclaimed things on a railway

56 (1) When any animals or goods have come into the possession of a railway administration for carriage or otherwise and are not claimed by the owner or other person appearing to the railway administration to be entitled thereto the railway administration shall if such owner or person is known cause a notice to be served upon him requiring him to remove the animals or goods

(2) If such owner or person is not known or the notice cannot be served upon him or he does not comply with the requisition in the notice the railway administration may within a reasonable time subject to the provisions of any other enactment for the time being in force sell the animals or goods as nearly as may be under the provisions of the last foregoing section rendering the surplus if any of the proceeds of the sale to any person entitled thereto

Power for railway administrations to require indemnity on delivery of goods in certain cases

57 Where any animals goods or sale proceeds in the possession of a railway administration are claimed by two or more persons or the ticket or receipt given for the animals or goods is not forthcoming the railway administration may withhold delivery of the animals goods or sale proceeds until the person entitled in its opinion to receive them has given an indemnity to the satisfaction of the railway administration against the claims of any other person with respect to the animals goods or sale proceeds

Requisitions for written account of description of goods

58 (1) The owner or person having charge of any goods which are brought upon a railway for the purpose of being carried thereon and the consignee of any goods which have been carried on a railway shall on the request of any railway servant appointed in this behalf by the railway administration deliver to such servant an account in writing signed by such owner or person or by such consignee, as the case may be and containing such a description of the goods as may be sufficient to determine the rate which the railway administration is entitled to charge in respect thereof

(2) If such owner person or consignee refuses or neglects to give such an account and refuses to open the parcel or package containing the goods in order that their description may be ascertained the railway administration may (a) in respect of goods which have been brought for the purpose of being carried on the railway, refuse to carry the goods unless in respect thereof a rate is paid not exceeding the

*The Indian Railways Act, 1890*

*(Chapter VI —Working of Railways —Sections 59-62)*

highest rate which may be in force at the time on the railway for any class of goods or, (*b*) in respect of goods which have been carried on the railway, charge a rate not exceeding such highest rate

(*3*) If an account delivered under sub section (*1*) is materially false with respect to the description of any goods to which it purports to relate, and which have been carried on the railway the railway administration may charge in respect of the carriage of the goods a rate not exceeding double the highest rate which may be in force at the time on the railway for any class of goods

(*4*) If any difference arises between a railway servant and the owner or person having charge or the consignee of any goods which have been brought to be carried or have been carried on a railway respecting the description of goods of which an account has been delivered under this section the railway servant may detain and examine the goods

(*5*) If it appears from the examination that the description of the goods is different from that stated in an account delivered under sub section (*1*) the person who delivered the account or if that person is not the owner of the goods then that person and the owner jointly and severally shall be liable to pay to the railway administration the cost of the detention and examination of the goods and the railway administration shall be exonerated from all responsibility for any loss which may have been caused by the detention or examination thereof

(*6*) If it appears that the description of the goods is not different from that stated in an account delivered under sub section (*1*) the railway administration shall pay the cost of the detention and examination and be responsible to the owner of the goods for any such loss as aforesaid

Dangerous or offensive goods

59 (*1*) No person shall be entitled to take with him or to require a railway administration to carry, any dangerous or offensive goods upon a railway

(*2*) No person shall take any such goods with him upon a railway without giving notice of their nature to the station master or other railway servant in charge of the place where he brings the goods upon the railway or shall tender or deliver any such goods for carriage upon a railway without distinctly marking their nature on the outside of the package containing them or otherwise giving notice in writing of their nature to the railway servant to whom he tenders or delivers them

(*3*) Any railway servant may refuse to receive such goods for carriage and, when such goods have been so received without such notice as is mentioned in sub section (*1*) having to his knowledge been given, may refuse to carry them or may stop their transit

(*4*) If any railway servant has reasor believe any such goods to be contained package with respect to the contents whe such notice as is mentioned in sub section has not to his knowledge been given, he cause the package to be opened for the purp of ascertaining its contents

(*5*) Nothing in this section shall be constr to derogate from the Indian Explosives A 1884, or any rule under that Act, and nothin sub sections (*1*), (*3*) and (*4*) shall be construec apply to any goods tendered or delivered carriage by order or on behalf of the Governm or to any goods which an officer soldier, sa or police officer or a person enrolled as a vol teer under the Indian Volunteers Act, 1869 r take with him upon a railway in the course his employment or duty as such

Exhibition to the public of authority for quoted rates

60 At every station at which a railway administration quotes a r to any other station the carriage of traffic ot than passengers and their luggage the railw servant appointed by the administration quote the rate shall at the request of any p son show to him at all reasonable times without payment of any fee, the rate books other documents in which the rate is authori by the administration or administrations c cerned

Requisitions on railway administrations for details of gross charges

61 (*1*) Where any charge is made by and p to a railway administrat in respect of the carriage goods over its railway administration shall on application of the per by whom or on whose behalf the charge has be paid render to the applicant an account show how much of the charge comes under each of t following heads namely —

(*a*) the carriage of the goods on the railw

(*b*) terminals

(*c*) demurrage and

(*d*) collection, delivery and other expense

but without particularising the several items which the charge under each head consists

(*2*) The application under sub section (*1*) mu be in writing and be made to the railway admin tration within one month after the date of t payment of the charge by or on behalf of t applicant and the account must be rendered the administration within two months after t receipt of the application

*Carriage of Passengers*

Communication between passengers and railway servants in charge of trains

62 The Governor General in Council may r quire any railway admini tration to provide and mai tain in proper order in ar train worked by it whic

## The Indian Railways Act, 1890
### (Chapter VI—Working of Railways—Sections 63 7 )

es passengers, such efficient means of com ication between the passengers and the rail servants in charge of the train as the Gov r General in Council has approved

Every railway administration shall fix sub ximum number of igers for each artment ject to the approval of the Governor General in Coun cil the maximum number assengers which may be carried in each partment of every description of carriage shall exhibit the number so fixed in a con ous manner inside or outside each compart in English or in one or more of the verna languages in common use in the territory rsed by the railway or both in English and e or more of such vernacular languages as Governor General in Council after consulta with the railway administration may deter

(1) On and after the first day of Janu rvat o of com nts for females ary 1891 every railway administration shall in every train carrying pas rs reserve for the exclusive use of females ompartment at least of the lowest class of ge forming part of the train

One such compartment so reserved shall train is to run for a distance exceeding miles, be provided with a closet

Every railway administration shall cause tim n of tim and tables f t staf rs to be posted in a conspicu ous and accessible place at every station on it railway nglish and in a vernacular language in ion use in the territory where the station iate a copy of the time tables for the time in force on the railway and lists of the chargeable for travelling from the station the lists are posted to every place for card tickets are ordinarily issued to pas rs at that station

*The Indian Railways Act, 1890*

*(Chapter VII —Responsibility of Railway Administrations as Carriers — Sections 72 77 )*

## CHAPTER VII

### RESPONSIBILITY OF RAILWAY ADMINISTRATIONS AS CARRIFRS

Measu e f the general responsibility of a railway admin strat on as a carrier of animals and goods

**72** (*1*) The responsibility of a railway administration for the loss destruction or deterioration of animals or goods delivered to the administration to be carried by railway shall subject to the other provisions of this Act be that of a bailee under sections 151 152 and 161 of the Indian Contract Act 1872

of 1872

(*2*) An agreement purporting to limit that responsibility shall in so far as it purports to effect such limitation be void unless it—

(*a*) is in writing signed by or on behalf of the person sending or delivering to the railway administration the animals or goods, and

(*b*) is otherwise in a form approved by the Governor General in Council

(*3*) Nothing in the common law of England or in the Carriers Act, 1865 regarding the responsibility of common carriers with respect to the carriage of animals or goods shall affect the responsibility as in this section defined of a railway administration

II of 1865.

Further provision with respect to the liability of a railway administration as a carrier of animals

**73** (*1*) The responsibility of a railway administration under the last foregoing section for the loss destruction or deterioration of animals delivered to the administration to be carried on a railway shall not in any case exceed, in the case of elephants or horses five hundred rupees a head or in the case of camels or horned cattle fifty rupees a head or in the case of sheep goats dogs or other animals ten rupees a head unless the person sending or delivering them to the administration caused them to be declared or declared them at the time of their delivery for carriage by railway to be respectively of higher value than five hundred, fifty or ten rupees a head as the case may be

(*2*) Where such higher value has been declared the railway administration may charge in respect of the increased risk a percentage upon the excess of th value so declared over the respective sums aforesaid

(*3*) In every proceeding against a railway administration for the recovery of compensation for the loss destruction or deterioration of any animal the burden of proving the value of the animal and where the animal has been injured the extent of the injury shall lie upon the person claiming the compensation

Further provision with respect to the liability of a railway administration as a carrier of luggage

**74** A railway administration shall not be responsible for the loss destruction or deterioration of any luggage belonging t or in charge of a passenge unless a railway servar has booked and given a receipt therefor

Further provision with respect to the liability of a railway administration as a carrier of articles of special value

**75** (*1*) When any articles mentioned in th second schedule are contained in any parcel package delivered to railway administration f carriage by railway, a the value of such artic in the parcel or package exceeds one hu dred rupees the railway administration sh not be responsible for the loss, destructi or deterioration of the parcel or packa unless the person sending or deliveri the parcel or package to the administrat caused its value and contents to be declared declared them at the time of the delivery of parcel or package for carriage by railway, a if so required by the administration paid or gaged to pay a percentage on the value so clared by way of compensation for increa risk

(*2*) When any parcel or package of which value has been declared under sub section has been lost or destroyed or has deteriora the compensation recoverable in respect of s loss, destruction or deterioration shall not ceed the value so declared and the burde proving the value so declared to have been true value shall notwithstanding anything the declaration lie on the person claiming compensation

(*3*) A railway administration may make condition of carrying a parcel declared to tain any article mentioned in the second sc ule that a railway servant authorised in behalf has been satisfied by examinatio otherwise that the parcel actually contain article declared to be therein

Burden of proof in suits in respect of loss of animals or goods

**76** In any suit against a railway admin tion for compensatio loss destruction or terioration of anima goods delivered to a way administration for carriage by railw shall not be necessary for the plaintiff to how the loss destruction or deterioratior caused

Notification of claims to refunds of overcharges and to compensation for losses

**77** A person shall not be entitled to a r of an overcharge in re of animals or goods c by railway or to co sation for the los truction or deterioration of animals or

*The Indian Railways Act, 1890*

*Chapter VII —Responsibility of Railway Administrations as Carriers —Sections 78-82 Chapter VIII —Accidents —Section 83)*

elivered to be so carried unless his claim to the refund or compensation has been preferred in writing by him or on his behalf to the railway dministration within six months from the date f the delivery of the animals or goods for carriage by railway

Exoneration from responsibility in case of goods falsely described

78 Notwithstanding anything in the foregoing provisions of this Chapter a railway administration shall not be responsible for the loss, destruction or deterioration of any goods with respect to the description of which an account materially false has been delivered under sub section (1) of section 58 if the loss destruction or deterioration is in any way brought about by the false account or in any case for an amount exceeding the value of the goods if such value were calculated in accordance with the description contained in the false account

Settlement of compensation for injuries to officers soldiers and followers on duty

79 Where an officer soldier or follower while being or travelling as such on duty upon a railway belonging to and worked by the Government loses his life or receives any personal injury in such circumstances that if he were not an officer soldier or follower being or travelling as such on duty upon the railway compensation would be payable under Act No XIII of 1855 or to him as the case may be, the form and amount of the compensation to be made in respect of the loss of his life or his injury shall where there is any provision in this behalf in the military regulations to which he was immediately before his death or is, subject be determined in accordance with those regulations and not otherwise

Suits for compensation for injury to through booked traffic

80 Notwithstanding anything in any agreement purporting to limit the liability of a railway administration with respect to traffic while on the railway of another administration a suit for compensation for loss of the life of, or personal injury to a passenger or for loss destruction or deterioration of animals or goods where the passenger was or the animals or goods were booked through over the railways of two or more railway administrations, may be brought either against the railway administration from which the passenger obtained his pass or purchased his ticket or to which the animals or goods were delivered by the consignor thereof as the case may be or against the railway administration on whose railway the loss injury, destruction or deterioration occurred

Limitation of liability of railway administration in respect of traffic on inland waters by vessel not being part of railway

81 Where a railway administration under contract to carry animals or goods by any inland water procures the same to be carried in a vessel which is not a railway as defined in this Act the responsibility of the railway administration for the loss destruction or deterioration of the animals or goods during their carriage in the vessel shall be the same as if the vessel were such a railway

Limitation of liability of railway administration in respect of accidents at sea

82 (1) When a railway administration contracts to carry passengers animals or goods partly by railway and partly by sea, a condition exempting the railway administration from responsibility for any loss of life personal injury or loss of or damage to animals or goods which may happen during the carriage by sea from the act of God the King s enemies, fire accidents from machinery, boilers and steam and all and every other dangers and accidents of the seas rivers and navigation of whatever nature and kind soever shall without being expressed be deemed to be part of the contract and subject to that condition the railway administration shall irrespective of the nationality or ownership of the ship used for the carriage by sea be responsible for any loss of life personal injury or loss of or damage to animals or goods which may happen during the carriage by sea to the extent to which it would be responsible under the Merchant Shipping Act, 1854 and the Merchant Shipping Act Amendment Act, 1862 if the ship were registered under the former of those Acts and the railway administration were owner of the ship and not to any greater extent

17 & 18 Vic c 104

25 & 26 V c 63

(2) The burden of proving that any such loss, injury or damage as is mentioned in sub section (1) happened during the carriage by sea shall lie on the railway administration

## CHAPTER VIII

### ACCIDENTS

Report of railway accidents

83 When any of the following accidents occurs in the course of working a railway namely —

(a) any accident attended with loss of human life or with grievous hurt as defined in the Indian Penal Code, or with serious injury to property

XLV of 1

108 If a passenger without reasonable and sufficient cause makes use of or interferes with any means provided by a railway administration for communication between passengers and the railway servants in charge of a train he shall be punished with fine which may extend to fifty rupees

Entering compartment reserved or already full or resisting entry into a compartment not full

109 (*1*) If a passenger having entered a compartment which is reserved by a railway administration for the use of another passenger or which already contains the maximum number of passengers exhibited th[erein] or thereon under section 63 refuses to lea[ve it] when required to do so by any railway ser[vant] he shall be punished with fine which may [ex]tend to twenty rupees

(*2*) If a passenger resists the lawful ent[ry of] another passenger into a compartment n[ot re]served by the railway administration for [the] use of the passenger resisting or not alr[eady] containing the maximum number of passe[ngers] exhibited therein or thereon under sectio[n 63] he shall be punished with fine which [may] extend to twenty rupees

Smoking

110 (*1*) If a person without the conse[nt of] his fellow passengers [if] any in the same com[part]ment smokes in any compartment except a [com]partment specially provided for the purpos[e he] shall be punished with fine which may ex[tend] to twenty rupees

(*2*) If any person persists in so smoking [after] being warned by any railway servant to d[esist] he may in addition to incurring the lia[bility] mentioned in sub section (*1*), be remove[d by] any railway servant from the carriage in w[hich] he is travelling

Defacing public notices

111 If a person without authority in [that] behalf pulls down or [wil]fully injures any boar[d or] document set up or posted by order of a [rail]way administration on a railway or any rol[ling] stock or obliterates or alters any of the le[tters] or figures upon any such board or docu[ment] he shall be punished with fine which may ex[tend] to fifty rupees

Fraudulently travelling or attempting to travel without proper pass or ticket

112 If a person [with] intent to defraud a rai[lway] administration,—

(*a*) enters in contravention of section 68 [a] carriage on a railway or

(*b*) uses or attempts to use a single pas[s or] single ticket which has already [been] used on a previous journey or in [the] case of a return ticket, a half th[ereof] which has already been so used

he shall be punished with fine which ma[y ex]tend to one hundred rupees in addition to [the] amount of the single fare for any dist[ance] which he may have travelled

Travelling without pass or ticket or with insufficient pass or ticket or beyond authorised distance

113 (*1*) If a passenger travels in a train [with]out having a proper pa[ss or] a proper ticket with hi[m or] being in or having alig[hted] from a train fails or re[fuses] to present for examin[ation] or to deliver up his pass or ticket immediate[ly on] requisition being made therefor under se[ction] 69 he shall be liable to pay, on the demar[nd of] any railway servant appointed by the rai[lway]

*The Indian Railways Aot, 1890*

*(Chapter IX —Penalties and Offences —Section 113-118)*

administration in this behalf the excess charge hereinafter in this section mentioned in addition to the ordinary single fare for the distance which he has travelled or where there is any doubt as to the station from which he started the ordinary single fare from the station from which the train originally started or if the tickets of passengers travelling in the train have been examined since the original starting of the train the ordinary single fare from the place where the tickets were examined or, in case of their having been examined more than once were last examined

(2) If a passenger travels or attempts to travel in or on a carriage, or by a train of a higher class than that for which he has obtained a pass or purchased a ticket or travels in or on a carriage beyond the place authorised by his pass or ticket, he shall be liable to pay on the demand of any railway servant appointed by the railway administration in this behalf, the excess charge hereinafter in this section mentioned, in addition to any difference between any fare paid by him and the fare payable in respect of such journey as he has made

(3) The excess charge referred to in sub section (1) and sub section (2) shall —

(a) where the passenger has immediately after incurring the charge and before being detected by a railway servant notified to the railway servant on duty with the train the fact of the charge having been incurred be one rupee, two annas or eight annas and

(b) in any other case be six rupees one rupee or three rupees

according as the passenger is travelling or has travelled or has attempted to travel in a carriage of the highest class or in a carriage of the lowest class or in a carriage of any other class or kind

Provided that such excess charge shall in no case exceed —

(a) where the liability to pay it arises under sub section (1) the amount of the ordinary single fare which the passenger incurring the charge is liable to pay under that sub section or

(b) where such liability arises under sub section (2) the amount of the difference between the fare paid by the passenger incurring the charge and the fare payable in respect of such journey as he has made

(4) If a passenger liable to pay the excess charge and fare mentioned in sub section (1) or the excess charge and any difference of fare mentioned in sub section (2) fails or refuses to pay the same on demand being made therefor under one or other of those sub sections as the case may be, the sum payable by him shall, on application made to any Magistrate by any railway servant appointed by the railway administration in this behalf be recovered by the Magistrate from the passenger as if it were a fine imposed on the passenger by the Magistrate and shall as it is recovered, be paid to the railway administration

*Transferring return half of return ticket*

114 If a person sells or attempts to sell or parts or attempts to part with the possession of the return half of a return ticket in order to enable any other person to travel therewith or purchases such half of a return ticket he shall be punished with fine which may extend to fifty rupees, and, if the purchaser of such half of a return ticket travels or attempts to travel therewith he shall be punished with an additional fine which may extend to the amount of the single fare for the return journey authorised by the ticket

*Disposal of fines under the two last foregoing sections*

115 That portion of any fine imposed under section 112 or the last foregoing section which represents the single fare therein mentioned shall as the fine is recovered be paid to the railway administration before any portion of the fine is credited to the Government

*Altering or defacing pass or ticket*

116 If a passenger wilfully alters or defaces his pass or ticket so as to render the date number or any material portion thereof illegible he shall be punished with fine which may extend to fifty rupees

*Being or suffering person to travel on railway with infectious or contagious disorder*

117 (1) If a person suffering from an infectious or contagious disorder enters or travels upon a railway in contravention of section 71 sub section (2) he and any person having charge of him upon the railway when he so entered or travelled thereon shall be punished with fine which may extend to twenty rupees in addition to the forfeiture of any fare which either of them may have paid, and of any pass or ticket which either of them may have obtained or purchased and may be removed from the railway by any railway servant

(2) If any such railway servant as is referred to in section 71 sub section (2) knowing that a person is suffering from any infectious or contagious disorder, wilfully permits the person to travel upon a railway without arranging for his separation from other passengers he shall be punished with fine which may extend to one hundred rupees

*Entering carriage in motion or otherwise improperly travelling on a railway*

118 (1) If a passenger enters or leaves or attempts to enter or leave any carriage while the train is in motion or elsewhere than at the side of the carriage adjoining the platform or other place ap

pointed by the railway administration for passengers to enter or leave the carriage, or opens the side door of any carriage while the train is in motion, he shall be punished with fine which may extend to twenty rupees.

(2) If a passenger, after being warned by a railway servant to desist, persists in travelling on the roof, steps or footboard of any carriage or on an engine, or in any other part of a train not intended for the use of passengers he shall be punished with fine which may extend to fifty rupees and may be removed from the railway by any railway servant

Entering carriage or other place reserved for females

119 If a male person knowing a carriage compartment room or other place to be reserved by a railway administration for the exclusive use of females enters the place without lawful excuse or, having entered it remains therein after having been desired by any railway servant to leave it he shall be punished with fine which may extend to one hundred rupees in addition to the forfeiture of any fare which he may have paid and of any pass or ticket which he may have obtained or purchased, and may be removed from the railway by any railway servant

Drunkenness or nuisance on a railway

120 If a person in any railway carriage or upon any part of a railway—

(a) is in a state of intoxication or

(b) commits any nuisance or act of indecency, or uses obscene or abusive language, or

(c) wilfully and without lawful excuse interferes with the comfort of any passenger or extinguishes any lamp

he shall be punished with fine which may extend to fifty rupees in addition to the forfeiture of any fare which he may have paid and of any pass or ticket which he may have obtained or purchased and may be removed from the railway by any railway servant

Obstructing railway servant in his duty

121 If a person wilfully obstructs or impedes any railway servant in the discharge of his duty, he shall be punished with fine which may extend to one hundred rupees

Trespass and refusal to desist from trespass

122 (1) If a person unlawfully enters upon a railway he shall be punished with fine which may extend to twenty rupees

(2) If a person so entering refuses to leave the railway on being requested to do so by any railway servant or by any other person on behalf of the railway administration he shall be punished with fine which may extend to fifty rupees and may be removed from the railway by such servant or other person

Disobedience of omnibus drivers to directions of railway servants.

123. If a driver or conductor of a tramcar, omnibus, carriage or other vehicle while upon the premises of a railway disobeys the reasonable directions of any railway servant or police officer, he shall be punished with fine which may extend to twenty rupees

Opening or not properly shutting gates

124 In either of the following cases, namely —

(a) if a person, knowing or having reason to believe that an engine or train is approaching along a railway, opens any gate set up on either side of the railway across a road or passes or attempts to pass or drives or takes or attempts to drive or take any animal, vehicle or other thing across the railway,

(b) if, in the absence of a gatekeeper a person omits to shut and fasten such a gate as aforesaid as soon as he and any animal vehicle or other thing under his charge have passed through the gate,

the person shall be punished with fine which may extend to fifty rupees

Cattle trespass

125 (1) The owner or person in charge of any cattle straying on a railway provided with fences suitable for the exclusion of cattle shall be punished with fine which may extend to five rupees for each head of cattle in addition to any amount which may have been recovered or may be recoverable under the Cattle trespass Act 1871

(2) If any cattle are wilfully driven or knowingly permitted to be on any railway otherwise than for the purpose of lawfully crossing the railway or for any other lawful purpose, the person in charge of the cattle or at the option of the railway administration the owner of the cattle shall be punished with fine which may extend to ten rupees for each head of cattle, in addition to any amount which may have been recovered or may be recoverable under the Cattle trespass Act, 1871

(3) Any fine imposed under this section may, if the Court so directs, be recovered in manner provided by section 25 of the Cattle trespass Act, 1871

(4) The expression "public road" in sections 11 and 26 of the Cattle trespass Act 1871, shall be deemed to include a railway and any railway servant may exercise the powers conferred on officers of police by the former of those sections

(5) The word "cattle" has the same meaning in this section as in the Cattle trespass Act, 1871

## The Indian Railways Act, 1890

### (Chapter IX—Penalties and Offences—Sections 126-132.)

Maliciously wrecking or attempting to wreck train

126. If a person unlawfully—

(a) puts or throws upon or across any railway any wood, stone or other matter or thing, or

(b) takes up, removes, loosens or displaces any rail, sleeper or other matter or thing belonging to any railway, or

(c) turns, moves unlocks or diverts any points or other machinery belonging to any railway or

(d) makes or shows, or hides or removes, any signal or light upon or near to any railway, or

(e) does or causes to be done or attempts to do any other act or thing in relation to any railway

with intent or with knowledge that he is likely, to endanger the safety of any person travelling or being upon the railway he shall be punished with transportation for life or with imprisonment for a term which may extend to ten years

Maliciously hurting or attempting to hurt persons travelling by railway

127 If a person unlawfully throws or causes to fall or strike at, against, into or upon any rolling stock forming part of a train any wood stone or other matter or thing with intent or with knowledge that he is likely to endanger the safety of any person being in or upon such rolling stock or in or upon any other rolling stock forming part of the same train, he shall be punished with transportation for life or with imprisonment for a term which may extend to ten years

Endangering safety of persons travelling by railway by wilful act or omission

128 If a person by any unlawful act or by any wilful omission or neglect endangers or causes to be endangered the safety of any person travelling or being upon any railway or obstructs or causes to be obstructed or attempts to obstruct any rolling stock upon any railway, he shall be punished with imprisonment for a term which may extend to two years

Endangering safety of persons travelling by railway by rash or negligent act or omission

129 If a person rashly or negligently does any act, or omits to do what he is legally bound to do and the act or omission is likely to endanger the safety of any person travelling or being upon a railway he shall be punished with imprisonment for a term which may extend to one year, or with fine, or with both

Special provision with respect to the commission by children of acts endangering safety of persons travelling by railway

130 (1) If a minor under the age of twelve years is with respect to any railway guilty of any of the acts or omissions mentioned or referred to in any of the four last foregoing sections, he shall be deemed, notwithstanding anything in section 82 or section 83 of the Indian Penal Code, to have committed an offence, and the Court convicting him may if it thinks fit, direct that the minor, if a male, shall be punished with whipping, or may require the father or guardian of the minor to execute, within such time as the Court may fix, a bond binding himself, in such penalty as the Court directs to prevent the minor from being again guilty of any of those acts or omissions

XLV of 1860.

(2) The amount of the bond, if forfeited, shall be recoverable by the Court as if it were a fine imposed by itself

(3) If a father or guardian fails to execute a bond under sub section (1) within the time fixed by the Court, he shall be punished with fine which may extend to fifty rupees

*Procedure*

Arrest for offences against certain sections

131 (1) If a person commits any offence mentioned in section 100, 101, 119, 120 121 126 127, 128 or 129 or in section 130, sub section (1) he may be arrested without warrant or other written authority by any railway servant or police officer, or by any other person whom such servant or officer may call to his aid

(2) A person so arrested shall, with the least possible delay, be taken before a Magistrate having authority to try him or commit him for trial

Arrest of persons likely to abscond or unknown

132 (1) If a person commits any offence under this Act other than an offence mentioned in the last foregoing section, or fails or refuses to pay any excess charge or other sum demanded under section 113, and there is reason to believe that he will abscond, or his name and address are unknown and he refuses on demand to give his name and address or there is reason to believe that the name or address given by him is incorrect, any railway servant or police officer, or any other person whom such railway servant or police-officer may call to his aid may, without warrant or other written authority, arrest him

(2) The person arrested shall be released on his giving bail or if his true name and address are ascertained on his executing a bond without sureties, for his appearance before a Magistrate when required

(3) If the person cannot give bail and his true name and address are not ascertained, he shall with the least possible delay be taken before the nearest Magistrate having jurisdiction

(4) The provisions of Chapters XXXIX and XLII of the Code of Criminal Procedure, 1882, shall, so far as may be, apply to bail given and bonds executed under this section

X of 1882.

*The Indian Railways Act, 1890*

*(Chapter IX —Penalties and Offences —Sections 133-134 Chapter X —Supplemental Provisions —Sections 135 138)*

133 No Magistrate other than a Presidency Magistrate or than a Magistrate whose powers are not less than those of a Magistrate of the second class shall try any offence under this Act

Magistrates having jurisdiction under Act.

134 (1) Any person committing any offence against this Act or any rule thereunder shall be triable for such offence in any place in which he may be or which the Local Government may notify in this behalf as well as in any other place in which he might be tried under any law for the time being in force

Place of trial

(2) Every notification under sub section (1) shall be published in the local official Gazette and a copy thereof shall be exhibited for the information of the public in some conspicuous place at each of such railway stations as the Local Government may direct

## CHAPTER X

### SUPPLEMENTAL PROVISIONS

135. Notwithstanding anything to the contrary in any enactment or in any agreement or award based on any enactment, the following rules shall regulate the levy of taxes in respect of railways and from railway administrations in aid of the funds of local authorities, namely —

Taxation of railways by local authorities

(1) A railway administration shall not be liable to pay any tax in aid of the funds of any local authority unless the Governor General in Council has by notification in the official Gazette declared the railway administration to be liable to pay the tax

(2) While a notification of the Governor General in Council under clause (1) of this section is in force, the railway administration shall be liable to pay to the local authority either the tax mentioned in the notification or, in lieu thereof, such sum if any as an officer appointed in this behalf by the Governor General in Council may, having regard to all the circumstances of the case from time to time determine to be fair and reasonable

(3) The Governor General in Council may at any time revoke or vary a notification under clause (1) of this section

(4) Nothing in this section is to be construed as debarring any railway administration from entering into a contract with any local authority for the supply of water or light or for the scavenging of railway premises, or for any other service which the local authority may be rendering or be prepared to render within any part of the local area under its control

(5) 'Local authority" in this section means local authority as defined in the General Clause Act 1887, and includes any authority legal entitled to or entrusted with the control c management of any fund for the maintenanc of watchmen or for the conservancy of a river

(2) In the definition of legal remuneration in section 161 of that Code the word 'Goverr ment shall for the purposes of sub section (1), b deemed to include any employer of a railwa servant as such

(3) A railway servant shall not—

(a) purchase or bid for either in person or b agent in his own name or in that c another or jointly or in shares wit others any property put up to auctio under section 55 or section 56, or

(b) in contravention of any direction of th railway administration in this behal engage in trade

(4) Notwithstanding anything in section 2 of the Indian Penal Code a railway servant sha not be deemed to be a public servant for any c the purposes of that Code except those mentionec in sub section (1)

138 If a railway servant is discharged or sus pended from his office, o dies absconds or absent himself and he or his wif or widow, or any of hi family or representatives refuses or neglects, after notice in writing for that purpose to deliver up to the railwa administration or to a person appointed b the railway administration in this behalf, an station dwelling house, office or other building with its appurtenances, or any books papers o other matters, belonging to the railway adminis tration and in the possession or custody of suck

Procedure for summary delivery to railway administration of property detained by a railway servant

*The Indian Railways Act, 1890*

*(Chapter X—Supplemental Provisions—Sections 139-145)*

railway servant at the occurrence of any such event as aforesaid, any Magistrate of the first class may, on application made by or on behalf of the railway administration, order any police officer with proper assistance to enter upon the building and remove any person found therein and take possession thereof or to take possession of the books, papers or other matters and to deliver the same to the railway administration or a person appointed by the railway administration in that behalf

Mode of signifying communications from the Governor General in Council

139 Any notice, determination, direction, requisition, appointment expression of opinion approval or sanction to be given or signified on the part of the Governor General in Council, for any of the purposes of, or in relation to, this Act or any of the powers or provisions therein contained, shall be sufficient and binding if in writing signed by a Secretary Deputy Secretary, Under-Secretary or Assistant Secretary to the Government of India, or by any other officer or servant authorised to act on behalf of the Governor General in Council in respect of the matters to which the same may relate and the Governor General in Council shall not in any case be bound in respect of any of the matters aforesaid unless by some writing signed in manner aforesaid

Service of notices on railway administrations

140 Any notice or other document required or authorised by this Act to be served on a railway administration may be served, in the case of a railway administered by the Government or a Native State on the Manager and, in the case of a railway administered by a railway company on the Agent in India of the railway company—

(*a*) by delivering the notice or other document to the Manager or Agent or

(*b*) by leaving it at his office or

(*c*) by forwarding it by post in a prepaid letter addressed to the Manager or Agent at his office and registered under Part III of the Indian Post Office Act, 1866

Service of notices by railway administrations.

141 Any notice or other document required or authorized by this Act to be served on any person by a railway administration may be served—

(*a*) by delivering it to the person, or

(*b*) by leaving it at the usual or last known place of abode of the person or

(*c*) by forwarding it by post in a prepaid letter addressed to the person at his usual or last known place of abode and registered under Part III of the Indian Post Office Act 1866

Presumption where notice is served by post

142 Where a notice or other document is served by post, it shall be deemed to have been served at the time when the letter containing it would be delivered in the ordinary course of post and in proving such service it shall be sufficient to prove that the letter containing the notice or other document was properly addressed and registered

Provisions with respect to rules

143 (*1*) A rule under section 22, section 34 or section 84 or the cancellation, rescission or variation of a rule under any of those sections or under section 47, sub section (*4*) shall not take effect until it has been published in the Gazette of India

(*2*) Where any rule made under this Act or the cancellation, rescission or variation of any such rule is required by this Act to be published in the Gazette of India it shall besides being so published, be further notified to persons affected thereby in such manner as the Governor General in Council by general or special order, directs

(*3*) The Governor General in Council may cancel or vary any rule made by him under this Act,

Delegation of powers of Governor General in Council

144. (*1*) The Governor General in Council may, by notification in the Gazette of India, invest, absolutely or subject to conditions, any Local Government with any of the powers or functions of the Governor General in Council under this Act with respect to any railway, and may, by that or a like notification, declare what Local Government shall for the purposes of the exercise of powers or functions so conferred be deemed to be the Local Government in respect of the railway

(*2*) The provisions of section 139 with respect to proceedings of the Governor General in Council shall, so far as they can be made applicable apply to proceedings of a Local Government exercising the powers or discharging the functions of the Governor General in Council in pursuance of a notification under sub section (*1*)

Representation of Managers and Agents of Railways in Courts

145. (*1*) The Manager of a railway administered by the Government or a Native State, and the Agent in India of a railway administered by a railway company may, by instrument in writing, authorise any railway servant or other person to act for or represent him in any proceeding before any Civil, Criminal or other Court

(*2*) A perso authorised by a Manager or Agent to conduct prosecutions on behalf of a

*The Indian Railways Act, 1890*

*(Chapter X.—Supplemental Provisions.—Sections 146-150.)*

*(The First Schedule.—Enactments repealed. The Second Schedule.—Articles to be declared and insured.)*

railway administration shall, notwithstanding anything in section 495 of the Code of Criminal Procedure, 1882, be entitled to conduct such prosecutions without the permission of the Magistrate.

Power to extend Act to steam tramways.

**146.** The Governor General in Council may, by notification in the Gazette of India, extend this Act or any portion thereof to any tramway worked by steam or other mechanical power.

Power to exempt railways from Act.

**147.** The Governor General in Council may, by a like notification, exempt any railway from any of the provisions of this Act.

Matters supplemental to the definitions of railway and railway servant.

**148.** (*1*) For the purposes of section 3, clauses (*5*), (*6*) and (*7*), and sections 4 to 19 (both inclusive), 47 to 52 (both inclusive), 59, 79, 83 to 92 (both inclusive), 96, 97, 98, 100, 101, 103, 104, 107, 111, 122, 124 to 132 (both inclusive), 134 to 138 (both inclusive), 140, 141, 144, 145 and 147, the word "railway," whether it occur alone or as a prefix to another word, has reference to a railway or portion of a railway under construction and to a railway or portion of a railway not used for the public carriage of passengers, animals or goods, as well as to a railway falling within the definition of that word in section 3, clause (*4*).

(*2*) For the purposes of sections 5, 21, 83, 100, 101, 103, 104, 121, 122, 125 and 137, sub-sections (*1*), (*2*) and (*4*), and section 138, the expression "railway servant" includes a person employed upon a railway in connection with the service thereof by a person fulfilling a contract with the railway administration.

50

Amendment of the Indian Penal Code.

**149.** In sections 194 and 195 of the Indian Penal Code, for the words "by this Code or the law of England" the words "by the law of British India or England" shall be substituted.

Amendment of the Sindh Pishin Railway Act, 1887.

**150.** For that portion of the preamble to the Sindh Pishin Railway Act, 1887, which begins with the words "so far as it applies" and ends with the words "in its entirety," the words "should apply in its entirety to that part of the Sindh Pishin section of the North Western Railway which lies beyond the Province of Sindh" shall be substituted.

Penalty for not delivering books or not supplying printer with maps

'16 If any printer of any such book as is referred to in section 9 of this Act shall neglect to deliver copies of the same pursuant to that section he shall for every such default forfeit to the Government such sum not exceeding fifty rupees as a Magistrate having jurisdiction in the place where the book was printed may on the application of the officer to whom the copies should have been delivered or of any person authorised by that officer in this behalf, determine to be in the circumstances a reasonable penalty for the default and in addition to such sum such further sum as the Magistrate may determine to be the value of the copies which the printer ought to have delivered

"If any publisher or other person employing any such printer shall neglect to supply him, in the manner prescribed in the second paragraph of section 9 of this Act with the maps prints or engravings which may be necessary to enable him to comply with the provisions of that section such publisher or other person shall for every such default forfeit to the Government such sum not exceeding fifty rupees as such a Magistrate as aforesaid may, on such an application as aforesaid determine to be in the circumstances a reasonable penalty for the default, and, in addition to such sum such further sum as the Magistrate may determine to be the value of the maps prints or engravings which such publisher or other person ought to have supplied

Recovery of forfeitures and disposal thereof and of fines

17 Any sum forfeited to the Government under the last foregoing section may be recovered, under the warrant of the Magistrate determining the sum or of his successor in office, in the manner authorised by the Code of Criminal Procedure for the time being in force and within the period prescribed by the Indian Penal Code for the levy of a fine

X of ... XLV

'All fines or forfeitures under this Part of this Act shall when recovered be disposed of as the Local Government shall from time to time direct

Amendment of section 18 Act XXV 1867

6 In section 18 of the said Act there shall be substituted for the words and figure 'pursuant to section 9 the words letter and figure pursuant to clause (a) of the first paragraph of section 9, and for the words copies thereof in manner aforesaid the words, letter and figure ' copy thereof pursuant to clause (a) of the first paragraph of section 9

Repeal of section 22 Act XXV 1867

7 Section 22 of the said Act is hereby repealed

S HARVEY JAMES

*Secretary to the Government of India*

GOVERNMENT OF INDIA

## LEGISLATIVE DEPARTMENT

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 21st March 1890 and is hereby promulgated for general information —

## ACT No XI OF 1890

*An Act for the Prevention of Cruelty to Animals*

WHEREAS it is expedient to make further provision for the prevention of cruelty to animals It is hereby enacted as follows —

*Title extent and commencement and repeal of other enactments*

1 (*1*) This Act may be called the Prevention of Cruelty to Animals Act 1890

(*2*) This section extends to the whole of British India and the Local Government may by notification in the official Gazette extend on and from a date to be specified in the notification the whole or any part of the rest of this Act to any such local area as it thinks fit

(*3*) When any part of this Act has been extended under sub section (2) to a local area the Local Government may by notification in the official Gazette direct that the whole or any part of any other enactment in force in the local area for the prevention of cruelty to animals shall except as regards anything done or any offence committed or any fine or penalty incurred or any proceedings commenced cease to have effect in the local area and such whole or part shall cease to have effect accordingly until the Local Government by a like notification otherwise directs

(*4*) The Local Government may cancel or vary a notification under sub section (*2*) or sub section (*3*)

*Definitions*

2 In this Act unless there is something repugnant in the subject or context —

(*1*) animal means any domestic or captured animal and

(*2*) "street includes any way road lane, square court, alley, passage or open space, whether a thoroughfare or not, to which the public have access

*Penalty for cruelty to animals in public places and for sale of animals killed with unnecessary cruelty*

3 If any person in any street or in any other place whether open or closed to which the public have access or within sight of any person in any street or in any such other place,—

(*a*) cruelly and unnecessarily beats over drives overloads or otherwise ill treats any animal or

(*b*) binds or carries any animal in such a manner or position as to subject the animal to unnecessary pain or suffering or

(*c*) offers exposes or has in his possession for sale any live animal which is suffering pain by reason of mutilation starvation or other ill treatment or any dead animal which he has reason to believe to have been killed in an unnecessarily cruel manner

he shall be punished with fine which may extend to one hundred rupees or with imprisonment for a term which may extend to three months or with both

*Penalty for practising phuka*

4 If any person performs upon any cow the operation called phuká he shall be punished with fine which may extend to one hundred rupees or with imprisonment which may extend to three months or with both

*Penalty for killing animals in unnecessarily cruel manner*

5 If any person kills any animal in an unnecessarily cruel manner, he shall be punished with fine which may extend to two hundred rupees or with imprisonment for a term which may extend to six months or with both

*Penalty for employing animals unfit for labour*

6 (*1*) If any person employs in any work or labour any animal which by reason of any disease infirmity wound sore or other cause is unfit to be so employed or permits any such unfit animal in his possession or under his control to be so employed he shall be punished with fine which may extend to one hundred rupees

(*2*) The Local Government may by general or special order appoint places to be infirmaries for the treatment and care of animals in respect of which offences against sub section (*1*) have been committed

(*3*) The Magistrate before whom a prosecution for such an offence has been instituted may direct that the animal in respect of which the

offence is alleged or proved to have been committed shall be sent for treatment and care to an infirmary and be there detained until it is in his opinion, or in the opinion of some other Magistrate, again fit for the work or labour on which it has been ordinarily employed

(4) The cost of the treatment feeding and watering of the animal in the infirmary shall be payable by the owner of the animal according to such scale of rates as the District Magistrate or in the case of an infirmary in a Presidency town the Commissioner of Police may from time to time prescribe

(5) If the owner refuses or neglects to pay such cost and to remove the animal within such time as a Magistrate may prescribe the Magistrate may direct that the animal be sold and that the proceeds of the sale be applied to the payment of such cost

(6) The surplus if any, of the proceeds of the sale shall on application made by the owner within two months after the date of the sale be paid to him but the owner shall not be liable to make any payment in excess of the proceeds of the sale

Penalty for permitting diseased animals to go at large or to die in public places

7 If any person wilfully permits any animal of which he is the owner to go at large in any street while the animal is affected with contagious or infectious disease or without reasonable excuse permits any diseased or disabled animal of which he is the owner to die in any street he shall be punished with fine which may extend to one hundred rupees

Search warrants

8 (1) If a Magistrate of the first class Subdivisional Magistrate Commissioner of Police or District Superintendent of Police upon information in writing and after such inquiry as he thinks necessary, has reason to believe that an offence against section 4, section 5 or section 6 is being or is about to be or has been committed in any place he may either himself enter and search or by his warrant authorise any police officer above the rank of a constable to enter and search the place

(2) The provisions of the Code of Criminal Procedure 1882 relating to searches under that Code shall, so far as those provisions can be made applicable apply to a search under subsection (1)

X of

Limitation for prosecutions

9 A prosecution for an offence against this Act shall not be instituted after the expiration of three months from the date of the commission of the offence

Destruction of suffering animals

10 When any Magistrate Commissioner of Police or District Superintendent of Police has reason to believe that an offence against this Act has been committed in respect of any animal, he may direct the immediate destruction of the animal if in his opinion its sufferings are such as to render such a direction proper

Saving with respect to religious rites and usages

11 Nothing in this Act shall render it an offence to kill any animal in a manner required by the religion or religious rites and usages of any race sect, tribe or class

Provision supplementary to section 1 with respect to extent of Act

12 Notwithstanding anything in section 1 sections 9 10 and 11 shall extend to every local area in which any section of this Act constituting an offence is for the time being in force

S HARVEY JAMES,

*Secretary to the Government of India*

### ACT NO XII OF 1890

*An Act to amend the Indian Tariff Act 1882*

WHEREAS it is expedient to amend the Indian Tariff Act 1882 It is hereby enacted as follows —

Amendment of Second Schedule Act XI 1882

1 In No 2 of the Second Schedule to the Indian Tariff Act 1882 as amended by Act II of 1887 (*an Act to amend the Sea Customs Act, 1878 the Excise Act 1881 and the Indian Tariff Act 1882*)—

(*a*) ' R6 shall be substituted for ' R5 in the fifth column as the rate of duty to be levied and collected per Imperial Gallon or six quart bottles of Liqueurs and

(*b*) for the following namely —

| No | Names of Articles | Per | Tariff Valuation | Rate of Duty |
|---|---|---|---|---|
| * | * | * | * | * |
| | Spirit when so used n a proportion of twenty per cent and upwards | Imperial Gallon or six quart bottles of the strength of London proof | | R5 and the duty to be increased or reduced in proportion as the strength exceeds or is less than London proof |
| | Spirit perfumed in wood or in bottles | Imperial Gallon or six quart bottles | | R7 8 |
| | Spirit other sorts | Imperial Gallon or six quart bottles of the strength of London proof | | R5 and the duty to be increased or reduced in proportion as the strength of the spirit exceeds or is less than London proof |

there shall be substituted the following namely —

| No | Names of Articles | Per | Tariff Valuation | Rate of Duty |
|---|---|---|---|---|
| * | * | * | * | * |
| | Spirit when so used in a proportion of twenty per cent and upwards | Imperial Gallon or six quart bottles of the strength of London proof | | R6 and the duty to be increased or reduced in proportion as the strength of the spirit exceeds or is less than London proof |
| | Spirit perfumed in wood or in bottles | Imperial Gallon or six quart bottles | | R8 |
| | Spirit other sorts | Imperial Gallon or six quart bottles of the strength of London proof | | R6 and the duty to be increased or reduced in proportion as the strength of the spirit exceeds or is less than London proof |

S HARVEY JAMES

*Secretary to the Government of India*

IV G

## STATEMENT OF OBJECTS AND REASONS

THE present rate of duty on imported spirit is R5 a gallon of the strength of London proof It is proposed in the present Bill to raise the rate of duty to R6 a gallon In some Provinces the rates of duty on country spirit have been raised so high that, if any further increase is made, such spirit will be unfairly handicapped in comparison with imported spirit paying a duty of R5 a gallon It is the policy of the Government of India to impose as high a duty on country spirit as it will bear and it has therefore become necessary to raise the duty on imported spirit, in order to permit of the duty being raised on country spirit It is also considered desirable to discourage the import of cheap and deleterious European spirit, while imported spirit of a better class can, it is believed, bear a higher rate of duty without rendering the price of it prohibitive to the classes which use it

It is necessary to raise the rate of duty on perfumed spirit from R7 8 a gallon to R8 when the duty on ordinary spirit is raised as above proposed

It is estimated that the proposed increase of duty will add nine lakhs of rupees yearly to the public revenue

D BARBOUR

*The 21st March, 1890*

S HARVEY JAMES,
*Secretary to the Government of India*

SUPPLEMENT TO

# The Gazette of India.

No 12 } CALCUTTA SATURDAY MARCH 22 1890

## OFFICIAL PAPERS

*A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time containing such Official Papers and information as the Government of India may deem it beneficial to the Public and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.*

*Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.*

*No Official Orders or Notifications the publication of which in the GAZETTE OF INDIA is required by Law or which it has been customary to publish in the CALCUTTA GAZETTE will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.*

# FINANCIAL STATEMENT for 1890-91

## PART I

## IMPERIAL REVENUE AND EXPENDITURE

### Preliminary

THE Financial Statement for the coming year has been divided into two Parts Part I deals with the financial position of the Government of India and takes into account only the Imperial Revenue and Expenditure as distinguished from that which is Provincial or Local, Part II contains an explanation of the Indian Budget as a whole This change has been made with the object of presenting an outline of the financial position which will be sufficient for the ordinary reader Such an outline will be found in Part I Those who desire fuller information will find it in the second Part of the Statement

### Section I —Accounts of 1888-89

2 Since the last Financial Statement was made the Accounts of the year 1888 89 have been finally closed They show a surplus of Rx 37,000

The Budget Estimate of that year, framed in March 1888 showed a deficit of Rx 698 000 The Revised Estimate of the year, framed in March 1889 showed a reduced deficit of Rx 201,700, the Accounts, as I have just said, show that the year has closed with a surplus of Rx 37,000

The improvement in the financial position during 1888 89 is satisfactory but the important question of to day is the position of the finances during the current and the coming year

### Section II —Financial position of 1889-90 and 1890-91

3 The Estimate of the current year, as framed in March last, showed a surplus of Rx 106 300

The Revised Estimate if compiled in the same way as the Budget Estimate would now show a surplus of Rx 2 733 200 and the Estimate of the coming year would show a surplus of Rx 304 900 Certain special arrangements are proposed which will affect the surplus of 1889 90 and of 1890 91, but it will be convenient to keep these arrangements out of sight until it has been explained how it happens that the Budget surplus of the current year has grown into Rx 2 733 200, while the Estimate of the year 1890 91, if compiled on the same basis, would show a surplus of only Rx 304 900 Indian finance is subject from year to year to disturbing causes which have a serious temporary effect and for this reason a surplus in any year can no more be said to prove that the finances are in a sound state, than a deficit in a single year can be held to prove that their condition is unsound It is important that it should be clearly understood whether the high or low surplus, or it may be deficit of any year is due to permanent or temporary causes, and I shall endeavour to explain to what extent the improvement in the financial position is due to lasting influences and to what extent it is only temporary

4 In the first place I propose to offer a few remarks on the subject of Exchange, so as to clear that question out of the way at the beginning I have seen it stated that the improvement in the current year is largely or mainly due to the rise in the rate of Exchange This is not the case The rate of Exchange taken in the Budget Estimate was 1s 4 38*d* = one rupee Although

the rate of Exchange is now considerably higher than that rate, it was lower during a large portion of the year, and the average rate of Exchange for the whole year 1889 90 is now taken at only 1*s* 4 552*d* per rupee The rise is therefore only slightly greater than one sixth of a penny per rupee The rate of Exchange affects so many of our transactions that it would be a difficult and tedious task to calculate precisely the amount of improvement which a rise of one sixth of a penny per rupee has produced For present purposes it will be sufficient to put the improvement at Rx 200,000 in round numbers In the explanation I am about to give I shall distribute this improvement of Rx 200,000 among the several heads affected

5 Although the improvement in the position has not been mainly due to the rise in Exchange, the cessation of the long continued fall in the gold value of the rupee has been a most welcome relief to the finances From 1873 to 1890 there have only been two other years (1879-80 and 1883 84) in which the actual rate of Exchange exceeded or was equal to the rate taken in the Budget, and the average yearly fall from 1873 74 to 1889 90 has been 36 of a penny per rupee or more than twice the rise in the current year

Although the cessation of the hitherto continuous fall in the value of the rupee measured in gold has greatly improved the financial position for the time being, the uncertainty as to the future relations of the precious metals constitutes a very serious danger and one which it would be worth our while to make great sacrifices to escape The future of the Currency question appears to rest at the present time in the hands of the United States of America

6 The chief improvement in the current year appears under the head of Opium There is an increase of Rx 286 400 in Opium Revenue, there is a decrease of Rx 708 800 in Opium Expenditure The total improvement under Opium is consequently Rx 995,200 In the Budget Estimate the price of Bengal Opium was taken at R1 070 a chest It has proved to be R1,136, this accounts for the improvement in Opium Revenue, an improvement which I regret to say is not likely to be maintained during the coming year as the price of Bengal opium at this month s sale was only R1,040 a chest, though the market price has since risen

The decrease in Expenditure is due to a poor crop of Bengal opium The total crop of Bengal opium is purchased by Government at a fixed price per seer A good crop means heavy expenditure in the purchase of opium a poor crop means a saving in expenditure The quantity of opium produced in any season does not immediately affect the quantity of opium which is sold is some time elapses before the new crop comes into the market and Government maintains a reserve with the object of equalizing the quantity sold from year to year As it happens, the bad crop of the year has not done us material injury, because the reserve of opium was very high and is still sufficient The improvement under Opium in the current year must be considered as merely temporary In a series of years we shall no doubt get average crops, and the present selling price of opium is much below the average price of the year about to close

7 In addition to the improvement under Opium, there has been, during the current year, a very satisfactory increase of revenue under what is known as the other Principal Heads of Revenue, which include Land Revenue, Salt, Excise Stamps, Provincial Rates, Customs Assessed Taxes, Forests, Registration and Tributes from Native States This increase is partly Imperial, partly Provincial, partly Local

The large improvement in Revenue which is shown under the Principal Heads of Civil Revenue (excluding Opium) is of a permanent nature, or in other words we can safely reckon on obtaining the same increase in future years If there is any falling off under some heads it will be balanced by increase under other heads This improvement amounts to Rx 766,500 on Imperial account and

is mainly due to an increase of Rx 298,400 under Land Revenue, of Rx 149,600 under Salt, of Rx 79,100 under Excise, of Rx 31,500 under Stamps, of Rx 69,600 under Customs, and of Rx 112,700 under Forests

The improvement under Opium and the growth of Revenue under the other Principal Heads accounts in all for an improvement of Rx 1,761,700 in 1889 90, of which more than 40 per cent is a permanent increase of the public revenue, the rest being temporary

8 On Special Defences, there has been a reduction of expenditure amounting to Rx 344,500 which merely represents postponement of charges which will be incurred hereafter, and under Interest not charged against Railways and Canals there has been a net improvement of Rx 230,900 The improvement in the net Interest charge is due to the high rate of interest obtained by the Secretary of State on that portion of his cash balance which he was able to invest to the saving from the issue of a loan of 2 crores very nearly at par last year as compared with the estimated charge for the issue of a loan of 2½ crores at a discount to the rise in Exchange, and to other causes

There has also been a net improvement of Rx 118 600 under Army, notwithstanding the expenditure on the Chin Lushai Expedition, and of Rx 73,900 in the Railway Account Under all other heads there is a net improvement of Rx 97,300 The total net improvement of the year is Rx 2 626 900

9 The explanation of the large surplus in 1889 90 may then be briefly stated as follows in the current year Opium has given a net improvement of Rx 995 200, other Principal Heads of Revenue have given an improvement of Rx 766,500, Special Defences show a reduction of expenditure amounting to Rx 344,500, Interest gives an improvement of Rx 230 900 All other heads give a further net improvement of Rx 289,800 The total net improvement of the year is Rx 2,626,900, and adding the Budget surplus of Rx 106,300, the surplus with which the year is expected to close is estimated at Rx 2,733 200 Of this net improvement of Rx 2 626,900, about Rx 200,000 has been caused by the rise in Exchange, which has favourably affected Revenue and Expenditure under various heads As the Accounts almost invariably show a better result than the Revised Estimate, I have little doubt that this surplus will be found to have been exceeded when the accounts of the year are finally closed

10 We are now in a position to explain in a few words why the surplus of 1890 91 is so small as compared with that of 1889 90 In the first place we lose the temporary increase from Opium to which I have just referred, the loss on this account is actually Rx 992,400, in the next place, we receive in 1889 90 a special contribution from Local Governments of Rx 490 000, there is no such contribution in 1890 91 in the third place the Budget Estimate of net Military Expenditure in 1890 91 shows an increase over the Revised Estimate of no less than Rx 611,000 On these three accounts—Opium, Contribution from Local Governments, and Military Expenditure—the financial position of 1890 91 is worse than that of 1889 90 by no less than Rx 2 093,400 Adding to this a net falling off under Interest of Rx 113,400 and an increase of expenditure amounting to Rx 133,900 under Special Defences, we get a falling off of Rx 2,340,700 The surplus of 1889-90 being Rx 2,733 200 this deterioration of Rx 2,340,700 would of itself be sufficient to cause the large surplus of 1889-90 to be replaced by a surplus of Rx 392,500 It so happens that under all other heads there is a net deterioration of Rx 87,600, which reduces the surplus to Rx 304,900

11 Although the net deterioration under the heads to which I have just referred is only Rx 87,600 there are considerable fluctuations under particular heads Thus the increase of Revenue under Principal Heads, excluding Opium is no less than Rx 171,500, of which nearly Rx 100,000 is due to the raising of the duty on imported spirit and the imposition of a duty on beer brewed in India There is also a moderate increase of net revenue from Railways and Irrigation

while there is an increase in expenditure of Rx 85,000 on account of the coming Census, and a reduction in Miscellaneous receipts of Rx 53,500

12 The increased expenditure on the Army in 1890 91 is due to the purchase of Magazine rifles and ammunition for them, to the cost of 21 more batteries of 12 pr breech loading guns, to the purchase of machinery for making ammunition for the guns in India, and to the provision of Rx 200,000 for the Chin Lushai expedition and of Rx 60 000 to complete the arrangements for prompt mobilisation of the 1st Army Corps The total cost on the accounts I have stated is no less than Rx 1 361,300

13 Summing up the whole case and putting aside all matters of minor importance it may be said that in 1889 90 we have a large surplus owing to a temporary improvement under Opium, to a general growth of revenue which will be maintained and will affect future years to short expenditure on Special Defences and in connection with the Army, to reduction in the Interest charge, to improvements in the Railway Revenue Account and to a rise in the rate of Exchange In 1890 91 we have only a moderate surplus, because we lose the temporary improvement under Opium, because we no longer receive the special contribution of Rx 490 000 from Local Governments, because there are special demands in connection with the equipment of the Army, and because there is an increase in the net Interest charge, as well as an increase in the expenditure on Special Defences

## Section III —Proposals in connection with the Grant for Famine Relief and Insurance

14 It will be seen from what I have just said that the estimates for next year would have shown a very considerable surplus but for the heavy and special demands that have fallen on them in connection with the Army These special demands come to no less than Rx 1,361,300, exclusive of a provision of Rx 892 300 on account of Special Defences It is reasonably certain that there will be special demands of a somewhat similar nature in 1891 92 but it is not probable that they will be so heavy as in the coming year Nor are the finances of 1891 92 exposed to any special dangers so far as can now be seen other than those vicissitudes which must always attend Indian finance On the other hand we may look forward during 1890 91 to the normal growth of revenue There are, therefore, strong grounds for holding that in 1891 92 we shall at least find ourselves in a position of comparative ease, with a surplus in hand, moderate in amount, but sufficient to allow of some improvement in financial conditions

15 In view of this comparatively favourable prospect the Government of India has decided to anticipate the future to some extent and to take immediate steps for the partial restoration of the Famine Grant This can be done by measures which I shall now explain, but in the first place I propose to refer briefly to the nature of the Famine Grant and its history

The policy of strengthening the finances in connection with Famine was originally adopted in order to protect the country against the financial effects of Famine It was calculated that Famine would cost, either directly in expenditure intended to relieve distress, or indirectly through loss of revenue, no less than Rx 15 000 000 every ten years, and it was therefore decided that in ordinary years the Government should take measures for providing a surplus of Rx 1 500 000 This surplus would be used either to reduce debt directly by buying up and cancelling public obligations, or to indirectly reduce debt by diminishing borrowing

16 It has been sometimes assumed that the object of this policy was the provision of funds for the actual relief in time of famine of persons who were in distress, and it was argued that when the money so provided was no longer

available, the people could not be relieved in case of famine, and must perish This was not the case Whether a surplus exists or not the Government recognises its obligations in case of famine, and the actual amount of cash in the treasury is regulated from time to time by considerations which are quite independent of the absorption or maintenance of the Famine Grant The objects which the Famine Grant is intended to secure are purely financial So long as it is maintained we have in ordinary years a surplus of Rx 1,500,000 and this surplus of Rx 1,500,000 in ordinary years will, it may reasonably be hoped, balance the deficits which must occur from time to time in a country of which the financial conditions are so uncertain The policy of maintaining a surplus in ordinary years was devised with special reference to the injurious effect on the finances which is produced by famine, but in practice it is an insurance against temporary financial disaster of any kind because to strengthen the finances by creating a surplus has precisely the same effect whatever may be the object of those who take measures to strengthen them In any case the finances are strengthened and are able to better meet any special demands on them

17 The misapprehension as to the nature and effects of the Famine Grant seems to have arisen, to some extent from the manner in which the policy was carried out in years subsequent to its first adoption The Famine surplus was intended, in the first instance, to operate in the direction of reducing debt At a subsequent period it was decided to use one half of it for the construction of Railways and Canals which would protect the country from famine I think this was, under the circumstances of the case, a wise and prudent measure but it was a slight departure from the objects of the original policy These were, as I have said purely financial In so far as the Protective Canals and Railways constructed from the Famine Grant returned a fair profit, or lessened the cost of relieving famine, in so far the original purpose of strengthening the finances was maintained In so far as they failed to return this profit the original purpose was departed from On the other hand it was an important consideration that the construction of these Railways and Canals might have the effect of mitigating famine to the extent of preserving human life, which would otherwise have been lost

18 The Government of India was willing in past years to go further in the direction of using the Famine Grant for the construction of Protective Works than was actually done, and would have appropriated it to meet any loss that might arise on Protective Railways constructed by means of borrowed money in 1886 the Secretary of State did actually agree that the interest charge on the Indian Midland and the Bengal Nagpur Railways should be a charge against the Famine Grant These Railways were held to be of importance for the protection of the country against famine, and it was only on the understanding I have stated that their construction was sanctioned The decision of the Secretary of State is contained in a Despatch which is published as an Appendix to this Statement This matter has somewhat fallen out of sight in recent years, because shortly after the decision of the Secretary of State was given the financial difficulties of the Government became so great that the Famine Grant was practically abolished for the time and there was no special reason for calling attention to the fact that a portion of it went to meet the loss on the Indian Midland and Bengal Nagpur Railways

19 The Government of India and the Secretary of State have, however, always attached importance to the maintenance of the Grant for Famine Relief and Insurance If the Indian finances show bare equilibrium in normal years the deficits of bad years can only be met by borrowing such borrowing must in time lead to a large growth of debt incurred for non productive purposes

The provision of what is really a yearly surplus of Rx 1,500,000 is the most effective means of preventing the growth of debt of this character

20 The manner in which it is proposed to partially restore the Famine Grant at once will now be explained

We receive this year a special contribution of Rx 490 000 from Local Governments This transaction is carried out by debiting the amount to the balances of Local Governments and crediting it to the Government of India It is practically the same thing to all parties whether the transaction is carried out this month or next month The credit is therefore postponed till next month, and the effect on the finances is to diminish our surplus of this year by Rx 490 000 and to increase that of next year by an equal amount

After this change is made there will be a surplus of Rx 2 243,200 in 1889 90 and of Rx 794 900 in 1890 91 In both these years a certain amount of expenditure s already shown under the Grant for Famine Relief and Insurance, partly on account of the construction of Protective Canals and partly for relief of distress Of the surplus of 1889 90, a sum of Rx 433,500 will be utilised to raise the total Famine Grant to Rx 600,000, of the surplus of 1890 91, a sum of Rx 524 500 will be utilised to raise the Famine Grant of that year to a like amount The surplus of the Revised Estimate will then stand at Rx 1,809,700 and the surplus of the Budget Estimate of 1890 91 will be Rx 270 400

The amount provided to meet the net charge on account of the Indian Midland Railway and the Bengal Nagpur Railway is Rx 458,100 in 1889 90, and Rx 432 800 in 1890 91

The final result then of the policy which the Government of India has decided to adopt is that in the current year we have provided in all Rx 1 058,100 (Rx 600,000 *plus* Rx 458 100) on accoun of the Famine Grant, that in the coming year we have provided Rx 1 032 800 (Rx 600,000 *plus* Rx 432,800), on the same account, and that we have nevertheless a surplus of Rx 1 809,700 in 1889 90 and of Rx 270 400 in 1890 91 these surpluses are available for the reduction of borrowing and will in practice be used for that purpose

The sums provided under the Grant for Famine Relief and Insurance *plus* the sums that go to meet the net charge on the Indian Midland and Bengal Nagpur Railways, together with the surpluses of the current and coming years, amount to Rx 4,171,000 in the aggregate, so that, practically, the Famine Grant has been more than restored for the years 1889 90 and 1890 91, as we have in the two years a sum of Rx 4 171,0 00 available for the purposes for which the policy of the yearly grant of Rx 1,500,000 for Famine Relief and Insurance was adopted

## Section IV —Practical Results of the Policy now adopted

21 The general effect on our borrowing of the surpluses of 1889 90 and 1890 91 which amount to Rx 2,080,100 and of the sums now set aside for Reduction of Debt, amounting to Rx 958,000, making Rx 3,038,100 in all, is shown by the following facts

The Government of India has arranged to spend in 1890 91 the sum of Rx 3,750 000 on the construction of Railways and Canals, not chargeable against Revenue

Under ordinary circumstances we must have borrowed largely in the open market on this account As our balances now stand we expect to be able to find this sum of Rx 3,750,000 in addition to Rx 907,000, on account of loans to be made by Government for local purposes, without raising a loan this year This result is mainly due to the existence of the sum of Rx 3,038,100 to which I have just referred, which enables us to avoid borrowing a like amount and in this way effects a permanent saving of about Rx 120,000 yearly in interest To this extent the finances of the country have been strengthened

22 A further advantage of the improvement that has occurred in the financial position is that it is unnecessary at the present time to revise the financial relations between the Imperial Government and the Provincial Governments The present contracts can be left to run their course, and the relations between the Local and Imperial Governments can be settled in 1892 and included in the contracts that will then be made

## Section V —Financial Prospects in the Future

23 In the Statement of last year I made the following remarks on the financial position of the Government of India "My deliberate conclusion is, that while there is every need for economy and for husbanding our revenue, there is no ground for despondent or pessimist views Unless some unforeseen disaster occurs, there is every reason to hope that the lapse of two or three years will show a decided improvement in the financial position of the Government of India It is true that the surplus which we have been able to show in the Estimates is only Rx 106 300, but the Estimates have been framed with great moderation, and if the Indian revenues continue to exhibit their usual elasticity and no unforeseen disaster occurs, I anticipate that the Financial Statement of 1890 91 will show decided improvement" These remarks were not universally accepted those who had previously taken a pessimist view of Indian finance were not prepared to admit that there were signs of improvement The progress made in the current year, however, confirms the soundness of the opinion I expressed in March last Only twelve months have elapsed since I ventured to make that prophecy, and the signs of improvement are unmistakable

In 1889-90 and 1890 91 we have partially restored the grant for Famine Relief and Insurance, we have a large surplus in 1889 90, and a moderate surplus in 1890 91 after making provision for altogether special demands for the equipment of the Army Although the coming year is unlikely to prove so prosperous from a financial point of view as 1889 90, I look forward, in the absence of unforeseen disaster, to still further improvement in 1891 92

24 But my remarks regarding the signs of improvement in the finances had another effect which I did not anticipate at the time It was assumed in some quarters that I was of opinion that the financial position was in all respects thoroughly satisfactory, and that the Government of India might at once with safety enter upon schemes which their promoters held would have the best effects on the country, but which certainly involved very heavy expenditure at the outset Nothing was further from my intention than to convey any such impression, or to give the slightest encouragement to those who wish to mortgage the future of our finances for the sake of entering upon hazardous speculations

I said last year that there were signs of improvement I say now that my forecast has been borne out by the facts of the year about to close, and that there are good grounds for expecting further improvement in the coming year, but I fully recognise that we have difficulties of no slight magnitude still to meet, thatt he finances are exposed to many dangers, and that unforeseen disaster might for a time upset our calculations There is every need for caution and for economy, and I should greatly regret if anything I now say or have said in the past, conveyed the impression that the Government of India is in a position to embark on a policy of adventure of any description

# PART II.

## IMPERIAL, PROVINCIAL, AND LOCAL FINANCE

### Section I —Accounts of 1888 89

In the Revised Estimates of 1888 89 prepared in March last the Revenue of that year was taken at Rx 81,585 500 and the Expenditure, including outlay on Special Defence Works at Rx 81,787,200, the net result being an anticipated deficit of Rx 201 700

As the accounts were compiled, it was seen that the year would close with a small surplus, and this fact was brought to notice in the Financial Statement presented to Parliament by the Under Secretary of State for India

2 The actual figures of the accounts for 1888 89 as now finally closed, are—Revenue Rx 81,696,678 and Expenditure Rx 81,659,660, showing a surplus of Rx 37,016 The following statement compares the Actuals for 1888 89 with the Revised Estimate, and complete details will be found in the Appropriation Audit Report published in the *Gazette of India* of 8th March 1890

| | | 1888 89 | | Accounts Better | Accounts Worse |
|---|---|---|---|---|---|
| | | Revised Estimate | Accounts | | |
| **Revenue** | | | | | |
| India (Imperial Provincial and Local) | Rx | 81 1[illegible] 1[illegible]0 | 81 [illegible]12 210 | 106 110 | |
| England | £ | 27 2[illegible]0 | 33[illegible] 631 | 3 431 | |
| Exchange | Rx | 152 2[illegible]0 | 153 837 | 1 637 | |
| Total | Rx | 81 585 500 | 81 69[illegible] 678 | 111 1[illegible]8 | |
| **Expenditure** | | | | | |
| India— | | | | | |
| Imperial | Rx | 3[illegible] 6[illegible]1 100 | 37 556 716 | 94 384 | |
| Provincial and Local | Rx | 21 [illegible]9[illegible] [illegible]00 | 21 863 169 | 34 131 | |
| Adjustment of Provincial and Local Surplus | Rx | + 203 100 | +285 118 | | 82 018 |
| England | £ | 15 [illegible]1 500 | 14 9 3 221 | 58 27[illegible] | |
| Exchange | Rx | 6 [illegible]94 200 | 6 971 436 | 22 764 | |
| Total | Rx | 81 78[illegible] 200 | 81 659 660 | 127 540 | |
| Deficit | Rx | 201 700 | | 238 [illegible]18 | |
| Surplus | Rx | | 37 018 | | |

It will be seen from the figures in this statement that, compared with the estimate framed in March 1889, there was an improvement in the Total Revenue in India (Imperial, Provincial, and Local) of Rx 106,110 and a saving in the Total Expenditure in India of Rx 128,515 The sum of these two amounts, less the increase of Rx 82,018 in the Provincial adjustment, or Rx 152,607, represents the net Imperial improvement in the Indian portion of the accounts of 1888 89, excluding Exchange, adding to this figure the net improvement in England and also the improvement in Exchange, we get a total improvement of Rx 238,718, which accounts for the difference between the deficit of Rx 201,700 expected in the Revised Estimate and the surplus of Rx 37,018 with which the accounts of the year have closed It may be mentioned that the increase in the Provincial adjustment means that the surplus of Provincial and Local Revenue over Provincial and Local Expenditure was more by Rx 82,018 than was anticipated when the Revised Estimate was prepared

3 The increases of Revenue result chiefly from improved receipts aggregating Rx 234 700 under State Railways, Irrigation, and Army, counterbalanced by a falling off in Land Revenue of Rx 185,896 due to scanty harvests in some provinces and to suspensions Of the saving of Rx 94,384 in Imperial Expenditure, Rx 50,528 occurred under Opium and Rx 27,409 under Army There was an excess of Rx 45 440 under Guaranteed Railways, chiefly due to a change in the date of payment of surplus profits which brought into the accounts of the year expenditure which under the previous practice, would have fallen into the following year The reduction in Provincial and Local Expenditure occurred principally under Land Revenue Police, and Education, and the gain in the English Account was chiefly due to reduced expenditure under Army and Special Defence Works

4 The difficulties which stand in the way of preparing in March an accurate Estimate of the Revenue and Expenditure of the year which is about to close have been explained more than once but I do not think that attention has been specially called to the remarkable fact that the Actuals almost invariably show better results than the Revised Estimate

In every year since, and including, 1882 83 the Accounts have shown an improvement over the Revised Estimates For 1882 83 the improvement was Rx 646,800 for 1883 84 it was Rx 1,116,100, for 1884 85 it was Rx 566,500, for 1885 86 it was Rx 89,100 for 1886 87 it was Rx 177 900 for 1887 88 it was Rx 987,900 for 1888 89, as I have just explained, it was Rx 238 700

The explanation is simple The latest figures of receipts and disbursements under the different heads can always be obtained from the Treasuries Under certain heads the Treasury receipts and issues correspond closely with the Revenue and Expenditure and if we know the Receipts and Issues to the end of February or even of January, and the head be one under which transactions occur with regularity throughout the year, we have no difficulty in calculating with great precision the probable Revenue and Expenditure of the remaining portion of the year

But in other cases transactions do not proceed with the same regularity throughout the year, and the receipts and issues of the Treasuries afford a very imperfect guide Such heads are Land Revenue Public Works of all kinds and the expenditure under the head of Army For Public Works and Army the receipts and issues at the Treasuries are only an imperfect guide to the Revenue and Expenditure

In the case of the important heads I have just mentioned, as well as of others we have to depend on the judgment of local officers, and, on the whole, the forecasts of these officers are marked by caution No officer apparently will estimate for more revenue than he feels sure he will obtain and every officer puts down the very maximum of expenditure which he may possibly incur The inevitable result is that in nine cases out of ten the total Revenue of the year exceeds, and the total Expenditure of the year falls short of the amounts that have been entered in the Revised Estimate

5 There was also a saving in expenditure not charged against Revenue The Capital Expenditure on Railways was Rx 1,178 111 and on Productive Irrigation Works Rx 459,890 against Rx 1,364 800 and Rx 493 000 provided in the Revised Estimate, the saving being Rx 186 689 and Rx 33,110 respectively The former was chiefly due to reduced expenditure in England on stores for Railways These reductions do not, of course, affect the surplus of the year 1888 89, which as stated before, was Rx 37 018, after including in the expenditure the sum of Rx 789,595, spent on Special Defence Works

## Section II.—Revised Estimates of 1889-90 and Budget Estimates of 1890-91

6 The Budget Estimate of Revenue for the current year was Rx 82,935,300, and of Expenditure Rx 83 469,800 Of the latter, Rx 640,800 was chargeable to accumulated Provincial and Local balances, and not against the revenue of the year The expenditure chargeable against revenue was therefore Rx 82,829,000, and the resulting surplus was estimated at Rx 106,300

The surplus is now expected to be Rx 1,809,700, and the following table shows how much of it is due to increase of Revenue and how much to decrease of Expenditure —

| | Budget Estimate | Revised Estimate | Revised Estimate + Better —Worse than Budget |
|---|---|---|---|
| | Rx | Rx | Rx |
| Revenue | 82 935 300 | 84,636,300 | + 1,701 000 |
| Expenditure | 83 469 800 | 82,474 100 | + 995,700 |
| Provincial deficit | —640 800 | + 352 500 | —993 300 |

7 The improvement of Rx 1,701,000 in Revenue occurs mainly under *Land Revenue Opium, Salt, Stamps, Excise, Provincial Rates, Customs, Assessed Taxes, Forest Interest Miscellaneous, State Railways,* and *Irrigation*, while there is a considerable falling off in receipts from *Exchange*, and a heavy one under *Guaranteed Railways*, owing to the great and sudden diminution of traffic on the Great Indian Peninsula Line The contribution of Rx 490,000 from Provincial to Imperial revenues, for which credit was taken in the Budget Estimate of 1889-90, has also been transferred for reasons explained in Part I to the Estimates of 1890 91 It will be understood that this transaction has no effect on the total revenue of the year what is lost by the Imperial Government being gained by the Local Governments The main increases and decreases in Revenue are as follows —

| Better than Estimate | Rx | Worse than Estimate | Rx |
|---|---|---|---|
| Land Revenue | 425 600 | Exchange | 73,900 |
| Opium | 286 400 | Guaranteed Railways | 460 000 |
| Salt | 162,600 | | |
| Stamps | 101,000 | | |
| Excise | 110,100 | | |
| Provincial Rates | 87 800 | | |
| Customs | 68 900 | | |
| Assessed Taxes | 51 800 | | |
| Forests | 176 800 | | |
| Interest | 133 500 | | |
| Miscellaneous | 98 400 | | |
| State Railways | 256,800 | | |
| Irrigation | 96,000 | | |

8 The decrease in expenditure is mainly due to the rise in the rate of *Exchange*, and to less expenditure under *Opium production and manufacture, Interest, Police Education, Working Expenses of State Railways, Surplus profits of Guaranteed Railways*, and *Defence works* The chief increases of expenditure occur under *Marine, Famine Relief and Insurance, Miscellaneous, Railway Expenditure*, and *Irrigation* The meaning of the large excess under

*Famine Relief and Insurance* is that the improvement in the financial position as enabled the Government to take measures for gradually restoring the *Famine Insurance* Grant, which has been in abeyance since 1885 86

The Budget Estimate of net expenditure in England was £14,956,100, and he Exchange on it, Rx 6 954,500, the Revised Estimate of that expenditure is £14,751 200, and the Exchange on it, Rx 6,638 000 In the Budget the rate of Exchange was taken at 1s 4 38*d* = R1, in the Revised it is taken at s 4 552*d* = R1 (R145 = £10)

The following table shows the principal variations from the Estimate of Expenditure —

| Better than Estimate | Rx | Estimate | Rx |
|---|---|---|---|
| Opium | 708 800 | Marine | 92 600 |
| Interest | 96 300 | Famine Relief and Insurance | 507 000 |
| Police | 58 800 | Miscellaneous Railway Expenditure | 72 700 |
| Education | 51 000 | Irrigation | 94 600 |
| State Railways—Working Expenses | 78,400 | | |
| Surplus profits of Guaranteed Companies | 182 100 | | |
| Defence works | 344 500 | | |

| | Rx |
|---|---|
| Provincial deficit less (owing partly to postponement to 1890-91 of special contribution of Rx 490,000 made by Local Governments) | 993 300 |

9 The Budget Estimate of 1890 91 is framed for, Revenue Rx 84 932,100 and Expenditure 85 419,400, of which Rx 757,700 is chargeable against Provincial and Local balances The expenditure chargeable to Revenue is therefore Rx 84,661,700 and the estimated surplus is Rx 270,400

The following table compares the Revenue and Expenditure as estimated at an interval of a year —

| | Budget Estimate 1889 90 | Budget Estimate 1890 91 | Budget 1890 91 + better —worse than Budget 1889-90 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Revenue | 82 935 300 | 84 932,100 | + 1 996,800 |
| Expenditure | 83 469 800 | 85 419 400 | —1 949 600 |
| Provincial deficit | —640,800 | —757 700 | + 116 900 |
| Surplus | + 106 300 | + 270 400 | + 164 100 |

10 As explained last year, the extension of railways and the changes in their status involve considerable additions annually to both Revenue and Expenditure In 1889-90 the gross transactions of the Oudh and Rohilkhand Railway came on both sides of the Estimates, whereas, while it was a Guaranteed line, only the net earnings were shown as Revenue and the interest charged as Expenditure In 1890 91 a re-arrangement of the same nature is necessary, as from the 31st December 1890 it is expected that the South Indian Railway will become a State line In 1890 91 Railway Revenue is estimated higher by Rx 464,900 than it was a year ago and Railway Expenditure Rx 304,800 higher The transfer of the Provincial contribution mentioned above adds Rx 490,000 to the Imperial Revenue of the year, though, as explained above, it does not mean that the total revenues are increased by that amount The further improve

ment in Revenue occurs mainly under *Land Revenue*, *Salt*, *Stamps*, *Excise*, *Provincial Rates*, *Customs*, *Forests*, *Interest*, and *Irrigation*, while lower receipts than those estimated a year ago are expected under *Opium*, *Exchange*, and *Guaranteed Railways* The following statement indicates generally in what respect the position has changed in the course of twelve months —

| Better than Budget Estimate of 1889-90 | Rx | Worse than Budget Estimate of 1889-90 | Rx |
|---|---|---|---|
| Land Revenue | 482,700 | Opium | 56 700 |
| Salt | 203 600 | Exchange | 83 800 |
| Stamps | 75,400 | Guaranteed Railways | 218 000 |
| Excise | 117 200 | | |
| Provincial Rates | 91 400 | | |
| Customs | 142 700 | | |
| Forest | 144 800 | | |
| Interest | 55 700 | | |
| State Railways | 673 800 | | |
| Irrigation | 145,700 | | |

11 The very large increase in the Estimates of Expenditure is mainly the result of the following variations —

| Less than Budget Estimate of 1889 90 | Rx | More than Budget Estimate of 1889-90 | Rx |
|---|---|---|---|
| Opium | 59 500 | Land Revenue collection | 84,300 |
| Interest | 62 300 | Minor Departments (chiefly Census) | 79 400 |
| Guaranteed Railways, surplus profits | 81 000 | Salaries and Expenses of Civil Departments other than Minor Departments | 226 200 |
| Defence works | 210 600 | Stationery and Printing | 82,100 |
| | | Famine Relief and Insurance | 499 500 |
| | | Railways (excluding surplus profits) | 385 800 |
| | | Irrigation | 124 700 |
| | | Civil Works | 234 900 |
| | | Army | 530,400 |

The rate of Exchange has been taken at 1*s* 4 552*d*, as in the Revised Estimate

The Estimates of both years are examined in detail in the remaining paragraphs of this section

## LAND REVENUE

12 The Estimates are—

| | Budget Estimate 1889-90 | Revised Estimate 1889-90 | Budget Estimate 1890-91 | Increase of Revised Estimate over Budget Estimate of 1889-90 | Increase of Budget Estimate 1890-91 over Revised Estimate 1889-90 |
|---|---|---|---|---|---|
| | Rx | Rx | Rx | Rx | Rx |
| Revenue (including Land Revenue due to Irrigation) | 24,021 100 | 24 486 700 | 24,562 500 | 465 600 | 75 800 |
| Expenditure | 3 629,100 | 3 632 900 | 3 713,400 | 3,800 | 80 500 |
| NET | 20,392,000 | 20 853,800 | 20,849,100 | 461 800 | —4 700 |

With the exception of the districts directly administered by the Government of India, in which a small decrease is anticipated, and Assam, where the original Estimate has undergone no alteration, all Provinces participate in the

improvement of Rx 465,600 in Revenue expected in the Revised Estimate of 1889-90 Of this improvement, Rx 142,600, or nearly 31 per cent, has been contributed by Burma, in the proportion of Rx 70,900 by Lower and Rx 71,700 by Upper Burma With the restoration of order, cultivation has greatly extended, and assessments and collections are being made with more regularity It may also be mentioned that Rx 20 000 of the increase in Upper Burma represents the first instalment of rent paid by the Ruby Mines Company for its lease After Burma, the greatest increase is expected from the temporarily settled zemindari provinces, namely, the Central Provinces, the North Western Provinces and Oudh, and the Punjab which, between them, account for an improvement of Rx 125 900, or 27 per cent of the whole In these Provinces the settlements are falling in, and fresh settlement operations, the effect of which is reflected in the gradual increase in the revenue demand, are in active progress Of the remaining increases Bombay furnishes Rx 76,100, due to large sales of waste lands, the introduction of revised settlements, and a favourable season, Madras finds Rx 69,500, and Bengal Rx 55,000, most of which represents the recovery of arrears

13 The Estimate of Revenue for next year provides for a further increase of Rx 75,800 towards which Upper Burma contributes Rx 54 000 and Lower Burma Rx 50,000 In Bengal there is a decrease of Rx 37,100 and in Bombay of Rx 37,200, the explanation of which is that there have been special and non recurring receipts in the current year, as explained above

It should be mentioned that it is possible that the failure of the winter rains in Upper India and the scanty north east monsoon in Madras may to some extent interfere with the realisation of these estimates

14 The increase of the Revenue demand in one year from Rx 24,021,100 to Rx 24,562,500 or by Rx 541,400 is remarkable as hitherto the growth of this branch of revenue has been slow and has scarcely responded to the large outlay incurred by Government on canals and railways The relation of the settlements now in progress in the three temporarily settled Provinces of Northern India to the improvement in the revenue will be seen from the following statement, which contrasts the revenue demand of 1890 91 as measured by the Budget Estimate of that year, with the revenue demand of four years ago ascertained from the average receipts of the three years 1884 85 to 1886 87 —

| | Demand of 1886 | Demand of 1890 91 | Increase in 1890 91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Central Provinces | 612 700 | 665 300 | +52,600 |
| Punjab | 2 148 500 | 2 286 900 | +138 400 |
| North Western Provinces and Oudh | 5,812 200 | 5 935,000 | +122 800 |

The figure Rx 122,800 does not represent the full measure of increase in the North Western Provinces and Oudh, for in two of the years (1884 85 and 1886 87) from which the demand of 1886 is calculated, the receipts were unusually high The figures, however, sufficiently illustrate the effect, now beginning to be felt, of the revision of the settlements

15 The total of the Revised Estimate of Expenditure agrees very closely with that of the original Estimate, the difference between them being only Rx 3,800, but the following important variations are noticeable in the details An increase of Rx 12,900 is provided for in Upper Burma to meet additional expenditure on surveys of (what used to be) Royal lands, and of Rx 36 300 in Madras owing to the introduction of a revised scale of allowances to

Subordinate Revenue Officers, while a decrease of Rx 17,800 is expected in Bombay For 1890 91 the estimate is framed for an increase of Rx 80,500, which is distributed among all Provinces except the North Western Provinces and Oudh, where the expenditure is expected to be less by Rx 6,300 The principal increases occur in the Central Provinces Upper and Lower Burma, Bengal, and Punjab, and, except in Bengal where the excess arises from revision of establishments, are due generally to the extension of survey and settlement operations

## OPIUM

16 The following are the figures —

| | Budget Estimate 1889 90 | Revised Estimate 1889-90. | Budget Estimate, 1890-91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Revenue | 8 260 000 | 8 546 400 | 8 203 300 |
| Expenditure | 2 364,300 | 1 655 500 | 2 304,800 |
| Net | 5 895 700 | 6,890 900 | 5,898,500 |

The net receipt in the current year is expected to exceed the Estimate made a year ago by no less than Rx 995,200 Of this sum, Rx 286,400 represents improvement in Revenue, and Rx 708 800 saving in Expenditure The increase in Revenue is entirely due to the high average price obtained at the Calcutta sales The estimated average was R1 070 a chest, whereas, till the sale held in February, the price was always much higher The highest figure was reached in September when the price realised was R1,215 a chest and the lowest in the present month when it was R1,040 The average price of the year was R1 136

These violent fluctuations indicate how difficult it is to make any satisfactory estimate, and it may be noted that, so long as the number of chests sold is maintained at the present figure, a difference of R100 a chest in the price of Bengal opium represents a difference of Rx 570 000 in revenue

The revenue from the pass duty on Malwa opium was estimated at Rx 1,953,000 on 30,000 chests The general course of the weighments has coincided with our expectations but owing to a slackness recently observed the estimate of revenue has been reduced to Rx 1,850 000

The expenditure charged under *Opium* is —except to a very inconsiderable extent—incurred in Bengal The estimate is based on the forecasts of produce of the standing crop rendered by the Opium Agents in January and February, and it amounted to Rx 2,358,800 for an expected production of 58,800 chests Almost immediately after the publication of the Financial Statement, it was reported that, in consequence of unfavourable weather, the produce would be far short of the Estimate The actual production has been 38,305 chests, and the saving in expenditure will be Rx 708,800

In view of the low prices that prevail at present and the prospect of better crops in Malwa and China, it has been decided to adopt the R1,060 as the estimate of the average price for Bengal opium next year

Owing to the favourable crop expected in the current season in Central India, the estimate for receipts from pass duty on Malwa Opium has been placed higher than the sum taken for the Revised Estimate, namely, at Rx 1,950,000 as against Rx 1,850,000

Turning to the Expenditure, the Opium Agents give, as their latest estimate of production, opium sufficient to make about 55,000 chests The estimated expenditure has been taken at Rx 2,300,000

Before last year's manufacture the reserve on 31st December 1890 was estimated at the inconveniently large figure of 51,505 chests The short crop of last year has largely reduced the reserve Assuming the forecast of the current year's crop to be fulfilled, the reserve will stand as follows —

| | Chests |
|---|---|
| On 31st December 1890 | 31 010 |
| " " 1891 | 29 010 |

## SALT

17 The Estimates are—

| | Budget 1889 90 | Revised | Budget 1890 91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Revenue | 8,029,900 | 8,192 500 | 8 233,500 |
| Expenditure | 462 000 | 420 900 | 453 000 |

The consumption of salt up to the latest date (28th February), for which returns have been received, is compared below (in thousands of maunds) with the consumption in the same period of the previous three years —

| | 1886-87 | 1887 88 | 1888 89 | 1889-90 |
|---|---|---|---|---|
| Bengal and Orissa | 8,963 | 8,8-4 | 8,596 | 8 241 |
| Madras | 6 073 | 6 051 | 6 074 | 6 217 |
| Bombay | 6 635 | 6 789 | 6 124 | 6 800 |
| Sind | 205 | 211 | 211 | 221 |
| Northern India | 6 2-7 | 6 204 | 6 117 | 6 631 |
| Total | 28 103 | 28 079 | 27 122 | 28 110 |
| Burma | 1 249 | 1 841 | 253 | 1,060 |

18 The figures in the following statement give the consumption (in thousands of maunds) (excluding Burma), for the four years previous to the present one, for the periods 1st April to 28th February and 1st to 31st March, and also for the whole year, of salt on which duty at the full rate, R2 8 a maund, was paid

| | India (Burma excluded) | | |
|---|---|---|---|
| | From 1st April to 28th February | From 1st to 31st March | Whole year |
| 1885 86 | 27 100 | 2 689 | 29 789 |
| 1886-87 | 28,103 | 2 973 | 31 076 |
| 1887 88 | 28 079 | 2,360 | 30 439 |
| 1888 89 | 27 122 | 2,703 | 29 825 |
| 1889 90 | 28,110 | 2 900 Estimate | 31,010 |

The yearly totals differ materially from those shown in paragraph 78 of the Financial Statement of 1889 90 which dealt with consumption only and did not therefore distinguish between salt paying varying rates of duty The salt produced at the Kohat mines across the Indus is fixed at 8 annas only on each 102 lbs, which is equal to 6 4 annas a maund of 82⅞ lbs, and the incidence of the British share of the duty on the salt produced in the Mandi State and imported

under treaty into British Territory, is 5 annas a maund The aggregate consumption of both these descriptions was about 775,000 maunds in 1888-89 Clearly, for the purpose of testing the estimate of revenue by the progress of consumption, this lightly taxed salt must be separated from the salt which bears the full duty The estimate for 1889 90 as shown above should be increased by 800,000 maunds, as representing the consumption of the Kohat and Mandi salt, for the purpose of ascertaining the consumption of the whole of India

In Burma an import of about 1,150,000 maunds is indicated by the latest figures The estimate of consumption in Burma of locally produced salt is placed, by the most competent authorities, at about 560,000 maunds

19 It was explained in the Financial Statements for 1888 89 and 1889 90 that the increase in the duty in January 1888 was followed by a general falling off in the revenue But it is not clear that there was a decrease in salt actually consumed proportional to the reduction in the quantity of salt cleared for consumption It is certain that to some extent the dealers in salt deferred making new purchases, on which the higher rate of duty had to be paid, until they had exhausted the stocks on which the lower duty had been paid, and had secured the profit to be obtained by selling them at a price which was increased in full proportion to the increase in the duty

20 The following figures for Burma, where the duty was raised from 3 annas to R1 a maund from the 19th January 1888 are, for imported salt only —

| | To 28th February | From 1st to 31st March | Total |
|---|---|---|---|
| 1884 85 | 1,594 | 93 | 1 687 |
| 1885 86 | 954 | 169 | 1 123 |
| 1886 87 | 1 249 | 325 | 1 574 |
| 1887 88 | 1 841 | 90 | 1 931 |
| 1888 89 | 253 | 61 | 314 |
| **1889 90** | **1,060** | **90** Estimate | **1,150** |

The decline following on the rise in the duty is remarkable, but the explanation is simple

Very large importations had been made towards the end of the previous year, some knowledge or suspicion of the intention of Government to raise the duty having probably been circulated, and the stocks were therefore abnormally large Local manufacture also received a stimulus from the increase of the import duty, for the duty on locally manufactured salt is light and is levied by means of a half yearly fee, and until July last year, when this fee was doubled, the local manufacturer had a substantial advantage over the importer of salt These two circumstances combined to reduce the apparent consumption of imported salt in Burma to a very low level A revival in the demand for imported salt, which was doubtless due to the approaching exhaustion of the imported stocks, set in about the commencement of the current financial year The competition of locally produced salt was also regulated by the doubling of the fee The question of the measures to be taken for equalising the incidence of the duty on locally made and imported salt is one of importance The question is surrounded by difficulties, as the manufacture of salt in Burma is carried on at places and under conditions which practically render any effective check on production impossible A specially qualified officer of the Northern India Salt Department was deputed last year to investigate the matter on the spot, and his report is now under consideration

21 In Northern India also there was a pause in consumption in the year following the increase of duty, but the reduction was so slight that it was pro-

bably caused by the action of holders of stocks In the present year there has been a substantial increase, the consumption of both Sambhar salt and the rock salt of the Punjab Mines having been large

In Madras in 1888 89 prices rose to a high level, the rise being ascribed, at least in part, to a combination of manufacturers Partial resumption of manufacture by the State was begun and prices have since fallen, while consumption shows a satisfactory increase

22 The only province in which consumption has not fully recovered is Bengal, and there the imposition of the increased duty has not been the only cause of the falling off, which is largely attributable to the increase in price resulting from the action of the English Salt Syndicate and the higher level of freights The average maximum prices in Calcutta of Liverpool salt (exclusive of duty) have been as follows per 100 maunds since January 1888 —

| | 1888 | 1889 | 1890 |
|---|---|---|---|
| January | 88 [illegible] | 97 8 | 102 |
| February | 149 | 96 25 | 97 |
| March | 154 25 | 94 25 | |
| April | 138 75 | 94 | |
| May | 137 4 | 90 | |
| June | 133 5 | 92 2 | |
| July | 94 63 | 94 25 | |
| August | 94 | 94 4 | |
| September | 74 25 | 99 75 | |
| October | 83 | 111 83 | |
| November | 91 25 | 105 75 | |
| December | 96 75 | 105 6 | |

Before January 1888 the average highest price varied between 61 and 72 rupees, prices rose after the increase of the duty to a high point, falling again to almost their normal level, but the formation of the Salt Syndicate raised them towards the end of the year, and they have remained high ever since The increase in price (exclusive of duty) may be taken to be from four to five annas a maund

The falling off in the imports into Bengal does not, however imply an equivalent falling off in consumption Both Sambhar salt and rock salt from the Punjab Mines have found a market in a wider zone in Bengal, since the increased price of Liverpool salt has enabled them to compete with it lower down the railway line The competition would have been more active and effective but for the action of the East Indian and Oudh and Rohilkhand Railway lines in raising the rate of freight The question of these higher rates of freight is under consideration

23 The Revised Estimate provides for a consumption in India (excluding Burma) of—

| | Maunds |
|---|---|
| Fully taxed salt | 31 010 000 |
| Lightly taxed salt (about) | 800,000 |
| TOTAL | 31 810 000 |

This is the figure with which those of paragraph 78 of last year's Financial Statement are comparable The figures are continued up to 1890-91 below—

| | Consumption of Salt in Maunds |
|---|---|
| 1882 83 | 28,720,000 |
| 1883 84 | 29,338 000 |
| 1884 85 | 31 348 000 |
| 1885 86 | 30,606,000 |
| 1886 87 | 32 200,000 |
| 1887 88 | 31 186,000 |
| 1888 89 | 30,600 000 |
| 1889 90 Estimate | 31 810,000 |
| 1890 91 | 31 930,000 |

The Revised Estimate also takes into account a consumption in Burma of—

| | Maunds |
|---|---|
| Imported Salt | 1,150 000 |
| Locally made Salt | 560 000 |
| TOTAL | 1,710 000 |

The Budget Estimate of Revenue is Rx 8,233,500 or Rx 41,000 in excess of the Revised and provides for an increased consumption of about 200,000 maunds in India and Burma

The estimates of expenditure for both years are on a higher scale than previously, principally in Burma, Bengal, and Madras In Burma, the imposition of fees at higher rates on locally made salt involves a proportionate increase in the commission payable on collections In Bengal, provision has been made for payments on account of new scales of an improved type In Madras, the opening of new salt works on account of Government will involve increased expenditure

## STAMPS

24 The Estimates are—

| | Budget Estimate 1889 90 | Revised Estimate 1889 90 | Budget Estimate 1890 91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Revenue | 3 959,500 | 4 060,500 | 4,034 900 |
| Expenditure | 134,300 | 134 700 | 143 100 |
| Net | 3 825,200 | 3,925 800 | 3,891 800 |

The Revenue promises to be better than the Estimate by Rx 101,000, the improvement being contributed by Burma (Upper and Lower) Assam, the North Western Provinces and Oudh Madras, and Bombay The increases in the North Western Provinces and Oudh and Madras are considerable namely, Rx 25,000 and Rx 35 000, and the slight falling away in the estimated revenue of 1890 91 is due to the fact that it is not thought desirable to reckon on these increases being maintained

The variations in the Expenditure are unimportant and are mainly due to the charges in England A larger quantity of Stamps is to be supplied in 1890 91, and this accounts for the increased charge

The question has been a good deal discussed in recent years whether the revenue derived from the sale of Court fee Stamps did or did not greatly exceed the cost of the Administration of Civil Justice An enquiry was undertaken in 1886 with the view of ascertaining and putting beyond question what the true facts are The result of this enquiry was published in a Resolution in the *Gazette of India* of the 11th January last, in which it was shown that including all India there was a yearly loss of Rx 125,100, and that instead of surpluses there were deficits in every Province except (1) Bengal, and (2) Madras, where the receipts and charges were practically equal

## EXCISE

25 The Estimates are—

| | Budget Estimate 1889 90 | Revised Estimate 1889 90 | Budget Estimate 1890 91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Revenue | 4,727 300 | 4 837,400 | 4 844,500 |
| Expenditure | 154 200 | 154,200 | 172,600 |
| NET | 4 573 100 | 4 683 200 | 4 671 900 |

In the current year the improvement in Revenue is Rx 110 100, and the Revenue is better than the Estimate in all Provinces except Bengal where the decrease is Rx 30 000 and in Upper Burma where it is Rx 13 400 The large increases occur in Madras, Rx 60 000 and Lower Burma Rx 31,400

The Excise question has been discussed at great length in the collection of papers published in the *Gazette of India* of 1st March, and nothing more need be said on the subject in this place It was to be expected that the changes in system which are being made in Bengal would be attended at first with some loss of revenue, though the falling off is also largely due to bad seasons The falling off in Upper Burma is due to the fact that the estimate first made was a mere conjecture The Revenue Officers had no facts to guide them and they framed their estimates too high

The rapid advance in the Madras Revenue is worthy of notice It is due to better management, to an efficient preventive service, to the gradual and systematic enhancement of the rate of taxation which has now in some districts reached the tariff rate, and to the extension of the Bombay system of taxing the trees from which toddy for consumption or manufacture into spirit is drawn In Lower Burma the increase is due to raising the duty on spirits locally manu factured

The estimate of Revenue for 1890 91 varies only slightly from the Revised Estimate A decrease is expected in Bombay owing to a partial modi fication of the method hitherto followed in fixing the "minimum guarantee," and a further increase is expected in Madras and Lower Burma

The Expenditure is increasing mainly in Bengal and Madras In Bengal the re establishment of Central Distilleries under proper supervision with a consider able strengthening of the Excise establishments accounts for the growth of expenditure In Madras, as the tree tax system extends, the preventive estab lishment necessarily expands also

## PROVINCIAL RATES

26 The Estimates are—

| | Budget Estimate 1889 90 | Revised Estimate 1889 90 | Budget Estimate 1890 91 | Revised Estimate Better + than Budget Estimate of 1889 90 | Budget Estimate 1890 91 Better + than Revised Estimate of 1889-90 |
|---|---|---|---|---|---|
| | Rx | Rx | Rx | Rx | Rx |
| Revenue | 3 258 000 | 3 345 800 | 3,349 400 | +87 800 | +3 600 |
| Expenditure | 60 500 | 54 900 | 43 500 | +5,600 | +11 400 |
| NET | 3 197 5 0 | 3,290,900 | 3 305 900 | +93 400 | +15,000 |

The rates and cesses credited under this head are assessed at varying percentages on Land Revenue, and as a large increase in Land Revenue is estimated for in both years the Estimates of the rates necessarily respond This is the general explanation of the increase but the following special items deserve notice In Madras an increase of Rx 52,400 is expected, the bulk of which is due to the fact that the original Estimate, which was prepared on a consideration of the actual receipts of past years, was too low In the North Western Provinces and Oudh, the Patwari cess promises to produce Rx 6,300 more than the Estimate

The variations in the Estimates of Expenditure are comparatively trifling, and the only point which requires notice is that in the Punjab the discontinuance with effect from 1st October 1889, of the payment of fees to Patwaris for the collection of the rates and cesses causes a reduction of Rx 7,500 in the Revised Estimate, and of a further sum of Rx 9 300 in the Budget Estimate for 1890 91 It must also be borne in mind that the Expenditure recorded under this head represents only the cost of collection of the cesses

## CUSTOMS

27 The Estimates are—

| | Budget 1889-90 | Revised | Budget 1890 91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Revenue | 1,418,400 | 1 487 300 | 1 561 100 |
| Expenditure | 138 300 | 134 500 | 138 600 |
| Refunds | 49,400 | 48,700 | 44 000 |

The Revised Estimate provides for an improvement of Rx 68,900 over the Budget, most of which is contributed by Burma In Bengal the estimate will not be realised

28 For the ten months ending 31st January the receipts from import duty and their distribution among the dutiable articles have been —

| | 1886 87 | 1887 88 | 1888 89 | 1889 90 |
|---|---|---|---|---|
| | Rx | Rx | Rx | Rx |
| Arms &c | 18 500 | 18 200 | 20,200 | 19 500 |
| Malt Liquor | 8,600 | 10 400 | 12,700 | 13 900 |
| Spirit | 350 900 | 375,800 | 405 500 | 403 100 |
| Wines &c | 38 500 | 42 500 | 41,100 | 40 200 |
| Petroleum | | | 97 100 | 131,200 |
| | 416 500 | 446,900 | 576 600 | 607,900 |

In the export revenue there has been a considerable increase in the ten months of the present year The figures are —

| | Rx |
|---|---|
| 1886 87 | 411,000 |
| 1887 88 | 453,000 |
| 1888 89 | 363,000 |
| 1889 90 | 458 000 |

This increase is due to the unusually large export of rice from Burma, the export of rice from Bengal having declined materially in consequence of high prices following on unsatisfactory crops

29 In the estimate for 1890 91 the continuance of the favourable conditions of the current year is not fully reckoned on, though a recovery is looked for in Bengal The increase estimated for is wholly due to the additional revenue which will be yielded by the enhanced tax on imported spirits At R5 a gallon the average net receipts from the duty on spirits are about Rx 480 000 We therefore estimate the additional revenue, due to the increase of the duty by R1, at about Rx 92 500 The reasons which have influenced the Government in deciding to raise the duty have been explained in introducing the Bill to amend the Tariff Act, and in this place it will suffice to give a very brief recapitulation of them

The reasons are —

(1) On general grounds, it is desirable to increase within reasonable limits, the cost to the consumer of intoxicating liquors, by increasing the duty on them

(2) It is an accepted principle of Excise administration in India to endeavour to gradually raise the duty on spirits made in India to the tariff rate, which practically sets a limit to the increase It has been found possible in some places to increase the duty to the tariff rate, so that the occasion for a further increase of that rate has arrived

(3) It is hoped that the increase may check the increasing import of cheap deleterious foreign spirit

(4) The increased duty will make a substantial addition to the public revenue

The estimates of expenditure and refunds are fairly constant and call for no remarks

## ASSESSED TAXES

30 The Estimates are—

| | Budget 1889-90 | Revised 1889-90 | Budget 1890-91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Revenue | 1,515 300 | 1,567,100 | 1 558,700 |
| Expenditure | 28,800 | 28,000 | 31 200 |

The Revised Estimate provides for an increase in Revenue of Rx 51,800, to which all Provincesc ontribute except the districts directly administered by the Government of India The chief increases are, Rx 11,300 in the Punjab, due to revision of assessments, and Rx 10 000 in Madras, to realisation of arrears

The variations of the receipts from year to year are necessarily small, and the Budget for 1890-91 virtually repeats the Revised Estimate for 1889 90

The variations in the estimate of expenditure are trifling, the increase occurring in Bengal and representing provision for a separate assessing establishment

The net collections amounted to Rx 1,477,514 in 1888 89, or more by Rx 94,706 than the collections of the previous year The following table shows how this increase is distributed —

| | Income tax collections 1886-87 | Income tax collections 1887 88 | Income-tax collections 1888 89. | Percentage of total collections 1888 89 | Increase (+) or Decrease (—) in 1888-89 compared with 1887 88 |
|---|---|---|---|---|---|
| | Rx | Rx | Rx | | Rx |
| India | 122 406 | 133,874 | 139,787 | 9 4 | +5,913 |
| Central Provinces | 39 836 | 40 348 | 42,464 | 2 9 | +2,116 |
| Burma | 16 | 29 | 50,036 | 3 4 | +50 007 |
| Assam | 19 905 | 22 661 | 22 232 | 1 5 | —429 |
| Bengal | 333,626 | 364 122 | 381 648 | 25 8 | +17 526 |
| North Western Provinces and Oudh | 213 639 | 213 963 | 218 150 | 14 8 | +4,187 |
| Punjab | 105 652 | 106,639 | 113 271 | 7 7 | +6,632 |
| Madras | 138 674 | 162,658 | 164 877 | 11 1 | +2 219 |
| Bombay | 303 756 | 338 514 | 345,049 | 23 4 | +6,535 |
| TOTAL | 1,277,510 | 1 382 808 | 1 477,514 | 100 | +94 706 |

More than half of the total increase occurred in Burma, to portions of which the tax was extended from 1st April 1888 Leaving that Province out of account the collections in India show an increase of Rx 44,699, or 3 23 per cent, of which rather more than a third occurred in Calcutta

## FORESTS

31 The following statement shows the present state of the Forest Revenue —

| | Budget 1889-90 | Revised 1889-90 | Budget 1890-91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Revenue | 1 269 600 | 1 446 400 | 1 414,400 |
| Expenditure | 801 300 | 815 700 | 847 900 |
| Surplus | +468 300 | +630 700 | +566 500 |

The increase of gross revenue indicated in the Revised Estimate is Rx 176,800, of which the greater part is due to an exceptionally favourable season for floating down timber and to rising prices in Upper and Lower Burma, the improvement having produced Rx 45,100 in Upper and Rx 91,500 in Lower Burma Bombay shows an advance of Rx 17,100 due to increased operations, and the North Western Provinces, the Punjab, and Bengal between them contribute an additional revenue of about Rx 19,300, due to sale of railway sleepers in the first Province, supply of fuel for railways in the second, and improved sales of timber in the third

The increased expenditure involved by these more active operations is expected to be only Rx 14,400 The surplus for the current year is expected

to be Rx 73 700 better than that of 1888 89, which was about Rx 157,000 higher than that of any previous year

The Budget Estimate of Revenue is Rx 32 000 less than the sum expect ed in the current year There is a general increase in all Provinces except Burma, where the falling off means that the continuance of the exceptionally favourable conditions of the current year cannot be reckoned on The propor tion of expenditure to income has fallen from 59 per cent in 1888 89 to 56 per cent in the current year

## INTEREST ON DEBT

32 The Estimates are—

| | Budget Estimate 1889 90 | Revised Estimate 1889 90 | Budget Estimate 1890 91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Receipts | 734 200 | 867 700 | 789 900 |
| Expenditure | 4 358,600 | 4 262,300 | 4 296 300 |
| Net | 3 624 400 | 3 394 600 | 3 506 400 |

The explanation of the expected increase in the receipts in the current year is that the Secretary of State has had control of a high cash balance and has been able to invest a large portion of it temporarily at a high rate of interest The explanation of the reduction in the expenditure is (1) that the Budget provided for a loan in India of 2½ crores at a discount whereas a loan of only 2 crores was raised at about par, (2) that no temporary loans were required in England, (3) that a loan of only £3,500 000 was raised in sterling in place of one of £3 750 000 anticipated at the time the Budget was framed, (4) be cause the charges transferred from this head to the Railway Revenue Account for interest on advances to Companies were larger than anticipated on account of advances being made at earlier dates and (5) because the rate of Exchange on the sterling payments is better than the Estimate

33 The following figures show in thousands of £ the amount of the sterling debt of the Government of India at the end of each year from 1881 82, the amount of interest paid during the year, and the distribution of the total amounts between ordinary debt and that held on account of Railways —

| | 881 8 | 1882 83 | 983 84 | 854 85 | 885-86 | 1886 87 | 188 89 | 1888 89 | 1889-90 Revised | 890 91 Budget |
|---|---|---|---|---|---|---|---|---|---|---|
| **Sterling Debt—** | | | | | | | | | | |
| Ordinary Account | 58 62 | 59 094 | 56 910 | 6 7 8 | 60 07 | 65 4 | 65 6 6 | 6 84 | 6 881 | 65 881 |
| Railway Account | 9 522 | 9 4 | 1 199 | 12 5 3 | 3 6 | 8 5 1 | 8 5 4 | 8 850 | 3 3 | 38 45 |
| TOTAL | 68 142 | 68 586 | 68 169 | 0 271 | 73 8 7 | 84 228 | 84 146 | 95 34 | 98 31 | 104 626 |
| **Interest—** | | | | | | | | | | |
| Ordinary Account | 2 512 | 481 | 2 44 | 2 610 | 2 429 | 2 507 | 3 365 | 2 66 | 40 | 2 482 |
| Railway Account | 353 | 348 | 312 | 3 3 | 366 | 566 | 552 | 632 | 914 | 988 |
| TOTAL | 2 865 | 2 829 | 2 754 | 2 963 | 2 795 | 3 63 | 3 917 | 3 94 | 3 316 | 3 470 |
| **Interest Receipts—** | | | | | | | | | | |
| Ordinary Account | 56 | 24 | 30 | 35 | 9 | 41 | 66 | 135 | 134 | 62 |

It will be seen from these figures that in nine years the debt on ordinary account has increased by £7 261,000, while the Railway debt has increased by £29,223,000 The addition to the ordinary debt really represents the cost of Rail way Construction, the Public Works loans in 1885 86 and 1886 87 having been raised in England, but as the transfer from ordinary to Railway account is always

made in the Indian portion (that is, the rupee portion) of the Accounts whether the debt is created in England or India, the amounts raised in England have been added to the ordinary sterling debt, while a corresponding reduction has been made in the ordinary rupee debt The conversion of £53,261,820 four per cent into three and a half per cent stock resulted in a net saving of £266,310 a year

Of the total increase in the Railway portion of the sterling debt a sum of £3,500,000 has been raised in the current year under the Oudh and Rohilkhand Railway Purchase Act for making advances to Railway Companies, and it is proposed to raise a similar loan of £1,700,000 next year The practice is obviously economical, as the Secretary of State can borrow at less than 3 per cent while the Companies have to pay higher rates for their debentures The rest of the increase in the nine years represents the purchase money paid for the Oudh and Rohilkhand and South Indian Railways and the redemption of liabilities incurred by the acquisition of the Sind, Punjab and Delhi, the Eastern Bengal, and the East Indian Railways It will thus be seen that the greater portion of the increase to the debt is only nominal, having been incurred to extinguish existing liabilities which were shown in the Railway Revenue Account under other heads than Interest on Debt The charges on account of interest have correspondingly increased, but there has been a much larger reduction under other heads, notably under Interest payable to Guaranteed Companies

34 The following are the details of the debt in India —

Thousands of Rx

| | 1882-83 | 1883 84 | 1884 85 | 1885 86 | 1886-87 | 1887-88 | 1888-89 | 1889-90 Revised | 1890-91 Budget |
|---|---|---|---|---|---|---|---|---|---|
| Permanent Debt— | | | | | | | | | |

| Railway Account | 54 919 | 57 198 | 71 551 | 78 245 | 84 420 | 87 397 | 89 422 | 92 890 | 96 640 |
| Special Loans | 1 953 | 1 809 | 1 799 | 1 782 | 1 782 | 1 781 | 1 781 | 1 780 | 1 780 |
| Service Funds &c | 951 | 1 000 | 1 056 | 1 082 | 1 137 | 1 179 | 1 227 | 1 275 | 1 326 |
| Savings Banks | 3 744 | 4 017 | 4 722 | 5 116 | 5 836 | 6 721 | 7 664 | 7 631 | 7 890 |
| TOTAL | 97 337 | 100 017 | 100 761 | 100 684 | 101 409 | 107 771 | 111 551 | 113,445 | 113 719 |

A large portion of the public debt has been incurred for the purpose of advancing funds on easy terms to Municipalities and other Public Bodies, and to Native States Rx 6,250,000 of it also represents the investment of the currency reserve The following figures show the net charge in India on account of interest on ordinary account, as well as the interest on the Capital expenditure on Railways and Irrigation Works —

Thousands of Rx.

| | 1882 83 | 1883 84 | 1884 85 | 1885-86 | 1886-87 | 1887-88 | 1888-89 | 1889-90 Budget | 1889-90 Revised. | 1890-91 |
|---|---|---|---|---|---|---|---|---|---|---|
| Charged to Interest on Debt | 1 719 | 1 517 | 1 371 | 1 137 | 737 | 662 | 811 | 803 | 779 | 697 |
| Recovered | 670 | 820 | 668 | 687 | 614 | 653 | 643 | 690 | 673 | 700 |
| Net Charge | 1 049 | 697 | 703 | 450 | 123 | 9 | 168 | 113 | 106 | —3 |
| Interest on Railways | 1 621 | 1 785 | 1 959 | 2 182 | 2,423 | 2 558 | 2 692 | 2 779 | 2 770 | 2,891 |
| „ Irrigation Works | 816 | 895 | 932 | 965 | 993 | 1 018 | 1 041 | 1 065 | 1,061 | 1 083 |
| Total | 2 437 | 2 680 | 2 891 | 3 147 | 3,416 | 3 576 | 3 733 | 3,844 | 3,831 | 3 974 |

The net charge on ordinary account in 1887-88 was unusually low, partly because about Rx 90,000 of the charges remained unpaid at the end of the year and were paid in the following years, and partly because about Rx 40,000 were received during the year on account of arrears of interest on the Kidderpore Dock loan The singular and interesting fact which this statement reveals, is that there is now an actual net receipt on account of the ordinary rupee debt In other words the interest on the investments held on account of Government, and on the advances made to Public Bodies and others by Government, exceeds the interest payable on that portion of the rupee debt which is not actually represented by Railways and Irrigation Works

## POST OFFICE, TELEGRAPH, AND MINT

35 The net result of the working of these three *quasi*-Commercial Departments will be apparent from the following figures —

| | 1888 89 | 1889 90 | | 1890 91 Budget |
|---|---|---|---|---|
| | | Budget | Revised | |
| | Rx | Rx | Rx | Rx |
| Post Office— | | | | |
| Revenue | 1 281 540 | 1 348 000 | 1,304 300 | 1 386,200 |
| Expenditure | 1 342 452 | 1 402 800 | 1,366 100 | 1,419 900 |
| NET | —60 912 | —54 800 | —61 800 | —33,700 |
| Telegraph Capital Account— | | | | |
| Receipts | 1 191 | | | |
| Expenditure | 158 858 | 180 100 | 157,000 | 222,300 |
| NET | —157 667 | —180,100 | —157,000 | —222 300 |
| Telegraph Revenue Account— | | | | |
| Revenue | 740 957 | 752,100 | 768 300 | 793 200 |
| Expenditure | 545,234 | 582 300 | 562 900 | 578 200 |
| NET | 195 723 | 169 800 | 205 400 | 215 000 |
| Mint— | | | | |
| Revenue | 221 138 | 228 600 | 267 100 | 244 000 |
| Expenditure | 99 967 | 103 100 | 119 100 | 108,200 |
| NET | 121 171 | 125 500 | 148,000 | 135 800 |

These figures do not profess to give a complete account of the profit and loss of the Departments, but merely show the difference between the revenue and expenditure as recorded in the accounts and estimates As regards the Post Office, the somewhat unfavourable result of the current year is mainly due to a change in the system of accounting Hitherto it has been the practice to credit as revenue, (1) the cost of Postage Stamps sold by Treasuries to Post masters, whether disposed of to the public within the year or not, and (2) all postage due on articles remaining undelivered at the end of the year, by debit to advances In future only the sum received for stamps actually sold to the public and postage actually realized will be credited as revenue of the year The effect of this change has been to reduce the revenue of the current year by about Rx 41 000

The Revenue Account of the Telegraph Department indicates a gradual expansion of traffic and a slowly increasing surplus The increase in the capital expenditure is due to the contemplated construction of new lines, most of which are necessitated by the extension of Railway communications

The imports and coinage of silver during the three closing months of the current year will be very heavy This large coinage, and the higher gain on the copper coinage resulting from the reduced price of copper, account for the improvement shown under Mint

## CIVIL DEPARTMENTS

36 The Estimates of the several heads which fall into this group are compared below —

| | Budget Estimate 889 90 | Revised Estimate 889 90 | Budget Estimate 890-9 | Revised Estimate 1889-90, Better + Worse — than Budget Estimate of 889 90 | Budget Estimate 890-9 Better + Worse — than Revised Estimate of 889 90 |
|---|---|---|---|---|---|
| | Rx | Rx | Rx | Rx | Rx |
| Receipts | 1 464 200 | 1 518 700 | 1 521 500 | +54 500 | +2 800 |
| Salaries and expenses | 13 291 200 | 13 282 500 | 13 596 800 | +8 700 | —314 300 |
| Net Expenditure | 11 827 000 | 11 763 800 | 12 075 300 | +63 200 | —311 500 |

The improvement in Revenue does not call for special notice, as, with few exceptions it results from a number of minor variations

The Revised Estimate of Expenditure approximates closely in the aggregate to the original Estimate for 1889 90, but the following variations call for a few words of explanation —

| | Expenditure less | Expenditure more |
|---|---|---|
| | Rx | Rx |
| 18 General Administration | 25 800 | |
| 20 Police | 58 800 | |
| 21 Marine | | 92 600 |
| 22 Education | 51 000 | |
| 25 Political | | 37 000 |
| TOTAL | +135 600 | —129 600 |

Of the improvement under *Administration*, Rx 16,600 is the result chiefly of economies effected in the offices of the Government of India, and Rx 13,400 occurs in England and Exchange The smaller expenditure under *Police* is almost entirely due to savings in the District Executive Force and Special Police charges in Burma, rendered possible by the restoration of order and decrease of crime in that Province The considerable increase in *Marine* Expenditure is due to provision having been made for the purchase of a steamer for the Andamans and a steam launch for the Port Officer, Calcutta, to the payment of the balance of the purchase money of a steamer to replace the *Undaunted*, and to a large supply of Stores from England The improvement under *Education* is distributed in small amounts over all Provinces, and the increase under *Political* is chiefly due to the payment of arrears of subsidy to the Amir of Afghanistan

37 The increase of expenditure provided for in the Budget Estimate for 1890 91 is expected under all heads except *Marine*, where the absence of provision for the special items of expenditure referred to above results in a reduction of Rx 55,400 from the amount provided in the Revised Estimate The following are the principal items of increase *Courts of Law*, Rx 51,300, owing chiefly to provision having been made for additional Judicial Establishments in Burma and in Bengal, *Jails* Rx 35 300, *Police*, Rx 63,000, of which 29,300 is provided in Lower Burma principally on account of additional Police to be entertained in place of men under training, and the balance in the Punjab, Madras, and Bombay as the result of revision of establishments, contemplated or in pro

gress, *Education*, Rx. 92,400, in consequence generally of an increase in the number of Government Schools and in the grants in aid to private Educational Institutions in all Provinces, and *Scientific and Other Minor Departments*, Rx 64,100, resulting almost entirely from the provision for the forthcoming Census

MISCELLANEOUS

38 The Estimates are as follows —

| | 1888-89 Accounts | Budget | 1889-90 Revised | 1890-91 Budget | Increase (+) or Decrease (—) of Revised as compared with Budget Estimate 1889 90 | Increase (+) or Decrease (—) of Budget 1890-91, as compared with Revised Estimates 1889-90 |
|---|---|---|---|---|---|---|
| | Rx | Rx | Rx | Rx | Rx | Rx |
| Revenue | 1 793 000 | 1 340 300 | 1 325 500 | 1 243 000 | —14 800 | —82 500 |
| Expenditure | 4 884 000 | 4 823 200 | 4 848 700 | 4 945,400 | +25 500 | +96 700 |

The variations in revenue occur mainly in the receipts under Exchange, which were Rx 951 500 in 1888 89, and are estimated at Rx 527,300 and Rx 453 400 in the Budget and Revised Estimates of 1889 90, and Rx 443 500 in the Budget Estimate of 1890 91 It has been explained in previous years that these receipts accrue almost entirely in connection with the capital transactions of the subsidised Railways, the most important of which are the Southern Mahratta, Indian Midland, and Bengal Nagpur Railways The gradual falling off in the receipts is due to the smaller capital expenditure on these Railways, some of which have already been completed and others are approaching completion Excluding *Exchange*, the revenue under this group amounted to Rx 841,300 in 1888 89 and is estimated at Rx 813,000 and Rx 872 100 in the Budget and Revised Estimates of 1889 90, and at Rx 799 500 in the Budget Estimate of 1890 91 The balance of the deposits of the Military Orphan Fund having been exhausted in 1888 89, the credit which used to be taken to revenue from this balance on account of the net payments made for the Fund, ceased in that year and accounts for a falling off of about Rx 35,000 In the current year, however, this falling off has been more than compensated by special receipts, of which the principal are, a fine of Rx 20,000 from a Karen Chief, and a recovery of Rx 21,900 from the Bombay Port Trust on account of their non interest bearing debt, which represents the value of land purchased, and buildings constructed, from revenue and taken over by the Trust

The increase in Expenditure is chiefly attributable to increasing superannuation allowances and to increased demands for Stationery and Printing following on the growth of public business and the multiplication of public offices

FAMINE RELIEF AND INSURANCE

39 The Estimates are —

| | Budget 1889 90 | Revised. | Budget 1890-91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Famine Relief | 20 500 | 100 000 | 10 500 |
| Construction of Protective Irrigation Works | 80,000 | 74 000 | 65 000 |
| Reduction of Debt | | 433,500 | 524,500 |
| TOTAL | 100 500 | 607,500 | 600 000 |

In the Budget Estimate for the current year Rx 20,000 were provided for the relief of the scarcity in Behar When the estimates were prepared it was not thought that the scarcity in Ganjam would be of a nature to require expenditure on direct relief It is well known that in both districts the scarcity turned out to be more serious than was at first anticipated Rx 50,000 were spent on direct relief operations in Behar and the same sum in Madras An outlay of Rx 32,500 was also incurred on the Rushikuliya Canal and helped to alleviate the distress in Ganjam Most of the rest of the outlay on the irrigation works charged to this head represents the cost of construction of the Nira Canal in Bombay Next year's grants provide for further progress on the two works mentioned above, and a precautionary provision of Rx 10,000 is made for direct relief in Bengal

It has been explained elsewhere that the great improvement in the financial outlook has enabled the Government to take steps for the gradual restoration of the Famine Insurance Grant, and no detailed explanation is therefore required of the entries against *Reduction of Debt*

## RAILWAY FINANCE

40 The extent to which the Indian Budget is influenced by the condition of Railway Traffic and Construction will be apparent from the following figures —

| | Revenue | | | | Expenditure | | |
|---|---|---|---|---|---|---|---|
| | Budget 1889-90 | Revised 1889-90 | Budget 1890-91 | | Budget 1889-90 | Revised 1889-90 | Budget 189 -91 |
| | Rx | Rx | Rx | | Rx | Rx | Rx |
| | 16 686 200 | 16 503 000 | 17 151 100 | India | 10 503,400 | 10 273 000 | 10 727 900 |
| | 200 | 200 | 200 | England | 5 603 900 | 5 609 600 | 5 717 200 |
| | 100 | 100 | 100 | Exchange | 2 605 800 | 2 524 300 | 2 572 800 |
| Loss on the Railway Account | 2 026,600 | 1 903 600 | 1 866 500 | Total | 18 713,100 | 18,406 900 | 19 017 900 |
| Total | 18 713 100 | 18,406 900 | 19 017,900 | | | | |

Of the various items of Revenue which enter into the Estimates, Land Revenue alone furnishes a larger contribution to the Treasury than the gross Railway Revenue, and the Expenditure on the working of Railways and in paying the interest on the money spent in constructing them, is second only to that incurred on the Army

41 For the current year, the Revised Estimate compares with the Budget as follows —

RECEIPTS

| | Budget | Revised | Better + Worse — |
|---|---|---|---|
| | Rx | Rx | Rx |
| State Railways (gross Traffic Receipts) | 13,103 500 | 13,360 300 | +256 800 |
| Guaranteed Railways (net Traffic Receipts) | 3,560 000 | 3 100 000 | —460 000 |
| Subsidized Companies (Repayment of advances of interest) | 23,000 | 43 000 | +20,000 |
| Total | 16 686 500 | 16,503 300 | —183,200 |

EXPENDITURE

| | Budget | Revised | Better+ Worse— |
|---|---|---|---|
| | Rx | Rx | Rx |
| State Railways | 14,454,000 | 14,310 700 | +143 300 |
| Guaranteed Railways (Surplus Profits, Land and Supervision and Interest) | 4 089,100 | 3,866 900 | +222 200 |
| Subsidized Companies | 87 500 | 74 100 | +13 400 |
| Miscellaneous Railway Expenditure | 82 500 | 155 200 | —72 700 |
| | | NET | +306,200 |

The receipts are therefore expected to be Rx 183,200 worse, and the expenditure Rx 306,200 better, than the estimate the whole of the deterioration in Receipts and most of the improvement in Expenditure appearing against "Guaranteed Railways' Low earnings of course mean that low surplus profits have to be paid, in other words, that a part of the loss of Revenue comes back to us in the shape of reduction of Expenditure

42 *State Railways Traffic Receipts and Working Expenses*—The most marked variations from the receipts as originally estimated occur on the following lines —

| | Rx | |
|---|---|---|
| North Western Railway | 265 000 | better |
| Eastern Bengal | 75 000 | better |
| Rajputana Malwa | 60 000 | better |
| Oudh and Rohilkhand | 45 000 | better |
| Toungboo Mandalay | 42 500 | better |
| Tirhoot | 40 000 | better |
| Indian Midland | 180,000 | worse |
| Bengal Nagpur | 52 500 | worse |
| Southern Mahratta | 25 000 | worse |

and the working expenses are heavier on the—

| | Rx |
|---|---|
| North Western Railway by | 50,000 |
| Rajputana Malwa | 47 500 |
| Toungboo Mandalay | 23 500 |
| Burma | 22 500 |
| Bengal Nagpur | 21 000 |

but fall short of the Estimate on the—

| | |
|---|---|
| Indian Midland by | 132 500 |
| East Indian | 75 000 |
| Sindia | 14,600 |

The large increase in the receipts on the North Western Railway is due to a very favourable grain traffic The Rajputana-Malwa line has carried more grain and cotton, and the Eastern Bengal Railway an exceptional quantity of jute The failure to realise the estimates in the case of the three State lines leased to Companies is due partly to the conjectural nature of the estimates, as there were no data available for framing them, and partly to various sections of the lines not having been opened to traffic as early as anticipated

Heavy traffic leads to increased working expenses, and this is the explanation generally of the increased expenditure The original estimate for the East Indian Railway provided for a larger renewal of locomotives than was made, and the saving on the Sindhia line is due to the fact that the provision

made for the settlement of a long outstanding claim preferred by the Bombay, Baroda and Central India Railway was not utilised, as the claim is yet under consideration

43 *Guaranteed Railways*—As already explained, the failure of the estimate of receipts and also most of the saving in Expenditure have occurred in connection with the guaranteed lines The falling off occurs almost entirely on the Great Indian Peninsula Railway, the gross receipts being now estimated at Rx 510 000 below the Budget figure. This is due mainly to a decrease in the wheat traffic, resulting from (1) poor crops in the localities served by the Rail way, (2) a reduced demand for export owing to favourable crops in Europe and America, and (3) unusually large exports from the Punjab There was also a falling off in the linseed traffic, and in the carriage of materials for Railway construction owing to the completion of the Indian Midland line

The Madras Railway has, without any sensible increase in its expenditure, improved its receipts by Rx 70,000 over the Estimate

44 *Miscellaneous Railway Expenditure*—The increase from Rx 82,500 to Rx 155 200 is principally due to the cost of material for a few miles of an experimental railway (the Abt) with a rack rail, and also to a large outlay on surveys, among which may be mentioned the Bikanir Desert Survey, the East Coast Survey, the Hyderabad Umarkot Survey, Surveys in the Shan Hills, and on the Chindwin, and also on the North West Frontier

CAPITAL EXPENDITURE

45 *Construction of State Railways (not charged against Revenue)*—The Budget Estimate provided for an outlay of Rx 3 562 000 The present estimate is for Rx 3 066,200, or a reduction of Rx 495 800 The greater portion of the reduction occurs in the sterling expenditure in England which is now expected to be less than the estimate by £236 500 No progress has been made on the Peshawar Jumrood or Burrakar lines or on the Kistna Bridge, for which Rx 200 000 were provided in the Estimates The year's record of construction is as follows —

The Assam Behar Railway, the Toungoo Mandalay Railway, the Sind Sagar Railway, and the Chenab Bridge have been practically completed, considerable progress has been made with the Villupuram Dharmaveram line and with the Chaman Tunnel and extension The Mu Valley line has been commenced, and the Jammu Kashmir line is in progress

BUDGET ESTIMATE, 1890 91

46 The Budget Estimate for 1890 91 compares with the Revised Estimate of the current year as follows —

RECEIPTS

| | Revised | Budget 1890 91 | Better + Worse — |
|---|---|---|---|
| | Rx | Rx | Rx |
| State Railways (gross Traffic Receipts) | 13 360 ,00 | 13 777 300 | +417,000 |
| Guaranteed Railways (net Traffic Receipts) | 3 100 000 | 3 342 000 | +242,000 |
| Subsidized Companies (Repayment of advances of interest) | 43 000 | 32 100 | —10 900 |
| TOTAL | 16,503,300 | 17,151,400 | +648,100 |

EXPENDITURE

| | Revised | Budget 1890 91 | Better + Worse— |
|---|---|---|---|
| | Rx | Rx | Rx |
| State Railways | 14 310 700 | 14,841 900 | —531 200 |
| Guaranteed Railways (Surplus Profits Land and Supervision and Interest) | 3 866 900 | 4 012,700 | —145,800 |
| Subsidized Companies | 74 100 | 52,000 | +22 100 |
| Miscellaneous Railway Expenditure | 155 200 | 111,300 | +43 900 |
| TOTAL | 18,406 900 | 19 017,900 | —611 000 |

An increase of Rx 648 100 in receipts and of Rx 611,000 in expenditure is, therefore, estimated for the net improvement being Rx 37,100

47 *State Railways, Traffic Receipts and Working Expenses*—The chief improvements in receipts are expected on the following lines —

| | Rx |
|---|---|
| South Indian (owing to change of status) | 132 500 |
| Midland | 130 000 |
| Bengal Nagpur | 102 500 |
| Southern Mahratta | 70 000 |
| Oudh and Rohilkhand | 35 000 |
| Burma | 30 000 |
| Tounghoo Mandalay | 22 500 |
| East Indian | 10 000 |
| Villapuram Guntakal (Nellore Branch) | 7 100 |

and the only material falling off on the

| | |
|---|---|
| North Western | 165,000 |

The improvement in the Midland and Bengal Nagpur lines is anticipated for the reason that the former will be completely open for traffic throughout the year, and the latter for a portion of it The estimates are, however, to some extent conjectural, and it is well to bear in mind that the results of the current year have not accorded with the anticipations on which the estimates were framed a year ago The completion of the Southern Mahratta system explains the expected increase of Rx 70 000 on that line The traffic on the Oudh and Rohilkhand line is developing in a satisfactory manner, and both the Burma lines have done remarkably well and promise to continue to do so The following figures for the Upper Burma line have some interest —

| | Budget 1889 90 | Revised | Budget 1890 91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Receipts | 115 000 | 157,500 | 180 000 |
| Working Expenses | 100 000 | 123,500 | 130,000 |
| Net | 15 000 | 34 000 | 50 000 |

The improvement on the Villapuram Guntakal (Nellore Branch) line is not altogether real, as owing to the change of status of the South Indian Railway, through which agency this line is at present worked, the receipts will be adjusted monthly instead of half yearly, thus throwing the transactions of 15 months into the accounts of 1890 91 A falling off on the North Western line of Rx 165,00 is expected, in the current year the grain traffic has been unusually heavy, and with the failure of the winter rains in the Punjab its continuance on the same scale cannot be looked for

In *Working Expenses* the increase is estimated at Rx 300,300, and may be stated generally to be proportionate to the increased traffic expected

The addition to the *Interest* charge is Rx 230 900 This, of course, represents the interest on the additional outlay on construction and on the additional capital deposited by the Assisted Companies during the year

48 *Guaranteed Railways* —In consequence of its change of status on 31st December 1890 the net earnings of the South Indian line for nine months only come into the Estimates On the Madras and Bombay, Baroda and Central India lines slight increases aggregating Rx 20 000 are expected The increase of Rx 242 000 is due to the more favourable view taken of the prospects of the Great Indian Peninsula line The partial collapse of the traffic, and the special reasons for it have already been alluded to A recovery set in in November and as it is understood that the wheat crop in the Central Provinces is a fair one there is reason to hope that the improvement may be maintained The Estimate provides for Gross Earnings at Rx 4 000 000 and working expenses at Rx 1 960 000, giving net earnings of Rx 2 040 000 and a net increase of Rx 260 000 The following figures show that with ordinary conditions this is not a sanguine estimate —

Net earnings (actual)—

| | | Rx |
|---|---|---|
| | 1886 87 | 2,114 300 |
| | 1887 88 | 2 142 400 |
| | 1888 89 | 2 209 100 |
| Budget Estimate | 1889 90 | 2 270 000 |
| Revised Estimate | 1889 90 | 1 780 000 |
| Budget | 1890 91 | 2,040,000 |

The *Surplus profits* and *Interest* are more by Rx 145,800 than in the current year, the greater portion of which is the consequence of the higher estimate of earnings and the rest of additional capital outlay on which interest has to be paid

49 Under *Miscellaneous Railway Expenditure* the improvement of Rx 43 900 is nominal as the current year bears the exceptional charge for the Abt experimental material The provision of Rx 111,300 is for surveys

Before leaving the subject of Railway Revenue and Expenditure it is desirable to call attention to the magnitude of the transactions and to the impossibility of framing a close estimate of the probable traffic earnings The Budget Estimates for the current year promise to be fulfilled within an inconsiderable margin, but this is not because each estimate has proved a good one on the contrary the variations from expectation on the Great Indian Peninsula line in particular and on the Midland and Bengal Nagpore in a less degree indicate the perplexing nature of the task This liability to fluctuation in the net earnings of our great Railway system adds one more cause of uncertainty to those which already affect Indian finance

## CAPITAL EXPENDITURE

50 The provision in 1890 91 for construction of Railways not charged to Revenue is Rx 362 000 less than the original provision of the current year thus —

| | India | England | Exchange | Total |
|---|---|---|---|---|
| | Rx | £ | Rx | Rx |
| 1889 90 | 1 697 100 | 1,273 000 | 591 900 | 3 562 000 |
| 1890 91 | 1 960 200 | 855 000 | 384 800 | 3,200 000 |

The works on the Chaman Extension, for which a heavy grant was made in 1889 90, are now far advanced and require a very much smaller grant in 1890 91 to provide for their completion The Chenab Bridge is practically completed The Sind Pishin, Sind Sagar, and Assam Behar Railways and the Mandalay Extension, on which considerable sums were expended during the past year, are now finished, and the expenditure next year will be restricted to requirements which the exigencies of traffic or safe working may prove to be necessary

The expenditure on the Villupuram Guntakul Railway, under construction on behalf of the State by the South Indian Railway, will still be high, and provision to the extent of Rx 968 600 has been made in the estimates It is expected that 160 miles of this line will be sufficiently far advanced to be open for traffic about January next

During the current year, the Mu Valley Railway, the Durbhunga Bairagnia Branch of the Tirhoot State Railway, and an extension of the Sind Sagar Railway from Mianwali to Mari were sanctioned and work on them is now in progress The grants allotted to these projects in 1890 91 are Rx 500,000, Rx 75,400, and Rx 195 000 respectively The allotments to the two last named projects provide for their completion during the coming year

Provision to the extent of Rx 250 000 is made for either the Panchpara Ganjam or East Coast project now under investigation Other important grants are, Rx 63 600 for improving the gradients on the North Western Railway between Jhelum and Rawalpindi and Rx 62 800 for completing the reserve of material which it has been decided to maintain for future possible extensions of the Frontier Railways

51 The following figures shew the rate at which Railways have been constructed at the cost, or on the responsibility, of the Government since 1880 —

| Date | Number of miles open |
|---|---|
| 31st March 1880 | 8 ,82 |
| „ 1881 | 9 134 |
| 1882 | 9 437 |
| „ 1883 | 9 748 |
| „ 1884 | 10 188 |
| „ 1885 | 10 824 |
| „ 1886 | 11,173 |
| „ 1887 | 12 000 |
| „ 1888 | 12 915 |
| „ 1889 | 13 648 |
| „ 1890 (Revised Estimate) | 14 437 |

Between March 1880 and March 1890 the number of miles open has increased from 8,382 to 14,437, or by more than 72 per cent

The following Table gives the Total Capital outlay on Railway Construction up to date —

| | State Railways | State Railways constructed through the Agency of Companies | Guaranteed lines | Total | Annual progress |
|---|---|---|---|---|---|
| | Rx | Rx | Rx | Rx | Rx |
| To end of— | | | | | |
| 1879-80 | 28 007 395 | | 96 829 969 | 124 837 364 | |
| 1880-81 | 67 224 624 | | 66 348,478 | 133 573 102 | 8 735 738 |
| 1881 82 | 70 569 867 | | 67 021 756 | 137 591 623 | 4,018 521 |
| 1882 83 | 72 800 428 | 468 270 | 67 431 448 | 140 700 146 | 3 108 523 |
| 1883 84 | 76 653 281 | 704 155 | 68 769 369 | 146 126 805 | 5,426 659 |
| 1884 85 | 81 389 391 | 3 126 906 | 69 904 427 | 154,420 724 | 8 293 919 |
| 1885 86 | 90 803 111 | 4 775 059 | 67 883 682 | 163 521 852 | 9,101 128 |
| 1886 87 | 108 456 220 | 7 915 378 | 57 046 325 | 173,417 923 | 9 896 071 |
| 1887 88 | 110 788 941 | 12 979 680 | 57 694 898 | 181 463 519 | 8 045 596 |
| 1888-89 | 111 989 453 | 18 097 843 | 58 313 774 | 188 401 070 | 6 937 551 |
| 1889-90 Revised | 124 329 814 | 20 284 543 | 49 499 263 | 194,113 620 | 5 712 550 |
| 1890 91 Budget | 127 534 564 | 22 631 443 | 50 281 163 | 200 447 170 | 6 333 550 |

## IRRIGATION

52 The Irrigation revenue makes satisfactory progress The figures are—

| | Budget 1889 90 | Revised 1889 90 | Budget 1890 91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Revenue | 1 889 300 | 1 985 300 | 2 035 000 |
| Expenditure | 2 614 700 | 2 709 300 | 2 739 400 |
| Net | —725 400 | —724 000 | —704,400 |

It must be recollected that these figures include the transactions classed as "minor works" as well as the revenue transactions of the productive or 'major works" The broad distinction between the two classes is that the *Capital* cost of minor works is charged against Revenue, while the cost of construction of major works is charged to Debt The distinction is not absolute, for there are works classed as ' Major Works" on which there has been large capital expenditure from Revenue, that is, charged against the grant for Famine Insurance In the current year most of the improvement in revenue arises through the extension of irrigation in the Punjab, and is mainly due to the approaching completion of the distributaries of the Sirhind Canal In 1890 91, the increase is shared between the Punjab and the North Western Provinces, the former contributing Rx 58,700 more than the estimate of a year ago, and the latter Rx 21,300 Extension of distributaries and an advance in popular favour are the general explanation of the increase in both cases There is however, a special influence in the case of the North Western Provinces It may be recollected that in 1886, the irrigation from the Lower Ganges Canal system was stopped by the collapse of the Nadrai aqueduct The reconstruction of the aqueduct has now been completed and therewith a large area is again brought within reach of canal water

53 *Construction of Irrigation Works (not charged against Revenue)* —The Estimates are—

| | Budget 1889-90 | Revised 1889 90 | Budget 1890 91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| | 527 500 | 401 900 | 550 000 |

The reduction of the Estimate from Rx 527,500 to Rx 401 900 in the current year is due to the postponement of the construction of the Jhelum Canal The conversion of the Chenab Inundation Canal into a perennial Canal has taken the place of the Jhelum project for the present

In 1890 91 the outlay will be almost entirely in the Punjab (Rx 191 200), Madras (Rx 130,000), and the North West Provinces and Oudh (Rx 105 000) In the Punjab, the Chenab and Sirsa Canals will be proceeded with the outlay in Madras represents the progress on the Perriar project, and in the North Western Provinces it is distributed over the Ganges and Jumna Canals

It may be mentioned that it has been arranged to apply a fixed sum of Rx 550,000 from loan funds to construction for each of the next few years, in addition to construction charged under "minor works" and against the Famine Grant

## BUILDINGS AND ROADS

54 This head comprises both Military and Civil Works The Estimates are —

RECEIPTS

| | Budget 1889 90 | Revised 1889 90 | Budget 1890-91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Military and Civil Works | 603 700 | 649 200 | 589 400 |

EXPENDITURE

| | Budget 1889-90 | Revised 1889 90 | Budget 1890 91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Military Works | 1 157 400 | 1 158 000 | 1 160 700 |
| Civil Works | 4,325 000 | 4 281,400 | 4 556 600 |

In the Revised Estimate the expected improvement in revenue, Rx 45,500, is almost entirely due to the sale of the Burrakur iron works to a Company The price was Rx 45,000, which was received and credited in the current year

The Military Works expenditure is composed of a grant of Rx 1,000 000 which has been regularly made for several years *plus* Rx 150,000 for Burma, with an addition for Exchange on the small English expenditure

55 By far the greatest portion of the Civil Works Expenditure is Provincial and Local The Imperial share is only Rx 822 500 in the Revised Estimate

and a large part of this, namely, Rx 304,000, represents the cost of the progress made during the year in equipping Upper Burma with Jails, Court houses, and Roads The expenditure classified as Local, that is, incurred mainly through the agency of District and Local Boards, amounts to Rx 1 493,300 and is not far short of the sum spent by Provincial Governments

The Provincial expenditure is largely determined by the state of the Provincial balances The increase in the total grant for Civil Works is considerable, but it only means that Local Governments have abundant balances, and having arranged their programmes for utilising their surplus funds, are now carrying them out Provincial expenditure on Civil Works was estimated at a high figure in the Budget of the current year, but a considerably higher provision is made for next year The figures are —

| | Budget 1889 90 | Budget 1890 91 | Increase |
|---|---|---|---|
| | Rx | Rx | Rx |
| Provincial Civil Works Outlay | 1 970,900 | 2 221 900 | +251 000 |

ARMY

56 The Estimates are —

RECEIPTS

| | Budget 1889 90 | Revised 1889 90 | Budget 1890-91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| India and England | 944,600 | 1 022 100 | 982 600 |

EXPENDITURE

| | Budget 1889 90 | Revised 1889 90 | Budget 1890-91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| India | 15 107 000 | 14 950 000 | 14 806 000 |
| England | 4 005 300 | 4 126 600 | 4 620 100 |
| Exchange | 1 862 400 | 1 857 000 | 2 079 000 |
| TOTAL | 20 974 700 | 20 933 600 | 21 505,100 |

The increase in the Revised Estimate of receipts represents increased sales of stores to Civil Hospitals and Dispensaries and to the forces engaged in the Sikkim and Chin Lushai Expeditions

Notwithstanding the heavy outlay on the Chin Lushai Expedition, the Revised Estimate of expenditure in India is expected to be appreciably less than the Budget grant for the year The main causes of this somewhat unexpected result are the following considerable economies have been effected in the Upper Burma charges, the rate of exchange for the conversion of the pay of British troops is $\frac{1}{4}d$ better than that provided in the Budget, and the actual strength of the Army was less than that provided for

In the English expenditure there is a considerable increase, but it is an increase which will give relief to the Estimates of future years A special payment of £150,000 to the War Office has been provided for on

account of arrears of what are technically described as "Home Charges on account of British troops serving in India—effective," and a provision of £70,000 on the same account has been made in the Estimates of 1890 91 These charges represent the amount payable by India on account of the raising and equipment of the British Army in India, the method of assessing them has been under discussion for many years, and is at present being considered by a Committee over which Lord Northbrook presides It is understood that the payment of this £[illegible]20 000 will extinguish, or almost extinguish all liabilities on this account other than current ones

57 It will be noticed that in 1890 91 there is a decrease of expenditure in India, but a very large increase in the English expenditure The decrease in India, however, requires explanation The Estimates of both 1889 90 and of 1890 91 include provision for considerable expenditure of a special and temporary nature The decrease expected in 1890 91 is not a decrease in the ordinary charges for the Army, but merely means that the Estimates are burthened with a smaller sum for exceptional services Next year shows an improvement over the current one in the following respects—

(a) Better Exchange for payment of British troops, *i e*, 1*s* 5*d* in place of 1*s* 4*d*
(b) Less expenditure on Commissariat requirements
(c) Reduced provision on account of troops in Sikkim
(d) Reduced expenditure in Upper Burma
(e) Reduction in mobilisation charges

The aggregate improvement on these accounts is not far short of Rx 700 000, so that for purposes of comparison the ordinary charges included in the Budget Estimate of 1889 90 may be reckoned at about Rx 14 400 000 as compared with the actual Estimate of Rx 15 107 000 in all The Budget of 1890 91 provides for an expenditure of Rx 14 806 000, and the difference between that figure and Rx 14 400 000 or Rx 406 000 may be taken roughly as the measure of the special charges to be met in the coming year The greater portion of this is due to a provision of Rx 200 000 made for operations in the Chin Lushai country, Rx 60 000 for mobilization and the rest to numerous causes, of which may be mentioned (1) extra grants for Volunteer Corps and (2) the disbandment of certain Madras Regiments and the substitution for them of corps for local service in Burma

58 The increase in the English charges is very great namely, £614 800, and practically represents the cost of re arming the British troops throughout with the new rifle and of supplying 21 more batteries of 12 pounder breech loading guns The increase in the estimated cost of Ordnance stores over the actual cost in 1888 89 is no less than £745,600 [945 800—200 200] The re arming of the Army is a reform that had to be undertaken sooner or later and which could not safely be postponed The increase in the Home charges is thus not permanent, but incidental and temporary and we may hope for some reduction in liabilities in the Budget of 1891 92

## SPECIAL DEFENCES

59 The Estimates are —

| | Budget 1889 90 | Revised | Budget 1890 91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| | 1 10[illegible],900 | 758 400 | 8[illegible] [illegible] |

In the current year the expenditure is much below the grant in both India and England The grant for India was Rx 545,000 and the lapse is expected to be no less than Rx 139,000 The lapse on the English grant, due to the slower supply of heavy ordnance and stores than was reckoned on, is £137,800, and the resulting saving in Exchange Rx 67,700 The grant for next year is Rx 425,800 for India, the highest expenditure in India in one year hitherto having been Rx 447,800

## Section III —Progress in Upper Burma.

60 The recent financial progress of Upper Burma may appropriately be noticed

The following statement shows the Revenue and Expenditure as they were estimated in the Budget Statements of 1888 89 and 1889 90, and as they are estimated in 1890 91 —

REVENUES

| | 1888 89 | 1889-90 | 1890 91 |
|---|---|---|---|
| | Rx | Rx | Rx |
| Civil Revenue | 547 000 | 755 200 | 901 100 |
| State Railway Receipts | | 115 000 | 180 000 |
| TOTAL | 547 000 | 870 200 | 1,081 100 |

EXPENDITURE

| | 1888 89 | 1889-90 | 1890 91 |
|---|---|---|---|
| Civil Expenditure— | Rx | Rx | Rx |
| Police | 732 000 | 868,200 | 838,100 |
| Other Departments | 339,000 | 366,400 | 450,200 |
| Railways (including interest on Capital) | | 192 800 | 226 400 |
| Military Works | 190,000 | 150 000 | 150,000 |
| Civil Works | 314 000 | 298,100 | 290,000 |
| Irrigation | 23 000 | 20 000 | 30,000 |
| Army Special Expenditure | 824,000 | 600,000 | 450,000 |
| TOTAL | 2,422,000 | 2,495 500 | 2 434 700 |

Thus the deficit in 1888 89 was estimated at Rx 1,875,000, in 1889 90 at Rx 1,625,300, and in 1890 91 it is expected to be Rx 1,353,600 The actual results have recently turned out considerably better tha nthe anticipations of them and we may hope for a considerable reduction in the expected deficit of Rx 1 353,600 by the end of the year The increase of revenue is remark able, and has been referred to in the remarks on Land Revenue in paragraphs 12 and 13 and in those on Railways in paragraph 47

## Section IV —Ways and Means—Home Treasury

61 The Secretary of State's Revised and Budget Estimates of the transactions at the Home Treasury for 1889 90 compare as follows —

| | Budget | Revised |
|---|---|---|
| *Net Receipts* | £ | £ |
| Council Bills | 14 689 900 | 15 400 900 |
| Permanent Debt for Advances to Companies | 3 750,000 | 3 500 000 |
| Capital Receipts from Railway Companies | 515,000 | 1 540 900 |
| Deposits and Advances | | 1,800 |
| Add Opening Balance | 3 849,797 | 3,259,933 |
| TOTAL | 22 804,697 | 23,703,533 |
| *Net Outgoings* | | |
| Excess of expenditure over Revenue | 14 956 100 | 14 751,200 |
| Capital expenditure of Government in England | 1 273,000 | 1 038 800 |
| Permanent Debt—Discharge of 4 per cent stock | 300 000 | 300,000 |
| " " 5 per cent stock | | 2,600 |
| Issues to Railway Companies on Capital Account | 3 056 700 | 2,258,200 |
| Deposits and Advances | 2 700 | |
| On account of Remittances from India | 1 069 500 | 848,900 |
| Add Closing Balance | 2 146 697 | 4 503,833 |
| TOTAL | 22 804,697 | 23,703 533 |

The most important variations from the Budget Estimate have occurred in Council Bills, in the amount of debt created for making advances to Railway Companies, and in the Capital Receipts from, and the net issues to, them for expenditure These variations are briefly explained below —

### COUNCIL BILLS

Throughout the current year the demand for remittances from England to India has been strong, and it is expected that the Secretary of State will sell bills for a considerably larger amount than that anticipated The excess drawing gives a corresponding relief to next year, in which the drawings would otherwise have been unusually high, in consequence of the large increase in the net expenditure in England

### DEBT INCURRED, AND CAPITAL RECEIPTS FROM, AND ADVANCES MADE TO, RAILWAY COMPANIES

It was explained in paragraph 95 of last year's Financial Statement that the Secretary of State proposed to borrow, under the powers conferred by the Oudh and Rohilkhand Railway Purchase Act, for the purpose of advancing funds to the "Aided" Railway Companies and that provision had been made for a loan of £3,750,000 for this purpose Soon after the Financial Statement was issued, it was found that the requirements of the Railway Companies had been overestimated and that a loan of £3,500 000 would be sufficient It will be understood that this sum provides for Capital outlay by the Companies (Southern Mahratta, Indian Midland, Bengal Nagpur, and Bengal Central) receiving the advances, both in England and India Three per cent stock for

this amount was accordingly issued in May 1889 at a premium of £1—1s 5d per cent The large increase in the amount received from Companies is due chiefly to £600,300 raised by the Great Indian Peninsula Railway Company and £583,200 by the Indian Midland Railway Company which, it was expected, would be raised in 1888 89 The issues to Companies in England on Capital account were overestimated, the Revised Estimate of £2,258,200 on this account includes £600,000 for discharge of debentures, the balance representing purchase of Stores, &c

62 The following is the Secretary of State's Budget Estimate of Ways and Means for 1890 91 —

| *Net Receipts* | £ |
|---|---|
| Council Bills | 14 989 000 |
| Permanent Debt for Advances to Companies and discharge of Oudh and Rohilkhand Railway Debentures | 2 200 000 |
| Permanent Debt for Purchase of the South Indian Railway | 3 200 000 |
| Capital Receipts from Railway Companies | 2,732 300 |
| Deposits and Advances | 2 200 |
| Add Opening Balance | 4 503 833 |
| TOTAL | 27 627 333 |
| *Net Outgoings* | |
| Excess of expenditure over Revenue | 15 674 300 |
| Capital expenditure of Government in England | 857 800 |
| Permanent Debt—Discharge of the Oudh and Rohilkhand Railway Debentures | 500 000 |
| Issues to Railway Companies on Capital Account | 4,045,600 |
| Capital charge involved in redemption of liabilities | 3 200 000 |
| On account of Remittances from India | 1 197 200 |
| Add Closing Balance | 2,152,433 |
| TOTAL | 27 627 333 |

The most important feature of this Estimate is the provision for the pro posed purchase of the South Indian Railway The terms have not yet been finally settled, but it should be noted that in the case of this Company the pur chase can only be effected under the contract by actual payment and not by an annuity Under the contract, the Secretary of State has to pay the equivalent of the mean market value of the share capital of the Company during the three years ending on the 1st March 1890, and to accept the liability for the debentures and debenture stock issued by the Company which now amounts to £1,495,000 But as it is proposed that the management of the Railway, after its acquisition by the State, shall be entrusted to a Company which will provide a small portion of the capital, it will not be necessary to provide for the redemp tion of the whole existing share capital It is accordingly proposed to raise only £3,200,000 on account of the purchase, although the capital of the Company amounts to £3,208,952, the mean value of which, according to the terms of the contract, would be about £4,200,000 The entries on account of the transfer of liability of the debentures and debenture stock are omitted from both sides of the abstract account given above They appear on both sides of the account in Statement C of the Appendix The Secretary of State also proposes to raise a loan of £2,200,000 for advances to Railway Companies in India and England under the Oudh and Rohilkhand Railway Purchase Act and for the discharge of debentures for £500,000 of the Oudh and Rohilkhand Railway Of the payments to Companies on Capital Account £1,804,300 represent dis charge of debentures He also proposes to draw £14,989,000 by Council Bills

during the year It should be understood that, in stating these as the present intentions of the Secretary of State, no sort of pledge is given that he will adhere to the programme thus explained, and that the amounts to be raised by bills or by loans may be varied from time to time as may seem expedient

## Ways and Means—India.

63 The Ways and Means Estimate of India is as follows —

| | | 1889-90 Budget | 1889-90 Revised | 1890-91 Budget |
|---|---|---|---|---|
| | NET RECEIPTS | Rx | Rx | Rx |
| 1 | Excess of Revenue in India over the Expenditure charged against it | 22 016 900 | 23 198 900 | 22,998 100 |
| 2 | Public Loan | 2,500 000 | 2 000 000 | |
| 3 | Increase of Unfunded Debt—mostly Savings Bank Deposits | 629,700 | 14 100 | 309 600 |
| 4 | Appropriation from Revenue for Reduction of Debt | | 433 500 | 524 500 |
| 5 | *For Remittance to Secretary of State* | 1 112 300 | 891 400 | 1 179 400 |
| | Add Opening Balance | 12 900 001 | 13 305 189 | 14 596,889 |
| | | 39 158 901 | 39 843 089 | 39 608,489 |
| | NET OUTGOINGS | | | |
| 6 | Expenditure charged to Provincial Balances | 640 800 | —352 500 | 757 700 |
| 7 | Capital Expenditure of Government in India | 2 224 600 | 1 961,900 | 2 506 100 |
| 8 | Loans to Municipalities, &c | 827 700 | 709 900 | 907,000 |
| 9 | Other items | 170 400 | —552 500 | —177,700 |
| 10 | *Issues on Capital Account to Railway Companies* | 1,221 400 | 985 800 | 887,200 |
| 11 | Council Bills *Sterling Account* | 14 690 900 | 15 509 300 | 14 921,900 |
| 12 | Do Exchange | 6,829 600 | 6 984 300 | 6,712 200 |
| | Add Closing Balance | 12 553 301 | 14 596 889 | 13 094 089 |
| | | 39 158 901 | 39 843 089 | 39 608 489 |

The headings in italics are connected with and explained by the corresponding figures of the Secretary of State s account in England The others refer to purely Indian transactions

64 In the Budget Estimate, provision was made for a loan of Rx 2,500,000 in India By the 29th June, on which date the Notification calling for tenders was issued, the partial failure of the opium crop was known and the consequent saving in Expenditure was assured The Revenue receipts also indicated an improvement over the Estimate Under these circumstances it was determined to reduce the amount of the loan offered for subscription to Rx 2,000,000 This was taken up at an average rate of R99 14 11 5 per 100 rupees yielding Rx 1 998 697

In 1890 91 it is not proposed to raise any loan in India notwithstanding a contemplated Capital Expenditure on Railways and Canals of Rx 3,750,000 The large surplus expected in the current year, both on Imperial and Provincial account, and the provision made under Famine Insurance for reduction of debt in both years, and which appears against item No 4 in the statement above, will enable us, we hope, to avoid borrowing in 1890 91 This is the present intention of the Government, but full liberty is reserved to modify this intention to any extent that circumstances may require

### SAVINGS BANKS

65 The influences which determined Government to reduce the limits of deposits in Savings Banks were mentioned in paragraph 101 of last year's Financial Statement It was to be expected that for the first year the effect of this

change would be marked, as deposits, which at the date of change were in excess of the new maximum (R2,000), had to be reduced below that sum before further sums could be received to credit of the same account The effect of the change of rule will be evident from the following figures —

| Year | Net addition to deposits in the year (cash) | Interest | Total net addition |
|---|---|---|---|
| | Rx | Rx | Rx |
| 1887 88 | +656 300 | +224 000 | +880,300 |
| 1888 89 | 685,200 | +261 800 | +947,000 |
| 1889 90 } Estimates | —320 500 | +281,500 | — 9 000 |
| 1890 91 } Estimates | —34 400 | +288 800 | +254,400 |

The objections which might be taken to an alteration of rule which leads to such results are obvious But it was impossible for the Government to continue a system under which the sum held at call had approached to an amount nearly equal to the minimum cash balance necessary for the discharge of public business, and which promised to further increase at the rate of nearly a crore a year

### LOANS TO MUNICIPALITIES AND PRESIDENCY CORPORATIONS

66 The net figures for Local loans in 1889 90 and 1890 91 are Rx 709 900 and Rx 907,000, of which Rx 300 000 and Rx 370 000 represent the balances of the advances made by Local Governments under the system described in paragraphs 114 to 118 of last year's Financial Statement Judged from the demands made by Local Governments, the system has proved very acceptable to them

In the current year a total sum of Rx 420,000 will be advanced to the Port Commissioners on account of the Kidderpore Docks, and in 1890 91 a sum of Rx 553,200 The Bombay Port Trust only asks for Rx 20,000, and that in the current year

The advances made to these two Corporations on account of the Docks will stand thus —

| | Calcutta | Bombay |
|---|---|---|
| | Rx | Rx |
| Up to 1888 89 | 1,377,600 | 848 600 |
| Advanced in 1889 90 } Estimates | 420 000 | 20 000 |
| Advanced in 1890 91 } Estimates | 553 200 | |
| TOTAL | 2 350 800 | 868 600 |

67 Owing to the favourable nature of the year the closing balance on 31st March 1890, which was estimated at Rx 12,553,000 a year ago, is now expected to be Rx 14,597,000, notwithstanding provision for an increase of Secretary of State's drawings of £818,400 In 1890-91 provision is made for payments of Secretary of State's Bills to the extent of £14,922,000, and the year is expected to close with a balance of Rx 13,094,000

## Section V —Summary

68 The principal features in this Statement are —

(*a*) The Accounts for 1888 89 have closed with a surplus of Rx 37,018 after including in the Expenditure Rx 789,595 spent on Defence Works

(*b*) The Revised Estimates of 1889-90 show a surplus of Rx 1,809,700 after restoring the Famine Grant to Rx 600,000 (or Rx 1,038,100 including the net charge on the revenues on account of the Protective Railways con

structed through the Agency of Companies), and postponing the contribution of Rx 490,000 from Provincial resources for which credit was taken in the Budget Estimate, to 1890 91 All the main Revenue heads have contributed to this improvement The saving in Opium expenditure owing to a scanty crop, is Rx 708,800 The Estimate of Exchange which was taken in the Budget at 1*s* 4 38*d* = R1, is placed at 1*s* 4 552*d* = R1, and yields a saving of about Rx 200,000 Rx 758,400 spent on Defence Works are included in the Ex penditure

(*c*) The Budget Estimates show a surplus of Rx 270,400 Exchange is taken at 1*s* 4 552*d* as in the Revised Estimate Extra taxation has been imposed on imported spirits and Indian brewed beer has been made subject to the same tax as is levied on imported beer, the expected addition to the re venues being estimated at about Rx 100,000 Credit has been taken for the contribution of Rx 490 000 from Provincial Revenues, originally estimated for as a receipt of 1889 90 The Famine Relief and Insurance Grant has been maintained at Rx 600,000 Including the net charge on the revenues on account of the Protective Railways the grant is Rx 1,032,800 Army Expenditure is unusually heavy being estimated at about Rx 1 203 300 more than the expendi ture in 1888 89 chiefly owing to the contemplated re armament to be carried out next year The Estimate of Expenditure includes Rx 892,300 for Defence Works In view of the heavy charges that fall on the revenues of the year in connection with the re armament the result is considered satisfactory

(*d*) The Capital outlay on Railways and Irrigation Works is estimated at Rx 3,468,100 in 1889 90 and at Rx 3 750 000 in 1890 91

(*e*) The Secretary of State proposes to sell £14 989,000 of Council Bills, also to borrow £5,400 000 for purchase of the South Indian Railway, for making advances to Companies engaged in constructing Railways for the State and for paying off debentures This announcement is accompanied by the usual reserve that, though these are the present intentions of the Secretary of State, he will remain entirely at liberty to vary the amounts to be raised by bills or by loans as he may find occasion

(*f*) Although the estimates provide for a Capital outlay of Rx 3 750 000 on Railways and Canals and for Rx 907 000 to be advanced to Port Commis sioners and Local Governments for local purposes it is not expected that a loan will be necessary in India in 1890 91 It is mainly owing to the partial re storation of the Famine Insurance Grant, and the high cash balances resulting from the surplus of 1889 90, and the estimated surplus of 1890 91 that the Government expects to be able to find funds for the Capital outlay on Public Works without having recourse to borrowing No pledge is however, given that Government will not borrow in India during the year

(*g*) The warning against desponding and pessimist views in connection with Indian Finance given last year is justified by the course of events Fur ther improvement in the financial position is anticipated, but prudence and economy are needed to meet the dangers and difficulties of the future

D BARBOUR

CALCUTTA,
*March 21, 1890*

# APPENDIX I

*Despatch from Her Majesty's Secretary of State for India, to the Government of India No 378, dated 17th December 1885*

In my Despatch of the 10th instant, No 367 I authorized your Government to charge against the Famine Insurance Grant the amount payable during the next five years as interest on capital raised by Companies for the purpose of constructing any of the lines which are mentioned by your Government as being in your opinion, needed for the protection of the country against famine, but which you are not at present able to construct through State agency

2 It was not my intention thereby in any way to interfere with the new form of account suggested in my despatch of the 27th of August, No 237 by which all charges on account of the working expenses and interest payable for railways are to be collected into one group apart from the capital expenditure on the construction of such works

3 I have, accordingly to request that the interest mentioned in the first paragraph of this despatch may be placed under the head of Railways (Expenditure on Revenue Account) and that under Famine Relief and Insurance a note may be appended, stating that there is a further sum (to be specified) which has been charged under the head of Railways for interest paid to Companies formed for the construction of lines calculated to protect the country against famine

- -

*Telegram from the Government of India to Her Majesty s Secretary of State for India, dated 5th March 1890*

Please refer to paragraph 3 of Your Lordship s Financial Despatch No 378 dated 17th December 1885 We suggest that in future the net charge on the revenues *i e* interest less net earnings on account of Protective Railways constructed through the agency of Companies namely, the Indian Midland and the Bengal Nagpur Railways, be shown in the note under the head 'Famine Relief and Insurance' instead of interest Please telegraph reply as quickly as possible

-- --

*Telegram from Her Majesty s Secretary of State for India to the Government of India, dated 6th March 1890*

Your telegram in the Finance Department dated 5th March last regarding note under the head Famine Relief and Insurance I agree to your proposal

GOVERNMENT OF INDIA

REVENUE AND AGRICULTURAL DEPARTMENT

# Weather Review of India for the week ending at 8 a m on Monday March 3rd, 1890

Feebly unsettled conditions have prevailed over a large part of the Indian region during the week under review The high pressure area in the north west, which is characteristic of the cold season in India, has been, during part of this week, much less pronounced than in previous weeks Hence barometric gradients and air movements have been slight, while the power of the sun has increased considerably In consequence conditions have been favourable to the production and development of small local depressions which have resulted in thunder or dust storms and slight rainfall There has been no serious storm during the week, but a depression which appeared over Guzerat on the 3rd though slight in itself, produced, owing to the high pressures which temporarily prevailed in the Punjab, steep gradients for easterly winds in North Western India, and the weather in that region became very unsettled

The chart of the 25th exhibited a somewhat complicated distribution of pressure Relatively high readings were reported from the north west of the Punjab, the Upper Assam Valley and the south of the Peninsula, while low readings were shown over the west of the North Western Provinces and the north of Bengal Irregular cyclonic movements of the wind prevailed in the neighbourhood of the two depressions, and a northerly current was shown over Sind, Guzerat, and the Bay area, but in other parts of the Indian region the directions were variable There was a good deal of cloud, except in Rajputana, the Peninsula, and parts of Bengal and the weather was somewhat unsettled over Northern and Central India On the 26th the only change of importance was the enlargement of the Bengal depression by the advance eastward of the depression from the North Western Provinces The general wind circulation was the same as that on the previous day The weather in the northern and central parts of the country remained somewhat unsettled The chart of the 27th showed that the Bengal depression was filling up, that the barometer had risen in the north west, and that the general distribution was such as is characteristic of the cold season The weather was fine On the 28th conditions were practically unaltered, and on March 1st the only important feature in the changes was a rapid barometric fall in the Punjab During this day (the 1st) there was probably a fall of snow and rain over the mountains to the west and north west of the Punjab, as the next morning s observations showed a brisk fall of temperature and rise of pressure in north west of the Punjab At Colombo, the wind had shifted to east, but these were the only important alterations On the 3rd the barometer was still rising in the Punjab, but it had fallen in Guzerat and Kattiawar, where a well marked depression had appeared There was a general indraught of wind towards this depression from surrounding regions The easterly wind noticed at Colombo on the 2nd had extended over the south of the Peninsula

*Temperature*—Though less high than in the preceding week, has been generally above the average The warmest day, relatively to the average, was the 25th, the coolest the 28th In Burma, the Punjab and Bombay on every

day of the week the mean temperature was more or less excessive, and in Bengal, the Central Provinces, Guzerat, Central India, Sind, and Rajputana, there was only one day on which the weather was cooler than usual In the other Provinces the days of excessive and of deficient temperature were nearly equal On the hills the variations from the normal have been comparatively slight

The following table shows the variations of the mean temperature of the present and of the past week from the normal, according to Provinces —

| PROVINCE | Difference of mean temperature of last week from normal | Difference of mean temperature of present week from normal |
|---|---|---|
| | ° | ° |
| Burma | +1 7 | +1 3 |
| Bengal | +3 3 | +1 2 |
| North Western Provinces | +2 9 | +1 4 |
| Punjab | +1 3 | +1 8 |
| Bombay | +2 1 | +1 1 |
| Central Provinces | +2 7 | +1 5 |
| Guzerat and Central India | +3 6 | +1 8 |
| Sind and Rajputana | +3 6 | +2 0 |
| Madras | +0 9 | —0 1 |

These figures show that except in the Punjab, the weather relatively to the average has been considerably cooler during the week under review than during the preceding week At Sholapur on the 1st the maximum temperature exceeded 100 (100° 7)

*Rain* —The area of rainfall this week is much larger than that recorded during many weeks past At twenty-seven out of the fifty one rainfall divisions rain has been recorded The amounts are not large, the average rainfall of the division only exceeding ½ inch in four cases and being below 1/10 of an inch in sixteen cases, but it is nevertheless a substantial improvement on the records of many weeks past The regions in which the rainfall was heaviest are the south west of the Peninsula and the Tenasserim division of Burma, while the regions without rainfall include the following divisions, *viz*,—Central and Upper Burma and Arakan, Central and North Bengal, North Western Provinces, West, and the Punjab, South and Central, all the divisions in the west, centre and east of the Peninsula, the west of the Central Provinces, the west of Rajputana, and the whole of Sind, Guzerat and Kattiawar The rainfall in all parts of the Indian region was scattered throughout the week The maximum falls exhibit very few amounts calling for notice The following were the largest amounts —Tavoy 1¾ inches, Ghazipur (North-Western Provinces) 2¾ inches, Bansdeh (Ballia, North Western Provinces) 1½ inches, Badagara (Calicut) 4½ inches, Cunoor (Nilgiris) 8 inches, Bilaspur (Central Provinces) 6 inches, and Ambassamudram (Tinnevelly) 2¾ inches

The state of the seasonal fall as shown by the concluding column of the following table has been very little modified by the slight falls here recorded

| Province | Division | Rainfall data for week ending 3rd March 1890 | | | Rainfall data from October 15th to 3rd March 1890 | | |
|---|---|---|---|---|---|---|---|
| | | Average actual rainfall of Division | Average normal rainfall of Division | Excess or defect in inches | Average actual fall of season to date | Average normal rainfall October 15th to 3rd March | Excess or defect of (seasonal) rainfall expressed as a percentage |
| | | Inches | Inches | Inches | Inches | Inches | Per cent |

## REVENUE AND AGRICULTURAL DEPARTMENT

# Weather Review of India for the week ending at 8 a m on Monday, March 10th, 1890

From a consideration of the weather reports of the past week, it appears that we have now entered on the period known as the spring storm rainfall of India This period has set in somewhat earlier than usual—an effect due probably to the high temperatures and low pressures which, during the past two months, have resulted from the absence of the normal winter rainfall This storm rainfall, to which all parts of India except perhaps the west of the Peninsula are liable, originates in all probability in the increasing effect of the ascending sun on the land surface of India This effect causes, more particularly during the day, a large flow of moist air from the sea to the land areas, and the great contrasts of humidity which exist between the land and sea generated currents of air occasion small local storms during which the vapour of the damper current is precipitated with considerable electrical disturbance

During the week under review these causes have been operative over the greater part of India and though the rainfall has been light the area over which rain has fallen is larger than that shown in any previous week since the monsoon rains of last year Only in Burma the west coast of the Peninsula and the normally dry provinces of Guzerat, Kathiawar and Sind has there been no rain and at a great number of the rainfall divisions the average amount of rain received has exceeded the normal of the week

The chart of the 4th showed that a shallow depression which had appeared over Sind on the 3rd had advanced eastward and covered the North Konkan, Khandeish and a large part of the Central Provinces, while the highest readings were reported from the submontane parts of the North Western Provinces, hence feeble gradients for easterly winds prevailed over Northern India and rain was falling all over the region intervening between the areas of high and low pressures A shallow depression also existed to the south of the Peninsula and the weather was unsettled at the more southern stations Fresh winds prevailed in several parts of the Indian region, but the directions were variable On the 5th the depression, now very slight, lay near Allahabad and the weather was rainy and unsettled over the whole of the Gangetic plain and the Punjab The fall of snow on the hills had apparently resulted in a strong outset of heavy cool air from the Himalayas, so that northerly winds and a rising barometer prevailed along the line of the hills In the south the weather was unaltered On the 6th the normal cold weather distribution, *viz*, high pressures over North Western and Central India and low pressures over the Peninsula, the Bay and Bengal, was established and the weather had become much finer On the following day, the 7th, a similar distribution existed and the weather was fine all over Northern India A slight depression had formed over the Peninsula and slight rain was falling in the east and south Pressure was, however, giving way briskly in the north west On the 8th, under the influence of the fall noticed on the preceding day, the high pressure area had deserted North Western India, and advanced south eastward to Central India and the North Western Provinces, while the small depression over the Peninsula had advanced northward to Berar, and rain had fallen over the Central Provinces. On the 9th a moderate depression was shown over Sind and gradients between Sind and the north west of the Punjab were rather steep In other parts of the Indian region pressure was uniform with numerous very slight local depressions, and very variable winds The chart of the 10th showed that the depression from Sind had advanced south eastward to Guzerat, Kathiawar and the North Konkan, but that there was very little other change

*Temperature* —A cold period set in over India early in the week and lasted till its close It commenced in Sind and Rajputana on the 4th, but was not

felt in the other provinces until the 5th The cold was most severe on the 6th, after which the intensity decreased until the 8th, when it again increased, and the 10th was almost as cold as the 6th In Madras, the variations were to a certain extent the reverse of those existing in other parts of India, the weather at the close of the week being warmer than the normal

The following table shows the variations of the mean temperature of the present and of the past weeks from the normal average according to Provinces —

| Provinces. | Difference of mean temperature of last week from normal | Difference of mean temperature of present week from normal |
|---|---|---|
| | ° | ° |
| Burma | +1 3 | —0 2 |
| Bengal | +1 2 | —1 7 |
| North Western Provinces | +1 4 | —1 4 |
| Punjab | +1 8 | —2 5 |
| Bombay | +1 1 | —0 3 |
| Central Provinces | +1 5 | —2 2 |
| Guzerat and Central India | +1 8 | —0 2 |
| Sind and Rajputana | +2 0 | —0 2 |
| Madras | —0 1 | +0 1 |

This table shows that compared with the normal the mean temperature in all provinces except Madras, where, as previously stated, the variations are frequently the reverse of those existing in other parts of India, has fallen quickly since the preceding week and that the temperature has been low for the season The greatest relative fall has been in the Punjab and exceeds 4 The maximum temperature on no occasion exceeded 100 during the week under review

*Rain*—Fell in some parts of India on each day of the week under review It is reported from forty out of the fifty two rainfall districts into which India is divided, the heaviest average fall being in Malabar There was no rain over Burma or in the Konkan, the Bombay Deccan, Guzerat, Kathiawar, Sind or the Jeypore district of North Madras, but in all these divisions the rainfall expected is either nil or exceedingly slight The rainfall was in excess of the normal in one or two divisions in Bengal, in several divisions in the North Western Provinces in the submontane division of the Punjab, all over the south of the Peninsula and at all the Central India, Rajputana and Central Provinces divisions Elsewhere it was defective, but generally by small amounts The maximum falls exhibited large variations In Bengal and Assam the only large fall reported was 3 inches at Sudiya in Lakhimpur In the North Western Provinces the maximum falls were generally about ½ inch, but Bora, in the Allahabad District received 3 inches, and Muskara (Hamirpur) 1 inch In the southern parts of the Punjab the maxima were also generally about ½ inch, but in the submontane and north western divisions they generally exceeded 1 inch and in Pipli in Umballa the fall equalled 1½ inch In the south of the Peninsula the falls were larger Palghat (Calicut) received 4 inches, Cotlayam (Travancore) 3 inches Salyamangar (Coimbatore) 4½ inches, Katagari (Nilgiris) 3 inches in the central parts of the country the maxima were relatively small, seldom exceeding 1 inch, and in Rajputana and Central India they were even smaller

The final column of the concluding table shows that in Chota Nagpur and several divisions of the North Western Provinces, the Punjab, and Central India there has been a considerable improvement in the seasonal rainfall

1

| Province | Division | Rainfall data for week ending 10th March 1890 — Average actual rainfall of Division | Average normal rainfall of Division | Excess or defect in inches | Rainfall data from October 15th to 10th March 1890 — Average actual rainfall of season to date | Average normal rainfall October 15th to March 10th | Excess or defect of (seasonal) rainfall expressed as a per centage |

REVENUE AND AGRICULTURAL DEPARTMENT

# Weekly Report on the State of the Season and Prospects of the Crops

**Madras** —*For week ending 8th March* —No rain in Godaveri, Cuddapah, Kurnool Madras and Chingleput moderate in Tinnevelly Nilgiris and Malabar, and slight elsewhere Crops generally good but withered in parts of Nellore Chingleput, South Arcot, Tanjore, Tinnevelly and Coimbatore Paddy blighted in parts of North Arcot Prices generally steady Prospects fair

*For week ending 15th March* —No rain in Bellary, Anantapur, Madras, Chingleput, South Arcot, Tanjore Trichinopoly and South Canara, slight elsewhere Crops generally good but withering in parts of Nellore, Chingleput, South Arcot Tanjore, Trichinopoly, Coimbatore and Tinnevelly crops blighted in parts of North Arcot Outturn of paddy and dry grains below average in many districts Prices generally rising Prospects fair

**Bombay** —*For week ending 19th March* —Slight rain in two talukas of Sind Crops damaged by locusts in Shikarpur poor in Nasik and below average in Satara *Jowari* in Ahmednagar withered and cotton in Dharwar blighted Prospects otherwise satisfactory

**Bengal** —*For week ending 18th March* —Rainfall more important than for some weeks past, being rather general in South West and East Bengal Orissa, and Chota Nagpore Cultivation for early crops proceeding but in North Bengal rain much wanted *Boro* or spring rice doing well *Rabi* crops being gathered with generally fair results Sugarcane harvest nearly over, and new cuttings being planted out Opium collection satisfactory, but in Mozufferpore and Sarun it has suffered from high wind and cloudy weather In Hajipore Sub agency outturn of opium will be below the average In Chota Nagpore rain has done some damage to the *mohwa* crop Price of rice remains steady and high Nothing further to report regarding Balasore

**North-Western Provinces and Oudh** —*For week ending 19th March* —Weather warmer and occasionally cloudy, but no rain The *rabi* on dry lands in Kumaon is nearly withered elsewhere harvesting is in progress, and opium collection has begun in Partabgarh the flow of juice is reported to be poor Summer crops are being irrigated and cane and indigo being sown Grain is scarce in Kumaon and prices high, but elsewhere markets are fairly supplied, though prices are still unsteady

**Punjab** —*For week ending 19th March* —Slight rain has fallen in parts of Ferozepore and Rawalpindi Prices rising in Hissar, Multan Rawalpindi Dera Ismail Khan and Peshawar, stationary elsewhere Sowings of extra *rabi* in progress in Lahore Ploughings and sowings of *kharif* commenced in Jullundur, Sialkot and Lahore Crops are said to be average in irrigated tracts and indifferent elsewhere Outturn is expected below average More rain urgently needed throughout the Province Fodder is reported scarce in Hissar, Delhi, Jullundur, Lahore and parts of Multan and Rawalpindi Poppy sowings completed in Amritsar

**Central Provinces** —*For week ending 19th March* —Weather cloudy in southern and eastern districts with some heavy showers in Sambalpur Hail has caused some damage in Saugor, Seoni and Raipur but the prospects of the *rabi* crops continue generally favourable Prices steady

**Burma** —*For week ending 15th March* —Slight rain fell in Akyab in Lower Burma, and rain fell in ten districts in Upper Burma The crop prospect is on the whole good In Lower Burma there is a rise in the price of paddy in Akyab and Thayetmyo, elsewhere no fluctuations are shown In Upper Burma there is fall in the price in Pokokku, elsewhere no changes

**Assam** —*For week ending 19th March*—Weather seasonable Rainfall almost general Sowing of early rice commenced Pressing of sugarcane and gathering of mustard still continue Plucking of tea leaves begun in some gardens

**Mysore and Coorg** —*For week ending 12th March*—Some rain in the civil and military station and in parts of Bangalore and Hassan districts Crops and prospects good Outturn of harvests favourable Prices slightly risen in Tumkur and fallen in Mysore district

*For week ending 19th March*—Standing crops in good condition in Mysore Rain required in Kolar Prospects favourable Harvesting continues Prices slightly fallen in Shimoga

No rain in Coorg Coffee blossoms out

**Berar and Hyderabad** —*For week ending 12th March*—No rain at Hyderabad Weeding of *tabi* crops and reaping of *rabi* crops continue Prices stationary

*For week ending 19th March*—In Berar the weather is warm and cloudy Threshing of *rabi* in progress Land under preparation for next season Fodder sufficient except in Ellichpur and Dariapur taluks Prices stationary

**Central India** —*For week ending 19th March*—No rain fell during week Crops and opium in Baghelkhand reported damaged by frost and rain No other change of importance since last week

**Rajputana** —*For week ending 19th March*—Drops of rain in Marwar and Jeypore Agricultural operations satisfactory except in Kerowli Standing crops good, slight damage by recent rain in parts of Kotah, Jeypore and Bhurtpore Agricultural stock good Pasturage or fodder sufficient except in Marwar and Dholepore Prices rising in Kerowli and Ulwar, steady elsewhere

**Nepal** —*For week ending 13th March*—No rain Weather is beginning to be warm Prospects fair

### SCHEME FOR GIVING IMPERIAL PROTECTION TO PATENTS DESIGNS AND TRADE MARKS IN THE UNITED KINGDOM INDIA AND THE COLONIES

CIRCULAR No $\frac{532}{72-2}$P

*Extract from the Proceedings of the Government of India, Revenue and Agricultural Department (Patents), dated Calcutta, the 13th March 1890*

### PATENTS

The following Despatch from Her Majesty's Secretary of State for India relative to a proposed scheme for giving Imperial protection to Patents, Designs, and Trade marks in the United Kingdom, India, and the Colonies, is published for general information —

No 10 (Statistics) dated India Office, London the 23rd January 1890

*From*—*The* RIGHT HON BLE VISCOUNT CROSS, G C B, *Her Majesty s Secretary of State for India,*

*To*—*The Government of India*

I forward, for the consideration of Your Excellency's Government, a copy of a memorial from the Associated Chambers of Commerce, and of the reply which I have caused to

be sent thereto upon the subject of a scheme for giving Imperial protection to patents, designs, and trade marks in the United Kingdom, India and the Colonies

2 The patent business of India has increased very little since 1859 the latest return received from your Government shows 30 patents filed in the year 1860 and only 217 in 1886, while the same return shows no design registered under Act XIII of 1872 In the United Kingdom there were 9,226 patents sealed, 26,165 designs registered and 5,520 trade marks registered for the year 1887 If a practicable scheme is suggested for realizing the objects supported by the Associated Chambers, and if such scheme should be accepted by Great Britain and the Colonies, then it might be for the advantage of India to come under such a scheme provided that no share in the patents charges of other countries fell upon India, and provided that no increase in expense was caused to inventors or designers seeking protection in India only

3 I shall keep your Government informed if anything further comes of the suggestions now put forward by the Associated Chambers Meanwhile I suggest that Your Excellency should take steps for ascertaining the views of commercial bodies in India, and of other persons who may be interested upon the matter And I shall be glad to learn hereafter what views your Government may form of the probable advantages disadvantages, and difficulties of the scheme which has been put forward

---

*To*—*The* RIGHT HON BLE VISCOUNT CROSS G C B, *Her Majesty s Secretary of State for India*

The humble memorial of the Associated Chambers of Commerce of the United Kingdom

SHEWETH—

1 That much inconvenience is at the present time caused to traders having interests in patents, designs and trade marks by the necessity which exists for separate grants and registrations of such patents designs and trade marks in the United Kingdom and in the various colonies and dependencies of the Empire

2 That in many instances especially with regard to trade marks, conditions are laid down in the colonies which preclude the attainment by traders there of the privileges which in respect of the same premises, they have been able to obtain in the United Kingdom

3 That a desire exists in the colonies for a scheme of Imperial protection of patents designs and trade marks upon application made in the applicant's place of origin and that such desire was pointedly expressed at the Colonial Conference held at the Foreign Office in 1887 by the representatives of the colonies

4 That the Association are fully aware of the practical difficulties which stand in the way of the realisation of a scheme of Imperial protection for patents designs and trade marks but they believe that these difficulties in no way affect the principle of such a scheme but relate only to its details and are, moreover, such as by mutual concessions between the colonies and the mother country may be readily removed

5 That any difficulties which at present exist to the realisation of a scheme of Imperial protection of patents designs, and trade marks must of necessity be increased by lapse of time, inasmuch as interests adverse to those of existing patentees and owners of registered designs and trade marks may grow up in the various colonies and dependencies of the Empire until they in themselves create a formidable obstacle to the realization of the project, the subject of this memorial, and for this reason it is the opinion of the Associated Chambers of Commerce that it is a matter of great regret that no steps have been taken in this direction since the subject was mooted at the Colonial Conference in 1887 and it appears to the Association that the matter is one of urgency which should be taken in hand without any further delay

6 And lastly, the Association is of opinion that the realization of a scheme of this description whereby the mother country and her colonies and dependencies will be welded together for a practical purpose, namely the protection of their common interests in industrial property of great value and importance would be if only a partial, yet at the same time a most practical realization of the general aspirations of men of all parties in the Empire in the direction of Imperial Federation

Given under the common seal of this Association the first day of January 1890

---

No R & S 9, dated India Office the 23rd January, 1890

*From*—SIR HORACE WALPOLE, *Under Secretary of State for India*,

*To*—*The President of the Associated Chambers of Commerce*

I am directed by the Secretary of State for India in Council to acknowledge the receipt of a memorial in which the Associated Chambers of Commerce of the United Kingdom

remark upon the inconvenience caused by the existence of different Patent and Designs laws in India and other parts of the British Empire, and urge the adoption of some scheme whereby Imperial protection, over the whole of Great Britain and the Colonial and Indian possessions of Her Majesty, might be given to patents, designs and trade-marks

In reply, I am directed to say that your representation will be forwarded for the consideration of the Government of India

ORDER —Ordered, that the foregoing despatch, with enclosures, be published in the Supplement to the *Gazette of India* for general information, and that copies be forwarded to the Governments of Madras, Bombay, Bengal, and the North Western Provinces and Oudh, and the Chief Commissioner of Burma, with the request that the views of the Chambers of Commerce and other persons interested in the matter may be obtained and communicated to the Government of India

GOVERNMENT OF INDIA

# FINANCE AND COMMERCE DEPARTMENT

## REPORT ON THE CASH BALANCES AND MOVEMENT OF FUNDS FOR THE PAST YEAR

No 1964 dated Calcutta the 22nd February 1890

From—The Comptroller and Auditor General

To—The Secretary to the Government of India, Finance and Commerce Department

I have the honour to submit my report on the cash balances and resource operations of our treasuries for the twelve months from October 1888 to September 1889

## Minimum Balances

2 The following table gives the estimated minimum balance for all India and its distribution among the several provinces for each month from October 1889 to September 1890 The figures are again distributed between District Treasuries and Reserve Treasuries and Presidency Banks in the accompanying statements marked A and B As explained in the last report, these balances are computed with the object of providing a sum of eight crores in December, and such amounts in the previous four or five months as will admit of a steady fall from July to November and still leave the eight crores in December As the estimates for the year are framed on the understanding that a considerable part of our Public Works expenditure is met from loans raised in July or August, the estimated amounts to be so received are duly added to the balances of August and September in addition to the net probable transactions of those months Sufficient margin is allowed for such fluctuations in expenditure as may be produced by a sudden demand for telegraphic transfers from London or by a bumper opium crop The balances so estimated it must be remembered, are minimum balances, and they will be found to be lower than are usually reached in the several months of the year The Provincial figures represent the most economical distribution of this minimum and are safe practical guides for working our treasuries, since they enable Accountants General to ascertain the amount of help that may actually be required in any particular months

(In lakhs of Rupees)

| Month | India | Central Provinces | Burma | Assam | Bengal | N W Provinces and Oudh | Punjab | Madras | Bombay | Total | Estimated gross issues |
|---|---|---|---|---|---|---|---|---|---|---|---|
| 1st October 1889 | 2 68 | 55 | 77 | 22 | 1 05 | 1 27 | 94 | 1,02 | 2 10 | 10 60 | 8 20 |
| November | 1 82 | 49 | 48 | 18 | 1 15 | 1 00 | 83 | 1 00 | 1 80 | 8 65 | 8 24 |

| January 1890 | 1 58 | 33 | 40 | 22 | 1 00 | 1 29 | 84 | 1 24 | 1 65 | 8 55 | 9 37 |
| February | 1 83 | 39 | 40 | 21 | 1 15 | 1 69 | 1 02 | 2 01 | 2 00 | 10 70 | 8 85 |
| March | 2 14 | 49 | 62 | 26 | 1 15 | 1 59 | 96 | 1 89 | 1 90 | 11 00 | 10 76 |
| April | 2 53 | 47 | 82 | 27 | 1 65 | 1 57 | 99 | 2 10 | 2 10 | 12 50 | 10 04 |
| May | 1 81 | 42 | 83 | 33 | 1 05 | 1 36 | 1 01 | 1 64 | 2 25 | 10 70 | 9,43 |
| June | 2 03 | 52 | 77 | 29 | 1 10 | 1 08 | 94 | 1 27 | 2 40 | 11 00 | 8 27 |
| July | 2 88 | 64 | 66 | 25 | 1 15 | 2 19 | 1 12 | 1 36 | 2 25 | 12 50 | 8 31 |
| August | 2 55 | 61 | 62 | 26 | 1 30 | 2 29 | 1 26 | 1 32 | 2 30 | 12 50 | 8 14 |
| September | 2 47 | 56 | 64 | 22 | 1 10 | 1 75 | 1 21 | 1 15 | 2 10 | 11 20 | 8 42 |

3 It was stated in my last report that the method of providing a sufficient balance for one month's expenditure was more useful in limited areas than when applied to the whole of India The principle involved in this method is that the solvency of the treasuries for one month is ensured by providing for the gross expenditure without regard to the expected receipts of the month I have noted above in the last column the estimated gross issues for each month, and the details of the calculation are given below It will be seen that these gross issues are larger than our working minimum in the period of pressure, while for the revenue season they are necessarily much lower than the expected balances Practically, however, we cannot depend on the month's gross expenditure plan

N

paring like with like, the Public Cash balances in England are much more than double those of India

13 The following is the net result of inter provincial remittances during the year, the details of which are given in the statement, marked C, annexed to this report —

| | Funds supplied to other Provinces | Funds received from other Provinces | Net received + Net supplied— | Previous year Net received + Net supplied— |
|---|---|---|---|---|
| | R | R | R | R |
| India General | 7 95,67 491 | 18 73 27 782 | +10 77 60 291 | +7 31,97 727 |
| Central Provinces | 20 05 800 | 20 76 500 | +70 700 | +2 70 618 |
| Burma | 72 57 811 | 23 30 200 | —49 27 611 | +59 34 743 |

| Kurrachee | | 60 | | | | 60 | |

15 The most noticeable point in the above statements is again the large transfers from Calcutta to Bombay through the Banks These transfers are allowed at a small premium to assist trade, and remittances of coin are made from Bombay to Calcutta at Government expense to meet the demands As explained in former reports the tendency of trade being to move coin from head quarters to the interior, while our resource operations are directed to the collection of surplus to head quarters for Council Bill payments, these collections are made, as far as possible, either by bills or transfers, and when these are insufficient, coin remittances become necessary The most important of the coin remittances

are made from Bombay, where the greater portion of the silver imported into India is tendered for coinage As a general rule, when specie is withdrawn from districts which are local centres of trade, the operation has to be reversed later either by Government or the public, and advantage has been taken of this fact to dispose of the treasury surplus by issue of bills at a small premium The system under which this becomes possible by making use of the large cash balances held as the Paper Currency Reserve, while keeping this reserve in tact, was explained in the last Financial Statement The Accountant General, Bengal, reports as follows on the working of the plan in his province during the past year

The treasuries situated near the several centres of trade, against which supply bills were drawn and telegraphic transfers ordered during the year are chiefly as follows —

(1) Jalpaiguri (2) Dinajpur (3) Rungpur, (4) Bogra (5) Mymensing (6) Serajganj, (7) Maldah (8) Rajshahye, (9) Purneah (10) Chittagong (11) Backerganj and (12) Balasore

The drawings of the current year show an increase of R20 36 000 over those of the preceding year This favourable result has been attained chiefly by transferring periodically to temporary currency chests the surplus balance in whole rupees of the treasuries above named which were re transferred to the respective treasuries at particular seasons when there was a demand for bills and drawn against By this method the advantage of being able to dispose of the surplus specie of the treasuries named and those of the neighbouring treasuries which were remitted to them at a premium had been gained to the great advantage of local trade and the incidental costs in remitting the surplus specie periodically to Calcutta which would otherwise have been incurred saved The general principle observed in these transactions is never to remove a single coin that will have to be replaced within a short time by Government or the public Thus the surplus of the jute producing districts is stored until the jute season comes on and then is entirely removed by bills to Calcutta If wanted in the meantime, it is deposited in a temporary currency chest and credit given in Calcutta

16 Other means are also adopted for regulating our resource operations with the demands of trade Large amounts of the local surplus at mofussil treasuries are taken by the Presidency Banks by opposite payment at Presidency towns In the North Western Provinces the surplus revenue is collected generally at treasuries banking with branches of the Bank of Bengal, and if not immediately taken up it is transferred to temporary currency chests from which it is gradually withdrawn as demands arise In Madras, the total sum withdrawn from district treasuries amounted to 5,62, of which 3 28 lakhs were transferred through the Bank's branches The actual trade demand on the head quarters treasury is represented by a sum of 2 82 lakhs in Council Bills and transfers, and 2,65 in Bank Bills purchased, amounting in the aggregate to 5,47 lakhs of which 3,28 was met by means of Bank transfers as stated above, and 68 lakhs by coin remittance, leaving a deficiency of 1 51 lakhs, to cover which a large currency remittance of silver from Bombay was necessary

17 I may also mention that when the treasury balances are not sufficient to meet the transfers required for trade, they are granted through the Currency Department at a premium This arrangement, together with the system of currency transfers for treasury purposes noted above, no doubt reduces, to a considerable extent our charges for coin remittances, but at the same time the distribution of the currency balances is greatly affected For instance, a large part of the coin balance held against the currency circulation in Bengal and the North-Western Provinces, is ordinarily locked up in temporary currency agencies while in Rangoon, we allow a larger balance to accumulate than would be justified by the circumstances of the Burma Circle The following statement gives the amount of transfers granted through the currency during the year 1888 89, and the premium realised on them The largest of these remittances are made between Calcutta, Rangoon, and Bombay The remittances to Rangoon are chiefly made for financing the rice crop, while those from Bombay are, no doubt, due to the large coinage of silver at that place The remittances of silver to Rangoon are now made by Government steamers which are available in the transport season In the case of district agencies in Bengal and the North Western Provinces, no coin remittances are necessary, but the plan is resorted to to avoid treasury remittances that would otherwise be required Hence the whole of the premium realised on the currency transfers in these provinces is a gain to Government

*Statement of Telegraphic Transfers granted to Banks, Merchants and others, through the Currency Department, during 1888-89*

18 During the twelve months under report, the demands for Supply Bills in Upper Burma fell off to a considerable extent, owing it is believed, to the good crops of the year which much reduced the import of rice from the Lower Provinces Considerable remittances of silver had to be made to that country to replace the large withdrawals of Burmese coin These coin remittances were made from Lower Burma, and Burma, as a whole, was able for the first time since the recent annexation to render assistance to India the amount so drawn in the twelve months under review being R49 27,611 as entered in the statement in paragraph 13 This assistance comprised 32 lakhs transferred through currency, over 18 lakhs sent to the Calcutta Mint in Burmese coin, and two lakhs in foreign circle notes sent to the different provinces On the other hand, Burma received three lakhs in small silver and copper and ten lakhs in subscriptions to the loan of rupees two crores Allowing for issues of foreign remittance transfer receipts, the net surplus of receipts over disbursements in Burma amounted to about 22 lakhs The remittances by Bengal and the North Western Provinces to the opium districts were small owing to the poor crop of the year and of the sum of 1,47 lakhs so sent as noted above, 12½ lakhs had to be withdrawn from Patna to Calcutta through the Bank of Bengal Bombay required less help from other provinces than was necessary in the preceding twelve months, as its cash balance on 30th September 1888 was very high, and was reduced by 2,25 lakhs in the subsequent twelve months It will be understood that in these remarks only local cash transactions are regarded, nothing is shown by them of the surplus or deficit of a province as affecting Revenue or Charge

19 In connection with the large cash remittances, I should report to Government a change of system which has been introduced during the past year, hitherto, for the sake of economy, advantage has been taken of Government steamers to distribute coin from Bombay to Calcutta, Madras, Karachi, and Rangoon, for the last two places the same arrangement will continue, but for Calcutta and Madras it appeared that, considering the relations between Government and the Railway Companies and the risk of loss by sea, it would be desirable to try and arrange for the transit of large remittances of coin on moderate terms by railway

20 I accordingly addressed the East Indian the Great Indian Peninsula, and the Madras Railway Companies, and obtained their consent to the following arrangement For some years past a reduced rate of one pie per maund per mile has been levied on consignments of 20 lakhs or upwards, it is now agreed that on consignments of 50 lakhs from Bombay to Calcutta or Madras ⅝ pie per maund per mile shall be charged, at their reduced rate I propose in future to send all these large remittances by land instead of by sea

## Small Silver and Copper Coin

21 A statement D is annexed giving the circulation of small coin during the twelve months under review, as compared with the previous three years, and it shews that the absorption of these coins in all the provinces continues as large

as before There is a slight decline in the demands for single pice in the Central Provinces as the Railway lines through that province are approaching comple tion On the other hand, the construction of the Bengal-Nagpur Railway through Chota Nagpore has increased the demand in Bengal as compared with previous years; and the large and still increasing consumption in Assam deserves notice The copper coin of native mintage in Burma has not been accepted in Govern ment treasuries from 1st October last, and the demand for British coins is steadily increasing The rise in the Punjab is ascribed to the enforcement of the Metal Tokens A t of 1889, which drove out of circulation Mansuri pice from the eastern districts of the province

## Shroff-marked Coin

22 The following statement shews the collection and recoinage of shroff marked coins during the year under review, as compared with the three previous years —

(In thousands )

| | India | Centra Provinces | Burma | Assam | Bengal | North Western Provinces and Oudh | Punjab | Madras | Bomba | TOTAL |
|---|---|---|---|---|---|---|---|---|---|---|
| Opening Balance | 50 | 4 | 4 | 1 | 9 | 93 | 98 | 34 | 22 | 3 15 |
| Sent to Calcutta Mint | 2 59 | | 2 | | 10 | —2 29 | | 87 | | 1 29 |
| Bombay | | | | | •• | | | 6 | 1 02 | 1,08 |
| Closing Balance | 40 | 18 | 7 | 2 | 10 | 10,60 | 19,51 | 18 | 10 | 31 16 |
| Net Receipts 1888-89 | 2 49 | 14 | 5 | 1 | 11 | 7 38 | 18,53 | 77 | 90 | 30 38 |
| 1887 88 | 1 64 | 12 | 2 | 1 | 12 | 9 12 | 30 54 | 1 13 | 92 | 43 62 |
| 1886-87 | 1 25 | 12 | 95 | 1 | 3 | 11 77 | 11 93 | 1 59 | 1 34 | 29 19 |
| 1885 86 | 99 | 20 | 3 | 2 | 19 | 11 91 | 16 64 | 1 77 | 1 81 | 33 56 |
| 1884 85 | 98 | 45 | 1 | 3 | 23 | 14 46 | 10 66 | 1 28 | 2 21 | 30 31 |

23 The diminished withdrawals of shroff marked coin in the North Western Provinces point to the progressive purification of the coinage In the Punjab over 40 lakhs of rupees were received from the Patiala and Kashmir States for railway construction and a part of these amounts appears to have been paid in shroff marked coin The total amount of Burmese Peacock coin withdrawn from circulation up to 31st December last is 77½ lakhs

— — —

GOVERNMENT OF INDIA

PUBLIC WORKS DEPARTMENT

GENERAL

*Calcutta the 25th March 1890*

**NORTH WESTERN RAILWAY**

**Completion of the bridge over the Chenab River at Sher Shah**

RESOLUTION—The bridge near Sher Shah over the Chenab River having been complete the Governor General in Council desires to recor his appreciation of the successful manner i which this important work has been carried ou

2 This bridge the last link which connec the Sind Sagar Railway with the North Wester Railway, consists of 17 spans of 200 feet wit a head way of 14 feet above high flood leve The 16 piers are founded on double wells sun

about 77 feet below low water There is a com bined roadway for cart and railway traffic the rails being flush with the roadway

3 The cost of the bridge itself is estimated at R25 39,156 In addition to this, R8,00 000 have been provided for the protective works neces sary for training the river and R8 98 000 for the approaches to the bridge and the junction with the North Western Railway at Mozuffer abad The total cost, inclusive of the military defences of the bridge, is R42 70,000

4 The bridge was begun in September 1888 and finished at the end of 1889 so that the time spent in construction was only 16 months The rapidity with which the work was carried out reflects the highest credit on the officers and subordinates employed

5 His Excellency the Governor General in Council desires specially to record his apprecia tion of the services of Mr J R Bell M I C E Superintending Engineer and Engineer in Chief Mr F J F Spring I C F and M I C E the Executive Engineer in charge Rai Sahib Preonath Ghose Executive Engineer Mr J Adam A M I C E, Assistant Engineer Mr R R Giles Assistant Engineer and Mr J Durrand Honorary Assistant Engineer

# REVENUE DEPARTMENT

## A Dictionary of the Economic Products of India.

BY DR GEO. WATT C I E,

*Reporter on Economic Products*

**Published u der the authority of the Government of India in the Revenue and Agricultural Department**

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing Calcutta

The Dictionary is intended to deal with the products of India—animal vegetable and mineral each product being treated after a uniform plan the paragraphs of whi h give the scientific vernacular and European names; habitat or source history prope ties and uses both chemical and industrial; trade statistics markets &c The work is arranged alphabetically according to sc entific nomenclature but commercial and important vernacular names are lso given as cross references so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader

An important feature of the Dictionary consists in the fact that der ved inf rmation is in every instance giv n under quotation n arks and with a reference to the original publ cation Numer us co tributions have however furnished the results of new discoveries and confirm d the vernacular names so that the Dictionary is not only a complete co npilation of publ shed info mation but has been brought abreast of the most recent inventions and discoveries.

Volume I c ntains the letters A and B and consists of 559 royal pag s, Volume II embraces the letter C in 689 pages; Volume III is in course of preparation and will contain the letters D E F and G The whole work will it is expected be completed n six volumes by 1891 but a seventh volume may also b issu d cons sting of an Index to all the vernacular and other names c ntained n the Dictionary and this as a work of reference it is hoped may prove of considerable val e

The price to s ibsc ibe s will be in India R30 and in England 2 g ineas *payable in advance* for the com plete set An extra charge for packing and postage will be made for the set in India, at 8 an as per volume and for England at 2 rupees 6 annas per volume

For copies bo ind in half calf or half morocco R6 and 8 shillings r spect vely will be charged extra for the wl ol sets

***No copie will be i sued to non subscribers till the work is complete a d n single volume will b sold sepa ately The pri e to n n subsc be s will be R45 in India, and 3 gu neas in England exclusiv of pack ng and postage*

### Acts of the Governor General's Council assented to by the Governor General

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 28th March 1890 and is hereby promulgated for general information —

### ACT NO XIII OF 1890

*An Act to amend the Excise Act 1881 and the Bengal Excise Act 1878 and to apply to Malt Liquor certain provisions of the Sea Customs Act 1878 respecting Spirit*

WHEREAS it is expedient to amend the Excise Act, 1881 and the Bengal Excise Act 1878 and to apply to malt liquor certain provisions of the Sea Customs Act, 1878 respecting spirit It is hereby enacted as follows —

Title and commencement

1 (*1*) This Act may be called the Excise (Malt Liquors) Act 1890 and

(*2*) It shall come into force at once

*Excise Act 1881*

Insertion of new section after section 7 Act XXII 1881

2 After section 7 of the Excise Act 1881 the following shall be inserted namely —

Duty on fermented liquor

"7A No fermented liquor shall be removed from a brewery licensed under section 5 until—

(*a*) duty has been paid thereon at the rate for the time being leviable under the Indian Tariff Act, 1882, on like liquor imported by sea into any part of British India except Aden and Perim or at such lower rate as the Local Government having regard to the circumstances of the brewery or of the local area in which the brewery is situate may from time to time prescribe, or

(*b*) a bond for such duty has been executed

Substitution of new section for section 8 Act XXII 1881

3 For section 8 of the said Act the following shall be substituted, namely —

Power to make rules as to distilleries and breweries licensed under section 5

"8 The Chief Revenue authority may from time to time make rules as to—

(*a*) the granting of licenses for distilleries stills and breweries under section 5,

(*b*) the notices to be given by the proprietor of a licensed distillery or licensed brewery when he commences and discontinues work

(*c*) the size and description of the stills in such distillery

(*d*) the storing and passing out of the spirit made in such distillery or of the fermented liquor made in such brewery, and the contents of the passes

(*e*) the inspection and examination of such distillery or brewery and the warehouses connected therewith, and of the spirit or fermented liquor made and stored therein

(*f*) the furnishing of statements of the spirit and the stills coppers, casks and other utensils in such distillery, or of the fermented liquor and the mashtuns, underbacks, wort receivers coppers heating tanks coolers and collecting fermenting and other vessels in such brewery

4 To sub section (2) of section 23 of the said Act, as amended by Act II of 1887, the following shall be added namely —

Addition to section 23 (2) Act XXII 1881

or such lower duty as the Local Government having regard to the rate or rates of duty for the time being leviable under clause (a) of section 7A, may from time to time prescribe '

5. In clause (b) of section 36 of the said Act the words, figure and letter or section 7A shall be inserted after the word and figure section 7 , and the words or any fermented liquor from a brewery ' after the word 'distillery

Amendment of clause (b) of section 36 Act XXII 1881

*Bengal Excise Act 1878*

6 In section 18 of the Bengal Excise Act 1878 as amended by the Act of the Governor General in Council No IX of 1885 the words ' or fermented shall be inserted after the word spirituous wherever that word occurs, and the words or brewery after the word 'distillery

Amendment of section 18 Bengal Act VII 1878

7 In section 19 of the said Act as amended by the Act of the Lieutenant Governor of Bengal in Council No IV of 1881, the words "or fermented" shall be inserted after the word "spirituous" in both the places where that word occurs

Amendment of section 19 Bengal Act VII 1878

8 Nothing in either of the two last foregoing sections shall affect any Act passed by the Lieutenant Governor of Bengal in Council after the commencement of this Act

Effect of two last foregoing sections on legislative authority of Bengal Council

*Drawback of Excise duty on Export of Malt Liquor*

9 The provisions of section 150 of the Sea Customs Act, 1878, with respect to the allowance of a drawback of excise duty paid on spirit manufactured in British India and exported to a foreign port and with respect to the regulation of the drawback by the quantity of such spirit, shall apply also so far as they can be made applicable to fermented liquor made in British India from malt and so exported and to the drawback of the excise duty paid on such liquor

Application of provisions of section 150 Act VIII 1878 to malt liquor

S HARVEY JAMES
*Secretary to the Government of India*

### GUARDIANS AND WARDS BILL

The Hon'ble MR SCOBLE moved that the Report of the Select Committee on the Bill to consolidate and amend the law relating to Guardian and Ward be taken into consideration

The Hon'ble RAO BAHÁDUR KRISHNAJI LAKSHMAN NULKAR said — I beg leave to make one or two observations on the general policy which the Indian

Legislature has to follow in steering clear of difficulties presented by the different religions, and the multiplicity of social and domestic customs to be found among the different races, communities, castes and tribes into which the Indian populations are divided These difficulties assume a more or less practical form in the actual administration of the laws passed here, when these touch the dividing line between questions of personal and property rights on the one side and the religious and social or domestic customs and usages having the force of law on the other Two of the measures which this Council has had to deliberate upon during the present session furnish apt illustrations of the difficulties I am alluding to, namely, the Charitable Endowments Bill (now Act VI of 1890) and the Bill now under consideration relating to guardian and ward In both a more efficient safeguard had to be provided for a certain description of public and personal properties without unduly interfering with the religious, social and domestic institutions or susceptibilities of the people concerned The criticisms which gathered round these Bills elicited opinions almost diametrically opposed to each other, the one representing that the measures did not go far enough and the other expressing doubts whether they might not be said to be going too far for the necessities of the case In the first instance, while one party expressed the desire that malversation of even religious endowments should be prevented by the Executive Government undertaking their direct management the other strongly advised strict adherence to the policy of avoiding all connection between District officers and such management As regards the Bill under consideration the questions involved are even more complicated, and consequently the criticisms are not less divergent It was suggested by some that all guardians should be compelled to place themselves entirely under the direct executive control of the Civil Courts and those Courts should be further empowered to interpose by taking part in the management on behalf of minors when they are members of undivided Hindu families, while others pointed out the danger of such provisions which were further shown to be unnecessary in the presence of other less objectionable remedies provided by the existing law And thus it required quite four years of correspondence and consideration to find a safe way as far as it was possible out of all these difficulties It seems to me that in considering both these measures the Select Committees have, so far as they could steered clear of the dangers both of over legislation and of unnecessary interference with delicate questions of religious, social and domestic concerns of the people, the general laws relating to the points raised being considered sufficient to meet the contingencies brought to notice If the parties concerned fail to avail themselves of the ample remedies already provided such failure is traceable to lack of public spirit and a proper sense of duty on their part These considerations are peculiarly apposite as regards various topics of social reform which have of late been exercising the minds of my countrymen While the activities and agitations which are going on for some time past in the different parts of India are healthy signs of the awakening of the Hindu mind to a sense of responsibility on the all-important subject of social reform, the calls for special legislation now and then made deserves a mature and sober consideration on the part of those who make them As a general proposition, it is undeniable that in India the interests of minors and women call for special protection and the statute book presents evidence of the attempts made from time to time to adequately safeguard those interests If it could be shown that after actual trials the existing legal remedies are not found sufficient to prevent the authority of parents and heads of families from being flagrantly and criminally abused, it seems to me that an appeal to the Legislature for further help would be appropriate But the fact must never be lost sight of that, while in these days the laws of a country may provide remedies against abuse of the authority in question, it is for the intelligent, influential and public spirited citizens to see that these remedies are fully and timely resorted to, and found to be defective, before calling for amendment or blaming Government for the existence of the alleged defects, because the path of the Legislature in successfully handling these delicate matters is no smoother than that of the active social reformer in the presence of the diversity of opinions strongly held and persisted in with phenomenal tenacity by all parties to the controversy"

The Hon'ble MR EVANS said —"The Hon'ble Member in charge of the Bill

has so thoroughly laid before the Council on the last occasion, when presenting the Report of the Select Committee, the whole history of the main provisions of the Bill, that it is unnecessary for me to follow him upon those points I desire only to say that, so far as this is a Bill for consolidating the existing provisions, I hope it will be useful in that it gathers them together to a great extent in one Act As for the remainder, it has been an exceedingly arduous task for the Select Committee, as has just been pointed out to steer clear of the great difficulties connected with this question On the one hand, they had to provide sufficient safeguards for the persons and properties of minors, and, on the other to avoid disturbing the habits and feelings of the Native community, and also they had to avoid giving fresh facilities for a most undesirable class of harassing litigation in which infants are used as pawns on the chess board of litigation in order to harass adult members of the family They also had to avoid, so far as possible, throwing upon the District Courts large and responsible duties which they have no practical machinery for performing The task has been a difficult one, and the Select Committee have endeavoured to meet it in the most practical manner they could What success they have achieved can only be discovered by the working of the Act The success of the Act very much depends upon the discretion with which it may be worked by District officers I hope the powers which have been given to the High Courts for assisting the District officers in the exercise of their discretion by means of rules will prove of aid to them If the Act is worked with discretion by District officers, I hope it may prove successful"

The Hon'ble RÁJÁ DURGA CHARN LAHA said —

"I was a member of the Select Committee which considered the Bill There were two important points upon which there was considerable difference of opinion A Committee of the Hon'ble Judges of the Calcutta High Court was of opinion that without compelling a *de facto* guardian in every case to come to the Court for appointment or a declaration of his title, the Bill should be so framed as to make it necessary for guardians of large estates to place themselves under the supervision of the Court It is clear from this statement that the Committee of the Hon'ble Judges thought that it was not absolutely necessary for a guardian in the interests of a minor, to resort to the Court in all cases By not resorting to the Court the guardian is free to act on his own responsibility without being hampered with the obligation of making references and applications to the Court for orders regarding every small matter and he is left in a great measure to act on his own discretion With all deference to the opinion of the Hon'ble Judges, no legal check should, I think, be devised to harass him in the management even of a large estate under his charge The only way in which he could be made to place himself under the control and supervision of the Court would be to compel him to submit periodical accounts It is only in the case of dishonest guardians that such a safeguard would be necessary Provision is made in the Bill to guard against such contingencies Sections 36 and 37 provide that all guardians and their heirs are liable to the minor for acts done by the guardian, whether appointed and declared or not, and the Bill gives the Court power to remove a guardian for any wrongful acts These provisions, I submit, are sufficient to protect the interests of minors whenever their guardians act in a dishonest or wrongful way In the case of honest and conscientious guardians any interference by the Court with their management would only tend to cripple their usefulness These *de facto* guardians act as a rule without remuneration and to harass them with a liability to file accounts would be to dissuade them from taking upon themselves the trust The consequence would be that in a large number of cases inferior persons of doubtful honesty would be entrusted with the management of these estates while subjecting them to increased expense The value of the advantage which a minor's estate often derives from the supervision of a guardian, who would only undertake the trust out of regard to the ward, cannot be overrated No paid agency could do the work of management so efficiently as he would He would not accept the trust if he were to be troubled with Court interference and to prevent him from undertaking the work would be to do a great injury to the minor's estate Under the circumstances,

it would have been injudicious, in my opinion, to frame the Bill in such a way as to compel a *de facto* guardian even of a large estate to place himself under the control and supervision of the Court

"Opinions were also divided as to the expediency of making a provision in the Bill relating to the appointment of guardians in cases in which the interests of minor members of undivided Hindu families are concerned In undivided Hindu families it is generally, or rather invariably, the next friend of the minor who becomes his guardian It is either the mother, brother or uncle who undertakes the trust These persons are particularly interested in the well being of the estate for the benefit of the minor, and, as a rule, they do their duty to the satisfaction of all parties It may certainly happen sometimes that such persons may be dishonestly inclined, and in these cases the Court, on satisfactory proof, has the power to compel them to render accounts or to remove them from the management These remedies, I submit, ought to be sufficient to protect the interests of minors when they are in peril To put in a stranger as a guardian of a minor in a joint Hindu family would simply be to destroy the family union and thus inflict great injury upon all members of the family The family is so constituted that, if a foreign element be introduced into it, it will lead to the destruction of the peace, harmony and happiness of all members thereof It was for these reasons that section 20 of the original Bill has been omitted, and I am glad it was

"It is my firm belief that the Bill as revised by the Select Committee, will well protect the interests of minors There may be individual cases of loss and hardship, but on the whole the advantage, I do not hesitate to say, would far outweigh the disadvantage which may be apprehended"

The Hon'ble SYUD AMEER HOSSEIN said —"As one of the members of the Select Committee who sat on this Bill in the year 1887 as well as in this year, I beg, with Your Excellency's permission, to say a few words

"I congratulate the Hon'ble the Law Member on his bringing the labours of the past four years to a successful close In my humble judgment the great merit of this Bill lies in the fact that it is of a permissive character While it gives guardians every inducement to place themselves under the control of the Court, it does not compel them to do so

"The saving clause contained in section 6 guarantees that in the appointment of guardians due regard will be paid to the personal laws of Hindus, Muhammadans, and other sections of the communities residing in this empire, while section 12, sub section (2), makes provision for due observance of the customs and manners of this country on the occasion of the production of a respectable female minor before such person as may be appointed by the Court

The provision of section 53 will, I hope sufficiently guard against abuses arising from vexatious suits which may be brought on behalf of minors by persons calling themselves the next friends of the said minors

"With these remarks I beg to support the Bill"

The Motion was put and agreed to

The Hon'ble MR SCOBLE also moved that the Bill, as amended, be passed

The Motion was put and agreed to

## RAILWAYS BILL

The Hon'ble MR SCOBLE also moved that the Report of the Select Committee on the Bill to consolidate amend and add to the law relating to Railways in India be taken into consideration He said —

"The first observation that I have to make regarding this Bill is that it is of general application It extends to all railways in British India, whether belonging to the State or to Companies A claim has been made by some of the older Guaranteed Companies to have a clause inserted that nothing in the Act should affect existing contracts between the Government and those Companies in the particulars for which such contracts expressly provide, and this claim has received the support of very high authority But, upon careful consideration, the Select Committee decided not to introduce such a clause into the Bill

When I laid the draft before the Council in October, 1888, I stated that in framing the Bill care had been taken to maintain the provisions of those contracts so far as they are consistent with a due regard to the public interest, and in the Bill, as amended by the Select Committee, this condition has been scrupulously observed Indeed, I am not sure that in our anxiety not to interfere with vested rights we have not given a more liberal interpretation to some of the provisions of these contracts than a Court of law would have done and I think it will be found, upon a candid examination that there is nothing in the Bill to affect injuriously the contract rights of the Companies so as to give them any reasonable ground of complaint

"It would be improper for me to occupy the time of the Council by a minute examination of these contracts, but I may say that, in regard to four Companies the contracts provide that they shall carry on the business of carriers of goods and passengers in accordance with the provisions of the law of India for the time being in regard to five others the contracts contain a clause barring claims in respect of the prejudicial effect upon the undertaking or the profits thereof of any Act of the Indian Legislature of general applicability for the time being in force, and in regard to the remaining four Companies the contracts contain no special provision on the point, but provide that the Companies shall carry on the business of common carriers of goods and passengers by railway It is clear from this enumeration that, in regard to the majority of contracts there is no necessity for any special reservation

"The four Companies whose contracts contain no express clause on the subject are the Great Indian Peninsula Railway Company, the Bombay, Baroda and Central India Railway Company, the Madras Railway Company, and the Great Southern of India Railway Company Of these the last mentioned may be left out of account, as its contract will expire in the course of the next few months, so that we are left with three Companies only in whose favour a reservation of contract rights might be operative I will not pause to discuss the question whether or not, having contracted to carry on the business of carriers in a particular country, those Companies must not be held to have contracted to carry on that business in accordance with the law for the time being in force in that country I prefer to call the attention of the Council to the provisions of the Bill which, it is urged, may be found to conflict with the terms or with the tenor of the contract These provisions will be found in sections 42 to 44 of the Bill, and enact that it shall be the duty of a railway administration—

(1) to abstain from making or giving any undue or unreasonable preference or advantage to or in favour of any particular person or Railway Administration or any particular description of traffic

(2) to afford all due and reasonable facilities for receiving and forwarding the traffic carried by other railways so as to supply a convenient continuous line of communication and for the return of rolling stock

(3) to quote, and accept the apportionment of, through rates

"These provisions introduce no novelty into railway legislation, they have been in force in England for many years, they are called for by the development of railway enterprise in India, they are in accordance with the public interest, and I can find no reason, in the silence of the contracts regarding them, for hesitating to make them directly applicable to the Companies in question The extension of railways throughout India has brought about a state of things which was not contemplated when the contracts were made, and for which the contracts make no provision, it would be unreasonable, as well as detrimental to the public interest to hold that Railway Companies which under legislative Acts, have been granted a species of monopoly for the public benefit are exempted from subsequent legislation in regard to the restrictions under which, as circumstances change and new conditions arise that monopoly is to be exercised

"Passing now to the principal provisions of the Bill, the first point to which I desire to draw the attention of the Council is that the existing right of railway administrations to charge terminals is expressly recognized In section 3

(14) terminals are defined to include charges in respect of stations, sidings, wharves, depôts, warehouses, cranes and other similar matters, and of any services rendered thereat Section 45 allows reasonable terminals to be charged, and section 46 points out the method in which the question of reasonableness in regard to terminals may be authoritatively decided In these provisions we have followed the English law Railway administrations perform, in regard to goods, a great many services which would otherwise have to be performed by the servants of the owners of the goods, and for the proper performance of these services they have provided, at considerable cost, accommodation and appliances which greatly facilitate the transaction of business For these services railway administrations in India have from the first been allowed to charge terminals These services are for the benefit of the public, and, not being included in the mileage rate for the mere carriage of the goods, have to be paid for separately It was suggested to the Committee that the levy of terminals should be allowed only at stations at which goods are actually received or delivered, and that no terminals should be leviable where transhipment in the course of the journey was rendered necessary by a break of gauge, but the Committee did not accept this suggestion, preferring to leave it to the proper authority to determine what would be a reasonable terminal under such circumstances

"Chapter II, in regard to the inspection of railways seems to call for no remark In Chapter III, relating to the construction and maintenance of works, the Select Committee acting upon a suggestion of the High Court at Calcutta, has made the exercise of the powers of railway administrations to interfere with roads water courses, subterranean pipes and so forth, subject to the control of the Governor General in Council, who will, in these respects, fulfil the functions of the Board of Trade in England The same chapter provides for the assessment of compensation for interference with private rights, and for the construction of accommodation works for the public convenience

"Chapter V relates to the appointment and powers of Railway Commissions and this part of the Bill has provoked a good deal of discussion It is admitted that such a tribunal is desirable on many grounds, but exception has been taken to its composition and to its probable costliness The Bill proposes a Court of three Commissioners one of whom is to be a Judge of the highest Court of Civil Jurisdiction in the province in which the Commission is held, and the other two Lay Commissioners, of whom one at least must be of experience in railway business This would enable the Governor General in Council to constitute, in Bengal for instance a Commission consisting of a Judge of the High Court, the Director General of Railways and the President of the Chamber of Commerce Such a tribunal in the opinion of the Select Committee, would command public confidence to a greater extent than a Commission composed of inferior Judicial officers or men of lower professional or commercial standing, For it is to be borne in mind that the Commission is only to be appointed when, in the opinion of the Governor General in Council, there is a *dignus vindice nodus*, its function will be rather to settle principles for the guidance of railway administrations in cases of special importance or likely to be of frequent occurrence, and its decisions will form precedents That such a tribunal will be somewhat costly I have no doubt, but my experience leads me to anticipate that it will not be greatly more expensive, while it will be certainly less dilatory, than an arbitration, and its very costliness will have the good effect of causing it to be resorted to only when all efforts at compromise have failed Moreover, having regard to the large amount of private capital invested in Indian railways, the Select Committee were of opinion that a tribunal likely to be less independent of Government influence than that proposed in the Bill would not give satisfaction, especially if the dispute happened to be between a Guaranteed Railway Company and a line owned by the State

Chapter VI, in regard to the working of railways, goes into somewhat fuller detail than is thought necessary by some of the critics of the Bill, but while it is undesirable, and indeed impossible to legislate for all contingencies, and much must be left to be dealt with in rules made by the railway authorities themselves as occasion may require, there are some matters as to which the

Legislature both in England and in India has deemed it advisable to make specific enactments These are accordingly reproduced in the Bill There is one new section which requires notice, and that is section 64 which provides that in every train which is to run for a distance exceeding fifty miles a third class compartment furnished with a closet shall be reserved for females This may seem a small concession, but the information laid before the Select Committee justifies the belief that it will meet the real difficulty As regards male passengers, there is no case made out which countervails the objections raised against the general provision of such accommodation in third class carriages The statement which I made when introducing the Bill, as to the short distances which the bulk of these passengers travel, is amply borne out by a recent report of the East Indian Railway Company, from which it appears that of a total of (roughly speaking) six millions of third class passengers 20 per cent travelled less than 10 miles, 45 per cent less than 20 miles and 72 per cent less than 50 miles, 12 per cent travelled between 50 and 100 miles and 16 per cent more than 100 miles Those who are familiar with railway travelling in India know the ample opportunities of halting which are afforded by trains which run for long distances and for short distance passengers it can scarcely be contended that latrine accommodation in the carriages is necessary

"Chapter VII defines the responsibility of railway administrations as carriers in accordance with the existing law and, in regard to it, I have received a communication from the Madras Chamber of Commerce regretting that the exemption of railway administrations from responsibility in respect to goods carried under 'risk notes' has not been modified by the Select Committee The Chamber points out that 'under existing circumstances railway administrations in India have two schedules of rates for the carriage of goods both of which are sanctioned by the Government namely the full rates which impose on a railway responsibility for the non delivery of goods, and the reduced rates which are granted on the express condition that no such responsibility is incurred' This is not quite an accurate statement The law imposes on railway administrations the duty of taking as much care of all goods delivered to them for carriage as a man of ordinary prudence would under similar circumstances take of his own goods but it does not impose the further duty of insuring them Goods are therefore carried either at owner's risk or at railway risk—for the former a lower rate is charged than for the latter The object of the Madras Chamber seems to be to require railway administrations to carry goods at their own risk at the same rate as they charge when the goods are carried at the risk of the owners—a responsibility which I should not think they would be inclined to accept If it were imposed upon them by legislation, they would I fear charge railway risk rates in all cases—a result which would be unwelcome to traders, and would not apparently give them much more safety than they now enjoy, as I gather from the letter of the Chamber that the present system 'does not often result in the loss or neglect of goods entrusted to the care of railways'

'In connection with this Chapter I may notice another proposal which has been made, that railway receipts should be given the same effect as bills of lading This proposal has not been adopted by the Select Committee

"In introducing the Bill I stated the objections which to my mind stood in the way of the acceptance of such a proposal One of these was the inconvenience likely to arise in connection with the exercise by an unpaid consignor of his right of stoppage in *transitu* A recent case which has been decided by the High Court at Bombay affords a good illustration of this difficulty A firm at Bijapur sold to a firm in Bombay three parcels of wheat and received from the purchaser *hundis* payable at sight for the purchase money The railway receipts were thereupon handed to the purchaser who promptly endorsed them for value to a third party The *hundis* were dishonoured on presentation, and the purchasing firm became insolvent The endorsees of the railway receipts claimed the goods and actually obtained delivery of a portion of them the delivery of the residue was stopped on a telegram from the original vendor The High Court held that the railway receipts were not instruments of title within the meaning of section 103 of the Indian Contract Act, and that the unpaid vendor was therefore not deprived of his right to stop the goods in transit by reason of the endorsement of the receipts to secure a specific

advance The endorsee in this case seems to have been an innocent holder, but it is easy to see what a door would be opened to fraud under a different state of facts, and I am not surprised that a very large majority of the members of the Railway Conference, which assembled at Simla in 1888, came to the conclusion that it was not desirable to give the same legal effect to railway receipts as to bills of lading

"Chapter VIII relates to accidents and contains no new provisions In Chapter IX, which deals with offences and penalties, the Select Committee has thought it wise to bring into the body of the Act the more important breaches of the law which have hitherto been dealt with under bye laws only It is difficult for the public, and sometimes even for the Courts, to know what is contained in bye laws, and whether bye laws are *ultra vires* or not, and the Select Committee were of opinion that the fullest notice, and the completest sanction, ought to be given whenever acts or omissions are made punishable by fine or imprisonment There is in this Chapter one section to which I desire to call particular attention It is section 113 It is frequently found that persons get into a train either without a ticket, or with a wrong ticket, and they may do so with or without intention to defraud In the former Act relating to railways Act IV of 1879, there were two sections dealing with these cases Section 31 required the innocent traveller to pay the fare of the class in which he was found travelling from the place whence the train originally started, unless he could prove that he had travelled a less distance, and the aid of the Magistrate might be invoked to compel payment of the fare Section 32 subjected the fraudulent traveller to a fine which might extend to fifty rupees, in addition to the fare which he ought to have paid It was represented to the Select Committee that this alternative method of dealing with cases led to vexatious prosecutions being instituted which involved great loss of time and hardship Returns which I have seen show cases in which people have been kept waiting for weeks before the charge was disposed of and though a conviction may generally be the result, it is clearly desirable, in the interest of the railways no less than of the travellers, that such delays should not occur The Select Committee therefore resolved to deal with the unticketed or wrongly ticketed passenger in the same manner as the Post Office deals with an unstamped or wrongly stamped letter; Assuming the want of a proper ticket to be the result of carelessness rather than of dishonesty, it is proposed to exact from passengers not duly provided with tickets an extra charge of the amount specified in sub section (3) of section 113 and this extra charge will be recoverable summarily on application to a Magistrate if the passenger fails or refuses to pay it on demand It is hoped that by this simple method the railways will be saved from the loss, and passengers from the annoyance, which is inevitable under the present system It is only fair that a person who, by his carelessness in not providing himself with a proper ticket, puts not only railway servants but his fellow passengers to the inconvenience of what may be serious delay in the movement of the train, should not go scot free and, on the other hand it is certainly not desirable that Railway servants should be tempted to stretch the presumption of fraud against travellers who often err from mere ignorance

"In Chapter X, section 135 of the Bill, relating to the taxation of railways by local authorities is of considerable importance Following the lines of Act XI of 1881, with regard to the levy of municipal taxes on Government property, it provides that a railway administration shall not be liable to pay any tax in aid of the funds of any local authority unless the Governor General in Council by notification in the Gazette declares it to be so liable, and in that case the railway administration must either pay the tax, or such a sum in commutation thereof as the Governor General in Council may, having regard to all the circumstances of the case, from time to time determine to be fair and reasonable I need scarcely perhaps say that the intention is not to relieve railways altogether from municipal and local taxation, but to restrict the liability within proper limits A railway administration seems to be considered a fair subject for every sort of demand In Madras, for instance, the South Indian Railway Company was required, under section 53 of the District Municipalities Act, to pay a profession tax to the Municipality of Negapatam, and did so for several years Thereupon the Tuticorin Municipality demanded a similar payment The Com-

pany paid under protest, and upon a reference to the High Court their contention was upheld that payment to one Municipality was sufficient, as otherwise 'the South Indian Railway Company would have to pay as many profession taxes as there are municipal towns through which their railway passes, although they exercise but one profession' Railways contribute so much to the prosperity of the districts which they traverse, and in this country have been so largely constructed with public funds that their title to exemption from local cesses has already been recognized by the Legislature in Bengal Section 8 of Bengal Act IX of 1880 provides that no railway or tramway which is the property of the Government of India, or the dividend of which is guaranteed by the Government, shall be liable to road cess or public works cess without the previous consent of the Governor General in Council The present Bill gives a general application to the principle thus affirmed

"These are the salient features in the Bill, as amended by the Select Committee, to which I think it necessary to call the attention of the Council In other respects the Bill follows the existing Act or reproduces recent English legislation

"If the Bill is accepted by the Council, I propose, with Your Lordship's permission, to move that it shall come into force on the 1st of May, 1890, instead of the 1st of April, which is the date fixed in the Bill as reported"

The Hon'ble RAO BAHÁDUR KRISHNAJI LAKSHMAN NULKAR said —

"One of the pressing reforms needed in the law relating to railways in India was to insure a more considerate treatment and better convenience of Native passengers in the lowest class of carriages Overcrowding and want of closet accommodation, especially for women, have formed subjects of constant complaints on almost all the lines I am glad to see that sections are now inserted and penalties prescribed on these important points in the body of the Bill The invariable observance and effectual prevention of infringement of these rules must still depend, almost entirely, upon the degree of efficiency of inspection of the passenger traffic at all stations No failure on the part of station authorities is more frequent than that of the performance of this part of their duty of firmly preventing overcrowding of the lowest class of carriages It is not easy for the higher railway authorities to exercise effectual control in all matters over their subordinate establishments, which are scattered over vast areas along the lines, without some extraneous aid from Government and the public In addition to a system of constant inspection by responsible officers, a complaint book should be made available at each station, in which any public spirited passenger, seeing these rules infringed, may be able to note down the fact with sufficient clearness so as to facilitate further inquiry, stating the steps he took to bring the same to the notice of the station authorities concerned It is to be hoped that with this new specific law on the subject, and with the adoption of means necessary for its due observance, we may hear less frequently of its infringement with impunity"

The Hon'ble SIR ALEXANDER WILSON said —

"The most important part of the Bill is dealt with in the fifth Chapter, on lines generally following the law in England but adapted as far as may be to the circumstances obtaining in India

"The provision of a tribunal competent to deal with any questions which may arise between railway administrations and the public, and between railway administrations themselves, will supply a want which has long been recognised And the constitution of the Railway Commission provided by the Bill consisting of a Law Commissioner, who is to be a Judge of the High Court, and of two Lay Commissioners, of whom one must be an expert in railway business and one may be a representative of the mercantile community or any other person whom the Governor General in Council sees fit to appoint, will, I am sure, command the fullest confidence of the public

"Considerable discussion has arisen as to whether the Railway Commission should be, as in England, of a permanent nature, or one specially to be convened as is now provided for in the Bill, and I am of opinion that the recommendation of the Select Committee which is embodied in the Bill is a sound one I will not take up the time of the Council by entering into detailed reasons for

VI B

coming to this conclusion I think that on the grounds of economy alone there is strong reason for adopting the course which has been followed, admitting, which I submit is the case, that the composition of the special tribunal is such as to ensure universal confidence and respect

"The questions which are likely to be referred to the Railway Commission will be of such a nature that a decision on any of them will be held to be a ruling, and as such will probably obviate any necessity for further reference on the same subject, and thus the expense of maintaining a permanent, separate and expensive machinery to administer the law which is proposed to be enacted, without sufficient work to fully occupy it, is saved

"The Chapter I am referring to imposes on railway administrations the general duty of receiving, forwarding and delivering traffic without unreasonable delay, and without partiality or undue preference, and the special duty of so treating through traffic at through rates

"Now, without any reflection on the administration of railways in India in the past, I trust I may be permitted to say that there has been a feeling on the part of the public that they were at least open to arbitrary treatment in some of these respects at the hands of the railway authorities, and that practically there existed no Court of Appeal or means of redress

"The Bill provides that if the Governor General in Council is satisfied that any person has just grounds of complaint against a railway administration for breach of any of the duties imposed by the Bill, he may refer the case to a Railway Commission for decision

"This will afford a ready and, in my opinion, practicable means of redress for any real or imaginary grievance, and will instil a confidence in fair and just treatment which will be distinctly beneficial to the interests of trade and commerce

"A proposal has been brought forward that the Bill should incorporate a provision to give railway receipts the same effect as bills of lading This proposition has not been adopted, and wisely so, I think looking to the wide difference between a consignment of goods in wagons passing over, it may be various lines of railway under different administrations and a shipment of goods on board a vessel in one port bound to another

"I cannot see that any provision of the kind would have materially benefited the export trade, and certainly not on this side of India, and would have been a departure which did not commend itself to the railway administrations and which does not seem justified by existing legislation elsewhere

"The other provisions of the Bill deal chiefly with matters which have been carefully discussed in the light of past experience in the working of railways and require no comment from me I would therefore only express my entire concurrence with the Bill in its present form"

The Hon'ble MR CROSTHWAITE said —

"I agree with the opinion expressed by the Hon'ble the Law Member with regard to the effect of the Bill on the rights of certain Railway Companies under their contracts, and also with regard to the constitution of the Railway Commission which may be appointed under section 26 I have carefully considered the former question, and I think that the contract rights of the Companies will not be unnecessarily interfered with or infringed by the provisions of the Bill The provisions of Chapter V, regarding the duty of railway administrations to arrange for receiving and forwarding traffic without unreasonable delay and without partiality, are necessary in order to enable an extensive railway system to be carried on to the best advantage of the public and the railway administrations Possibly in fixing a through rate the Railway Commission may direct a Company to charge a rate lower than the maximum rate which the Company is authorised by the contract to charge But, if such a direction were given, it would be because a rate in excess of that enjoined by the Commissioners would have the effect of stopping the through traffic and of depriving the public of the free use of a continuous line of communication A Railway Company has, I think, no right to complain if it is not permitted to charge a rate which would prevent traffic from passing over its line from another railway

and so deprive the public of the benefit of a through route from one part of the country to another

"As the Hon'ble the Law Member has pointed out, the Bill does not propose to regulate the traffic on railways by original and untried principles The provisions regarding facilities for traffic, undue preference and through traffic have been in force in England since the passing of the Railway and Canal Traffic Act of 1854, and the Bill follows in this respect the law which after many years' experience was enacted by the Railway and Canal Traffic Act of 1888 We have therefore every reason to believe that this portion of the Bill will be beneficial in its operation The interests, moreover, of the railway administrations are duly safeguarded, for it is provided by section 26 that a Railway Commission can only be appointed by the Governor General in Council, by section 27 that the Commissioners shall take cognizance of such cases only as are referred to them by the Governor General in Council, and by section 41 that the Commissioners alone shall have the power of enforcing the duties and obligations imposed by Chapter V on railway administrations

"Then, my Lord, with regard to the constitution of the Railway Commission, I should have been glad if provision could have been made for a less costly tribunal than that contemplated by the Bill, but I think that the questions which the Commissioners will have to decide are so important, and the interests which will be affected by their decisions are so great, that the Legislature is bound to provide for the appointment of the best tribunal that can be obtained No doubt some questions may arise which a Judge of a status inferior to that of a Judge of a Chartered High Court or of a Chief Court might decide It is, however, unlikely that it will be necessary to resort to the Railway Commission for the decision of a simple question, and in conferring jurisdiction the Legislature should I submit, consider, as its usual practice is, the general scope and extent of the subject matter over which the jurisdiction is to be exercised The powers which are to be conferred on a tribunal, the extent of the interests which may be affected by its decision and the weight which the decision should carry are the principal matters to be considered Now, as the questions to be disposed of by the Railway Commission will be, as a general rule, difficult and important questions affecting important interests, I think the Legislature should endeavour to secure that the Court which will have to decide these questions shall be the best Court which can be procured, so that not only there may be the best chance of obtaining a sound decision, but that the decision may carry weight with the public Therefore, I consider that the Law Commissioner should be a Judicial officer of the highest status, so that we may secure as far as possible, that the cases referred to the Commission may be well decided and that the judgments of the Commissioners may give satisfaction to the railway administrations and to the public With regard to Judges of High Courts which are not chartered, such as Judicial Commissioners, I think that, besides the reasons I have already given, there are two other objections against giving them jurisdiction The first objection is that the Judicial Commissioner being the sole superior Criminal and Civil Judge of Appeal for a whole Province, and having also extensive administrative business to dispose of, it would be scarcely possible to appoint him to serve on a Railway Commission without appointing another Judicial Commissioner to act for him and discharge the duties of his office The second objection is that it is unlikely that any case would come before the Railway Commissioners in which experienced counsel would not be required, and a Judicial Commissioner would probably hold his Court at a place where such counsel could not be obtained except at great expense

'If the Bill imposes new obligations on railway administrations, it, at the same time, confers advantages upon them For instance, powers for the construction of railways are now for the first time given to railway administrations by sections 7 and 8 of the Bill, section 10 protects the administrations from being overwhelmed with suits for compensation for injuries alleged to have been caused by the lawful exercise of those powers, section 9 of the Bill gives them power to enter on land adjoining a railway in order to repair the line or to prevent an accident happening thereto, and section 72 settles the law, which is now somewhat doubtful, as to the extent of the responsibility of a railway administration for the loss, destruction or deterioration of animals or goods delivered to be

carried The responsibility will now be that of bailees for hire, and a railway administration will be held to undertake only that it and its servants will take as much care of the goods delivered for carriage as a man of ordinary prudence would take of his own goods under similar circumstances Moreover, section 81 limits in the same way the liability of a railway administration for goods which it forwards by inland water for a consignor in a vessel which does not come within the definition of a railway, that is to say, which does not belong to and is not hired or worked by the administration Then the provisions of section 135, regarding the taxation of railways by local authorities, will afford a very necessary protection to railway administrations, by preventing the imposition of taxes which they should not be required to pay and by providing a method by which the amount payable by them may be assessed Some local authorities have, it seems, imposed an excessive amount of taxation on railways and in the case of a railway it is difficult to assess fairly many taxes which might be imposed, such, for instance, as taxes on houses, buildings or lands, or on the persons occupying houses, buildings or lands

"I will not, my Lord, take up the time of the Council in enumerating the other advantages which the Bill proposes to confer on the railway administrations I think that the Bill is a great improvement on the present law, and that it will prove beneficial both to the railway administrations and to the public"

The Hon'ble RÁJÁ DURGA CHARN LAHA said —

"In December, 1888 when the Railway Bill was referred to a Select Committee I took occasion to urge upon the attention of this Hon'ble Council the great necessity that existed for providing retiring accommodation for third class passengers, who formed the bulk of the passenger traffic of railways, and from whom so large a revenue was derived It was nothing but fair that some consideration should be shown to them in this respect Judging from the deliberations of the Select Committee such as have come to my notice it appears that the question was considered, but what has been the result? The only provision that has been made is a reserved compartment for females with a closet in each train running for a distance exceeding fifty miles This is no doubt some concession, for which the Native community cannot but be grateful, but what about the men? If regular latrines were found impracticable, could not a similar provision be made for them, at all events experimentally? It would then have been something, at any rate, it would at least have shown that the Legislature was not unmindful of the comfort and convenience of that class of men who are not able to make their wants and feelings known to the governing authorities

"It has often been said that the comfort and accommodation asked for are not supplied either in Europe or America, but I submit that, the conditions of life being different, no comparison could be instituted between them and this country

"Representations have been made from various parts of the country pointing out the discomfort and inconvenience experienced by third class passengers I would take the liberty of quoting here the opinions expressed on the subject

"The District Magistrate of Bellary, in the Madras Presidency, thinks that—

every carriage attached to a through train ought to contain a place for the relief of natural wants

"Mr Tagore, the Judge of a certain district in the Bombay Presidency, observes —

The great discomfort from which the lower class passengers suffer is the want of latrine accommodation in their carriages'

"Sir Dinshaw Manockjee Petit, also of Bombay, the late Member of this Hon'ble Council, remarks —

''In carriages of some Railway Companies there is no latrine arrangement at all for these poor people, and great inconvenience is felt by passengers in that respect'

"Mr J O Porter, Magistrate of Shahjehanpur in the North Western Provinces, says —

"'I should have liked to have seen provisions made for latrine accommodation for third class carriages No concession would be so popular as this'

"The British Indian Association, speaking of the general complaint about the want of latrine accommodation for lower class passengers, points out that,—

'if it be found impracticable to have such accommodation in each carriage or compartment, American carriages may more largely be introduced and they may be so arranged as to allow communication with each other An entire carriage could be set apart for retiring purposes of male passengers

"The opinion of the Punjab Government is very emphatic in this matter Speaking of the necessity of having latrine accommodation in railway carriages, the Secretary to the Government of the Punjab remarks that, in the opinion of His Honour the Lieutenant Governor,—

'the Government should have power either to make rules in these matters, or to authoritatively require the railway administration to make rules which would be satisfactory to Government. The reason for this suggestion is that it is already known that discontent is sometimes expressed in regard to these matters and it seems to the Lieutenant Governor that as time goes on the natives having occasion to use the railway may wish for more security for their better accommodation in those respects In a country like England matters of this sort may well be left to private enterprise and the pressure of public opinion But the case is otherwise in India where natives going on long journeys must practically of necessity use certain lines of rail, and where they would naturally look to the Government to help them if they felt they stood in need of assistance

"It will be seen from the remarks quoted above that the necessity for having latrine accommodation in third class carriages is widely felt, and it will be a matter of extreme disappointment to the millions who travel by rail, but who, I repeat, have not the power to make their wants and wishes known to the Legislature, if no arrangement to remove their grievance is made

'It has been said that the practical difficulties of meeting the want are insuperable That there are difficulties does not admit of a question But I submit that contrivances could be made to overcome them I may be permitted here to mention that the Managing Committee of the Bhavnagar Gondal Junagurh Porbundar Railway offered in 1888 for competition a prize for the best design and working model for latrines for third class carriages of metre gauge railways which should get over 'the serious sanitary and hygienic objections that are believed by many to exist to extension of the present system in common use in India for upper class carriages' The Consulting Engineer of the Government of India and the Director General of Railways acted as Judges In discussing the merits of the designs sent to them they considered that the requirements of the case would best be met by a combination of the good features of the several designs' They gave it also as their opinion that 'if conveniences in the train are considered necessary for both males and females, we suggest that the third class carriages might be arranged on the through passage system with end doors, and one latrine carriage provided at the end of the train The latrine carriage could be in charge of a travelling sweeper, and the excreta could be retained in the carriage to be removed and deposited at fixed stations *en route*'

"This opinion, coming as it does from Railway Engineers of such high authority, shows that it is not impracticable to make a design by which sanitary and hygienic objections could be removed If, then, the difficulties which were apprehended could be removed, I would venture to suggest that some provision should be made to supply the want felt by the people

"Notwithstanding what has fallen from the Hon'ble Member in charge of the Bill, complaints on this head, I am bound to say, are loud and numerous

"I hope the Government, in the interests of the millions for whom I speak, will reserve to themselves the power by which they could grant the concession later on, if it could not be granted at present"

The Hon'ble MR SCOBLE said —"As regards what has fallen from my hon'ble friend Rájá Durga Charn Laha, I may be permitted to say that the opinions to which he has referred were before the Select Committee, and were carefully considered by them Attention was particularly directed to the action taken by the Bhavnagar Gondal Railway Administration, and to the report of the experts upon the designs submitted to them, but the Hon'ble Member will see, upon a little reflection, that the adoption of the suggestion of a through passage would involve the entire reconstruction of the whole of the

rolling stock of railways in India This would mean an expenditure which the Select Committee did not consider they were justified in recommending With regard to the difficulties which are no doubt felt by female passengers travelling in railways, the Native gentlemen who assisted in the deliberations of the Select Committee were of opinion that the provision recommended would meet the case, if not entirely, at all events sufficiently to prevent any real hardship With regard to male passengers, who form the bulk of railway passengers, the existing arrangements, if properly availed of, would be found adequate; to do more would add greatly to the cost of travelling If you put a latrine in every rail way carriage, the result will be that the space now occupied by the passengers would be curtailed, and the fare would be proportionately increased I put it to the Hon'ble Member, and those who take the same view as he does, whether it is not more desirable that Native passengers should suffer a little inconvenience than that they should have to pay a considerably enhanced price for travelling by railway "

The Motion was put and agreed to

The Hon'ble MR SCOBLE also moved that in sub section (3), section 1 of the Bill as amended, for the word "April" the word "May" be substituted He said —"The object of this amendment is to give time for the proper circulation of the Act before it is brought into operation "

The Motion was put and agreed to

The Hon'ble MR SCOBLE also moved that the Bill, as amended, be passed

The Motion was put and agreed to

## ACT XXV OF 1867 AMENDMENT BILL

The Hon'ble MR HUTCHINS moved that the Report of the Select Committee on the Bill to amend Act XXV of 1867 (*Printing presses and Books*) be taken into consideration He said —

"The Council will remember that Act XXV of 1867, which this Bill is intended to amend, imposes on the printer of every book the obligation to deliver a number of copies to a local Registrar of Books, and on the Registrar the obligation to pay for such copies at the rate at which the book is sold to the public Last December I mentioned certain facts which seemed to show that the provision for payment had a demoralizing tendency and entailed an unfair burden on the tax payer, and I explained that the main object of the Bill now under consideration was to repeal that provision In one case, which I described as apparently fraudulent, Rs 100 had been demanded for each copy of a small pamphlet which the author called 'A New System of Book keeping' I have been assured by a gentleman for whose opinion I have much respect that the author had no designs on the purse of Government, but really thought his system would be worth Rs 100 to any person who would make use of it But this only serves to strengthen my position, for it shows that the tax payer has to contend not only against positive fraud but against the extravagant claims of any one who may choose to treat a system as if it were patented, and may demand a royalty fixed by himself for the means of learning it—even when one does not wish to learn it

"But there is no doubt whatever that there have been many cases of direct cheating A fresh instance was brought to the notice of the Select Committee, in which three unsaleable copies of an old book were palmed off as a new work by merely substituting another title page, and many more copies have been similarly got rid of by simply adding the words second, third or some subsequent edition It has been admitted even by opponents of the Bill that it is a common practice to mark a fictitious price on books because purchasers generally beat it down I remarked when I introduced the Bill that it was not becoming that the public Registrar should have to institute secret enquiries to prevent his being swindled, and it would certainly be most unbecoming that he should haggle about the price like an ordinary customer Besides, he is not at all in the position of a customer, who can take the book or leave it according as the price

pleases him or the contrary He is bound to take all three copies, and to pay for them whatever the printer has been able to extract from private purchasers

"It is perhaps natural that many writers in the Vernacular Press should vehemently oppose the abolition of payment I have carefully considered all the fair arguments which they have brought forward, but some have chosen to insinuate that my real object after all is one which I expressly disclaimed, namely, to save the finances But I am not aware that the Hon'ble Member in charge of the finances has taken any interest in my proposal, and I am quite sure that I have no idea myself what saving it will secure I only know that it will be something very small and that we shall probably give a much larger sum in aid of the new Society for the Diffusion of Useful Knowledge, if, as I hope may be the case, any definite and practicable scheme for the encouragement of indigenous literature can be elaborated The difference will be that at present we pay extravagant prices for all sorts of rubbish which it would be better to check than to encourage, whereas in the future we shall exercise our patronage with some degree of discrimination

"Proceeding now to notice the chief points which came before the Committee, the most important is that we have cut down the number of copies to be supplied in all cases from two to one Looking back at the debates of 1867, when Act XXV was before this Council, I find it was stated by the Hon'ble Member in charge that the only object of requiring the second copy was that, in case the first should be lost or damaged, it must be replaced' We do not think it necessary to maintain this additional burden on authors or publishers in order to meet such a contingency, especially as we find that it has led to a vast accumulation of what is for the most part pure trash According to the Bill as now framed only one copy is required at once and in all cases two others may be demanded for the British Museum and the India Office Library, and I do not think that any author who may be honoured by such a demand will grudge giving a copy of his work to be preserved in the archives of the Empire I am told that, in some parts of the country at all events it is even now a rare thing for payment to be insisted on for a book required for the British Museum, and this is just the spirit I should have looked for in the better class of authors and publishers, who alone need be considered in this connection They know that we do not exact even the first copy with any selfish object, but in order to preserve for future annalists a complete history of the development of the country as far as this finds expression in its literature Any books that the Government of India may require for its own purposes it will continue to pay for as heretofore

'It was suggested to the Committee by several authors whose opinions are entitled to weight that the duty of furnishing the required copies should be imposed on publishers rather than on printers Theoretically this is the correct view, but it was explained in 1867 why the opposite practice was adopted, and the same reasons still hold good The Hon'ble Mr Hobhouse said that 'he was told that in this country it was in most cases extremely difficult to find the publisher of a book ordinarily, a person who wished to publish a book went to a printer and got a certain number of copies printed, but how he published the book and disposed of these copies was not known' And, again, if the publisher had to deliver the books, the Act must be a dead letter, because, in most cases, it was extremely difficult to find who the publisher was, whereas the name of the printer was very easily discoverable, as he was bound to register the press, and to put his name to every book that he printed'

"It has been urged on the Committee that printers should be made to furnish quarterly lists of the books issued from their presses In the absence of such returns, it was said, the Registrar would have no means of discovering when books were withheld, and it was pointed out with some force that it would no longer be to the interest of the publisher to obey the law But we were averse to imposing any unnecessary burden on a hard working body of men, and it seems unlikely that any book, worth preserving from any point of view, can escape the knowledge of a careful Registrar for any length of time. A printer who omits to comply with the requirements of the law will be subject to a tolerably severe penalty, and that ought to be enough If it should prove insufficient the printers will themselves be to blame, and there will then be no difficulty about

imposing any additional liability which may seem necessary to make the law effective

"Lastly, we were asked to amend Part IV of the Act, relating to copyright, by extending the definition of books so as to include pictures Something of this kind is certainly desirable, but the Bill as published did not touch the question of copyright If we had introduced a new provision of this nature, the Bill must have been republished, and could not have passed this session Your Excellency is aware that the complete revision of the law of copyright is only waiting for the new law now engaging the attention of the Board of Trade, and that we have urged that the passing of this law should be expedited as much as possible"

The Motion was put and agreed to

The Hon'ble RAO BAHADUR KRISHNAJI LAKSHMAN NULKAR moved that the following amendments be made in the Bill, as amended, namely —

(*1*) that in section 4, amended section 9, the words "and free of expense to the Government" be omitted,

(*2*) that in clause (*a*) of the amended section 9, after the word "copy" the words "free of expense to the Government" be inserted,

(*3*) that to the amended section 10 the following words be added —

> "and, if the book is for sale to the public shall on the publication thereof, pay the publisher for the one or two extra copies which may have been received under section 9 clause (*b*) at the rate at which the book shall be *bonâ fide* sold to the public

He said —"In moving the adoption of the amendments, I beg to draw attention to the Statement of Objects and Reasons for this Bill, and to the explanation given by the Hon'ble Member in charge when he introduced the same The main object is to require publishers to present copies without any payment, the reasons given being two —(1) that the obligation to pay must be entirely rescinded as the only effectual means of preventing frauds shown to have been practised upon the public treasury under cover of the present law, and (2) that the time has come to assimilate the Indian with the English law, which latter provides for presentation of a certain number of copies without payment As to the necessity of accomplishing the first object, namely the prevention of fraud, there can be no difference of opinion Clause (*a*) of the amended section 9 of Act XXV of 1867 effectually secures this object, by requiring one copy to be furnished gratis, thereby enabling the Government Curator or Librarian to set his face against all worthless publications, by not calling for any more copies of them, and by confining his requisitions to works of real merit worthy to be preserved in public or official libraries The necessity which the present law imposes upon Government to pay for these copies of works, of however worthless character, is thus obviated, and public money saved from being wasted upon literary sharpers and charlatans But I must own that I fail to see how the time could be said to have arrived to require Indian authors or publishers to present more than one copy to Government without payment During the twenty years since Act XXV of 1867 was passed, nothing is shown to have occurred to necessitate an alteration in that law, except the fraudulent practices brought to notice, which, as I have just pointed out, the amended section 9, clause (*a*), will make it simply impossible to carry on in the future The profession of literature or authorship generally has not become more attractive or remunerative in India since 1867 It still wants very badly all the fostering care and countenance it then required at the hands of a paternal Government and a patriotic public It would really be an irony of fate if persons publishing books deemed worthy of preservation by Government should be rendered liable to supply them gratis even after efficient means have been found to prevent fraud by others The real misfortune would be that the degree of hardship upon honest authors must increase on a sliding scale according to the merit of their works and the limit of demand for copies in the market, the more meritorious suffering more and more for the preventible and now effectually prevented misconduct of a few unscrupulous persons As regards the question of assimilation with British laws on the subject, there seems to me to be no real necessity for it

now any more than there was in 1867 But, granting for a moment the desirability of it, there seems, in reality, to be no assimilation of principle in the Bill as it now stands, because we are to continue of necessity as unable as ever to secure such reciprocity from British authors in endowing Indian public collections with free copies of their works as the English law requires Indian authors to do in favour of English collections We have our public libraries, which are quite as valuable to India—for instance the Asiatic—as the English institutions now able to claim free copies from Indian authors are to England Again seeing that the one sided English law must of necessity stand as it is, I entirely fail to see how the Bill, without the amendment I propose, can be said to cut down the existing liabilities, as stated in the introductory proceedings Indeed, even with my proposed amendment, these present liabilities of Indian authors to supply free copies will in fact, have been increased by one copy, because anyhow one additional free copy will have to be delivered as a means of preventing fraud in future, as to the absolute necessity of which we all agree For these reasons I beg to commend the amendments to the acceptance of the Council as due in bare justice to Indian authors With reference to the remarks of the Hon'ble Member in charge regarding the tone of criticism in the Native Press against this Bill I have only to say that I was myself greatly pained to find so few of the public writers who have expressed with sufficient earnestness their indignation against the nefarious practices of book swindlers which were brought to light in these discussions The Council can only abstain carefully from giving cause for just complaint against the measures it sanctions, and such is the sole object of the amendments I have proposed for adoption"

The Hon'ble MR EVANS said —"There are valuable works, like illustrated works on botany, the printing of which is exceedingly expensive and, if we throw upon the authors of such works the liability to present more than one copy of such works, the tax may in exceptional cases be a heavy one The proposed amendment therefore deserves consideration if it can be carried out without frustrating the main objects of the Bill"

The Hon'ble MR CROSTHWAITE said — I do not think the amendment proposed by my hon'ble friend should be accepted The object of the *Bill* is to put a stop to the device of putting fictitious and exorbitant prices on books in order to defraud the Government If the two copies which are to be delivered for despatch to England are to be paid for I doubt if this fraud will be put a stop to On the other hand, the hardship of supplying at the most three copies free of expense is infinitesimal It merely consists in this, that the cost of three copies has to be added to the cost of printing the book This extra cost will probably as a rule, amount to little more than the cost of the paper, and will not materially affect the price of the book"

The Hon'ble MR HUTCHINS said —"Notice of these amendments was not given within the time limited by the rules, but I wish, with Your Excellency's permission, to waive this technical objection especially as the Hon'ble Mr Nulkar was courteous enough to mention the matter to me personally at the earliest possible opportunity But I cannot accept the amendments, and I wish to express my regret that the Hon'ble Member did not ask me to have him placed upon the Select Committee to which the Bill was committed had he joined it, he would have known that I myself brought this very question before the Committee, and that it was fully considered

"The result of these amendments if carried, would be that the Trustees of the British Museum, as well as the Secretary of State, would have to pay for every book which they select from the catalogues transmitted to them But the British Museum is already entitled to have a copy of every book free and, though the main object of this Bill was to abolish compulsory payment as leading to unscrupulous practices, I had in view as a subsidiary object the expediency of putting this unquestionable right on a proper footing Four other libraries, it is true, have a similar right under the Statute, but they have never attempted to exercise it, and I think that, when once this Bill becomes law, their right may be treated as altogether obsolete The Museum, on the other hand, has constantly pressed its right, and only consented to pay for its copies as a provisional arrangement Let us suppose that Mr Nulkar's amendments are carried—our

VIC

Act will then say the Museum must pay But the Statute says that it shall not have to pay We at once introduce a legislative conflict, and a very probable consequence would be that Her Majesty would be advised to disallow our Act.

"It seems to me that this objection is fatal, and I do not wish to say much more The Hon'ble Mr Crosthwaite has pointed out that the risk of cheating will only be diminished and not removed if the amendments are accepted, and he has explained what an infinitesimal burden it is which we are imposing on authors and publishers I have myself on a former occasion shown that they will only lose the cost price of the books, and have referred to the number of presentation copies which almost every author in this country distributes to those whom he regards as his friends and patrons I really believe that the authors themselves, whose books are chosen (they are chosen in England and not by the local Registrar), will esteem it an honour and rejoice that their work will always be preserved at the cost and for the use of the Empire at large I do not see that the exemption of British authors from similar contributions to our Indian libraries has anything to do with the matter The British Museum's library is the library of the Empire, and not merely of England It receives books from all the British colonies and dependencies without exception, and without any question of reciprocity By giving up its own copy the Government of India has made a great concession, and I do not consider that we need go further I am not sure indeed, that we can make any further concession without the sanction of the Secretary of State"

The Hon'ble RAO BAHADUR KRISHNAJI LAKSHMAN NULKAR said —"I wish to point out that the alleged conflict between the English and Indian laws on the subject of payment is not shown to have been practically felt since 1867, and there is no reason to anticipate its action in future As to the question of reciprocity, I remain unconvinced, and believe that the contention is a very reasonable one"

The Motion was put and negatived

The Hon'ble MR HUTCHINS moved that for section 6 of the Bill as amended the following be substituted, namely —

Amendment of section 18 Act XXV 1867

6 In section 18 of the said Act, there shall be substituted for the words and figure 'pursuant to section 9 the words letter and figure 'pursuant to clause (*a*) of the first paragraph of section 9', and for the words 'copies thereof in manner aforesaid the words letter and figure copy thereof pursuant to clause (*a*) of the first paragraph of section 9

He said —"This is a mere formal amendment Section 6, as it now stands, provides for one formal alteration in section 18 of the Act which is rendered necessary by the number of copies to be delivered, in the first instance, being reduced from three to one, but I find that another similar alteration is required further on in the same section The new section 6, as framed in my amendment provides for both these alterations"

The Motion was put and agreed to

The Hon'ble MR HUTCHINS also moved that the Bill, as amended, be passed

The Motion was put and agreed to

## PREVENTION OF CRUELTY TO ANIMALS BILL

The Hon'ble MR HUTCHINS also moved that the Report of the Select Committee on the Bill for the Prevention of Cruelty to Animals be taken into consideration He said —

"Barely two months have passed since this Bill was introduced, and, as I fully explained its provisions on that occasion, I shall now confine myself to such observations as seem necessary to explain the Report of the Select Committee

"It will be remembered that the Bill divides acts of cruelty into two categories—one comprising those which might be ignored unless committed in pub-

lic, the other restricted to acts which, either from their nature or from their peculiar brutality, seem to justify intrusion under proper safeguards into private premises I intimated that I would be prepared to consider suggestions for adding to the second category, but only one such suggestion has been received His Honour the Lieutenant Governor of Bengal considers that the practice called *phúká* should be definitely provided for, and in section 4 we have given effect to his recommendation So far as I can learn, the practice is hardly known elsewhere than in or near Calcutta, it is perhaps, even more disgusting than cruel, and the justification for placing it in the second category is not so much its special barbarity as that it is only carried on in private cowsheds

"As regards the first category, the Council will recollect that I undertook to ask Local Governments whether we might give effect to section 3 everywhere or in all towns, and, if not whether the condition as to publicity might not be dispensed with The weight of authority is decidedly in favour of retaining both the condition of publicity and the discretionary power of the Local Administrations with regard to local extent There is such variety in the circumstances and conditions of different parts of the country, and even of different towns that it would be unsafe for us, sitting at this Board to attempt to determine any thing about the local application of the measure, and the opinions of most Local Governments seem to justify the apprehension which I expressed that they would be very chary about extending any measure relating to cruelty perpetrated in the seclusion of private houses I trust that I carried the Council with me when I stated my own opinion last January that far more good is likely to result from the prevention of open cruelty over a wide area than from any premature attempt to suppress private as well as public cruelty within more restricted limits

"A slight difficulty arises in Bengal from the fact that the local Act, I of 1869, includes cruelty of all sorts, wherever committed, within those towns to which it has been or may be applied We have, however, modified the first section of the Bill so as to enable Local Governments to extend either the whole or any of its provisions to any local area, and such extension will not necessarily involve the repeal or suspension of any local enactment His Honour can, therefore, maintain his local Act side by side with any sections of the general measure which may seem applicable to the particular locality, and, if there should be towns where he does not at present think it safe to attempt to deal with cases of only ordinary cruelty committed in private houses, he can apply the general measure alone Section 1, as amended, gives the local authorities absolute freedom in this respect

"The most important alteration made by the Committee is in the definition of animal We felt that the old definition—'animal includes a bird'—was both inadequate and likely to be misleading A bird is unquestionably an animal, but, if we go out of our way to affirm this, it might be inferred that we meant to exclude a fish, a frog, a turtle and so forth I take it that the animals which we desire to protect are those which we keep around us, or choose to take out of their natural freedom, either for the sake of their services or for some other selfish reason We have, therefore, defined animal for the purposes of the Act as 'any domestic or captured animal' It seems to me that this will meet every case which we have in view—not only the domestic or tamed quardruped and bird of the Bengal Act but the quadrumanous monkey, that untamed but captured rat which was dipped in oil and set alight, the turtle which in Assam is sometimes carried about for days on a rope passed through holes bored in its feet, and the netted snipe which throbs out the last remains of its miserable life on the pavement of the Calcutta market On the other hand we avoid interference with anything worthy of the noble name of sport hunting, fishing, pig sticking and the like would clearly come under the Act if the word 'animal' were left to be interpreted in its widest signification

"With regard to the third section three objections have been taken which require some notice It has been said that a place to which the public have access is included in the term 'street' and need not be repeated, but the definition of street only includes such places if they are *open* The repetition is necessary in order to bring in markets, sheds, pandals, shamianas, and the like, used for public resort or entertainment The words 'for sale' in clause (*c*) have been demurred to, but they are necessary for the protection of veterinary surgeons,

nay, without them the Society for the Prevention of Cruelty to Animals, which is one of the objectors, would itself be liable if it took charge of a maltreated beast out of pure compassion The case of a gelding seemed to present some difficulty but we considered that it would not be 'for sale' until it had recovered from the effects of the operation The last part of this clause was also objected to but we resolved to retain it Just as there would be no thieves if there were no receivers, butchers would cease to skin goats alive or to cut out the tongues of turkeys if they could not safely dispose of the carcase We may not be able to bring home the actual cruelty to a particular individual, but there should be no such difficulty in regard to possession of the carcase for sale, and by making that punishable we may hope to prevent the cruelty itself

It seems important to empower a Magistrate to prevent a beast which he finds unfit for work from being put to labour, and as far as possible to provide for its proper treatment With this object we have borrowed from the Madras City Police Act a series of clauses relating to veterinary infirmaries Perhaps these will not be of much present use outside the presidency towns, but I hope, as time goes on infirmaries may be constituted in other places Personally I should be glad to find a Local Government selecting some well regulated pound under an intelligent superintendent and declaring it an infirmary under the Act, but such an experiment would require careful supervision

'We have struck out the special section relating to the apprehension of offenders because we thought this was sufficiently covered by section 57 of the Code of Criminal Procedure If the person is known to the police or gives them his name and address, there is no reason why he should be dragged through the streets in custody If he refuses to give his name and address or gives one that there is reason to believe to be false, any police officer can arrest him under the ordinary law

" By section 10 we have authorized any Magistrate and some other responsible officers to order the destruction of any animal if they consider that its condition requires that it should be put out of its pain without delay

" Section 11 is a new and important provision Some discussion arose as to whether the Muhammadan and other methods of slaughtering animals might not be regarded by some Magistrates as unnecessarily cruel' within the meaning of section 5 To obviate the possibility of misconstruction upon this point we have now provided that—

'Nothing in the Act shall render it an offence to kill any animal in a manner required by the religion or religious rites and usages, of any race sect tribe or class'

"The only other matter requiring notice is the slight alteration made with regard to penalties The maximum punishment which can be inflicted under section 3 is now just half that provided by section 5 while the fine awardable under section 7 has been raised to Rs 100 which is the limit prescribed in the corresponding section of the Bengal Act"

The Hon'ble MR HALLIDAY said —'I am in accord with the Hon'ble Member in charge of the Bill in the remarks he has just made regarding the provisions generally as arrived at in Select Committee But there are one or two points on which I would ask to be permitted to say a few words They relate to the Select Committee's determination to remove from the Bill the section which authorised police officers to arrest without warrant persons offending against the Act It has been represented that the very nature of the offences under the Bill seems to render it absolutely necessary that, to be effectual action must be prompt, and the delay in obtaining a warrant will almost invariably be fatal to successful action If I understand it rightly, the procedure adopted in the Bill will, so far as Calcutta is concerned, practically restrict the measure to cases occurring in public view, and, as has been pointed out to us by one authority the power to apply by sworn information for a search warrant would only meet some of the possible instances of cruelty which might be practised on private premises, indeed, the evidence of, I may say, most cases coming under the Bill would probably have disappeared before the necessary formalities had been complied with The Hon'ble Member in charge of the Bill has said that provision relating to the apprehension of offenders was sufficiently covered by section 57 of the Code of Criminal Procedure, but it will be found that section 57 is not among

the sections of that Code extended to the towns of Calcutta and Bombay by various Acts It would seem that in the town of Madras under their Local Police Act the law reaches any case of cruelty, and the general power given under that Act enables any police officer in whose view an offence under the Act is committed to take cognizance thereof at once, if immediate action be necessary Thus, an important provision which is made applicable in Madras is not extended to either Bombay or Calcutta by this Bill I was therefore of opinion that some provision should have appeared in the present legislation, not only for conferring powers on selected police officers to take cognizance at once if immediate action be necessary but also to have conceded to specially selected police officers, of a rank to be determined by the Local Government, the right of entry to search, for, as it is with regard to section 57 of the Criminal Procedure Code which I have mentioned, so with regard to the provisions of that Code relating to searches, the sections relating thereto have not been extended to Calcutta I think myself that in this presidency town the right of entry might be conceded to specially selected police officers, safeguarded by certain conditions as to the rank of the officers, and as to their recording before entering private premises the information on which they are taking action In regard, then to the provisions in the Bill which go beyond those of the Bengal local Acts, I and III of 1869, the powers under section 57, Criminal Procedure Code (which is the only section under which action can be taken in respect of offences punishable by the Bill), are of no use in the presidency towns of Calcutta and Bombay For these reasons I should have liked to have seen such provisions as I have mentioned included in this Bill, but as I understand that it is still left open to the Local Governments to embody in their local Acts those provisions in this Bill which relate to offences and punishments that are not to be found in the local Acts, I do not now press for any enlargement in the direction I have indicated of the powers sought to be conferred by this Bill, which is to have wider application I have no doubt the Bengal Government will not now allow its presidency town to be in this respect in a worse position than the rest of the province to which this Act, when it comes into force, may be extended "

The Hon ble MUHAMMAD ALI KHAN said —

" The Bill on the table is on the lines of the existing enactments on the subject of preventing cruelty to animals in different provinces, but its application is general and it is more comprehensive Some new provisions have been introduced in the Bill for preventing animals being killed in a most brutal manner Of late it has been discovered that there exists a practice among the butchers of flaying animals alive for getting better prices for the skin Within a very short time I have read in the Calcutta papers of two or three cases of such wanton cruelty coming up before the Police Court But no adequate punishment has been provided for such revolting practices in the existing enactment The present Bill prescribes exemplary punishment for such inhuman acts

" It is the duty of the Legislature to take proper measures for the protection of dumb animals from unnecessary cruelty, which they suffer patiently and helplessly at the hands of unfeeling persons and I think the provisions of this Bill are sufficient for the purpose The Bill has undergone some necessary alterations in the Select Committee, and as it is revised, if passed into law, will, I dare say, command general approval "

The Hon'ble RAJA DURGA CHARN LAHA said —' I was a member of the Select Committee which considered the Bill It struck me at first that the inquisitorial power therein given might lead to some hardship and oppression Since, however, the operation of the law or any portion of it is left to the discretion of the Local Governments,—which I am sure will never think of extending the provisions of the Bill anywhere beyond the precincts of presidency towns, centres of trade and commerce and other populous towns where such offences as are provided for in the Bill are largely committed,—I do not think any great harm will be done by the measure Besides, unless some such provision is made it will be utterly impossible to reach the offenders when the offences are committed in private houses, and a door will be left open to evade the law

"It is only to be hoped that the provisions of the law will be so administered that they might not be turned into an engine of oppression in the hands of over zealous police-officials"

The Hon'ble MR HUTCHINS said —"With reference to what has been said by the Hon'ble Mr Halliday, I would remind the Council that this is a general enactment, designed on lines which, I hope, may be found applicable to the country generally, and specially intended, as I pointed out when I introduced it, for those provinces which have no local Legislature If we had been framing a measure for the presidency-towns or limited to other centres of intelligence, we might possibly have gone further than we have done in the direction indicated by my hon'ble friend But this right of entry is another of those questions upon which, even in Calcutta, the views of the community are widely divergent Many excellent people who earnestly desire to protect the brute creation from cruelty, are extremely opposed to anything like intrusion upon private premises even under a Magistrate's warrant The Commissioner of Police thinks we ought not to require a warrant at all It seems to me that we have adopted a safe middle course, and that no other course would be suitable to a general enactment We have provided in section 8 that—

'(1) If a Magistrate of the first class Sub divisional Magistrate Commissioner of Police or District Superintendent of Police upon information in writing and after such inquiry as he thinks necessary, has reason to believe that an offence against section 4 section 5 or section 6 is being or is about to be or has been committed in any place he may either himself enter and search or by his warrant authorize any police officer above the rank of a constable to enter and search the place

(2) The provisions of the Code of Criminal Procedure, 1882 relating to searches under that Code shall, so far as those provisions can be made applicable apply to a search under sub section (1)'

"If this section is extended to Calcutta, all the provisions of the Code relating to searches will necessarily be extended at the same time, and, as for section 57 of the Code, I am not aware of any reason why it should not be brought into operation in a presidency town at all events even now the police must have the same powers of arrest in regard to offences relating to cruelty to animals as they have with regard to other non-cognizable offences, and I do not see any particular reason why they should be given larger powers

'I am not disposed to take special precautions against a mere casual act Where there is reason to suspect anything like habitual cruelty, a warrant can be obtained without difficulty and almost in as short a time as my hon ble friend's selected officer would take to record his information in writing It seems to me—and, if I rightly apprehend my hon'ble friend, he does not dissent from this view—that any supplementary legislation specially required for the presidency-towns should be undertaken by the local Councils and not embodied in our general Act'

The Motion was put and agreed to

The Hon'ble MR HUTCHINS also moved that the Bill, as amended, be passed

The Motion was put and agreed to.

## ACTS I OF 1859, VII OF 1880 AND V OF 1883 AMENDMENT BILL

The Hon'ble SIR DAVID BARBOUR moved that the presentation of the Report of the Select Committee on the Bill to amend Acts I of 1859 (*Merchant Seamen*), VII of 1880 and V of 1883 (*Indian Merchant Shipping*) be postponed He said —'There has not been sufficient time to receive and consider the opinions of the Local Governments, and postponement is, therefore, inevitable"

The Motion was put and agreed to

## INDIAN TARIFF ACT, 1882, AMENDMENT BILL

The Hon ble SIR DAVID BARBOUR also moved for leave to introduce a Bill to amend the Indian Tariff Act, 1882 He said —

"The object of this Bill is to raise the rate of duty on imported spirit

from Rs 5 to Rs 6 a gallon of the strength of London proof Some time ago the Secretary of State for India requested the Government of India to consider the expediency of enhancing the import-duty on spirits It was pointed out that in recent years the rates of duty on spirit manufactured in India had been increased in a higher proportion than the duty on imported spirit while the duty on the latter had been raised from Rs 4 a gallon, the amount at which it was fixed in 1875, to only Rs 5 a gallon, with a proportionate reduction for strength below London proof, the enhancement of the rates of duty on country spirits had been in many places very considerable It was said that 'in order to restore the ratio that used to exist between the duty on imported spirit and the duty on Indian spirits, the rate of duty would have to be increased considerably' It was also urged 'that an enhancement of the duties on imported spirits would be an important step towards increasing the price of, and the revenue from, strong drink, and also towards restricting the consumption It would also, moreover, pave the way for further increases of the still head duties in towns and populous tracts' The Government of India consulted the Local Governments and Administrations on the question With the exception of Assam and the North Western Provinces and Oudh, the authorities consulted have been generally in favour of an increase Both the Chief Commissioner of Assam and the Lieutenant Governor of the North Western Provinces consider that there is no such competition between imported and country spirit as to call for an increase in the import-duty But in Assam the circumstances of the country have not as yet permitted the imposition of rates of duty on country spirit levied according to quantity and strength, while in the North-Western Provinces and Oudh the rate of duty is exceptionally low, though the Local Government is now considering the propriety of raising the rate These facts sufficiently account for the opinions that have been received from Assam and the North Western Provinces All other Governments are in favour of an increase The following is an extract from the report of the Madras Board of Revenue, which is fully endorsed by the Government of Madras —

> The incidence of duty on country spirit that is the excise duty *plus* the vend rents, in almost every large town in the presidency and in many rural tracts is already greater than the present tariff rate Rs 3 8 at 30° under proof and it will be practically impossible before long to raise the rate of excise duty any higher In the interests, therefore of the local distilling trade in the hope of keeping cheap and inferior European spirits out of the country and in the interests of temperance, in order that there may be scope for raising the excise duty and thereby decreasing consumption, the Board recommend an increase in the tariff rate of duty

"The Government of Bengal states that low class European spirit competes considerably with country liquor and recommends an increase in the tariff rate chiefly with reference to that inferior class of imported spirit, on the ground that it is if not absolutely deleterious certainly less wholesome than either country spirit or country rum' It is on the two considerations above stated that the Government of India has decided that it is desirable to increase the rate of duty as proposed in this Bill The first of them is a consequence of the excise policy, which has been followed by the Government of India, of restricting the consumption of spirits as much as possible by the imposition of high rates of duty This has been carried so far that any further progress in the same direction is, in some provinces, difficult or impossible without increasing the tariff rate on imported spirits It is also obviously a sound policy to increase the rate of duty on specially injurious kinds of spirit In regard to the amount of the increase of duty the Local Governments differed in their proposals, rates varying from Rs 6 to Rs 7 per gallon were suggested The Government of India has decided that an increase to Rs 6 will be sufficient for the present

"An increase in the rate of duty on perfumed spirit from Rs 7 8 to Rs 8 follows necessarily on the increase in the rate for ordinary spirit The rate of duty on spirit in England is 10*s* 4*d* a gallon of the strength of London proof This is considerably more than the rate of Rs 6 a gallon which it is now proposed to place on spirit imported into this country, and the classe which consume imported spirit in this country are at least as well able to pay a high rate of duty as the classes which consume the same quality of spirit in England"

The Motion was put and agreed to

The Hon'ble SIR DAVID BARBOUR also introduced the Bill

The Hon'ble SIR DAVID BARBOUR also applied to His Excellency the President to suspend the Rules for the Conduct of Business He said —

"My object in so applying is that I may be able to move that the Bill be taken into consideration at once and passed to day if the Council should be of opinion that it ought to be passed This is a course which can only be justified in a case of urgency, but I submit that the present case is one of urgency If any delay takes place, large quantities of spirit will be taken out of bond, or imported, and particular individuals will be able to make an undue profit at the cost of the public and of the public revenues There need be no hesitation in dealing with the matter at once on the ground that persons who have made contracts for the sale of liquor at a certain price, but have not yet paid the duty, will suffer hardship, because in an Act passed last year, VIII of 1889, provision was made to enable the seller in such case to add the additional duty to the contract price"

His Excellency THE PRESIDENT said —"The course which the Hon'ble Sir David Barbour asks me to adopt is one which has been taken before on similar occasions when a clear case of urgency arose From what has fallen from the Hon'ble Member I have no hesitation in saying that a sufficient case has been made out, and I therefore suspend the Rules"

The Hon'ble SIR DAVID BARBOUR moved that the Bill be taken into consideration

The Motion was put and agreed to

The Hon'ble SIR DAVID BARBOUR then moved that the Bill be passed

The Motion was put and agreed to

## EXCISE ACT, 1881, AND BENGAL EXCISE ACT, 1878, AMENDMENT BILL

The Hon'ble Sir DAVID BARBOUR also moved that the Bill to amend the Excise Act, 1881, and the Bengal Excise Act 1878, be taken into consideration He said —

"I may say at once that no objection to this Bill has been raised by anybody either in respect of the principle of the Bill which aims at the taxation of Indian brewed beer, or in respect of the amount of duty to be imposed Certain suggestions regarding it have been received from persons who are interested in it in their capacity as brewers These suggestions can be satisfactorily dealt with by executive order but in respect of one of them legislation is desirable I refer to the proposal to allow a drawback of the duty when Indian brewed beer is exported to foreign countries This is obviously a reasonable suggestion and I propose to slightly amend the Bill so as to place Indian beer on the same footing in this respect as Indian spirits"

The Motion was put and agreed to

The Hon'ble SIR DAVID BARBOUR also moved that the Bill, with the amendment already referred to, be passed He said —

"Although the present Bill does not materially affect the finances it will I think, be convenient that I should now give a brief sketch of the general financial position The usual Financial Statement is published to day, and full details will be found in it When I speak of pounds it will be understood that I mean tens of rupees

The Accounts of the year 1888 89 have now been finally closed They show a surplus of Rx 37,000

"The Budget Estimate of that year, framed in March, 1888, showed a deficit of Rx 698 000, and it is satisfactory that the Accounts have closed with a surplus, as it shows that we are beginning to see our way out of our recent financial difficulties

"The Estimate of the current year, as framed in March last, showed a surplus of Rx 106 300

"The Revised Estimate if compiled in the same way as the Budget Estimate, would now show a surplus of Rx 2,733,200, and the Estimate of the coming year would show a surplus of Rx 304 900 Certain special arrangements are proposed which will affect the surplus of 1889-90 and of 1890 91, but it will be convenient to keep these arrangements out of sight until it has been explained how it happens that the Budget surplus of the current year has grown into Rx 2,733,200, while the Estimate of the year 1890 91, if compiled on the same basis, would show a surplus of only Rx 304,900

"In the first place, I propose to offer a few remarks on the subject of Exchange, so as to clear that question out of the way at the beginning I have seen it stated that the improvement in the current year is largely or mainly due to the rise in the rate of Exchange This is not the case The rate of Exchange taken in the Budget Estimate was *1s* 4 38*d* —one rupee Although the rate of Exchange is now considerably higher than that rate, it was lower during a large portion of the year, and the average rate of Exchange for the whole year 1889 90 is now taken at only *1s* 4 552*d* per rupee The rise is therefore only slightly greater than one sixth of a penny per rupee For present purposes it will be sufficient to put the improvement on this account at Rx 200,000 in round numbers In the explanation I am about to give I shall distribute this improvement of Rx 200 000 among the several heads affected

'Although the improvement in the position has not been mainly due to the rise in Exchange, the cessation of the long continued fall in the gold value of the rupee has been a most welcome relief to the finances From 1873 to 1890 there have only been two other years in which the actual rate of Exchange exceeded or was equal to the rate taken in the Budget, and the average yearly fall from 1873 74 to 1889 90 has been 36 of a penny per rupee or more than twice the rise in the current year

"Although the cessation of the hitherto continuous fall in the value of the rupee measured in gold has greatly improved the financial position for the time being the uncertainty as to the future relations of the precious metals constitutes a very serious danger, and one which it would be worth our while to make great sacrifices to escape The future of the Currency question appears to rest at the present time in the hands of the United States of America

"Coming now to the ordinary Revenue and Expenditure of the year, I may say at once that the chief improvement in the current year appears under the head of Opium There is an increase of Rx 286 400 in Opium Revenue, there is a decrease of Rx 708 800 in Opium Expenditure The total improvement under Opium is consequently Rx 995,200 In the Budget Estimate the price of Bengal Opium was taken at R1,070 a chest It has proved to be R1,136, this accounts for the improvement in Opium Revenue an improvement which I regret to say is not likely to be maintained during the coming year, as the price of Bengal opium at this month s sale was only R1,040 a chest, though the market price has since risen

"The decrease in Expenditure is due to a poor crop of Bengal opium The total crop of Bengal opium is purchased by Government at a fixed price per seer A good crop means heavy expenditure in the purchase of opium a poor crop means a saving in expenditure As it happens, the bad crop of the year has not done us material injury because the reserve of opium was very high and is still sufficient The improvement under Opium in the current year must be considered as merely temporary In a series of years we shall no doubt get average crops, and the present selling price of opium is much below the average price of the year about to close

"In addition to the improvement under Opium, there has been, during the current year, a very satisfactory increase of revenue under what is known as the other Principal Heads of Revenue, which include Land revenue, Salt, Excise, Stamps, Provincial Rates Customs, Assessed Taxes Forests, Registration, and Tributes from Native States This increase is partly Imperial, partly Provincial, partly Local

"The large improvement in Revenue which is shown under the Principal Heads of Civil Revenue (excluding Opium) is of a permanent nature, or, in

VI n

other words, we can safely reckon on obtaining the same increase in future years If there is any falling off under some heads it will be balanced by increase under other heads This improvement amounts to Rx 766,500 on Imperial account, and is mainly due to an increase of Rx 298,400 under Land revenue, of Rx 149,600 under Salt, of Rx 79,100 under Excise, of Rx 31,500 under Stamps, of Rx 69,600 under Customs, and of Rx 112 700 under Forests

"The improvement under Opium and the growth of Revenue under the other Principal Heads accounts in all for an improvement of Rx 1,761,700 in 1889 90, of which more than 40 per cent is a permanent increase of the public revenue, the rest being temporary

"On Special Defences there has been a reduction of expenditure amounting to Rx 344,500 which merely represents postponement of charges which will be incurred hereafter, and under Interest not charged against Railways and Canals there has been a net improvement of Rx 230,900 The improvement in the net Interest charge is due to the high rate of interest obtained by the Secretary of State on that portion of his cash balance which he was able to invest to the saving from the issue of a loan of 2 crores very nearly at par last year as compared with the estimated charge for the issue of a loan of 2½ crores at a discount to the rise in Exchange, and to other causes

"There has also been a net improvement of Rx 118,600 under Army, notwithstanding the expenditure on the Chin Lushai Expedition, and of Rx 73,900 in the Railway Account Under all other heads there is a net improvement of Rx 97 300 The total net improvement of the year is Rx 2,626 900

"The explanation of the large surplus in 1889-90 may then be briefly stated as follows in the current year Opium has given a net improvement of Rx 995 200, other Principal Heads of Revenue have given an improvement of Rx 766,500, Special Defences show a reduction of expenditure amounting to Rx 344 500, Interest gives an improvement of Rx 230 900 All other heads give a further net improvement of Rx 289 800 The total net improvement of the year is Rx 2,626 900, and, adding the Budget surplus of Rx 106 300 the surplus with which the year is expected to close is estimated at Rx 2 733 200 Of this net improvement of Rx 2 626,900, about Rx 200 000 has been caused by the rise in Exchange which has favourably affected Revenue and Expenditure under various heads As the Accounts almost invariably show a better result than the Revised Estimate, I have little doubt that this surplus will be found to have been exceeded when the accounts of the year are finally closed

"I can now explain very briefly why the surplus of 1890 91 is so small as compared with that of 1889 90 In the first place, we lose the temporary increase from Opium to which I have just referred, the loss on this account is actually Rx 992,400, in the next place, we receive in 1889 90 a special contribution from Local Governments of Rx 490,000, there is no such contribution in 1890 91, in the third place, the Budget Estimate of net Military Expenditure in 1890 91 shows an increase over the Revised Estimate of no less than Rx 611,000 On these three accounts—Opium Contribution from Local Governments and Military Expenditure—the financial position of 1890-91 is worse than that of 1889 90 by no less than Rx 2 093,400 Adding to this a net falling off under Interest of Rx 113,400 and an increase of expenditure amounting to Rx 133,900 under Special Defences, we get a falling off of Rx 2,340,700 The surplus of 1889 90 being Rx 2,733,200, this deterioration of Rx 2,340,700 would of itself be sufficient to cause the large surplus of 1889-90 to be replaced by a surplus of Rx 392,500 It so happens that under all other heads there is a net deterioration of Rx 87,600, which brings the surplus down to Rx 304,900

"The increased expenditure on the Army in 1890 91 is due to the purchase of Magazine rifles and ammunition for them, to the cost of 21 more batteries of 12 pr breech loading guns, to the purchase of machinery for making ammunition for the guns in India, and to the provision of Rx 200,000 for the Chin Lushai expedition and of Rx 60,000 to complete the arrangements for prompt mobilisation of the 1st Army Corps The total cost on the accounts I have stated is no less than Rx 1,361,300

"Summing up the whole case and putting aside all matters of minor importance, it may be said that in 1889 90 we have a large surplus owing to a temporary improvement under Opium, to a general growth of revenue which will

be maintained and will affect future years, to short expenditure on Special Defences and in connection with the Army to reduction in the Interest charge, to improvements in the Railway Revenue Account, and to a rise in the rate of Exchange In 1890 91 we have only a moderate surplus, because we lose the temporary improvement under Opium, because we no longer receive the special contribution of Rx 490,000 from Local Governments, because there are special demands in connection with the equipment of the Army, and because there is an increase in the net Interest charge, as well as an increase in the expenditure on Special Defences

"It will be obvious from what I have just said that the estimates for next year would have shown a very considerable surplus but for the heavy and special demands that have fallen on them in connection with the Army These special demands come to no less than Rx 1,361,300 exclusive of a provision of Rx 892,300 on account of Special Defences It is reasonably certain that there will be special demands of a somewhat similar nature in 1891 92, but it is not probable that they will be so heavy as in the coming year Nor are the finances of 1891-92 exposed to any special dangers so far as can now be seen, other than those vicissitudes which must always attend Indian finance On the other hand we may look forward during 1890 91 to the normal growth of revenue There are, therefor , strong grounds for holding that in 1891 92 we shall at least find ourselves in a position of comparative ease, with a surplus in hand, moderate in amount, but sufficient to allow of some improvement in financial conditions

"In view of this comparatively favourable prospect the Government of India has decided to anticipate the future to some extent and to take immediate steps for the partial restoration of the Famine Grant This can be done by measures which I shall now explain, but in the first place I propose to refer briefly to the nature of the Famine Grant and its history

"The policy of strengthening the finances in connection with Famine was originally adopted in order to protect the country against the financial effects of Famine It was calculated that Famine would cost either directly in expenditure intended to relieve distress or indirectly through loss of revenue no less than Rx 15 000 000 every ten years, and it was therefore decided that in ordinary years the Government should take measures for providing a surplus of Rx 1,500 000 This surplus would be used either to reduce debt directly by buying up and cancelling public obligations, or to indirectly reduce debt by diminishing borrowing

"It has been sometimes assumed that the object of this policy was the provision of funds for the actual relief in time of famine of persons who were in distress, and it was argued that when the money so provided was no longer available the people could not be relieved in case of famine, and must perish This was not the case Whether a surplus exists or not, the Government recognises its obligations in case of famine, and the actual amount of cash in the treasury is regulated from time to time by considerations which are quite independent of the absorption or maintenance of the Famine Grant The objects which the Famine Grant is intended to secure are purely financial So long as it is maintained we have in ordinary years a surplus of Rx 1 500 000 and this surplus of Rx 1,500 000 in ordinary years will, it may reasonably be hoped, balance the deficits which must occur from time to time in a country of which the financial conditions are so uncertain

"The Famine surplus was intended, in the first instance, to operate in the direction of reducing debt At a subsequent period it was decided to use one-half of it for the construction of Railways and Canals which would protect the country from famine I think this was, under the circumstances of the case, a wise and prudent measure, but it was a slight departure from the objects of the original policy These were, as I have said, purely financial In so far as the Protective Canals and Railways constructed from the Famine Grant returned a fair profit, or lessened the cost of relieving famine in so far the original purpose of strengthening the finances was maintained In so far as they failed to return this profit the original purpose was departed from On the other hand it was an important consideration that the construction of these Railways and Canals might have the effect of mitigating famine to the extent of preserving human life, which would otherwise have been lost

"The Government of India expressed their willingness in past years to go further in the direction of using the Famine Grant for the construction of Protective Works than was actually done, and would have appropriated it to meet any loss that might arise on Protective Railways constructed by means of borrowed money, in 1886 the Secretary of State did actually agree that the interest charge on the Indian Midland and the Bengal Nagpur Railways should be a charge against the Famine Grant These Railways were held to be of importance for the protection of the country against famine, and it was only on the understanding I have stated that their construction was sanctioned This matter has somewhat fallen out of sight in recent years, because, shortly after the decision of the Secretary of State was given, the financial difficulties of the Government became so great that the Famine Grant was practically abolished for the time and there was no special reason for calling attention to the fact that a portion of it went to meet the loss on the Indian Midland and Bengal Nagpur Railways

"Although the Famine Grant was practically suspended for the time, the Government of India and the Secretary of State have always attached importance to its maintenance If the Indian finances show bare equilibrium in normal years the deficits of bad years can only be met by borrowing, such borrowing must in time lead to a large growth of debt incurred for non productive purposes The provision of what is really a yearly surplus of Rx 1,500 000 is the most effective means of preventing the growth of debt of this character

"The manner in which it is proposed to partially restore the Famine Grant at once will now be explained

We receive this year a special contribution of Rx 490,000 from Local Governments This transaction is carried out by debiting the amount to the balances of Local Governments and crediting it to the Government of India It is practically the same thing to all parties whether the transaction is carried out this month or next month The credit is therefore postponed till next month, and the effect on the finances is to diminish our surplus of this year by Rx 490 000 and to increase that of next year by an equal amount

"After this change is made there will be a surplus of Rx 2,243,200 in 1889 90 and of Rx 794 900 in 1890 91 In both these years a certain amount of expenditure is already shown under the Grant for Famine Relief and Insurance, partly on account of the construction of Protective Canals and partly for relief of distress Of the surplus of 1889-90 a sum of Rx 433 500 will be utilised to raise the total Famine Grant to Rx 600,000, of the surplus of 1890 91, a sum of Rx 524 500 will be utilised to raise the Famine Grant of that year to a like amount The surplus of the Revised Estimate will then stand at Rx 1,809,700, and the surplus of the Budget Estimate of 1890 91 will be Rx 270,400

"The amount provided to meet the net charge on account of the Indian Midland Railway and the Bengal Nagpur Railway is Rx 458,100 in 1889-90, and Rx 432,800 in 1890 91

"The final result then of the policy which the Government of India has decided to adopt is that in the current year we have provided in all Rx 1 058,100 (Rx 600,000 *plus* Rx 458,100) on accoun of the Famine Grant, that in the coming year we have provided Rx 1 032,800 (Rx 600,000 *plus* Rx 432,800), on the same account, and that we have nevertheless a surplus of Rx 1,809 700 in 1889 90 and of Rx 270 400 in 1890 91, these surpluses are available for the reduction of borrowing and will in practice be used for that purpose

"The sums provided under the Grant for Famine Relief and Insurance *plus* the sums that go to meet the net charge on the Indian Midland and Bengal Nagpur Railways, together with the surpluses of the current and coming years, amount to Rx 4,171,000 in the aggregate, so that, practically, the Famine Grant has been more than restored for the years 1889 90 and 1890 91, as we have in the two years a sum of Rx 4,171,000 available for the purposes for which the policy of the yearly grant of Rx 1,500,000 for Famine Relief and Insurance was adopted

"The general effect on our borrowing of the surpluses of 1889 90 and 1890 91, which amount to Rx 2,080,100, and of the sums now set aside for

Reduction of Debt, amounting to Rx 958,000, making Rx 3,038,100 in all, is shown by the following facts

"The Government of India has arranged to spend in 1890 91 the sum of Rx 3,750,000 on the construction of Railways and Canals, not chargeable against Revenue

"Under ordinary circumstances we must have borrowed largely in the open market on this account As our balances now stand we expect to be able to find this sum of Rx 3,750,000 in addition to Rx 907,000, on account of loans to be made by Government for local purposes, without raising a loan this year This result is mainly due to the existence of the sum of Rx 3,038,100 to which I have just referred, which enables us to avoid borrowing a like amount and in this way effects a permanent saving of about Rx 120,000 yearly in interest To this extent the finances of the country have been strengthened

"A further advantage of the improvement that has occurred in the financial position is that it is unnecessary at the present time to revise the financial relations between the Imperial Government and the Provincial Governments The present contracts can be left to run their course, and the relations between the Local and Imperial Governments can be settled in 1892 and included in the contracts that will then be made

"In the Statement of last year I made the following remarks on the financial position of the Government of India — My deliberate conclusion is, that while there is every need for economy and for husbanding our revenue, there is no ground for despondent or pessimist views Unless some unforeseen disaster occurs, there is every reason to hope that the lapse of two or three years will show a decided improvement in the financial position of the Government of India It is true that the surplus which we have been able to show in the Estimates is only Rx 106 300, but the Estimates have been framed with great moderation, and if the Indian revenues continue to exhibit their usual elasticity and no unforeseen disaster occurs, I anticipate that the Financial Statement of 1890 91 will show decided improvement These remarks were not universally accepted those who had previously taken a pessimist view of Indian finance were not prepared to admit that there were signs of improvement The progress made in the current year, however, confirms the soundness of the opinion I expressed in March last Only twelve months have elapsed since I ventured to make that prophecy, and the signs of improvement are unmistakable

"In 1889 90 and 1890 91 we have partially restored the grant for Famine Relief and Insurance we have a large surplus in 1889 90, and a moderate surplus in 1890 91 after making provision for altogether special demands for the equipment of the Army Although the coming year is unlikely to prove so prosperous from a financial point of view as 1889 90 I look forward, in the absence of unforeseen disaster, to still further improvement in 1891 92

"But my remarks of last year regarding the signs of improvement in the finances had another effect which I did not anticipate at the time It was assumed in some quarters that I was of opinion that the financial position was in all respects thoroughly satisfactory, and that the Government of India might at once with safety enter upon schemes which their promoters held would have the best effects on the country, but which certainly involved very heavy expenditure at the outset Nothing was further from my intention than to convey an such impression, or to give the slightest encouragement to those who wish to mortgage the future of our finances for the sake of entering upon hazardous speculations

"I said last year that there were signs of improvement I say now that my forecast has been borne out by the facts of the year about to close, and that there are good grounds for expecting further improvement in the coming year, but I fully recognise that we have difficulties of no slight magnitude still to meet, that the finances are exposed to many dangers, and that unforeseen disaster might for a time upset our calculations There is every need for caution and for economy, and I should greatly regret if anything I now say or have said in the past conveyed the impression that the Government of India is in a position to emb on a policy of adventure of any description"

The Hon'ble MR EVANS said —" I have to suggest to the Council to consider whether there is any particular urgency in regard to the passing of this Bill There may be difficulty in discussing the Budget Statement if the Bill is passed now

His Excellency THE PRESIDENT said — It will probably be convenient to adjourn at this stage till this day week and resume the discussion on it when the Council meets again'

The Council adjourned to Friday the 28th March, 1890

S HARVEY JAMES,
*Secretary to the Govt of India*
*Legislative Department*

FORT WILLIAM,
*The 27th March, 1890*
